1/5/20 18:59	[REDACTED]	Chief William Scott	[REDACTED]	Mayor London Breed	"Good Morning Mayor, we had our first homicide this year overnight at O'Farrell a d Larkin Victim is [REDACTED], [REDACTED] years old. She has a local address on [REDACTED] Summary [REDACTED] and an unknown Hispanic Male engaged in an argument [REDACTED] armed herself with a knife and a milk crate. She hit the male with the milk crate several times. The male produced a handgun and shot [REDACTED]. [REDACTED] walked into a store and told the employees that she was shot. She exited the store and collapsed on the north sidewalk of O'Farrell Street. The male suspect fled on O'Farrell on foot. A white [REDACTED] (unknown license plate) may have also been connected to the incident and also fled on O'Farrell. The victim has a history of [REDACTED] and [REDACTED] but at this time our investigators are still trying to determine the motive for homicide or if his connected to any previous incidents. "

As to other retail stores, by 8 p.m. last night many of the non essential retailers were already closed as well. For your awareness. PS I will send pictures of the gym shortly. "
3/19/20 16:05	[REDACTED]	Chief William Scott	[REDACTED]	Mayor London Breed	"Good Morning Mayor, last night we had a shooting at 21st/Shotwell in the Mission District. The victim was shot and died at the location. Officers we in the area on patrol and observed the suspect vehicle, pursued it and caught and arrested both suspects after a foot chase. The officers also recovered a gun believed to be the .order weapon. The victim has not yet been positive identified and is listed as a John Doe. Investigators are trying to determine the motive for the shooting. This is the 8th homicide of the year and second in a week. Our response to the homicides coupled with the policing needs for the Shelter in Place Order: All officers departmentwide have be ordered to be in uniform for the duration of the shelter in place order. Officers working administrative assignments are rotating working in the field across the City to supplement and support District Statio s. I have suspended all in service training. Officers assigned to the Police Academy have been re-assigned to work foot beats in the Civic Center and downtown business districts. Many of the non sworn personnel are telecommuting. -For your awareness. "

People out are very small in numbers. The following hot spots were noted (these are social distancing challenging locations): Marina- people were out walking and exercising. No large groups of people observed; Embarcadero- people out and exercising - no large groups observed; Mid Market; Crowds are small overall. Officers posted and visible at 8th, 7th and 6th and Market. UN plaza was thick with people not practicing social distancing. Capt. Fabbri handling and I will go back by there in a bit to recheck. Homeless population is still challenging. Footbeat officers engaging. In the Bayview, 3rd Street is challenging at Quesada, Revere, Paulou, and Newcomb. Groups of people hanging out. Officers are engaging, educating and messaging on social distancing. Potrero Hills housing developments was very quiet with very few people out. Fillmore/Golden Gate has been a problem for the past few nights with groups 30 or so deep hanging out and not practicing social distancing. We have engaged with the groups (including me personally Friday night) and educated people on social distancing to help prevent the spread. Today no one was out at 4:30 p.m. at Fillmore/Golden Gate Note: [REDACTED] Liquor was closed by the time I got there today so that may have contributed to no one being out. I was all over the City today and overall, people are listening and complying. For your awareness. "

3/26/20 4:24	[REDACTED]	Chief William Scott	[REDACTED]	Mayor London Breed	<p>"Good Afternoon Mayor, This evening's status of the City re: COVID-19: Assistant Chief Redmond personally went out and checked the following locations around the City from a out 2 p.m. to 5 p.m. People out are very small in numbers again today. The following hot spots were noted (these are social distancing challenging locations): Mid Market; Crowds are small overall when checked but I was told that earlier today the Officers posted and visible at 8th, 7th and 6th and Market. UN Plaza gatherings were light and manageable over all with officers messaging social disting when checked. However, I was told the Farmer's Market was thick today and social distancing was an issue. We either need to work with the vendors to help with the social distancing or I recommend restrictions or shutting it down. The HSOC team was focus on engagement with the street population and homeless population. They made some progress with spreading people out and clearing some of the problem streets. We have to keep going back to continue pt.make progress. Capt. Homeless population is still challenging with the tents in the Tenderloin but it reportedly looked a little better today with the HSOC outreach. Footbeat officers engaging in Mission Bay and Embarcadero reported a lot less people out that week and a lot less socializing. People were .mainly walking and exercising. The exercise park near the food trucks in Mission Bay continues to be a problem with social distancing. Officers were sent there today and gave warnings. People complied but we need to stay on it. In the Mission District we have officers posted at 24th/Mission and 16th/Mission. These have been social distancing challenges. 24th was thinned out this afternoon. 16th was a bit more challenging with [REDACTED]. We put [REDACTED] out to [REDACTED]. In the Bayview, 3rd Street was a little better today.</p>

