We are going to postpone the LED light dates

Till when

Doug Parrish # is

East San Francisco Bay Area

Weeks

10 4

1/5/15, 8:49 PM

Did you call Doug?

Frank in my office call him and we also submit the LBE paper hope this can be final review from them hope u can help to check if they got a require Document

1/15/15, 12:46 PM

Current LED RFP does not require any assembly in SF

We legally can't require that. However, you can place that in the special consideration. Also one of the competitor already assemble in SF

R u certified?

not yet

Did u talk with Doug?

waiting for control UL we wont get it till Jan 31

UL? You told me that you had everything?

The control from France just received information from UL

You told me
That you had everything? I don't know what to do?

I don't know how to stop the process anymore

Just talk to Frank will use existing control with UL to send in will call u after work

Great! I will be in LA until Friday evening

Here is the latest on any Comm:Hi Mary,

Thank you for your email.

We'd like to invite you and Brad (and any other interested/involved members of SFPUC) to an exclusive demonstration of the anyCOMM solution in San Jose.

March 31, 2016 is our proposed date for a demonstration.

Please reply to let me know of your availability on that date. Our schedules are open for the entire day.

can i call you now ?

can you also get a sample or spec

can i call you now ?

Yes

3/15/16, 11:27 AM

Any Comm update standard 7 pin connection. They are getting me the specs for standard. The light must be connection ready. Two step process. 1) prequalified (pass or fail) 2) lowest price.

When can we get any comm spec

3/15/16, 12:59 PM

They are requesting a standard 7 pin connection for all lights. Any Comm system will work with the standard connection.

do any comm require any electric power for their unit

3/15/16, 3:25 PM

No they have to use the standard connection.

Ok

share more when I hear from team Monday."

thank you need to overcome this issue soon

thank you

Primary service would cost the project a lot of money. What was the other item other than street lights?

30 Van Ness

Primary service apox how much ?

It's primary vs secondary. And I don't know the specifics of the site, but guessing about \$500k more.

Understand

Will relay to team

The project at 1317 20th Ave requires Fire Service. We have submitted water meter application on Sep. 7th. As of today, we have not heard any updates on the application status. they need new fire service to connect the sprinkler ps help for the new water meter

10/3/17, 11:26 AM

We should be contacting the project point person soon.

Thank you

11/7/17, 5:00 PM

We can do it in Dec.

Can it be earlier

The list of projects in the queue is crazy because of the moratorium restrictions. So we can do it after holiday right after thanksgiving.

Last week in Nov.

Thank

Just sent you 555 Fulton, we would like to know how to pay for the fire hydrant location. We understand your department cannot schedule until payment is received. Do you know when the hydrant can be installed? We are waiting for it so we can final the building.

We did not receive any information regarding the pump yet. Please give us the specifications so we can order.

1/5/18 9:21 AM

1/6/18, 8:01 AM

Are you ok didn't hear from you

1/6/18, 6:20 AM

the application was submitted on 12/8, CSB processed the application that day and submitted a hydraulic analysis request to CDD which was returned on 12/28 (normal expected turnaround time for that request). CSB immediately took the next step of requesting a custom cost proposal from CDD on 12/28 which is where we currently are in the process.

Next Steps:

CDD cost proposal preparation – normal turnaround of 1-3 weeks. This was requested 12/28 and there are currently 13 proposals in the queue ahead of it.

A good ETA on this would be no later than 1/18.

CSB to submit proposal to customer, customer to pay fees, CSB to process fees and issue work orders. If customer provides quick turnaround, this can take less than a week so let's say around 1/25.

CDD Construction – for this phase we tell customers to allow a minimum of 65 days putting us at 4/1.

Although it's only one hydrant installation this job will require special permitting and potentially a shutdown (TBD) so I would be cautious to propose anything sooner until we get further along with the CDD process.

Thank you
