Hi Robin

I met Beck at my home back on 12/21/18 along with Mike Lucas from Skanska. This is the damage from the water that CK school district neglected to have adequately allowed for drainage behind my property. Mike Lucas and his 3 associates came to assess the damage also on 12/21/18. I look forward to our next conversation.

Thank you Robin

Hi Karen - given that your subject line suggests "damage", it sounds like the best first step would be to have a conversation about your concerns with our project team.

I am sorry to hear that you feel there has been damage. If the construction project has caused damage, and all agree, we want to first endeavor to get the condition corrected.

Hoping that you will either engage in a phone conversation or send an e-mail with updated information for consideration.

I have copied Beck Eatch above, who is a name you may not be familiar with, but Beck has been a second project manager on the CKHS/MS project since July 2018.

Looking forward to hearing back from you. Thank you.

Robin S. Shoemaker, P.E.

Please let me know who the attorney is who is representing the CK school district in the construction project behind my home.
Thanks
Karen Soule
