Good morning,

I am still waiting on the vet report....I've been pushing him to get it done. I've been told that it should be done today but I will confirm that and express to him again that it needs done.

I am so sorry for the delay.

Angie

Good morning,

I checked the medical records for the Grotto Street dogs and it does appear that Grotto 5 did gain 14 pounds since being fed properly, which took him from a BCS of 2 (hips, ribs and spine easily visible) to a BCS of 4/9 which is ideal. Grotto 3 and Grotto 7 both have babesia, which is a disease similar to Lyme's disease and they are currently on medication treatment for that.

Dr. Eric Ledesma is the treating veterinarian on this case and did the forensic exams. Lisa, his email address is [eledesma@HumaneAnimalRescue.org](mailto:eledesma@HumaneAnimalRescue.org) in case you want to reach out to him to determine level of charges that he will substantiate.

Thanks  
Angie

Humane Officer Fry from Humane Animal Rescue sent us her recommendations for charges which i am forwarding to you. We were going to proceed based on what she recommended but need your approval for the felony charge for grotto #5 due to dog being underweight.

Grotto 5 has gained about 14lbs since being at their facility and is in good body condition now.

Subject: Charging recommendations for Grotto Street

Hi guys,

I have attached all the medical reports for the 7 dogs from Grotto St. Our numbers for the animals may not match your number (i.e. Grotto 1 may not be dog 1 on your evidence list). I apologize for this but the dogs were brought in before I got back. I have also listed below my charging recommendations, though discuss with the ADA as they may know ways

to get higher charges. Grotto 5 will most likely be a felony for being underweight from lack of food but we won't know that for sure for another few weeks when we see weight gain and get blood work results back.

Grotto 1

5532 a(1) summary  
5532 a(2) summary  
5532 a(3) summary  
5533 – abandonment – summary

Grotto 2

5532 a(1) summary  
5532 a(2) summary  
5532 a(3) summary  
5533 – abandonment – summary

Grotto 3

5532 a(1) summary  
5532 a(2) summary  
5532 a(3) misdemeanor and summary  
5533 – abandonment – summary

Grotto 4

5532 a(1) summary  
5532 a(2) summary  
5532 a(3) summary  
5533 – abandonment – summary

Grotto 5

5534 a(1) torture from lack of food – felony  
5532 a(1) misdemeanor and summary  
5532 a(2) summary  
5533 – abandonment – summary

Grotto 6

5532 a(1) summary  
5532 a(2) summary

Subject: Re: INFORMATION NEEDED FOR THE CASE INVOLVING JAMES GENCO

Hi Christine

1. I'm looking into control pole training for Officer Genco for NACA and Animal Friends
2. I don't have any records of inhumane/improper handling of animals against Officer Genco since I have been here (6/1/2016). I'll check his personnel file here and ask Zoe for access to his records at Public Safety this morning I'll check to see on the other items

Dave

Subject: INFORMATION NEEDED FOR THE CASE INVOLVING JAMES GENCO

Good morning,

ADA Lisa Borrelli reached out to me about the case involving James Genco. From what was on television, his attorney will argue the following:

1. James Genco will say he was never properly trained. We need his training records or any documentation that he did receive training on using a control pole. Are there training records from NACA? Did he attend training at Animal Friends last year?
2. Are there any complaints (other than from HAR) about his work or the care he took of animals while in his custody?
3. He will say that the cage was damaged by the dog who hurt himself, so we need (a) photos of all the truck cages/doors taken from the same angle as the one on television, (b) any damage reports he may have filed regarding the door/cages after the incident and the date it was filed, (c) any policies in place that deal with how to respond to an animal/dog that is fighting, resisting, injured, etc.
4. He is saying that he saved the dog's life by removing it. ADA Borrelli is asking for body camera footage. Lt. Stoops and I checked, Officers Churilla and Rende did not record the incident when the dogs were removed from the vehicle.
5. We need any temperature records that Genco or Lapp may have made, other than the reports with HAR that recorded the temperature at 50 degrees.

Officer Rende wrote a police report involving the dogs being removed from the vehicle on March 17, 2021 - CCR number 21 - 44920. Officer Rende filed a non-traffic citation against Matthew Erzen for cruelty to animals for leaving the dogs in the vehicle.

Dave, can you please assist with what ADA Borrelli is requesting? Please let me know. Thanks!

Great, thank you!

Lisa,

When Officer Luffey submits the complaint to ASAP, can you please review to make sure that the charges and affidavit are accurate and then approve the complaint? Once you have approved the complaint, please let Mike know ASAP. Also, when Attorney White makes arrangements to turn Officer Genco in for arraignment, please make sure that Mike is aware of that as well.

Thanks all,

Rachel

Subject: Genco Animal Cruelty Charges

All,

I know that you are all busy and potentially on the road! Lisa Borrelli and I wanted to run an attached affidavit of probable cause past you as it pertains to charges against a City of Pittsburgh Animal Control Officer in the commission of his duties. We are also aware that the Boss received a call from someone on Officer Genco's behalf and Lisa provided a summary of the case to the Boss at that time. The City and Wendall Hissrich are aware of this case and have been in contact with Lisa. Also, Officer Genco is currently on paid administrative leave and is represented by Attorney Casey White. Attorney White checks in with Lisa periodically to check on the status of the investigation.

This case will undoubtedly gain media attention, so we are looking for approval to file charges and wanted to make sure that the timing was appropriate. Please let us know if you have any additional questions or concerns.

Thanks,

Rachel Newman

Subject: Genco

Hope your motion went well...

Here is the revised aopc. I tried not to change it too much, just to cover what we need.

The charges:

5534 (a2) F3 - Aggravated cruelty to animal,  
5533 (a) M2 - cruelty to animal, and  
5533 (a) summary - cruelty to animal.

~~~~~

This complaint is prepared by your affiant, Officer Christine Luffey. I have worked as a Pittsburgh Police officer for the past twenty-eight (28) years. I specialize in animal neglect and abuse cases.

On March 17, 2021 Pittsburgh Animal Care and Control officers were called to the Strip District for two (2) dogs unattended inside of a vehicle. Pittsburgh Animal Care and Control Officers James Genco and John Lapp arrived on scene and observed the dogs inside a work truck. Genco stated that at the time of the seizure the temperature was 50 degrees. This was confirmed per the animal control slip left with the dogs at HARP, indicating that the temperature at the time of removal was 50 degrees Fahrenheit.

The dogs were removed from the vehicle by Genco and Lapp and transported to Humane Animal Rescue of Pittsburgh (HARP). In the process of removal, one of the dogs was severely injured. The owner of the dogs stated that his dogs had no current injuries when he left them in his vehicle.

On March 25, 2021, I reviewed a video that was sent to City of Pittsburgh officials by Meagan Montmeny, Chief Operations Officer at Humane Animal Rescue of Pittsburgh (HARP), to determine if the actions by Pittsburgh Animal Care and Control Officer James Genco are criminal in nature. The video is security camera footage from the internal garage area at HARP.

The video, which is titled "CAM 09" begins on March 17, 2021, at 12:03:23.216 PM (GMT 4:00) and ends the same date at 12:13:56.955 PM (GMT 4:00). The video shows Genco walking into the garage with a tan colored pit bull type dog on a control pole. The dog is actively struggling against the control pole. The dog is then observed lying flat on the floor and Genco is observed dragging the dog on the floor through the garage towards the area where the intake dog kennels are located. A trail of what appears to be blood, urine and feces are viewed on the floor where the dog was dragged.

Witness HARP veterinary technician Camille Burke is viewed walking into the garage from the area that Genco dragged the dog to and then hurrying back to that same area. She stated that she heard the struggle and commotion coming from the garage area as well as yelping and high-pitched screaming. She stated that she entered the garage and observed Genco handling the dog on a control pole and that Genco was dragging the dog through the garage while the dog was lying flat on the floor. Burke stated that there was a trail of blood, urine, and feces on the floor behind the dog

and that the dog appeared to be bleeding heavily. Burke stated that it looked like Genco was "mopping the floor" with the dog.

I was then provided with a second video from Montmeny which shows the area outside of the garage door at HARP. This video which is titled "CAM 22 EXT. GENERAL STORAGE" begins on March 17, 2021, at 12:02:43.670 PM (GMT 4:00). The video shows the Pittsburgh Animal Care and Control vehicle pull up outside of the garage door at HARP, Genco exits the vehicle and opens the door to a rear kennel on the vehicle where the tan colored pit bull type dog is located. Genco is viewed pushing the noose end of the control pole into the kennel several times as well as is viewed pulling the cable that tightens the noose around a dog's neck three (3) to four (4) times before finally being able to get the dog on the control pole. Genco is viewed pulling the dog out of the kennel towards the garage door where the dog is viewed striking the garage door and the brick wall. He stated that the dog may have hit the building as he was removing him from the truck.

During my investigation, I was informed that the dog sustained multiple injuries and that he was transported to Pittsburgh Veterinary Specialty and Emergency Clinic (PVSEC) for emergency veterinary care. Dr. Amy Kalinauskas, DVM of HARP, stated that the dog had excessive bleeding, broken teeth with pulp exposure, a broken tail, ruptured blood vessels in both eyes, nystagmus, lameness on the right front and right hind extremities, lacerations on the right front and left hind paws, abrasions and a broken nail that was bleeding.

The treating veterinarian at PVSEC stated that the dog was in a lot of pain and that based on the injuries, she believes "excessive force was used for sure." She stated that the dog's blood work indicated that he suffered from muscle damage and stress and that the ruptured blood vessels and nystagmus are consistent with a strangulation injury. She stated that injury to the teeth would require additional treatment from a veterinary dentist.

Montmeny contacted the owner of the injured dog regarding regarding the health and condition of the dog prior to March 17, 2021. The owner stated that his dog had no injuries or any other medical issue and that the dog was healthy.

Humane Society Police Officer Angie Fry and Montmeny measured the approximate distance that Genco was viewed dragging the dog through the garage. It was measured to be approximately twenty-five (25) to thirty (30) feet.

Based on my personal observations of the video footage, specifically the actions shown in the video of Genco, witness statements, and statements from licensed veterinarians, I believe that James Genco's actions directly caused the injuries to the tan colored pit bull type dog seen in the video.

~~~~~

Christine wants to add the following:

The only thing I want to add at the bottom is...  
this case has been reviewed and the above-mentioned charges have been approved by Assistant District Attorney Lisa Borrelli. Arrest warrant respectfully requested.

Please let me know if this works.

She stated that injury to the teeth would require additional treatment from a veterinary dentist.

Montmeny contacted the owner of the injured dog regarding regarding the health and condition of the dog prior to March 17, 2021. The owner stated that his dog had no injuries or any other medical issue and that the dog was healthy.

Humane Society Police Officer Angie Fry and Montmeny measured the approximate distance that Genco was viewed dragging the dog through the garage. It was measured to be approximately twenty-five (25) to thirty (30) feet.

Based on my personal observations of the video footage, specifically the actions shown in the video of Genco, witness statements, and statements from licensed veterinarians, I believe that James Genco's actions directly caused the injuries to the tan colored pit bull type dog seen in the video.

~~~~~

Christine wants to add the following:

The only thing I want to add at the bottom is...  
this case has been reviewed and the above-mentioned charges have been approved by Assistant District Attorney Lisa Borrelli. Arrest warrant respectfully requested.

Please let me know if this works.

Subject: Re: GENCO

I just got approval to file these charges. Please make sure that the wording in ASAP is the same as what we have gone over. I have to review it again in ASAP and approve it. Once that is done, then I have to make sure that our office is aware.

We are going to let Casey White turn his client in. Once he has made those arrangements, I have to let our office know about that as well.

Please let me know once you have it in ASAP as it was written below.

The charges:  
5534 (a2) F3 - Aggravated cruelty to animal,  
5533 (a) M2 - cruelty to animal, and  
5533 (a) summary - cruelty to animal.

The language in charge "while under the care of James Genco a dog suffered serious bodily injury"

Affidavit  
Box 1 -- surveillance video, expert evaluation, witness statements  
Box 2 -- surveillance video, witness statements  
Box 3 -- surveillance video, expert evaluation, witness statements

Narrative

This complaint is prepared by your affiant, Officer Christine Luffey. I have worked as a Pittsburgh Police officer for the past twenty-eight (28) years. I specialize in animal neglect and abuse cases.

On March 17, 2021 Pittsburgh Animal Care and Control officers were called to the Strip District for two (2) dogs unattended inside of a vehicle. Pittsburgh Animal Care and Control Officers James Genco and John Lapp arrived on scene and observed the dogs inside a work truck. Genco stated that at the time of the seizure the temperature was 50 degrees. This was confirmed per the animal control slip left with the dogs at HARP, indicating that the temperature at the time of removal was 50 degrees Fahrenheit.

The dogs were removed from the vehicle by Genco and Lapp and transported to Humane Animal Rescue of Pittsburgh (HARP). In the process of removal, one of the dogs was severely injured. The owner of the dogs stated that his dogs had no current injuries when he left them in his vehicle.

On March 25, 2021, I reviewed a video that was sent to City of Pittsburgh officials by Meagan Montmeny, Chief Operations Officer at Humane Animal Rescue of Pittsburgh (HARP), to determine if the actions by Pittsburgh Animal Care and Control Officer James Genco are criminal in nature. The video is security camera footage from the internal garage area at HARP.

The video, which is titled "CAM 09" begins on March 17, 2021, at 12:03:23.216 PM (GMT 4:00) and ends the same date at 12:13:56.955 PM (GMT 4:00). The video shows Genco walking into the garage with a tan colored pit bull type dog on a control pole. The dog is actively struggling against the control pole. The dog is then observed lying flat on the floor and Genco is observed dragging the dog on the floor through the garage towards the area where the intake dog kennels are located. A trail of what appears to be blood, urine and feces are viewed on the floor where the dog was dragged.

Witness HARP veterinary technician Camille Burke is viewed walking into the garage from the area that Genco dragged the dog to and then hurrying back to that same area. She stated that she heard the struggle and commotion coming from the garage area as well as yelping and high-pitched screaming. She stated that she entered the garage and observed Genco handling the dog on a control pole and that Genco was dragging the dog through the garage while the dog was lying flat on the floor. Burke stated that there was a trail of blood, urine, and feces on the floor behind the dog and that the dog appeared to be bleeding heavily. Burke stated that it looked like Genco was "mopping the floor" with the dog.

I was then provided with a second video from Montmeny which shows the area outside of the garage door at HARP. This video which is titled "CAM 22 EXT. GENERAL STORAGE" begins on March 17, 2021, at 12:02:43.670 PM (GMT 4:00). The video shows the Pittsburgh Animal Care and Control vehicle pull up outside of the garage door at HARP, Genco exits the vehicle and opens the door to a rear kennel on the vehicle where the tan colored pit bull type dog is located. Genco is viewed pushing the noose end of the control pole into the kennel several times as well as is viewed pulling the cable that tightens the noose around a dog's neck three (3) to four (4) times before finally being able to get the dog on the control pole. Genco is viewed pulling the dog out of the kennel towards the garage door where the dog is viewed striking the garage door and the brick wall. He stated that the dog may have hit the building as he was removing him from the truck.

During my investigation, I was informed that the dog sustained multiple injuries and that he was transported to Pittsburgh Veterinary Specialty and Emergency Clinic (PVSEC) for emergency veterinary care. Dr. Amy Kalinauskas, DVM of HARP, stated that the dog had excessive bleeding, broken teeth with pulp exposure, a broken tail, ruptured blood vessels in both eyes, nystagmus, lameness on the right front and right hind extremities, lacerations on the right front and left hind paws, abrasions and a broken nail that was bleeding.

The treating veterinarian at PVSEC stated that the dog was in a lot of pain and that based on the injuries, she believes "excessive force was used for sure." She stated that the dog's blood work indicated that he suffered from muscle

damage and stress and that the ruptured blood vessels and nystagmus are consistent with a strangulation injury. She stated that injury to the teeth would require additional treatment from a veterinary dentist.

Montmeny contacted the owner of the injured dog regarding regarding the health and condition of the dog prior to March 17, 2021. The owner stated that his dog had no injuries or any other medical issue and that the dog was healthy.

Humane Society Police Officer Angie Fry and Montmeny measured the approximate distance that Genco was viewed dragging the dog through the garage. It was measured to be approximately twenty-five (25) to thirty (30) feet.

Based on my personal observations of the video footage, specifically the actions shown in the video of Genco, witness statements, and statements from licensed veterinarians, I believe that James Genco's actions directly caused the injuries to the tan colored pit bull type dog seen in the video.

This case has been reviewed and the above-mentioned charges have been approved by Assistant District Attorney Lisa Borrelli. Arrest warrant respectfully requested.

Thanks,  
Lisa

Great, thank you!

Lisa,

When Officer Luffey submits the complaint to ASAP, can you please review to make sure that the charges and affidavit are accurate and then approve the complaint? Once you have approved the complaint, please let Mike know ASAP. Also, when Attorney White makes arrangements to turn Officer Genco in for arraignment, please make sure that Mike is aware of that as well.

Thanks all,

Rachel

All,

I know that you are all busy and potentially on the road! Lisa Borrelli and I wanted to run an attached affidavit of probable cause past you as it pertains to charges against a City of Pittsburgh Animal Control Officer in the commission of his duties. We are also aware that the Boss received a call from someone on Officer Genco's behalf and Lisa provided a summary of the case to the Boss at that time. The City and Wendall Hissrich are aware of this case and have been in contact with Lisa. Also, Officer Genco is currently on paid administrative leave and is represented by Attorney Casey White. Attorney White checks in with Lisa periodically to check on the status of the investigation.

This case will undoubtedly gain media attention, so we are looking for approval to file charges and wanted to make sure that the timing was appropriate. Please let us know if you have any additional questions or concerns.

Thanks,

Rachel Newman

Subject: Genco Animal Cruelty Charges

All,

I know that you are all busy and potentially on the road! Lisa Borrelli and I wanted to run an attached affidavit of probable cause past you as it pertains to charges against a City of Pittsburgh Animal Control Officer in the commission of his duties. We are also aware that the Boss received a call from someone on Officer Genco's behalf and Lisa provided a summary of the case to the Boss at that time. The City and Wendall Hissrich are aware of this case and have been in contact with Lisa. Also, Officer Genco is currently on paid administrative leave and is represented by Attorney Casey White. Attorney White checks in with Lisa periodically to check on the status of the investigation.

This case will undoubtedly gain media attention, so we are looking for approval to file charges and wanted to make sure that the timing was appropriate. Please let us know if you have any additional questions or concerns.

Thanks,

Rachel Newman

From: Borrelli, Lisa

Subject: Genco

Hope your motion went well...

Here is the revised aopc. I tried not to change it too much, just to cover what we need.

The charges:

5534 (a2) F3 - Aggravated cruelty to animal,  
5533 (a) M2 - cruelty to animal, and  
5533 (a) summary - cruelty to animal.

~~~~~

This complaint is prepared by your affiant, Officer Christine Luffey. I have worked as a Pittsburgh Police officer for the past twenty-eight (28) years. I specialize in animal neglect and abuse cases.

On March 17, 2021 Pittsburgh Animal Care and Control officers were called to the Strip District for two (2) dogs unattended inside of a vehicle. Pittsburgh Animal Care and Control Officers James Genco and John Lapp arrived on scene and observed the dogs inside a work truck. Genco stated that at the time of the seizure the temperature was 50 degrees. This was confirmed per the animal control slip left with the dogs at HARP, indicating that the temperature at the time of removal was 50 degrees Fahrenheit.

The dogs were removed from the vehicle by Genco and Lapp and transported to Humane Animal Rescue of Pittsburgh (HARP). In the process of removal, one of the dogs was severely injured. The owner of the dogs stated that his dogs had no current injuries when he left them in his vehicle.

On March 25, 2021, I reviewed a video that was sent to City of Pittsburgh officials by Meagan Montmeny, Chief Operations Officer at Humane Animal Rescue of Pittsburgh (HARP), to determine if the actions by Pittsburgh Animal Care

and Control Officer James Genco are criminal in nature. The video is security camera footage from the internal garage area at HARP.

The video, which is titled "CAM 09" begins on March 17, 2021, at 12:03:23.216 PM (GMT 4:00) and ends the same date at 12:13:56.955 PM (GMT 4:00). The video shows Genco walking into the garage with a tan colored pit bull type dog on a control pole. The dog is actively struggling against the control pole. The dog is then observed lying flat on the floor and Genco is observed dragging the dog on the floor through the garage towards the area where the intake dog kennels are located. A trail of what appears to be blood, urine and feces are viewed on the floor where the dog was dragged.

Witness HARP veterinary technician Camille Burke is viewed walking into the garage from the area that Genco dragged the dog to and then hurrying back to that same area. She stated that she heard the struggle and commotion coming from the garage area as well as yelping and high-pitched screaming. She stated that she entered the garage and observed Genco handling the dog on a control pole and that Genco was dragging the dog through the garage while the dog was lying flat on the floor. Burke stated that there was a trail of blood, urine, and feces on the floor behind the dog and that the dog appeared to be bleeding heavily. Burke stated that it looked like Genco was mopping the floor with the dog.

I was then provided with a second video from Montmeny which shows the area outside of the garage door at HARP. This video which is titled "CAM 22 EXT. GENERAL STORAGE" begins on March 17, 2021, at 12:02:43.670 PM (GMT 4:00). The video shows the Pittsburgh Animal Care and Control vehicle pull up outside of the garage door at HARP, Genco exits the vehicle and opens the door to a rear kennel on the vehicle where the tan colored pit bull type dog is located. Genco is viewed pushing the noose end of the control pole into the kennel several times as well as is viewed pulling the cable that tightens the noose around a dog's neck three (3) to four (4) times before finally being able to get the dog on the control pole. Genco is viewed pulling the dog out of the kennel towards the garage door where the dog is viewed striking the garage door and the brick wall. He stated that the dog may have hit the building as he was removing him from the truck.

During my investigation, I was informed that the dog sustained multiple injuries and that he was transported to Pittsburgh Veterinary Specialty and Emergency Clinic (PVSEC) for emergency veterinary care. Dr. Amy Kalinauskas, DVM of HARP, stated that the dog had excessive bleeding, broken teeth with pulp exposure, a broken tail, ruptured blood vessels in both eyes, nystagmus, lameness on the right front and right hind extremities, lacerations on the right front and left hind paws, abrasions and a broken nail that was bleeding.

The treating veterinarian at PVSEC stated that the dog was in a lot of pain and that based on the injuries, she believes excessive force was used for sure. She stated that the dog's blood work indicated that he suffered from muscle damage and stress and that the ruptured blood vessels and nystagmus are consistent with a strangulation injury. She stated that injury to the teeth would require additional treatment from a veterinary dentist.

Montmeny contacted the owner of the injured dog regarding the health and condition of the dog prior to March 17, 2021. The owner stated that his dog had no injuries or any other medical issue and that the dog was healthy.

Humane Society Police Officer Angie Fry and Montmeny measured the approximate distance that Genco was viewed dragging the dog through the garage. It was measured to be approximately twenty-five (25) to thirty (30) feet.

Based on my personal observations of the video footage, specifically the actions shown in the video of Genco, witness statements, and statements from licensed veterinarians, I believe that James Genco's actions directly caused the injuries to the tan colored pit bull type dog seen in the video.

~~~~~  
Christine wants to add the following:

The only thing I want to add at the bottom is...  
this case has been reviewed and the above-mentioned charges have been approved by Assistant District Attorney Lisa Borrelli. Arrest warrant respectfully requested.

Please let me know if this works.

Thank you, Lisa. I have attached her medical history. I am also attaching the results of her other diagnostic tests as well (not all are related to her mouth/dental disease, but I wanted to pass them along just in case). Please let us know if you need any additional information. With regards to the surrender, I will let Carol respond as I'm not sure if anything has changed, but I do not believe she has been surrendered.

Good Afternoon Lisa:

Our team has been discussing Tulip quite a bit. We have significant concerns for Tulip's quality of life due to the pain of her severe dental disease and the implications of continuing to allow it to go untreated. I understand that you had provided counsel to us to not perform her dental procedure due to her increase anesthesia risk. However, because of the severity of her condition, we wanted to provide some clarification regarding her condition and ask again if we can proceed with the surgery based on the information. I have asked our Director of Shelter Medicine, Dr. Jonna Swanson, to provide her professional medical opinion regarding Tulip. She shared the following with me:

Tulip (A2214) has severe grade 4 out of 4 dental disease. Grade 4 dental disease is defined below:

- \* Infection has eaten away the gums and bone, leaving the tooth root exposed
- \* Severe tooth and bone pain
- \* Irreversible damage may require extraction of the tooth and antibiotics to eliminate infection and pain in the jaw bone

o In addition to causing severe tooth and bone pain, severe dental disease can also lead to damage to other organs such as the heart, kidney and liver, and lead to other serious health problems. Tulip currently has an elevated white blood cell count and an elevation in globulins – both of these values are associated with chronic inflammation. She also has an elevation in one of her kidney values which means that her dental disease may already be starting to affect her kidney function.

o

In my professional opinion, Tulip needs a dental as soon as possible to stop the progression of her dental disease and to provide relief from her substantial mouth pain.

I have copied Dr. Swanson to this e-mail to answer any questions you may have. We are certainly happy to discuss this further if you would like to meet with us. However, we respectfully request a timely resolution based on the circumstances. We appreciate your consideration.

Subject: Fw: Animal Friends--Tulip

Hi Larry,

Can you look at this for me and tell me what you think? I have trust issues with shelter vets that I do not know. I always worry about their motivation.

Thanks,  
Lisa

ps. I am working on booking Antigua. I have the conference booked but they did not give us the \$100 discount for early payment, so I emailed them. Next is the airfare....I am going to try to book the same flights you have.

Subject: Animal Friends--Tulip

Good Afternoon Lisa:

Our team has been discussing Tulip quite a bit. We have significant concerns for Tulip's quality of life due to the pain of her severe dental disease and the implications of continuing to allow it to go untreated. I understand that you had provided counsel to us to not perform her dental procedure due to her increase anesthesia risk. However, because of the severity of her condition, we wanted to provide some clarification regarding her condition and ask again if we can proceed with the surgery based on the information. I have asked our Director of Shelter Medicine, Dr. Jonna Swanson, to provide her professional medical opinion regarding Tulip. She shared the following with me:

Tulip (A2214) has severe grade 4 out of 4 dental disease. Grade 4 dental disease is defined below:

- \* Infection has eaten away the gums and bone, leaving the tooth root exposed
- \* Severe tooth and bone pain
- \* Irreversible damage may require extraction of the tooth and antibiotics to eliminate infection and pain in the jaw bone

o In addition to causing severe tooth and bone pain, severe dental disease can also lead to damage to other organs such as the heart, kidney and liver, and lead to other serious health problems. Tulip currently has an elevated white blood cell count and an elevation in globulins – both of these values are associated with chronic inflammation. She also has an elevation in one of her kidney values which means that her dental disease may already be starting to affect her kidney function.

o

In my professional opinion, Tulip needs a dental as soon as possible to stop the progression of her dental disease and to provide relief from her substantial mouth pain.

I have copied Dr. Swanson to this e-mail to answer any questions you may have. We are certainly happy to discuss this further if you would like to meet with us. However, we respectfully request a timely resolution based on the circumstances. We appreciate your consideration.

Kind Regards,

Lauren Leffakis

Subject: Genco Animal Cruelty Charges

All,

I know that you are all busy and potentially on the road! Lisa Borrelli and I wanted to run an attached affidavit of probable cause past you as it pertains to charges against a City of Pittsburgh Animal Control Officer in the commission of his duties. We are also aware that the Boss received a call from someone on Officer Genco's behalf and Lisa provided a summary of the case to the Boss at that time. The City and Wendall Hissrich are aware of this case and have been in contact with Lisa. Also, Officer Genco is currently on paid administrative leave and is represented by Attorney Casey White. Attorney White checks in with Lisa periodically to check on the status of the investigation.

This case will undoubtedly gain media attention, so we are looking for approval to file charges and wanted to make sure that the timing was appropriate. Please let us know if you have any additional questions or concerns.

Thanks,

Rachel Newman

Subject: Genco

Hope your motion went well...

Here is the revised aopc. I tried not to change it too much, just to cover what we need.

The charges:

5534 (a2) F3 - Aggravated cruelty to animal,  
5533 (a) M2 - cruelty to animal, and  
5533 (a) summary - cruelty to animal.

~~~~~

This complaint is prepared by your affiant, Officer Christine Luffey. I have worked as a Pittsburgh Police officer for the past twenty-eight (28) years. I specialize in animal neglect and abuse cases.

On March 17, 2021 Pittsburgh Animal Care and Control officers were called to the Strip District for two (2) dogs unattended inside of a vehicle. Pittsburgh Animal Care and Control Officers James Genco and John Lapp arrived on scene and observed the dogs inside a work truck. Genco stated that at the time of the seizure the temperature was 50 degrees. This was confirmed per the animal control slip left with the dogs at HARP, indicating that the temperature at the time of removal was 50 degrees Fahrenheit.

The dogs were removed from the vehicle by Genco and Lapp and transported to Humane Animal Rescue of Pittsburgh (HARP). In the process of removal, one of the dogs was severely injured. The owner of the dogs stated that his dogs had no current injuries when he left them in his vehicle.

On March 25, 2021, I reviewed a video that was sent to City of Pittsburgh officials by Meagan Montmeny, Chief Operations Officer at Humane Animal Rescue of Pittsburgh (HARP), to determine if the actions by Pittsburgh Animal Care and Control Officer James Genco are criminal in nature. The video is security camera footage from the internal garage area at HARP.

The video, which is titled "CAM 09" begins on March 17, 2021, at 12:03:23.216 PM (GMT 4:00) and ends the same date at 12:13:56.955 PM (GMT 4:00). The video shows Genco walking into the garage with a tan colored pit bull type dog on a control pole. The dog is actively struggling against the control pole. The dog is then observed lying flat on the floor and Genco is observed dragging the dog on the floor through the garage towards the area where the intake

dog kennels are located. A trail of what appears to be blood, urine and feces are viewed on the floor where the dog was dragged.

Witness HARP veterinary technician Camille Burke is viewed walking into the garage from the area that Genco dragged the dog to and then hurrying back to that same area. She stated that she heard the struggle and commotion coming from the garage area as well as yelping and high-pitched screaming. She stated that she entered the garage and observed Genco handling the dog on a control pole and that Genco was dragging the dog through the garage while the dog was lying flat on the floor. Burke stated that there was a trail of blood, urine, and feces on the floor behind the dog and that the dog appeared to be bleeding heavily. Burke stated that it looked like Genco was mopping the floor with the dog.

I was then provided with a second video from Montmeny which shows the area outside of the garage door at HARP. This video which is titled CAM 22 EXT. GENERAL STORAGE; begins on March 17, 2021, at 12:02:43.670 PM (GMT 4:00). The video shows the Pittsburgh Animal Care and Control vehicle pull up outside of the garage door at HARP, Genco exits the vehicle and opens the door to a rear kennel on the vehicle where the tan colored pit bull type dog is located. Genco is viewed pushing the noose end of the control pole into the kennel several times as well as is viewed pulling the cable that tightens the noose around a dog's neck three (3) to four (4) times before finally being able to get the dog on the control pole. Genco is viewed pulling the dog out of the kennel towards the garage door where the dog is viewed striking the garage door and the brick wall. He stated that the dog may have hit the building as he was removing him from the truck.

During my investigation, I was informed that the dog sustained multiple injuries and that he was transported to Pittsburgh Veterinary Specialty and Emergency Clinic (PVSEC) for emergency veterinary care. Dr. Amy Kalinauskas, DVM of HARP, stated that the dog had excessive bleeding, broken teeth with pulp exposure, a broken tail, ruptured blood vessels in both eyes, nystagmus, lameness on the right front and right hind extremities, lacerations on the right front and left hind paws, abrasions and a broken nail that was bleeding.

The treating veterinarian at PVSEC stated that the dog was in a lot of pain and that based on the injuries, she believes excessive force was used for sure; She stated that the dog's blood work indicated that he suffered from muscle damage and stress and that the ruptured blood vessels and nystagmus are consistent with a strangulation injury. She stated that injury to the teeth would require additional treatment from a veterinary dentist.

Montmeny contacted the owner of the injured dog regarding regarding the health and condition of the dog prior to March 17, 2021. The owner stated that his dog had no injuries or any other medical issue and that the dog was healthy.

Humane Society Police Officer Angie Fry and Montmeny measured the approximate distance that Genco was viewed dragging the dog through the garage. It was measured to be approximately twenty-five (25) to thirty (30) feet.

Based on my personal observations of the video footage, specifically the actions shown in the video of Genco, witness statements, and statements from licensed veterinarians, I believe that James Genco's actions directly caused the injuries to the tan colored pit bull type dog seen in the video.

~~~~~

Christine wants to add the following:

The only thing I want to add at the bottom is...  
this case has been reviewed and the above-mentioned charges have been approved by Assistant District Attorney Lisa Borrelli. Arrest warrant respectfully requested.

Please let me know if this works.

Hi,

I have attached my oath from Judge Borkowski when I was sworn in for HARP. It says Animal Friends. Can we get this corrected so that I can submit it to the Dept of Ag for my new ID card?

Thanks :)

Hi ladies,

Meg and I just spoke to Cash's owner, Matt, via phone. Matt stated that Cash DID NOT have those injuries (besides the old broken tail) prior to this incident and that he has seen a vet in Kentucky since for the teeth. Matt stated that the vet said that he doesn't feel that the dog needs the teeth removed. Matt is going to send me the vet records that we will have.

Absolutely. The damage was done. It would be like if I assaulted someone and caused a broken arm and they didn't get it repaired, I'm still guilty of assault.

Or if I punched someone in the face and broke their teeth...if they didn't get the teeth repaired I still committed the crime

Subject: Follow up call with ACO dog owner

Hi ladies,

Meg and I just spoke to Cash's owner, Matt, via phone. Matt stated that Cash DID NOT have those injuries (besides the old broken tail) prior to this incident and that he has seen a vet in Kentucky since for the teeth. Matt stated that the vet said that he doesn't feel that the dog needs the teeth removed. Matt is going to send me the vet records that we will have.

Subject: Re: Genco

Thank you so much!

The charges we believe are appropriate to file in this case are: 5534 (a2) F3 - Aggravated cruelty to animal, 5533 (a) M2 - cruelty to animal, and 5533 (a) summary - cruelty to animal.

The only thing I added at the bottom is this case has been reviewed and the above-mentioned charges have been approved by Assistant District Attorney Lisa Borrelli. Arrest warrant respectfully requested.

The case is in the system waiting for an ADA to approve it. It has been sitting there for about a month.

Please let me know as soon as the charges have been accepted for approval by the front office. City officials want to meet with the Animal Care and Control Officers before these charges are officially filed and an arrest warrant has been issued.

Once a Judge has signed the warrant, I will let you know, and you can notify Casey White.

Does that sound like a good plan?

Thanks again! Please keep me posted.

Christine,

I added what I thought was missing based on your work and the notes you sent me. I need to share it with my supervisors before it can be put into the system for approval. I tried not to alter your work too much, but please let me know if this is accurate and acceptable to you so that I can share it with my supervisors before it gets filed. Please let

me know if there is anything that needs to be revised and I will make those changes before I send it to them for approval.

Can you also send me the list of charges that you want to file on this? I will put it all together and then once they agree the charges can be filed, you should be good to enter it into the system.

I guess after all that is when the fun will begin. Casey White already left me a message today.....after filing and approval, I will call him and let him know so we can arrange for him to turn his client in.

Thank you,

Lisa

~~~~~

This complaint is prepared by your affiant, Officer Christine Luffey. I have worked as a Pittsburgh Police officer for the past twenty-eight (28) years. I specialize in animal neglect and abuse cases.

On March 17, 2021 Pittsburgh Animal Care and Control officers were called to the Strip District for two (2) dogs unattended inside of a vehicle. Pittsburgh Animal Care and Control Officers James Genco and John Lapp arrived on scene and observed the dogs inside a work truck. Genco stated that at the time of the seizure the temperature was 50 degrees. This was confirmed per the animal control slip left with the dogs at HARP, indicating that the temperature at the time of removal was 50 degrees Fahrenheit.

The dogs were removed from the vehicle by Genco and Lapp and transported to Humane Animal Rescue of Pittsburgh (HARP). In the process of removal, one of the dogs was severely injured. The owner of the dogs stated that his dogs had no current injuries when he left them in his vehicle.

On March 25, 2021, I reviewed a video that was sent to City of Pittsburgh officials by Meagan Montmeny, Chief Operations Officer at Humane Animal Rescue of Pittsburgh (HARP), to determine if the actions by Pittsburgh Animal Care and Control Officer James Genco are criminal in nature. The video is security camera footage from the internal garage area at HARP.

The video, which is titled "CAM 09" begins on March 17, 2021, at 12:03:23.216 PM (GMT 4:00) and ends the same date at 12:13:56.955 PM (GMT 4:00). The video shows Genco walking into the garage with a tan colored pit bull type dog on a control pole. The dog is actively struggling against the control pole. The dog is then observed lying flat on the floor and Genco is observed dragging the dog on the floor through the garage towards the area where the intake dog kennels are located. A trail of what appears to be blood, urine and feces are viewed on the floor where the dog was dragged.

Witness HARP veterinary technician Camille Burke is viewed walking into the garage from the area that Genco dragged the dog to and then hurrying back to that same area. She stated that she heard the struggle and commotion coming from the garage area as well as yelping and high-pitched screaming. She stated that she entered the garage and observed Genco handling the dog on a control pole and that Genco was dragging the dog through the garage while the dog was lying flat on the floor. Burke stated that there was a trail of blood, urine, and feces on the floor behind the dog and that the dog appeared to be bleeding heavily. Burke stated that it looked like Genco was "mopping the floor" with the dog.

I was then provided with a second video from Montmeny which shows the area outside of the garage door at HARP. This video which is titled "CAM 22 EXT. GENERAL STORAGE" begins on March 17, 2021, at 12:02:43.670 PM (GMT 4:00). The video shows the Pittsburgh Animal Care and Control vehicle pull up outside of the garage door at HARP, Genco exits the vehicle and opens the door to a rear kennel on the vehicle where the tan colored pit bull type dog is located. Genco is viewed pushing the noose end of the control pole into the kennel several times as well as is viewed pulling the cable that

tightens the noose around a dog's neck three (3) to four (4) times before finally being able to get the dog on the control pole. Genco is viewed pulling the dog out of the kennel towards the garage door where the dog is viewed striking the garage door and the brick wall. He stated that the dog may have hit the building as he was removing him from the truck.

During my investigation, I was informed that the dog sustained multiple injuries and that he was transported to Pittsburgh Veterinary Specialty and Emergency Clinic (PVSEC) for emergency veterinary care. Dr. Amy Kalinauskas, DVM of HARP, stated that the dog had excessive bleeding, broken teeth with pulp exposure, a broken tail, ruptured blood vessels in both eyes, nystagmus, lameness on the right front and right hind extremities, lacerations on the right front and left hind paws, abrasions and a broken nail that was bleeding.

The treating veterinarian at PVSEC stated that the dog was in a lot of pain and that based on the injuries, she believes "excessive force was used for sure." She stated that the dog's blood work indicated that he suffered from muscle damage and stress and that the ruptured blood vessels and nystagmus are consistent with a strangulation injury. She stated that injury to the teeth would require additional treatment from a veterinary dentist.

Montmeny contacted the owner of the injured dog regarding regarding the health and condition of the dog prior to March 17, 2021. The owner stated that his dog had no injuries or any other medical issue and that the dog was healthy.

Humane Society Police Officer Angie Fry and Montmeny measured the approximate distance that Genco was viewed dragging the dog through the garage. It was measured to be approximately twenty-five (25) to thirty (30) feet.

Based on my personal observations of the video footage, specifically the actions shown in the video of Genco, witness statements, and statements from licensed veterinarians, I believe that James Genco's actions directly caused the injuries to the tan colored pit bull type dog seen in the video.

 Subject: Animal Cruelty Task Force - Meeting Day and Working Groups

Hi everyone!

As promised, I wanted to send an update regarding the meeting day poll and interest in the working groups.

The results of the poll showed that the majority of members would prefer meetings to happen on Wednesdays, so we will plan to scheduled meetings that day. Of course, I will always send out meeting minutes in case anyone can't make it to a meeting.

As far as interest in the working groups, this is what I have so far:

Operations/Investigations – 9 interested  
 Education/Training – 2 members  
 Legislation/Government – 3 members  
 Shelter Resources – 3 members  
 Social Services – 1 member

I will be sending out emails later this week to for the individual working groups. If you haven't had a chance but are interested in joining any of the working groups, please let me know.

Thanks!

I do! I didn't want to bug you too much with the election but I would love to discuss the task force more. We are a little swamped at the moment but if you let me know your availability I can make sure I'm free to talk.  
Thanks!

Subject: Animal Cruelty Task Force - Meeting Availability Poll

Hey everyone!

A few people had contacted me requesting Task Force meetings be held on a different day. In order to figure out what day works for the most people, please take this quick poll and mark what day(s) would work best for you. If you could take complete the poll by the end of the week, I would really appreciate it.

[Best Day to Hold Meetings \(View/vote in browser\)](#)

Also, I have not gotten a ton of responses as to working group interest, so if you are still interested in being part of a working group but haven't let me know yet which one, please send me an email. I'll be sending out an email at the end of this week with what we have so far, so that the working groups that do have interest can at least meet and get started planning.

If anyone has any questions, please let me know.

Thanks!

 Subject: Larry Gerson Day in Pittsburgh

Hi AAARF! Board members,

I wanted to let you all know I approached Councilwoman Strassburger about a proclamation for Larry Gerson and she was kind enough to make it happen. One thing Larry said to me recently was that he's heartbroken that he didn't get to say goodbye to his patients due to Covid restrictions and then finally retiring during that time. Well this is his chance! He's done so much for the animals and families of not just Pittsburgh but the entire state. He's served on

countless boards, did so much to educate the public and children about our dear pets. A radio show, a column, awards, a pioneer in emergency care for the regions animals — what hasn't he done?

I hope you all can make it to the presentation of the proclamation. June 7 at 9am on Reynolds St in front of his beloved Pt Breeze Vet. (6742 Reynolds). This is a SURPRISE! Larry deserves the recognition so I hope you all can make it!

Warm regards,

Mary

PS Miranda Micire of Erika's office—you did an amazing job!!  
Thank you!

Subject: UPDATE - PRELIMINARY HEARING INVOLVING THE PIGEONS THAT WERE POISONED ON 11-26-20

Good afternoon,

I went to city court this afternoon about the criminal charges that were filed against the managers of the Frick Building (Francisco Escalante and Colleen Derbish), Allen Zimmerman (owner of Bird Control Services) and Randall Hoffmaster (technician of Bird Control Services).

The case was settled.

Assistant District Attorney Grant Olson informed me that he and his supervisors worked out an agreement to settle the case.

The charges against Francisco Escalante and Colleen Derbish were withdrawn. As a measure of good faith, \$500 will be donated to Animal Friends and \$500 will be donated to Humane Animal Rescue of Pittsburgh on behalf of the Frick Building.

Allen Zimmerman and Randall Hoffmaster plead guilty to 3 counts of violating the city ordinance (636.06 - Prohibiting the capture and harm of any wild birds) and 3 counts of cruelty to animals (summary offense). Mr. Zimmerman and Mr. Hoffmaster were fined \$100 each for 3 counts of the ordinance that equals \$300 and \$200 each for 3 counts of cruelty to animals that equals \$600. Mr. Zimmerman and Mr. Hoffmaster will pay a total of \$900 each plus court costs.

In addition to what happened in court today, Allen Zimmerman received fines from the Department of Agriculture in the amount of \$7,900 that he paid for misusing the product of Avitrol.

Thank you for your help and support with this case. I hope that lessons are learned from it.

Cc: Angela Fry  
Subject: Re: CRIMINAL CHARGES - JAMES GENCO

Below is the narrative for the criminal complaint involving James Genco. Please let me know what changes are needed so this is approved. Thanks!

---

This complaint is prepared by your affiant, Officer Christine Luffey. I have worked as a Pittsburgh Police officer for the past twenty-eight (28) years. I specialize in animal neglect and abuse cases.

On March 25, 2021, I reviewed a video that was sent to City of Pittsburgh officials by Meagan Montmeny, Chief Operations Officer at Humane Animal Rescue of Pittsburgh (HARP), to determine if the actions by Pittsburgh Animal Care and Control Officer James Genco are criminal in nature. The video is security camera footage from the internal garage area at HARP.

The video, which is titled "CAM 09" begins on March 17, 2021, at 12:03:23.216 PM (GMT 4:00) and ends the same date at 12:13:56.955 PM (GMT 4:00). The video shows Genco walking into the garage with a tan colored pit bull type dog on a control pole. The dog is actively struggling against the control pole. The dog is then observed lying flat on the floor and Genco is observed dragging the dog on the floor through the garage towards the area where the intake dog kennels are located. A trail of what appears to be blood, urine and feces are viewed on the floor where the dog was dragged. A white female with a long ponytail is viewed walking into the garage from the area that Genco dragged the dog to and then hurrying back to that same area. This female is later identified during a witness interview as Camille Burke, veterinary technician at HARP.

I was then provided with a second video from Montmeny which shows the area outside of the garage door at HARP. This video which is titled "CAM 22 EXT. GENERAL STORAGE" begins on March 17, 2021, at 12:02:43.670 PM (GMT 4:00). The video shows the Pittsburgh Animal Care and Control vehicle pull up outside of the garage door at HARP, Genco exits the vehicle and opens the door to a rear kennel on the vehicle where the tan colored pit bull type dog is located. Genco is viewed pushing the noose end of the control pole into the kennel several times as well as is viewed pulling the cable that tightens the noose around a dog's neck three (3) to four (4) times before finally being able to get the dog on the control pole. Genco is viewed pulling the dog out of the kennel towards the garage door where the dog is viewed striking the garage door and the brick wall.

During my investigation, I was informed that the dog sustained multiple injuries and that he was transported to Pittsburgh Veterinary Specialty and Emergency Clinic (PVSEC) for emergency veterinary care. Dr. Amy Kalinauskas, DVM of HARP, stated that the dog had excessive bleeding, broken teeth with pulp exposure, a broken tail, ruptured blood vessels in both eyes, nystagmus, lameness on the right front and right hind extremities, lacerations on the right front and left hind paws, abrasions and a broken nail that was bleeding.

The treating veterinarian at PVSEC, stated that the dog was in a lot of pain and that based on the injuries, she believes "excessive force was used for sure." She stated that the dog's blood work indicated that he suffered from muscle damage and stress and that the ruptured blood vessels and nystagmus are consistent with a strangulation injury. She stated that injury to the teeth would require additional treatment from a veterinary dentist.

During my witness interview with Burke, she stated that she heard the struggle and commotion coming from the garage area as well as yelping and high-pitched screaming. She stated that she entered the garage and observed Genco handling the dog on a control pole and that Genco was dragging the dog through the garage while the dog was lying flat on the floor. Burke stated that there was a trail of blood, urine, and feces on the floor behind the dog and that the dog appeared to be bleeding heavily. Burke stated that it looked like Genco was "mopping the floor" with the dog.

Humane Society Police Officer Angie Fry and Montmeny measured the approximate distance that Genco was viewed dragging the dog through the garage. It was measured to be approximately twenty-five (25) to thirty (30) feet.

Based on my personal observations of the video footage, specifically the actions shown in the video of Genco, witness statements, and statements from licensed veterinarians, I believe that James Genco's actions directly caused the injuries to the tan colored pit bull type dog seen in the video.

Probably the last of this year!

Also, we think that Michael M. David, the AZ License Plate Number looks to be a stolen plate per the officer's investigative search (information gathered from the Criminal Complaint)

Have a happy holiday season!!  
Lisa

 Subject: Introduction

Hi ADA Borrelli and Dr. Overall,

I wanted to introduce you to each other. I met Dr. Overall as part of a beyond restraint lab at the annual VMX conference in Orlando, FL. I was lucky enough to bring cats from the shelter and work alongside some highly talented Veterinarians. ADA Borrelli is our main point of contact for animal crimes and is deeply passionate about finding voices for the voiceless. ADA Borrelli's husband is also a practicing Veterinarian in Dormont so she has an appreciation for the field.

Ms. Borrelli: I spoke briefly with Dr. Overall about the case against the Animal Control Officer and asked if she is able to do expert witness work. Dr. Overall said she does and relayed her fee structure. Given that our courts haven't reopened to in-person hearings yet, Dr. Overall said she's comfortable over video if necessary. Here's more information about Dr. Overall, <https://www.dacvb.org/members/?id=57319655>.

Thank you both for all your help! This gentleman needs to be held accountable for his actions.

---

This complaint is prepared by your affiant, Officer Christine Luffey. I have worked as a Pittsburgh Police officer for the past twenty-eight (28) years. I specialize in animal neglect and abuse cases.

On March 25, 2021, I reviewed a video that was sent to City of Pittsburgh officials by Meagan Montmeny, Chief Operations Officer at Humane Animal Rescue of Pittsburgh (HARP), to determine if the actions by Pittsburgh Animal Care and Control Officer James Genco are criminal in nature. The video is security camera footage from the internal garage area at HARP.

The video, which is titled "CAM 09" begins on March 17, 2021, at 12:03:23.216 PM (GMT 4:00) and ends the same date at 12:13:56.955 PM (GMT 4:00). The video shows Genco walking into the garage with a tan colored pit bull type dog on a control pole. The dog is actively struggling against the control pole. The dog is then observed lying flat on the floor and Genco is observed dragging the dog on the floor through the garage towards the area where the intake dog kennels are located. A trail of what appears to be blood, urine and feces are viewed on the floor where the dog was dragged. A white female with a long ponytail is viewed walking into the garage from the area that Genco dragged the dog to and then hurrying back to that same area. This female is later identified during a witness interview as Camille Burke, veterinary technician at HARP.

I was then provided with a second video from Montmeny which shows the area outside of the garage door at HARP. This video which is titled "CAM 22 EXT. GENERAL STORAGE" begins on March 17, 2021, at 12:02:43.670 PM (GMT 4:00). The video shows the Pittsburgh Animal Care and Control vehicle pull up outside of the garage door at HARP, Genco exits the vehicle and opens the door to a rear kennel on the vehicle where the tan colored pit bull type dog is located. Genco is viewed pushing the noose end of the control pole into the kennel several times as well as is viewed pulling the cable that tightens the noose around a dog's neck three (3) to four (4) times before finally being able to get the dog on the control pole. Genco is viewed pulling the dog out of the kennel towards the garage door where the dog is viewed striking the garage door and the brick wall.

