Important to note Angleton's many mistakes and "false positive" mole id.'s led to discrediting legit suspicion in intel community--paving the way for real moles like Aldrich Ames and Hansen. So Cleveland Cram told me as i read his reportat his house.

As far as evidence-less claims, do you have any intention to publish the 4,000 page Cram report you cited? No??

Angleton was fired for illegally opening private mail of US citizens. When is this supposed "re hiring" After the firing? By whom. For what?
