Supervisor of Records,

On Nov. 20 you received an SFAC 67.21(d) petition from this email address re: an Oct. 4 request from us to SFPD for certain police misconduct records. At the time I alleged that SFPD was simply refusing to provide us any records; that is no longer the case, and we have received on Nov. 25 the beginning of a rolling records response. We now allege instead that public records or parts of records are being improperly withheld.

You may consider the Nov. 20 petition from this email address withdrawn, and consider this a new SFAC 67.21(d) petition for a written determination that all or some of the following parts of records are public and for all associated orders to disclose. We will continue to pursue before the SOTF in *19124 Anonymous v. Scott et al.*, instead of before you, an SFAC 67.25 violation for SFPD's refusal to (prior to our complaint) provide rolling responses.

SFPD has so far published 85 records online on "Sendgrid," with what appears to be 12 duplicates, for 73 unique records. The record names, our numbering scheme for reference, and the URLs that SFPD published are in Appendix A. You may get the records themselves from SFPD's published URLs below, or from SFPD itself, as they are too large to include in the petition and many are audio/video files that I cannot embed herein.

Please determine the following are public parts of records:

1. **PDF documents:** - All textual redactions in records #1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, 35, 36, 37, 38, 39, 40, 41, 42, 43, 44, 45, 46, 47, 48, 49, 50, 51, 52, 53, 54, 81, 82, 83, 84 (which are all PDFs). None of these textual redactions have a clear reference to a statutory or case law exemption justifications, and are thus unlawful withholdings, and must be disclosed.
2. **Bodycam footage:**
  - a. The following parts of the original bodycam records #55-76 (inclusive): Office Name/Badge number, GPS location tags, and original timestamps. This information has been stripped from the MP4 files provided to us without any justification. From publicly available Axon documentation for the 'Body 2' cameras used, we believe this information does exist, was recorded, and must be disclosed. No justification has been provided for withholding this information. SFPD appears to store the original records in a service called "Evidence.com" and we would like copies of the full record stored therein (except exempt parts).
  - b. The original uncompressed bodycam audio and video footage in records #55-76 (inclusive). The CPRA requires exact copies, and the Sunshine Ordinance requires minimal withholding. Some of these videos have been

compressed to incomprehensibility. SFPD may lawfully redact (with justification) exempt parts of the video, but has no authority to damage the rest of the video record through compression.

- c. All “visual” redactions in records #55-76 (inclusive). There are numerous blurrings of the record. I am challenging all of them as unlawful, since none have any justification whatsoever.