During my investigation, I was informed that the dog sustained multiple injuries and that he was transported to Pittsburgh Veterinary Specialty and Emergency Clinic (PVSEC) for emergency veterinary care. Dr. Amy Kalinauskas, DVM of HARP, stated that the dog had excessive bleeding, broken teeth with pulp exposure, a broken tail, ruptured blood vessels in both eyes, nystagmus, lameness on the right front and right hind extremities, lacerations on the right front and left hind paws, abrasions and a broken nail that was bleeding.

The treating veterinarian at PVSEC, stated that the dog was in a lot of pain and that based on the injuries, she believes "excessive force was used for sure." She stated that the dog's blood work indicated that he suffered from muscle damage and stress and that the ruptured blood vessels and nystagmus are consistent with a strangulation injury. She stated that injury to the teeth would require additional treatment from a veterinary dentist.

During my witness interview with Burke, she stated that she heard the struggle and commotion coming from the garage area as well as yelping and high-pitched screaming. She stated that she entered the garage and observed Genco handling the dog on a control pole and that Genco was dragging the dog through the garage while the dog was lying flat

on the floor. Burke stated that there was a trail of blood, urine, and feces on the floor behind the dog and that the dog appeared to be bleeding heavily. Burke stated that it looked like Genco was "mopping the floor" with the dog.

Humane Society Police Officer Angie Fry and Montmeny measured the approximate distance that Genco was viewed dragging the dog through the garage. It was measured to be approximately twenty-five (25) to thirty (30) feet.

Based on my personal observations of the video footage, specifically the actions shown in the video of Genco, witness statements, statement made my Genco during his interview as well as statements from licensed veterinarians, I believe that James Genco's actions directly caused the injuries to the tan colored pit bull type dog seen in the video.

GENERAL STORAGE" begins on March 17, 2021, at 12:02:43.670 PM (GMT 4:00). The video shows the Pittsburgh Animal Care and Control vehicle pull up outside of the garage door at HARP, Genco exits the vehicle and opens the door to a rear kennel on the vehicle where the tan colored pit bull type dog is located. Genco is viewed pushing the noose end of the control pole into the kennel several times as well as is viewed pulling the cable that tightens the noose around a dog's neck three (3) to four (4) times before finally being able to get the dog on the control pole. Genco is viewed pulling the dog out of the kennel towards the garage door where the dog is viewed striking the garage door and the brick wall.

During my investigation, I was informed that the dog sustained multiple injuries and that he was transported to Pittsburgh Veterinary Specialty and Emergency Clinic (PVSEC) for emergency veterinary care. Dr. Amy Kalinauskas, DVM of HARP, stated that the dog had excessive bleeding, broken teeth with pulp exposure, a broken tail, ruptured blood vessels in both eyes, nystagmus, lameness on the right front and right hind extremities, lacerations on the right front and left hind paws, abrasions and a broken nail that was bleeding.

The treating veterinarian at PVSEC, stated that the dog was in a lot of pain and that based on the injuries, she believes "excessive force was used for sure." She stated that the dog's blood work indicated that he suffered from muscle damage and stress and that the ruptured blood vessels and nystagmus are consistent with a strangulation injury. She stated that injury to the teeth would require additional treatment from a veterinary dentist.

During my witness interview with Burke, she stated that she heard the struggle and commotion coming from the garage area as well as yelping and high-pitched screaming. She stated that she entered the garage and observed Genco

handling the dog on a control pole and that Genco was dragging the dog through the garage while the dog was lying flat on the floor. Burke stated that there was a trail of blood, urine, and feces on the floor behind the dog and that the dog appeared to be bleeding heavily. Burke stated that it looked like Genco was "mopping the floor" with the dog.

Humane Society Police Officer Angie Fry and Montmeny measured the approximate distance that Genco was viewed dragging the dog through the garage. It was measured to be approximately twenty-five (25) to thirty (30) feet.

Based on my personal observations of the video footage, specifically the actions shown in the video of Genco, witness statements, statement made my Genco during his interview as well as statements from licensed veterinarians, I believe that James Genco's actions directly caused the injuries to the tan colored pit bull type dog seen in the video.

Hi

Looks good but if you're not including any statements from Genco then omit that statement from the last paragraph "statements made by Genco". Also are you excluding the vet's name from PVSEC?

Good morning,

This is the narrative to the criminal complaint involving James Genco.

Please let me know if you feel it is good or changes need to be made. '

Thanks!

-----

This complaint is prepared by your affiant, Officer Christine Luffey. I have worked as a Pittsburgh Police officer for the past twenty-eight (28) years. I specialize in animal neglect and abuse cases.

On March 25, 2021, I reviewed a video that was sent to City of Pittsburgh officials by Meagan Montmeny, Chief Operations Officer at Humane Animal Rescue of Pittsburgh (HARP), to determine if the actions by Pittsburgh Animal Care and Control Officer James Genco are criminal in nature. The video is security camera footage from the internal garage area at HARP.

The video, which is titled "CAM 09" begins on March 17, 2021, at 12:03:23.216 PM (GMT 4:00) and ends the same date at 12:13:56.955 PM (GMT 4:00). The video shows Genco walking into the garage with a tan colored pit bull type dog on a control pole. The dog is actively struggling against the control pole. The dog is then observed lying flat on the floor and Genco is observed dragging the dog on the floor through the garage towards the area where the intake dog kennels are located. A trail of what appears to be blood, urine and feces are viewed on the floor where the dog was dragged. A white female with a long ponytail is viewed walking into the garage from the area that Genco dragged the dog to and then hurrying back to that same area. This female is later identified during a witness interview as Camille Burke, veterinary technician at HARP.

I was then provided with a second video from Montmeny which shows the area outside of the garage door at HARP. This video which is titled "CAM 22 EXT. GENERAL STORAGE" begins on March 17, 2021, at 12:02:43.670 PM (GMT 4:00). The video shows the Pittsburgh Animal Care and Control vehicle pull up outside of the garage door at HARP, Genco exits the vehicle and opens the door to a rear kennel on the vehicle where the tan colored pit bull type dog is located. Genco is viewed pushing the noose end of the control pole into the kennel several times as well as is viewed pulling the cable that tightens the noose around a dog's neck three (3) to four (4) times before finally being able to get the dog on the control pole. Genco is viewed pulling the dog out of the kennel towards the garage door where the dog is viewed striking the garage door and the brick wall.

During my investigation, I was informed that the dog sustained multiple injuries and that he was transported to Pittsburgh Veterinary Specialty and Emergency Clinic (PVSEC) for emergency veterinary care. Dr. Amy Kalinauskas, DVM of HARP, stated that the dog had excessive bleeding, broken teeth with pulp exposure, a broken tail, ruptured blood vessels in both eyes, nystagmus, lameness on the right front and right hind extremities, lacerations on the right front and left hind paws, abrasions and a broken nail that was bleeding.

The treating veterinarian at PVSEC, stated that the dog was in a lot of pain and that based on the injuries, she believes "excessive force was used for sure." She stated that the dog's blood work indicated that he suffered from muscle damage and stress and that the ruptured blood vessels and nystagmus are consistent with a strangulation injury. She stated that injury to the teeth would require additional treatment from a veterinary dentist.

During my witness interview with Burke, she stated that she heard the struggle and commotion coming from the garage area as well as yelping and high-pitched screaming. She stated that she entered the garage and observed Genco handling the dog on a control pole and that Genco was dragging the dog through the garage while the dog was lying flat on the floor. Burke stated that there was a trail of blood, urine, and feces on the floor behind the dog and that the dog appeared to be bleeding heavily. Burke stated that it looked like Genco was "mopping the floor" with the dog.

Humane Society Police Officer Angie Fry and Montmeny measured the approximate distance that Genco was viewed dragging the dog through the garage. It was measured to be approximately twenty-five (25) to thirty (30) feet.

Based on my personal observations of the video footage, specifically the actions shown in the video of Genco, witness statements, statement made by Genco during his interview as well as statements from licensed veterinarians, I believe that James Genco's actions directly caused the injuries to the tan colored pit bull type dog seen in the video.

I reviewed the supplemental report I wrote involving Genco's interview and the list of questions that I asked him.

One of the questions I asked him was "are you aware that the dog in your care and custody suffered multiple injuries"? I will have to review the body camera footage to hear his answer. I believe that he said that he didn't believe that he caused all the injuries to the dog and asked us to look for additional video surveillance.

One other thought.....when we talked about the injuries to the dog. He didn't avoid the question. I believe that he didn't feel that he was responsible for all the dogs' injuries. He asked us to inquire if there is video footage of the dog being removed from the truck (Lt. Stoops checked and there isn't any) and the dog being handled and put in a vehicle to be transported to PVSEC. Meagan pulled the camera footage to see if she could observe the dog being loaded into their vehicle and the camera angle is bad so you can only see their vehicle backing up to the door and the staff loading a crate inside.

Subject: Re: JAMES GENCO

I did.

Thanks! I have to tell you -- you do the best investigations!

I reworked the narrative to meet what our office is looking for and have it attached here. Let's talk about it when you have had a chance to review it and see what you think.

What we need is not the 4 corners (again you do a great job on warrants) for an affidavit of probable cause but just enough facts to get us to a prima facie case in the light most favorable to the Commonwealth. All your investigations notes are great for the police report though.

We need the aopc to be short and only reflect the elements of the crimes charged. I just went through the elements of the charges and picked out the facts that substantiated them. You can certainly correct me where I may have missed something, but I think wording like this will get approved:

This complaint is prepared by your affiant, Officer Christine Luffey. I have worked as a Pittsburgh Police officer for the past twenty-eight (28) years. I specialize in animal neglect and abuse cases.

On March 25, 2021, I reviewed a video that was sent to City of Pittsburgh officials by Meagan Montmeny, Chief Operations Officer at Humane Animal Rescue of Pittsburgh (HARP), to determine if the actions by Pittsburgh Animal Care and Control Officer James Genco are criminal in nature. The video is security camera footage from the internal garage area at HARP.

The video, which is titled "CAM 09" begins on March 17, 2021 at 12:03:23.216 PM (GMT 4:00) and ends the same date at 12:13:56.955 PM (GMT 4:00). The video shows Genco walking into the garage with a tan colored pit bull type dog on a control pole. The dog is actively struggling against the control pole. The dog is then observed lying flat on the floor and Genco is observed dragging the dog on the floor through the garage towards the area where the intake dog kennels are located. A trail of what appears to be blood, urine and feces are viewed on the floor where the dog was dragged. A white female with a long ponytail is viewed walking into the garage from the area that Genco dragged the dog to and then hurrying back to that same area. This female is later identified during a witness interview as Camille Burke, veterinary technician at HARP.

I was then provided with a second video from Montmeny which shows the area outside of the garage door at HARP. This video which is titled "CAM 22 EXT. GENERAL STORAGE" begins on March 17, 2021 at 12:02:43.670 PM (GMT 4:00). The video shows the Pittsburgh Animal Care and Control vehicle pull up outside of the garage door at HARP, Genco exits the vehicle and opens the door to a rear kennel on the vehicle where the tan colored pit bull type dog is located. Genco is viewed pushing the noose end of the control pole into the kennel several times as well as is viewed pulling the cable that tightens the noose around a dog's neck three (3) to four (4) times before finally being able to get the dog on the control pole. Genco is viewed pulling the dog out of the kennel towards the garage door where the dog is viewed striking the garage door and the brick wall.

During my investigation, I was informed that the dog sustained multiple injuries and that he was transported to Pittsburgh Veterinary Speciality and Emergency Clinic (PVSEC) for emergency veterinary care. Dr. Amy Kalinauskas, DVM of HARP, stated that the dog had excessive bleeding, broken teeth with pulp exposure, a broken tail, ruptured blood vessels in both eyes, nystagmus, lameness on the right front and right hind extremities, lacerations on the right front and left hind paws, abrasions and a broken nail that was bleeding.

The treating veterinarian at PVSEC, stated that the dog was in a lot of pain and that based on the injuries, she believes "excessive force was used for sure." She stated that the dog's blood work indicated that he suffered from muscle damage and stress and that the ruptured blood vessels and nystagmus are consistent with a strangulation injury. She stated that injury to the tooth would require additional treatment from a veterinary dentist.

During my witness interview with Burke, she stated that she heard the struggle and commotion coming from the garage area as well as yelping and high pitched screaming. She stated that she entered the garage and observed Genco handling the dog on a control pole and that Genco was dragging the dog through the garage while the dog was lying flat on the floor. Burke stated that there was a trail of blood, urine and feces on the floor behind the dog and that the dog appeared to be bleeding heavily. Burke stated that it looked like Genco was "mopping the floor" with the dog.

Humane Society Police Officer Angie Fry and Montmeny measured the approximate distance that Genco was viewed dragging the dog through the garage. It was measured to be approximately twenty-five (25) to thirty (30) feet.

On April 20, 2021, Genco came in for an interview with his attorney present. Genco stated that he has worked as an animal control officer for twenty-six (26) years. Genco was asked about how the injuries to the dog occurred, however he avoided the question several times.

Based on my personal observations of the video footage, specifically the actions shown in the video of Genco, witness statements, statement made by Genco during his interview as well as statements from licensed veterinarians, I believe that James Genco's actions directly caused the injuries to the tan colored pit bull type dog seen in the video.

Let me know if this is helpful.

The video shows the Pittsburgh Animal Care and Control vehicle pull up outside of the garage door at HARP, Genco exits the vehicle and opens the door to a rear kennel on the vehicle where the tan colored pit bull type dog is located. Genco is viewed pushing the noose end of the control pole into the kennel several times as well as is viewed pulling the cable that tightens the noose around a dog's neck three (3) to four (4) times before finally being able to get the dog on the control pole. Genco is viewed pulling the dog out of the kennel towards the garage door where the dog is viewed striking the garage door and the brick wall.

During my investigation, I was informed that the dog sustained multiple injuries and that he was transported to Pittsburgh Veterinary Speciality and Emergency Clinic (PVSEC) for emergency veterinary care. Dr. Amy Kalinauskas, DVM of HARP, stated that the dog had excessive bleeding, broken teeth with pulp exposure, a broken tail, ruptured blood

vessels in both eyes, nystagmus, lameness on the right front and right hind extremities, lacerations on the right front and left hind paws, abrasions and a broken nail that was bleeding.

The treating veterinarian at PVSEC, stated that the dog was in a lot of pain and that based on the injuries, she believes "excessive force was used for sure." She stated that the dog's blood work indicated that he suffered from muscle damage and stress and that the ruptured blood vessels and nystagmus are consistent with a strangulation injury. She stated that injury to the tooth would require additional treatment from a veterinary dentist.

During my witness interview with Burke, she stated that she heard the struggle and commotion coming from the garage area as well as yelping and high pitched screaming. She stated that she entered the garage and observed Genco handling the dog on a control pole and that Genco was dragging the dog through the garage while the dog was lying flat on the floor. Burke stated that there was a trail of blood, urine and feces on the floor behind the dog and that the dog appeared to be bleeding heavily. Burke stated that it looked like Genco was "mopping the floor" with the dog.

Humane Society Police Officer Angie Fry and Montmeny measured the approximate distance that Genco was viewed dragging the dog through the garage. It was measured to be approximately twenty-five (25) to thirty (30) feet.

On April 20, 2021, Genco came in for an interview with his attorney present. Genco stated that he has worked as an animal control officer for twenty-six (26) years. Genco was asked about how the injuries to the dog occurred, however he avoided the question several times.

Based on my personal observations of the video footage, specifically the actions shown in the video of Genco, witness statements, statement made by Genco during his interview as well as statements from licensed veterinarians, I believe that James Genco's actions directly caused the injuries to the tan colored pit bull type dog seen in the video.

Let me know if this is helpful.

Good morning!

I am checking in for an update on the case involving James Genco. Did you receive the narrative that I e-mailed to you on Thursday that Meagan Montmeny, Officer Fry, and I worked on? If so, please let me know if changes are needed. Thanks!

You are very helpful. Teamwork makes the dream work. I must notify Asst. Chief Kudrav, Director Hissrich, David Madden, and Lt. Stoops as soon as the charges are approved by the DA in Quick Arrest. I know that they want to talk to Animal Care and Control Officers before this case is released to the public. If you hear if it has been approved, please let me know.

Thanks again!

Take care!

I reviewed the supplemental report I wrote involving Genco's interview and the list of questions that I asked him.

One of the questions I asked him was "are you aware that the dog in your care and custody suffered multiple injuries"? I will have to review the body camera footage to hear his answer. I believe that he said that he didn't believe that he caused all the injuries to the dog and asked us to look for additional video surveillance.

One other thought.....when we talked about the injuries to the dog. He didn't avoid the question. I believe that he didn't feel that he was responsible for all the dogs' injuries. He asked us to inquire if there is video footage of the dog being removed from the truck (Lt. Stoops checked and there isn't any) and the dog being handled and put in a vehicle to be transported to PVSEC. Meagan pulled the camera footage to see if she could observe the dog being loaded into their vehicle and the camera angle is bad so you can only see their vehicle backing up to the door and the staff loading a crate inside.

Subject: Re: JAMES GENCO

I did.

Thanks! I have to tell you -- you do the best investigations!

I reworked the narrative to meet what our office is looking for and have it attached here. Let's talk about it when you have had a chance to review it and see what you think.

What we need is not the 4 corners (again you do a great job on warrants) for an affidavit of probable cause but just enough facts to get us to a prima facie case in the light most favorable to the Commonwealth. All your investigations notes are great for the police report though.

We need the aopc to be short and only reflect the elements of the crimes charged. I just went through the elements of the charges and picked out the facts that substantiated them. You can certainly correct me where I may have missed something, but I think wording like this will get approved:

This complaint is prepared by your affiant, Officer Christine Luffey. I have worked as a Pittsburgh Police officer for the past twenty-eight (28) years. I specialize in animal neglect and abuse cases.

On March 25, 2021, I reviewed a video that was sent to City of Pittsburgh officials by Meagan Montmeny, Chief Operations Officer at Humane Animal Rescue of Pittsburgh (HARP), to determine if the actions by Pittsburgh Animal Care and Control Officer James Genco are criminal in nature. The video is security camera footage from the internal garage area at HARP.

The video, which is titled "CAM 09" begins on March 17, 2021 at 12:03:23.216 PM (GMT 4:00) and ends the same date at 12:13:56.955 PM (GMT 4:00). The video shows Genco walking into the garage with a tan colored pit bull type dog on a control pole. The dog is actively struggling against the control pole. The dog is then observed lying flat on the floor and Genco is observed dragging the dog on the floor through the garage towards the area where the intake dog kennels are located. A trail of what appears to be blood, urine and feces are viewed on the floor where the dog was dragged. A white female with a long ponytail is viewed walking into the garage from the area that Genco dragged the dog to and then hurrying back to that same area. This female is later identified during a witness interview as Camille Burke, veterinary technician at HARP.

I was then provided with a second video from Montmeny which shows the area outside of the garage door at HARP. This video which is titled "CAM 22 EXT. GENERAL STORAGE" begins on March 17, 2021 at 12:02:43.670 PM (GMT 4:00). The video shows the Pittsburgh Animal Care and Control vehicle pull up outside of the garage door at HARP, Genco exits the vehicle and opens the door to a rear kennel on the vehicle where the tan colored pit bull type dog is located. Genco is viewed pushing the noose end of the control pole into the kennel several times as well as is viewed pulling the cable that tightens the noose around a dog's neck three (3) to four (4) times before finally being able to get the dog on the control pole. Genco is viewed pulling the dog out of the kennel towards the garage door where the dog is viewed striking the garage door and the brick wall.

During my investigation, I was informed that the dog sustained multiple injuries and that he was transported to Pittsburgh Veterinary Speciality and Emergency Clinic (PVSEC) for emergency veterinary care. Dr. Amy Kalinauskas, DVM of HARP, stated that the dog had excessive bleeding, broken teeth with pulp exposure, a broken tail, ruptured blood vessels in both eyes, nystagmus, lameness on the right front and right hind extremities, lacerations on the right front and left hind paws, abrasions and a broken nail that was bleeding.

The treating veterinarian at PVSEC, stated that the dog was in a lot of pain and that based on the injuries, she believes "excessive force was used for sure." She stated that the dog's blood work indicated that he suffered from muscle damage and stress and that the ruptured blood vessels and nystagmus are consistent with a strangulation injury. She stated that injury to the tooth would require additional treatment from a veterinary dentist.

During my witness interview with Burke, she stated that she heard the struggle and commotion coming from the garage area as well as yelping and high pitched screaming. She stated that she entered the garage and observed Genco handling the dog on a control pole and that Genco was dragging the dog through the garage while the dog was lying flat on the floor. Burke stated that there was a trail of blood, urine and feces on the floor behind the dog and that the dog appeared to be bleeding heavily. Burke stated that it looked like Genco was "mopping the floor" with the dog.

Humane Society Police Officer Angie Fry and Montmeny measured the approximate distance that Genco was viewed dragging the dog through the garage. It was measured to be approximately twenty-five (25) to thirty (30) feet.

On April 20, 2021, Genco came in for an interview with his attorney present. Genco stated that he has worked as an animal control officer for twenty-six (26) years. Genco was asked about how the injuries to the dog occurred, however he avoided the question several times.

Based on my personal observations of the video footage, specifically the actions shown in the video of Genco, witness statements, statement made by Genco during his interview as well as statements from licensed veterinarians, I believe that James Genco's actions directly caused the injuries to the tan colored pit bull type dog seen in the video.

What we need is not the 4 corners (again you do a great job on warrants) for an affidavit of probable cause but just enough facts to get us to a prima facie case in the light most favorable to the Commonwealth. All your investigations notes are great for the police report though.

We need the aopc to be short and only reflect the elements of the crimes charged. I just went through the elements of the charges and picked out the facts that substantiated them. You can certainly correct me where I may have missed something, but I think wording like this will get approved:

This complaint is prepared by your affiant, Officer Christine Luffey. I have worked as a Pittsburgh Police officer for the past twenty-eight (28) years. I specialize in animal neglect and abuse cases.

On March 25, 2021, I reviewed a video that was sent to City of Pittsburgh officials by Meagan Montmeny, Chief Operations Officer at Humane Animal Rescue of Pittsburgh (HARP), to determine if the actions by Pittsburgh Animal Care and Control Officer James Genco are criminal in nature. The video is security camera footage from the internal garage area at HARP.

The video, which is titled "CAM 09" begins on March 17, 2021 at 12:03:23.216 PM (GMT 4:00) and ends the same date at 12:13:56.955 PM (GMT 4:00). The video shows Genco walking into the garage with a tan colored pit bull type dog on a

control pole. The dog is actively struggling against the control pole. The dog is then observed lying flat on the floor and Genco is observed dragging the dog on the floor through the garage towards the area where the intake dog kennels are located. A trail of what appears to be blood, urine and feces are viewed on the floor where the dog was dragged. A white female with a long ponytail is viewed walking into the garage from the area that Genco dragged the dog to and then hurrying back to that same area. This female is later identified during a witness interview as Camille Burke, veterinary technician at HARP.

I was then provided with a second video from Montmeny which shows the area outside of the garage door at HARP. This video which is titled "CAM 22 EXT. GENERAL STORAGE" begins on March 17, 2021 at 12:02:43.670 PM (GMT 4:00). The video shows the Pittsburgh Animal Care and Control vehicle pull up outside of the garage door at HARP, Genco exits the vehicle and opens the door to a rear kennel on the vehicle where the tan colored pit bull type dog is located. Genco is viewed pushing the noose end of the control pole into the kennel several times as well as is viewed pulling the cable that tightens the noose around a dog's neck three (3) to four (4) times before finally being able to get the dog on the control pole. Genco is viewed pulling the dog out of the kennel towards the garage door where the dog is viewed striking the garage door and the brick wall.

During my investigation, I was informed that the dog sustained multiple injuries and that he was transported to Pittsburgh Veterinary Speciality and Emergency Clinic (PVSEC) for emergency veterinary care. Dr. Amy Kalinauskas, DVM of HARP, stated that the dog had excessive bleeding, broken teeth with pulp exposure, a broken tail, ruptured blood vessels in both eyes, nystagmus, lameness on the right front and right hind extremities, lacerations on the right front and left hind paws, abrasions and a broken nail that was bleeding.

The treating veterinarian at PVSEC, stated that the dog was in a lot of pain and that based on the injuries, she believes "excessive force was used for sure." She stated that the dog's blood work indicated that he suffered from muscle damage and stress and that the ruptured blood vessels and nystagmus are consistent with a strangulation injury. She stated that injury to the tooth would require additional treatment from a veterinary dentist.

During my witness interview with Burke, she stated that she heard the struggle and commotion coming from the garage area as well as yelping and high pitched screaming. She stated that she entered the garage and observed Genco handling the dog on a control pole and that Genco was dragging the dog through the garage while the dog was lying flat on the floor. Burke stated that there was a trail of blood, urine and feces on the floor behind the dog and that the dog appeared to be bleeding heavily. Burke stated that it looked like Genco was "mopping the floor" with the dog.

Humane Society Police Officer Angie Fry and Montmeny measured the approximate distance that Genco was viewed dragging the dog through the garage. It was measured to be approximately twenty-five (25) to thirty (30) feet.

On April 20, 2021, Genco came in for an interview with his attorney present. Genco stated that he has worked as an animal control officer for twenty-six (26) years. Genco was asked about how the injuries to the dog occurred, however he avoided the question several times.

Based on my personal observations of the video footage, specifically the actions shown in the video of Genco, witness statements, statement made by Genco during his interview as well as statements from licensed veterinarians, I believe that James Genco's actions directly caused the injuries to the tan colored pit bull type dog seen in the video.

Let me know if this is helpful.

Good morning!

I am checking in for an update on the case involving James Genco. Did you receive the narrative that I e-mailed to you on Thursday that Meagan Montmeny, Officer Fry, and I worked on? If so, please let me know if changes are needed. Thanks!

ok, all that is irrelevant to the charges so don't go to all the extra work. I guess just take out the interview paragraph completely. He is seen on the video dragging the dog. Good enough

I reviewed the supplemental report I wrote involving Genco's interview and the list of questions that I asked him.

One of the questions I asked him was "are you aware that the dog in your care and custody suffered multiple injuries"? I will have to review the body camera footage to hear his answer. I believe that he said that he didn't believe that he caused all the injuries to the dog and asked us to look for additional video surveillance.

One other thought.....when we talked about the injuries to the dog. He didn't avoid the question. I believe that he didn't feel that he was responsible for all the dogs' injuries. He asked us to inquire if there is video footage of the dog being removed from the truck (Lt. Stoops checked and there isn't any) and the dog being handled and put in a vehicle to be transported to PVSEC. Meagan pulled the camera footage to see if she could observe the dog being loaded into their vehicle and the camera angle is bad so you can only see their vehicle backing up to the door and the staff loading a crate inside.

We need the aopc to be short and only reflect the elements of the crimes charged. I just went through the elements of the charges and picked out the facts that substantiated them. You can certainly correct me where I may have missed something, but I think wording like this will get approved:

This complaint is prepared by your affiant, Officer Christine Luffey. I have worked as a Pittsburgh Police officer for the past twenty-eight (28) years. I specialize in animal neglect and abuse cases.

On March 25, 2021, I reviewed a video that was sent to City of Pittsburgh officials by Meagan Montmeny, Chief Operations Officer at Humane Animal Rescue of Pittsburgh (HARP), to determine if the actions by Pittsburgh Animal Care and Control Officer James Genco are criminal in nature. The video is security camera footage from the internal garage area at HARP.

The video, which is titled "CAM 09" begins on March 17, 2021 at 12:03:23.216 PM (GMT 4:00) and ends the same date at 12:13:56.955 PM (GMT 4:00). The video shows Genco walking into the garage with a tan colored pit bull type dog on a control pole. The dog is actively struggling against the control pole. The dog is then observed lying flat on the floor and Genco is observed dragging the dog on the floor through the garage towards the area where the intake dog kennels are located. A trail of what appears to be blood, urine and feces are viewed on the floor where the dog was dragged. A white female with a long ponytail is viewed walking into the garage from the area that Genco dragged the dog to and then hurrying back to that same area. This female is later identified during a witness interview as Camille Burke, veterinary technician at HARP.

I was then provided with a second video from Montmeny which shows the area outside of the garage door at HARP. This video which is titled "CAM 22 EXT. GENERAL STORAGE" begins on March 17, 2021 at 12:02:43.670 PM (GMT 4:00). The video shows the Pittsburgh Animal Care and Control vehicle pull up outside of the garage door at HARP, Genco exits the vehicle and opens the door to a rear kennel on the vehicle where the tan colored pit bull type dog is located. Genco is viewed pushing the noose end of the control pole into the kennel several times as well as is viewed pulling the cable that tightens the noose around a dog's neck three (3) to four (4) times before finally being able to get the dog on the control

pole. Genco is viewed pulling the dog out of the kennel towards the garage door where the dog is viewed striking the garage door and the brick wall.

During my investigation, I was informed that the dog sustained multiple injuries and that he was transported to Pittsburgh Veterinary Speciality and Emergency Clinic (PVSEC) for emergency veterinary care. Dr. Amy Kalinauskas, DVM of HARP, stated that the dog had excessive bleeding, broken teeth with pulp exposure, a broken tail, ruptured blood vessels in both eyes, nystagmus, lameness on the right front and right hind extremities, lacerations on the right front and left hind paws, abrasions and a broken nail that was bleeding.

The treating veterinarian at PVSEC, stated that the dog was in a lot of pain and that based on the injuries, she believes "excessive force was used for sure." She stated that the dog's blood work indicated that he suffered from muscle damage and stress and that the ruptured blood vessels and nystagmus are consistent with a strangulation injury. She stated that injury to the tooth would require additional treatment from a veterinary dentist.

During my witness interview with Burke, she stated that she heard the struggle and commotion coming from the garage area as well as yelping and high pitched screaming. She stated that she entered the garage and observed Genco handling the dog on a control pole and that Genco was dragging the dog through the garage while the dog was lying flat on the floor. Burke stated that there was a trail of blood, urine and feces on the floor behind the dog and that the dog appeared to be bleeding heavily. Burke stated that it looked like Genco was "mopping the floor" with the dog.

Humane Society Police Officer Angie Fry and Montmeny measured the approximate distance that Genco was viewed dragging the dog through the garage. It was measured to be approximately twenty-five (25) to thirty (30) feet.

On April 20, 2021, Genco came in for an interview with his attorney present. Genco stated that he has worked as an animal control officer for twenty-six (26) years. Genco was asked about how the injuries to the dog occurred, however he avoided the question several times.

Based on my personal observations of the video footage, specifically the actions shown in the video of Genco, witness statements, statement made by Genco during his interview as well as statements from licensed veterinarians, I believe that James Genco's actions directly caused the injuries to the tan colored pit bull type dog seen in the video.

Let me know if this is helpful.

Subject: Re: JAMES GENCO

I did.

Thanks! I have to tell you -- you do the best investigations!

I reworked the narrative to meet what our office is looking for and have it attached here. Let's talk about it when you have had a chance to review it and see what you think.

What we need is not the 4 corners (again you do a great job on warrants) for an affidavit of probable cause but just enough facts to get us to a prima facie case in the light most favorable to the Commonwealth. All your investigations notes are great for the police report though.

We need the aopc to be short and only reflect the elements of the crimes charged. I just went through the elements of the charges and picked out the facts that substantiated them. You can certainly correct me where I may have missed something, but I think wording like this will get approved:

This complaint is prepared by your affiant, Officer Christine Luffey. I have worked as a Pittsburgh Police officer for the past twenty-eight (28) years. I specialize in animal neglect and abuse cases.

On March 25, 2021, I reviewed a video that was sent to City of Pittsburgh officials by Meagan Montmeny, Chief Operations Officer at Humane Animal Rescue of Pittsburgh (HARP), to determine if the actions by Pittsburgh Animal Care and Control Officer James Genco are criminal in nature. The video is security camera footage from the internal garage area at HARP.

The video, which is titled "CAM 09" begins on March 17, 2021 at 12:03:23.216 PM (GMT 4:00) and ends the same date at 12:13:56.955 PM (GMT 4:00). The video shows Genco walking into the garage with a tan colored pit bull type dog on a control pole. The dog is actively struggling against the control pole. The dog is then observed lying flat on the floor and Genco is observed dragging the dog on the floor through the garage towards the area where the intake dog kennels are located. A trail of what appears to be blood, urine and feces are viewed on the floor where the dog was dragged. A white female with a long ponytail is viewed walking into the garage from the area that Genco dragged the dog to and then hurrying back to that same area. This female is later identified during a witness interview as Camille Burke, veterinary technician at HARP.

I was then provided with a second video from Montmeny which shows the area outside of the garage door at HARP. This video which is titled "CAM 22 EXT. GENERAL STORAGE" begins on March 17, 2021 at 12:02:43.670 PM (GMT 4:00). The video shows the Pittsburgh Animal Care and Control vehicle pull up outside of the garage door at HARP, Genco exits the vehicle and opens the door to a rear kennel on the vehicle where the tan colored pit bull type dog is located. Genco is viewed pushing the noose end of the control pole into the kennel several times as well as is viewed pulling the cable that tightens the noose around a dog's neck three (3) to four (4) times before finally being able to get the dog on the control pole. Genco is viewed pulling the dog out of the kennel towards the garage door where the dog is viewed striking the garage door and the brick wall.

During my investigation, I was informed that the dog sustained multiple injuries and that he was transported to Pittsburgh Veterinary Speciality and Emergency Clinic (PVSEC) for emergency veterinary care. Dr. Amy Kalinauskas, DVM of HARP, stated that the dog had excessive bleeding, broken teeth with pulp exposure, a broken tail, ruptured blood vessels in both eyes, nystagmus, lameness on the right front and right hind extremities, lacerations on the right front and left hind paws, abrasions and a broken nail that was bleeding.

The treating veterinarian at PVSEC, stated that the dog was in a lot of pain and that based on the injuries, she believes "excessive force was used for sure." She stated that the dog's blood work indicated that he suffered from muscle damage and stress and that the ruptured blood vessels and nystagmus are consistent with a strangulation injury. She stated that injury to the tooth would require additional treatment from a veterinary dentist.

During my witness interview with Burke, she stated that she heard the struggle and commotion coming from the garage area as well as yelping and high pitched screaming. She stated that she entered the garage and observed Genco handling the dog on a control pole and that Genco was dragging the dog through the garage while the dog was lying flat on the floor. Burke stated that there was a trail of blood, urine and feces on the floor behind the dog and that the dog appeared to be bleeding heavily. Burke stated that it looked like Genco was "mopping the floor" with the dog.

Humane Society Police Officer Angie Fry and Montmeny measured the approximate distance that Genco was viewed dragging the dog through the garage. It was measured to be approximately twenty-five (25) to thirty (30) feet.

One other thought.....when we talked about the injuries to the dog. He didn't avoid the question. I believe that he didn't feel that he was responsible for all the dogs' injuries. He asked us to inquire if there is video footage of the dog being removed from the truck (Lt. Stoops checked and there isn't any) and the dog being handled and put in a vehicle to be transported to PVSEC. Meagan pulled the camera footage to see if she could observe the dog being loaded into their vehicle and the camera angle is bad so you can only see their vehicle backing up to the door and the staff loading a crate inside.

Subject: JAMES GENCO

Good morning!

I am checking in for an update on the case involving James Genco. Did you receive the narrative that I e-mailed to you on Thursday that Meagan Montmeny, Officer Fry, and I worked on? If so, please let me know if changes are needed. Thanks!

Subject: Re: JAMES GENCO

I did.

Thanks! I have to tell you -- you do the best investigations!

I reworked the narrative to meet what our office is looking for and have it attached here. Let's talk about it when you have had a chance to review it and see what you think.

What we need is not the 4 corners (again you do a great job on warrants) for an affidavit of probable cause but just enough facts to get us to a prima facie case in the light most favorable to the Commonwealth. All your investigations notes are great for the police report though.

We need the aopc to be short and only reflect the elements of the crimes charged. I just went through the elements of the charges and picked out the facts that substantiated them. You can certainly correct me where I may have missed something, but I think wording like this will get approved:

This complaint is prepared by your affiant, Officer Christine Luffey. I have worked as a Pittsburgh Police officer for the past twenty-eight (28) years. I specialize in animal neglect and abuse cases.

On March 25, 2021, I reviewed a video that was sent to City of Pittsburgh officials by Meagan Montmeny, Chief Operations Officer at Humane Animal Rescue of Pittsburgh (HARP), to determine if the actions by Pittsburgh Animal Care and Control Officer James Genco are criminal in nature. The video is security camera footage from the internal garage area at HARP.

The video, which is titled "CAM 09" begins on March 17, 2021 at 12:03:23.216 PM (GMT 4:00) and ends the same date at 12:13:56.955 PM (GMT 4:00). The video shows Genco walking into the garage with a tan colored pit bull type dog on a control pole. The dog is actively struggling against the control pole. The dog is then observed lying flat on the floor and Genco is observed dragging the dog on the floor through the garage towards the area where the intake dog kennels are located. A trail of what appears to be blood, urine and feces are viewed on the floor where the dog was dragged. A white female with a long ponytail is viewed walking into the garage from the area that Genco dragged the dog to and then hurrying back to that same area. This female is later identified during a witness interview as Camille Burke, veterinary technician at HARP.

I was then provided with a second video from Montmeny which shows the area outside of the garage door at HARP. This video which is titled "CAM 22 EXT. GENERAL STORAGE" begins on March 17, 2021 at 12:02:43.670 PM (GMT 4:00). The video shows the Pittsburgh Animal Care and Control vehicle pull up outside of the garage door at HARP, Genco exits the vehicle and opens the door to a rear kennel on the vehicle where the tan colored pit bull type dog is located. Genco is viewed pushing the noose end of the control pole into the kennel several times as well as is viewed pulling the cable that tightens the noose around a dog's neck three (3) to four (4) times before finally being able to get the dog on the control pole. Genco is viewed pulling the dog out of the kennel towards the garage door where the dog is viewed striking the garage door and the brick wall.

During my investigation, I was informed that the dog sustained multiple injuries and that he was transported to Pittsburgh Veterinary Speciality and Emergency Clinic (PVSEC) for emergency veterinary care. Dr. Amy Kalinauskas, DVM of HARP, stated that the dog had excessive bleeding, broken teeth with pulp exposure, a broken tail, ruptured blood vessels in both eyes, nystagmus, lameness on the right front and right hind extremities, lacerations on the right front and left hind paws, abrasions and a broken nail that was bleeding.

The treating veterinarian at PVSEC, stated that the dog was in a lot of pain and that based on the injuries, she believes "excessive force was used for sure." She stated that the dog's blood work indicated that he suffered from muscle damage and stress and that the ruptured blood vessels and nystagmus are consistent with a strangulation injury. She stated that injury to the tooth would require additional treatment from a veterinary dentist.

During my witness interview with Burke, she stated that she heard the struggle and commotion coming from the garage area as well as yelping and high pitched screaming. She stated that she entered the garage and observed Genco handling the dog on a control pole and that Genco was dragging the dog through the garage while the dog was lying flat on the floor. Burke stated that there was a trail of blood, urine and feces on the floor behind the dog and that the dog appeared to be bleeding heavily. Burke stated that it looked like Genco was "mopping the floor" with the dog.

Humane Society Police Officer Angie Fry and Montmeny measured the approximate distance that Genco was viewed dragging the dog through the garage. It was measured to be approximately twenty-five (25) to thirty (30) feet.

On April 20, 2021, Genco came in for an interview with his attorney present. Genco stated that he has worked as an animal control officer for twenty-six (26) years. Genco was asked about how the injuries to the dog occurred, however he avoided the question several times.

Based on my personal observations of the video footage, specifically the actions shown in the video of Genco, witness statements, statement made by Genco during his interview as well as statements from licensed veterinarians, I believe that James Genco's actions directly caused the injuries to the tan colored pit bull type dog seen in the video.

Let me know if this is helpful.

Hi AAARF! Board members,

I wanted to let you all know I approached Councilwoman Strassburger about a proclamation for Larry Gerson and she was kind enough to make it happen. One thing Larry said to me recently was that he's heartbroken that he didn't get to say goodbye to his patients due to Covid restrictions and then finally retiring during that time. Well this is his chance! He's done so much for the animals and families of not just Pittsburgh but the entire state. He's served on

countless boards, did so much to educate the public and children about our dear pets. A radio show, a column, awards, a pioneer in emergency care for the regions animals — what hasn't he done?

I hope you all can make it to the presentation of the proclamation. June 7 at 9am on Reynolds St in front of his beloved Pt Breeze Vet. (6742 Reynolds). This is a SURPRISE! Larry deserves the recognition so I hope you all can make it!

Warm regards,

Mary

PS Miranda Micire of Erika's office—you did an amazing job!!

Normally, I would say a meeting but given that charges need to get filed, I would say one on one. Maybe you, Lt Stoops and Christine for this case and go over the "new requirements"?

Christine did a great investigation, very thorough but I think she's very confused on what the problem is. I try to remember that unclear is unkind and just being direct and clear with her is what she deserves.

I hope that helps!

Hello,

After speaking with Officer Angie Fry earlier today, I revised the narrative to the criminal complaint involving James Genco again. Is the third time a charm? Please let me know if changes are needed. I am off work on Tuesday, May 25, 2021. I will return to work at 6 am on Wednesday, May 26, 2021. Thanks!

---

This complaint is prepared by your affiant, Officer Christine Luffey. I have worked as a Pittsburgh Police Officer for the past 28 years. I specialize in animal neglect and abuse cases.

On March 25, 2021, City of Pittsburgh Public Safety Director Wendell Hissrich requested that I review a video that was sent to city officials by Meagan Montmeny from Humane Animal Rescue of Pittsburgh to determine if the video is criminal in nature. The video was recorded on March 17, 2021. The video begins - CAM 09 12:03:23.216 PM (GMT 4:00) 3/17/2021. The video ends - CAM 09 12:13:56.955 PM (GMT 4.00) 3/17/2021

In the video, the man door next to the garage door at Humane Animal Rescue of Pittsburgh, East End location opens. Animal Care and Control Officer James Genco props open the door and is standing at the door outside of the building until he goes out of view. Animal Care and Control Officer John Lapp walks in the building with a white pit bull type dog on a rope. He then walks out of the door without the white dog. Animal Care and Control Officer James Genco brings a tan color pit bull type dog into the building. He has the dog on a control pole. The dog is struggling against the control pole and it either lays down or collapses on to the floor. Animal Care and Control Officer James Genco drags the dog across the floor and goes out of view. A trail of what appears to be possible bodily fluids are viewed on the floor where the dog was dragged. A white female with a dyed-red ponytail, later identified as Camille Burke, walks into the garage area, and walks in the direction of Animal Care and Control Officer James Genco. Camille Burke then hurries back into the area that she came out of.

Meagan Montmeny, later provided me with a second video that I viewed on a thumb drive that she provided - CAM 22 EXT. GENERAL STORAGE. The video begins at 12:02:43.670 PM (GMT-4.00) 3-17-2021.

In this video, an Animal Care and Control truck pulls up and stops outside of the garage at Humane Animal Rescue of Pittsburgh. Animal Care and Control Officer James Genco exits the driver's side of the truck and Animal Care and Control Officer John Lapp exits the passenger side of the truck. Animal Care and Control Officer John Lapp removes a white color pit bull type dog. The man door next to the garage door is opened by Animal Care and Control Officer James Genco. Animal Care and Control Officer John Lapp enters the building with the white color pit bull type dog. The door remains open. Animal Care and Control Officer James Genco puts on a pair of gloves and retrieves a control pole. He is alone when he opens the rear door where the tan colored pit bull type dog is inside. He is handling a control pole. He then closes the door where the dog is being held. Animal Care and Control Officer John Lapp exits the door to the building. He retrieves an additional control pole. Animal Care and Control Officers John Lapp and James Genco switch control poles. Animal Care and Control Officer John Lapp opens the door where the tan color pit bull type dog is being held and Animal Care and Control Officer James Genco begins using the control pole to get the dog on to it. It appears that Animal Care and Control Officer James Genco pulled the cord on the end of the control pole four times using his right hand. Animal Care and Control Officer James Genco pulls the tan color pit bull type dog off the truck. The dog appears to have hit into the garage door or brick wall. Animal Care and Control Officer James Genco escorts the tan color pit bull type dog into the building using a control pole. Animal Care and Control Officers John Lapp and Genco exit the building approximately five minutes later and leave.

During my investigation, I was informed that the tan color dog sustained multiple injuries and was transported to PVSEC for emergency veterinary treatment. The injuries reported were excessive bleeding, broken teeth with pulp exposed , a broken tail, ruptured blood vessels in both of its eyes, nystagmus, lameness on the right front and right hind leg, lacerations on the dog's front right left hind paw, abrasions, and a broken bleeding nail. Dr. Emily Gardner is the Veterinarian who treated the injured dog brought to PVSEC on March 17, 2021, by Amanda Geletko from Humane Animal Rescue of Pittsburgh. Dr. Emily Gardner informed me that the injured dog was in a lot of pain and that based on his injuries that she believes "excess force was used for sure". She said that the dog's blood work indicated that he suffered from stress and muscle damage. Dr. Emily Gardner told me that the injuries to the dog's eyes are consistent with a strangulation injury. She stated that she referred the owner of the injured dog to a Veterinary Dentist for additional treatment.

Meagan Montmeny is employed as the Chief Operations Officer at Humane Animal Rescue of Pittsburgh, with many years of animal welfare experience, informed me that the control pole was used incorrectly and that that dog should have never been hurt to this extent. Meagan Montmeny reported that Animal Care and Control Officer James Genco struggled to remove the dog from the truck for about 5 minutes. Meagan Montmeny told me that she watched the video frame by frame. She said that she viewed Animal Care and Control Officer James Genco pull the noose on the control stick three times before getting it on to the control stick. Meagan Montmeny informed me that the dog came flying off the truck, hit the ground, appeared to bounce off the garage barrier, and then bit the control stick. Meagan Montmeny and Humane Society Police Officer Angie Fry informed me that they measured from the entry door at the garage to where the kennels are located and that it is 25 to 30 feet. They estimated that Animal Care and Control Officer James Genco dragged the dog while it was lying flat on the floor for 25 feet.

Humane Animal Rescue Veterinary Technician Camille Burke reported that she was working in the cat tech room entering paperwork, when she heard a commotion and high-pitched yelping and screaming coming from the garage. She told me that she saw Animal Care and Control Officer James Genco handling the dog on a control pole. Camille Burke stated that it looked like Animal Care and Control Officer James Genco was "mopping the floor" with the dog. She reported that the dog left behind him a trail of blood, feces, and urine. Camille Burke said that she hurried to retrieve other staff members because the dog was bleeding heavily.

James Genco voluntarily came into Zone 3 station with Attorney Casey White on April 20, 2021, for me to interview him in the presence of Lt. Julie Stoops. I read James Genco his Miranda Rights and he agreed to speak to me about this incident. James Genco stated that he has worked as an Animal Care and Control Officer for the past 26 years. James Genco told us that he believed the dogs were in imminent danger. He informed us that the dogs were panting, their tongues were hanging out, and that they were slobbering. He said that the windows on the vehicle were completely closed and that there was no food or water inside of the vehicle. James Genco told us that the outside temperature was 50 degrees. According to Accuweather, the temperature in Pittsburgh on March 17, 2021, was a high of 67 degrees and a low of 36 degrees.

Based on my personal observations of the video footage, specifically the actions shown in the video of James Genco, witness statements, statements made by James Genco during his interview, as well as statements from a licensed veterinarian, I believe that James Genco's actions directly caused the injuries to the tan colored pit bull dog type seen in the video.

This case was reviewed by Assistant District Attorney Lisa Borrelli, and the above listed charges were approved.

ARREST WARRANT RESPECTFULLY REQUESTED.

Normally, I would say a meeting but given that charges need to get filed, I would say one on one. Maybe you, Lt Stoops and Christine for this case and go over the "new requirements"?

Christine did a great investigation, very thorough but I think she's very confused on what the problem is. I try to remember that unclear is unkind and just being direct and clear with her is what she deserves.

I hope that helps!

Ugh- good question.

I think the edits may need to come directly from you or from Lt. Stoops. Angie has really tried to help and Christine is still struggling to understand the issues and how to fix them.

Thoughts?

Hello,

After speaking with Officer Angie Fry earlier today, I revised the narrative to the criminal complaint involving James Genco again. Is the third time a charm? Please let me know if changes are needed. I am off work on Tuesday, May 25, 2021. I will return to work at 6 am on Wednesday, May 26, 2021. Thanks!

---

This complaint is prepared by your affiant, Officer Christine Luffey. I have worked as a Pittsburgh Police Officer for the past 28 years. I specialize in animal neglect and abuse cases.

On March 25, 2021, City of Pittsburgh Public Safety Director Wendell Hissrich requested that I review a video that was sent to city officials by Meagan Montmeny from Humane Animal Rescue of Pittsburgh to determine if the video is criminal in nature. The video was recorded on March 17, 2021. The video begins - CAM 09 12:03:23.216 PM (GMT 4:00) 3/17/2021. The video ends - CAM 09 12:13:56.955 PM (GMT 4.00) 3/17/2021

In the video, the man door next to the garage door at Humane Animal Rescue of Pittsburgh, East End location opens. Animal Care and Control Officer James Genco props open the door and is standing at the door outside of the building until he goes out of view. Animal Care and Control Officer John Lapp walks in the building with a white pit bull type dog on a rope. He then walks out of the door without the white dog. Animal Care and Control Officer James Genco brings a tan color pit bull type dog into the building. He has the dog on a control pole. The dog is struggling against the control pole and it either lays down or collapses on to the floor. Animal Care and Control Officer James Genco drags the dog across the floor and goes out of view. A trail of what appears to be possible bodily fluids are viewed on the floor where the dog was dragged. A white female with a dyed-red ponytail, later identified as Camille Burke, walks into the garage area, and walks in the direction of Animal Care and Control Officer James Genco. Camille Burke then hurries back into the area that she came out of.

Meagan Montmeny, later provided me with a second video that I viewed on a thumb drive that she provided - CAM 22 EXT. GENERAL STORAGE. The video begins at 12:02:43.670 PM (GMT-4.00) 3-17-2021.

