Subject: Data

I am looking to glean some data from Shot Spotter for some target enforcement.

Are you able to provide me a list of address's and where shot spotter alerts that have occurred on Zone 4? I am particularly looking for repeat addresses so we can determine the top three locations where shot spotter alerts have occurred. I would like to use this information so I can compare these locations to other crime date we collect so we can focus in on the areas and people that cause the most issues on Zone 4.

Thanks in advance.
