Subject: Incident statement

Hi Miranda,

When the fight happened out on the balcony outside the library one of our security personnel, Rick, was in the library. We both ran out there. Rick separated [REDACTED] and [REDACTED] and moved [REDACTED] away. [REDACTED] was yelling at [REDACTED] that he just got him in trouble for no reason. He was very upset at [REDACTED] for pushing him and getting him into trouble. [REDACTED] also appeared to be injured and Rick attended to him and called for help.

That's basically what I recall from the incident.

Thanks,
Steve

Statement of Richard Haskins related to the incident on 12/10/2019 approximately 12:00 -12:30 outside the Library.

On or about 12:15-12:30 December 10th 2019 I was in the Library at the counter talking to the attendant there and heard what I thought to be students or staff outside the library shouting stop and other voices of concerns. So I hurried out from the library to where the sounds were coming from and noticed a gathering of people. I made my way to the middle of the of the crowd and saw [REDACTED] in very close proximity to [REDACTED] bent over wincing in pain complaining of his arm hurting and not being able to move it and [REDACTED] was just in the motion of standing up straight from leaning over [REDACTED] pretty much ruffled and still emotionally accelerated. I did not see any punches thrown nor did I see them locked together, what I did see was people trying to pull them apart.

I then called on the radio after I secured [REDACTED] from out of danger, I noticed [REDACTED] headed back towards the library along with [REDACTED]. As I was trying to get [REDACTED] to the office Jason the Resource officer took custody of [REDACTED] and brought him to the office, I went to retrieve [REDACTED] to take him to the office after he gathered his belongings. So he decided to leave the library and I called out to him and several times as he was headed in the opposite direction of the office and at first I thought that he did not hear me. I then raised my voice and said [REDACTED] and he turned to me and said, "Don't yell at me" and began to follow me towards the office. Once in the office I checked to make sure that [REDACTED] did not sustain any injuries and that he was at a calm level before I stated to get his version of what happened.

"From what I saw [REDACTED] exited the library as any other student would, but shortly after [REDACTED] came out and shoved him.