In this video, an Animal Care and Control truck pulls up and stops outside of the garage at Humane Animal Rescue of Pittsburgh. Animal Care and Control Officer James Genco exits the driver's side of the truck and Animal Care and Control Officer John Lapp exits the passenger side of the truck. Animal Care and Control Officer John Lapp removes a white color pit bull type dog. The man door next to the garage door is opened by Animal Care and Control Officer James Genco. Animal Care and Control Officer John Lapp enters the building with the white color pit bull type dog. The door remains open. Animal Care and Control Officer James Genco puts on a pair of gloves and retrieves a control pole. He is alone when he opens the rear door where the tan colored pit bull type dog is inside. He is handling a control pole. He then closes the door where the dog is being held. Animal Care and Control Officer John Lapp exits the door to the building. He retrieves an additional control pole. Animal Care and Control Officers John Lapp and James Genco switch control poles. Animal Care and Control Officer John Lapp opens the door where the tan color pit bull type dog is being held and Animal Care and Control Officer James Genco begins using the control pole to get the dog on to it. It appears that Animal Care and Control Officer James Genco pulled the cord on the end of the control pole four times using his right hand. Animal Care and Control Officer James Genco pulls the tan color pit bull type dog off the truck. The dog appears to have hit into the garage door or brick wall. Animal Care and Control Officer James Genco escorts the tan color pit bull type dog into the building using a control pole. Animal Care and Control Officers John Lapp and Genco exit the building approximately five minutes later and leave.

During my investigation, I was informed that the tan color dog sustained multiple injuries and was transported to PVSEC for emergency veterinary treatment. The injuries reported were excessive bleeding, broken teeth with pulp exposed , a broken tail, ruptured blood vessels in both of its eyes, nystagmus, lameness on the right front and right hind leg, lacerations on the dog's front right left hind paw, abrasions, and a broken bleeding nail. Dr. Emily Gardner is the Veterinarian who treated the injured dog brought to PVSEC on March 17, 2021, by Amanda Geletko from Humane Animal Rescue of Pittsburgh. Dr. Emily Gardner informed me that the injured dog was in a lot of pain and that based on his injuries that she believes "excess force was used for sure". She said that the dog's blood work indicated that he suffered from stress and muscle damage. Dr. Emily Gardner told me that the injuries to the dog's eyes are consistent with a strangulation injury. She stated that she referred the owner of the injured dog to a Veterinary Dentist for additional treatment.

Meagan Montmeny is employed as the Chief Operations Officer at Humane Animal Rescue of Pittsburgh, with many years of animal welfare experience, informed me that the control pole was used incorrectly and that that dog should have never been hurt to this extent. Meagan Montmeny reported that Animal Care and Control Officer James Genco struggled to remove the dog from the truck for about 5 minutes. Meagan Montmeny told me that she watched the video frame by frame. She said that she viewed Animal Care and Control Officer James Genco pull the noose on the control stick three times before getting it on to the control stick. Meagan Montmeny informed me that the dog came flying off the truck, hit the ground, appeared to bounce off the garage barrier, and then bit the control stick. Meagan Montmeny and Humane Society Police Officer Angie Fry informed me that they measured from the entry door at the garage to where the kennels are located and that it is 25 to 30 feet. They estimated that Animal Care and Control Officer James Genco dragged the dog while it was lying flat on the floor for 25 feet.

Humane Animal Rescue Veterinary Technician Camille Burke reported that she was working in the cat tech room entering paperwork, when she heard a commotion and high-pitched yelping and screaming coming from the garage. She told me that she saw Animal Care and Control Officer James Genco handling the dog on a control pole. Camille Burke stated that it looked like Animal Care and Control Officer James Genco was "mopping the floor" with the dog. She reported that the dog left behind him a trail of blood, feces, and urine. Camille Burke said that she hurried to retrieve other staff members because the dog was bleeding heavily.

James Genco voluntarily came into Zone 3 station with Attorney Casey White on April 20, 2021, for me to interview him in the presence of Lt. Julie Stoops. I read James Genco his Miranda Rights and he agreed to speak to me about this incident. James Genco stated that he has worked as an Animal Care and Control Officer for the past 26 years. James Genco told us that he believed the dogs were in imminent danger. He informed us that the dogs were panting, their tongues were hanging out, and that they were slobbering. He said that the windows on the vehicle were completely closed and that there was no food or water inside of the vehicle. James Genco told us that the outside temperature was 50 degrees. According to Accuweather, the temperature in Pittsburgh on March 17, 2021, was a high of 67 degrees and a low of 36 degrees.

Based on my personal observations of the video footage, specifically the actions shown in the video of James Genco, witness statements, statements made by James Genco during his interview, as well as statements from a licensed veterinarian, I believe that James Genco's actions directly caused the injuries to the tan colored pit bull dog type seen in the video.

This case was reviewed by Assistant District Attorney Lisa Borrelli, and the above listed charges were approved.

ARREST WARRANT RESPECTFULLY REQUESTED.

They estimated that Animal Care and Control Officer James Genco dragged the dog while it was lying flat on the floor for 25 feet.

Humane Animal Rescue Veterinary Technician Camille Burke reported that she was working in the cat tech room entering paperwork, when she heard a commotion and high-pitched yelping and screaming coming from the garage. She told me that she saw Animal Care and Control Officer James Genco handling the dog on a control pole. Camille Burke stated that it looked like Animal Care and Control Officer James Genco was "mopping the floor" with the dog. She reported that the dog left behind him a trail of blood, feces, and urine. Camille Burke said that she hurried to retrieve other staff members because the dog was bleeding heavily.

James Genco voluntarily came into Zone 3 station with Attorney Casey White on April 20, 2021, for me to interview him in the presence of Lt. Julie Stoops. I read James Genco his Miranda Rights and he agreed to speak to me about this incident. James Genco stated that he has worked as an Animal Care and Control Officer for the past 26 years. James Genco told us that he believed the dogs were in imminent danger. He informed us that the dogs were panting, their tongues were hanging out, and that they were slobbering. He said that the windows on the vehicle were completely closed and that there was no food or water inside of the vehicle. James Genco told us that the outside temperature was 50 degrees. According to Accuweather, the temperature in Pittsburgh on March 17, 2021, was a high of 67 degrees and a low of 36 degrees.

Based on my personal observations of the video footage, specifically the actions shown in the video of James Genco, witness statements, statements made by James Genco during his interview, as well as statements from a licensed veterinarian, I believe that James Genco's actions directly caused the injuries to the tan colored pit bull dog type seen in the video.

This case was reviewed by Assistant District Attorney Lisa Borrelli, and the above listed charges were approved.

ARREST WARRANT RESPECTFULLY REQUESTED.

Ugh- good question.

I think the edits may need to come directly from you or from Lt. Stoops. Angie has really tried to help and Christine is still struggling to understand the issues and how to fix them.

Thoughts?

Subject: JAMES GENCO - PLEASE READ

Hello,

After speaking with Officer Angie Fry earlier today, I revised the narrative to the criminal complaint involving James Genco again. Is the third time a charm? Please let me know if changes are needed. I am off work on Tuesday, May 25, 2021. I will return to work at 6 am on Wednesday, May 26, 2021. Thanks!

---

This complaint is prepared by your affiant, Officer Christine Luffey. I have worked as a Pittsburgh Police Officer for the past 28 years. I specialize in animal neglect and abuse cases.

On March 25, 2021, City of Pittsburgh Public Safety Director Wendell Hissrich requested that I review a video that was sent to city officials by Meagan Montmeny from Humane Animal Rescue of Pittsburgh to determine if the video is criminal in nature. The video was recorded on March 17, 2021. The video begins - CAM 09 12:03:23.216 PM (GMT 4:00) 3/17/2021. The video ends - CAM 09 12:13:56.955 PM (GMT 4.00) 3/17/2021

In the video, the man door next to the garage door at Humane Animal Rescue of Pittsburgh, East End location opens. Animal Care and Control Officer James Genco props open the door and is standing at the door outside of the building until he goes out of view. Animal Care and Control Officer John Lapp walks in the building with a white pit bull type dog on a rope. He then walks out of the door without the white dog. Animal Care and Control Officer James Genco brings a tan color pit bull type dog into the building. He has the dog on a control pole. The dog is struggling against the control pole and it either lays down or collapses on to the floor. Animal Care and Control Officer James Genco drags the dog across the floor and goes out of view. A trail of what appears to be possible bodily fluids are viewed on the floor where the dog was dragged. A white female with a dyed-red ponytail, later identified as Camille Burke, walks into the garage area, and walks in the direction of Animal Care and Control Officer James Genco. Camille Burke then hurries back into the area that she came out of.

Meagan Montmeny, later provided me with a second video that I viewed on a thumb drive that she provided - CAM 22 EXT. GENERAL STORAGE. The video begins at 12:02:43.670 PM (GMT-4.00) 3-17-2021.

In this video, an Animal Care and Control truck pulls up and stops outside of the garage at Humane Animal Rescue of Pittsburgh. Animal Care and Control Officer James Genco exits the driver's side of the truck and Animal Care and Control Officer John Lapp exits the passenger side of the truck. Animal Care and Control Officer John Lapp removes a white color pit bull type dog. The man door next to the garage door is opened by Animal Care and Control Officer James Genco. Animal Care and Control Officer John Lapp enters the building with the white color pit bull type dog. The door remains open. Animal Care and Control Officer James Genco puts on a pair of gloves and retrieves a control pole. He is alone when he opens the rear door where the tan colored pit bull type dog is inside. He is handling a control pole. He then closes the door where the dog is being held. Animal Care and Control Officer John Lapp exits the door to the

building. He retrieves an additional control pole. Animal Care and Control Officers John Lapp and James Genco switch control poles. Animal Care and Control Officer John Lapp opens the door where the tan color pit bull type dog is being held and Animal Care and Control Officer James Genco begins using the control pole to get the dog on to it. It appears that Animal Care and Control Officer James Genco pulled the cord on the end of the control pole four times using his right hand. Animal Care and Control Officer James Genco pulls the tan color pit bull type dog off the truck. The dog appears to have hit into the garage door or brick wall. Animal Care and Control Officer James Genco escorts the tan color pit bull type dog into the building using a control pole. Animal Care and Control Officers John Lapp and Genco exit the building approximately five minutes later and leave.

During my investigation, I was informed that the tan color dog sustained multiple injuries and was transported to PVSEC for emergency veterinary treatment. The injuries reported were excessive bleeding, broken teeth with pulp exposed, a broken tail, ruptured blood vessels in both of its eyes, nystagmus, lameness on the right front and right hind leg, lacerations on the dog's front right left hind paw, abrasions, and a broken bleeding nail. Dr. Emily Gardner is the Veterinarian who treated the injured dog brought to PVSEC on March 17, 2021, by Amanda Geletko from Humane Animal Rescue of Pittsburgh. Dr. Emily Gardner informed me that the injured dog was in a lot of pain and that based on his injuries that she believes "excess force was used for sure". She said that the dog's blood work indicated that he suffered from stress and muscle damage. Dr. Emily Gardner told me that the injuries to the dog's eyes are consistent with a strangulation injury. She stated that she referred the owner of the injured dog to a Veterinary Dentist for additional treatment.

Meagan Montmeny is employed as the Chief Operations Officer at Humane Animal Rescue of Pittsburgh, with many years of animal welfare experience, informed me that the control pole was used incorrectly and that that dog should have never been hurt to this extent. Meagan Montmeny reported that Animal Care and Control Officer James Genco struggled to remove the dog from the truck for about 5 minutes. Meagan Montmeny told me that she watched the video frame by frame. She said that she viewed Animal Care and Control Officer James Genco pull the noose on the control stick three times before getting it on to the control stick. Meagan Montmeny informed me that the dog came flying off the truck, hit the ground, appeared to bounce off the garage barrier, and then bit the control stick. Meagan Montmeny and Humane Society Police Officer Angie Fry informed me that they measured from the entry door at the garage to where the kennels are located and that it is 25 to 30 feet. They estimated that Animal Care and Control Officer James Genco dragged the dog while it was lying flat on the floor for 25 feet.

Humane Animal Rescue Veterinary Technician Camille Burke reported that she was working in the cat tech room entering paperwork, when she heard a commotion and high-pitched yelping and screaming coming from the garage. She told me that she saw Animal Care and Control Officer James Genco handling the dog on a control pole. Camille Burke stated that it looked like Animal Care and Control Officer James Genco was "mopping the floor" with the dog. She reported that the dog left behind him a trail of blood, feces, and urine. Camille Burke said that she hurried to retrieve other staff members because the dog was bleeding heavily.

James Genco voluntarily came into Zone 3 station with Attorney Casey White on April 20, 2021, for me to interview him in the presence of Lt. Julie Stoops. I read James Genco his Miranda Rights and he agreed to speak to me about this incident. James Genco stated that he has worked as an Animal Care and Control Officer for the past 26 years. James Genco told us that he believed the dogs were in imminent danger. He informed us that the dogs were panting, their tongues were hanging out, and that they were slobbering. He said that the windows on the vehicle were completely closed and that there was no food or water inside of the vehicle. James Genco told us that the outside temperature was 50 degrees. According to Accuweather, the temperature in Pittsburgh on March 17, 2021, was a high of 67 degrees and a low of 36 degrees.

Based on my personal observations of the video footage, specifically the actions shown in the video of James Genco, witness statements, statements made by James Genco during his interview, as well as statements from a licensed

veterinarian, I believe that James Genco's actions directly caused the injuries to the tan colored pit bull dog type seen in the video.

This case was reviewed by Assistant District Attorney Lisa Borrelli, and the above listed charges were approved.

ARREST WARRANT RESPECTFULLY REQUESTED.

Good morning,

I checked the medical records for the Grotto Street dogs and it does appear that Grotto 5 did gain 14 pounds since being fed properly, which took him from a BCS of 2 (hips, ribs and spine easily visible) to a BCS of 4/9 which is ideal. Grotto 3 and Grotto 7 both have babesia, which is a disease similar to Lyme's disease and they are currently on medication treatment for that.

Dr. Eric Ledesma is the treating veterinarian on this case and did the forensic exams. Lisa, his email address is [eledesma@HumaneAnimalRescue.org](mailto:eledesma@HumaneAnimalRescue.org) in case you want to reach out to him to determine level of charges that he will substantiate.

Thanks

Humane Officer Fry from Humane Animal Rescue sent us her recommendations for charges which i am forwarding to you. We were going to proceed based on what she recommended but need your approval for the felony charge for grotto #5 due to dog being underweight.

Grotto 5 has gained about 14lbs since being at their facility and is in good body condition now.

 Subject: Charging recommendations for Grotto Street

Hi guys,

I have attached all the medical reports for the 7 dogs from Grotto St. Our numbers for the animals may not match your number (i.e. Grotto 1 may not be dog 1 on your evidence list). I apologize for this but the dogs were brought in before I got back. I have also listed below my charging recommendations, though discuss with the ADA as they may know ways to get higher charges. Grotto 5 will most likely be a felony for being underweight from lack of food but we won't know that for sure for another few weeks when we see weight gain and get blood work results back.

Hi Lisa,

I wanted to follow up with you on an open item from the meeting we had on April 27th. During the meeting we discussed having a conversation between you and Dr. Samson about the McKeesport case. I'd like to coordinate a meeting with you, Officer Fry, Dr. Samson and myself to see what charges we think we can file in this case. I know there are some concerns with discrepancies on the vet report that need to be explained.

Could you some me dates you are available for a meeting and I will coordinate with our team?

Thanks,

Subject: Larry Gerson Day in Pittsburgh

Hi AAARF! Board members,

I wanted to let you all know I approached Councilwoman Strassburger about a proclamation for Larry Gerson and she was kind enough to make it happen. One thing Larry said to me recently was that he's heartbroken that he didn't get to say goodbye to his patients due to Covid restrictions and then finally retiring during that time. Well this is his chance! He's done so much for the animals and families of not just Pittsburgh but the entire state. He's served on countless boards, did so much to educate the public and children about our dear pets. A radio show, a column, awards, a pioneer in emergency care for the regions animals — what hasn't he done?

I hope you all can make it to the presentation of the proclamation. June 7 at 9am on Reynolds St in front of his beloved Pt Breeze Vet. (6742 Reynolds). This is a SURPRISE! Larry deserves the recognition so I hope you all can make it!

Warm regards,

Mary

PS Miranda Micire of Erika's office—you did an amazing job!!

Hi,

Ok so I started from scratch and worked between your update and Luffey's words and this is what I came up with. I took out all the fluff and just put in the elements of the crime. Does this look better?

Subject: McKeesport Case

Hi Lisa,

I wanted to follow up with you on an open item from the meeting we had on April 27th. During the meeting we discussed having a conversation between you and Dr. Samson about the McKeesport case. I'd like to coordinate a meeting with you, Officer Fry, Dr. Samson and myself to see what charges we think we can file in this case. I know there are some concerns with discrepancies on the vet report that need to be explained.

Could you some me dates you are available for a meeting and I will coordinate with our team?

Thanks,

Megan Marrangoni, MBA

Subject: RE: Charging recommendations for Grotto Street

Good morning,

I checked the medical records for the Grotto Street dogs and it does appear that Grotto 5 did gain 14 pounds since being fed properly, which took him from a BCS of 2 (hips, ribs and spine easily visible) to a BCS of 4/9 which is ideal. Grotto 3 and Grotto 7 both have babesia, which is a disease similar to Lyme's disease and they are currently on medication treatment for that.

Dr. Eric Ledesma is the treating veterinarian on this case and did the forensic exams. Lisa, his email address is [eledesma@HumaneAnimalRescue.org](mailto:eledesma@HumaneAnimalRescue.org) in case you want to reach out to him to determine level of charges that he will substantiate.

Thanks  
Angie

Thank you. I was not aware of the facts of this case. Do you have a factual summary or a draft of your Aff of Probable Cause?

Also, I think Angie is looking at updated med records so I will need to wait for those as well to approve the charges.

Thanks,  
Lisa

Humane Officer Fry from Humane Animal Rescue sent us her recommendations for charges which i am forwarding to you. We were going to proceed based on what she recommended but need your approval for the felony charge for grotto #5 due to dog being underweight.

Grotto 5 has gained about 14lbs since being at their facility and is in good body condition now.

Subject: Charging recommendations for Grotto Street

Hi guys,

I have attached all the medical reports for the 7 dogs from Grotto St. Our numbers for the animals may not match your number (i.e. Grotto 1 may not be dog 1 on your evidence list). I apologize for this but the dogs were brought in before I got back. I have also listed below my charging recommendations, though discuss with the ADA as they may know ways to get higher charges. Grotto 5 will most likely be a felony for being underweight from lack of food but we won't know that for sure for another few weeks when we see weight gain and get blood work results back.

Grotto 1

Subject: 1323 Grotto Street

Hello,

Officer Claflin and I seized 7 dogs off/out of an abandoned property at 1323 Grotto street via search warrant on 3/8/21. Attached are the medical records for each dog along with our investigation report, supplement report, and search warrant. Humane Officer Fry from Humane Animal Rescue assisted us with this case. Attached are her recommendations for charges, Ofc. Fry was advised we will forward all information to the DA's office and file charges based off your recommendation.

At this time Barr Tomlin has been identified as a suspect and admitted ownership of dogs in kennels 1-4 We have been unable to locate or make contact with the other suspect Christopher Williams who may or may not own the dogs in kennels 5-7.  
Christopher was identified as a possible suspect by his brother Leonard who lives next door to 1323 Grotto.

It should be noted every dog had the same cedar shavings and hay in their homemade kennels and were also wearing the same type of black collar with a ring on it. Tomlin may have been caring for all the dogs or sharing supplies with Christopher. Originally when Tomlin arrived on scene he stated that he cares for the dogs at the residence but changed that statement later on.

The last known resident at the residence is a Jamar Byle but it is unknown if he is involved with the care of the animals like he was several years ago when Officer Claflin dealt with him.

Also, the medical records attached for each dog i.e. Grotto 1 don't match their kennel numbers. I reviewed each medical record and identified the right kennel numbers for each medical record below.

There is body camera video available for this incident if you want to request it.

Grotto 1 - Kennel #5  
 Grotto 2 - Kennel #2  
 Grotto 3 - Kennel #6  
 Grotto 4 - Kennel #3  
 Grotto 5 - Kennel #7  
 Grotto 6 - Kennel #4  
 Grotto 7 - Kennel #1

Subject: 1323 Grotto Street

Hello,

Officer Claflin and I seized 7 dogs off/out of an abandoned property at 1323 Grotto street via search warrant on 3/8/21. Attached are the medical records for each dog along with our investigation report, supplement report, and search warrant. Humane Officer Fry from Humane Animal Rescue assisted us with this case. Attached are her recommendations for charges, Ofc. Fry was advised we will forward all information to the DA's office and file charges based off your recommendation.

At this time Barr Tomlin has been identified as a suspect and admitted ownership of dogs in kennels 1-4 We have been unable to locate or make contact with the other suspect Christopher Williams who may or may not own the dogs in kennels 5-7.

Christopher was identified as a possible suspect by his brother Leonard who lives next door to 1323 Grotto. It should be noted every dog had the same cedar shavings and hay in their homemade kennels and were also wearing the same type of black collar with a ring on it. Tomlin may have been caring for all the dogs or sharing supplies with Christopher. Originally when Tomlin arrived on scene he stated that he cares for the dogs at the residence but changed that statement later on.

The last known resident at the residence is a Jamar Byle but it is unknown if he is involved with the care of the animals like he was several years ago when Officer Claflin delt with him.

Also, the medical records attached for each dog i.e. Grotto 1 don't match their kennel numbers. I reviewed each medical record and identified the right kennel numbers for each medical record below.

There is body camera video available for this incident if you want to request it.

Grotto 1 - Kennel #5  
Grotto 2 - Kennel #2  
Grotto 3 - Kennel #6  
Grotto 4 - Kennel #3  
Grotto 5 - Kennel #7  
Grotto 6 - Kennel #4  
Grotto 7 - Kennel #1

Subject: Charging recommendations for Grotto Street

Hi guys,

I have attached all the medical reports for the 7 dogs from Grotto St. Our numbers for the animals may not match your number (i.e. Grotto 1 may not be dog 1 on your evidence list). I apologize for this but the dogs were brought in before I got back. I have also listed below my charging recommendations, though discuss with the ADA as they may know ways to get higher charges. Grotto 5 will most likely be a felony for being underweight from lack of food but we won't know that for sure for another few weeks when we see weight gain and get blood work results back.

Subject: JAMES GENCO - PLEASE READ

Hello,

After speaking with Officer Angie Fry earlier today, I revised the narrative to the criminal complaint involving James Genco again. Is the third time a charm? Please let me know if changes are needed. I am off work on Tuesday, May 25, 2021. I will return to work at 6 am on Wednesday, May 26, 2021. Thanks!

---

This complaint is prepared by your affiant, Officer Christine Luffey. I have worked as a Pittsburgh Police Officer for the past 28 years. I specialize in animal neglect and abuse cases.

On March 25, 2021, City of Pittsburgh Public Safety Director Wendell Hissrich requested that I review a video that was sent to city officials by Meagan Montmeny from Humane Animal Rescue of Pittsburgh to determine if the video is criminal in nature. The video was recorded on March 17, 2021. The video begins - CAM 09 12:03:23.216 PM (GMT 4:00) 3/17/2021. The video ends - CAM 09 12:13:56.955 PM (GMT 4.00) 3/17/2021

In the video, the man door next to the garage door at Humane Animal Rescue of Pittsburgh, East End location opens. Animal Care and Control Officer James Genco props open the door and is standing at the door outside of the building until he goes out of view. Animal Care and Control Officer John Lapp walks in the building with a white pit bull type dog on a rope. He then walks out of the door without the white dog. Animal Care and Control Officer James Genco brings a tan color pit bull type dog into the building. He has the dog on a control pole. The dog is struggling against the control pole and it either lays down or collapses on to the floor. Animal Care and Control Officer James Genco drags the dog across the floor and goes out of view. A trail of what appears to be possible bodily fluids are viewed on the floor where the dog was dragged. A white female with a dyed-red ponytail, later identified as Camille Burke, walks into the garage area, and walks in the direction of Animal Care and Control Officer James Genco. Camille Burke then hurries back into the area that she came out of.

Meagan Montmeny, later provided me with a second video that I viewed on a thumb drive that she provided - CAM 22 EXT. GENERAL STORAGE. The video begins at 12:02:43.670 PM (GMT-4.00) 3-17-2021.

In this video, an Animal Care and Control truck pulls up and stops outside of the garage at Humane Animal Rescue of Pittsburgh. Animal Care and Control Officer James Genco exits the driver's side of the truck and Animal Care and Control Officer John Lapp exits the passenger side of the truck. Animal Care and Control Officer John Lapp removes a white color pit bull type dog. The man door next to the garage door is opened by Animal Care and Control Officer James

Genco. Animal Care and Control Officer John Lapp enters the building with the white color pit bull type dog. The door remains open. Animal Care and Control Officer James Genco puts on a pair of gloves and retrieves a control pole. He is alone when he opens the rear door where the tan colored pit bull type dog is inside. He is handling a control pole. He then closes the door where the dog is being held. Animal Care and Control Officer John Lapp exits the door to the building. He retrieves an additional control pole. Animal Care and Control Officers John Lapp and James Genco switch control poles. Animal Care and Control Officer John Lapp opens the door where the tan color pit bull type dog is being held and Animal Care and Control Officer James Genco begins using the control pole to get the dog on to it. It appears that Animal Care and Control Officer James Genco pulled the cord on the end of the control pole four times using his right hand. Animal Care and Control Officer James Genco pulls the tan color pit bull type dog off the truck. The dog appears to have hit into the garage door or brick wall. Animal Care and Control Officer James Genco escorts the tan color pit bull type dog into the building using a control pole. Animal Care and Control Officers John Lapp and Genco exit the building approximately five minutes later and leave.

During my investigation, I was informed that the tan color dog sustained multiple injuries and was transported to PVSEC for emergency veterinary treatment. The injuries reported were excessive bleeding, broken teeth with pulp exposed, a broken tail, ruptured blood vessels in both of its eyes, nystagmus, lameness on the right front and right hind leg, lacerations on the dog's front right left hind paw, abrasions, and a broken bleeding nail. Dr. Emily Gardner is the Veterinarian who treated the injured dog brought to PVSEC on March 17, 2021, by Amanda Geletko from Humane Animal Rescue of Pittsburgh. Dr. Emily Gardner informed me that the injured dog was in a lot of pain and that based on his injuries that she believes "excess force was used for sure". She said that the dog's blood work indicated that he suffered from stress and muscle damage. Dr. Emily Gardner told me that the injuries to the dog's eyes are consistent with a strangulation injury. She stated that she referred the owner of the injured dog to a Veterinary Dentist for additional treatment.

Meagan Montmeny is employed as the Chief Operations Officer at Humane Animal Rescue of Pittsburgh, with many years of animal welfare experience, informed me that the control pole was used incorrectly and that that dog should have never been hurt to this extent. Meagan Montmeny reported that Animal Care and Control Officer James Genco struggled to remove the dog from the truck for about 5 minutes. Meagan Montmeny told me that she watched the video frame by frame. She said that she viewed Animal Care and Control Officer James Genco pull the noose on the control stick three times before getting it on to the control stick. Meagan Montmeny informed me that the dog came flying off the truck, hit the ground, appeared to bounce off the garage barrier, and then bit the control stick. Meagan Montmeny and Humane Society Police Officer Angie Fry informed me that they measured from the entry door at the garage to where the kennels are located and that it is 25 to 30 feet. They estimated that Animal Care and Control Officer James Genco dragged the dog while it was lying flat on the floor for 25 feet.

Humane Animal Rescue Veterinary Technician Camille Burke reported that she was working in the cat tech room entering paperwork, when she heard a commotion and high-pitched yelping and screaming coming from the garage. She told me that she saw Animal Care and Control Officer James Genco handling the dog on a control pole. Camille Burke stated that it looked like Animal Care and Control Officer James Genco was "mopping the floor" with the dog. She reported that the dog left behind him a trail of blood, feces, and urine. Camille Burke said that she hurried to retrieve other staff members because the dog was bleeding heavily.

James Genco voluntarily came into Zone 3 station with Attorney Casey White on April 20, 2021, for me to interview him in the presence of Lt. Julie Stoops. I read James Genco his Miranda Rights and he agreed to speak to me about this incident. James Genco stated that he has worked as an Animal Care and Control Officer for the past 26 years. James Genco told us that he believed the dogs were in imminent danger. He informed us that the dogs were panting, their tongues were hanging out, and that they were slobbering. He said that the windows on the vehicle were completely closed and that there was no food or water inside of the vehicle. James Genco told us that the outside temperature was

50 degrees. According to Accuweather, the temperature in Pittsburgh on March 17, 2021, was a high of 67 degrees and a low of 36 degrees.

Based on my personal observations of the video footage, specifically the actions shown in the video of James Genco, witness statements, statements made by James Genco during his interview, as well as statements from a licensed veterinarian, I believe that James Genco's actions directly caused the injuries to the tan colored pit bull dog type seen in the video.

This case was reviewed by Assistant District Attorney Lisa Borrelli, and the above listed charges were approved.

ARREST WARRANT RESPECTFULLY REQUESTED.

From: Borrelli, Lisa

Subject: Genco

I think the latest is better but it still needs some refinement. Thank you for all your help.

I did some editing. While there are gaps, and this is a pretty rough draft, I think it conveys the idea of what we don't need and some of what we do need:

This complaint is prepared by your affiant, Officer Christine Luffey. I have worked as a Pittsburgh Police Officer for the past 28 years. I specialize in animal neglect and abuse cases.

On March 25, 2021, I reviewed a video that was sent to city officials by Meagan Montmeny from Humane Animal Rescue of Pittsburgh to determine if the video is criminal in nature. The video was recorded on March 17, 2021. The video begins - CAM 09 12:03:23.216 PM (GMT 4:00) 3/17/2021. The video ends - CAM 09 12:13:56.955 PM (GMT 4.00) 3/17/2021

In the video at

12:08 04, Animal Care and Control Officer James Genco is viewed walking in a tan colored pit bull type dog on a control pole. The dog is struggling against the control pole.

12:08 09, the tan colored pit bull type dog is viewed lying flat on the floor. Animal Care and Control Officer James Genco is viewed dragging the dog across the floor and goes out of view at 12:08 13.

12:08 14, a trail of what appears to be blood, urine and feces are viewed on the floor where the dog was dragged.

12:08 15, a white female is seen walking into the garage area and at 12:08 22, the same white female with a long dyed-red ponytail is viewed hurrying back into the area she came out of.

I reviewed a second video - CAM 22 EXT. GENERAL STORAGE. The video begins at 12:02:43.670 PM (GMT-4.00) 3-17-2021.

12:03:03, An Animal Care and Control truck pulls up and stops outside of the garage at Humane Animal Rescue of Pittsburgh.

12:04:51, Animal Care and Control Officer James Genco opens the rear door where the tan colored pit bull type dog is inside. He is alone.

12:04:52, Animal Care and Control Officer James Genco opens the cage. He is viewed handling a control pole.

12:07:12, Animal Care and Control Officer James Genco appears to pull the end of the control pole with his right hand.

12:07:21, Animal Care and Control Officer James Genco appears to pull the end of the control pole with his right hand.  
 12:07:51, Animal Care and Control Officer James Genco pulls the tan colored pit bull type dog off of the truck.  
 BOUNCE???

During my investigation, I was informed that the tan colored dog sustained multiple injuries and was transported to PVSEC for emergency veterinary treatment. The injuries reported were excessive bleeding, broken teeth with pulp exposed, a broken tail, ruptured blood vessels in both of its eyes, nystagmus, lameness on the right front and right hind leg, lacerations on the dog's front right left hind paw, abrasions, and a broken bleeding nail.

The vet who treated the injured dog informed me that the injured dog was in a lot of pain and that based on his injuries that she believes "excess force was used for sure". She said that the dog's blood work indicated that he suffered from stress and muscle damage. The vet told me that the injuries to the dog's eyes are consistent with a strangulation injury. She stated that she referred the owner of the injured dog to a Veterinary Dentist for additional treatment.

[Needs revision] The Chief Operations Officer at Humane Animal Rescue of Pittsburgh, with many years of animal welfare experience, informed me that the control pole was used incorrectly and that that dog should have never been hurt to this extent. Meagan Montmeny reported that Animal Care and Control Officer James Genco struggled to remove the dog from the truck for about 5 minutes. Meagan Montmeny told me that she watched the video frame by frame. [There is no mention of the "Bounce" in the video narrative] She said that she viewed Animal Care and Control Officer James Genco pull the noose on the control stick three times before getting it on to the control stick.

Meagan Montmeny informed me that the dog came flying off the truck, hit the ground, appeared to bounce off the garage barrier, and then bit the control stick. WHERE IS THIS IN THE VIDEO NARRATIVE??

Meagan Montmeny and Humane Society Police Officer Angie Fry estimated that Animal Care and Control Officer James Genco dragged the dog while it was lying flat on the floor for 25 feet.

Humane Animal Rescue Veterinary Technician Camille Burke saw Animal Care and Control Officer James Genco "mopping the floor" with the dog. She reported that the dog left behind him a trail of blood, feces, and urine. Camille Burke said that she hurried to retrieve other staff members because the dog was bleeding heavily.

Based on my personal observations of the video footage, specifically the actions shown in the video of James Genco, witness statements, statements made by James Genco during his interview, as well as statements from a licensed veterinarian, I believe that James Genco's actions directly caused the injuries to the tan colored pit bull dog type seen in the video.

This case was reviewed by Assistant District Attorney Lisa Borrelli, and the above listed charges were approved.

ARREST WARRANT RESPECTFULLY REQUESTED.

This is what we have to show:

5533. Cruelty to animal

(a) Offense defined.--A person commits an offense if the person intentionally, knowingly or recklessly illtreats, overloads, beats, abandons or abuses an animal.

(b) Grading.--

(1) Except as set forth in paragraph (2), a violation of this section is a summary offense.

(2) If the violation causes bodily injury to the animal or places the animal at imminent risk of serious bodily injury, a violation of this section is a misdemeanor of the second degree.

§ 5534. Aggravated cruelty to animal

- (a) Offense defined.--A person commits an offense if the person intentionally or knowingly does any of the following:
- (1) Tortures an animal.
  - (2) Violates section 5532 (relating to neglect of animal) or 5533 (relating to cruelty to animal) causing serious bodily injury to the animal or the death of the animal.
- (b) Grading.--A violation of this section is a felony of the third degree.

This is the original document I received:

This complaint is prepared by your affiant, Officer Christine Luffey. I have worked as a Pittsburgh Police Officer for the past 28 years. I specialize in animal neglect and abuse cases.

On March 25, 2021, City of Pittsburgh Public Safety Director Wendell Hissrich requested that I review a video that was sent to city officials by Meagan Montmeny from Humane Animal Rescue of Pittsburgh to determine if the video is criminal in nature. The video was recorded on March 17, 2021. The video begins - CAM 09 12:03:23.216 PM (GMT 4:00) 3/17/2021. The video ends - CAM 09 12:13:56.955 PM (GMT 4.00) 3/17/2021

In the video at 12:04 04, the man door next to the garage door at Humane Animal Rescue of Pittsburgh, East End location opens. Animal Care and Control Officer John Lapp walks in with a white pit bull type dog on a long lead. The dog was wagging its tail. Animal Care and Control Officer James Genco is viewed propping open the door and standing there. Animal Care and Control Officer James Genco then is out of view, outside of the building.

12:05 31, Animal Care and Control Officer John Lapp is viewed walking out of the open door without the white dog.

12:07 53, Animal Care and Control Officer John Lapp walks back inside of the garage and goes out of view.

12:08 04, Animal Care and Control Officer James Genco is viewed walking in a tan colored pit bull type dog on a control pole. The dog is struggling against the control pole.

12:08 09, the tan colored pit bull type dog is viewed lying flat on the floor. Animal Care and Control Officer James Genco is viewed dragging the dog across the floor and goes out of view at 12:08 13.

12:08 14, a trail of what appears to be possible bodily fluids are viewed on the floor where the dog was dragged.

12:08 15, a white female is seen walking into the garage area and walking in the direction of Animal Care and Control Officers John Lapp and James Genco. The female goes out of view at 12:08 18

12:08 22, the same white female with a long dyed-red ponytail is viewed hurrying back into the area she came out of.

12:13 25, Animal Care and Control Officers John Lapp and James Genco are viewed walking out of the door. The door remains open.

12:13 51, One of the Animal Care and Control Officers is viewed closing the door.

Meagan Montmeny, later provided me with a second video that I viewed on a thumb drive that she provided - CAM 22 EXT. GENERAL STORAGE. The video begins at 12:02:43.670 PM (GMT-4.00) 3-17-2021.

12:03:03, An Animal Care and Control truck pulls up and stops outside of the garage at Humane Animal Rescue of Pittsburgh.

12:03:22, Animal Care and Control Officer James Genco exits the driver's side door. Animal Care and Control Officer John Lapp exits the passenger side door.

12:03:41, Animal Care and Control Officer John Lapp opens a rear door on the passenger side of the truck and removes a white colored pit bull type dog. Animal Care and Control Officer James Genco is working to open the door at Humane Animal Rescue of Pittsburgh.

12:04:04, Animal Care and Control Officer James Genco opens the door. Animal Care and Control Officer John Lapp enters the building with the white color pit bull type dog.

12:04:19, The door remains open. Animal Care and Control Officer James Genco is viewed standing at the door.

12:04:27, Animal Care and Control Officer James Genco opens the driver's side door.

12:04:37, Animal Care and Control Officer James Genco closes the driver's side door.

12:04:40, Animal Care and Control Officer James Genco puts on a pair of gloves.  
12:04:41, Animal Care and Control Officer James Genco opens a door behind the driver's door on the driver's side and removes a control pole and closes the door.  
12:04:51, Animal Care and Control Officer James Genco opens the rear door where the tan colored pit bull type dog is inside. He is alone.  
12:04:52, Animal Care and Control Officer James Genco opens the cage. He is viewed handling a control pole.  
12:05:30, Animal Care and Control Officer James Genco closes the door.  
12:05:32, Animal Care and Control Officer John Lapp exits the door to the building.  
12:05:48, Animal Care and Control Officer John Lapp opens the door behind the driver's door and retrieves an additional control pole. Animal Care and Control Officer James Genco and Lapp switch control poles. Animal Care and Control Officer John Lapp puts a control pole into the truck.  
12:06:07, Animal Care and Control Officer John Lapp opens the door where the tan colored pit bull dog is.  
12:06:17, Animal Care and Control Officer James Genco has a control pole and begins using it.  
12:06:44, Animal Care and Control Officer James Genco appears to pull the end of the control pole with his right hand.  
12:06:56, Animal Care and Control Officer James Genco appears to pull the end of the control pole with his right hand.  
12:07:12, Animal Care and Control Officer James Genco appears to pull the end of the control pole with his right hand.  
12:07:21, Animal Care and Control Officer James Genco appears to pull the end of the control pole with his right hand.  
12:07:51, Animal Care and Control Officer James Genco pulls the tan colored pit bull type dog off of the truck.  
12:08:05, Animal Care and Control Officer James Genco escorts the tan colored pit bull type dog into the building using a control pole. Doors on both sides of the truck are open.  
12:13:27, Animal Care and Control Officers James Genco and John Lapp exit the door.  
12:13:33, Animal Care and Control Officer James Genco closes the door where the tan colored pit bull type dog was and puts a control pole into the truck.  
12:13:38, Animal Care and Control Officer John Lapp closes the rear door on the passenger side of the truck.  
12:13:55, Animal Care and Control Officer James Genco closes the door to the building.  
12:14:06, Animal Care and Control Officer John Lapp retrieves a rope from the front of the truck and enters the truck on the passenger side. Animal Care and Control Officer James Genco opens the driver's side door.  
12:14:06, Animal Care and Control Officers James Genco and John Lapp are inside of the truck. The truck backs up and is out of view at 12:14:32.

During my investigation, I was informed that the tan colored dog sustained multiple injuries and was transported to PVSEC for emergency veterinary treatment. The injuries reported were excessive bleeding, broken teeth with pulp exposed, a broken tail, ruptured blood vessels in both of its eyes, nystagmus, lameness on the right front and right hind leg, lacerations on the dog's front right left hind paw, abrasions, and a broken bleeding nail. Dr. Emily Gardner is the Veterinarian who treated the injured dog brought to PVSEC on March 17, 2021, by Amanda Geletko from Humane Animal Rescue of Pittsburgh. Dr. Emily Gardner informed me that the injured dog was in a lot of pain and that based on his injuries that she believes "excess force was used for sure". She said that the dog's blood work indicated that he suffered from stress and muscle damage. Dr. Emily Gardner told me that the injuries to the dog's eyes are consistent with a strangulation injury. She stated that she referred the owner of the injured dog to a Veterinary Dentist for additional treatment.

Meagan Montmeny is employed as the Chief Operations Officer at Humane Animal Rescue of Pittsburgh, with many years of animal welfare experience, informed me that the control pole was used incorrectly and that that dog should have never been hurt to this extent. Meagan Montmeny reported that Animal Care and Control Officer James Genco struggled to remove the dog from the truck for about 5 minutes. Meagan Montmeny told me that she watched the video frame by frame. She said that she viewed Animal Care and Control Officer James Genco pull the noose on the control stick three times before getting it on to the control stick. Meagan Montmeny informed me that the dog came flying off the truck, hit the ground, appeared to bounce off the garage barrier, and then bit the control stick. Meagan Montmeny and Humane Society Police Officer Angie Fry informed me that they measured from the entry door at the garage to where the kennels are located and that it is 25 to 30 feet. They estimated that Animal Care and Control Officer James Genco dragged the dog while it was lying flat on the floor for 25 feet.

Humane Animal Rescue Veterinary Technician Camille Burke reported that she was working in the cat tech room entering paperwork, when she heard a commotion and high-pitched yelping and screaming coming from the garage. She told me that she saw Animal Care and Control Officer James Genco handling the dog on a control pole. Camille Burke stated that it looked like Animal Care and Control Officer James Genco was "mopping the floor" with the dog. She reported that the dog left behind him a trail of blood, feces, and urine. Camille Burke said that she hurried to retrieve other staff members because the dog was bleeding heavily.

James Genco voluntarily came into Zone 3 station with Attorney Casey White on April 20, 2021, for me to interview him in the presence of Lt. Julie Stoops. I read James Genco his Miranda Rights and he agreed to speak to me about this incident. James Genco stated that he has worked as an Animal Care and Control Officer for the past 26 years. James Genco told us that he believed the dogs were in imminent danger. He informed us that the dogs were panting, their tongues were hanging out, and that they were slobbering. He said that the windows on the vehicle were completely closed and that there was no food or water inside of the vehicle. James Genco told us that the outside temperature was 50 degrees. According to Accuweather, the temperature in Pittsburgh on March 17, 2021, was a high of 67 degrees and a low of 36 degrees.

Based on my personal observations of the video footage, specifically the actions shown in the video of James Genco, witness statements, statements made by James Genco during his interview, as well as statements from a licensed veterinarian, I believe that James Genco's actions directly caused the injuries to the tan colored pit bull dog type seen in the video.

This case was reviewed by Assistant District Attorney Lisa Borrelli, and the above listed charges were approved.

Subject: 1323 Grotto Street

Hello,

Officer Claflin and I seized 7 dogs off/out of an abandoned property at 1323 Grotto street via search warrant on 3/8/21. Attached are the medical records for each dog along with our investigation report, supplement report, and search warrant. Humane Officer Fry from Humane Animal Rescue assisted us with this case. Attached are her recommendations for charges, Ofc. Fry was advised we will forward all information to the DA's office and file charges based off your recommendation.

At this time Barr Tomlin has been identified as a suspect and admitted ownership of dogs in kennels 1-4 We have been unable to locate or make contact with the other suspect Christopher Williams who may or may not own the dogs in kennels 5-7. Christopher was identified as a possible suspect by his brother Leonard who lives next door to 1323 Grotto. It should be noted every dog had the same cedar shavings and hay in their homemade kennels and were also wearing the same type of black collar with a ring on it. Tomlin may have been caring for all the dogs or sharing supplies with Christopher. Originally when Tomlin arrived on scene he stated that he cares for the dogs at the residence but changed that statement later on. The last known resident at the residence is a Jamar Byle but it is unknown if he is involved with the care of the animals like he was several years ago when Officer Claflin dealt with him.

Also, the medical records attached for each dog i.e. Grotto 1 don't match their kennel numbers. I reviewed each medical record and identified the right kennel numbers for each medical record below.

There is body camera video available for this incident if you want to request it.

Grotto 1 - Kennel #5  
Grotto 2 - Kennel #2  
Grotto 3 - Kennel #6  
Grotto 4 - Kennel #3  
Grotto 5 - Kennel #7  
Grotto 6 - Kennel #4  
Grotto 7 - Kennel #1

Subject: Charging recommendations for Grotto Street

Hi guys,

I have attached all the medical reports for the 7 dogs from Grotto St. Our numbers for the animals may not match your number (i.e. Grotto 1 may not be dog 1 on your evidence list). I apologize for this but the dogs were brought in before I got back. I have also listed below my charging recommendations, though discuss with the ADA as they may know ways to get higher charges. Grotto 5 will most likely be a felony for being underweight from lack of food but we won't know that for sure for another few weeks when we see weight gain and get blood work results back.

Thank you. I was not aware of the facts of this case. Do you have a factual summary or a draft of your Aff of Probable Cause?

Also, I think Angie is looking at updated med records so I will need to wait for those as well to approve the charges.

Thanks,

Lisa

Humane Officer Fry from Humane Animal Rescue sent us her recommendations for charges which i am forwarding to you. We were going to proceed based on what she recommended but need your approval for the felony charge for grotto #5 due to dog being underweight.

Grotto 5 has gained about 14lbs since being at their facility and is in good body condition now.

Thank you, Angie.

We will begin to work with the fosters to bring the dogs back to the shelter and to be microchipped and to have Kaponu neutered and microchipped.

We are looking at a two-week window ending at 8 AM on Monday, June 7th.

I will keep you posted as we move dogs through the process,

---

Good morning,

I woke Mr. Jones up bright and early this morning at 0800 hours for an inspection. The house is clean and I am satisfied with everything that I saw. Jones signed the surgery consent form for Kaponu (Gadaffi) which I have attached. I advised Jones to obtain dog licenses for the dogs that are being returned to him as well.

I advised him of the agreement that he signed and the conditions of such.

Thanks

Carol,

SDW StoeHR and I went to the residence this afternoon however Mr. Jones was not home. His neighbor was kind enough to face time Jones for us and I spoke to him. Jones advised that he was at work, and I could see on the FaceTime video that he clearly was, he showed me his ID badge for work as well.

He was going to have his brother let us inside to inspect but due to his brother awaiting the results of a COVID test, we opted to wait to inspect. Jones also provided me with a valid phone number which I confirmed.

We will attempt a revisit early next week. I did leave the surgery consent form for Jones to sign and I will make sure to review it with him when I visit.

Yes. Once all his conditions are met, and found satisfactory, I will provide that document to defense counsel for his clients signature. Once that is signed, then we can begin the process of chipping and returning the dogs. Does that make sense?

Angie, please let me know what you find.

Thanks!

Hi Angie,

Thank you for allowing us the time to speak with our fosters prior to moving forward with the home check. We have been able to notify all fosters. We will not microchip until the dogs are brought back prior to transport. And we will definitely share that information with you.

We need the signed surgical consent form for Kapnono ASAP, so we can get him neutered prior to his return. Lisa, I know you had that. Would you be able to facilitate that portion?

Thanks,

Hi Carol,

Sorry I missed your call, I was away from my desk. ADA Borrelli did send me the email chain from Jones and his attorney stating that all 9 dogs will be housed at his residence on Glenn Ave in Wilkinsburg.

When Kathleen Beaver called Dan Rossi, right after the hearing, she asked that no one speak of the outcome/agreement for 24 hours so that fosters could be notified. Have fosters been notified at this point?

I will make a visit on Friday to ensure that the dogs are being returned to an appropriate environment.

Could you please advise me of the microchip numbers and which dog goes with that chip as soon as possible.

Thanks

Hi Carol,

Sorry I missed your call, I was away from my desk. ADA Borrelli did send me the email chain from Jones and his attorney stating that all 9 dogs will be housed at his residence on Glenn Ave in Wilkinsburg.

When Kathleen Beaver called Dan Rossi, right after the hearing, she asked that no one speak of the outcome/agreement for 24 hours so that fosters could be notified. Have fosters been notified at this point?

I will make a visit on Friday to ensure that the dogs are being returned to an appropriate environment.

Could you please advise me of the microchip numbers and which dog goes with that chip as soon as possible.

Thanks

Subject: Re: Harold Jones

Carol,

SDW Stoehr and I went to the residence this afternoon however Mr. Jones was not home. His neighbor was kind enough to face time Jones for us and I spoke to him. Jones advised that he was at work, and I could see on the FaceTime video that he clearly was, he showed me his ID badge for work as well.

He was going to have his brother let us inside to inspect but due to his brother awaiting the results of a COVID test, we opted to wait to inspect. Jones also provided me with a valid phone number which I confirmed.

We will attempt a revisit early next week. I did leave the surgery consent form for Jones to sign and I will make sure to review it with him when I visit.

Yes. Once all his conditions are met, and found satisfactory, I will provide that document to defense counsel for his clients signature. Once that is signed, then we can begin the process of chipping and returning the dogs. Does that make sense?

Angie, please let me know what you find.

Hi Angie,

Thank you for allowing us the time to speak with our fosters prior to moving forward with the home check. We have been able to notify all fosters. We will not microchip until the dogs are brought back prior to transport. And we will definitely share that information with you.

We need the signed surgical consent form for Kapnono ASAP, so we can get him neutered prior to his return. Lisa, I know you had that. Would you be able to facilitate that portion?

Thanks,

Humane Officer Fry from Humane Animal Rescue sent us her recommendations for charges which i am forwarding to you. We were going to proceed based on what she recommended but need your approval for the felony charge for grotto #5 due to dog being underweight.

Grotto 5 has gained about 14lbs since being at their facility and is in good body condition now.

Subject: Charging recommendations for Grotto Street

Hi guys,

I have attached all the medical reports for the 7 dogs from Grotto St. Our numbers for the animals may not match your number (i.e. Grotto 1 may not be dog 1 on your evidence list). I apologize for this but the dogs were brought in before I got back. I have also listed below my charging recommendations, though discuss with the ADA as they may know ways to get higher charges. Grotto 5 will most likely be a felony for being underweight from lack of food but we won't know that for sure for another few weeks when we see weight gain and get blood work results back.

