Hi Cathy,
Congrats on your landslide victory! We have a contract going with Baxter- he and his crew do great work! Hey quick question. Do you have any plans or ideas about all the urban blight on Greenwood around 85th? There's a bunch of burnt out buildings and vacant/abandoned lots that are just depressing. There's a similar problem on Aurora north of the cemetery- especially that building that used to do the COVID testing next to Me Khong Village. And now that Les Shwab has left, basically that whole W side of Aurora north of the cemetery to 125th is just scary. And not just because of the ghosts!

Cheers,
- AB
