Hello, thank you for the prompt response. I do believe the Shotspotter equipment is not working. There were no calls/complaints of gunshots at [REDACTED] on 10/04/2022. We canvassed the area of [REDACTED] and no one heard any gunshots in that immediate area and time, but did hear the gunshots at 6:20 on [REDACTED], along with the numerous call/complaints we had received. There were 5-7 gunshots (6 confirmed) at sidewalk approximately 100' north of [REDACTED] on 10/04/2022 at 6:20pm. Can you please advise how we get the equipment evaluated for functionality and accuracy?

Thank you for the assistance!

Hello,

Thank you for contacting us about an incident at 1820hrs. on 10/05/2022 in the area of [REDACTED].

We researched the referenced incident and located the audio closely matching the incident details. Upon further research we have determined that Incident 616-171159 was misclassified as OT. We have reclassified this incident to reflect the accurate classification of MG.

This incident will be added into our training materials and analyzed further to better understand the root cause of misclassification and help prevent this from occurring in the future. We take great strides to accurately classify incidents.

We have attached the ILS for the incident to this email for your reference.

If you have any further questions, please don't hesitate to contact us at support@shotspotter.com.

Thank you and have a safe day,