Grotto 1

5532 a(1) summary  
5532 a(2) summary  
5532 a(3) summary  
5533 – abandonment – summary

Grotto 2

5532 a(1) summary

The 32-34 degree temp was for inside the residence, outside it was a bit warmer in the high 30's

I did have the building inspectors come out to the residence and they have condemned the structure.

All video evidence was captured on body camera, in order to release it Ofc Claflin or I have to fill out a request form and get supervisor approval before computer ops can send it. It shouldn't be an issue getting it released but might take up to a week.

I will touch base with Humane Officer Fry and see if the underweight dog has gained weight simply by being fed and request he be reevaluated if that is the case.

Thank you for the thorough report.

Most of the charges appear to be summaries, right now but I will wait to see the vet records on Grotto kennel #5 before commenting on the charges. When you say you took the temperature inside, was that inside the residence? Was the temperature outside where the dogs were less than 32 degrees? If so, the city ordinance can also be charged.

Did the house get inspected for possible condemnation yet?

Also, can I please have the video and any photos that were taken emailed to me?

Thanks,  
Lisa

I forgot to mention in the report after we made entry into the residence animal control used a temperature gun inside the residence and the temp read 32-34 degrees.

The outside temp at that time was in the mid-high 30 degree mark

Subject: 1323 Grotto Street

Hello,

Officer Clafin and I seized 7 dogs off/out of an abandoned property at 1323 Grotto street via search warrant on 3/8/21. Attached are the medical records for each dog along with our investigation report, supplement report, and search warrant. Humane Officer Fry from Humane Animal Rescue assisted us with this case. Attached are her recommendations for charges, Ofc. Fry was advised we will forward all information to the DA's office and file charges based off your recommendation.

At this time Barr Tomlin has been identified as a suspect and admitted ownership of dogs in kennels 1-4 We have been unable to locate or make contact with the other suspect Christopher Williams who may or may not own the dogs in kennels 5-7. Christopher was identified as a possible suspect by his brother Leonard who lives next door to 1323 Grotto.

It should be noted every dog had the same cedar shavings and hay in their homemade kennels and were also wearing the same type of black collar with a ring on it. Tomlin may have been caring for all the dogs or sharing supplies with Christopher. Originally when Tomlin arrived on scene he stated that he cares for the dogs at the residence but changed that statement later on.

The last known resident at the residence is a Jamar Byle but it is unknown if he is involved with the care of the animals like he was several years ago when Officer Claflin dealt with him.

Also, the medical records attached for each dog i.e. Grotto 1 don't match their kennel numbers. I reviewed each medical record and identified the right kennel numbers for each medical record below.

There is body camera video available for this incident if you want to request it.

Grotto 1 - Kennel #5  
Grotto 2 - Kennel #2  
Grotto 3 - Kennel #6  
Grotto 4 - Kennel #3  
Grotto 5 - Kennel #7  
Grotto 6 - Kennel #4  
Grotto 7 - Kennel #1

Subject: Re: 1323 Grotto Street

I forgot to mention in the report after we made entry into the residence animal control used a temperature gun inside the residence and the temp read 32-34 degrees.

The outside temp at that time was in the mid-high 30 degree mark

Subject: 1323 Grotto Street

Hello,

Officer Claflin and I seized 7 dogs off/out of an abandoned property at 1323 Grotto street via search warrant on 3/8/21. Attached are the medical records for each dog along with our investigation report, supplement report, and search warrant. Humane Officer Fry from Humane Animal Rescue assisted us with this case. Attached are her recommendations for charges, Ofc. Fry was advised we will forward all information to the DA's office and file charges based off your recommendation.

At this time Barr Tomlin has been identified as a suspect and admitted ownership of dogs in kennels 1-4 We have been unable to locate or make contact with the other suspect Christopher Williams who may or may not own the dogs in kennels 5-7.

Christopher was identified as a possible suspect by his brother Leonard who lives next door to 1323 Grotto. It should be noted every dog had the same cedar shavings and hay in their homemade kennels and were also wearing the same type of black collar with a ring on it. Tomlin may have been caring for all the dogs or sharing supplies with Christopher. Originally when Tomlin arrived on scene he stated that he cares for the dogs at the residence but changed that statement later on.

The last known resident at the residence is a Jamar Byle but it is unknown if he is involved with the care of the animals like he was several years ago when Officer Claflin delt with him.

Also, the medical records attached for each dog i.e. Grotto 1 don't match their kennel numbers. I reviewed each medical record and identified the right kennel numbers for each medical record below.

There is body camera video available for this incident if you want to request it.

Grotto 1 - Kennel #5  
Grotto 2 - Kennel #2  
Grotto 3 - Kennel #6  
Grotto 4 - Kennel #3  
Grotto 5 - Kennel #7  
Grotto 6 - Kennel #4  
Grotto 7 - Kennel #1

Subject: Charging recommendations for Grotto Street

Hi guys,

I have attached all the medical reports for the 7 dogs from Grotto St. Our numbers for the animals may not match your number (i.e. Grotto 1 may not be dog 1 on your evidence list). I apologize for this but the dogs were brought in before I got back. I have also listed below my charging recommendations, though discuss with the ADA as they may know ways to get higher charges. Grotto 5 will most likely be a felony for being underweight from lack of food but we won't know that for sure for another few weeks when we see weight gain and get blood work results back.

Grotto 1

Subject: Re: JAMES GENCO, THE DOG STOP, BRIAN SLAVICEK, AND CHARLENE MERTEN-HYATT

Hi!

I met with Meagan Montmeny and Officer Angie Fry. They reviewed the narrative for the criminal complaint involving James Genco. They were very helpful. This is what we come up with. Please let me know if it is ok. Thanks!

---

This complaint is prepared by your affiant, Officer Christine Luffey. I have worked as a Pittsburgh Police Officer for the past 28 years. I specialize in animal neglect and abuse cases.

On March 25, 2021, City of Pittsburgh Public Safety Director Wendell Hissrich requested that I review a video that was sent to city officials by Meagan Montmeny from Humane Animal Rescue of Pittsburgh to determine if the video is criminal in nature. The video was recorded on March 17, 2021. The video begins - CAM 09 12:03:23.216 PM (GMT 4:00) 3/17/2021. The video ends - CAM 09 12:13:56.955 PM (GMT 4.00) 3/17/2021

In the video at 12:04 04, the man door next to the garage door at Humane Animal Rescue of Pittsburgh, East End location opens. Animal Care and Control Officer John Lapp walks in with a white pit bull type dog on a long lead. The dog was wagging its tail. Animal Care and Control Officer James Genco is viewed propping open the door and standing there. Animal Care and Control Officer James Genco then is out of view, outside of the building.

12:05 31, Animal Care and Control Officer John Lapp is viewed walking out of the open door without the white dog.

12:07 53, Animal Care and Control Officer John Lapp walks back inside of the garage and goes out of view.

12:08 04, Animal Care and Control Officer James Genco is viewed walking in a tan colored pit bull type dog on a control pole. The dog is struggling against the control pole.

12:08 09, the tan colored pit bull type dog is viewed lying flat on the floor. Animal Care and Control Officer James Genco is viewed dragging the dog across the floor and goes out of view at 12:08 13.

12:08 14, a trail of what appears to be possible bodily fluids are viewed on the floor where the dog was dragged.

12:08 15, a white female is seen walking into the garage area and walking in the direction of Animal Care and Control Officers John Lapp and James Genco. The female goes out of view at 12:08 18

12:08 22, the same white female with a long dyed-red ponytail is viewed hurrying back into the area she came out of.

12:13 25, Animal Care and Control Officers John Lapp and James Genco are viewed walking out of the door. The door remains open.

12:13 51, One of the Animal Care and Control Officers is viewed closing the door.

Meagan Montmeny, later provided me with a second video that I viewed on a thumb drive that she provided - CAM 22 EXT. GENERAL STORAGE. The video begins at 12:02:43.670 PM (GMT-4.00) 3-17-2021.

12:03:03, An Animal Care and Control truck pulls up and stops outside of the garage at Humane Animal Rescue of Pittsburgh.

12:03:22, Animal Care and Control Officer James Genco exits the driver's side door. Animal Care and Control Officer John Lapp exits the passenger side door.

12:03:41, Animal Care and Control Officer John Lapp opens a rear door on the passenger side of the truck and removes a white colored pit bull type dog. Animal Care and Control Officer James Genco is working to open the door at Humane Animal Rescue of Pittsburgh.

12:04:04, Animal Care and Control Officer James Genco opens the door. Animal Care and Control Officer John Lapp enters the building with the white color pit bull type dog.

12:04:19, The door remains open. Animal Care and Control Officer James Genco is viewed standing at the door.

12:04:27, Animal Care and Control Officer James Genco opens the driver's side door.

12:04:37, Animal Care and Control Officer James Genco closes the driver's side door.

12:04:40, Animal Care and Control Officer James Genco puts on a pair of gloves.

12:04:41, Animal Care and Control Officer James Genco opens a door behind the driver's door on the driver's side and removes a control pole and closes the door.

12:04:51, Animal Care and Control Officer James Genco opens the rear door where the tan colored pit bull type dog is inside. He is alone.

12:04:52, Animal Care and Control Officer James Genco opens the cage. He is viewed handling a control pole.

12:05:30, Animal Care and Control Officer James Genco closes the door.

12:05:32, Animal Care and Control Officer John Lapp exits the door to the building.

12:05:48, Animal Care and Control Officer John Lapp opens the door behind the driver's door and retrieves an additional control pole. Animal Care and Control Officer James Genco and Lapp switch control poles. Animal Care and Control Officer John Lapp puts a control pole into the truck.

12:06:07, Animal Care and Control Officer John Lapp opens the door where the tan colored pit bull dog is.

12:06:17, Animal Care and Control Officer James Genco has a control pole and begins using it.

12:06:44, Animal Care and Control Officer James Genco appears to pull the end of the control pole with his right hand.

12:06:56, Animal Care and Control Officer James Genco appears to pull the end of the control pole with his right hand.

12:07:12, Animal Care and Control Officer James Genco appears to pull the end of the control pole with his right hand.

12:07:21, Animal Care and Control Officer James Genco appears to pull the end of the control pole with his right hand.

12:07:51, Animal Care and Control Officer James Genco pulls the tan colored pit bull type dog off of the truck.

12:08:05, Animal Care and Control Officer James Genco escorts the tan colored pit bull type dog into the building using a control pole. Doors on both sides of the truck are open.

12:13:27, Animal Care and Control Officers James Genco and John Lapp exit the door.

12:13:33, Animal Care and Control Officer James Genco closes the door where the tan colored pit bull type dog was and puts a control pole into the truck.

12:13:38, Animal Care and Control Officer John Lapp closes the rear door on the passenger side of the truck.

12:13:55, Animal Care and Control Officer James Genco closes the door to the building.

12:14:06, Animal Care and Control Officer John Lapp retrieves a rope from the front of the truck and enters the truck on the passenger side. Animal Care and Control Officer James Genco opens the driver's side door.

12:14:06, Animal Care and Control Officers James Genco and John Lapp are inside of the truck. The truck backs up and is out of view at 12:14:32.

During my investigation, I was informed that the tan colored dog sustained multiple injuries and was transported to PVSEC for emergency veterinary treatment. The injuries reported were excessive bleeding, broken teeth with pulp exposed, a broken tail, ruptured blood vessels in both of its eyes, nystagmus, lameness on the right front and right hind leg, lacerations on the dog's front right left hind paw, abrasions, and a broken bleeding nail. Dr. Emily Gardner is the Veterinarian who treated the injured dog brought to PVSEC on March 17, 2021, by Amanda Geletko from Humane Animal Rescue of Pittsburgh. Dr. Emily Gardner informed me that the injured dog was in a lot of pain and that based on his injuries that she believes "excess force was used for sure". She said that the dog's blood work indicated

that he suffered from stress and muscle damage. Dr. Emily Gardner told me that the injuries to the dog's eyes are consistent with a strangulation injury. She stated that she referred the owner of the injured dog to a Veterinary Dentist for additional treatment.

Meagan Montmeny is employed as the Chief Operations Officer at Humane Animal Rescue of Pittsburgh, with many years of animal welfare experience, informed me that the control pole was used incorrectly and that that dog should have never been hurt to this extent. Meagan Montmeny reported that Animal Care and Control Officer James Genco struggled to remove the dog from the truck for about 5 minutes. Meagan Montmeny told me that she watched the video frame by frame. She said that she viewed Animal Care and Control Officer James Genco pull the noose on the control stick three times before getting it on to the control stick. Meagan Montmeny informed me that the dog came flying off the truck, hit the ground, appeared to bounce off the garage barrier, and then bit the control stick. Meagan Montmeny and Humane Society Police Officer Angie Fry informed me that they measured from the entry door at the garage to where the kennels are located and that it is 25 to 30 feet. They estimated that Animal Care and Control Officer James Genco dragged the dog while it was lying flat on the floor for 25 feet.

Humane Animal Rescue Veterinary Technician Camille Burke reported that she was working in the cat tech room entering paperwork, when she heard a commotion and high-pitched yelping and screaming coming from the garage. She told me that she saw Animal Care and Control Officer James Genco handling the dog on a control pole. Camille Burke stated that it looked like Animal Care and Control Officer James Genco was "mopping the floor" with the dog. She reported that the dog left behind him a trail of blood, feces, and urine. Camille Burke said that she hurried to retrieve other staff members because the dog was bleeding heavily.

James Genco voluntarily came into Zone 3 station with Attorney Casey White on April 20, 2021, for me to interview him in the presence of Lt. Julie Stoops. I read James Genco his Miranda Rights and he agreed to speak to me about this incident. James Genco stated that he has worked as an Animal Care and Control Officer for the past 26 years. James Genco told us that he believed the dogs were in imminent danger. He informed us that the dogs were panting, their tongues were hanging out, and that they were slobbering. He said that the windows on the vehicle were completely closed and that there was no food or water inside of the vehicle. James Genco told us that the outside temperature was 50 degrees. According to Accuweather, the temperature in Pittsburgh on March 17, 2021, was a high of 67 degrees and a low of 36 degrees.

Based on my personal observations of the video footage, specifically the actions shown in the video of James Genco, witness statements, statements made by James Genco during his interview, as well as statements from a licensed veterinarian, I believe that James Genco's actions directly caused the injuries to the tan colored pit bull dog type seen in the video.

This case was reviewed by Assistant District Attorney Lisa Borrelli, and the above listed charges were approved.

ARREST WARRANT RESPECTFULLY REQUESTED.

Subject: Re: JAMES GENCO, THE DOG STOP, BRIAN SLAVICEK, AND CHARLENE MERTEN-HYATT

Good morning,

Thank you for revising the narrative.

The first thing that will happen is that I will be asked if I reviewed the narrative and if I approved it. Since I did not see it, I will have to answer no. They will sit until I review it and then I will need to talk to our front office about it.

Did you send it to me, and I missed it? If not, could you send it to me?

Also, I had heard that HAR wanted to help with the charges. Were you able to connect with Meagan/Angie?

Thanks,  
Lisa

Subject: JAMES GENCO, THE DOG STOP, BRIAN SLAVICEK, AND CHARLENE MERTEN-HYATT

Good morning,

I made changes to the criminal complaints involving James Genco, The Dog Stop, and its two former employees and resubmitted them on Thursday, May 13, 2021. All these cases have been waiting for DA review/approval. The narratives are short and I believe fit the elements of the crimes that we are charging.

Is there anything that we can do to get the charges filed?

Please let me know.

Thank you!

Hi Angie,

Thank you for allowing us the time to speak with our fosters prior to moving forward with the home check. We have been able to notify all fosters. We will not microchip until the dogs are brought back prior to transport. And we will definitely share that information with you.

We need the signed surgical consent form for Kapnono ASAP, so we can get him neutered prior to his return. Lisa, I know you had that. Would you be able to facilitate that portion?

Thanks,

Hi Carol,

Sorry I missed your call, I was away from my desk. ADA Borrelli did send me the email chain from Jones and his attorney stating that all 9 dogs will be housed at his residence on Glenn Ave in Wilkinsburg.

When Kathleen Beaver called Dan Rossi, right after the hearing, she asked that no one speak of the outcome/agreement for 24 hours so that fosters could be notified. Have fosters been notified at this point?

I will make a visit on Friday to ensure that the dogs are being returned to an appropriate environment.

Could you please advise me of the microchip numbers and which dog goes with that chip as soon as possible.

Thanks

All of that sounds good. I will let you know if engineering needs any changes in upcoming weeks.

Thanks!

John

Hi John,

Just touching base on the data I am sending you tomorrow. I plan to send you an excel spreadsheet with just the new data unless you tell me otherwise. Also, I plan to send it off before lunch unless you want it at another time of day.

Thanks,

Lisa

Hi,

Hey he committed to an address and the dogs being returned to him will be microchipped so when I show up unannounced, those dogs better be there. Remember he won't know when or how often I am coming.

Hi Lisa,

Harold reports to me that the dogs will be at 1210 Glenn Ave., Wilksburg, PA 15221. He also said he will advise if they move to any other location. Also, he wanted the documents that Angela seized so he has all his records in order. Thanks!

Subject: Jones Case Communication

All:

I appreciate everyone's time and input this morning. While I believe we can all agree that there are few winners in this case (except the 19 dogs that will get a shot at a better life), we can take the lessons learned and move on with saving more lives.

One key point that I need to make – I am asking that no information about this case or the agreement is shared with anyone for the next 24 hours so we have ample opportunity to personally speak to each of our fosters who will need to return the dogs they have had in their homes for more than a year. It will be an emotional 24 hours and these folks deserve the respect and compassion to hear it first hand and not through the grapevine.

As soon as we have connected with every foster, we will let you know.

Thank you for understanding.

Kathleen

Based on the attorney's e-mail below, he is asking for 10 dogs total, not 9.

1. Fendi
2. Scarfo
3. Precious
4. Keurig
5. KKong
6. Lila
7. Momma
8. Kaffiene
9. Nikki -- this dog is spayed, which I'm assuming is why he wants to swap her out.
10. Gaddaffi

Hi Lisa,

Please see the attached form that has the names of BOTH what Harold named the dogs AND what the other parties named the dogs. Fendi (sitting on couch) is female, approx 2 years old, Scarfo,(chocolate boy with green coat on) male, 3.5 yrs old approx. Precious, female,(wheat color, white color on chest) 2 years old approx. Kuerig, (sitting down looking at camera, chairs on each side) male, approx 1.5 years old. K-kong(xmas hat on) male, 3 yrs. Lila, (sitting on floor with man)female, 4 yrs old. Mommas, female, 3 yrs old sitting in grass. Kaffeine, no pic, same litter as Kuerig and same color (Mommas daughter). And Nikki (chocolate tri approx 1.5 yrs old). And Gaddafi (the one that bit someone).

Based on the attorney's e-mail below, he is asking for 10 dogs total, not 9.

1. Fendi
2. Scarfo
3. Precious
4. Keurig
5. KKong
6. Lila
7. Momma
8. Kaffiene
9. Nikki -- this dog is spayed, which I'm assuming is why he wants to swap her out.
10. Gaddaffi

Subject: Dogs, Harold Jones

Hi Lisa,

Please see the attached form that has the names of BOTH what Harold named the dogs AND what the other parties named the dogs. Fendi (sitting on couch) is female, approx 2 years old, Scarfo, (chocolate boy with green coat on) male, 3.5 yrs old approx. Precious, female, (wheat color, white color on chest) 2 years old approx. Kuerig, (sitting down looking at camera, chairs on each side) male, approx 1.5 years old. K-kong (xmas hat on) male, 3 yrs. Lila, (sitting on floor with man) female, 4 yrs old. Mommas, female, 3 yrs old sitting in grass. Kaffeine, no pic, same litter as Kuerig and same color (Mommas daughter). And Nikki (chocolate tri approx 1.5 yrs old). And Gaddafi (the one that bit someone).

Lisa,

Is there any chance we can ask for some sort of reimbursement as we have spent over \$300,000 to care for the dogs?

Based on the attorney's e-mail below, he is asking for 10 dogs total, not 9.

1. Fendi
2. Scarfo
3. Precious
4. Keurig
5. KKong
6. Lila
7. Momma
8. Kaffiene
9. Nikki -- this dog is spayed, which I'm assuming is why he wants to swap her out.

Based on the attorney's e-mail below, he is asking for 10 dogs total, not 9.

1. Fendi
2. Scarfo
3. Precious
4. Keurig
5. KKong
6. Lila
7. Momma

8. Kaffiene
9. Nikki -- this dog is spayed, which I'm assuming is why he wants to swap her out.
10. Gaddaffi

Hi Lisa,

Please see the attached form that has the names of BOTH what Harold named the dogs AND what the other parties named the dogs. Fendi (sitting on couch) is female, approx 2 years old, Scarfo, (chocolate boy with green coat on) male, 3.5 yrs old approx. Precious, female, (wheat color, white color on chest) 2 years old approx. Kuerig, (sitting down looking at camera, chairs on each side) male, approx 1.5 years old. K-kong(xmas hat on) male, 3 yrs. Lila, (sitting on floor with man) female, 4 yrs old. Mommas, female, 3 yrs old sitting in grass. Kaffeine, no pic, same litter as Kuerig and same color (Mommas daughter). And Nikki (chocolate tri approx 1.5 yrs old). And Gaddafi (the one that bit someone).

Hi Lisa,

Please see the attached form that has the names of BOTH what Harold named the dogs AND what the other parties named the dogs. Fendi (sitting on couch) is female, approx 2 years old, Scarfo, (chocolate boy with green coat on) male, 3.5 yrs old approx. Precious, female, (wheat color, white color on chest) 2 years old approx. Kuerig, (sitting down looking at camera, chairs on each side) male, approx 1.5 years old. K-kong (xmas hat on) male, 3 yrs. Lila, (sitting on floor with man) female, 4 yrs old. Mommas, female, 3 yrs old sitting in grass. Kaffeine, no pic, same litter as Kuerig and same color (Mommas daughter). And Nikki (chocolate tri approx 1.5 yrs old). And Gaddafi (the one that bit someone).

Subject: PLEASE REVIEW

Good morning,

This is the narrative that I wrote for the criminal complaint involving James Genco. Please review and let me know if any changes need to be made. Thanks!

---

This complaint is prepared by your affiant, Officer Christine Luffey. I have worked as a Pittsburgh Police Officer for the past 28 years. I specialize in animal neglect and abuse cases.

On March 25, 2021, City of Pittsburgh Public Safety Director Wendell Hissrich requested that I review a video that was sent to city officials by Meagan Montmeny from Humane Animal Rescue of Pittsburgh to determine if the video is

criminal in nature. The video was recorded on March 17, 2021. The video begins - CAM 09 12:03:23.216 PM (GMT 4:00) 3/17/2021. The video ends - CAM 09 12:13:56.955 PM (GMT 4.00) 3/17/2021

In the video at 12:04 04, the door next to the garage door at Humane Animal Rescue of Pittsburgh, East End location opens. Animal Care and Control Officer John Lapp walks in with a white pit bull dog on a long lead. The dog was wagging its tail. Animal Care and Control Officer James Genco is viewed propping open the door and standing there. Animal Care and Control Officer James Genco then is out of view, outside of the building.

12:05 31, Animal Care and Control Officer John Lapp is viewed walking out of the open door without the white dog.

12:07 53, Animal Care and Control Officer John Lapp walks back inside of the garage and goes out of view.

12:08 04, Animal Care and Control Officer James Genco is viewed walking in a tan colored pit bull dog on a catch pole.

12:08 09, the tan colored pit bull dog is viewed lying flat on the floor. Animal Care and Control Officer James Genco is viewed dragging the dog across the floor and goes out of view at 12:08 13.

12:08 14, blood, urine, and feces are viewed on the floor where the dog was dragged

12:08 15, a white female is seen walking into the garage area and walking in the direction of Animal Care and Control Officers John Lapp and James Genco. The female goes out of view at 12:08 18

12:08 22, the same white female with a long dyed-red ponytail is viewed hurrying back into the area she came out of.

12:13 25, Animal Care and Control Officers John Lapp and James Genco are viewed walking out of the door. The door remains open.

12:13 51, One of the Animal Care and Control Officers is viewed closing the door.

I was given permission to share the video with Assistant District Attorney Lisa Borrelli for her review. Director Wendell Hissrich asked me to investigate this incident.

I spoke to Meagan Montmeny, Chief Operations Officer at Humane Animal Rescue of Pittsburgh. Meagan Montmeny reported that she sent the video to city of Pittsburgh employees, David Madden and Lee Schmidt, because she was appalled by Animal Care and Control Officer James Genco's treatment of the dog and the injuries the dog sustained. She told me, "I was in tears watching that video footage". Meagan Montmeny stated that the dog suffered the following injuries: mouth was severely bleeding, missing teeth, ruptured blood vessels in both of its eyes (signs of strangulation), and nystagmus. She informed me that the dog was transported to PVSEC for emergency treatment. Meagan Montmeny reported that the dog was "very sweet" and "friendly". She said, "at no point was I concerned for my safety". I informed Meagan Montmeny that I was asked to

investigate this incident and that I need her to provide me a list of all the employees who witnessed the incident or interacted with the injured dog. Meagan Montmeny agreed to provide me with a list of employees who have information involving the incident, provide written statements from the employees, and to provide veterinary records from Humane Animal Rescue of Pittsburgh and PVSEC involving the injuries to the dog. Meagan Montmeny informed me that she believes there is a video of the dog being removed from the truck and that she would provide that as well.

I learned that a police report was written by Officer Francis Rende, CCR# 21-44920, involving two dogs being removed from an unattended vehicle on 21st Street and Waterfront Street on March 17, 2021, at 11:33 am. Officer Francis Rende and Eric Churilla were on scene to assist Animal Care and Control Officers. These are the two dogs that were transported to Humane Animal Rescue of Pittsburgh by Animal Care and Control Officers James Genco and John Lapp.

On April 2, 2021, I went to Humane Animal Rescue of Pittsburgh and interviewed the following staff members: Meagan Montmeny, Brianna Kaufman, Shadaka Jefferson, Sarah Kutsch, Dr. Amy Kalinauskas, and Amanda Geletko.

Meagan Montmeny provided me with her written statement and a thumb drive with additional camera footage showing the injured dog being removed from the truck. We viewed the video together in her office. Meagan Montmeny told me that she watched the video frame by frame. She said that Animal Care and Control Officer Genco struggled to remove the dog from the truck for about five minutes. Meagan Montmeny told me that she viewed Animal Care and Control Officer Genco pull the noose tight three times before getting the dog on to the control stick. She stated that the dog came flying off the truck, hit the ground, appeared to bounce off the garage barrier, and then bit the control stick. Meagan Montmeny said that drops of blood were observed outside of the building. Animal Care and Control Officer John Lapp did not handle the injured dog. He stood nearby as Animal Care and Control Officer James Genco removed the dog from the truck. Meagan Montmeny stated that the injuries this dog sustained at the hands of these officers is unacceptable, is gross misconduct and cruel. She informed me that when a control stick is used on a dog and the dog is uncooperative that it is best to stop and give the dog a break. Meagan Montmeny explained that by continuing to provoke the dog with multiple attempts fuels aggression. She told me that the dog came off of the truck with a lot of force and that the dog made contact with the building. Meagan Montmeny reported that it is important to stay in front of the dog while on a control stick and that the handler has a responsibility to constantly monitor the dog. She stated that when Animal Care and Control Officer Genco brought the dog inside of the garage and it either laid down on the floor or lost consciousness, that he should have stopped moving and re-evaluated. Meagan Montmeny told me that Animal Care and Control Officer Genco could have asked the staff at Humane Animal Rescue of Pittsburgh for help at any time. She reported that the owner of the dogs arrived at the shelter on March 17, 2021, at 2:15 pm, and that she and Officer Angie Fry spoke with him. She said that she learned that the injured dog's name is "Cash" and that the dog's owner told her that there was a lot of blood in his vehicle. Meagan Montmeny reported that once the dog was transported to PVSEC, that she had to have a critical incident stress debriefing session with the staff who witnessed the incident and/or the dog's injuries because they were extremely upset.

I interviewed Brianna Kaufman. She is employed as the Shelter Medical Manager at Humane Animal Rescue of Pittsburgh. Brianna Kaufman stated that she was working in her office when a few staff members alerted her about an incident involving Animal Care and Control Officers. She told me that she entered the triage room and viewed the dog bleeding badly. Brianna Kaufman informed me that the dog was bleeding from its paw, cheek, had some broken teeth, and potentially an injured back right leg. She told me that she observed blood on the garage doors, in front of the garage on the pavement, blood in the garage, and blood on the door leading into the garage. Brianna Kaufman reported that she took 14 photos of the dog and blood. She described the injured dog as friendly.

I interviewed Shadaka Jefferson. She is employed as a Foster Technician at Humane Animal Rescue of Pittsburgh. Shadaka Jefferson reported that she was outside taking a break when she heard two Animal Care and

Control Officers talking among themselves and a dog barking inside of the truck. She told me that the dog was on a control stick and the officer handling the stick pulled it hard. Shadaka Jefferson said that the dog fell on to its butt on to the ground and went on to its side. She told me that she believes the dog hit into a stationary metal pole outside of the building. Shadaka Jefferson stated that she was very upset and alarmed at what she witnessed and went inside the building to report the incident to staff. She said that when she went into the triage room that the Officers had already left. Shadaka Jefferson informed me that she observed blood on the dog's face, mouth, and nose, and that the back right paw was bloody. She stated that she believed that the dog's tail was broken because the base of the tail was bent. Shadaka Jefferson said that she believes that the Officer handling the dog did not have the dog on the control pole correctly. She said that the control pole appeared to be under the dog's neck, which can cause choking.

I interviewed Sarah Kutsch. She is employed as a Veterinary Technician at Humane Animal Rescue of Pittsburgh. Sarah Kutsch reported that Officer Lapp brought the white dog in and told her that the other dog was giving them some trouble when they removed the dog from the vehicle. She told me that she got a good look at the injured dog when he was in the triage room and he looked lethargic, was short of breath, bleeding a large amount from his mouth and nose, and had a laceration on his paw. Sarah Kutsch stated that she and other staff members immediately retrieved a veterinarian and switched out the control pole on the dog with a leash. She told me that the injured dog showed no signs of aggression, and that the Veterinarian was able to exam him without a problem. Sarah Kutsch said that she cleaned up the blood from the dog that was outside, through the garage, and in the triage room. She told me that there was blood outside on the garage door and all over the pavement where the dog was removed from the truck. Sarah Kutsch informed me that the Officers did not handle the injured dog correctly, but instead put the dog in great distress and pain.

I interviewed Dr. Amy Kalinauskas. She is employed as a Veterinarian at Humane Animal Rescue of Pittsburgh. Dr. Kalinauskas reported that she was performing surgery on another animal when Veterinary Technician, Camille Burke, informed her that a dog was injured by Animal Care and Control Officers and was bleeding from its mouth. She said that when she entered the triage room that the injured dog was on a control pole being held by one of the Officers. Dr. Kalinauskas said that the dog was bleeding heavily out of its mouth, as well as a laceration on his right forepaw. She said that due to the aggressive behavior that was reported to her that she placed a basket muzzle over the dog's face for safety to do a quick exam. Dr. Kalinauskas stated that the muzzle was removed quickly after she assessed that the dog was not a threat. She told me that the dog was not sedated. Dr. Kalinauskas reported that the injured dog had bitten his cheeks, as well as fractured multiple teeth. She told me that the two incisor teeth were broken, and the pulp was exposed. Dr. Kalinauskas said that the white of the dog's eyes started to bruise, and she noticed a fresh laceration on the right front paw. She told me that the dog had a fractured tail and he reacted when she touched it. Dr. Kalinauskas said that the dog was lame on a rear limb and cried out on palpation. She informed me that after having the dog in their care for about fifteen minutes that she made the decision to send the dog to PVSEC for emergency care due to multiple injuries. Dr. Kalinauskas told me that when the dog laid down inside of the vehicle that she visualized horizontal nystagmus and the dog's nose started to bleed. She said that this solidified her decision to send the dog for emergency care due to possible brain trauma. Dr. Kalinauskas informed me that the dog was in a lot of pain, mentally and physically, and she cried during the interview. She said that she found out later that the Veterinarian at PVSEC found that the tail was previously broken. Dr. Kalinauskas explained to me that the nystagmyus she viewed fits with being strangled on a control pole. She stated that it is very hard to fracture a tooth and that the material must be harder than the tooth to cause a fracture. Dr. Kalinauskas told me that she feels bad for the dog and described the dog as friendly.

I interviewed Amanda Geletko. She is employed as an Off-site Coordinator at Humane Animal Rescue of Pittsburgh. Amanda Geletko informed me that she was asked to transport the injured dog to PVSEC for emergency treatment. She informed me that she observed the injuries that the dog sustained and noticed that one of his eyes was moving rapidly. Amanda Geletko told me that the trip to PVSEC took 25 to 30 minutes and that she heard the dog whine occasionally and coughed several times. She said that she could see in the dog's eyes how much pain and scared he was. Amanda Geletko reported that the dog was friendly to everyone.

Dan Rossi, Executive Director of Humane Animal Rescue of Pittsburgh, spoke with me after I conducted the interviews. He said that situations involving Animal Care and Control Officers being rough with dogs and cats have been going on for a long time, but not to this extent. Dan Rossi told me that he believes the Officers need more training and that he is willing to help. He said that he observed the injured dog standing, shaking, and bleeding. Dan Rossi informed me that the dog did not show any signs of aggression. He stated that there was blood all over the floor from the dog bleeding from his mouth. Dan Rossi told me that in the twelve years that he has been working at Humane Animal Rescue of Pittsburgh that he never saw a dog in this condition from just being brought into the shelter.

On April 6, 2021, I called PVSEC and spoke with Dr. Emily Gardner. Dr. Gardner is the Veterinarian who treated the injured dog named "Cash" on March 17, 2021, brought to PVSEC by Amanda Geletko from Humane Animal Rescue of Pittsburgh. Dr. Gardner informed me that she remembers the injured dog and told me that the most obvious injuries that she remembers is that the dog had multiple, fractured teeth (2 K9 teeth and 3 or 4 incisors), limping on his right forelimb and hindlimb, a swollen eye, and subconjunctival hemorrhage (typical strangulation injuries), and old tail fracture, soft tissue injuries in his legs, and many scrapes and abrasions were observed. Dr. Gardner stated that the dog was in a lot of pain and that based on his injuries that she believes "excess force was used for sure" by Animal Care and Control Officers. She told me that the dog's blood work indicated that he suffered from stress and muscle damage. Dr. Gardner reported that she recommended that the dog be seen by a Veterinary Dentist and provided the contact information to the dog's owner for the dentist that PVSEC used for care. The veterinary bill from PVSEC - North Hills was \$1,230.33.

On April 7, 2021, I interviewed Officer Eric Churilla and Officer Frank Rende. Officers Churilla and Rende reported that someone called 911 to report two dogs left inside a vehicle on March 17, 2021, and that they assisted Animal Care and Control Officers. Officers Churilla and Rende told me that Animal Care and Control Officers Genco and Lapp told them that they searched for the owner of the dogs and were unsuccessful. Officers Churilla and Rende stated that Animal Care and Control Officers told them that they needed to remove the dogs from the vehicle. Officer Churilla said that March 17, 2021, was a warm day and the temperature was rising. According to Accuweather, the temperature in Pittsburgh on March 17, 2021, was a high of 67 degrees and a low of 36 degrees. Officers Churilla and Rende informed me that they saw both dogs inside of the vehicle and the dogs appeared to be in distress. They told me that the dogs were panting and breathing heavily. Officers Churilla and Rende stated that the windows were completely closed, and that they did not see food or water inside of the vehicle. They said that the vehicle was black in color, and it was parked in the sun with the doors locked. Officer Churilla said that he agreed with Animal Care and Control Officers decision to remove the dogs from the vehicle. Officer Churilla showed me a small tool that looks like a pen that is used to break glass. He said that he gave it to one of the Animal Care and Control Officers to use to break the driver's side rear window. Officers Churilla and Rende informed me that the white dog inside of the vehicle was cooperative. They said that the tan/brown dog was barking, biting, and pawing at the window. Officer Churilla stated that he believes the tan/brown dog was protecting the area it was in. Officers Churilla and Rende told me that the tan/brown dog appeared to be aggressive, and they stepped back to allow Animal Care and Control Officers Lapp and Genco to remove the dog from the vehicle. Officers Churilla and Rende said that only one of the Animal Care and Control Officers was using the control pole, and that they don't know which one was using the control pole. Officers Churilla and Rende informed me that the tan/brown dog was not cooperative and that they witnessed the dog biting the control pole, flopping its body on the ground, and digging its nails into the ground. Officer Churilla said that Animal Care and Control Officers did drag the dog to the truck because it was not cooperative. Officer Churilla told me that after the dog was placed in the truck that he heard one of the Animal Care and Control Officers say that the dog was entangled in the equipment they were using. Officers Churilla and Rende stated that they don't believe that Animal Care and Control Officers Lapp or Genco abused either of the two dogs in their presence. Officers Churilla and Rende informed me that they are now familiar with the proper way to handle dogs on a control pole.

On April 8, 2021, I went back to Humane Animal Rescue of Pittsburgh to interview Camille Burke, Sarah Shively, and Nancy Parson Gump.

I interviewed Camille Burke using the lap top belonging to Meagan Montmeny on Zoom. Camille Burke is seen in the garage of Humane Animal Rescue of Pittsburgh on the first video that was provided to me. She is employed as a Veterinary Technician at Humane Animal Rescue of Pittsburgh. Camille Burke reported that she was working in the Cat Tech Room entering paperwork when she heard a commotion and high-pitched yelping and screaming coming from the garage. She told me that she ran into the garage to see what was happening and saw that Animal Care and Control Officers were bringing a dog in, screaming, on a pole. Camille Burke told me that she saw one of the officers (Officer Genco) handling the dog on a control pole. She described the handling of the dog, like he was "mopping the floor". Camille Burke reported that the dog left behind him a trail of blood, feces, and urine. She said that the Animal Care and Control Officers brought the dog into the Dog Tech Room, and she retrieved other staff members because the dog was bleeding heavily. Camille Burke told me that the officers kept insisting the dog was aggressive and that is why they used a control pole. She told me the dog was not aggressive towards her or Humane Animal Rescue of Pittsburgh staff members. Camille Burke told me that the dog was shaking, panting, and showing no signs of aggression. She informed me that the injured dog was clinging to her for comfort and that he seemed traumatized and defeated. She said that the dog was giving kisses and was very sweet.

I interviewed Sarah Shively. She is employed as the Director of Shelter Programs at Humane Animal Rescue of Pittsburgh. Sarah Shively reported that Brianna Kaufman informed her that Animal Care and Control Officers brought a dog in that she needed to see immediately. She said that when she arrived at the triage exam room that there were multiple veterinary technicians in the room looking at an injured, tan, pit bull mixed dog. Sarah Shively told me that she believed there were too many people in the room and asked some of them to leave because the dog was "incredibly stressed", panting heavily, its tongue was hanging out the side of its mouth, and blood was dripping. She stated that she noticed the dog's pupils were dilated and the eyes looked blood shot. Sarah Shively informed me that there was blood all over the floor and she observed blood covering the dog's legs and feet. She said that a few employees were sitting on the floor with the dog. Sarah Shively told me that she did not observe any aggressive behaviors from the injured dog. She reported that she is familiar with the use of a control pole and that it is not unusual for a dog to be fearful while on a control pole. Sarah Shively informed me that if a dog panics that it is best to stop moving.

I interviewed Nancy Parson Gump. She is employed as a Veterinary Technician at Humane Animal Rescue of Pittsburgh. Nancy Parson Gump reported that she observed the injured dog and remembers the dog panting heavily, his eyes were red, and his mouth was bleeding a lot. She stated that the dog was friendly, and it seemed that the dog was in a lot of pain.

David Madden, Supervisor of Animal Care and Control, sent me the "Animal Shelter Services" form, a photo of the dog the vehicle was removed from, statements from Pittsburgh Police Officers Churilla and Rende, and a statement e-mailed to him from Animal Care and Control Officer James Genco. I later received photos of a damaged cage that Animal Care and Control Officer Genco reported that the injured dog is responsible for.

On April 12, 2021, I spoke with Animal Care and Control Officer John Lapp on the telephone. He informed me that he did not use the control pole on the injured dog that was brought to Humane Animal Rescue of Pittsburgh on March 17, 2021. Animal Care and Control Officer Lapp stated that he and Officer Genco removed two dogs from a vehicle and that the white color dog was friendly. He told me that the tan/brown dog was vicious. Animal Care and Control Officer Lapp said that the dog "was going nuts in there" and that Officer Rende had his gun drawn and said he would shoot it if needed. He told me that the tan/brown dog bit the pole and inside of the cage. Animal Care and Control

Officer Lapp stated that Animal Care and Control Officer James Genco handled the dog and eventually got him on to the control pole. He stated that he has been working with Animal Care and Control Officer Genco for many years and that he had no intention of hurting the dog. I told Animal Care and Control Officer Lapp that the dog suffered many injuries. His response to me was, "you know he didn't club the dog. He's not like that with animals". Animal Care and Control Officer Lapp told me that all they wanted to do is get the dog into the shelter without anyone getting hurt. Animal Care and Control Officer Lapp told me, "I am really worried about this" and asked me questions about what is going to happen to Animal Care and Control Officer Genco, and if he will be charged with anything criminally. Animal Care and Control Officer Lapp said that he was inside of the building when he saw the dog lay down (garage floor). He told me that Animal Care and Control Officer Genco dragged the dog because "you couldn't pick him up". Animal Care and Control Officer Lapp stated that the staff at Humane Animal Rescue of Pittsburgh needed to put a muzzle on the injured dog. I asked Animal Care and Control Officer Lapp if the injured dog caused any damage to the truck, it was transported in. His response was, "It's hard to tell. Our cages are all bent up from other dogs". Animal Care and Control Officer Lapp asked me to put a good word in for him and Animal Care and Control Officer Genco and told me that they are willing to take additional training classes.

On April 20, 2021, I interviewed Animal Care and Control Officer James Genco in the presence of Lt. Julie Stoops and Attorney Casey White. I read James Genco his Miranda Rights from the city of Pittsburgh Bureau of Police Miranda Rights Form. He agreed to speak with Lt. Stoops and I about the incident involving the dog that was injured in the care and custody of himself and Animal Care and Control Officer John Lapp on March 17, 2021. James Genco initialized and signed the form. He told us that he has worked as an Animal Care and Control Officer in the city of Pittsburgh for the past 26 years. He said that most of what he learned was on the job training from other Animal Care and Control Officers. James Genco informed us that he attended the National Animal Control Academy in 2003 or 2004. He stated that he normally works with Animal Care and Control Officer John Lapp and that he normally handles the control pole because Animal Care and Control Officer Lapp is older and has some physical challenges. James Genco told us that he and Animal Care and Control Officer Lapp were working together on March 17, 2021. He said that they received a call through dispatch that dogs were inside of a vehicle at 21st Street and Waterfront Street. James Genco informed us that when they arrived, they saw a lot of people in the area walking their dogs and that someone reported to him and his partner that the dogs were left in the vehicle earlier that morning and the owner of the dogs may be a construction worker. He said that the windows on the vehicle were closed and that there was no food or water in the vehicle for the dogs. James Genco said that the dogs were panting. He informed us that the vehicle was parked in the sunlight and that there was no shade. James Genco said that he and Animal Care and Control Officer Lapp searched for the owner of the dogs on Smallman Street, 21st Street, and on Waterfront Street and were not successful. He told us that they went back and checked on the dogs. James Genco said that the dogs were panting and that he and Animal Care and Control Officer Lapp waited for about 10 or 15 minutes before calling the Animal Care and Control Office and using channel 1 to request police assistance. James Genco informed us that Officer Rende arrived first on Scene and Officer Churilla arrived about a minute later. He said that he and Animal Care and Control Officer Lapp explained to Officers Rende and Churilla that the dogs were inside of the vehicle all morning, the vehicle was in the sun, and that it started getting warmer. James Genco informed us that he told Officers Rende and Churilla that they may have to take the dogs and the officers agreed. He said that he and Officer Lapp did not have anything to break the window with and that Officer Churilla had a tool to break the window. James Genco stated that the white dog was sitting in the middle of the back seat and that it was panting heavily. He said that the brown dog was in the front seat and biting at them through the window. James Genco stated that the tan/brown dog was very upset and lunged at the window and was barking. He informed us that Animal Care and Control Officer John Lapp broke the middle rear window on the driver's side. James Genco told us that the temperature outside was 50 degrees at the time the dogs were removed from the vehicle. He said that he believed the dogs were in imminent danger because the way the vehicle was parked, and the dogs didn't look too good. James Genco said that he thought they were lethargic, they were panting, their tongues were hanging out, and they were slobbering. He told us that Animal Care and Control Officer Lapp broke the window and that someone opened the door. James Genco said the plan was to try to get the brown dog out, but he was not able to get the dog on the control pole. He told us that the tan/brown dog began biting the control pole and they made the decision to remove the white dog first. James Genco stated that he kept the tan/brown dog at bay so Animal Care and Control Officer Lapp could remove the white dog from the vehicle and close the door. He said that the white dog was friendly, and the tan/brown

dog was going crazy. James Genco mentioned that a lot of people with their dogs were watching them remove the dogs from the vehicle. He said that after the white dog was placed in the truck that they went back to remove the tan/brown dog. James Genco stated that Animal Care and Control Officer Lapp held the door for him and that the tan/brown dog was biting the pole. He told us that he was able to get the dog onto the pole and that the dog was twisting himself and biting the pole. James Genco said that the dog's mouth started to bleed. He told us that he was trying to get the dog to the truck and that Officer Rende pulled out his gun and threatened to shoot the dog. James Genco said that the dog was resisting. He stated that once he got the dog into the truck that the dog began biting the cage. James Genco told us that he and Animal Care and Control Officer Lapp heard the dog slamming himself in the cage during the ride to Humane Animal Rescue of Pittsburgh. He said that they arrived on scene at 10:55 am and they left the scene at 11:45 am. James Genco stated that he has not removed a lot of dogs from cars. He informed us that the dog was resisting and digging into the concrete. James Genco said that he was trying to get the dog to the truck as fast as he could because he was concerned for the safety of everyone nearby. He stated that he was taught if a dog is resisting to get it to where it needs to go as fast as you can. James Genco told us that there was a lot of blood in the vehicle on the front seat and window, in the cage the dog was put in, and on the control pole. He said that the dog's mouth was bleeding, he saw a lot of blood, and noticed that one of the dog's paws was bleeding. James Genco said that he uses a control pole as a last resort, not to get hurt or bit. He told us that he is aware of the cameras and where they are located at Humane Animal Rescue of Pittsburgh. James Genco stated that Animal Care and Control Officers don't pull inside of the garage to unload animals from the trucks because deliveries are sometimes left inside of the garage and that the garage door at Humane Animal Rescue of Pittsburgh is sometimes broken. He produced a copy of an e-mail that he sent to his supervisor, David Madden, and two photographs of the garage that were taken at Humane Animal Rescue of Pittsburgh on September 6, 2019, and September 12, 2019. James Genco told us that David Madden reached out to someone at Humane Animal Rescue of Pittsburgh and after that the conditions of the garage improved.

James Genco told us about the removal of the two dogs from the truck on March 17, 2021. He said that Animal Care and Control Officer Lapp removed the white dog from the truck using a rope with no problem. He said that he believes that he went inside of the garage with Animal Care and Control Officer Lapp, when Officer Lapp put the dog into a cage. James Genco stated that he spoke with a female and told her that they had a mean dog and a real bad dog in the truck that they need to bring inside. He told us that the female said that they don't have anyone available to help. James Genco described the female employee he spoke with as white, thin, blonde hair, glasses, in her 30's. He stated that the female may have come outside with them, but he is not sure. James Genco informed us that Animal Care and Control Officer Lapp was holding the cage when he was working to get the tan/brown dog onto the control pole. He said that he tried a few times, and the dog was biting the pole. James Genco stated that he was finally able to get the dog on the pole and that he pulled the dog off the truck. He said that when he was removing the dog from the truck that he went off balance and that the dog may have hit into the garage door. James Genco demonstrated how he uses a control pole. I asked him how many times he pulled the string on the end of the control pole while removing the dog from the truck. He told us once or twice. James Genco informed us that the tan/brown dog resisted the whole time and that he was pulling one way and the dog was pulling the other way. He said that the dog was digging his claws into the ground and continued to resist. James Genco said that the dog was walking when he brought him into the garage and decided he didn't want to cooperate. He told us that the dog did lay down and that he did drag him on the garage floor for about 5 feet. James Genco stated that he wanted to get the dog into the room as fast as possible. I asked him if the dog went unconscious. He said that it did not. James Genco stated that he didn't stop and kept going. He told us that it was like he and the dog were playing tug a war. I asked James Genco if he was aware that while the dog was being dragged that blood, urine, and feces were left on the garage floor. He said that he was aware that there was blood on the floor. James Genco stated that he brought the dog into the tech room and the dog got on his feet. He told us that a bunch of women came rushing in. James Genco said that he had the dog against the wall and the dog was going crazy and blood was flying everywhere. He told us that someone said, "get the door" and that one or two females pushed the dog into the door. James Genco said that the dog was sedated. I was informed by Dr. Kalinauskas that the dog was not sedated. He told us that he believes the dog was sedated because he saw one of the females give the dog an injection. James Genco said that he held the control pole until the workers could put a muzzle on the dog. He told us that once a muzzle was put on the dog the dog that he took the control pole off and they left. James Genco said that David Madden called him and Animal Care and Control Officer Lapp about an hour later and

told them to go back to Humane Animal Rescue of Pittsburgh and transport the injured dog to PVSEC. He informed us that he was later told not to go back to Humane Animal Rescue of Pittsburgh because the dog was transported to PVSEC by staff at Humane Animal Rescue of Pittsburgh. James Genco stated that he got back to the Animal Care and Control office at about 2:00 pm and was informed that the owner of the dog called the clerk asking where his dogs are.

