Hi Dennis and Kay,

I received the initial plans and specs for Prairie View Ranch months ago and asked for additional information from them twice. I never really got a response and didn't know if they were still in the process of designing and gathering more data. I'm a little surprised that there is somebody being served by the system because my understanding was that they were still in the process of developing the area. I don't think they even got a PWSID number yet. The plans and specs they submitted are on my other desk or on one of the shelves in my cubicle. If you need to get them immediately, feel free to take them.

I had a half day of training today here in Lakewood and I am working the rest of the day at home. I'll be flexing on Monday and will be back in Tuesday. If you need to get a hold of me sooner, let me know.

Paul

Paul, I spoke with John Gauthiere regarding the above. Kay Juricek received a CORA request for this project, and there is no file for it except for the file you have that was originated from Tom A. I called John to get an update and find out when the project would be submitted for review. He said he expects to have it submitted by next week. DP
