

County Probation Departments

Re: Public Records Request

December 28, 2022

On behalf of ESPLER Project, Inc., I am making the following request pursuant to the California Public Records Act, California Government Code § 6250 et seq.

Within ten (10) calendar days, please respond the following public records:

- A list of all cases for California Penal Code Section 647(b) and 653.22 for the time period of January 1, 2020 through February 28, 2022. Please provide all segregable related data, including the case number, the date and time on which the arrest or citation occurred, the officers involved, and the location of the occurrence. If your agency worked in collaboration with another law enforcement agency on investigations involving violations of California Penal Code Section 647(b) and 653.22, please provide the case numbers for these investigations and all relevant associated material, even if this agency was not the lead investigatory agency or the agency that executed the arrest or citation.

- If no such list exists, please provide all such documents sufficient to show all cases involving violations of California Penal Code Section 647(b) and 653.22 with which this agency was involved for the time period of January 1, 2020 through February 28, 2022.

- ● All police and incident reports, field interview cards, or equivalent summaries of police interactions, associated in cases where defendants were accused of with violations of 647(b) and 653.22 , including all cases currently in the process of being adjudicated.
- ● All available lists of technologies and platforms used in the investigation of, securing of, and adjudication of 647(b) and 653.22 citations and arrests. This includes any technology used to track the location of individuals on probation/parole for these violations. Please include the name of the product or system used, the manufacturer, and any relevant model numbers. Technologies to which this request applies include, but are not limited to, the following tools and capabilities:
 - ○ facial recognition technologies
 - ○ automated license plate readers
 - ○ location data software and platforms
 - ○ cell-site simulators
 - ○ predictive policing programs and hot spot mapping systems
 - ○ any systems utilizing artificial intelligences, algorithms, databases, data analytic centers
 - ○ cameras, body-worn or otherwise
 - ○ computers, tablets, and mobile phones
 - ○ all software, online platforms, and applications used in the course of the investigation,

including (but not limited to) Callyo, Facebook, Instagram, Twitter, SMS services, and dating applications

- ○ audio and video recording equipment,

This equipment may be a standalone item, a portion of another system, hardware, software, a mobile application, subscription service, or may take another form.

If no such list describing the requested information exists, please provide documents sufficient to identify the following information regarding the tools for each technology used by this department in the investigation and prosecution of the referenced criminal statutes, including, but not limited to, those technologies listed above.

- ● All agreements (in addition to any associated exhibits and amendments) related to this agency's use of the applicable technologies, including but not limited to all contracts (related to purchase, use, sharing of equipment, sharing of data, and any other action related to the use of this technology), memorandums of understanding, intergovernmental services agreements, nondisclosure agreements, records related to any complimentary use of the equipment, or any other agreements.
- ● Any written policies regarding this agency's use of this agency's use of the applicable technologies. Responsive materials include all policies and procedures related to:

- ○ the acquisition of the technology, including guidance regarding procurement through the

bidding process, third parties, or any other method

- ○ the use of the technology, including data collection, retention, and disposal
- ○ training on and coordination of the technology
- ○ any application, affidavit, or similar records created in the course of use of this

technology

- ○ the sharing of the equipment itself
- ○ the sharing of any information gathered by the technology, either with other police

departments, the district attorney, or any other entity, inside or outside of the local

criminal justice system

- ● Materials regarding this agency's acquisition of the applicable technologies. Responsive materials include, without limitation, all bidding and procurement materials, including the initial Request for Bids, Request for Proposals, or equivalent bidding records
- ● Invoices and receipts related to payments for the equipment

● All memoranda of understanding, contracts, financial materials, and any other agreements between this agency and any nonprofit entities that previously or do currently have a relationship with this agency relating to human trafficking and prostitution cases. Responsive materials include all those related to partnerships and collaborations for the time period of January 1, 2019 through February 28th, 2022. Responsive materials include a copy of all memorandums of understanding (MOUs), contracts, intergovernmental services agreements, reports including financial documents with all non profits.

Please provide these records in an electronic form via e-mail to the email address (ending in @requests.muckrock.com) from which you received the request. Please provide these records on a rolling basis.

If you have questions, please respond to the email address from which you received this request or call 415-265-3302.

If there will be costs associated with the processing of this request or the provision of any records, it would be appreciated if your office could inform us of those costs in advance of processing this request.

Sincerely,

Maxine Doogan, Executive Director ESPLER Project, Inc.