James Genco stated that his job is to get animals "from point A to point B". He said that he was never formally trained on how to use a control pole and that mostly everything he learned was from experience. James Genco said that he would accept training to do his job better. He stated that the brown dog was the meanest dog he has ever had to deal with. James Genco said that he "was afraid". He told us that he did not purposely set out to hurt the dog. James Genco said that he has had three surgeries on his left shoulder in the past and may have to have another surgery. He described having a torn bicep, labrum, and rotator cuff. James Genco stated that he has three metal anchors that were drilled into his arm bone and that he arm isn't as strong as it used to be. He said that the injuries are from his job from lifting dogs up into the truck by the control pole. James Genco told us that another Animal Care and Control Officer recently broke a dog's leg while removing it from the truck and that nothing happened to that Officer. He stated that there is no city policy on how to use a control pole and no kind of formal training in his department. James Genco allowed me to make copies of the documents that he produced. He asked us to try to obtain video surveillance from where the dog was removed from the truck and to inquire if there are additional videos at Humane Animal Rescue of Pittsburgh that show the injured dog inside of the tech room or being removed from Humane Animal Rescue of Pittsburgh to PVSEC.

After interviewing James Genco, I watched the video of the two dogs being brought into the garage by James Genco and Animal Care and Control Officer Lapp on March 17, 2021. James Genco informed me during the interview that he believes that he went into Humane Animal Rescue of Pittsburgh with Animal Care and Control Officer Lapp when Officer Lapp was bringing in the friendly, white dog into the shelter. He said that he asked a female staff member that he described as white, female, blonde, thin, glasses, and in her 30's for help with the aggressive dog and that this female informed him that no one was available to help with the dog. The video shows that James Genco remained outside and did not enter the garage until he brought the injured (tan/brown) dog inside. I interviewed every staff member at Humane Animal Rescue of Pittsburgh that had any involvement with the injured dog being brought into the shelter on March 17, 2021, and no one mentioned that James Genco asked them for help.

I spoke with Officer Angela Fry from Humane Animal Rescue of Pittsburgh. I informed Officer Fry that James Genco believes that the injured dog was sedated because he viewed a staff member giving the dog an injection. Officer Fry pulled up the veterinary records and confirmed that the injured dog was not sedated. She told me that the dog was vaccinated against rabies, adenovirus, Bordetella, and parainfluenza. Officer Fry informed me that she would discuss the claims that James Genco made with Meagan Montmeny and that Meagan Montmeny will provide me with a response to the questions I have asked.

On April 21, 2021, I received a response from Meagan Montmeny. Meagan Montmeny informed me that the garage door at Humane Animal Rescue of Pittsburgh was broken on Friday, September 11, 2020, and repaired on Monday, September 14, 2020. She informed me that during that time, Animal Care and Control Officers brought six animals into the shelter that consisted of five cats and one dog. Meagan Montmeny stated that a white, female, blonde, thin, glasses, and in her 30's does not match the description of a staff member at Humane Animal Rescue of Pittsburgh. She said that the closest match in description, wasn't working on March 17, 2021.

Meagan Montmeny reported that she pulled the camera footage to see if she could observe the injured dog being loaded into their vehicle to be transported to PVSEC. She informed me that the camera angle is bad, but you can see

their vehicle backing up to the door and the staff loading a crate inside, but that is all. Meagan Montmeny dropped off a thumb drive of this footage at Zone 3 for me to review.

Meagan Montmeny informed me that she and Officer Fry measured the garage, and it is 25 to 30 feet from the entrance into the garage into the animal control kennels. James Genco claimed that he dragged the dog 5 feet. His statement is not accurate.

On April 26, 2021, Lt. Julie Stoops informed me that there are no cameras at 21st Street and Waterfront Street to show the dog being removed from the vehicle.

I looked at the temperatures in Pittsburgh on [www.wunderground.com/history/weekly/us/pa/pittsburgh](http://www.wunderground.com/history/weekly/us/pa/pittsburgh) for March 17, 2021. The high temperature was 65 degrees. The low temperature was 33 degrees. The chart showed that the temperature at 11:51 am was 54 degrees.

This case was reviewed by Assistant District Attorney Lisa Borrelli, and the above listed charges were approved.

Subject: Counter proposal for Harold Jones

Hi Lisa,

I have attached the counter proposal for Jones. I believe that this gives us more control over him as he agrees to unannounced visits and education and compliance with laws. I fear that if we don't have these control parameters in place, that he will do things illegally and animals will again be subjected to neglect. I also fear that his defense counsel could advise the judge of the proposal that they offered us, and if we deny it, the judge could think poorly of us (if she believed that their offer was fair) and she could dismiss all charges and then we have no control over him.

The judge could dismiss all the charges and order that all 28 remaining dogs be returned to Jones or she could find him guilty on 1 count, dismiss the other citations, order minimum fines ( which is \$50) and she does not have to order forfeiture of the animals, even on a guilty conviction. She also does not have to order prohibition of ownership.

Let me know if you want anything else added or changed.

Necropsy Report  
Tuesday April 27, 2021  
For Angie Fry  
Humane Agent  
3.54 Kg. brachycephalic Lhasa Apso type dog

On external exam the dog was overdue for grooming.  
The right eye had severe sclera hemorrhage indicating trauma. (bleeding into the white of the eye)  
Photo will document this finding  
The right shoulder was dislocated.  
(Shoulder dislocation is not common and would require extreme force to tear those tissues)  
The right hip was also dislocated.  
(This is a common injury seen after severe trauma for example after being hit by a car)

On internal exam the abdomen was intact. No abnormalities were seen in the liver, kidneys, spleen and intestines.  
The chest cavity revealed pulmonary (lung) hemorrhage and contusion.  
Photo will document this finding.  
This finding would again be indicative of severe trauma.

Radiographs did not reveal previous trauma. No healed fractures were evident.  
A micro chip was present.  
There was suggestion of the shoulder dislocation noted on physical palpation of the joints.

Lung hemorrhage may have been a result of chest compression. It was clear that this dog had severe trauma to cause the eye, lung, hip and shoulder injuries. Correlation with the history would suggest abuse of this dog.

I totally agree. Genco's attorney texted me on Friday asking for an update. I informed him that the case is currently being reviewed and that I will keep him posted. He texted me again yesterday asking if any charging decisions were made. I did not answer his text. When the charges are approved in Quick Arrest, I will let you and Chief Kudrav know immediately.

Chief Kudrav said that we need to alert her before Genco is told of his charges being approved. They want to let the rest of Animal Control and Public safety know and explain things so they don't hear about it on the news.

Subject: PLEASE REVIEW

Good morning,

This is the narrative that I wrote for the criminal complaint involving James Genco. Please review and let me know if any changes need to be made. Thanks!

---

This complaint is prepared by your affiant, Officer Christine Luffey. I have worked as a Pittsburgh Police Officer for the past 28 years. I specialize in animal neglect and abuse cases.

On March 25, 2021, City of Pittsburgh Public Safety Director Wendell Hissrich requested that I review a video that was sent to city officials by Meagan Montmeny from Humane Animal Rescue of Pittsburgh to determine if the video is criminal in nature. The video was recorded on March 17, 2021. The video begins - CAM 09 12:03:23.216 PM (GMT 4:00) 3/17/2021. The video ends - CAM 09 12:13:56.955 PM (GMT 4.00) 3/17/2021

In the video at 12:04 04, the door next to the garage door at Humane Animal Rescue of Pittsburgh, East End location opens. Animal Care and Control Officer John Lapp walks in with a white pit bull dog on a long lead. The dog was wagging its tail. Animal Care and Control Officer James Genco is viewed propping open the door and standing there. Animal Care and Control Officer James Genco then is out of view, outside of the building.

12:05 31, Animal Care and Control Officer John Lapp is viewed walking out of the open door without the white dog.

12:07 53, Animal Care and Control Officer John Lapp walks back inside of the garage and goes out of view.

12:08 04, Animal Care and Control Officer James Genco is viewed walking in a tan colored pit bull dog on a catch pole.

12:08 09, the tan colored pit bull dog is viewed lying flat on the floor. Animal Care and Control Officer James Genco is viewed dragging the dog across the floor and goes out of view at 12:08 13.

12:08 14, blood, urine, and feces are viewed on the floor where the dog was dragged

12:08 15, a white female is seen walking into the garage area and walking in the direction of Animal Care and Control Officers John Lapp and James Genco. The female goes out of view at 12:08 18

12:08 22, the same white female with a long dyed-red ponytail is viewed hurrying back into the area she came out of.

12:13 25, Animal Care and Control Officers John Lapp and James Genco are viewed walking out of the door. The door remains open.

12:13 51, One of the Animal Care and Control Officers is viewed closing the door.

I was given permission to share the video with Assistant District Attorney Lisa Borrelli for her review. Director Wendell Hissrich asked me to investigate this incident.

I spoke to Meagan Montmeny, Chief Operations Officer at Humane Animal Rescue of Pittsburgh. Meagan Montmeny reported that she sent the video to city of Pittsburgh employees, David Madden and Lee Schmidt, because she was appalled by Animal Care and Control Officer James Genco's treatment of the dog and the injuries the dog sustained. She told me, "I was in tears watching that video footage". Meagan Montmeny stated that the dog suffered the following injuries: mouth was severely bleeding, missing teeth, ruptured blood vessels in both of its eyes (signs of strangulation), and nystagmus. She informed me that the dog was transported to PVSEC for emergency treatment. Meagan Montmeny reported that the dog was "very sweet" and "friendly". She said, "at no point was I concerned for my safety". I informed Meagan Montmeny that I was asked to investigate this incident and that I need her to provide me a list of all the employees who witnessed the incident or interacted with the injured dog. Meagan Montmeny agreed to provide me with a list of employees who have information involving the incident, provide written statements from the employees, and to provide veterinary records from Humane Animal Rescue of Pittsburgh and PVSEC involving the injuries to the dog. Meagan Montmeny informed me that she believes there is a video of the dog being removed from the truck and that she would provide that as well.

I learned that a police report was written by Officer Francis Rende, CCR# 21-44920, involving two dogs being removed from an unattended vehicle on 21st Street and Waterfront Street on March 17, 2021, at 11:33 am. Officer Francis Rende and Eric Churilla were on scene to assist Animal Care and Control Officers. These are the two dogs that were transported to Humane Animal Rescue of Pittsburgh by Animal Care and Control Officers James Genco and John Lapp.

On April 2, 2021, I went to Humane Animal Rescue of Pittsburgh and interviewed the following staff members: Meagan Montmeny, Brianna Kaufman, Shadaka Jefferson, Sarah Kutsch, Dr. Amy Kalinauskas, and Amanda Geletko.

Meagan Montmeny provided me with her written statement and a thumb drive with additional camera footage showing the injured dog being removed from the truck. We viewed the video together in her office. Meagan Montmeny told me that she watched the video frame by frame. She said that Animal Care and Control Officer Genco struggled to remove the dog from the truck for about five minutes. Meagan Montmeny told me that she viewed Animal Care and Control

Officer Genco pull the noose tight three times before getting the dog on to the control stick. She stated that the dog came flying off the truck, hit the ground, appeared to bounce off the garage barrier, and then bit the control stick. Meagan Montmeny said that drops of blood were observed outside of the building. Animal Care and Control Officer John Lapp did not handle the injured dog. He stood nearby as Animal Care and Control Officer James Genco removed the dog from the truck. Meagan Montmeny stated that the injuries this dog sustained at the hands of these officers is unacceptable, is gross misconduct and cruel. She informed me that when a control stick is used on a dog and the dog is uncooperative that it is best to stop and give the dog a break. Meagan Montmeny explained that by continuing to provoke the dog with multiple attempts fuels aggression. She told me that the dog came off of the truck with a lot of force and that the dog made contact with the building. Meagan Montmeny reported that it is important to stay in front of the dog while on a control stick and that the handler has a responsibility to constantly monitor the dog. She stated that when Animal Care and Control Officer Genco brought the dog inside of the garage and it either laid down on the floor or lost consciousness, that he should have stopped moving and re-evaluated. Meagan Montmeny told me that Animal Care and Control Officer Genco could have asked the staff at Humane Animal Rescue of Pittsburgh for help at any time. She reported that the owner of the dogs arrived at the shelter on March 17, 2021, at 2:15 pm, and that she and Officer Angie Fry spoke with him. She said that she learned that the injured dog's name is "Cash" and that the dog's owner told her that there was a lot of blood in his vehicle. Meagan Montmeny reported that once the dog was transported to PVSEC, that she had to have a critical incident stress debriefing session with the staff who witnessed the incident and/or the dog's injuries because they were extremely upset.

I interviewed Brianna Kaufman. She is employed as the Shelter Medical Manager at Humane Animal Rescue of Pittsburgh. Brianna Kaufman stated that she was working in her office when a few staff members alerted her about an incident involving Animal Care and Control Officers. She told me that she entered the triage room and viewed the dog bleeding badly. Brianna Kaufman informed me that the dog was bleeding from its paw, cheek, had some broken teeth, and potentially an injured back right leg. She told me that she observed blood on the garage doors, in front of the garage on the pavement, blood in the garage, and blood on the door leading into the garage. Brianna Kaufman reported that she took 14 photos of the dog and blood. She described the injured dog as friendly.

I interviewed Shadaka Jefferson. She is employed as a Foster Technician at Humane Animal Rescue of Pittsburgh. Shadaka Jefferson reported that she was outside taking a break when she heard two Animal Care and Control Officers talking among themselves and a dog barking inside of the truck. She told me that the dog was on a control stick and the officer handling the stick pulled it hard. Shadaka Jefferson said that the dog fell on to its butt on to the ground and went on to its side. She told me that she believes the dog hit into a stationary metal pole outside of the building. Shadaka Jefferson stated that she was very upset and alarmed at what she witnessed and went inside the building to report the incident to staff. She said that when she went into the triage room that the Officers had already left. Shadaka Jefferson informed me that she observed blood on the dog's face, mouth, and nose, and that the back right paw was bloody. She stated that she believed that the dog's tail was broken because the base of the tail was bent. Shadaka Jefferson said that she believes that the Officer handling the dog did not have the dog on the control pole correctly. She said that the control pole appeared to be under the dog's neck, which can cause choking.

I interviewed Sarah Kutsch. She is employed as a Veterinary Technician at Humane Animal Rescue of Pittsburgh. Sarah Kutsch reported that Officer Lapp brought the white dog in and told her that the other dog was giving them some trouble when they removed the dog from the vehicle. She told me that she got a good look at the injured dog when he was in the triage room and he looked lethargic, was short of breath, bleeding a large amount from his mouth and nose, and had a laceration on his paw. Sarah Kutsch stated that she and other staff members immediately retrieved a veterinarian and switched out the control pole on the dog with a leash. She told me that the injured dog showed no signs of aggression, and that the Veterinarian was able to exam him without a problem. Sarah Kutsch said that she cleaned up the blood from the dog that was outside, through the garage, and in the triage room. She told me that there was blood outside on the garage door and all over the pavement where the dog was removed from the truck. Sarah

Kutsch informed me that the Officers did not handle the injured dog correctly, but instead put the dog in great distress and pain.

I interviewed Dr. Amy Kalinauskas. She is employed as a Veterinarian at Humane Animal Rescue of Pittsburgh. Dr. Kalinauskas reported that she was performing surgery on another animal when Veterinary Technician, Camille Burke, informed her that a dog was injured by Animal Care and Control Officers and was bleeding from its mouth. She said that when she entered the triage room that the injured dog was on a control pole being held by one of the Officers. Dr. Kalinauskas said that the dog was bleeding heavily out of its mouth, as well as a laceration on his right forepaw. She said that due to the aggressive behavior that was reported to her that she placed a basket muzzle over the dog's face for safety to do a quick exam. Dr. Kalinauskas stated that the muzzle was removed quickly after she assessed that the dog was not a threat. She told me that the dog was not sedated. Dr. Kalinauskas reported that the injured dog had bitten his cheeks, as well as fractured multiple teeth. She told me that the two incisor teeth were broken, and the pulp was exposed. Dr. Kalinauskas said that the white of the dog's eyes started to bruise, and she noticed a fresh laceration on the right front paw. She told me that the dog had a fractured tail and he reacted when she touched it. Dr. Kalinauskas said that the dog was lame on a rear limb and cried out on palpation. She informed me that after having the dog in their care for about fifteen minutes that she made the decision to send the dog to PVSEC for emergency care due to multiple injuries. Dr. Kalinauskas told me that when the dog laid down inside of the vehicle that she visualized horizontal nystagmus and the dog's nose started to bleed. She said that this solidified her decision to send the dog for emergency care due to possible brain trauma. Dr. Kalinauskas informed me that the dog was in a lot of pain, mentally and physically, and she cried during the interview. She said that she found out later that the Veterinarian at PVSEC found that the tail was previously broken. Dr. Kalinauskas explained to me that the nystagmyus she viewed fits with being strangled on a control pole. She stated that it is very hard to fracture a tooth and that the material must be harder than the tooth to cause a fracture. Dr. Kalinauskas told me that she feels bad for the dog and described the dog as friendly.

I interviewed Amanda Geletko. She is employed as an Off-site Coordinator at Humane Animal Rescue of Pittsburgh. Amanda Geletko informed me that she was asked to transport the injured dog to PVSEC for emergency treatment. She informed me that she observed the injuries that the dog sustained and noticed that one of his eyes was moving rapidly. Amanda Geletko told me that the trip to PVSEC took 25 to 30 minutes and that she heard the dog whine occasionally and coughed several times. She said that she could see in the dog's eyes how much pain and scared he was. Amanda Geletko reported that the dog was friendly to everyone.

Dan Rossi, Executive Director of Humane Animal Rescue of Pittsburgh, spoke with me after I conducted the interviews. He said that situations involving Animal Care and Control Officers being rough with dogs and cats have been going on for a long time, but not to this extent. Dan Rossi told me that he believes the Officers need more training and that he is willing to help. He said that he observed the injured dog standing, shaking, and bleeding. Dan Rossi informed me that the dog did not show any signs of aggression. He stated that there was blood all over the floor from the dog bleeding from his mouth. Dan Rossi told me that in the twelve years that he has been working at Humane Animal Rescue of Pittsburgh that he never saw a dog in this condition from just being brought into the shelter.

On April 6, 2021, I called PVSEC and spoke with Dr. Emily Gardner. Dr. Gardner is the Veterinarian who treated the injured dog named "Cash" on March 17, 2021, brought to PVSEC by Amanda Geletko from Humane Animal Rescue of Pittsburgh. Dr. Gardner informed me that she remembers the injured dog and told me that the most obvious injuries that she remembers is that the dog had multiple, fractured teeth (2 K9 teeth and 3 or 4 incisors), limping on his right forelimb and hindlimb, a swollen eye, and subconjunctival hemorrhage (typical strangulation injuries), and old tail fracture, soft tissue injuries in his legs, and many scrapes and abrasions were observed. Dr. Gardner stated that the dog was in a lot of pain and that based on his injuries that she believes "excess force was used for sure" by Animal Care and Control Officers. She told me that the dog's blood work indicated that he suffered from stress and muscle damage. Dr. Gardner reported that she recommended that the dog be seen by a Veterinary Dentist and

provided the contact information to the dog's owner for the dentist that PVSEC used for care. The veterinary bill from PVSEC - North Hills was \$1,230.33.

On April 7, 2021, I interviewed Officer Eric Churilla and Officer Frank Rende. Officers Churilla and Rende reported that someone called 911 to report two dogs left inside a vehicle on March 17, 2021, and that they assisted Animal Care and Control Officers. Officers Churilla and Rende told me that Animal Care and Control Officers Genco and Lapp told them that they searched for the owner of the dogs and were unsuccessful. Officers Churilla and Rende stated that Animal Care and Control Officers told them that they needed to remove the dogs from the vehicle. Officer Churilla said that March 17, 2021, was a warm day and the temperature was rising. According to Accuweather, the temperature in Pittsburgh on March 17, 2021, was a high of 67 degrees and a low of 36 degrees. Officers Churilla and Rende informed me that they saw both dogs inside of the vehicle and the dogs appeared to be in distress. They told me that the dogs were panting and breathing heavily. Officers Churilla and Rende stated that the windows were completely closed, and that they did not see food or water inside of the vehicle. They said that the vehicle was black in color, and it was parked in the sun with the doors locked. Officer Churilla said that he agreed with Animal Care and Control Officers decision to remove the dogs from the vehicle. Officer Churilla showed me a small tool that looks like a pen that is used to break glass. He said that he gave it to one of the Animal Care and Control Officers to use to break the driver's side rear window. Officers Churilla and Rende informed me that the white dog inside of the vehicle was cooperative. They said that the tan/brown dog was barking, biting, and pawing at the window. Officer Churilla stated that he believes the tan/brown dog was protecting the area it was in. Officers Churilla and Rende told me that the tan/brown dog appeared to be aggressive, and they stepped back to allow Animal Care and Control Officers Lapp and Genco to remove the dog from the vehicle. Officers Churilla and Rende said that only one of the Animal Care and Control Officers was using the control pole, and that they don't know which one was using the control pole. Officers Churilla and Rende informed me that the tan/brown dog was not cooperative and that they witnessed the dog biting the control pole, flopping its body on the ground, and digging its nails into the ground. Officer Churilla said that Animal Care and Control Officers did drag the dog to the truck because it was not cooperative. Officer Churilla told me that after the dog was placed in the truck that he heard one of the Animal Care and Control Officers say that the dog was entangled in the equipment they were using. Officers Churilla and Rende stated that they don't believe that Animal Care and Control Officers Lapp or Genco abused either of the two dogs in their presence. Officers Churilla and Rende informed me that they are now familiar with the proper way to handle dogs on a control pole.

On April 8, 2021, I went back to Humane Animal Rescue of Pittsburgh to interview Camille Burke, Sarah Shively, and Nancy Parson Gump.

I interviewed Camille Burke using the lap top belonging to Meagan Montmeny on Zoom. Camille Burke is seen in the garage of Humane Animal Rescue of Pittsburgh on the first video that was provided to me. She is employed as a Veterinary Technician at Humane Animal Rescue of Pittsburgh. Camille Burke reported that she was working in the Cat Tech Room entering paperwork when she heard a commotion and high-pitched yelping and screaming coming from the garage. She told me that she ran into the garage to see what was happening and saw that Animal Care and Control Officers were bringing a dog in, screaming, on a pole. Camille Burke told me that she saw one of the officers (Officer Genco) handling the dog on a control pole. She described the handling of the dog, like he was "mopping the floor". Camille Burke reported that the dog left behind him a trail of blood, feces, and urine. She said that the Animal Care and Control Officers brought the dog into the Dog Tech Room, and she retrieved other staff members because the dog was bleeding heavily. Camille Burke told me that the officers kept insisting the dog was aggressive and that is why they used a control pole. She told me the dog was not aggressive towards her or Humane Animal Rescue of Pittsburgh staff members. Camille Burke told me that the dog was shaking, panting, and showing no signs of aggression. She informed me that the injured dog was clinging to her for comfort and that he seemed traumatized and defeated. She said that the dog was giving kisses and was very sweet.

I interviewed Sarah Shively. She is employed as the Director of Shelter Programs at Humane Animal Rescue of Pittsburgh. Sarah Shively reported that Brianna Kaufman informed her that Animal Care and Control Officers brought a dog in that she needed to see immediately. She said that when she arrived at the triage exam room that there were multiple veterinary technicians in the room looking at an injured, tan, pit bull mixed dog. Sarah Shively told me that she believed there were too many people in the room and asked some of them to leave because the dog was "incredibly stressed", panting heavily, its tongue was hanging out the side of its mouth, and blood was dripping. She stated that she noticed the dog's pupils were dilated and the eyes looked blood shot. Sarah Shively informed me that there was blood all over the floor and she observed blood covering the dog's legs and feet. She said that a few employees were sitting on the floor with the dog. Sarah Shively told me that she did not observe any aggressive behaviors from the injured dog. She reported that she is familiar with the use of a control pole and that it is not unusual for a dog to be fearful while on a control pole. Sarah Shively informed me that if a dog panics that it is best to stop moving.

I interviewed Nancy Parson Gump. She is employed as a Veterinary Technician at Humane Animal Rescue of Pittsburgh. Nancy Parson Gump reported that she observed the injured dog and remembers the dog panting heavily, his eyes were red, and his mouth was bleeding a lot. She stated that the dog was friendly, and it seemed that the dog was in a lot of pain.

David Madden, Supervisor of Animal Care and Control, sent me the "Animal Shelter Services" form, a photo of the dog the vehicle was removed from, statements from Pittsburgh Police Officers Churilla and Rende, and a statement e-mailed to him from Animal Care and Control Officer James Genco. I later received photos of a damaged cage that Animal Care and Control Officer Genco reported that the injured dog is responsible for.

On April 12, 2021, I spoke with Animal Care and Control Officer John Lapp on the telephone. He informed me that he did not use the control pole on the injured dog that was brought to Humane Animal Rescue of Pittsburgh on March 17, 2021. Animal Care and Control Officer Lapp stated that he and Officer Genco removed two dogs from a vehicle and that the white color dog was friendly. He told me that the tan/brown dog was vicious. Animal Care and Control Officer Lapp said that the dog "was going nuts in there" and that Officer Rende had his gun drawn and said he would shoot it if needed. He told me that the tan/brown dog bit the pole and inside of the cage. Animal Care and Control Officer Lapp stated that Animal Care and Control Officer James Genco handled the dog and eventually got him on to the control pole. He stated that he has been working with Animal Care and Control Officer Genco for many years and that he had no intention of hurting the dog. I told Animal Care and Control Officer Lapp that the dog suffered many injuries. His response to me was, "you know he didn't club the dog. He's not like that with animals". Animal Care and Control Officer Lapp told me that all they wanted to do is get the dog into the shelter without anyone getting hurt. Animal Care and Control Officer Lapp told me, "I am really worried about this" and asked me questions about what is going to happen to Animal Care and Control Officer Genco, and if he will be charged with anything criminally. Animal Care and Control Officer Lapp said that he was inside of the building when he saw the dog lay down (garage floor). He told me that Animal Care and Control Officer Genco dragged the dog because "you couldn't pick him up". Animal Care and Control Officer Lapp stated that the staff at Humane Animal Rescue of Pittsburgh needed to put a muzzle on the injured dog. I asked Animal Care and Control Officer Lapp if the injured dog caused any damage to the truck, it was transported in. His response was, "It's hard to tell. Our cages are all bent up from other dogs". Animal Care and Control Officer Lapp asked me to put a good word in for him and Animal Care and Control Officer Genco and told me that they are willing to take additional training classes.

On April 20, 2021, I interviewed Animal Care and Control Officer James Genco in the presence of Lt. Julie Stoops and Attorney Casey White. I read James Genco his Miranda Rights from the city of Pittsburgh Bureau of Police Miranda Rights Form. He agreed to speak with Lt. Stoops and I about the incident involving the dog that was injured in the care and custody of himself and Animal Care and Control Officer John Lapp on March 17, 2021. James Genco initialized and

signed the form. He told us that he has worked as an Animal Care and Control Officer in the city of Pittsburgh for the past 26 years. He said that most of what he learned was on the job training from other Animal Care and Control Officers. James Genco informed us that he attended the National Animal Control Academy in 2003 or 2004. He stated that he normally works with Animal Care and Control Officer John Lapp and that he normally handles the control pole because Animal Care and Control Officer Lapp is older and has some physical challenges. James Genco told us that he and Animal Care and Control Officer Lapp were working together on March 17, 2021. He said that they received a call through dispatch that dogs were inside of a vehicle at 21st Street and Waterfront Street. James Genco informed us that when they arrived, they saw a lot of people in the area walking their dogs and that someone reported to him and his partner that the dogs were left in the vehicle earlier that morning and the owner of the dogs may be a construction worker. He said that the windows on the vehicle were closed and that there was no food or water in the vehicle for the dogs. James Genco said that the dogs were panting. He informed us that the vehicle was parked in the sunlight and that there was no shade. James Genco said that he and Animal Care and Control Officer Lapp searched for the owner of the dogs on Smallman Street, 21st Street, and on Waterfront Street and were not successful. He told us that they went back and checked on the dogs. James Genco said that the dogs were panting and that he and Animal Care and Control Officer Lapp waited for about 10 or 15 minutes before calling the Animal Care and Control Office and using channel 1 to request police assistance. James Genco informed us that Officer Rende arrived first on Scene and Officer Churilla arrived about a minute later. He said that he and Animal Care and Control Officer Lapp explained to Officers Rende and Churilla that the dogs were inside of the vehicle all morning, the vehicle was in the sun, and that it started getting warmer. James Genco informed us that he told Officers Rende and Churilla that they may have to take the dogs and the officers agreed. He said that he and Officer Lapp did not have anything to break the window with and that Officer Churilla had a tool to break the window. James Genco stated that the white dog was sitting in the middle of the back seat and that it was panting heavily. He said that the brown dog was in the front seat and biting at them through the window. James Genco stated that the tan/brown dog was very upset and lunged at the window and was barking. He informed us that Animal Care and Control Officer John Lapp broke the middle rear window on the driver's side. James Genco told us that the temperature outside was 50 degrees at the time the dogs were removed from the vehicle. He said that he believed the dogs were in imminent danger because the way the vehicle was parked, and the dogs didn't look too good. James Genco said that he thought they were lethargic, they were panting, their tongues were hanging out, and they were slobbering. He told us that Animal Care and Control Officer Lapp broke the window and that someone opened the door. James Genco said the plan was to try to get the brown dog out, but he was not able to get the dog on the control pole. He told us that the tan/brown dog began biting the control pole and they made the decision to remove the white dog first. James Genco stated that he kept the tan/brown dog at bay so Animal Care and Control Officer Lapp could remove the white dog from the vehicle and close the door. He said that the white dog was friendly, and the tan/brown dog was going crazy. James Genco mentioned that a lot of people with their dogs were watching them remove the dogs from the vehicle. He said that after the white dog was placed in the truck that they went back to remove the tan/brown dog. James Genco stated that Animal Care and Control Officer Lapp held the door for him and that the tan/brown dog was biting the pole. He told us that he was able to get the dog onto the pole and that the dog was twisting himself and biting the pole. James Genco said that the dog's mouth started to bleed. He told us that he was trying to get the dog to the truck and that Officer Rende pulled out his gun and threatened to shoot the dog. James Genco said that the dog was resisting. He stated that once he got the dog into the truck that the dog began biting the cage. James Genco told us that he and Animal Care and Control Officer Lapp heard the dog slamming himself in the cage during the ride to Humane Animal Rescue of Pittsburgh. He said that they arrived on scene at 10:55 am and they left the scene at 11:45 am. James Genco stated that he has not removed a lot of dogs from cars. He informed us that the dog was resisting and digging into the concrete. James Genco said that he was trying to get the dog to the truck as fast as he could because he was concerned for the safety of everyone nearby. He stated that he was taught if a dog is resisting to get it to where it needs to go as fast as you can. James Genco told us that there was a lot of blood in the vehicle on the front seat and window, in the cage the dog was put in, and on the control pole. He said that the dog's mouth was bleeding, he saw a lot of blood, and noticed that one of the dog's paws was bleeding. James Genco said that he uses a control pole as a last resort, not to get hurt or bit. He told us that he is aware of the cameras and where they are located at Humane Animal Rescue of Pittsburgh. James Genco stated that Animal Care and Control Officers don't pull inside of the garage to unload animals from the trucks because deliveries are sometimes left inside of the garage and that the garage door at Humane Animal Rescue of Pittsburgh is sometimes broken. He produced a copy of an e-mail that he sent to his supervisor, David Madden, and two photographs of the garage that were taken at Humane Animal Rescue of Pittsburgh on September 6,

2019, and September 12, 2019. James Genco told us that David Madden reached out to someone at Humane Animal Rescue of Pittsburgh and after that the conditions of the garage improved.

James Genco told us about the removal of the two dogs from the truck on March 17, 2021. He said that Animal Care and Control Officer Lapp removed the white dog from the truck using a rope with no problem. He said that he believes that he went inside of the garage with Animal Care and Control Officer Lapp, when Officer Lapp put the dog into a cage. James Genco stated that he spoke with a female and told her that they had a mean dog and a real bad dog in the truck that they need to bring inside. He told us that the female said that they don't have anyone available to help. James Genco described the female employee he spoke with as white, thin, blonde hair, glasses, in her 30's. He stated that the female may have come outside with them, but he is not sure. James Genco informed us that Animal Care and Control Officer Lapp was holding the cage when he was working to get the tan/brown dog onto the control pole. He said that he tried a few times, and the dog was biting the pole. James Genco stated that he was finally able to get the dog on the pole and that he pulled the dog off the truck. He said that when he was removing the dog from the truck that he went off balance and that the dog may have hit into the garage door. James Genco demonstrated how he uses a control pole. I asked him how many times he pulled the string on the end of the control pole while removing the dog from the truck. He told us once or twice. James Genco informed us that the tan/brown dog resisted the whole time and that he was pulling one way and the dog was pulling the other way. He said that the dog was digging his claws into the ground and continued to resist. James Genco said that the dog was walking when he brought him into the garage and decided he didn't want to cooperate. He told us that the dog did lay down and that he did drag him on the garage floor for about 5 feet. James Genco stated that he wanted to get the dog into the room as fast as possible. I asked him if the dog went unconscious. He said that it did not. James Genco stated that he didn't stop and kept going. He told us that it was like he and the dog were playing tug a war. I asked James Genco if he was aware that while the dog was being dragged that blood, urine, and feces were left on the garage floor. He said that he was aware that there was blood on the floor. James Genco stated that he brought the dog into the tech room and the dog got on his feet. He told us that a bunch of women came rushing in. James Genco said that he had the dog against the wall and the dog was going crazy and blood was flying everywhere. He told us that someone said, "get the door" and that one or two females pushed the dog into the door. James Genco said that the dog was sedated. I was informed by Dr. Kalinauskas that the dog was not sedated. He told us that he believes the dog was sedated because he saw one of the females give the dog an injection. James Genco said that he held the control pole until the workers could put a muzzle on the dog. He told us that once a muzzle was put on the dog the dog that he took the control pole off and they left. James Genco said that David Madden called him and Animal Care and Control Officer Lapp about an hour later and told them to go back to Humane Animal Rescue of Pittsburgh and transport the injured dog to PVSEC. He informed us that he was later told not to go back to Humane Animal Rescue of Pittsburgh because the dog was transported to PVSEC by staff at Humane Animal Rescue of Pittsburgh. James Genco stated that he got back to the Animal Care and Control office at about 2:00 pm and was informed that the owner of the dog called the clerk asking where his dogs are.

James Genco stated that his job is to get animals "from point A to point B". He said that he was never formally trained on how to use a control pole and that mostly everything he learned was from experience. James Genco said that he would accept training to do his job better. He stated that the brown dog was the meanest dog he has ever had to deal with. James Genco said that he "was afraid". He told us that he did not purposely set out to hurt the dog. James Genco said that he has had three surgeries on his left shoulder in the past and may have to have another surgery. He described having a torn bicep, labrum, and rotator cuff. James Genco stated that he has three metal anchors that were drilled into his arm bone and that he arm isn't as strong as it used to be. He said that the injuries are from his job from lifting dogs up into the truck by the control pole. James Genco told us that another Animal Care and Control Officer recently broke a dog's leg while removing it from the truck and that nothing happened to that Officer. He stated that there is no city policy on how to use a control pole and no kind of formal training in his department. James Genco allowed me to make copies of the documents that he produced. He asked us to try to obtain video surveillance from where the dog was removed from the truck and to inquire if there are additional videos at Humane Animal Rescue of Pittsburgh that show the injured dog inside of the tech room or being removed from Humane Animal Rescue of Pittsburgh to PVSEC.

After interviewing James Genco, I watched the video of the two dogs being brought into the garage by James Genco and Animal Care and Control Officer Lapp on March 17, 2021. James Genco informed me during the interview that he believes that he went into Humane Animal Rescue of Pittsburgh with Animal Care and Control Officer Lapp when Officer Lapp was bringing in the friendly, white dog into the shelter. He said that he asked a female staff member that he described as white, female, blonde, thin, glasses, and in her 30's for help with the aggressive dog and that this female informed him that no one was available to help with the dog. The video shows that James Genco remained outside and did not enter the garage until he brought the injured (tan/brown) dog inside. I interviewed every staff member at Humane Animal Rescue of Pittsburgh that had any involvement with the injured dog being brought into the shelter on March 17, 2021, and no one mentioned that James Genco asked them for help.

I spoke with Officer Angela Fry from Humane Animal Rescue of Pittsburgh. I informed Officer Fry that James Genco believes that the injured dog was sedated because he viewed a staff member giving the dog an injection. Officer Fry pulled up the veterinary records and confirmed that the injured dog was not sedated. She told me that the dog was vaccinated against rabies, adenovirus, Bordetella, and parainfluenza. Officer Fry informed me that she would discuss the claims that James Genco made with Meagan Montmeny and that Meagan Montmeny will provide me with a response to the questions I have asked.

On April 21, 2021, I received a response from Meagan Montmeny. Meagan Montmeny informed me that the garage door at Humane Animal Rescue of Pittsburgh was broken on Friday, September 11, 2020, and repaired on Monday, September 14, 2020. She informed me that during that time, Animal Care and Control Officers brought six animals into the shelter that consisted of five cats and one dog. Meagan Montmeny stated that a white, female, blonde, thin, glasses, and in her 30's does not match the description of a staff member at Humane Animal Rescue of Pittsburgh. She said that the closest match in description, wasn't working on March 17, 2021.

Meagan Montmeny reported that she pulled the camera footage to see if she could observe the injured dog being loaded into their vehicle to be transported to PVSEC. She informed me that the camera angle is bad, but you can see their vehicle backing up to the door and the staff loading a crate inside, but that is all. Meagan Montmeny dropped off a thumb drive of this footage at Zone 3 for me to review.

Meagan Montmeny informed me that she and Officer Fry measured the garage, and it is 25 to 30 feet from the entrance into the garage into the animal control kennels. James Genco claimed that he dragged the dog 5 feet. His statement is not accurate.

On April 26, 2021, Lt. Julie Stoops informed me that there are no cameras at 21st Street and Waterfront Street to show the dog being removed from the vehicle.

I looked at the temperatures in Pittsburgh on [www.wunderground.com/history/weekly/us/pa/pittsburgh](http://www.wunderground.com/history/weekly/us/pa/pittsburgh) for March 17, 2021. The high temperature was 65 degrees. The low temperature was 33 degrees. The chart showed that the temperature at 11:51 am was 54 degrees.

This case was reviewed by Assistant District Attorney Lisa Borrelli, and the above listed charges were approved.

Subject: PLEASE REVIEW

Good morning,

This is the narrative that I wrote for the criminal complaint involving James Genco. Please review and let me know if any changes need to be made. Thanks!

---

This complaint is prepared by your affiant, Officer Christine Luffey. I have worked as a Pittsburgh Police Officer for the past 28 years. I specialize in animal neglect and abuse cases.

On March 25, 2021, City of Pittsburgh Public Safety Director Wendell Hissrich requested that I review a video that was sent to city officials by Meagan Montmeny from Humane Animal Rescue of Pittsburgh to determine if the video is criminal in nature. The video was recorded on March 17, 2021. The video begins - CAM 09 12:03:23.216 PM (GMT 4:00) 3/17/2021. The video ends - CAM 09 12:13:56.955 PM (GMT 4.00) 3/17/2021

In the video at 12:04 04, the door next to the garage door at Humane Animal Rescue of Pittsburgh, East End location opens. Animal Care and Control Officer John Lapp walks in with a white pit bull dog on a long lead. The dog was wagging its tail. Animal Care and Control Officer James Genco is viewed propping open the door and standing there. Animal Care and Control Officer James Genco then is out of view, outside of the building.

12:05 31, Animal Care and Control Officer John Lapp is viewed walking out of the open door without the white dog.

12:07 53, Animal Care and Control Officer John Lapp walks back inside of the garage and goes out of view.

12:08 04, Animal Care and Control Officer James Genco is viewed walking in a tan colored pit bull dog on a catch pole.

12:08 09, the tan colored pit bull dog is viewed lying flat on the floor. Animal Care and Control Officer James Genco is viewed dragging the dog across the floor and goes out of view at 12:08 13.

12:08 14, blood, urine, and feces are viewed on the floor where the dog was dragged

12:08 15, a white female is seen walking into the garage area and walking in the direction of Animal Care and Control Officers John Lapp and James Genco. The female goes out of view at 12:08 18

12:08 22, the same white female with a long dyed-red ponytail is viewed hurrying back into the area she came out of.

12:13 25, Animal Care and Control Officers John Lapp and James Genco are viewed walking out of the door. The door remains open.

12:13 51, One of the Animal Care and Control Officers is viewed closing the door.

I was given permission to share the video with Assistant District Attorney Lisa Borrelli for her review. Director Wendell Hissrich asked me to investigate this incident.

I spoke to Meagan Montmeny, Chief Operations Officer at Humane Animal Rescue of Pittsburgh. Meagan Montmeny reported that she sent the video to city of Pittsburgh employees, David Madden and Lee Schmidt, because she was appalled by Animal Care and Control Officer James Genco's treatment of the dog and the injuries the dog sustained. She told me, "I was in tears watching that video footage". Meagan Montmeny stated that the dog suffered the following injuries: mouth was severely bleeding, missing teeth, ruptured blood vessels in both of its eyes (signs of strangulation), and nystagmus. She informed me that the dog was transported to PVSEC for emergency

treatment. Meagan Montmeny reported that the dog was "very sweet" and "friendly". She said, "at no point was I concerned for my safety". I informed Meagan Montmeny that I was asked to investigate this incident and that I need her to provide me a list of all the employees who witnessed the incident or interacted with the injured dog. Meagan Montmeny agreed to provide me with a list of employees who have information involving the incident, provide written statements from the employees, and to provide veterinary records from Humane Animal Rescue of Pittsburgh and PVSEC involving the injuries to the dog. Meagan Montmeny informed me that she believes there is a video of the dog being removed from the truck and that she would provide that as well.

I learned that a police report was written by Officer Francis Rende, CCR# 21-44920, involving two dogs being removed from an unattended vehicle on 21st Street and Waterfront Street on March 17, 2021, at 11:33 am. Officer Francis Rende and Eric Churilla were on scene to assist Animal Care and Control Officers. These are the two dogs that were transported to Humane Animal Rescue of Pittsburgh by Animal Care and Control Officers James Genco and John Lapp.

On April 2, 2021, I went to Humane Animal Rescue of Pittsburgh and interviewed the following staff members: Meagan Montmeny, Brianna Kaufman, Shadaka Jefferson, Sarah Kutsch, Dr. Amy Kalinauskas, and Amanda Geletko.

Meagan Montmeny provided me with her written statement and a thumb drive with additional camera footage showing the injured dog being removed from the truck. We viewed the video together in her office. Meagan Montmeny told me that she watched the video frame by frame. She said that Animal Care and Control Officer Genco struggled to remove the dog from the truck for about five minutes. Meagan Montmeny told me that she viewed Animal Care and Control Officer Genco pull the noose tight three times before getting the dog on to the control stick. She stated that the dog came flying off the truck, hit the ground, appeared to bounce off the garage barrier, and then bit the control stick. Meagan Montmeny said that drops of blood were observed outside of the building. Animal Care and Control Officer John Lapp did not handle the injured dog. He stood nearby as Animal Care and Control Officer James Genco removed the dog from the truck. Meagan Montmeny stated that the injuries this dog sustained at the hands of these officers is unacceptable, is gross misconduct and cruel. She informed me that when a control stick is used on a dog and the dog is uncooperative that it is best to stop and give the dog a break. Meagan Montmeny explained that by continuing to provoke the dog with multiple attempts fuels aggression. She told me that the dog came off of the truck with a lot of force and that the dog made contact with the building. Meagan Montmeny reported that it is important to stay in front of the dog while on a control stick and that the handler has a responsibility to constantly monitor the dog. She stated that when Animal Care and Control Officer Genco brought the dog inside of the garage and it either laid down on the floor or lost consciousness, that he should have stopped moving and re-evaluated. Meagan Montmeny told me that Animal Care and Control Officer Genco could have asked the staff at Humane Animal Rescue of Pittsburgh for help at any time. She reported that the owner of the dogs arrived at the shelter on March 17, 2021, at 2:15 pm, and that she and Officer Angie Fry spoke with him. She said that she learned that the injured dog's name is "Cash" and that the dog's owner told her that there was a lot of blood in his vehicle. Meagan Montmeny reported that once the dog was transported to PVSEC, that she had to have a critical incident stress debriefing session with the staff who witnessed the incident and/or the dog's injuries because they were extremely upset.

I interviewed Brianna Kaufman. She is employed as the Shelter Medical Manager at Humane Animal Rescue of Pittsburgh. Brianna Kaufman stated that she was working in her office when a few staff members alerted her about an incident involving Animal Care and Control Officers. She told me that she entered the triage room and viewed the dog bleeding badly. Brianna Kaufman informed me that the dog was bleeding from its paw, cheek, had some broken teeth, and potentially an injured back right leg. She told me that she observed blood on the garage doors, in front of the garage on the pavement, blood in the garage, and blood on the door leading into the garage. Brianna Kaufman reported that she took 14 photos of the dog and blood. She described the injured dog as friendly.

I interviewed Shadaka Jefferson. She is employed as a Foster Technician at Humane Animal Rescue of Pittsburgh. Shadaka Jefferson reported that she was outside taking a break when she heard two Animal Care and Control Officers talking among themselves and a dog barking inside of the truck. She told me that the dog was on a control stick and the officer handling the stick pulled it hard. Shadaka Jefferson said that the dog fell on to its butt on to the ground and went on to its side. She told me that she believes the dog hit into a stationary metal pole outside of the building. Shadaka Jefferson stated that she was very upset and alarmed at what she witnessed and went inside the building to report the incident to staff. She said that when she went into the triage room that the Officers had already left. Shadaka Jefferson informed me that she observed blood on the dog's face, mouth, and nose, and that the back right paw was bloody. She stated that she believed that the dog's tail was broken because the base of the tail was bent. Shadaka Jefferson said that she believes that the Officer handling the dog did not have the dog on the control pole correctly. She said that the control pole appeared to be under the dog's neck, which can cause choking.

I interviewed Sarah Kutsch. She is employed as a Veterinary Technician at Humane Animal Rescue of Pittsburgh. Sarah Kutsch reported that Officer Lapp brought the white dog in and told her that the other dog was giving them some trouble when they removed the dog from the vehicle. She told me that she got a good look at the injured dog when he was in the triage room and he looked lethargic, was short of breath, bleeding a large amount from his mouth and nose, and had a laceration on his paw. Sarah Kutsch stated that she and other staff members immediately retrieved a veterinarian and switched out the control pole on the dog with a leash. She told me that the injured dog showed no signs of aggression, and that the Veterinarian was able to exam him without a problem. Sarah Kutsch said that she cleaned up the blood from the dog that was outside, through the garage, and in the triage room. She told me that there was blood outside on the garage door and all over the pavement where the dog was removed from the truck. Sarah Kutsch informed me that the Officers did not handle the injured dog correctly, but instead put the dog in great distress and pain.

I interviewed Dr. Amy Kalinauskas. She is employed as a Veterinarian at Humane Animal Rescue of Pittsburgh. Dr. Kalinauskas reported that she was performing surgery on another animal when Veterinary Technician, Camille Burke, informed her that a dog was injured by Animal Care and Control Officers and was bleeding from its mouth. She said that when she entered the triage room that the injured dog was on a control pole being held by one of the Officers. Dr. Kalinauskas said that the dog was bleeding heavily out of its mouth, as well as a laceration on his right forepaw. She said that due to the aggressive behavior that was reported to her that she placed a basket muzzle over the dog's face for safety to do a quick exam. Dr. Kalinauskas stated that the muzzle was removed quickly after she assessed that the dog was not a threat. She told me that the dog was not sedated. Dr. Kalinauskas reported that the injured dog had bitten his cheeks, as well as fractured multiple teeth. She told me that the two incisor teeth were broken, and the pulp was exposed. Dr. Kalinauskas said that the white of the dog's eyes started to bruise, and she noticed a fresh laceration on the right front paw. She told me that the dog had a fractured tail and he reacted when she touched it. Dr. Kalinauskas said that the dog was lame on a rear limb and cried out on palpation. She informed me that after having the dog in their care for about fifteen minutes that she made the decision to send the dog to PVSEC for emergency care due to multiple injuries. Dr. Kalinauskas told me that when the dog laid down inside of the vehicle that she visualized horizontal nystagmus and the dog's nose started to bleed. She said that this solidified her decision to send the dog for emergency care due to possible brain trauma. Dr. Kalinauskas informed me that the dog was in a lot of pain, mentally and physically, and she cried during the interview. She said that she found out later that the Veterinarian at PVSEC found that the tail was previously broken. Dr. Kalinauskas explained to me that the nystagmyus she viewed fits with being strangled on a control pole. She stated that it is very hard to fracture a tooth and that the material must be harder than the tooth to cause a fracture. Dr. Kalinauskas told me that she feels bad for the dog and described the dog as friendly.

I interviewed Amanda Geletko. She is employed as an Off-site Coordinator at Humane Animal Rescue of Pittsburgh. Amanda Geletko informed me that she was asked to transport the injured dog to PVSEC for emergency treatment. She informed me that she observed the injuries that the dog sustained and noticed that one of his eyes was moving rapidly. Amanda Geletko told me that the trip to PVSEC took 25 to 30 minutes and that she heard the dog whine

occasionally and coughed several times. She said that she could see in the dog's eyes how much pain and scared he was. Amanda Geletko reported that the dog was friendly to everyone.

Dan Rossi, Executive Director of Humane Animal Rescue of Pittsburgh, spoke with me after I conducted the interviews. He said that situations involving Animal Care and Control Officers being rough with dogs and cats have been going on for a long time, but not to this extent. Dan Rossi told me that he believes the Officers need more training and that he is willing to help. He said that he observed the injured dog standing, shaking, and bleeding. Dan Rossi informed me that the dog did not show any signs of aggression. He stated that there was blood all over the floor from the dog bleeding from his mouth. Dan Rossi told me that in the twelve years that he has been working at Humane Animal Rescue of Pittsburgh that he never saw a dog in this condition from just being brought into the shelter.

On April 6, 2021, I called PVSEC and spoke with Dr. Emily Gardner. Dr. Gardner is the Veterinarian who treated the injured dog named "Cash" on March 17, 2021, brought to PVSEC by Amanda Geletko from Humane Animal Rescue of Pittsburgh. Dr. Gardner informed me that she remembers the injured dog and told me that the most obvious injuries that she remembers is that the dog had multiple, fractured teeth (2 K9 teeth and 3 or 4 incisors), limping on his right forelimb and hindlimb, a swollen eye, and subconjunctival hemorrhage (typical strangulation injuries), and old tail fracture, soft tissue injuries in his legs, and many scrapes and abrasions were observed. Dr. Gardner stated that the dog was in a lot of pain and that based on his injuries that she believes "excess force was used for sure" by Animal Care and Control Officers. She told me that the dog's blood work indicated that he suffered from stress and muscle damage. Dr. Gardner reported that she recommended that the dog be seen by a Veterinary Dentist and provided the contact information to the dog's owner for the dentist that PVSEC used for care. The veterinary bill from PVSEC - North Hills was \$1,230.33.

