On 12/23/2022 I, Sro. Omar A. Connor, was working the 0700hr to 1500hr shift as the School Resource Officer at the Groton-Dunstable Regional High School. On this morning I was walking around making my normal rounds checking all exterior doors making sure that they're all locked and secure. After making my way back to the front office to speak with the principal and assistant principal, our school nurse Mrs. Shea, came out in to the front office area to inform us that a student was very sick and vomiting inside the bathroom in the nurse's office. Mrs. Shea also stated that she believed that the student had ingested something.

Mr. Woodlock (GDRHS Principal ) and I went into the nurse's office to check on the student per the request of Mrs. Shea. Once we went to the door of the bathroom, we saw a student hunched over the toilet vomiting; the student was identified as [REDACTED], he goes by [REDACTED]. [REDACTED] did not look very good and was violently vomiting; [REDACTED] eyes were extremely blood shot and he was very pale in the face and did not look well at all. [REDACTED] could hardly keep his head out of the toilet but when I asked him if he was ok, he stated no he did not feel well at all. I asked [REDACTED] what he took and to please tell me the truth so we can help him get better sooner rather than later. [REDACTED] stated that he ate a "weed rice crispy treat". I asked him where he got it from; he was unable to respond because he went back to vomiting.

Mr. Woodlock and I left the bathroom and went back out to the office; as we were talking about our investigation into where [REDACTED] got the rice crispy treat, Mrs. Shea came into the office and told us that [REDACTED] told her that he and [REDACTED] got the rice crispy treat from [REDACTED]. Mr. Woodlock then had Mr. Arena and Mr. Wright (both Assistant Principals) try to find out what class [REDACTED] and [REDACTED] were in and to get them both down to the front office as soon as possible.

Shortly thereafter [REDACTED] and [REDACTED] arrived at the front office; [REDACTED] was sent into Mr. Wright's office to speak with him while Mr. Arena went into his office to speak with [REDACTED]. I popped into Mr. Arena's office to and told [REDACTED] if he was honest and told the truth that would go along with the school and I for punishment purposes. I then left and popped into Mr. Wright's office and told [REDACTED] the same thing. They said they understood and both told me they would tell the truth.

I waited out in the front office, for the Assistant Principals to speak with the students; Mr. Arena came out and handed me a partially eaten rice crispy treat that [REDACTED] said that he purchased it from [REDACTED]. Shortly thereafter Mr. Wright came out of his office and tells us that [REDACTED] has admitted to selling Marijuana/THC-infused rice crispy treats to both [REDACTED] and [REDACTED], and he also admitted to doing this on two other occasions in school with [REDACTED] and [REDACTED]. [REDACTED] sold one rice crispy treat for \$20.00 and the other for \$40.00.

All of the students' parents came to pick them up and speak with myself and the principals about the seriousness of this incident that occurred on campus. The principals informed the parents that there would be a full investigation of this incident and they would be getting back to them within the next few hours or the next day.

[REDACTED] punishment by the Groton-Dunstable Regional School District was a short-or long-term suspension with 10 days of his suspension being out of school and another 10 days being inside the school. [REDACTED] would also have to take a THC/Drug class with Mr. Tackett (in school suspension/behavioral specialist).

With all this taking place on school grounds we are recommending [REDACTED] for diversion for

the following crimes:  
MGL C94c-s32b (for class C-THC).

On 3/1/2022 I spoke with Laura Oram (DAA) Juvenile Diversion Case Manager about [REDACTED] and she advised she tried to reach out and contact [REDACTED] mother on 1/26/2022. Laura spoke with [REDACTED] mother about the diversion program and what the stipulations of the program would be (standard diversion conditions, school, continue counseling, and at least 1 screen as a baseline) and if they would be on board with it. Laura never heard back but called back again on 2/8/2022 and left a message asking for a call back. Laura never received a call back. She then sent a letter to mom on 2/10/22 requesting contact back by 2/23/22 and no response was given. Then on 2/28/2022 the father finally got back to Laura and said they would not like to go with the diversion plan.

After Laura and I spoke I went back to my supervisor and requested permission to move forward with issuing a criminal complaint against [REDACTED] for 2 counts of MGL c.94C s.32B (Possession with intent to distribute class C). As I wrote in my initial report [REDACTED] came to school with 2 THC infused rice crispy treats and sold them two 2 different student's. [REDACTED] told one of our assistant principals that this is the second time he had done this in school and for that reason I am charging [REDACTED] with 2 count's of MGL c.94c s32B.
