

FUSUSCONNECT

PROGRAM *HELPING TO CREATE A SAFER, MORE CONNECTED COMMUNITY*

A safer, more connected community is only a few steps away, all while using existing equipment

Participating in the FususCONNECT Program enables law enforcement to respond to incidents at various community locations faster, equips officers with advance knowledge of the situation, helps keep our residents and business owners safer, and builds closer ties within our community.

What is the FususCONNECT Donor Site Initiative?

The FususCONNECT Donor Site Initiative is a partnership directly with the Burbank Police Department. The program enables you to share live video feeds with law enforcement in emergencies to improve community safety and situational awareness for the Burbank Police Department.

What do I need to participate in the program?

A fūsusCORE will be provided to you, this appliance will create the virtual bridge in between your business and the Burbank Police Department in case of any emergency.

Will this impact my network?

There will be no impact to your network, the appliance builds a separate tunnel on a secure network to transmit alerts and video to law enforcement.

What are some locations I can consider for the Donor Site Initiative?

- Apartment Complexes/Housing Communities • Public/Private Schools
- Day Cares • Convenience Stores/Gas Stations • Restaurants/Bars/Lounges
- Retail Locations

What information should you provide to Fusus on the Donor site?

Scan the QR Code to the left to view or enter all necessary information needed for each donor site.

For more information or to schedule an installation, contact fūsus directly with the information below.