On April 7, 2021, I interviewed Officer Eric Churilla and Officer Frank Rende. Officers Churilla and Rende reported that someone called 911 to report two dogs left inside a vehicle on March 17, 2021, and that they assisted Animal Care and Control Officers. Officers Churilla and Rende told me that Animal Care and Control Officers Genco and Lapp told them that they searched for the owner of the dogs and were unsuccessful. Officers Churilla and Rende stated that Animal Care and Control Officers told them that they needed to remove the dogs from the vehicle. Officer Churilla said that March 17, 2021, was a warm day and the temperature was rising. According to Accuweather, the temperature in Pittsburgh on March 17, 2021, was a high of 67 degrees and a low of 36 degrees. Officers Churilla and Rende informed me that they saw both dogs inside of the vehicle and the dogs appeared to be in distress. They told me that the dogs were panting and breathing heavily. Officers Churilla and Rende stated that the windows were completely closed, and that they did not see food or water inside of the vehicle. They said that the vehicle was black in color, and it was parked in the sun with the doors locked. Officer Churilla said that he agreed with Animal Care and Control Officers decision to remove the dogs from the vehicle. Officer Churilla showed me a small tool that looks like a pen that is used to break glass. He said that he gave it to one of the Animal Care and Control Officers to use to break the driver's side rear window. Officers Churilla and Rende informed me that the white dog inside of the vehicle was cooperative. They said that the tan/brown dog was barking, biting, and pawing at the window. Officer Churilla stated that he believes the tan/brown dog was protecting the area it was in. Officers Churilla and Rende told me that the tan/brown dog appeared to be aggressive, and they stepped back to allow Animal Care and Control Officers Lapp and Genco to remove the dog from the vehicle. Officers Churilla and Rende said that only one of the Animal Care and Control Officers was using the control pole, and that they don't know which one was using the control pole. Officers Churilla and Rende informed me that the tan/brown dog was not cooperative and that they witnessed the dog biting the control pole, flopping its body on the ground, and digging its nails into the ground. Officer Churilla said that Animal Care and Control Officers did drag the dog to the truck because it was not cooperative. Officer Churilla told me that after the dog was placed in the truck that he heard one of the Animal Care and Control Officers say that the dog was entangled in the equipment they were using. Officers Churilla and Rende stated that they don't believe that Animal Care and Control Officers Lapp or Genco abused either of the two dogs in their presence. Officers Churilla and Rende informed me that they are now familiar with the proper way to handle dogs on a control pole.

On April 8, 2021, I went back to Humane Animal Rescue of Pittsburgh to interview Camille Burke, Sarah Shively, and Nancy Parson Gump.

I interviewed Camille Burke using the lap top belonging to Meagan Montmeny on Zoom. Camille Burke is seen in the garage of Humane Animal Rescue of Pittsburgh on the first video that was provided to me. She is employed as a Veterinary Technician at Humane Animal Rescue of Pittsburgh. Camille Burke reported that she was working in the Cat Tech Room entering paperwork when she heard a commotion and high-pitched yelping and screaming coming from the garage. She told me that she ran into the garage to see what was happening and saw that Animal Care and Control Officers were bringing a dog in, screaming, on a pole. Camille Burke told me that she saw one of the officers (Officer Genco) handling the dog on a control pole. She described the handling of the dog, like he was "mopping the floor". Camille Burke reported that the dog left behind him a trail of blood, feces, and urine. She said that the Animal Care and Control Officers brought the dog into the Dog Tech Room, and she retrieved other staff members because the dog was bleeding heavily. Camille Burke told me that the officers kept insisting the dog was aggressive and that is why they used a control pole. She told me the dog was not aggressive towards her or Humane Animal Rescue of Pittsburgh staff members. Camille Burke told me that the dog was shaking, panting, and showing no signs of aggression. She informed me that the injured dog was clinging to her for comfort and that he seemed traumatized and defeated. She said that the dog was giving kisses and was very sweet.

I interviewed Sarah Shively. She is employed as the Director of Shelter Programs at Humane Animal Rescue of Pittsburgh. Sarah Shively reported that Brianna Kaufman informed her that Animal Care and Control Officers brought a dog in that she needed to see immediately. She said that when she arrived at the triage exam room that there were multiple veterinary technicians in the room looking at an injured, tan, pit bull mixed dog. Sarah Shively told me that she believed there were too many people in the room and asked some of them to leave because the dog was "incredibly stressed", panting heavily, its tongue was hanging out the side of its mouth, and blood was dripping. She stated that she noticed the dog's pupils were dilated and the eyes looked blood shot. Sarah Shively informed me that there was blood all over the floor and she observed blood covering the dog's legs and feet. She said that a few employees were sitting on the floor with the dog. Sarah Shively told me that she did not observe any aggressive behaviors from the injured dog. She reported that she is familiar with the use of a control pole and that it is not unusual for a dog to be fearful while on a control pole. Sarah Shively informed me that if a dog panics that it is best to stop moving.

I interviewed Nancy Parson Gump. She is employed as a Veterinary Technician at Humane Animal Rescue of Pittsburgh. Nancy Parson Gump reported that she observed the injured dog and remembers the dog panting heavily, his eyes were red, and his mouth was bleeding a lot. She stated that the dog was friendly, and it seemed that the dog was in a lot of pain.

David Madden, Supervisor of Animal Care and Control, sent me the "Animal Shelter Services" form, a photo of the dog the vehicle was removed from, statements from Pittsburgh Police Officers Churilla and Rende, and a statement e-mailed to him from Animal Care and Control Officer James Genco. I later received photos of a damaged cage that Animal Care and Control Officer Genco reported that the injured dog is responsible for.

On April 12, 2021, I spoke with Animal Care and Control Officer John Lapp on the telephone. He informed me that he did not use the control pole on the injured dog that was brought to Humane Animal Rescue of Pittsburgh on March 17, 2021. Animal Care and Control Officer Lapp stated that he and Officer Genco removed two dogs from a vehicle and that the white color dog was friendly. He told me that the tan/brown dog was vicious. Animal Care and Control Officer Lapp

said that the dog "was going nuts in there" and that Officer Rende had his gun drawn and said he would shoot it if needed. He told me that the tan/brown dog bit the pole and inside of the cage. Animal Care and Control Officer Lapp stated that Animal Care and Control Officer James Genco handled the dog and eventually got him on to the control pole. He stated that he has been working with Animal Care and Control Officer Genco for many years and that he had no intention of hurting the dog. I told Animal Care and Control Officer Lapp that the dog suffered many injuries. His response to me was, "you know he didn't club the dog. He's not like that with animals". Animal Care and Control Officer Lapp told me that all they wanted to do is get the dog into the shelter without anyone getting hurt. Animal Care and Control Officer Lapp told me, "I am really worried about this" and asked me questions about what is going to happen to Animal Care and Control Officer Genco, and if he will be charged with anything criminally. Animal Care and Control Officer Lapp said that he was inside of the building when he saw the dog lay down (garage floor). He told me that Animal Care and Control Officer Genco dragged the dog because "you couldn't pick him up". Animal Care and Control Officer Lapp stated that the staff at Humane Animal Rescue of Pittsburgh needed to put a muzzle on the injured dog. I asked Animal Care and Control Officer Lapp if the injured dog caused any damage to the truck, it was transported in. His response was, "It's hard to tell. Our cages are all bent up from other dogs". Animal Care and Control Officer Lapp asked me to put a good word in for him and Animal Care and Control Officer Genco and told me that they are willing to take additional training classes.

On April 20, 2021, I interviewed Animal Care and Control Officer James Genco in the presence of Lt. Julie Stoops and Attorney Casey White. I read James Genco his Miranda Rights from the city of Pittsburgh Bureau of Police Miranda Rights Form. He agreed to speak with Lt. Stoops and I about the incident involving the dog that was injured in the care and custody of himself and Animal Care and Control Officer John Lapp on March 17, 2021. James Genco initialized and signed the form. He told us that he has worked as an Animal Care and Control Officer in the city of Pittsburgh for the past 26 years. He said that most of what he learned was on the job training from other Animal Care and Control Officers. James Genco informed us that he attended the National Animal Control Academy in 2003 or 2004. He stated that he normally works with Animal Care and Control Officer John Lapp and that he normally handles the control pole because Animal Care and Control Officer Lapp is older and has some physical challenges. James Genco told us that he and Animal Care and Control Officer Lapp were working together on March 17, 2021. He said that they received a call through dispatch that dogs were inside of a vehicle at 21st Street and Waterfront Street. James Genco informed us that when they arrived, they saw a lot of people in the area walking their dogs and that someone reported to him and his partner that the dogs were left in the vehicle earlier that morning and the owner of the dogs may be a construction worker. He said that the windows on the vehicle were closed and that there was no food or water in the vehicle for the dogs. James Genco said that the dogs were panting. He informed us that the vehicle was parked in the sunlight and that there was no shade. James Genco said that he and Animal Care and Control Officer Lapp searched for the owner of the dogs on Smallman Street, 21st Street, and on Waterfront Street and were not successful. He told us that they went back and checked on the dogs. James Genco said that the dogs were panting and that he and Animal Care and Control Officer Lapp waited for about 10 or 15 minutes before calling the Animal Care and Control Office and using channel 1 to request police assistance. James Genco informed us that Officer Rende arrived first on Scene and Officer Churilla arrived about a minute later. He said that he and Animal Care and Control Officer Lapp explained to Officers Rende and Churilla that the dogs were inside of the vehicle all morning, the vehicle was in the sun, and that it started getting warmer. James Genco informed us that he told Officers Rende and Churilla that they may have to take the dogs and the officers agreed. He said that he and Officer Lapp did not have anything to break the window with and that Officer Churilla had a tool to break the window. James Genco stated that the white dog was sitting in the middle of the back seat and that it was panting heavily. He said that the brown dog was in the front seat and biting at them through the window. James Genco stated that the tan/brown dog was very upset and lunged at the window and was barking. He informed us that Animal Care and Control Officer John Lapp broke the middle rear window on the driver's side. James Genco told us that the temperature outside was 50 degrees at the time the dogs were removed from the vehicle. He said that he believed the dogs were in imminent danger because the way the vehicle was parked, and the dogs didn't look too good. James Genco said that he thought they were lethargic, they were panting, their tongues were hanging out, and they were slobbering. He told us that Animal Care and Control Officer Lapp broke the window and that someone opened the door. James Genco said the plan was to try to get the brown dog out, but he was not able to get the dog on the control pole. He told us that the tan/brown dog began biting the control pole and they made the decision to remove the white

dog first. James Genco stated that he kept the tan/brown dog at bay so Animal Care and Control Officer Lapp could remove the white dog from the vehicle and close the door. He said that the white dog was friendly, and the tan/brown dog was going crazy. James Genco mentioned that a lot of people with their dogs were watching them remove the dogs from the vehicle. He said that after the white dog was placed in the truck that they went back to remove the tan/brown dog. James Genco stated that Animal Care and Control Officer Lapp held the door for him and that the tan/brown dog was biting the pole. He told us that he was able to get the dog onto the pole and that the dog was twisting himself and biting the pole. James Genco said that the dog's mouth started to bleed. He told us that he was trying to get the dog to the truck and that Officer Rende pulled out his gun and threatened to shoot the dog. James Genco said that the dog was resisting. He stated that once he got the dog into the truck that the dog began biting the cage. James Genco told us that he and Animal Care and Control Officer Lapp heard the dog slamming himself in the cage during the ride to Humane Animal Rescue of Pittsburgh. He said that they arrived on scene at 10:55 am and they left the scene at 11:45 am. James Genco stated that he has not removed a lot of dogs from cars. He informed us that the dog was resisting and digging into the concrete. James Genco said that he was trying to get the dog to the truck as fast as he could because he was concerned for the safety of everyone nearby. He stated that he was taught if a dog is resisting to get it to where it needs to go as fast as you can. James Genco told us that there was a lot of blood in the vehicle on the front seat and window, in the cage the dog was put in, and on the control pole. He said that the dog's mouth was bleeding, he saw a lot of blood, and noticed that one of the dog's paws was bleeding. James Genco said that he uses a control pole as a last resort, not to get hurt or bit. He told us that he is aware of the cameras and where they are located at Humane Animal Rescue of Pittsburgh. James Genco stated that Animal Care and Control Officers don't pull inside of the garage to unload animals from the trucks because deliveries are sometimes left inside of the garage and that the garage door at Humane Animal Rescue of Pittsburgh is sometimes broken. He produced a copy of an e-mail that he sent to his supervisor, David Madden, and two photographs of the garage that were taken at Humane Animal Rescue of Pittsburgh on September 6, 2019, and September 12, 2019. James Genco told us that David Madden reached out to someone at Humane Animal Rescue of Pittsburgh and after that the conditions of the garage improved.

James Genco told us about the removal of the two dogs from the truck on March 17, 2021. He said that Animal Care and Control Officer Lapp removed the white dog from the truck using a rope with no problem. He said that he believes that he went inside of the garage with Animal Care and Control Officer Lapp, when Officer Lapp put the dog into a cage. James Genco stated that he spoke with a female and told her that they had a mean dog and a real bad dog in the truck that they need to bring inside. He told us that the female said that they don't have anyone available to help. James Genco described the female employee he spoke with as white, thin, blonde hair, glasses, in her 30's. He stated that the female may have come outside with them, but he is not sure. James Genco informed us that Animal Care and Control Officer Lapp was holding the cage when he was working to get the tan/brown dog onto the control pole. He said that he tried a few times, and the dog was biting the pole. James Genco stated that he was finally able to get the dog on the pole and that he pulled the dog off the truck. He said that when he was removing the dog from the truck that he went off balance and that the dog may have hit into the garage door. James Genco demonstrated how he uses a control pole. I asked him how many times he pulled the string on the end of the control pole while removing the dog from the truck. He told us once or twice. James Genco informed us that the tan/brown dog resisted the whole time and that he was pulling one way and the dog was pulling the other way. He said that the dog was digging his claws into the ground and continued to resist. James Genco said that the dog was walking when he brought him into the garage and decided he didn't want to cooperate. He told us that the dog did lay down and that he did drag him on the garage floor for about 5 feet. James Genco stated that he wanted to get the dog into the room as fast as possible. I asked him if the dog went unconscious. He said that it did not. James Genco stated that he didn't stop and kept going. He told us that it was like he and the dog were playing tug a war. I asked James Genco if he was aware that while the dog was being dragged that blood, urine, and feces were left on the garage floor. He said that he was aware that there was blood on the floor. James Genco stated that he brought the dog into the tech room and the dog got on his feet. He told us that a bunch of women came rushing in. James Genco said that he had the dog against the wall and the dog was going crazy and blood was flying everywhere. He told us that someone said, "get the door" and that one or two females pushed the dog into the door. James Genco said that the dog was sedated. I was informed by Dr. Kalinauskas that the dog was not sedated. He told us that he believes the dog was sedated because he saw one of the females give the dog an injection. James Genco said that he held the control pole until the workers could put a muzzle

on the dog. He told us that once a muzzle was put on the dog the dog that he took the control pole off and they left. James Genco said that David Madden called him and Animal Care and Control Officer Lapp about an hour later and told them to go back to Humane Animal Rescue of Pittsburgh and transport the injured dog to PVSEC. He informed us that he was later told not to go back to Humane Animal Rescue of Pittsburgh because the dog was transported to PVSEC by staff at Humane Animal Rescue of Pittsburgh. James Genco stated that he got back to the Animal Care and Control office at about 2:00 pm and was informed that the owner of the dog called the clerk asking where his dogs are.

James Genco stated that his job is to get animals "from point A to point B". He said that he was never formally trained on how to use a control pole and that mostly everything he learned was from experience. James Genco said that he would accept training to do his job better. He stated that the brown dog was the meanest dog he has ever had to deal with. James Genco said that he "was afraid". He told us that he did not purposely set out to hurt the dog. James Genco said that he has had three surgeries on his left shoulder in the past and may have to have another surgery. He described having a torn bicep, labrum, and rotator cuff. James Genco stated that he has three metal anchors that were drilled into his arm bone and that he arm isn't as strong as it used to be. He said that the injuries are from his job from lifting dogs up into the truck by the control pole. James Genco told us that another Animal Care and Control Officer recently broke a dog's leg while removing it from the truck and that nothing happened to that Officer. He stated that there is no city policy on how to use a control pole and no kind of formal training in his department. James Genco allowed me to make copies of the documents that he produced. He asked us to try to obtain video surveillance from where the dog was removed from the truck and to inquire if there are additional videos at Humane Animal Rescue of Pittsburgh that show the injured dog inside of the tech room or being removed from Humane Animal Rescue of Pittsburgh to PVSEC.

After interviewing James Genco, I watched the video of the two dogs being brought into the garage by James Genco and Animal Care and Control Officer Lapp on March 17, 2021. James Genco informed me during the interview that he believes that he went into Humane Animal Rescue of Pittsburgh with Animal Care and Control Officer Lapp when Officer Lapp was bringing in the friendly, white dog into the shelter. He said that he asked a female staff member that he described as white, female, blonde, thin, glasses, and in her 30's for help with the aggressive dog and that this female informed him that no one was available to help with the dog. The video shows that James Genco remained outside and did not enter the garage until he brought the injured (tan/brown) dog inside. I interviewed every staff member at Humane Animal Rescue of Pittsburgh that had any involvement with the injured dog being brought into the shelter on March 17, 2021, and no one mentioned that James Genco asked them for help.

I spoke with Officer Angela Fry from Humane Animal Rescue of Pittsburgh. I informed Officer Fry that James Genco believes that the injured dog was sedated because he viewed a staff member giving the dog an injection. Officer Fry pulled up the veterinary records and confirmed that the injured dog was not sedated. She told me that the dog was vaccinated against rabies, adenovirus, Bordetella, and parainfluenza. Officer Fry informed me that she would discuss the claims that James Genco made with Meagan Montmeny and that Meagan Montmeny will provide me with a response to the questions I have asked.

On April 21, 2021, I received a response from Meagan Montmeny. Meagan Montmeny informed me that the garage door at Humane Animal Rescue of Pittsburgh was broken on Friday, September 11, 2020, and repaired on Monday, September 14, 2020. She informed me that during that time, Animal Care and Control Officers brought six animals into the shelter that consisted of five cats and one dog. Meagan Montmeny stated that a white, female, blonde, thin, glasses, and in her 30's does not match the description of a staff member at Humane Animal Rescue of Pittsburgh. She said that the closest match in description, wasn't working on March 17, 2021.

Meagan Montmeny reported that she pulled the camera footage to see if she could observe the injured dog being loaded into their vehicle to be transported to PVSEC. She informed me that the camera angle is bad, but you can see their vehicle backing up to the door and the staff loading a crate inside, but that is all. Meagan Montmeny dropped off a thumb drive of this footage at Zone 3 for me to review.

Meagan Montmeny informed me that she and Officer Fry measured the garage, and it is 25 to 30 feet from the entrance into the garage into the animal control kennels. James Genco claimed that he dragged the dog 5 feet. His statement is not accurate.

On April 26, 2021, Lt. Julie Stoops informed me that there are no cameras at 21st Street and Waterfront Street to show the dog being removed from the vehicle.

I looked at the temperatures in Pittsburgh on [www.wunderground.com/history/weekly/us/pa/pittsburgh](http://www.wunderground.com/history/weekly/us/pa/pittsburgh) for March 17, 2021. The high temperature was 65 degrees. The low temperature was 33 degrees. The chart showed that the temperature at 11:51 am was 54 degrees.

This case was reviewed by Assistant District Attorney Lisa Borrelli, and the above listed charges were approved.

Subject: Counter proposal for Harold Jones  
Attachments: Counter proposal for Harold Jones.docx

Hi Lisa,

I have attached the counter proposal for Jones. I believe that this gives us more control over him as he agrees to unannounced visits and education and compliance with laws. I fear that if we don't have these control parameters in place, that he will do things illegally and animals will again be subjected to neglect. I also fear that his defense counsel could advise the judge of the proposal that they offered us, and if we deny it, the judge could think poorly of us (if she believed that their offer was fair) and she could dismiss all charges and then we have no control over him.

The judge could dismiss all the charges and order that all 28 remaining dogs be returned to Jones or she could find him guilty on 1 count, dismiss the other citations, order minimum fines ( which is \$50) and she does not have to order forfeiture of the animals, even on a guilty conviction. She also does not have to order prohibition of ownership.

Let me know if you want anything else added or changed.

Angie

Aleta,

Can you please start an investigatory file on this matter? I will be sending pictures and this necropsy report.

Thanks,  
Lisa

Necropsy Report  
Tuesday April 27, 2021  
For Angie Fry  
Humane Agent  
3.54 Kg. brachycephalic Lhasa Apso type dog

On external exam the dog was overdue for grooming.  
The right eye had severe sclera hemorrhage indicating trauma. (bleeding into the white of the eye)  
Photo will document this finding  
The right shoulder was dislocated.  
(Shoulder dislocation is not common and would require extreme force to tear those tissues)  
The right hip was also dislocated.  
(This is a common injury seen after severe trauma for example after being hit by a car)

On internal exam the abdomen was intact. No abnormalities were seen in the liver, kidneys, spleen and intestines.  
The chest cavity revealed pulmonary (lung) hemorrhage and contusion.  
Photo will document this finding.  
This finding would again be indicative of severe trauma.

Radiographs did not reveal previous trauma. No healed fractures were evident.  
A micro chip was present.  
There was suggestion of the shoulder dislocation noted on physical palpation of the joints.

Lung hemorrhage may have been a result of chest compression. It was clear that this dog had severe trauma to cause the eye, lung, hip and shoulder injuries. Correlation with the history would suggest abuse of this dog.

I totally agree. Genco's attorney texted me on Friday asking for an update. I informed him that the case is currently being reviewed and that I will keep him posted. He texted me again yesterday asking if any charging decisions were made. I did not answer his text. When the charges are approved in Quick Arrest, I will let you and Chief Kudrav know immediately.

Chief Kudrav said that we need to alert her before Genco is told of his charges being approved. They want to let the rest of Animal Control and Public safety know and explain things so they don't hear about it on the news.

Subject: PLEASE REVIEW

Good morning,

This is the narrative that I wrote for the criminal complaint involving James Genco. Please review and let me know if any changes need to be made. Thanks!

---

This complaint is prepared by your affiant, Officer Christine Luffey. I have worked as a Pittsburgh Police Officer for the past 28 years. I specialize in animal neglect and abuse cases.

On March 25, 2021, City of Pittsburgh Public Safety Director Wendell Hissrich requested that I review a video that was sent to city officials by Meagan Montmeny from Humane Animal Rescue of Pittsburgh to determine if the video is criminal in nature. The video was recorded on March 17, 2021. The video begins - CAM 09 12:03:23.216 PM (GMT 4:00) 3/17/2021. The video ends - CAM 09 12:13:56.955 PM (GMT 4.00) 3/17/2021

In the video at 12:04 04, the door next to the garage door at Humane Animal Rescue of Pittsburgh, East End location opens. Animal Care and Control Officer John Lapp walks in with a white pit bull dog on a long lead. The dog was wagging its tail. Animal Care and Control Officer James Genco is viewed propping open the door and standing there. Animal Care and Control Officer James Genco then is out of view, outside of the building.

12:05 31, Animal Care and Control Officer John Lapp is viewed walking out of the open door without the white dog.

12:07 53, Animal Care and Control Officer John Lapp walks back inside of the garage and goes out of view.

12:08 04, Animal Care and Control Officer James Genco is viewed walking in a tan colored pit bull dog on a catch pole.

12:08 09, the tan colored pit bull dog is viewed lying flat on the floor. Animal Care and Control Officer James Genco is viewed dragging the dog across the floor and goes out of view at 12:08 13.

12:08 14, blood, urine, and feces are viewed on the floor where the dog was dragged

12:08 15, a white female is seen walking into the garage area and walking in the direction of Animal Care and Control Officers John Lapp and James Genco. The female goes out of view at 12:08 18

12:08 22, the same white female with a long dyed-red ponytail is viewed hurrying back into the area she came out of.

12:13 25, Animal Care and Control Officers John Lapp and James Genco are viewed walking out of the door. The door remains open.

12:13 51, One of the Animal Care and Control Officers is viewed closing the door.

I was given permission to share the video with Assistant District Attorney Lisa Borrelli for her review. Director Wendell Hissrich asked me to investigate this incident.

I spoke to Meagan Montmeny, Chief Operations Officer at Humane Animal Rescue of Pittsburgh. Meagan Montmeny reported that she sent the video to city of Pittsburgh employees, David Madden and Lee Schmidt, because she was appalled by Animal Care and Control Officer James Genco's treatment of the dog and the injuries the dog sustained. She told me, "I was in tears watching that video footage". Meagan Montmeny stated that the dog suffered the following injuries: mouth was severely bleeding, missing teeth, ruptured blood vessels in both of its eyes (signs of strangulation), and nystagmus. She informed me that the dog was transported to PVSEC for emergency treatment. Meagan Montmeny reported that the dog was "very sweet" and "friendly". She said, "at no point was I concerned for my safety". I informed Meagan Montmeny that I was asked to investigate this incident and that I need her to provide me a list of all the employees who witnessed the incident or interacted with the injured dog. Meagan Montmeny agreed to provide me with a list of employees who have information involving the incident, provide written statements from the employees, and to provide veterinary records from Humane Animal Rescue of Pittsburgh and PVSEC involving the injuries to the dog. Meagan Montmeny informed me that she believes there is a video of the dog being removed from the truck and that she would provide that as well.

I learned that a police report was written by Officer Francis Rende, CCR# 21-44920, involving two dogs being removed from an unattended vehicle on 21st Street and Waterfront Street on March 17, 2021, at 11:33 am. Officer Francis Rende and Eric Churilla were on scene to assist Animal Care and Control Officers. These are the two dogs that were transported to Humane Animal Rescue of Pittsburgh by Animal Care and Control Officers James Genco and John Lapp.

On April 2, 2021, I went to Humane Animal Rescue of Pittsburgh and interviewed the following staff members: Meagan Montmeny, Brianna Kaufman, Shadaka Jefferson, Sarah Kutsch, Dr. Amy Kalinauskas, and Amanda Geletko.

Meagan Montmeny provided me with her written statement and a thumb drive with additional camera footage showing the injured dog being removed from the truck. We viewed the video together in her office. Meagan Montmeny told me that she watched the video frame by frame. She said that Animal Care and Control Officer Genco struggled to remove the dog from the truck for about five minutes. Meagan Montmeny told me that she viewed Animal Care and Control Officer Genco pull the noose tight three times before getting the dog on to the control stick. She stated that the dog came flying off the truck, hit the ground, appeared to bounce off the garage barrier, and then bit the control stick. Meagan Montmeny said that drops of blood were observed outside of the building. Animal Care and Control Officer John Lapp did not handle the injured dog. He stood nearby as Animal Care and Control Officer James Genco removed the dog from the truck. Meagan Montmeny stated that the injuries this dog sustained at the hands of these officers is unacceptable, is gross misconduct and cruel. She informed me that when a control stick is used on a dog and the dog is uncooperative that it is best to stop and give the dog a break. Meagan Montmeny explained that by continuing to provoke the dog with multiple attempts fuels aggression. She told me that the dog came off of the truck with a lot of force and that the dog made contact with the building. Meagan Montmeny reported that it is important to stay in front of the dog while on a control stick and that the handler has a responsibility to constantly monitor the dog. She stated that when Animal Care and Control Officer Genco brought the dog inside of the garage and it either laid down on the floor or lost consciousness, that he should have stopped moving and re-evaluated. Meagan Montmeny told me that Animal Care and Control Officer Genco could have asked the staff at Humane Animal Rescue of Pittsburgh for help at any time. She reported that the owner of the dogs arrived at the shelter on March 17, 2021, at 2:15 pm, and that she and Officer Angie Fry spoke with him. She said that she learned that the injured dog's name is "Cash" and that the dog's owner told her that there was a lot of blood in his vehicle. Meagan Montmeny reported that once the dog was transported to PVSEC, that she had to have a critical incident stress debriefing session with the staff who witnessed the incident and/or the dog's injuries because they were extremely upset.

I interviewed Brianna Kaufman. She is employed as the Shelter Medical Manager at Humane Animal Rescue of Pittsburgh. Brianna Kaufman stated that she was working in her office when a few staff members alerted her about an incident involving Animal Care and Control Officers. She told me that she entered the triage room and viewed the dog bleeding badly. Brianna Kaufman informed me that the dog was bleeding from its paw, cheek, had some broken teeth, and potentially an injured back right leg. She told me that she observed blood on the garage doors, in front of the garage on the pavement, blood in the garage, and blood on the door leading into the garage. Brianna Kaufman reported that she took 14 photos of the dog and blood. She described the injured dog as friendly.

I interviewed Shadaka Jefferson. She is employed as a Foster Technician at Humane Animal Rescue of Pittsburgh. Shadaka Jefferson reported that she was outside taking a break when she heard two Animal Care and Control Officers talking among themselves and a dog barking inside of the truck. She told me that the dog was on a control stick and the officer handling the stick pulled it hard. Shadaka Jefferson said that the dog fell on to its butt on to the ground and went on to its side. She told me that she believes the dog hit into a stationary metal pole outside of the building. Shadaka Jefferson stated that she was very upset and alarmed at what she witnessed and went inside the building to report the incident to staff. She said that when she went into the triage room that the Officers had already left. Shadaka Jefferson informed me that she observed blood on the dog's face, mouth, and nose, and that the back right paw was bloody. She stated that she believed that the dog's tail was broken because the base of the tail was bent. Shadaka Jefferson said that she believes that the Officer handling the dog did not have the dog on the control pole correctly. She said that the control pole appeared to be under the dog's neck, which can cause choking.

I interviewed Sarah Kutsch. She is employed as a Veterinary Technician at Humane Animal Rescue of Pittsburgh. Sarah Kutsch reported that Officer Lapp brought the white dog in and told her that the other dog was giving them some trouble when they removed the dog from the vehicle. She told me that she got a good look at the injured dog when he was in the triage room and he looked lethargic, was short of breath, bleeding a large amount from his mouth and nose, and had a laceration on his paw. Sarah Kutsch stated that she and other staff members immediately retrieved a veterinarian and switched out the control pole on the dog with a leash. She told me that the injured dog showed no signs of aggression, and that the Veterinarian was able to exam him without a problem. Sarah Kutsch said that she cleaned up the blood from the dog that was outside, through the garage, and in the triage room. She told me that there was blood outside on the garage door and all over the pavement where the dog was removed from the truck. Sarah Kutsch informed me that the Officers did not handle the injured dog correctly, but instead put the dog in great distress and pain.

I interviewed Dr. Amy Kalinauskas. She is employed as a Veterinarian at Humane Animal Rescue of Pittsburgh. Dr. Kalinauskas reported that she was performing surgery on another animal when Veterinary Technician, Camille Burke, informed her that a dog was injured by Animal Care and Control Officers and was bleeding from its mouth. She said that when she entered the triage room that the injured dog was on a control pole being held by one of the Officers. Dr. Kalinauskas said that the dog was bleeding heavily out of its mouth, as well as a laceration on his right forepaw. She said that due to the aggressive behavior that was reported to her that she placed a basket muzzle over the dog's face for safety to do a quick exam. Dr. Kalinauskas stated that the muzzle was removed quickly after she assessed that the dog was not a threat. She told me that the dog was not sedated. Dr. Kalinauskas reported that the injured dog had bitten his cheeks, as well as fractured multiple teeth. She told me that the two incisor teeth were broken, and the pulp was exposed. Dr. Kalinauskas said that the white of the dog's eyes started to bruise, and she noticed a fresh laceration on the right front paw. She told me that the dog had a fractured tail and he reacted when she touched it. Dr. Kalinauskas said that the dog was lame on a rear limb and cried out on palpation. She informed me that after having the dog in their care for about fifteen minutes that she made the decision to send the dog to PVSEC for emergency care due to multiple injuries. Dr. Kalinauskas told me that when the dog laid down inside of the vehicle that she visualized horizontal nystagmus and the dog's nose started to bleed. She said that this solidified her decision to send the dog for emergency

care due to possible brain trauma. Dr. Kalinauskas informed me that the dog was in a lot of pain, mentally and physically, and she cried during the interview. She said that she found out later that the Veterinarian at PVSEC found that the tail was previously broken. Dr. Kalinauskas explained to me that the nystagmyus she viewed fits with being strangled on a control pole. She stated that it is very hard to fracture a tooth and that the material must be harder than the tooth to cause a fracture. Dr. Kalinauskas told me that she feels bad for the dog and described the dog as friendly.

I interviewed Amanda Geletko. She is employed as an Off-site Coordinator at Humane Animal Rescue of Pittsburgh. Amanda Geletko informed me that she was asked to transport the injured dog to PVSEC for emergency treatment. She informed me that she observed the injuries that the dog sustained and noticed that one of his eyes was moving rapidly. Amanda Geletko told me that the trip to PVSEC took 25 to 30 minutes and that she heard the dog whine occasionally and coughed several times. She said that she could see in the dog's eyes how much pain and scared he was. Amanda Geletko reported that the dog was friendly to everyone.

Dan Rossi, Executive Director of Humane Animal Rescue of Pittsburgh, spoke with me after I conducted the interviews. He said that situations involving Animal Care and Control Officers being rough with dogs and cats have been going on for a long time, but not to this extent. Dan Rossi told me that he believes the Officers need more training and that he is willing to help. He said that he observed the injured dog standing, shaking, and bleeding. Dan Rossi informed me that the dog did not show any signs of aggression. He stated that there was blood all over the floor from the dog bleeding from his mouth. Dan Rossi told me that in the twelve years that he has been working at Humane Animal Rescue of Pittsburgh that he never saw a dog in this condition from just being brought into the shelter.

On April 6, 2021, I called PVSEC and spoke with Dr. Emily Gardner. Dr. Gardner is the Veterinarian who treated the injured dog named "Cash" on March 17, 2021, brought to PVSEC by Amanda Geletko from Humane Animal Rescue of Pittsburgh. Dr. Gardner informed me that she remembers the injured dog and told me that the most obvious injuries that she remembers is that the dog had multiple, fractured teeth (2 K9 teeth and 3 or 4 incisors), limping on his right forelimb and hindlimb, a swollen eye, and subconjunctival hemorrhage (typical strangulation injuries), and old tail fracture, soft tissue injuries in his legs, and many scrapes and abrasions were observed. Dr. Gardner stated that the dog was in a lot of pain and that based on his injuries that she believes "excess force was used for sure" by Animal Care and Control Officers. She told me that the dog's blood work indicated that he suffered from stress and muscle damage. Dr. Gardner reported that she recommended that the dog be seen by a Veterinary Dentist and provided the contact information to the dog's owner for the dentist that PVSEC used for care. The veterinary bill from PVSEC - North Hills was \$1,230.33.

On April 7, 2021, I interviewed Officer Eric Churilla and Officer Frank Rende. Officers Churilla and Rende reported that someone called 911 to report two dogs left inside a vehicle on March 17, 2021, and that they assisted Animal Care and Control Officers. Officers Churilla and Rende told me that Animal Care and Control Officers Genco and Lapp told them that they searched for the owner of the dogs and were unsuccessful. Officers Churilla and Rende stated that Animal Care and Control Officers told them that they needed to remove the dogs from the vehicle. Officer Churilla said that March 17, 2021, was a warm day and the temperature was rising. According to Accuweather, the temperature in Pittsburgh on March 17, 2021, was a high of 67 degrees and a low of 36 degrees. Officers Churilla and Rende informed me that they saw both dogs inside of the vehicle and the dogs appeared to be in distress. They told me that the dogs were panting and breathing heavily. Officers Churilla and Rende stated that the windows were completely closed, and that they did not see food or water inside of the vehicle. They said that the vehicle was black in color, and it was parked in the sun with the doors locked. Officer Churilla said that he agreed with Animal Care and Control Officers decision to remove the dogs from the vehicle. Officer Churilla showed me a small tool that looks like a pen that is used to break glass. He said that he gave it to one of the Animal Care and Control Officers to use to break the driver's side rear window. Officers Churilla and Rende informed me that the white dog inside of the vehicle was cooperative. They said that the tan/brown dog was barking, biting, and pawing at the window. Officer Churilla stated that he believes the

tan/brown dog was protecting the area it was in. Officers Churilla and Rende told me that the tan/brown dog appeared to be aggressive, and they stepped back to allow Animal Care and Control Officers Lapp and Genco to remove the dog from the vehicle. Officers Churilla and Rende said that only one of the Animal Care and Control Officers was using the control pole, and that they don't know which one was using the control pole. Officers Churilla and Rende informed me that the tan/brown dog was not cooperative and that they witnessed the dog biting the control pole, flopping its body on the ground, and digging its nails into the ground. Officer Churilla said that Animal Care and Control Officers did drag the dog to the truck because it was not cooperative. Officer Churilla told me that after the dog was placed in the truck that he heard one of the Animal Care and Control Officers say that the dog was entangled in the equipment they were using. Officers Churilla and Rende stated that they don't believe that Animal Care and Control Officers Lapp or Genco abused either of the two dogs in their presence. Officers Churilla and Rende informed me that they are now familiar with the proper way to handle dogs on a control pole.

On April 8, 2021, I went back to Humane Animal Rescue of Pittsburgh to interview Camille Burke, Sarah Shively, and Nancy Parson Gump.

I interviewed Camille Burke using the lap top belonging to Meagan Montmeny on Zoom. Camille Burke is seen in the garage of Humane Animal Rescue of Pittsburgh on the first video that was provided to me. She is employed as a Veterinary Technician at Humane Animal Rescue of Pittsburgh. Camille Burke reported that she was working in the Cat Tech Room entering paperwork when she heard a commotion and high-pitched yelping and screaming coming from the garage. She told me that she ran into the garage to see what was happening and saw that Animal Care and Control Officers were bringing a dog in, screaming, on a pole. Camille Burke told me that she saw one of the officers (Officer Genco) handling the dog on a control pole. She described the handling of the dog, like he was "mopping the floor". Camille Burke reported that the dog left behind him a trail of blood, feces, and urine. She said that the Animal Care and Control Officers brought the dog into the Dog Tech Room, and she retrieved other staff members because the dog was bleeding heavily. Camille Burke told me that the officers kept insisting the dog was aggressive and that is why they used a control pole. She told me the dog was not aggressive towards her or Humane Animal Rescue of Pittsburgh staff members. Camille Burke told me that the dog was shaking, panting, and showing no signs of aggression. She informed me that the injured dog was clinging to her for comfort and that he seemed traumatized and defeated. She said that the dog was giving kisses and was very sweet.

I interviewed Sarah Shively. She is employed as the Director of Shelter Programs at Humane Animal Rescue of Pittsburgh. Sarah Shively reported that Brianna Kaufman informed her that Animal Care and Control Officers brought a dog in that she needed to see immediately. She said that when she arrived at the triage exam room that there were multiple veterinary technicians in the room looking at an injured, tan, pit bull mixed dog. Sarah Shively told me that she believed there were too many people in the room and asked some of them to leave because the dog was "incredibly stressed", panting heavily, its tongue was hanging out the side of its mouth, and blood was dripping. She stated that she noticed the dog's pupils were dilated and the eyes looked blood shot. Sarah Shively informed me that there was blood all over the floor and she observed blood covering the dog's legs and feet. She said that a few employees were sitting on the floor with the dog. Sarah Shively told me that she did not observe any aggressive behaviors from the injured dog. She reported that she is familiar with the use of a control pole and that it is not unusual for a dog to be fearful while on a control pole. Sarah Shively informed me that if a dog panics that it is best to stop moving.

I interviewed Nancy Parson Gump. She is employed as a Veterinary Technician at Humane Animal Rescue of Pittsburgh. Nancy Parson Gump reported that she observed the injured dog and remembers the dog panting heavily, his eyes were red, and his mouth was bleeding a lot. She stated that the dog was friendly, and it seemed that the dog was in a lot of pain.

David Madden, Supervisor of Animal Care and Control, sent me the "Animal Shelter Services" form, a photo of the dog the vehicle was removed from, statements from Pittsburgh Police Officers Churilla and Rende, and a statement e-mailed to him from Animal Care and Control Officer James Genco. I later received photos of a damaged cage that Animal Care and Control Officer Genco reported that the injured dog is responsible for.

On April 12, 2021, I spoke with Animal Care and Control Officer John Lapp on the telephone. He informed me that he did not use the control pole on the injured dog that was brought to Humane Animal Rescue of Pittsburgh on March 17, 2021. Animal Care and Control Officer Lapp stated that he and Officer Genco removed two dogs from a vehicle and that the white color dog was friendly. He told me that the tan/brown dog was vicious. Animal Care and Control Officer Lapp said that the dog "was going nuts in there" and that Officer Rende had his gun drawn and said he would shoot it if needed. He told me that the tan/brown dog bit the pole and inside of the cage. Animal Care and Control Officer Lapp stated that Animal Care and Control Officer James Genco handled the dog and eventually got him on to the control pole. He stated that he has been working with Animal Care and Control Officer Genco for many years and that he had no intention of hurting the dog. I told Animal Care and Control Officer Lapp that the dog suffered many injuries. His response to me was, "you know he didn't club the dog. He's not like that with animals". Animal Care and Control Officer Lapp told me that all they wanted to do is get the dog into the shelter without anyone getting hurt. Animal Care and Control Officer Lapp told me, "I am really worried about this" and asked me questions about what is going to happen to Animal Care and Control Officer Genco, and if he will be charged with anything criminally. Animal Care and Control Officer Lapp said that he was inside of the building when he saw the dog lay down (garage floor). He told me that Animal Care and Control Officer Genco dragged the dog because "you couldn't pick him up". Animal Care and Control Officer Lapp stated that the staff at Humane Animal Rescue of Pittsburgh needed to put a muzzle on the injured dog. I asked Animal Care and Control Officer Lapp if the injured dog caused any damage to the truck, it was transported in. His response was, "It's hard to tell. Our cages are all bent up from other dogs". Animal Care and Control Officer Lapp asked me to put a good word in for him and Animal Care and Control Officer Genco and told me that they are willing to take additional training classes.

On April 20, 2021, I interviewed Animal Care and Control Officer James Genco in the presence of Lt. Julie Stoops and Attorney Casey White. I read James Genco his Miranda Rights from the city of Pittsburgh Bureau of Police Miranda Rights Form. He agreed to speak with Lt. Stoops and I about the incident involving the dog that was injured in the care and custody of himself and Animal Care and Control Officer John Lapp on March 17, 2021. James Genco initialized and signed the form. He told us that he has worked as an Animal Care and Control Officer in the city of Pittsburgh for the past 26 years. He said that most of what he learned was on the job training from other Animal Care and Control Officers. James Genco informed us that he attended the National Animal Control Academy in 2003 or 2004. He stated that he normally works with Animal Care and Control Officer John Lapp and that he normally handles the control pole because Animal Care and Control Officer Lapp is older and has some physical challenges. James Genco told us that he and Animal Care and Control Officer Lapp were working together on March 17, 2021. He said that they received a call through dispatch that dogs were inside of a vehicle at 21st Street and Waterfront Street. James Genco informed us that when they arrived, they saw a lot of people in the area walking their dogs and that someone reported to him and his partner that the dogs were left in the vehicle earlier that morning and the owner of the dogs may be a construction worker. He said that the windows on the vehicle were closed and that there was no food or water in the vehicle for the dogs. James Genco said that the dogs were panting. He informed us that the vehicle was parked in the sunlight and that there was no shade. James Genco said that he and Animal Care and Control Officer Lapp searched for the owner of the dogs on Smallman Street, 21st Street, and on Waterfront Street and were not successful. He told us that they went back and checked on the dogs. James Genco said that the dogs were panting and that he and Animal Care and Control Officer Lapp waited for about 10 or 15 minutes before calling the Animal Care and Control Office and using channel 1 to request police assistance. James Genco informed us that Officer Rende arrived first on Scene and Officer Churilla arrived about a minute later. He said that he and Animal Care and Control Officer Lapp explained to Officers Rende and Churilla that the dogs were inside of the vehicle all morning, the vehicle was in the sun, and that it started getting warmer. James Genco informed us that he told Officers Rende and Churilla that they may have to take the dogs and the officers agreed. He

said that he and Officer Lapp did not have anything to break the window with and that Officer Churilla had a tool to break the window. James Genco stated that the white dog was sitting in the middle of the back seat and that it was panting heavily. He said that the brown dog was in the front seat and biting at them through the window. James Genco stated that the tan/brown dog was very upset and lunged at the window and was barking. He informed us that Animal Care and Control Officer John Lapp broke the middle rear window on the driver's side. James Genco told us that the temperature outside was 50 degrees at the time the dogs were removed from the vehicle. He said that he believed the dogs were in imminent danger because the way the vehicle was parked, and the dogs didn't look too good. James Genco said that he thought they were lethargic, they were panting, their tongues were hanging out, and they were slobbering. He told us that Animal Care and Control Officer Lapp broke the window and that someone opened the door. James Genco said the plan was to try to get the brown dog out, but he was not able to get the dog on the control pole. He told us that the tan/brown dog began biting the control pole and they made the decision to remove the white dog first. James Genco stated that he kept the tan/brown dog at bay so Animal Care and Control Officer Lapp could remove the white dog from the vehicle and close the door. He said that the white dog was friendly, and the tan/brown dog was going crazy. James Genco mentioned that a lot of people with their dogs were watching them remove the dogs from the vehicle. He said that after the white dog was placed in the truck that they went back to remove the tan/brown dog. James Genco stated that Animal Care and Control Officer Lapp held the door for him and that the tan/brown dog was biting the pole. He told us that he was able to get the dog onto the pole and that the dog was twisting himself and biting the pole. James Genco said that the dog's mouth started to bleed. He told us that he was trying to get the dog to the truck and that Officer Rende pulled out his gun and threatened to shoot the dog. James Genco said that the dog was resisting. He stated that once he got the dog into the truck that the dog began biting the cage. James Genco told us that he and Animal Care and Control Officer Lapp heard the dog slamming himself in the cage during the ride to Humane Animal Rescue of Pittsburgh. He said that they arrived on scene at 10:55 am and they left the scene at 11:45 am. James Genco stated that he has not removed a lot of dogs from cars. He informed us that the dog was resisting and digging into the concrete. James Genco said that he was trying to get the dog to the truck as fast as he could because he was concerned for the safety of everyone nearby. He stated that he was taught if a dog is resisting to get it to where it needs to go as fast as you can. James Genco told us that there was a lot of blood in the vehicle on the front seat and window, in the cage the dog was put in, and on the control pole. He said that the dog's mouth was bleeding, he saw a lot of blood, and noticed that one of the dog's paws was bleeding. James Genco said that he uses a control pole as a last resort, not to get hurt or bit. He told us that he is aware of the cameras and where they are located at Humane Animal Rescue of Pittsburgh. James Genco stated that Animal Care and Control Officers don't pull inside of the garage to unload animals from the trucks because deliveries are sometimes left inside of the garage and that the garage door at Humane Animal Rescue of Pittsburgh is sometimes broken. He produced a copy of an e-mail that he sent to his supervisor, David Madden, and two photographs of the garage that were taken at Humane Animal Rescue of Pittsburgh on September 6, 2019, and September 12, 2019. James Genco told us that David Madden reached out to someone at Humane Animal Rescue of Pittsburgh and after that the conditions of the garage improved.

James Genco told us about the removal of the two dogs from the truck on March 17, 2021. He said that Animal Care and Control Officer Lapp removed the white dog from the truck using a rope with no problem. He said that he believes that he went inside of the garage with Animal Care and Control Officer Lapp, when Officer Lapp put the dog into a cage. James Genco stated that he spoke with a female and told her that they had a mean dog and a real bad dog in the truck that they need to bring inside. He told us that the female said that they don't have anyone available to help. James Genco described the female employee he spoke with as white, thin, blonde hair, glasses, in her 30's. He stated that the female may have come outside with them, but he is not sure. James Genco informed us that Animal Care and Control Officer Lapp was holding the cage when he was working to get the tan/brown dog onto the control pole. He said that he tried a few times, and the dog was biting the pole. James Genco stated that he was finally able to get the dog on the pole and that he pulled the dog off the truck. He said that when he was removing the dog from the truck that he went off balance and that the dog may have hit into the garage door. James Genco demonstrated how he uses a control pole. I asked him how many times he pulled the string on the end of the control pole while removing the dog from the truck. He told us once or twice. James Genco informed us that the tan/brown dog resisted the whole time and that he was pulling one way and the dog was pulling the other way. He said that the dog was digging his claws into the ground and continued to resist. James Genco said that the dog was walking when he brought him into the garage

and decided he didn't want to cooperate. He told us that the dog did lay down and that he did drag him on the garage floor for about 5 feet. James Genco stated that he wanted to get the dog into the room as fast as possible. I asked him if the dog went unconscious. He said that it did not. James Genco stated that he didn't stop and kept going. He told us that it was like he and the dog were playing tug a war. I asked James Genco if he was aware that while the dog was being dragged that blood, urine, and feces were left on the garage floor. He said that he was aware that there was blood on the floor. James Genco stated that he brought the dog into the tech room and the dog got on his feet. He told us that a bunch of women came rushing in. James Genco said that he had the dog against the wall and the dog was going crazy and blood was flying everywhere. He told us that someone said, "get the door" and that one or two females pushed the dog into the door. James Genco said that the dog was sedated. I was informed by Dr. Kalinauskas that the dog was not sedated. He told us that he believes the dog was sedated because he saw one of the females give the dog an injection. James Genco said that he held the control pole until the workers could put a muzzle on the dog. He told us that once a muzzle was put on the dog the dog that he took the control pole off and they left. James Genco said that David Madden called him and Animal Care and Control Officer Lapp about an hour later and told them to go back to Humane Animal Rescue of Pittsburgh and transport the injured dog to PVSEC. He informed us that he was later told not to go back to Humane Animal Rescue of Pittsburgh because the dog was transported to PVSEC by staff at Humane Animal Rescue of Pittsburgh. James Genco stated that he got back to the Animal Care and Control office at about 2:00 pm and was informed that the owner of the dog called the clerk asking where his dogs are.

