Hi Melissa,

There have been complaints from several neighbors over the course of the project, but it would take time to reconstruct them in a detailed timeline. I can provide you with a generalized list:

- Bonnie and Cordell Sunkell (Dahl Road residents) contacted the CKSD and County about concerns with slope and stormwater run off toward east property line of CK property. This was ultimately resolved with the County confirming the as-built condition agreed with approved plans.
- The Sunkell's also contacted the District during the site clearing phase with complaints about observed increase in insects (ants) and concerns about potential increase in rodents fleeing CK campus.
- The Sunkell's also contacted the District in October 2018, regarding the odor of the paint that was applied to the Huey track. Derek English (another neighbor who lives near Dahl Rd) contacted the District about the same issue during this same time period.
- Karen Soule (Highland Court resident) contacted the District several times regarding construction noise, early start-up, and dust. She also expressed concerns about stormwater drainage backing up onto her property. This is being addressed via CCD 0105.1.
- Last summer, a community member complained about traffic congestion on Anderson Hill Road while road improvements took place.
- Dawn Ruth (Frontier Place resident) has contacted the District several times over the course of construction. Her concerns mostly stem from noise from construction vehicles, construction dust, construction hours. Most recently she has contacted the District with concerns/complaints about forthcoming asphalt paving and the anticipated nuisance odors and public health concern associated with the activity. The attached response was provided to address the asphalt odor concern.
- Allison Simmons (Frontier Place resident) contacted the District last week to complain about construction vehicles using her driveway to park/turn around. I instructed her to contact the District if this observed again and to note any company identification on the vehicle so that it can be addressed.

There are probably others, but those are the highlights.

Subject: Log of external complaints

Hi Sydney,

Skanska's EHS director asked me to make a log of external complaints (if any) from the CK project to show our auditors (upon request) what the complaint was and a result/solution/corrective action (if any). The two I recall are the track resurfacing complaint and brick sealant smell from a county inspector. If CKSD received any external complaints regarding the Central Kitsap MS & HS project that has been taken note of, that would be great. Examples would include noise, environmental, health, traffic complaints etc…. dates and time would be helpful as well.

Thank you,

Melissa Winch, CHST, CESCL
