Christie

Sometime back you requested for Peggy, her requesting from you, an email address for an intern for Peggy. I declined the request, stating the intern should not have access to the same things Peggy does for FERPA reasons.

I was working with some staff yesterday to transfer some files and found a name I did not recognize that MTSS Documents had been shared with.

This is the email of her intern.

Teachers would not share this unless told to by, or approved by Peggy.

Please address this with Peggy in writing. I will also get you a list for you to contact the teachers that will now have to go unshare this. There are 1246 records shared.

This is going to create a lot of unnecessary work for teachers at a busy time of the year unsharring all of these. It looks primarily @ LBeS so you will need to email teachers (list provided) to unshare any documents they have shared with the intern as quickly as possible.

There were IEPs, meeting notes, MTSS documents included in the share.

I have put a file on your desktop that contains the users that have had to share documents named, `IllegalShareVermontUsers` and need to be contacted to unshare.

Also a folder named `IllegalShareVermontFiles` with the names of the files in them. Some are templates but no way to sort those out. Everything just needs to be unshared.

I would think she would know above anyone else the privacy and integrity associated with her job.

Thanks  
Lanier