James Genco stated that his job is to get animals "from point A to point B". He said that he was never formally trained on how to use a control pole and that mostly everything he learned was from experience. James Genco said that he would accept training to do his job better. He stated that the brown dog was the meanest dog he has ever had to deal with. James Genco said that he "was afraid". He told us that he did not purposely set out to hurt the dog. James Genco said that he has had three surgeries on his left shoulder in the past and may have to have another surgery. He described having a torn bicep, labrum, and rotator cuff. James Genco stated that he has three metal anchors that were drilled into his arm bone and that he arm isn't as strong as it used to be. He said that the injuries are from his job from lifting dogs up into the truck by the control pole. James Genco told us that another Animal Care and Control Officer recently broke a dog's leg while removing it from the truck and that nothing happened to that Officer. He stated that there is no city policy on how to use a control pole and no kind of formal training in his department. James Genco allowed me to make copies of the documents that he produced. He asked us to try to obtain video surveillance from where the dog was removed from the truck and to inquire if there are additional videos at Humane Animal Rescue of Pittsburgh that show the injured dog inside of the tech room or being removed from Humane Animal Rescue of Pittsburgh to PVSEC.

After interviewing James Genco, I watched the video of the two dogs being brought into the garage by James Genco and Animal Care and Control Officer Lapp on March 17, 2021. James Genco informed me during the interview that he believes that he went into Humane Animal Rescue of Pittsburgh with Animal Care and Control Officer Lapp when Officer Lapp was bringing in the friendly, white dog into the shelter. He said that he asked a female staff member that he described as white, female, blonde, thin, glasses, and in her 30's for help with the aggressive dog and that this female informed him that no one was available to help with the dog. The video shows that James Genco remained outside and did not enter the garage until he brought the injured (tan/brown) dog inside. I interviewed every staff member at Humane Animal Rescue of Pittsburgh that had any involvement with the injured dog being brought into the shelter on March 17, 2021, and no one mentioned that James Genco asked them for help.

I spoke with Officer Angela Fry from Humane Animal Rescue of Pittsburgh. I informed Officer Fry that James Genco believes that the injured dog was sedated because he viewed a staff member giving the dog an injection. Officer Fry pulled up the veterinary records and confirmed that the injured dog was not sedated. She told me that the dog was vaccinated against rabies, adenovirus, Bordetella, and parainfluenza. Officer Fry informed me that she would discuss the claims that James Genco made with Meagan Montmeny and that Meagan Montmeny will provide me with a response to the questions I have asked.

On April 21, 2021, I received a response from Meagan Montmeny. Meagan Montmeny informed me that the garage door at Humane Animal Rescue of Pittsburgh was broken on Friday, September 11, 2020, and repaired on Monday, September 14, 2020. She informed me that during that time, Animal Care and Control Officers brought six animals into the shelter that consisted of five cats and one dog. Meagan Montmeny stated that a white, female, blonde, thin, glasses, and in her 30's does not match the description of a staff member at Humane Animal Rescue of Pittsburgh. She said that the closest match in description, wasn't working on March 17, 2021.

Meagan Montmeny reported that she pulled the camera footage to see if she could observe the injured dog being loaded into their vehicle to be transported to PVSEC. She informed me that the camera angle is bad, but you can see their vehicle backing up to the door and the staff loading a crate inside, but that is all. Meagan Montmeny dropped off a thumb drive of this footage at Zone 3 for me to review.

Meagan Montmeny informed me that she and Officer Fry measured the garage, and it is 25 to 30 feet from the entrance into the garage into the animal control kennels. James Genco claimed that he dragged the dog 5 feet. His statement is not accurate.

On April 26, 2021, Lt. Julie Stoops informed me that there are no cameras at 21st Street and Waterfront Street to show the dog being removed from the vehicle.

I looked at the temperatures in Pittsburgh on [www.wunderground.com/history/weekly/us/pa/pittsburgh](http://www.wunderground.com/history/weekly/us/pa/pittsburgh) for March 17, 2021. The high temperature was 65 degrees. The low temperature was 33 degrees. The chart showed that the temperature at 11:51 am was 54 degrees.

This case was reviewed by Assistant District Attorney Lisa Borrelli, and the above listed charges were approved.

Subject: PLEASE REVIEW

Good morning,

This is the narrative that I wrote for the criminal complaint involving James Genco. Please review and let me know if any changes need to be made. Thanks!

---

This complaint is prepared by your affiant, Officer Christine Luffey. I have worked as a Pittsburgh Police Officer for the past 28 years. I specialize in animal neglect and abuse cases.

On March 25, 2021, City of Pittsburgh Public Safety Director Wendell Hissrich requested that I review a video that was sent to city officials by Meagan Montmeny from Humane Animal Rescue of Pittsburgh to determine if the video is criminal in nature. The video was recorded on March 17, 2021. The video begins - CAM 09 12:03:23.216 PM (GMT 4:00) 3/17/2021. The video ends - CAM 09 12:13:56.955 PM (GMT 4.00) 3/17/2021

In the video at 12:04 04, the door next to the garage door at Humane Animal Rescue of Pittsburgh, East End location opens. Animal Care and Control Officer John Lapp walks in with a white pit bull dog on a long lead. The dog was wagging its tail. Animal Care and Control Officer James Genco is viewed propping open the door and standing there. Animal Care and Control Officer James Genco then is out of view, outside of the building.

12:05 31, Animal Care and Control Officer John Lapp is viewed walking out of the open door without the white dog.

12:07 53, Animal Care and Control Officer John Lapp walks back inside of the garage and goes out of view.

12:08 04, Animal Care and Control Officer James Genco is viewed walking in a tan colored pit bull dog on a catch pole.

12:08 09, the tan colored pit bull dog is viewed lying flat on the floor. Animal Care and Control Officer James Genco is viewed dragging the dog across the floor and goes out of view at 12:08 13.

12:08 14, blood, urine, and feces are viewed on the floor where the dog was dragged

12:08 15, a white female is seen walking into the garage area and walking in the direction of Animal Care and Control Officers John Lapp and James Genco. The female goes out of view at 12:08 18

12:08 22, the same white female with a long dyed-red ponytail is viewed hurrying back into the area she came out of.

12:13 25, Animal Care and Control Officers John Lapp and James Genco are viewed walking out of the door. The door remains open.

12:13 51, One of the Animal Care and Control Officers is viewed closing the door.

I was given permission to share the video with Assistant District Attorney Lisa Borrelli for her review. Director Wendell Hissrich asked me to investigate this incident.

I spoke to Meagan Montmeny, Chief Operations Officer at Humane Animal Rescue of Pittsburgh. Meagan Montmeny reported that she sent the video to city of Pittsburgh employees, David Madden and Lee Schmidt, because she was appalled by Animal Care and Control Officer James Genco's treatment of the dog and the injuries the dog sustained. She told me, "I was in tears watching that video footage". Meagan Montmeny stated that the dog suffered the following injuries: mouth was severely bleeding, missing teeth, ruptured blood vessels in both of its eyes (signs of strangulation), and nystagmus. She informed me that the dog was transported to PVSEC for emergency treatment. Meagan Montmeny reported that the dog was "very sweet" and "friendly". She said, "at no point was I concerned for my safety". I informed Meagan Montmeny that I was asked to investigate this incident and that I need her to provide me a list of all the employees who witnessed the incident or interacted with the injured dog. Meagan Montmeny agreed to provide me with a list of employees who have information involving the incident, provide written statements from the employees, and to provide veterinary records from Humane Animal Rescue of Pittsburgh and PVSEC involving the injuries to the dog. Meagan Montmeny informed me that she believes there is a video of the dog being removed from the truck and that she would provide that as well.

I learned that a police report was written by Officer Francis Rende, CCR# 21-44920, involving two dogs being removed from an unattended vehicle on 21st Street and Waterfront Street on March 17, 2021, at 11:33 am. Officer Francis Rende and Eric Churilla were on scene to assist Animal Care and Control Officers. These are the two dogs that were transported to Humane Animal Rescue of Pittsburgh by Animal Care and Control Officers James Genco and John Lapp.

On April 2, 2021, I went to Humane Animal Rescue of Pittsburgh and interviewed the following staff members: Meagan Montmeny, Brianna Kaufman, Shadaka Jefferson, Sarah Kutsch, Dr. Amy Kalinauskas, and Amanda Geletko.

Meagan Montmeny provided me with her written statement and a thumb drive with additional camera footage showing the injured dog being removed from the truck. We viewed the video together in her office. Meagan Montmeny told me that she watched the video frame by frame. She said that Animal Care and Control Officer Genco struggled to remove the dog from the truck for about five minutes. Meagan Montmeny told me that she viewed Animal Care and Control Officer Genco pull the noose tight three times before getting the dog on to the control stick. She stated that the dog came flying off the truck, hit the ground, appeared to bounce off the garage barrier, and then bit the control stick. Meagan Montmeny said that drops of blood were observed outside of the building. Animal Care and Control Officer John Lapp did not handle the injured dog. He stood nearby as Animal Care and Control Officer James Genco removed the dog from the truck. Meagan Montmeny stated that the injuries this dog sustained at the hands of these officers is unacceptable, is gross misconduct and cruel. She informed me that when a control stick is used on a dog and the dog is uncooperative that it is best to stop and give the dog a break. Meagan Montmeny explained that by continuing to provoke the dog with multiple attempts fuels aggression. She told me that the dog came off of the truck with a lot of force and that the dog made contact with the building. Meagan Montmeny reported that it is important to stay in front of the dog while on a control stick and that the handler has a responsibility to constantly monitor the dog. She stated that when Animal Care and Control Officer Genco brought the dog inside of the garage and it either laid down on the floor or lost consciousness, that he should have stopped moving and re-evaluated. Meagan Montmeny told me that Animal Care and Control Officer Genco could have asked the staff at Humane Animal Rescue of Pittsburgh for help at any time. She reported that the owner of the dogs arrived at the shelter on March 17, 2021, at 2:15 pm, and that she and Officer Angie Fry spoke with him. She said that she learned that the injured dog's name is "Cash" and that the dog's owner told her that there was a lot of blood in his vehicle. Meagan Montmeny reported that once the dog was transported to PVSEC, that she had to have a critical incident stress debriefing session with the staff who witnessed the incident and/or the dog's injuries because they were extremely upset.

I interviewed Brianna Kaufman. She is employed as the Shelter Medical Manager at Humane Animal Rescue of Pittsburgh. Brianna Kaufman stated that she was working in her office when a few staff members alerted her about an incident involving Animal Care and Control Officers. She told me that she entered the triage room and viewed the dog bleeding badly. Brianna Kaufman informed me that the dog was bleeding from its paw, cheek, had some broken teeth, and potentially an injured back right leg. She told me that she observed blood on the garage doors, in front of the garage on the pavement, blood in the garage, and blood on the door leading into the garage. Brianna Kaufman reported that she took 14 photos of the dog and blood. She described the injured dog as friendly.

I interviewed Shadaka Jefferson. She is employed as a Foster Technician at Humane Animal Rescue of Pittsburgh. Shadaka Jefferson reported that she was outside taking a break when she heard two Animal Care and Control Officers talking among themselves and a dog barking inside of the truck. She told me that the dog was on a control stick and the officer handling the stick pulled it hard. Shadaka Jefferson said that the dog fell on to its butt on to the ground and went on to its side. She told me that she believes the dog hit into a stationary metal pole outside of the building. Shadaka Jefferson stated that she was very upset and alarmed at what she witnessed and went inside the building to report the incident to staff. She said that when she went into the triage room that the Officers had already left. Shadaka Jefferson informed me that she observed blood on the dog's face, mouth, and nose, and that the back right paw was bloody. She stated that she believed that the dog's tail was broken because the base of the tail was bent. Shadaka Jefferson said that she believes that the Officer handling the dog did not have the dog on the control pole correctly. She said that the control pole appeared to be under the dog's neck, which can cause choking.

I interviewed Sarah Kutsch. She is employed as a Veterinary Technician at Humane Animal Rescue of Pittsburgh. Sarah Kutsch reported that Officer Lapp brought the white dog in and told her that the other dog was giving them some trouble when they removed the dog from the vehicle. She told me that she got a good look at the injured dog when he was in the triage room and he looked lethargic, was short of breath, bleeding a large amount from his mouth and nose, and had a laceration on his paw. Sarah Kutsch stated that she and other staff members immediately retrieved a veterinarian and switched out the control pole on the dog with a leash. She told me that the injured dog showed no signs of aggression, and that the Veterinarian was able to exam him without a problem. Sarah Kutsch said that she cleaned up the blood from the dog that was outside, through the garage, and in the triage room. She told me that there was blood outside on the garage door and all over the pavement where the dog was removed from the truck. Sarah Kutsch informed me that the Officers did not handle the injured dog correctly, but instead put the dog in great distress and pain.

I interviewed Dr. Amy Kalinauskas. She is employed as a Veterinarian at Humane Animal Rescue of Pittsburgh. Dr. Kalinauskas reported that she was performing surgery on another animal when Veterinary Technician, Camille Burke, informed her that a dog was injured by Animal Care and Control Officers and was bleeding from its mouth. She said that when she entered the triage room that the injured dog was on a control pole being held by one of the Officers. Dr. Kalinauskas said that the dog was bleeding heavily out of its mouth, as well as a laceration on his right forepaw. She said that due to the aggressive behavior that was reported to her that she placed a basket muzzle over the dog's face for safety to do a quick exam. Dr. Kalinauskas stated that the muzzle was removed quickly after she assessed that the dog was not a threat. She told me that the dog was not sedated. Dr. Kalinauskas reported that the injured dog had bitten his cheeks, as well as fractured multiple teeth. She told me that the two incisor teeth were broken, and the pulp was exposed. Dr. Kalinauskas said that the white of the dog's eyes started to bruise, and she noticed a fresh laceration on the right front paw. She told me that the dog had a fractured tail and he reacted when she touched it. Dr. Kalinauskas said that the dog was lame on a rear limb and cried out on palpation. She informed me that after having the dog in their care for about fifteen minutes that she made the decision to send the dog to PVSEC for emergency care due to multiple injuries. Dr. Kalinauskas told me that when the dog laid down inside of the vehicle that she visualized horizontal nystagmus and the dog's nose started to bleed. She said that this solidified her decision to send the dog for emergency care due to possible brain trauma. Dr. Kalinauskas informed me that the dog was in a lot of pain, mentally and physically, and she cried during the interview. She said that she found out later that the Veterinarian at PVSEC found

that the tail was previously broken. Dr. Kalinauskas explained to me that the nystagmus she viewed fits with being strangled on a control pole. She stated that it is very hard to fracture a tooth and that the material must be harder than the tooth to cause a fracture. Dr. Kalinauskas told me that she feels bad for the dog and described the dog as friendly.

I interviewed Amanda Geletko. She is employed as an Off-site Coordinator at Humane Animal Rescue of Pittsburgh. Amanda Geletko informed me that she was asked to transport the injured dog to PVSEC for emergency treatment. She informed me that she observed the injuries that the dog sustained and noticed that one of his eyes was moving rapidly. Amanda Geletko told me that the trip to PVSEC took 25 to 30 minutes and that she heard the dog whine occasionally and coughed several times. She said that she could see in the dog's eyes how much pain and scared he was. Amanda Geletko reported that the dog was friendly to everyone.

Dan Rossi, Executive Director of Humane Animal Rescue of Pittsburgh, spoke with me after I conducted the interviews. He said that situations involving Animal Care and Control Officers being rough with dogs and cats have been going on for a long time, but not to this extent. Dan Rossi told me that he believes the Officers need more training and that he is willing to help. He said that he observed the injured dog standing, shaking, and bleeding. Dan Rossi informed me that the dog did not show any signs of aggression. He stated that there was blood all over the floor from the dog bleeding from his mouth. Dan Rossi told me that in the twelve years that he has been working at Humane Animal Rescue of Pittsburgh that he never saw a dog in this condition from just being brought into the shelter.

On April 6, 2021, I called PVSEC and spoke with Dr. Emily Gardner. Dr. Gardner is the Veterinarian who treated the injured dog named "Cash" on March 17, 2021, brought to PVSEC by Amanda Geletko from Humane Animal Rescue of Pittsburgh. Dr. Gardner informed me that she remembers the injured dog and told me that the most obvious injuries that she remembers is that the dog had multiple, fractured teeth (2 K9 teeth and 3 or 4 incisors), limping on his right forelimb and hindlimb, a swollen eye, and subconjunctival hemorrhage (typical strangulation injuries), and old tail fracture, soft tissue injuries in his legs, and many scrapes and abrasions were observed. Dr. Gardner stated that the dog was in a lot of pain and that based on his injuries that she believes "excess force was used for sure" by Animal Care and Control Officers. She told me that the dog's blood work indicated that he suffered from stress and muscle damage. Dr. Gardner reported that she recommended that the dog be seen by a Veterinary Dentist and provided the contact information to the dog's owner for the dentist that PVSEC used for care. The veterinary bill from PVSEC - North Hills was \$1,230.33.

On April 7, 2021, I interviewed Officer Eric Churilla and Officer Frank Rende. Officers Churilla and Rende reported that someone called 911 to report two dogs left inside a vehicle on March 17, 2021, and that they assisted Animal Care and Control Officers. Officers Churilla and Rende told me that Animal Care and Control Officers Genco and Lapp told them that they searched for the owner of the dogs and were unsuccessful. Officers Churilla and Rende stated that Animal Care and Control Officers told them that they needed to remove the dogs from the vehicle. Officer Churilla said that March 17, 2021, was a warm day and the temperature was rising. According to Accuweather, the temperature in Pittsburgh on March 17, 2021, was a high of 67 degrees and a low of 36 degrees. Officers Churilla and Rende informed me that they saw both dogs inside of the vehicle and the dogs appeared to be in distress. They told me that the dogs were panting and breathing heavily. Officers Churilla and Rende stated that the windows were completely closed, and that they did not see food or water inside of the vehicle. They said that the vehicle was black in color, and it was parked in the sun with the doors locked. Officer Churilla said that he agreed with Animal Care and Control Officers decision to remove the dogs from the vehicle. Officer Churilla showed me a small tool that looks like a pen that is used to break glass. He said that he gave it to one of the Animal Care and Control Officers to use to break the driver's side rear window. Officers Churilla and Rende informed me that the white dog inside of the vehicle was cooperative. They said that the tan/brown dog was barking, biting, and pawing at the window. Officer Churilla stated that he believes the tan/brown dog was protecting the area it was in. Officers Churilla and Rende told me that the tan/brown dog appeared to be aggressive, and they stepped back to allow Animal Care and Control Officers Lapp and Genco to remove the dog

from the vehicle. Officers Churilla and Rende said that only one of the Animal Care and Control Officers was using the control pole, and that they don't know which one was using the control pole. Officers Churilla and Rende informed me that the tan/brown dog was not cooperative and that they witnessed the dog biting the control pole, flopping its body on the ground, and digging its nails into the ground. Officer Churilla said that Animal Care and Control Officers did drag the dog to the truck because it was not cooperative. Officer Churilla told me that after the dog was placed in the truck that he heard one of the Animal Care and Control Officers say that the dog was entangled in the equipment they were using. Officers Churilla and Rende stated that they don't believe that Animal Care and Control Officers Lapp or Genco abused either of the two dogs in their presence. Officers Churilla and Rende informed me that they are now familiar with the proper way to handle dogs on a control pole.

On April 8, 2021, I went back to Humane Animal Rescue of Pittsburgh to interview Camille Burke, Sarah Shively, and Nancy Parson Gump.

I interviewed Camille Burke using the lap top belonging to Meagan Montmeny on Zoom. Camille Burke is seen in the garage of Humane Animal Rescue of Pittsburgh on the first video that was provided to me. She is employed as a Veterinary Technician at Humane Animal Rescue of Pittsburgh. Camille Burke reported that she was working in the Cat Tech Room entering paperwork when she heard a commotion and high-pitched yelping and screaming coming from the garage. She told me that she ran into the garage to see what was happening and saw that Animal Care and Control Officers were bringing a dog in, screaming, on a pole. Camille Burke told me that she saw one of the officers (Officer Genco) handling the dog on a control pole. She described the handling of the dog, like he was "mopping the floor". Camille Burke reported that the dog left behind him a trail of blood, feces, and urine. She said that the Animal Care and Control Officers brought the dog into the Dog Tech Room, and she retrieved other staff members because the dog was bleeding heavily. Camille Burke told me that the officers kept insisting the dog was aggressive and that is why they used a control pole. She told me the dog was not aggressive towards her or Humane Animal Rescue of Pittsburgh staff members. Camille Burke told me that the dog was shaking, panting, and showing no signs of aggression. She informed me that the injured dog was clinging to her for comfort and that he seemed traumatized and defeated. She said that the dog was giving kisses and was very sweet.

I interviewed Sarah Shively. She is employed as the Director of Shelter Programs at Humane Animal Rescue of Pittsburgh. Sarah Shively reported that Brianna Kaufman informed her that Animal Care and Control Officers brought a dog in that she needed to see immediately. She said that when she arrived at the triage exam room that there were multiple veterinary technicians in the room looking at an injured, tan, pit bull mixed dog. Sarah Shively told me that she believed there were too many people in the room and asked some of them to leave because the dog was "incredibly stressed", panting heavily, its tongue was hanging out the side of its mouth, and blood was dripping. She stated that she noticed the dog's pupils were dilated and the eyes looked blood shot. Sarah Shively informed me that there was blood all over the floor and she observed blood covering the dog's legs and feet. She said that a few employees were sitting on the floor with the dog. Sarah Shively told me that she did not observe any aggressive behaviors from the injured dog. She reported that she is familiar with the use of a control pole and that it is not unusual for a dog to be fearful while on a control pole. Sarah Shively informed me that if a dog panics that it is best to stop moving.

I interviewed Nancy Parson Gump. She is employed as a Veterinary Technician at Humane Animal Rescue of Pittsburgh. Nancy Parson Gump reported that she observed the injured dog and remembers the dog panting heavily, his eyes were red, and his mouth was bleeding a lot. She stated that the dog was friendly, and it seemed that the dog was in a lot of pain.

David Madden, Supervisor of Animal Care and Control, sent me the "Animal Shelter Services" form, a photo of the dog the vehicle was removed from, statements from Pittsburgh Police Officers Churilla and Rende, and a statement e-mailed to him from Animal Care and Control Officer James Genco. I later received photos of a damaged cage that Animal Care and Control Officer Genco reported that the injured dog is responsible for.

On April 12, 2021, I spoke with Animal Care and Control Officer John Lapp on the telephone. He informed me that he did not use the control pole on the injured dog that was brought to Humane Animal Rescue of Pittsburgh on March 17, 2021. Animal Care and Control Officer Lapp stated that he and Officer Genco removed two dogs from a vehicle and that the white color dog was friendly. He told me that the tan/brown dog was vicious. Animal Care and Control Officer Lapp said that the dog "was going nuts in there" and that Officer Rende had his gun drawn and said he would shoot it if needed. He told me that the tan/brown dog bit the pole and inside of the cage. Animal Care and Control Officer Lapp stated that Animal Care and Control Officer James Genco handled the dog and eventually got him on to the control pole. He stated that he has been working with Animal Care and Control Officer Genco for many years and that he had no intention of hurting the dog. I told Animal Care and Control Officer Lapp that the dog suffered many injuries. His response to me was, "you know he didn't club the dog. He's not like that with animals". Animal Care and Control Officer Lapp told me that all they wanted to do is get the dog into the shelter without anyone getting hurt. Animal Care and Control Officer Lapp told me, "I am really worried about this" and asked me questions about what is going to happen to Animal Care and Control Officer Genco, and if he will be charged with anything criminally. Animal Care and Control Officer Lapp said that he was inside of the building when he saw the dog lay down (garage floor). He told me that Animal Care and Control Officer Genco dragged the dog because "you couldn't pick him up". Animal Care and Control Officer Lapp stated that the staff at Humane Animal Rescue of Pittsburgh needed to put a muzzle on the injured dog. I asked Animal Care and Control Officer Lapp if the injured dog caused any damage to the truck, it was transported in. His response was, "It's hard to tell. Our cages are all bent up from other dogs". Animal Care and Control Officer Lapp asked me to put a good word in for him and Animal Care and Control Officer Genco and told me that they are willing to take additional training classes.

On April 20, 2021, I interviewed Animal Care and Control Officer James Genco in the presence of Lt. Julie Stoops and Attorney Casey White. I read James Genco his Miranda Rights from the city of Pittsburgh Bureau of Police Miranda Rights Form. He agreed to speak with Lt. Stoops and I about the incident involving the dog that was injured in the care and custody of himself and Animal Care and Control Officer John Lapp on March 17, 2021. James Genco initialized and signed the form. He told us that he has worked as an Animal Care and Control Officer in the city of Pittsburgh for the past 26 years. He said that most of what he learned was on the job training from other Animal Care and Control Officers. James Genco informed us that he attended the National Animal Control Academy in 2003 or 2004. He stated that he normally works with Animal Care and Control Officer John Lapp and that he normally handles the control pole because Animal Care and Control Officer Lapp is older and has some physical challenges. James Genco told us that he and Animal Care and Control Officer Lapp were working together on March 17, 2021. He said that they received a call through dispatch that dogs were inside of a vehicle at 21st Street and Waterfront Street. James Genco informed us that when they arrived, they saw a lot of people in the area walking their dogs and that someone reported to him and his partner that the dogs were left in the vehicle earlier that morning and the owner of the dogs may be a construction worker. He said that the windows on the vehicle were closed and that there was no food or water in the vehicle for the dogs. James Genco said that the dogs were panting. He informed us that the vehicle was parked in the sunlight and that there was no shade. James Genco said that he and Animal Care and Control Officer Lapp searched for the owner of the dogs on Smallman Street, 21st Street, and on Waterfront Street and were not successful. He told us that they went back and checked on the dogs. James Genco said that the dogs were panting and that he and Animal Care and Control Officer Lapp waited for about 10 or 15 minutes before calling the Animal Care and Control Office and using channel 1 to request police assistance. James Genco informed us that Officer Rende arrived first on Scene and Officer Churilla arrived about a minute later. He said that he and Animal Care and Control Officer Lapp explained to Officers Rende and Churilla that the dogs were inside of the vehicle all morning, the vehicle was in the sun, and that it started getting warmer. James Genco informed us that he told Officers Rende and Churilla that they may have to take the dogs and the officers agreed. He said that he and Officer Lapp did not have anything to break the window with and that Officer Churilla had a tool to

break the window. James Genco stated that the white dog was sitting in the middle of the back seat and that it was panting heavily. He said that the brown dog was in the front seat and biting at them through the window. James Genco stated that the tan/brown dog was very upset and lunged at the window and was barking. He informed us that Animal Care and Control Officer John Lapp broke the middle rear window on the driver's side. James Genco told us that the temperature outside was 50 degrees at the time the dogs were removed from the vehicle. He said that he believed the dogs were in imminent danger because the way the vehicle was parked, and the dogs didn't look too good. James Genco said that he thought they were lethargic, they were panting, their tongues were hanging out, and they were slobbering. He told us that Animal Care and Control Officer Lapp broke the window and that someone opened the door. James Genco said the plan was to try to get the brown dog out, but he was not able to get the dog on the control pole. He told us that the tan/brown dog began biting the control pole and they made the decision to remove the white dog first. James Genco stated that he kept the tan/brown dog at bay so Animal Care and Control Officer Lapp could remove the white dog from the vehicle and close the door. He said that the white dog was friendly, and the tan/brown dog was going crazy. James Genco mentioned that a lot of people with their dogs were watching them remove the dogs from the vehicle. He said that after the white dog was placed in the truck that they went back to remove the tan/brown dog. James Genco stated that Animal Care and Control Officer Lapp held the door for him and that the tan/brown dog was biting the pole. He told us that he was able to get the dog onto the pole and that the dog was twisting himself and biting the pole. James Genco said that the dog's mouth started to bleed. He told us that he was trying to get the dog to the truck and that Officer Rende pulled out his gun and threatened to shoot the dog. James Genco said that the dog was resisting. He stated that once he got the dog into the truck that the dog began biting the cage. James Genco told us that he and Animal Care and Control Officer Lapp heard the dog slamming himself in the cage during the ride to Humane Animal Rescue of Pittsburgh. He said that they arrived on scene at 10:55 am and they left the scene at 11:45 am. James Genco stated that he has not removed a lot of dogs from cars. He informed us that the dog was resisting and digging into the concrete. James Genco said that he was trying to get the dog to the truck as fast as he could because he was concerned for the safety of everyone nearby. He stated that he was taught if a dog is resisting to get it to where it needs to go as fast as you can. James Genco told us that there was a lot of blood in the vehicle on the front seat and window, in the cage the dog was put in, and on the control pole. He said that the dog's mouth was bleeding, he saw a lot of blood, and noticed that one of the dog's paws was bleeding. James Genco said that he uses a control pole as a last resort, not to get hurt or bit. He told us that he is aware of the cameras and where they are located at Humane Animal Rescue of Pittsburgh. James Genco stated that Animal Care and Control Officers don't pull inside of the garage to unload animals from the trucks because deliveries are sometimes left inside of the garage and that the garage door at Humane Animal Rescue of Pittsburgh is sometimes broken. He produced a copy of an e-mail that he sent to his supervisor, David Madden, and two photographs of the garage that were taken at Humane Animal Rescue of Pittsburgh on September 6, 2019, and September 12, 2019. James Genco told us that David Madden reached out to someone at Humane Animal Rescue of Pittsburgh and after that the conditions of the garage improved.

James Genco told us about the removal of the two dogs from the truck on March 17, 2021. He said that Animal Care and Control Officer Lapp removed the white dog from the truck using a rope with no problem. He said that he believes that he went inside of the garage with Animal Care and Control Officer Lapp, when Officer Lapp put the dog into a cage. James Genco stated that he spoke with a female and told her that they had a mean dog and a real bad dog in the truck that they need to bring inside. He told us that the female said that they don't have anyone available to help. James Genco described the female employee he spoke with as white, thin, blonde hair, glasses, in her 30's. He stated that the female may have come outside with them, but he is not sure. James Genco informed us that Animal Care and Control Officer Lapp was holding the cage when he was working to get the tan/brown dog onto the control pole. He said that he tried a few times, and the dog was biting the pole. James Genco stated that he was finally able to get the dog on the pole and that he pulled the dog off the truck. He said that when he was removing the dog from the truck that he went off balance and that the dog may have hit into the garage door. James Genco demonstrated how he uses a control pole. I asked him how many times he pulled the string on the end of the control pole while removing the dog from the truck. He told us once or twice. James Genco informed us that the tan/brown dog resisted the whole time and that he was pulling one way and the dog was pulling the other way. He said that the dog was digging his claws into the ground and continued to resist. James Genco said that the dog was walking when he brought him into the garage and decided he didn't want to cooperate. He told us that the dog did lay down and that he did drag him on the garage

floor for about 5 feet. James Genco stated that he wanted to get the dog into the room as fast as possible. I asked him if the dog went unconscious. He said that it did not. James Genco stated that he didn't stop and kept going. He told us that it was like he and the dog were playing tug a war. I asked James Genco if he was aware that while the dog was being dragged that blood, urine, and feces were left on the garage floor. He said that he was aware that there was blood on the floor. James Genco stated that he brought the dog into the tech room and the dog got on his feet. He told us that a bunch of women came rushing in. James Genco said that he had the dog against the wall and the dog was going crazy and blood was flying everywhere. He told us that someone said, "get the door" and that one or two females pushed the dog into the door. James Genco said that the dog was sedated. I was informed by Dr. Kalinauskas that the dog was not sedated. He told us that he believes the dog was sedated because he saw one of the females give the dog an injection. James Genco said that he held the control pole until the workers could put a muzzle on the dog. He told us that once a muzzle was put on the dog the dog that he took the control pole off and they left. James Genco said that David Madden called him and Animal Care and Control Officer Lapp about an hour later and told them to go back to Humane Animal Rescue of Pittsburgh and transport the injured dog to PVSEC. He informed us that he was later told not to go back to Humane Animal Rescue of Pittsburgh because the dog was transported to PVSEC by staff at Humane Animal Rescue of Pittsburgh. James Genco stated that he got back to the Animal Care and Control office at about 2:00 pm and was informed that the owner of the dog called the clerk asking where his dogs are.

James Genco stated that his job is to get animals "from point A to point B". He said that he was never formally trained on how to use a control pole and that mostly everything he learned was from experience. James Genco said that he would accept training to do his job better. He stated that the brown dog was the meanest dog he has ever had to deal with. James Genco said that he "was afraid". He told us that he did not purposely set out to hurt the dog. James Genco said that he has had three surgeries on his left shoulder in the past and may have to have another surgery. He described having a torn bicep, labrum, and rotator cuff. James Genco stated that he has three metal anchors that were drilled into his arm bone and that he arm isn't as strong as it used to be. He said that the injuries are from his job from lifting dogs up into the truck by the control pole. James Genco told us that another Animal Care and Control Officer recently broke a dog's leg while removing it from the truck and that nothing happened to that Officer. He stated that there is no city policy on how to use a control pole and no kind of formal training in his department. James Genco allowed me to make copies of the documents that he produced. He asked us to try to obtain video surveillance from where the dog was removed from the truck and to inquire if there are additional videos at Humane Animal Rescue of Pittsburgh that show the injured dog inside of the tech room or being removed from Humane Animal Rescue of Pittsburgh to PVSEC.

After interviewing James Genco, I watched the video of the two dogs being brought into the garage by James Genco and Animal Care and Control Officer Lapp on March 17, 2021. James Genco informed me during the interview that he believes that he went into Humane Animal Rescue of Pittsburgh with Animal Care and Control Officer Lapp when Officer Lapp was bringing in the friendly, white dog into the shelter. He said that he asked a female staff member that he described as white, female, blonde, thin, glasses, and in her 30's for help with the aggressive dog and that this female informed him that no one was available to help with the dog. The video shows that James Genco remained outside and did not enter the garage until he brought the injured (tan/brown) dog inside. I interviewed every staff member at Humane Animal Rescue of Pittsburgh that had any involvement with the injured dog being brought into the shelter on March 17, 2021, and no one mentioned that James Genco asked them for help.

I spoke with Officer Angela Fry from Humane Animal Rescue of Pittsburgh. I informed Officer Fry that James Genco believes that the injured dog was sedated because he viewed a staff member giving the dog an injection. Officer Fry pulled up the veterinary records and confirmed that the injured dog was not sedated. She told me that the dog was vaccinated against rabies, adenovirus, Bordetella, and parainfluenza. Officer Fry informed me that she would discuss the claims that James Genco made with Meagan Montmeny and that Meagan Montmeny will provide me with a response to the questions I have asked.

On April 21, 2021, I received a response from Meagan Montmeny. Meagan Montmeny informed me that the garage door at Humane Animal Rescue of Pittsburgh was broken on Friday, September 11, 2020, and repaired on Monday, September 14, 2020. She informed me that during that time, Animal Care and Control Officers brought six animals into the shelter that consisted of five cats and one dog. Meagan Montmeny stated that a white, female, blonde, thin, glasses, and in her 30's does not match the description of a staff member at Humane Animal Rescue of Pittsburgh. She said that the closest match in description, wasn't working on March 17, 2021.

Meagan Montmeny reported that she pulled the camera footage to see if she could observe the injured dog being loaded into their vehicle to be transported to PVSEC. She informed me that the camera angle is bad, but you can see their vehicle backing up to the door and the staff loading a crate inside, but that is all. Meagan Montmeny dropped off a thumb drive of this footage at Zone 3 for me to review.

Meagan Montmeny informed me that she and Officer Fry measured the garage, and it is 25 to 30 feet from the entrance into the garage into the animal control kennels. James Genco claimed that he dragged the dog 5 feet. His statement is not accurate.

On April 26, 2021, Lt. Julie Stoops informed me that there are no cameras at 21st Street and Waterfront Street to show the dog being removed from the vehicle.

I looked at the temperatures in Pittsburgh on [www.wunderground.com/history/weekly/us/pa/pittsburgh](http://www.wunderground.com/history/weekly/us/pa/pittsburgh) for March 17, 2021. The high temperature was 65 degrees. The low temperature was 33 degrees. The chart showed that the temperature at 11:51 am was 54 degrees.

This case was reviewed by Assistant District Attorney Lisa Borrelli, and the above listed charges were approved.

Subject: Re: PLEASE REVIEW

I totally agree. Genco's attorney texted me on Friday asking for an update. I informed him that the case is currently being reviewed and that I will keep him posted. He texted me again yesterday asking if any charging decisions were made. I did not answer his text. When the charges are approved in Quick Arrest, I will let you and Chief Kudrav know immediately.

Chief Kudrav said that we need to alert her before Genco is told of his charges being approved. They want to let the rest of Animal Control and Public safety know and explain things so they don't hear about it on the news.

Subject: PLEASE REVIEW

Good morning,

This is the narrative that I wrote for the criminal complaint involving James Genco. Please review and let me know if any changes need to be made. Thanks!

---

This complaint is prepared by your affiant, Officer Christine Luffey. I have worked as a Pittsburgh Police Officer for the past 28 years. I specialize in animal neglect and abuse cases.

On March 25, 2021, City of Pittsburgh Public Safety Director Wendell Hissrich requested that I review a video that was sent to city officials by Meagan Montmeny from Humane Animal Rescue of Pittsburgh to determine if the video is criminal in nature. The video was recorded on March 17, 2021. The video begins - CAM 09 12:03:23.216 PM (GMT 4:00) 3/17/2021. The video ends - CAM 09 12:13:56.955 PM (GMT 4.00) 3/17/2021

In the video at 12:04 04, the door next to the garage door at Humane Animal Rescue of Pittsburgh, East End location opens. Animal Care and Control Officer John Lapp walks in with a white pit bull dog on a long lead. The dog was wagging its tail. Animal Care and Control Officer James Genco is viewed propping open the door and standing there. Animal Care and Control Officer James Genco then is out of view, outside of the building.

12:05 31, Animal Care and Control Officer John Lapp is viewed walking out of the open door without the white dog.

12:07 53, Animal Care and Control Officer John Lapp walks back inside of the garage and goes out of view.

12:08 04, Animal Care and Control Officer James Genco is viewed walking in a tan colored pit bull dog on a catch pole.

12:08 09, the tan colored pit bull dog is viewed lying flat on the floor. Animal Care and Control Officer James Genco is viewed dragging the dog across the floor and goes out of view at 12:08 13.

12:08 14, blood, urine, and feces are viewed on the floor where the dog was dragged

12:08 15, a white female is seen walking into the garage area and walking in the direction of Animal Care and Control Officers John Lapp and James Genco. The female goes out of view at 12:08 18

12:08 22, the same white female with a long dyed-red ponytail is viewed hurrying back into the area she came out of.

12:13 25, Animal Care and Control Officers John Lapp and James Genco are viewed walking out of the door. The door remains open.

12:13 51, One of the Animal Care and Control Officers is viewed closing the door.

I was given permission to share the video with Assistant District Attorney Lisa Borrelli for her review. Director Wendell Hissrich asked me to investigate this incident.

I spoke to Meagan Montmeny, Chief Operations Officer at Humane Animal Rescue of Pittsburgh. Meagan Montmeny reported that she sent the video to city of Pittsburgh employees, David Madden and Lee Schmidt, because she was appalled by Animal Care and Control Officer James Genco's treatment of the dog and the injuries the dog sustained. She told me, "I was in tears watching that video footage". Meagan Montmeny stated that the dog suffered the following injuries: mouth was severely bleeding, missing teeth, ruptured blood vessels in both of its eyes (signs of strangulation), and nystagmus. She informed me that the dog was transported to PVSEC for emergency treatment. Meagan Montmeny reported that the dog was "very sweet" and "friendly". She said, "at no point was I concerned for my safety". I informed Meagan Montmeny that I was asked to investigate this incident and that I need her to provide me a list of all the employees who witnessed the incident or interacted with the injured dog. Meagan Montmeny agreed to provide me with a list of employees who have information involving the incident, provide written statements from the employees, and to provide veterinary records from Humane Animal Rescue of Pittsburgh and PVSEC involving the injuries to the dog. Meagan Montmeny informed me that she believes there is a video of the dog being removed from the truck and that she would provide that as well.

I learned that a police report was written by Officer Francis Rende, CCR# 21-44920, involving two dogs being removed from an unattended vehicle on 21st Street and Waterfront Street on March 17, 2021, at 11:33 am. Officer Francis Rende and Eric Churilla were on scene to assist Animal Care and Control Officers. These are the two dogs that were transported to Humane Animal Rescue of Pittsburgh by Animal Care and Control Officers James Genco and John Lapp.

On April 2, 2021, I went to Humane Animal Rescue of Pittsburgh and interviewed the following staff members: Meagan Montmeny, Brianna Kaufman, Shadaka Jefferson, Sarah Kutsch, Dr. Amy Kalinauskas, and Amanda Geletko.

Meagan Montmeny provided me with her written statement and a thumb drive with additional camera footage showing the injured dog being removed from the truck. We viewed the video together in her office. Meagan Montmeny told me that she watched the video frame by frame. She said that Animal Care and Control Officer Genco struggled to remove the dog from the truck for about five minutes. Meagan Montmeny told me that she viewed Animal Care and Control Officer Genco pull the noose tight three times before getting the dog on to the control stick. She stated that the dog came flying off the truck, hit the ground, appeared to bounce off the garage barrier, and then bit the control stick. Meagan Montmeny said that drops of blood were observed outside of the building. Animal Care and Control Officer John Lapp did not handle the injured dog. He stood nearby as Animal Care and Control Officer James Genco removed the dog from the truck. Meagan Montmeny stated that the injuries this dog sustained at the hands of these officers is unacceptable, is gross misconduct and cruel. She informed me that when a control stick is used on a dog and the dog is uncooperative that it is best to stop and give the dog a break. Meagan Montmeny explained that by continuing to provoke the dog with multiple attempts fuels aggression. She told me that the dog came off of the truck

with a lot of force and that the dog made contact with the building. Meagan Montmeny reported that it is important to stay in front of the dog while on a control stick and that the handler has a responsibility to constantly monitor the dog. She stated that when Animal Care and Control Officer Genco brought the dog inside of the garage and it either laid down on the floor or lost consciousness, that he should have stopped moving and re-evaluated. Meagan Montmeny told me that Animal Care and Control Officer Genco could have asked the staff at Humane Animal Rescue of Pittsburgh for help at any time. She reported that the owner of the dogs arrived at the shelter on March 17, 2021, at 2:15 pm, and that she and Officer Angie Fry spoke with him. She said that she learned that the injured dog's name is "Cash" and that the dog's owner told her that there was a lot of blood in his vehicle. Meagan Montmeny reported that once the dog was transported to PVSEC, that she had to have a critical incident stress debriefing session with the staff who witnessed the incident and/or the dog's injuries because they were extremely upset.

I interviewed Brianna Kaufman. She is employed as the Shelter Medical Manager at Humane Animal Rescue of Pittsburgh. Brianna Kaufman stated that she was working in her office when a few staff members alerted her about an incident involving Animal Care and Control Officers. She told me that she entered the triage room and viewed the dog bleeding badly. Brianna Kaufman informed me that the dog was bleeding from its paw, cheek, had some broken teeth, and potentially an injured back right leg. She told me that she observed blood on the garage doors, in front of the garage on the pavement, blood in the garage, and blood on the door leading into the garage. Brianna Kaufman reported that she took 14 photos of the dog and blood. She described the injured dog as friendly.

I interviewed Shadaka Jefferson. She is employed as a Foster Technician at Humane Animal Rescue of Pittsburgh. Shadaka Jefferson reported that she was outside taking a break when she heard two Animal Care and Control Officers talking among themselves and a dog barking inside of the truck. She told me that the dog was on a control stick and the officer handling the stick pulled it hard. Shadaka Jefferson said that the dog fell on to its butt on to the ground and went on to its side. She told me that she believes the dog hit into a stationary metal pole outside of the building. Shadaka Jefferson stated that she was very upset and alarmed at what she witnessed and went inside the building to report the incident to staff. She said that when she went into the triage room that the Officers had already left. Shadaka Jefferson informed me that she observed blood on the dog's face, mouth, and nose, and that the back right paw was bloody. She stated that she believed that the dog's tail was broken because the base of the tail was bent. Shadaka Jefferson said that she believes that the Officer handling the dog did not have the dog on the control pole correctly. She said that the control pole appeared to be under the dog's neck, which can cause choking.

I interviewed Sarah Kutsch. She is employed as a Veterinary Technician at Humane Animal Rescue of Pittsburgh. Sarah Kutsch reported that Officer Lapp brought the white dog in and told her that the other dog was giving them some trouble when they removed the dog from the vehicle. She told me that she got a good look at the injured dog when he was in the triage room and he looked lethargic, was short of breath, bleeding a large amount from his mouth and nose, and had a laceration on his paw. Sarah Kutsch stated that she and other staff members immediately retrieved a veterinarian and switched out the control pole on the dog with a leash. She told me that the injured dog showed no signs of aggression, and that the Veterinarian was able to exam him without a problem. Sarah Kutsch said that she cleaned up the blood from the dog that was outside, through the garage, and in the triage room. She told me that there was blood outside on the garage door and all over the pavement where the dog was removed from the truck. Sarah Kutsch informed me that the Officers did not handle the injured dog correctly, but instead put the dog in great distress and pain.

I interviewed Dr. Amy Kalinauskas. She is employed as a Veterinarian at Humane Animal Rescue of Pittsburgh. Dr. Kalinauskas reported that she was performing surgery on another animal when Veterinary Technician, Camille Burke, informed her that a dog was injured by Animal Care and Control Officers and was bleeding from its mouth. She said that when she entered the triage room that the injured dog was on a control pole being held by one of the Officers. Dr. Kalinauskas said that the dog was bleeding heavily out of its mouth, as well as a laceration on his right forepaw. She said

that due to the aggressive behavior that was reported to her that she placed a basket muzzle over the dog's face for safety to do a quick exam. Dr. Kalinauskas stated that the muzzle was removed quickly after she assessed that the dog was not a threat. She told me that the dog was not sedated. Dr. Kalinauskas reported that the injured dog had bitten his cheeks, as well as fractured multiple teeth. She told me that the two incisor teeth were broken, and the pulp was exposed. Dr. Kalinauskas said that the white of the dog's eyes started to bruise, and she noticed a fresh laceration on the right front paw. She told me that the dog had a fractured tail and he reacted when she touched it. Dr. Kalinauskas said that the dog was lame on a rear limb and cried out on palpation. She informed me that after having the dog in their care for about fifteen minutes that she made the decision to send the dog to PVSEC for emergency care due to multiple injuries. Dr. Kalinauskas told me that when the dog laid down inside of the vehicle that she visualized horizontal nystagmus and the dog's nose started to bleed. She said that this solidified her decision to send the dog for emergency care due to possible brain trauma. Dr. Kalinauskas informed me that the dog was in a lot of pain, mentally and physically, and she cried during the interview. She said that she found out later that the Veterinarian at PVSEC found that the tail was previously broken. Dr. Kalinauskas explained to me that the nystagmyus she viewed fits with being strangled on a control pole. She stated that it is very hard to fracture a tooth and that the material must be harder than the tooth to cause a fracture. Dr. Kalinauskas told me that she feels bad for the dog and described the dog as friendly.

I interviewed Amanda Geletko. She is employed as an Off-site Coordinator at Humane Animal Rescue of Pittsburgh. Amanda Geletko informed me that she was asked to transport the injured dog to PVSEC for emergency treatment. She informed me that she observed the injuries that the dog sustained and noticed that one of his eyes was moving rapidly. Amanda Geletko told me that the trip to PVSEC took 25 to 30 minutes and that she heard the dog whine occasionally and coughed several times. She said that she could see in the dog's eyes how much pain and scared he was. Amanda Geletko reported that the dog was friendly to everyone.

Dan Rossi, Executive Director of Humane Animal Rescue of Pittsburgh, spoke with me after I conducted the interviews. He said that situations involving Animal Care and Control Officers being rough with dogs and cats have been going on for a long time, but not to this extent. Dan Rossi told me that he believes the Officers need more training and that he is willing to help. He said that he observed the injured dog standing, shaking, and bleeding. Dan Rossi informed me that the dog did not show any signs of aggression. He stated that there was blood all over the floor from the dog bleeding from his mouth. Dan Rossi told me that in the twelve years that he has been working at Humane Animal Rescue of Pittsburgh that he never saw a dog in this condition from just being brought into the shelter.

On April 6, 2021, I called PVSEC and spoke with Dr. Emily Gardner. Dr. Gardner is the Veterinarian who treated the injured dog named "Cash" on March 17, 2021, brought to PVSEC by Amanda Geletko from Humane Animal Rescue of Pittsburgh. Dr. Gardner informed me that she remembers the injured dog and told me that the most obvious injuries that she remembers is that the dog had multiple, fractured teeth (2 K9 teeth and 3 or 4 incisors), limping on his right forelimb and hindlimb, a swollen eye, and subconjunctival hemorrhage (typical strangulation injuries), and old tail fracture, soft tissue injuries in his legs, and many scrapes and abrasions were observed. Dr. Gardner stated that the dog was in a lot of pain and that based on his injuries that she believes "excess force was used for sure" by Animal Care and Control Officers. She told me that the dog's blood work indicated that he suffered from stress and muscle damage. Dr. Gardner reported that she recommended that the dog be seen by a Veterinary Dentist and provided the contact information to the dog's owner for the dentist that PVSEC used for care. The veterinary bill from PVSEC - North Hills was \$1,230.33.

