Hi Ali,

Thank you very much for the follow-up. I have included CM Moore and Sasha, so they have this information too.

Have a good day!

Subject: RE: Unhoused Encampment Fire on Property

Hi Melisa,
Thank you for reaching out. This location had a full inspection earlier today (as part of our usual process for processing *Find It, Fix It* service requests). The inspection showed there are multiple tents onsite as well as a fire ring, where I imagine the smell came from. The inspection will ensure the site is added to our citywide prioritization process, which includes outreach and trash mitigation. We do not yet have an estimate on when this site will be scheduled for removal.

Constituents should be aware that if toxic fumes are creating an immediate public health hazard, this is an issue that should be directed to 9-1-1 or Seattle Fire Department, not to the Unified Care Team.

Hi Ali,

This is regarding Sasha's call earlier. Is UCT aware of this recurring encampment?

Thank you,

CAUTION: External Email

Hello all,

My name is Erika Cook. I am a Seattle resident of District 3, and I work in District 2. I am email regarding a consistent issue of Unhoused Encampments popping up at the street next to where I work- Maynard Ave. off Lucile Street.
Today they have been burning some sort of substance (plastic or some other toxin) and it is really frustrating the people I work with and in the other units in our office park.

I could not care less about their presence, but the consistent sweeping and then new people coming to camp is really rubbing members of my company the wrong way, and I am worried about the safety of everyone involved. They are worried about their health and safety, as I am about the unhoused people camping.
I am not sure exactly what could be done about this but I think the situation is a ticking time bomb and I am worried for everyone having to breathe in toxic fumes just so they can stay warm.

Best,
