If you haven't seen this you better check it out. I asked CHatAI to write this letter below to all of you...and it took all but15 seconds It's going to change learning ChatGPT passes exams from law and business schools | CNN Business

Dear District IV Superintendents,

I am writing to bring to your attention some concerns regarding the use of ChatAI in our schools. While ChatAI can be a valuable tool for students and teachers, there are several potential issues that need to be addressed.

First, ChatAI is not always accurate, and there may be a risk of students receiving incorrect information. Additionally, ChatAI is not able to provide the same level of personalization and understanding as a human teacher, which may limit its effectiveness in certain areas of instruction.

Another concern is that ChatAI may also limit student's ability to think critically and solve problems on their own. If students rely too heavily on ChatAI, they may not develop the necessary problem-solving skills.

Lastly, ChatAI is not capable of providing the emotional support and empathy that students often need. It may not be able to understand the feelings of a student and may not be able to support them emotionally.

I recommend that we carefully consider the potential benefits and drawbacks of ChatAI before implementing it in our schools. We should also make sure that students are made aware of the limitations of ChatAI and are taught how to use it responsibly.

Sincerely, [Your Name]

Subject: I need a list of Trimester schools
To: Dickinson, Brady <dickinsonbr@tfsd.org>

Good Afternoon Brady,

Do you know if there is a list anywhere of the Trimester schools? If not, can you please request that the Supts let me know if they are a trimester school and if they are planning any changes? We are working on IDLA schedules. Our Trimester classes are not being used like they use to be. :).

Thanks!

Laural