					<p>Fewer people at Mendell Plaza but still a problem with gatherings and social distancing along 3rd at Quesada, Revere, Paulou, and Newcomb. The liquor store at [REDACTED] is a problem with groups of people hanging out. Officers are still engaging, educating and messaging on social distancing. I recommend restricting their hours or shutting them down altogether if restricting their hours doesn't solve the problem. The City Attorney is on board and has provided advice on how we can make that happen.</p> <p>Fillmore/Golden Gate looked great tonight. I will send you a picture that was taken in front to [REDACTED] Liquor. Early this evening no one was out there on either side of the street. As to enforcement, now that the City Attorney's Office has helped put out clear enforcement protocols officers shut down two businesses that were opened and none essential in the last couple of days. These were officer initiated shut downs (a wine bar and the other was a businessman who was open for business and was determined by officers to be non essential (not exactly sure what the business nature was but the City Attorney who reviewed the report said the shutdown was appropriate) . Both business owners complied with the officers orders to close. An incident report was taken for each incidents and routed to the City Attorney's Office. If a decision is made to go forward with prosecution we can go the criminal or civil route. We will have officers follow up to make sure they stay closed and certainly push for prosecution if they reopen. We have put systems in place and are tracking all such reports. Businesses still mostly in compliance from what has been reported. For your awareness. "</p>

3/27/20 4:26	[REDACTED]	Chief William Scott	[REDACTED]	Mayor London Breed	<p>"Good Evening Mayor, Here is the status of the City today for COVID-19. I spent the last 5 hours in the field around the City to get eyes on: Bayview- 3rd Street look much better (early evening from 4:45 to 5:45) the gatherings along 3rd Street were much smaller than last week. The [REDACTED] had no one in front when I was there. Mendell Plaza, LaSalle, Paulou, and Revere were much lighter than normal and the people who were out there were keeping some distance between them for the most part. There were a few pockets of people that has to be addressed. Bayview officers reported that the outreach teams from the EOC flood the area with COVID-19 pamphlets and they believe that has made a difference. Alice Griffith was very quiet. No gatherings at all. Ingleside- Mission St. from Geniva to Ocean all non essential businesses were closed. Very light pedestrian traffic and people at the bus stops were social distancing. We saw one group of 5 people not social distancing and out playing dominos in the bed of a pickup truck. They were warning and complied immediately. Along Ocean Avenue all non essential businesses were closed. Very light pedestrian activity no social distancing issues. West Portal, Traval, Clement were all the same with no non essential businesses open, very light pedestrian activity. Problem areas observed were Haight Between Masonic and Stanyan. All non essential businesses were closed but there were pocket of homeless people sitting on the sidewalks in groups of two to abou 10 along Haight. We engaged most of them and they mostly claimed that they lived together and therefore they were not practicing social distancing. This will be a challenge. Not sure they lived together but that seems to be what they all were saying along the block about 40 to 50 in all in different groups. At Balboa Park, the park was empty except for the skate board park. Lots of young kids 10 years old or so, some teens and a few adults. About 30 in all.</p> <p>This is a constant issue since the Public Health Order went out I'm told. We are working with Ginsberg to post Park Rangers and/or Officers or at least regular check. From my understanding the kids and teens climb over the fence even when the park is closed. I didn't get eyes on Market or the Tenderloin tonight but the reports that I recieved were that the people gathering at the hotspots were less hostile today and there seemed to be fewer people along Market. Officers are still being posted along Market and other areas of the Tenderloin still challenging. For your awareness "</p>

