Hi Kent,

Just an FYI. I attempted to call [REDACTED] twice last week but didn't hear back. I also emailed her once. I will try to call her one more time this week and hope we can connect.

Kent Kultgen,

I am sending you this email today and I expect an immediate resolution to the issue of Mr Cramer. He is using class time to express his marxist opinions and trying to brainwash his students. He is promoting BLM/Antifa and using class time to do so. I will not tolerate this domestic terrorist behavior. He has the right to his opinion regardless if we agree with it or not but class time IS NOT THE TIME OR PLACE. He is ONLY to teach the curriculum. I expect you to make him cease and desist immediately. On the zoom class that my grandson [REDACTED] was attending today between 10:30 am and 10:55 am his grandfather told Cramer that this was not what class time was for and that he was recording his BLM speech. Cramer asked him what he said and he repeated that he was recording him talk to the kids about his marxist views and cramer immediately disconnected our grandson from the zoom class. So this is how a teacher is supposed to behave? Once he is caught trying to brainwash our children he dumps the student so he can no longer attend class? I am so angry right now you CAN NOT EVEN IMAGINE. Once Mr Cramer turned off our grandsons ability to attend class Mrs Bower called (as obviously Mr

Cramer had to tell her he just got caught by a parent) and spoke to [REDACTED] Grandpa) and she said "You cant record what they talk about in class" [REDACTED] Hill said "Yes I can" Mrs Bower "We dont allow you to record class sessions" [REDACTED] "What law says I cant record?" Mrs Bower "I say you cant record, it isnt a law it is my rule" It went on from there.

I expect to hear from you on this matter and if I dont I will assume you support this disgusting behavior and I will go above your head. I truly hope as the superintendent you support and protect our children from these teachers who use their profession to spread the marxist ideology though our schools.
