Subject: Gunshots at [REDACTED]

On Friday 9/20/19 at 11:41am I was sent to [REDACTED] & [REDACTED] on a call of a man waiving a gun. While responding, the run was updated to shots being fired. Home security video (and audio) showed that two shots were fired during this incident. The residents of [REDACTED] stated that they have one of your sensors affixed to their home. No evidence was recovered from the scene so it is unknown what caliber of firearm was used.