3/28/20 3:51	[REDACTED]	Chief William Scott	[REDACTED]	Mayor London Breed	<p>"Good Evening Mayor, Here is the status of the City re: C COVID-19 public health order related issues this evening: Officers shut down two smoke shops ([REDACTED]). There was a discussion about whether they .at the essential business criteria and once ruled non essential we advised the owners and shut it down. An incident report were taken. And we will follow up to ensure the business stay closed. At [REDACTED], there was a restaurant/Bar selling alcohol to people waiting in the take out restaurant lines allowing people to drink while they waited in line. We shut down the illegal alcohol sales and an incident report. Central officers will monitor the restaurant this weekend. In the Mission District we had officers walking through Dolores Park this evening and right now. Not a big crowd but some Social Distancing issues. Same at Wahington Square. We are engaging with the people out there. Park Station officers just did a walk through on Haight Street. We had been advised today that homeless advocates will be giving out tents along Haight and encouraging homeless persons to pitch their tents on the sidewalks. As of 20 minutes ago the officers did not see any tents. Park Station Captain Pagano trying to keep this situation from becoming a new or worse public health and social distancing issue with encampments along the sidewalks on Haight Street. Captain Dangerfield has assigned a team of officers to work 3rd Street. That along with the education and messaging by the Community Branch dispatched from the EOC is making a difference we believe. There were not issues at Mendell Plaza today and 3rd Street, although not totally there, is looking much better than this past weekend. We sent out the update from the newest order you approved today. We emphasized new restricted liquor store hours.</p> <p>Tonight our officers will start engaging and messaging with Liquor and convenience store owners and managers to get compliance starting now. Tenderloin Captain Fabbri and our HSOC Commander Fong reporting that less people were out today than earlier in the week and we are making slight progress getting some social distancing compliance in the Tenderloin but we still have a uphill climb and a lot of work to do. For your awareness. "</p>

3/30/20 4:26	[REDACTED]	Chief William Scott	[REDACTED]	Mayor London Breed	"Good Evening Mayor, Status of City today re: COVID related issues: Dolores park looked good today. Panhandle looked good. People out walking but no basketball. Haight and Clayton hroup an issue today. Park officers engaged them. Haight and ashbury and Masonic was clear today. Mission Street looked better today. Officers engaged groups at 16th and were able to prevent groups from gathering and sidewalk panhandling on Mission between 15th and 16th. The markets were not as crowded but still need to be addressed. We are working with The Community Branch from the EOC on this. Most of the dispatched public health calls today were about recreational locations (parks, public spaces) and essential businesses (groceries stores mainly) not promoting social distancing. There were 28 such calls by early evening. The assessment overall was good compliance even at the parks and open spaces but still sporadic non compliance. For your awareness. "

Follow up from our conversation this morning regarding restricting Liquor store hours. Our Officers contact Liquor/Conve science stores all over the City. All co acted were compliant except for two stores that tried to stay open past 8 pm: One at [REDACTED] [REDACTED] It was shut down by officers. The other was on [REDACTED] They were claiming to be delivery only after 8 pm but were observed serving in-store customers also. Officers also shut that o w down. As far as reducing gatherings at those problem location the results are very good. "

They met at Treasure Island and we had officers there waiting for them. They then moved to Candlestick point and we were there as well. From there they splintered and we had a series of simultaneous side shows across the City in Bayview, Ingleside, Richmond, Mission, Park, and Southern Districts from about 1230 a.m. until about 3 a.m. There were upwards of 100 cars and crowds of spectators at each sideshow. There was also at least one assault reported at Market/Clayton. Our officers responded to as many as they could [REDACTED] I am ready to discuss when you are ready. "

4/1/20 19:08	[REDACTED]	Chief William Scott	[REDACTED]	CoS Sean Elsbernd Mayor London Breed	"Hi Mayor, a follow up report regarding the [REDACTED] on McAllister. Officers, including a lieutenant, were sent to the [REDACTED] store. The Lieutenant spoke with the owner/manager about social distancing among the customers. The lines were then thinned out to comply with the social distancing requirements. Officer will stay on this for now to ensure social distancing continues to happen. There were also gatherings of people around the [REDACTED] and the [REDACTED]. Both have been addressed and thinned out to comply with social distancing. Officers will maintain a presence and visibility. UN Plaza looks pretty good for now. The farmer's market crowd is lighter right now than in past weeks and there is good spacing between the vendors. Officers will also be assigned to focus on other hot spots in the Tenderloin today. For your awareness. "
4/1/20 20:37	[REDACTED]	Chief William Scott	[REDACTED]	CoS Sean Elsbernd Mayor London Breed	"We still have officers at the [REDACTED] business. It's the first of the month so this will be an issue today and maybe for the next couple of days. We have officers posted to force compliance with social distancing. The line stretches down the block. "
