

## FLOCK SAFETY

[Here](#) is a link to our Help Center, it has articles that they can search if the recorded training doesn't make sense.

[Here](#) is a link to the certification section, if you would like folks to review some content then take a quiz.

Lastly, here are some short videos I have created over the past several months, depending on their role, they might be good to share with your folks since they are shorter than 55 mins.

1. [Lookup Tool](#)
2. [How to create a Saved Search](#)
3. [How to create a Custom Hotlist](#)
4. [Outcomes report](#)
5. [Hot List - camera selection to receive hot list alerts](#)
6. [How to request access to other networks](#) - this is the "Camera Details" permission in Roles, marked as "Cameras" in the green navigation bar
7. [How to exclude a license plate from a search result](#)
8. [How to suppress a license plate](#) - NOTE: suppressing a plate means no one in your agency will get an alert

Let me know if any questions come up but I'm sure you can answer most of them by now!

Regards,  
Melissa
