Subject: Fwd: [External] Access to Site Assessment File for City of Chicago

[Warning: External email]

Kaila,
Can we send this official request over with the data to be provided to newarrivalsdata@cityofchicago.org?

OEMC is also looking to get access to historical data for their cost projections.

We can get the extract and drop it in and tie it all into our current data sets.

Let us know if that is something we can re-ask for with the conditions that they requested being met. (They were asking for a request to come directly from a cityofchicago.org email).

~Nadine

B and C

Nadine,

No issues sharing since IDHS has approved. What I would request is that the formal request come from a Chicago email address and that any documents if emailed stay between Illinois.gov and cityofchicago.gov addresses.

Request can be sent to Emerson and I and then we can work with the team as appropriate to provide the applicable data.

Happy to discuss if you have any questions, let me know.

Thank you for all you do!

V/r

Subject: [External] Access to Site Assessment File for City of Chicago

Good Morning,

I spoke with Melissa this morning about getting access to the Site Assessments that were completed early on in the New Arrivals Mission.

There is a request from our Unified Command to revisit a few of the sites, but we wanted to be able to access the data to prioritize based on data from those previous visits.

Is that access able to be granted for us to pull that data over and provide that information for analysis? We would like to have access granted to Shekinah Jones, who is an OEMC employee, and I to be able to review.

What information would you need from us to assist?

Kaila Lariviere, one the Unified Commanders, is also copied on the email in case there are any additional questions.

Thank you all!

~Nadine Carlson

Subject: Re: Resident & Staff Grievances Emails

I concur. Temporary solution is to get Favorite emails. Favorite can protect the documentation until we get city emails.

We have asked for city emails since June of 2023 and not getting any movement.

Maybe Kaila can do something?

Kind Regards,

Tim Thomasson

Subject: Resident & Staff Grievances Emails

Hello,

I have been made aware of a recent request that was initiated for an official email, the current status of which remains unclear. It is imperative that anyone from Operations handling Resident and Staff Grievances communicates through an official email platform rather than utilizing personal services like Gmail or Outlook.

Such a practice not only ensures enhanced security but also upholds the privacy standards we aim for. Ideally, a dedicated group or shared email should be instituted for these matters. Whether to use a single consolidated email or two distinct addresses is a decision I defer to Leadership. However, I believe they should be kept separate.

Please consider this request with utmost urgency and prioritize it as mission-critical.

Best regards,
