Dear Ali,

Thank you so much for sharing that wonderful email. I am so pleased that the good work of UCT is being recognized and appreciated! Thank you for doing a difficult job with care and concern.

See you soon for the community ride along – can't wait to see the team in action!

All the best,
CM Moore

Hi Councilmember Moore,
I wanted to pass along an email we received today from a constituent in your district. It was wonderful to hear a thank you and the impact our work has to the housed community. I appreciate the acknowledgement the work is hard and how taking a bit more time to outreach with services is understood. Thank you so much for partnering with us and supporting our work, I look forward to many more success stories.

Be well,
Ali

Dear Seattle City Leaders:

I write to express my very sincere appreciation and to commend your effort and use of proper authority this day to remove encampments from the Jackson Park Trail near our condo association, Greentree Village. Please convey my appreciation to all those who helped with this massive effort! It is still going on outside my dining room window. Additionally, I truly hope that services provided to the folks being removed will result in helpful solutions to their lives.

When tarps and tents began disappearing this morning, I was struck with the beauty of the sun peeking through the forested area once again after being hidden by an enormous tent structure for many months. And I look forward soon to the freedom of walking the path, without fear, and enjoying the quiet, peaceful beauty of this JPP city trail.

These situations, I realize, are neither easy, simple, or quick to resolve, but my husband and I are relieved and grateful to have this one resolved, we hope, permanently. While we will surely remain vigilant, it is good to live with less anxiety and fear about what might happen next outside our condo window. Thank you for hearing my voice and listening to my concerns these past months!

With gratitude and respect,
Cynthia Stone
Greentree Village
