Hi Terry,

To register, log in to Washington TRAIN at www.train.org/washington/ (you'll need to create an account if you don't already have one).

Find the course on the calendar and click the register button (blue box with a + sign). This course requires a FEMA application – send your completed application directly to me. We will also require the prerequisite course completion for IS-293. Details are in the course description.

For assistance in uploading your IS-293, view the user guide shown in the Announcements section. Please let me know if you need further assistance.
