Warren Wells, a former wide receiver who became one of the most feared deep threats of the vaunted Oakland Raiders of the late 1960s, but whose career ended after he served a season-long prison sentence, died on Thursday at a hospital in Beaumont, Tex. He was 76.

His death, after a heart attack, was confirmed by his son, Gary Stewart.

Wells joined the Raiders in 1967, during the waning years of the American Football League, when the team was a perennial playoff contender. Under Coach John Rauch and later John Madden, and with Daryle Lamonica and occasionally George Blanda at quarterback, the team was known for its long-bomb offense.
