Hey Steve, it's a water main break at [REDACTED] near the Mayor's house. She feels that our response is slow. Can we jump on it.

Any problem upcountry from the earthquake?

None that I'm aware of.

I will report back to the mayor.

Yep. Not close enough. My son in LA felt it, but no damage, just a ride.

I felt it here in Fresno. The water was splashing out of the pool.

Whee!
