Hi Mike,

As we discussed earlier today, attached is the latest agreement for 12 Flock cameras which has a two year total of $66,600

The following link is a map to the locations where the cameras will be placed: Map - https://planner.flocksafety.com/public/0b0919ed-1528-433d-8992-6f024bbf3656

Please let me know if you have any other questions.

Good morning,

I'm working on the Board memo for the ALPR Cameras purchase. I understand that we're waiting on an update to the attached pricing that will result in a total of $66,600? Regarding the attached, there's a confusing line item there : Year 1 Total $39,100." Do you know what that means…is that the annual software maintenance fee, and is that in addition to the $66,600?

Also, has it been determined where the cameras will be placed, or is that down the road? If so, can you give me an idea as to how the locations will be selected?

thanks