On April 7, 2021, I interviewed Officer Eric Churilla and Officer Frank Rende. Officers Churilla and Rende reported that someone called 911 to report two dogs left inside a vehicle on March 17, 2021, and that they assisted Animal Care and Control Officers. Officers Churilla and Rende told me that Animal Care and Control Officers Genco and Lapp told them that they searched for the owner of the dogs and were unsuccessful. Officers Churilla and Rende stated that Animal Care and Control Officers told them that they needed to remove the dogs from the vehicle. Officer Churilla said that

March 17, 2021, was a warm day and the temperature was rising. According to Accuweather, the temperature in Pittsburgh on March 17, 2021, was a high of 67 degrees and a low of 36 degrees. Officers Churilla and Rende informed me that they saw both dogs inside of the vehicle and the dogs appeared to be in distress. They told me that the dogs were panting and breathing heavily. Officers Churilla and Rende stated that the windows were completely closed, and that they did not see food or water inside of the vehicle. They said that the vehicle was black in color, and it was parked in the sun with the doors locked. Officer Churilla said that he agreed with Animal Care and Control Officers decision to remove the dogs from the vehicle. Officer Churilla showed me a small tool that looks like a pen that is used to break glass. He said that he gave it to one of the Animal Care and Control Officers to use to break the driver's side rear window. Officers Churilla and Rende informed me that the white dog inside of the vehicle was cooperative. They said that the tan/brown dog was barking, biting, and pawing at the window. Officer Churilla stated that he believes the tan/brown dog was protecting the area it was in. Officers Churilla and Rende told me that the tan/brown dog appeared to be aggressive, and they stepped back to allow Animal Care and Control Officers Lapp and Genco to remove the dog from the vehicle. Officers Churilla and Rende said that only one of the Animal Care and Control Officers was using the control pole, and that they don't know which one was using the control pole. Officers Churilla and Rende informed me that the tan/brown dog was not cooperative and that they witnessed the dog biting the control pole, flopping its body on the ground, and digging its nails into the ground. Officer Churilla said that Animal Care and Control Officers did drag the dog to the truck because it was not cooperative. Officer Churilla told me that after the dog was placed in the truck that he heard one of the Animal Care and Control Officers say that the dog was entangled in the equipment they were using. Officers Churilla and Rende stated that they don't believe that Animal Care and Control Officers Lapp or Genco abused either of the two dogs in their presence. Officers Churilla and Rende informed me that they are now familiar with the proper way to handle dogs on a control pole.

On April 8, 2021, I went back to Humane Animal Rescue of Pittsburgh to interview Camille Burke, Sarah Shively, and Nancy Parson Gump.

I interviewed Camille Burke using the lap top belonging to Meagan Montmeny on Zoom. Camille Burke is seen in the garage of Humane Animal Rescue of Pittsburgh on the first video that was provided to me. She is employed as a Veterinary Technician at Humane Animal Rescue of Pittsburgh. Camille Burke reported that she was working in the Cat Tech Room entering paperwork when she heard a commotion and high-pitched yelping and screaming coming from the garage. She told me that she ran into the garage to see what was happening and saw that Animal Care and Control Officers were bringing a dog in, screaming, on a pole. Camille Burke told me that she saw one of the officers (Officer Genco) handling the dog on a control pole. She described the handling of the dog, like he was "mopping the floor". Camille Burke reported that the dog left behind him a trail of blood, feces, and urine. She said that the Animal Care and Control Officers brought the dog into the Dog Tech Room, and she retrieved other staff members because the dog was bleeding heavily. Camille Burke told me that the officers kept insisting the dog was aggressive and that is why they used a control pole. She told me the dog was not aggressive towards her or Humane Animal Rescue of Pittsburgh staff members. Camille Burke told me that the dog was shaking, panting, and showing no signs of aggression. She informed me that the injured dog was clinging to her for comfort and that he seemed traumatized and defeated. She said that the dog was giving kisses and was very sweet.

I interviewed Sarah Shively. She is employed as the Director of Shelter Programs at Humane Animal Rescue of Pittsburgh. Sarah Shively reported that Brianna Kaufman informed her that Animal Care and Control Officers brought a dog in that she needed to see immediately. She said that when she arrived at the triage exam room that there were multiple veterinary technicians in the room looking at an injured, tan, pit bull mixed dog. Sarah Shively told me that she believed there were too many people in the room and asked some of them to leave because the dog was "incredibly stressed", panting heavily, its tongue was hanging out the side of its mouth, and blood was dripping. She stated that she noticed the dog's pupils were dilated and the eyes looked blood shot. Sarah Shively informed me that there was blood all over the floor and she observed blood covering the dog's legs and feet. She said that a few employees were sitting on the floor with the dog. Sarah Shively told me that she did not observe any

aggressive behaviors from the injured dog. She reported that she is familiar with the use of a control pole and that it is not unusual for a dog to be fearful while on a control pole. Sarah Shively informed me that if a dog panics that it is best to stop moving.

I interviewed Nancy Parson Gump. She is employed as a Veterinary Technician at Humane Animal Rescue of Pittsburgh. Nancy Parson Gump reported that she observed the injured dog and remembers the dog panting heavily, his eyes were red, and his mouth was bleeding a lot. She stated that the dog was friendly, and it seemed that the dog was in a lot of pain.

David Madden, Supervisor of Animal Care and Control, sent me the "Animal Shelter Services" form, a photo of the dog the vehicle was removed from, statements from Pittsburgh Police Officers Churilla and Rende, and a statement e-mailed to him from Animal Care and Control Officer James Genco. I later received photos of a damaged cage that Animal Care and Control Officer Genco reported that the injured dog is responsible for.

On April 12, 2021, I spoke with Animal Care and Control Officer John Lapp on the telephone. He informed me that he did not use the control pole on the injured dog that was brought to Humane Animal Rescue of Pittsburgh on March 17, 2021. Animal Care and Control Officer Lapp stated that he and Officer Genco removed two dogs from a vehicle and that the white color dog was friendly. He told me that the tan/brown dog was vicious. Animal Care and Control Officer Lapp said that the dog "was going nuts in there" and that Officer Rende had his gun drawn and said he would shoot it if needed. He told me that the tan/brown dog bit the pole and inside of the cage. Animal Care and Control Officer Lapp stated that Animal Care and Control Officer James Genco handled the dog and eventually got him on to the control pole. He stated that he has been working with Animal Care and Control Officer Genco for many years and that he had no intention of hurting the dog. I told Animal Care and Control Officer Lapp that the dog suffered many injuries. His response to me was, "you know he didn't club the dog. He's not like that with animals". Animal Care and Control Officer Lapp told me that all they wanted to do is get the dog into the shelter without anyone getting hurt. Animal Care and Control Officer Lapp told me, "I am really worried about this" and asked me questions about what is going to happen to Animal Care and Control Officer Genco, and if he will be charged with anything criminally. Animal Care and Control Officer Lapp said that he was inside of the building when he saw the dog lay down (garage floor). He told me that Animal Care and Control Officer Genco dragged the dog because "you couldn't pick him up". Animal Care and Control Officer Lapp stated that the staff at Humane Animal Rescue of Pittsburgh needed to put a muzzle on the injured dog. I asked Animal Care and Control Officer Lapp if the injured dog caused any damage to the truck, it was transported in. His response was, "It's hard to tell. Our cages are all bent up from other dogs". Animal Care and Control Officer Lapp asked me to put a good word in for him and Animal Care and Control Officer Genco and told me that they are willing to take additional training classes.

On April 20, 2021, I interviewed Animal Care and Control Officer James Genco in the presence of Lt. Julie Stoops and Attorney Casey White. I read James Genco his Miranda Rights from the city of Pittsburgh Bureau of Police Miranda Rights Form. He agreed to speak with Lt. Stoops and I about the incident involving the dog that was injured in the care and custody of himself and Animal Care and Control Officer John Lapp on March 17, 2021. James Genco initialized and signed the form. He told us that he has worked as an Animal Care and Control Officer in the city of Pittsburgh for the past 26 years. He said that most of what he learned was on the job training from other Animal Care and Control Officers. James Genco informed us that he attended the National Animal Control Academy in 2003 or 2004. He stated that he normally works with Animal Care and Control Officer John Lapp and that he normally handles the control pole because Animal Care and Control Officer Lapp is older and has some physical challenges. James Genco told us that he and Animal Care and Control Officer Lapp were working together on March 17, 2021. He said that they received a call through dispatch that dogs were inside of a vehicle at 21st Street and Waterfront Street. James Genco informed us that when they arrived, they saw a lot of people in the area walking their dogs and that someone reported to him and his partner that the dogs were left in the vehicle earlier that morning and the owner of the dogs may be a construction

worker. He said that the windows on the vehicle were closed and that there was no food or water in the vehicle for the dogs. James Genco said that the dogs were panting. He informed us that the vehicle was parked in the sunlight and that there was no shade. James Genco said that he and Animal Care and Control Officer Lapp searched for the owner of the dogs on Smallman Street, 21st Street, and on Waterfront Street and were not successful. He told us that they went back and checked on the dogs. James Genco said that the dogs were panting and that he and Animal Care and Control Officer Lapp waited for about 10 or 15 minutes before calling the Animal Care and Control Office and using channel 1 to request police assistance. James Genco informed us that Officer Rende arrived first on Scene and Officer Churilla arrived about a minute later. He said that he and Animal Care and Control Officer Lapp explained to Officers Rende and Churilla that the dogs were inside of the vehicle all morning, the vehicle was in the sun, and that it started getting warmer. James Genco informed us that he told Officers Rende and Churilla that they may have to take the dogs and the officers agreed. He said that he and Officer Lapp did not have anything to break the window with and that Officer Churilla had a tool to break the window. James Genco stated that the white dog was sitting in the middle of the back seat and that it was panting heavily. He said that the brown dog was in the front seat and biting at them through the window. James Genco stated that the tan/brown dog was very upset and lunged at the window and was barking. He informed us that Animal Care and Control Officer John Lapp broke the middle rear window on the driver's side. James Genco told us that the temperature outside was 50 degrees at the time the dogs were removed from the vehicle. He said that he believed the dogs were in imminent danger because the way the vehicle was parked, and the dogs didn't look too good. James Genco said that he thought they were lethargic, they were panting, their tongues were hanging out, and they were slobbering. He told us that Animal Care and Control Officer Lapp broke the window and that someone opened the door. James Genco said the plan was to try to get the brown dog out, but he was not able to get the dog on the control pole. He told us that the tan/brown dog began biting the control pole and they made the decision to remove the white dog first. James Genco stated that he kept the tan/brown dog at bay so Animal Care and Control Officer Lapp could remove the white dog from the vehicle and close the door. He said that the white dog was friendly, and the tan/brown dog was going crazy. James Genco mentioned that a lot of people with their dogs were watching them remove the dogs from the vehicle. He said that after the white dog was placed in the truck that they went back to remove the tan/brown dog. James Genco stated that Animal Care and Control Officer Lapp held the door for him and that the tan/brown dog was biting the pole. He told us that he was able to get the dog onto the pole and that the dog was twisting himself and biting the pole. James Genco said that the dog's mouth started to bleed. He told us that he was trying to get the dog to the truck and that Officer Rende pulled out his gun and threatened to shoot the dog. James Genco said that the dog was resisting. He stated that once he got the dog into the truck that the dog began biting the cage. James Genco told us that he and Animal Care and Control Officer Lapp heard the dog slamming himself in the cage during the ride to Humane Animal Rescue of Pittsburgh. He said that they arrived on scene at 10:55 am and they left the scene at 11:45 am. James Genco stated that he has not removed a lot of dogs from cars. He informed us that the dog was resisting and digging into the concrete. James Genco said that he was trying to get the dog to the truck as fast as he could because he was concerned for the safety of everyone nearby. He stated that he was taught if a dog is resisting to get it to where it needs to go as fast as you can. James Genco told us that there was a lot of blood in the vehicle on the front seat and window, in the cage the dog was put in, and on the control pole. He said that the dog's mouth was bleeding, he saw a lot of blood, and noticed that one of the dog's paws was bleeding. James Genco said that he uses a control pole as a last resort, not to get hurt or bit. He told us that he is aware of the cameras and where they are located at Humane Animal Rescue of Pittsburgh. James Genco stated that Animal Care and Control Officers don't pull inside of the garage to unload animals from the trucks because deliveries are sometimes left inside of the garage and that the garage door at Humane Animal Rescue of Pittsburgh is sometimes broken. He produced a copy of an e-mail that he sent to his supervisor, David Madden, and two photographs of the garage that were taken at Humane Animal Rescue of Pittsburgh on September 6, 2019, and September 12, 2019. James Genco told us that David Madden reached out to someone at Humane Animal Rescue of Pittsburgh and after that the conditions of the garage improved.

James Genco told us about the removal of the two dogs from the truck on March 17, 2021. He said that Animal Care and Control Officer Lapp removed the white dog from the truck using a rope with no problem. He said that he believes that he went inside of the garage with Animal Care and Control Officer Lapp, when Officer Lapp put the dog into a cage. James Genco stated that he spoke with a female and told her that they had a mean dog and a real bad dog in the truck that they need to bring inside. He told us that the female said that they don't have anyone available to

help. James Genco described the female employee he spoke with as white, thin, blonde hair, glasses, in her 30's. He stated that the female may have come outside with them, but he is not sure. James Genco informed us that Animal Care and Control Officer Lapp was holding the cage when he was working to get the tan/brown dog onto the control pole. He said that he tried a few times, and the dog was biting the pole. James Genco stated that he was finally able to get the dog on the pole and that he pulled the dog off the truck. He said that when he was removing the dog from the truck that he went off balance and that the dog may have hit into the garage door. James Genco demonstrated how he uses a control pole. I asked him how many times he pulled the string on the end of the control pole while removing the dog from the truck. He told us once or twice. James Genco informed us that the tan/brown dog resisted the whole time and that he was pulling one way and the dog was pulling the other way. He said that the dog was digging his claws into the ground and continued to resist. James Genco said that the dog was walking when he brought him into the garage and decided he didn't want to cooperate. He told us that the dog did lay down and that he did drag him on the garage floor for about 5 feet. James Genco stated that he wanted to get the dog into the room as fast as possible. I asked him if the dog went unconscious. He said that it did not. James Genco stated that he didn't stop and kept going. He told us that it was like he and the dog were playing tug a war. I asked James Genco if he was aware that while the dog was being dragged that blood, urine, and feces were left on the garage floor. He said that he was aware that there was blood on the floor. James Genco stated that he brought the dog into the tech room and the dog got on his feet. He told us that a bunch of women came rushing in. James Genco said that he had the dog against the wall and the dog was going crazy and blood was flying everywhere. He told us that someone said, "get the door" and that one or two females pushed the dog into the door. James Genco said that the dog was sedated. I was informed by Dr. Kalinauskas that the dog was not sedated. He told us that he believes the dog was sedated because he saw one of the females give the dog an injection. James Genco said that he held the control pole until the workers could put a muzzle on the dog. He told us that once a muzzle was put on the dog the dog that he took the control pole off and they left. James Genco said that David Madden called him and Animal Care and Control Officer Lapp about an hour later and told them to go back to Humane Animal Rescue of Pittsburgh and transport the injured dog to PVSEC. He informed us that he was later told not to go back to Humane Animal Rescue of Pittsburgh because the dog was transported to PVSEC by staff at Humane Animal Rescue of Pittsburgh. James Genco stated that he got back to the Animal Care and Control office at about 2:00 pm and was informed that the owner of the dog called the clerk asking where his dogs are.

James Genco stated that his job is to get animals "from point A to point B". He said that he was never formally trained on how to use a control pole and that mostly everything he learned was from experience. James Genco said that he would accept training to do his job better. He stated that the brown dog was the meanest dog he has ever had to deal with. James Genco said that he "was afraid". He told us that he did not purposely set out to hurt the dog. James Genco said that he has had three surgeries on his left shoulder in the past and may have to have another surgery. He described having a torn bicep, labrum, and rotator cuff. James Genco stated that he has three metal anchors that were drilled into his arm bone and that he arm isn't as strong as it used to be. He said that the injuries are from his job from lifting dogs up into the truck by the control pole. James Genco told us that another Animal Care and Control Officer recently broke a dog's leg while removing it from the truck and that nothing happened to that Officer. He stated that there is no city policy on how to use a control pole and no kind of formal training in his department. James Genco allowed me to make copies of the documents that he produced. He asked us to try to obtain video surveillance from where the dog was removed from the truck and to inquire if there are additional videos at Humane Animal Rescue of Pittsburgh that show the injured dog inside of the tech room or being removed from Humane Animal Rescue of Pittsburgh to PVSEC.

After interviewing James Genco, I watched the video of the two dogs being brought into the garage by James Genco and Animal Care and Control Officer Lapp on March 17, 2021. James Genco informed me during the interview that he believes that he went into Humane Animal Rescue of Pittsburgh with Animal Care and Control Officer Lapp when Officer Lapp was bringing in the friendly, white dog into the shelter. He said that he asked a female staff member that he described as white, female, blonde, thin, glasses, and in her 30's for help with the aggressive dog and that this female informed him that no one was available to help with the dog. The video shows that James Genco remained outside and did not enter the garage until he brought the injured (tan/brown) dog inside. I interviewed every staff member at

Humane Animal Rescue of Pittsburgh that had any involvement with the injured dog being brought into the shelter on March 17, 2021, and no one mentioned that James Genco asked them for help.

I spoke with Officer Angela Fry from Humane Animal Rescue of Pittsburgh. I informed Officer Fry that James Genco believes that the injured dog was sedated because he viewed a staff member giving the dog an injection. Officer Fry pulled up the veterinary records and confirmed that the injured dog was not sedated. She told me that the dog was vaccinated against rabies, adenovirus, Bordetella, and parainfluenza. Officer Fry informed me that she would discuss the claims that James Genco made with Meagan Montmeny and that Meagan Montmeny will provide me with a response to the questions I have asked.

On April 21, 2021, I received a response from Meagan Montmeny. Meagan Montmeny informed me that the garage door at Humane Animal Rescue of Pittsburgh was broken on Friday, September 11, 2020, and repaired on Monday, September 14, 2020. She informed me that during that time, Animal Care and Control Officers brought six animals into the shelter that consisted of five cats and one dog. Meagan Montmeny stated that a white, female, blonde, thin, glasses, and in her 30's does not match the description of a staff member at Humane Animal Rescue of Pittsburgh. She said that the closest match in description, wasn't working on March 17, 2021.

Meagan Montmeny reported that she pulled the camera footage to see if she could observe the injured dog being loaded into their vehicle to be transported to PVSEC. She informed me that the camera angle is bad, but you can see their vehicle backing up to the door and the staff loading a crate inside, but that is all. Meagan Montmeny dropped off a thumb drive of this footage at Zone 3 for me to review.

Meagan Montmeny informed me that she and Officer Fry measured the garage, and it is 25 to 30 feet from the entrance into the garage into the animal control kennels. James Genco claimed that he dragged the dog 5 feet. His statement is not accurate.

On April 26, 2021, Lt. Julie Stoops informed me that there are no cameras at 21st Street and Waterfront Street to show the dog being removed from the vehicle.

I looked at the temperatures in Pittsburgh on [www.wunderground.com/history/weekly/us/pa/pittsburgh](http://www.wunderground.com/history/weekly/us/pa/pittsburgh) for March 17, 2021. The high temperature was 65 degrees. The low temperature was 33 degrees. The chart showed that the temperature at 11:51 am was 54 degrees.

This case was reviewed by Assistant District Attorney Lisa Borrelli, and the above listed charges were approved.

Subject: PLEASE REVIEW

Good morning,

This is the narrative that I wrote for the criminal complaint involving James Genco. Please review and let me know if any changes need to be made. Thanks!

-----

This complaint is prepared by your affiant, Officer Christine Luffey. I have worked as a Pittsburgh Police Officer for the past 28 years. I specialize in animal neglect and abuse cases.

On March 25, 2021, City of Pittsburgh Public Safety Director Wendell Hissrich requested that I review a video that was sent to city officials by Meagan Montmeny from Humane Animal Rescue of Pittsburgh to determine if the video is criminal in nature. The video was recorded on March 17, 2021. The video begins - CAM 09 12:03:23.216 PM (GMT 4:00) 3/17/2021. The video ends - CAM 09 12:13:56.955 PM (GMT 4.00) 3/17/2021

In the video at 12:04 04, the door next to the garage door at Humane Animal Rescue of Pittsburgh, East End location opens. Animal Care and Control Officer John Lapp walks in with a white pit bull dog on a long lead. The dog was wagging its tail. Animal Care and Control Officer James Genco is viewed propping open the door and standing there. Animal Care and Control Officer James Genco then is out of view, outside of the building.

12:05 31, Animal Care and Control Officer John Lapp is viewed walking out of the open door without the white dog.

12:07 53, Animal Care and Control Officer John Lapp walks back inside of the garage and goes out of view.

12:08 04, Animal Care and Control Officer James Genco is viewed walking in a tan colored pit bull dog on a catch pole.

12:08 09, the tan colored pit bull dog is viewed lying flat on the floor. Animal Care and Control Officer James Genco is viewed dragging the dog across the floor and goes out of view at 12:08 13.

12:08 14, blood, urine, and feces are viewed on the floor where the dog was dragged

12:08 15, a white female is seen walking into the garage area and walking in the direction of Animal Care and Control Officers John Lapp and James Genco. The female goes out of view at 12:08 18

12:08 22, the same white female with a long dyed-red ponytail is viewed hurrying back into the area she came out of.

12:13 25, Animal Care and Control Officers John Lapp and James Genco are viewed walking out of the door. The door remains open.

12:13 51, One of the Animal Care and Control Officers is viewed closing the door.

I was given permission to share the video with Assistant District Attorney Lisa Borrelli for her review. Director Wendell Hissrich asked me to investigate this incident.

I spoke to Meagan Montmeny, Chief Operations Officer at Humane Animal Rescue of Pittsburgh. Meagan Montmeny reported that she sent the video to city of Pittsburgh employees, David Madden and Lee Schmidt, because she was appalled by Animal Care and Control Officer James Genco's treatment of the dog and the injuries the dog sustained. She told me, "I was in tears watching that video footage". Meagan Montmeny stated that the dog suffered the following injuries: mouth was severely bleeding, missing teeth, ruptured blood vessels in both of its eyes (signs of strangulation), and nystagmus. She informed me that the dog was transported to PVSEC for emergency treatment. Meagan Montmeny reported that the dog was "very sweet" and "friendly". She said, "at no point was I concerned for my safety". I informed Meagan Montmeny that I was asked to investigate this incident and that I need her to provide me a list of all the employees who witnessed the incident or interacted with the injured dog. Meagan Montmeny agreed to provide me with a list of employees who have

information involving the incident, provide written statements from the employees, and to provide veterinary records from Humane Animal Rescue of Pittsburgh and PVSEC involving the injuries to the dog. Meagan Montmeny informed me that she believes there is a video of the dog being removed from the truck and that she would provide that as well.

I learned that a police report was written by Officer Francis Rende, CCR# 21-44920, involving two dogs being removed from an unattended vehicle on 21st Street and Waterfront Street on March 17, 2021, at 11:33 am. Officer Francis Rende and Eric Churilla were on scene to assist Animal Care and Control Officers. These are the two dogs that were transported to Humane Animal Rescue of Pittsburgh by Animal Care and Control Officers James Genco and John Lapp.

On April 2, 2021, I went to Humane Animal Rescue of Pittsburgh and interviewed the following staff members: Meagan Montmeny, Brianna Kaufman, Shadaka Jefferson, Sarah Kutsch, Dr. Amy Kalinauskas, and Amanda Geletko.

Meagan Montmeny provided me with her written statement and a thumb drive with additional camera footage showing the injured dog being removed from the truck. We viewed the video together in her office. Meagan Montmeny told me that she watched the video frame by frame. She said that Animal Care and Control Officer Genco struggled to remove the dog from the truck for about five minutes. Meagan Montmeny told me that she viewed Animal Care and Control Officer Genco pull the noose tight three times before getting the dog on to the control stick. She stated that the dog came flying off the truck, hit the ground, appeared to bounce off the garage barrier, and then bit the control stick. Meagan Montmeny said that drops of blood were observed outside of the building. Animal Care and Control Officer John Lapp did not handle the injured dog. He stood nearby as Animal Care and Control Officer James Genco removed the dog from the truck. Meagan Montmeny stated that the injuries this dog sustained at the hands of these officers is unacceptable, is gross misconduct and cruel. She informed me that when a control stick is used on a dog and the dog is uncooperative that it is best to stop and give the dog a break. Meagan Montmeny explained that by continuing to provoke the dog with multiple attempts fuels aggression. She told me that the dog came off of the truck with a lot of force and that the dog made contact with the building. Meagan Montmeny reported that it is important to stay in front of the dog while on a control stick and that the handler has a responsibility to constantly monitor the dog. She stated that when Animal Care and Control Officer Genco brought the dog inside of the garage and it either laid down on the floor or lost consciousness, that he should have stopped moving and re-evaluated. Meagan Montmeny told me that Animal Care and Control Officer Genco could have asked the staff at Humane Animal Rescue of Pittsburgh for help at any time. She reported that the owner of the dogs arrived at the shelter on March 17, 2021, at 2:15 pm, and that she and Officer Angie Fry spoke with him. She said that she learned that the injured dog's name is "Cash" and that the dog's owner told her that there was a lot of blood in his vehicle. Meagan Montmeny reported that once the dog was transported to PVSEC, that she had to have a critical incident stress debriefing session with the staff who witnessed the incident and/or the dog's injuries because they were extremely upset.

I interviewed Brianna Kaufman. She is employed as the Shelter Medical Manager at Humane Animal Rescue of Pittsburgh. Brianna Kaufman stated that she was working in her office when a few staff members alerted her about an incident involving Animal Care and Control Officers. She told me that she entered the triage room and viewed the dog bleeding badly. Brianna Kaufman informed me that the dog was bleeding from its paw, cheek, had some broken teeth, and potentially an injured back right leg. She told me that she observed blood on the garage doors, in front of the garage on the pavement, blood in the garage, and blood on the door leading into the garage. Brianna Kaufman reported that she took 14 photos of the dog and blood. She described the injured dog as friendly.

I interviewed Shadaka Jefferson. She is employed as a Foster Technician at Humane Animal Rescue of Pittsburgh. Shadaka Jefferson reported that she was outside taking a break when she heard two Animal Care and Control Officers talking among themselves and a dog barking inside of the truck. She told me that the dog was on a control stick and the officer handling the stick pulled it hard. Shadaka Jefferson said that the dog fell on to its butt on to

the ground and went on to its side. She told me that she believes the dog hit into a stationary metal pole outside of the building. Shadaka Jefferson stated that she was very upset and alarmed at what she witnessed and went inside the building to report the incident to staff. She said that when she went into the triage room that the Officers had already left. Shadaka Jefferson informed me that she observed blood on the dog's face, mouth, and nose, and that the back right paw was bloody. She stated that she believed that the dog's tail was broken because the base of the tail was bent. Shadaka Jefferson said that she believes that the Officer handling the dog did not have the dog on the control pole correctly. She said that the control pole appeared to be under the dog's neck, which can cause choking.

I interviewed Sarah Kutsch. She is employed as a Veterinary Technician at Humane Animal Rescue of Pittsburgh. Sarah Kutsch reported that Officer Lapp brought the white dog in and told her that the other dog was giving them some trouble when they removed the dog from the vehicle. She told me that she got a good look at the injured dog when he was in the triage room and he looked lethargic, was short of breath, bleeding a large amount from his mouth and nose, and had a laceration on his paw. Sarah Kutsch stated that she and other staff members immediately retrieved a veterinarian and switched out the control pole on the dog with a leash. She told me that the injured dog showed no signs of aggression, and that the Veterinarian was able to exam him without a problem. Sarah Kutsch said that she cleaned up the blood from the dog that was outside, through the garage, and in the triage room. She told me that there was blood outside on the garage door and all over the pavement where the dog was removed from the truck. Sarah Kutsch informed me that the Officers did not handle the injured dog correctly, but instead put the dog in great distress and pain.

I interviewed Dr. Amy Kalinauskas. She is employed as a Veterinarian at Humane Animal Rescue of Pittsburgh. Dr. Kalinauskas reported that she was performing surgery on another animal when Veterinary Technician, Camille Burke, informed her that a dog was injured by Animal Care and Control Officers and was bleeding from its mouth. She said that when she entered the triage room that the injured dog was on a control pole being held by one of the Officers. Dr. Kalinauskas said that the dog was bleeding heavily out of its mouth, as well as a laceration on his right forepaw. She said that due to the aggressive behavior that was reported to her that she placed a basket muzzle over the dog's face for safety to do a quick exam. Dr. Kalinauskas stated that the muzzle was removed quickly after she assessed that the dog was not a threat. She told me that the dog was not sedated. Dr. Kalinauskas reported that the injured dog had bitten his cheeks, as well as fractured multiple teeth. She told me that the two incisor teeth were broken, and the pulp was exposed. Dr. Kalinauskas said that the white of the dog's eyes started to bruise, and she noticed a fresh laceration on the right front paw. She told me that the dog had a fractured tail and he reacted when she touched it. Dr. Kalinauskas said that the dog was lame on a rear limb and cried out on palpation. She informed me that after having the dog in their care for about fifteen minutes that she made the decision to send the dog to PVSEC for emergency care due to multiple injuries. Dr. Kalinauskas told me that when the dog laid down inside of the vehicle that she visualized horizontal nystagmus and the dog's nose started to bleed. She said that this solidified her decision to send the dog for emergency care due to possible brain trauma. Dr. Kalinauskas informed me that the dog was in a lot of pain, mentally and physically, and she cried during the interview. She said that she found out later that the Veterinarian at PVSEC found that the tail was previously broken. Dr. Kalinauskas explained to me that the nystagmyus she viewed fits with being strangled on a control pole. She stated that it is very hard to fracture a tooth and that the material must be harder than the tooth to cause a fracture. Dr. Kalinauskas told me that she feels bad for the dog and described the dog as friendly.

I interviewed Amanda Geletko. She is employed as an Off-site Coordinator at Humane Animal Rescue of Pittsburgh. Amanda Geletko informed me that she was asked to transport the injured dog to PVSEC for emergency treatment. She informed me that she observed the injuries that the dog sustained and noticed that one of his eyes was moving rapidly. Amanda Geletko told me that the trip to PVSEC took 25 to 30 minutes and that she heard the dog whine occasionally and coughed several times. She said that she could see in the dog's eyes how much pain and scared he was. Amanda Geletko reported that the dog was friendly to everyone.

Dan Rossi, Executive Director of Humane Animal Rescue of Pittsburgh, spoke with me after I conducted the interviews. He said that situations involving Animal Care and Control Officers being rough with dogs and cats have been going on for a long time, but not to this extent. Dan Rossi told me that he believes the Officers need more training and that he is willing to help. He said that he observed the injured dog standing, shaking, and bleeding. Dan Rossi informed me that the dog did not show any signs of aggression. He stated that there was blood all over the floor from the dog bleeding from his mouth. Dan Rossi told me that in the twelve years that he has been working at Humane Animal Rescue of Pittsburgh that he never saw a dog in this condition from just being brought into the shelter.

On April 6, 2021, I called PVSEC and spoke with Dr. Emily Gardner. Dr. Gardner is the Veterinarian who treated the injured dog named "Cash" on March 17, 2021, brought to PVSEC by Amanda Geletko from Humane Animal Rescue of Pittsburgh. Dr. Gardner informed me that she remembers the injured dog and told me that the most obvious injuries that she remembers is that the dog had multiple, fractured teeth (2 K9 teeth and 3 or 4 incisors), limping on his right forelimb and hindlimb, a swollen eye, and subconjunctival hemorrhage (typical strangulation injuries), and old tail fracture, soft tissue injuries in his legs, and many scrapes and abrasions were observed. Dr. Gardner stated that the dog was in a lot of pain and that based on his injuries that she believes "excess force was used for sure" by Animal Care and Control Officers. She told me that the dog's blood work indicated that he suffered from stress and muscle damage. Dr. Gardner reported that she recommended that the dog be seen by a Veterinary Dentist and provided the contact information to the dog's owner for the dentist that PVSEC used for care. The veterinary bill from PVSEC - North Hills was \$1,230.33.

On April 7, 2021, I interviewed Officer Eric Churilla and Officer Frank Rende. Officers Churilla and Rende reported that someone called 911 to report two dogs left inside a vehicle on March 17, 2021, and that they assisted Animal Care and Control Officers. Officers Churilla and Rende told me that Animal Care and Control Officers Genco and Lapp told them that they searched for the owner of the dogs and were unsuccessful. Officers Churilla and Rende stated that Animal Care and Control Officers told them that they needed to remove the dogs from the vehicle. Officer Churilla said that March 17, 2021, was a warm day and the temperature was rising. According to Accuweather, the temperature in Pittsburgh on March 17, 2021, was a high of 67 degrees and a low of 36 degrees. Officers Churilla and Rende informed me that they saw both dogs inside of the vehicle and the dogs appeared to be in distress. They told me that the dogs were panting and breathing heavily. Officers Churilla and Rende stated that the windows were completely closed, and that they did not see food or water inside of the vehicle. They said that the vehicle was black in color, and it was parked in the sun with the doors locked. Officer Churilla said that he agreed with Animal Care and Control Officers decision to remove the dogs from the vehicle. Officer Churilla showed me a small tool that looks like a pen that is used to break glass. He said that he gave it to one of the Animal Care and Control Officers to use to break the driver's side rear window. Officers Churilla and Rende informed me that the white dog inside of the vehicle was cooperative. They said that the tan/brown dog was barking, biting, and pawing at the window. Officer Churilla stated that he believes the tan/brown dog was protecting the area it was in. Officers Churilla and Rende told me that the tan/brown dog appeared to be aggressive, and they stepped back to allow Animal Care and Control Officers Lapp and Genco to remove the dog from the vehicle. Officers Churilla and Rende said that only one of the Animal Care and Control Officers was using the control pole, and that they don't know which one was using the control pole. Officers Churilla and Rende informed me that the tan/brown dog was not cooperative and that they witnessed the dog biting the control pole, flopping its body on the ground, and digging its nails into the ground. Officer Churilla said that Animal Care and Control Officers did drag the dog to the truck because it was not cooperative. Officer Churilla told me that after the dog was placed in the truck that he heard one of the Animal Care and Control Officers say that the dog was entangled in the equipment they were using. Officers Churilla and Rende stated that they don't believe that Animal Care and Control Officers Lapp or Genco abused either of the two dogs in their presence. Officers Churilla and Rende informed me that they are now familiar with the proper way to handle dogs on a control pole.

On April 8, 2021, I went back to Humane Animal Rescue of Pittsburgh to interview Camille Burke, Sarah Shively, and Nancy Parson Gump.

I interviewed Camille Burke using the lap top belonging to Meagan Montmeny on Zoom. Camille Burke is seen in the garage of Humane Animal Rescue of Pittsburgh on the first video that was provided to me. She is employed as a Veterinary Technician at Humane Animal Rescue of Pittsburgh. Camille Burke reported that she was working in the Cat Tech Room entering paperwork when she heard a commotion and high-pitched yelping and screaming coming from the garage. She told me that she ran into the garage to see what was happening and saw that Animal Care and Control Officers were bringing a dog in, screaming, on a pole. Camille Burke told me that she saw one of the officers (Officer Genco) handling the dog on a control pole. She described the handling of the dog, like he was "mopping the floor". Camille Burke reported that the dog left behind him a trail of blood, feces, and urine. She said that the Animal Care and Control Officers brought the dog into the Dog Tech Room, and she retrieved other staff members because the dog was bleeding heavily. Camille Burke told me that the officers kept insisting the dog was aggressive and that is why they used a control pole. She told me the dog was not aggressive towards her or Humane Animal Rescue of Pittsburgh staff members. Camille Burke told me that the dog was shaking, panting, and showing no signs of aggression. She informed me that the injured dog was clinging to her for comfort and that he seemed traumatized and defeated. She said that the dog was giving kisses and was very sweet.

I interviewed Sarah Shively. She is employed as the Director of Shelter Programs at Humane Animal Rescue of Pittsburgh. Sarah Shively reported that Brianna Kaufman informed her that Animal Care and Control Officers brought a dog in that she needed to see immediately. She said that when she arrived at the triage exam room that there were multiple veterinary technicians in the room looking at an injured, tan, pit bull mixed dog. Sarah Shively told me that she believed there were too many people in the room and asked some of them to leave because the dog was "incredibly stressed", panting heavily, its tongue was hanging out the side of its mouth, and blood was dripping. She stated that she noticed the dog's pupils were dilated and the eyes looked blood shot. Sarah Shively informed me that there was blood all over the floor and she observed blood covering the dog's legs and feet. She said that a few employees were sitting on the floor with the dog. Sarah Shively told me that she did not observe any aggressive behaviors from the injured dog. She reported that she is familiar with the use of a control pole and that it is not unusual for a dog to be fearful while on a control pole. Sarah Shively informed me that if a dog panics that it is best to stop moving.

I interviewed Nancy Parson Gump. She is employed as a Veterinary Technician at Humane Animal Rescue of Pittsburgh. Nancy Parson Gump reported that she observed the injured dog and remembers the dog panting heavily, his eyes were red, and his mouth was bleeding a lot. She stated that the dog was friendly, and it seemed that the dog was in a lot of pain.

David Madden, Supervisor of Animal Care and Control, sent me the "Animal Shelter Services" form, a photo of the dog the vehicle was removed from, statements from Pittsburgh Police Officers Churilla and Rende, and a statement e-mailed to him from Animal Care and Control Officer James Genco. I later received photos of a damaged cage that Animal Care and Control Officer Genco reported that the injured dog is responsible for.

On April 12, 2021, I spoke with Animal Care and Control Officer John Lapp on the telephone. He informed me that he did not use the control pole on the injured dog that was brought to Humane Animal Rescue of Pittsburgh on March 17, 2021. Animal Care and Control Officer Lapp stated that he and Officer Genco removed two dogs from a vehicle and that the white color dog was friendly. He told me that the tan/brown dog was vicious. Animal Care and Control Officer Lapp said that the dog "was going nuts in there" and that Officer Rende had his gun drawn and said he would shoot it if needed. He told me that the tan/brown dog bit the pole and inside of the cage. Animal Care and Control Officer Lapp stated that Animal Care and Control Officer James Genco handled the dog and eventually got him on to the control pole. He stated that he has been working with Animal Care and Control Officer Genco for many years and that

he had no intention of hurting the dog. I told Animal Care and Control Officer Lapp that the dog suffered many injuries. His response to me was, "you know he didn't club the dog. He's not like that with animals". Animal Care and Control Officer Lapp told me that all they wanted to do is get the dog into the shelter without anyone getting hurt. Animal Care and Control Officer Lapp told me, "I am really worried about this" and asked me questions about what is going to happen to Animal Care and Control Officer Genco, and if he will be charged with anything criminally. Animal Care and Control Officer Lapp said that he was inside of the building when he saw the dog lay down (garage floor). He told me that Animal Care and Control Officer Genco dragged the dog because "you couldn't pick him up". Animal Care and Control Officer Lapp stated that the staff at Humane Animal Rescue of Pittsburgh needed to put a muzzle on the injured dog. I asked Animal Care and Control Officer Lapp if the injured dog caused any damage to the truck, it was transported in. His response was, "It's hard to tell. Our cages are all bent up from other dogs". Animal Care and Control Officer Lapp asked me to put a good word in for him and Animal Care and Control Officer Genco and told me that they are willing to take additional training classes.

On April 20, 2021, I interviewed Animal Care and Control Officer James Genco in the presence of Lt. Julie Stoops and Attorney Casey White. I read James Genco his Miranda Rights from the city of Pittsburgh Bureau of Police Miranda Rights Form. He agreed to speak with Lt. Stoops and I about the incident involving the dog that was injured in the care and custody of himself and Animal Care and Control Officer John Lapp on March 17, 2021. James Genco initialized and signed the form. He told us that he has worked as an Animal Care and Control Officer in the city of Pittsburgh for the past 26 years. He said that most of what he learned was on the job training from other Animal Care and Control Officers. James Genco informed us that he attended the National Animal Control Academy in 2003 or 2004. He stated that he normally works with Animal Care and Control Officer John Lapp and that he normally handles the control pole because Animal Care and Control Officer Lapp is older and has some physical challenges. James Genco told us that he and Animal Care and Control Officer Lapp were working together on March 17, 2021. He said that they received a call through dispatch that dogs were inside of a vehicle at 21st Street and Waterfront Street. James Genco informed us that when they arrived, they saw a lot of people in the area walking their dogs and that someone reported to him and his partner that the dogs were left in the vehicle earlier that morning and the owner of the dogs may be a construction worker. He said that the windows on the vehicle were closed and that there was no food or water in the vehicle for the dogs. James Genco said that the dogs were panting. He informed us that the vehicle was parked in the sunlight and that there was no shade. James Genco said that he and Animal Care and Control Officer Lapp searched for the owner of the dogs on Smallman Street, 21st Street, and on Waterfront Street and were not successful. He told us that they went back and checked on the dogs. James Genco said that the dogs were panting and that he and Animal Care and Control Officer Lapp waited for about 10 or 15 minutes before calling the Animal Care and Control Office and using channel 1 to request police assistance. James Genco informed us that Officer Rende arrived first on Scene and Officer Churilla arrived about a minute later. He said that he and Animal Care and Control Officer Lapp explained to Officers Rende and Churilla that the dogs were inside of the vehicle all morning, the vehicle was in the sun, and that it started getting warmer. James Genco informed us that he told Officers Rende and Churilla that they may have to take the dogs and the officers agreed. He said that he and Officer Lapp did not have anything to break the window with and that Officer Churilla had a tool to break the window. James Genco stated that the white dog was sitting in the middle of the back seat and that it was panting heavily. He said that the brown dog was in the front seat and biting at them through the window. James Genco stated that the tan/brown dog was very upset and lunged at the window and was barking. He informed us that Animal Care and Control Officer John Lapp broke the middle rear window on the driver's side. James Genco told us that the temperature outside was 50 degrees at the time the dogs were removed from the vehicle. He said that he believed the dogs were in imminent danger because the way the vehicle was parked, and the dogs didn't look too good. James Genco said that he thought they were lethargic, they were panting, their tongues were hanging out, and they were slobbering. He told us that Animal Care and Control Officer Lapp broke the window and that someone opened the door. James Genco said the plan was to try to get the brown dog out, but he was not able to get the dog on the control pole. He told us that the tan/brown dog began biting the control pole and they made the decision to remove the white dog first. James Genco stated that he kept the tan/brown dog at bay so Animal Care and Control Officer Lapp could remove the white dog from the vehicle and close the door. He said that the white dog was friendly, and the tan/brown dog was going crazy. James Genco mentioned that a lot of people with their dogs were watching them remove the dogs from the vehicle. He said that after the white dog was placed in the truck that they went back to remove the tan/brown

dog. James Genco stated that Animal Care and Control Officer Lapp held the door for him and that the tan/brown dog was biting the pole. He told us that he was able to get the dog onto the pole and that the dog was twisting himself and biting the pole. James Genco said that the dog's mouth started to bleed. He told us that he was trying to get the dog to the truck and that Officer Rende pulled out his gun and threatened to shoot the dog. James Genco said that the dog was resisting. He stated that once he got the dog into the truck that the dog began biting the cage. James Genco told us that he and Animal Care and Control Officer Lapp heard the dog slamming himself in the cage during the ride to Humane Animal Rescue of Pittsburgh. He said that they arrived on scene at 10:55 am and they left the scene at 11:45 am. James Genco stated that he has not removed a lot of dogs from cars. He informed us that the dog was resisting and digging into the concrete. James Genco said that he was trying to get the dog to the truck as fast as he could because he was concerned for the safety of everyone nearby. He stated that he was taught if a dog is resisting to get it to where it needs to go as fast as you can. James Genco told us that there was a lot of blood in the vehicle on the front seat and window, in the cage the dog was put in, and on the control pole. He said that the dog's mouth was bleeding, he saw a lot of blood, and noticed that one of the dog's paws was bleeding. James Genco said that he uses a control pole as a last resort, not to get hurt or bit. He told us that he is aware of the cameras and where they are located at Humane Animal Rescue of Pittsburgh. James Genco stated that Animal Care and Control Officers don't pull inside of the garage to unload animals from the trucks because deliveries are sometimes left inside of the garage and that the garage door at Humane Animal Rescue of Pittsburgh is sometimes broken. He produced a copy of an e-mail that he sent to his supervisor, David Madden, and two photographs of the garage that were taken at Humane Animal Rescue of Pittsburgh on September 6, 2019, and September 12, 2019. James Genco told us that David Madden reached out to someone at Humane Animal Rescue of Pittsburgh and after that the conditions of the garage improved.

James Genco told us about the removal of the two dogs from the truck on March 17, 2021. He said that Animal Care and Control Officer Lapp removed the white dog from the truck using a rope with no problem. He said that he believes that he went inside of the garage with Animal Care and Control Officer Lapp, when Officer Lapp put the dog into a cage. James Genco stated that he spoke with a female and told her that they had a mean dog and a real bad dog in the truck that they need to bring inside. He told us that the female said that they don't have anyone available to help. James Genco described the female employee he spoke with as white, thin, blonde hair, glasses, in her 30's. He stated that the female may have come outside with them, but he is not sure. James Genco informed us that Animal Care and Control Officer Lapp was holding the cage when he was working to get the tan/brown dog onto the control pole. He said that he tried a few times, and the dog was biting the pole. James Genco stated that he was finally able to get the dog on the pole and that he pulled the dog off the truck. He said that when he was removing the dog from the truck that he went off balance and that the dog may have hit into the garage door. James Genco demonstrated how he uses a control pole. I asked him how many times he pulled the string on the end of the control pole while removing the dog from the truck. He told us once or twice. James Genco informed us that the tan/brown dog resisted the whole time and that he was pulling one way and the dog was pulling the other way. He said that the dog was digging his claws into the ground and continued to resist. James Genco said that the dog was walking when he brought him into the garage and decided he didn't want to cooperate. He told us that the dog did lay down and that he did drag him on the garage floor for about 5 feet. James Genco stated that he wanted to get the dog into the room as fast as possible. I asked him if the dog went unconscious. He said that it did not. James Genco stated that he didn't stop and kept going. He told us that it was like he and the dog were playing tug a war. I asked James Genco if he was aware that while the dog was being dragged that blood, urine, and feces were left on the garage floor. He said that he was aware that there was blood on the floor. James Genco stated that he brought the dog into the tech room and the dog got on his feet. He told us that a bunch of women came rushing in. James Genco said that he had the dog against the wall and the dog was going crazy and blood was flying everywhere. He told us that someone said, "get the door" and that one or two females pushed the dog into the door. James Genco said that the dog was sedated. I was informed by Dr. Kalinauskas that the dog was not sedated. He told us that he believes the dog was sedated because he saw one of the females give the dog an injection. James Genco said that he held the control pole until the workers could put a muzzle on the dog. He told us that once a muzzle was put on the dog the dog that he took the control pole off and they left. James Genco said that David Madden called him and Animal Care and Control Officer Lapp about an hour later and told them to go back to Humane Animal Rescue of Pittsburgh and transport the injured dog to PVSEC. He informed us that he was later told not to go back to Humane Animal Rescue of Pittsburgh because the dog was transported to PVSEC

by staff at Humane Animal Rescue of Pittsburgh. James Genco stated that he got back to the Animal Care and Control office at about 2:00 pm and was informed that the owner of the dog called the clerk asking where his dogs are.

James Genco stated that his job is to get animals "from point A to point B". He said that he was never formally trained on how to use a control pole and that mostly everything he learned was from experience. James Genco said that he would accept training to do his job better. He stated that the brown dog was the meanest dog he has ever had to deal with. James Genco said that he "was afraid". He told us that he did not purposely set out to hurt the dog. James Genco said that he has had three surgeries on his left shoulder in the past and may have to have another surgery. He described having a torn bicep, labrum, and rotator cuff. James Genco stated that he has three metal anchors that were drilled into his arm bone and that he arm isn't as strong as it used to be. He said that the injuries are from his job from lifting dogs up into the truck by the control pole. James Genco told us that another Animal Care and Control Officer recently broke a dog's leg while removing it from the truck and that nothing happened to that Officer. He stated that there is no city policy on how to use a control pole and no kind of formal training in his department. James Genco allowed me to make copies of the documents that he produced. He asked us to try to obtain video surveillance from where the dog was removed from the truck and to inquire if there are additional videos at Humane Animal Rescue of Pittsburgh that show the injured dog inside of the tech room or being removed from Humane Animal Rescue of Pittsburgh to PVSEC.

After interviewing James Genco, I watched the video of the two dogs being brought into the garage by James Genco and Animal Care and Control Officer Lapp on March 17, 2021. James Genco informed me during the interview that he believes that he went into Humane Animal Rescue of Pittsburgh with Animal Care and Control Officer Lapp when Officer Lapp was bringing in the friendly, white dog into the shelter. He said that he asked a female staff member that he described as white, female, blonde, thin, glasses, and in her 30's for help with the aggressive dog and that this female informed him that no one was available to help with the dog. The video shows that James Genco remained outside and did not enter the garage until he brought the injured (tan/brown) dog inside. I interviewed every staff member at Humane Animal Rescue of Pittsburgh that had any involvement with the injured dog being brought into the shelter on March 17, 2021, and no one mentioned that James Genco asked them for help.

I spoke with Officer Angela Fry from Humane Animal Rescue of Pittsburgh. I informed Officer Fry that James Genco believes that the injured dog was sedated because he viewed a staff member giving the dog an injection. Officer Fry pulled up the veterinary records and confirmed that the injured dog was not sedated. She told me that the dog was vaccinated against rabies, adenovirus, Bordetella, and parainfluenza. Officer Fry informed me that she would discuss the claims that James Genco made with Meagan Montmeny and that Meagan Montmeny will provide me with a response to the questions I have asked.

On April 21, 2021, I received a response from Meagan Montmeny. Meagan Montmeny informed me that the garage door at Humane Animal Rescue of Pittsburgh was broken on Friday, September 11, 2020, and repaired on Monday, September 14, 2020. She informed me that during that time, Animal Care and Control Officers brought six animals into the shelter that consisted of five cats and one dog. Meagan Montmeny stated that a white, female, blonde, thin, glasses, and in her 30's does not match the description of a staff member at Humane Animal Rescue of Pittsburgh. She said that the closest match in description, wasn't working on March 17, 2021.

Meagan Montmeny reported that she pulled the camera footage to see if she could observe the injured dog being loaded into their vehicle to be transported to PVSEC. She informed me that the camera angle is bad, but you can see their vehicle backing up to the door and the staff loading a crate inside, but that is all. Meagan Montmeny dropped off a thumb drive of this footage at Zone 3 for me to review.

Meagan Montmeny informed me that she and Officer Fry measured the garage, and it is 25 to 30 feet from the entrance into the garage into the animal control kennels. James Genco claimed that he dragged the dog 5 feet. His statement is not accurate.

On April 26, 2021, Lt. Julie Stoops informed me that there are no cameras at 21st Street and Waterfront Street to show the dog being removed from the vehicle.

I looked at the temperatures in Pittsburgh on [www.wunderground.com/history/weekly/us/pa/pittsburgh](http://www.wunderground.com/history/weekly/us/pa/pittsburgh) for March 17, 2021. The high temperature was 65 degrees. The low temperature was 33 degrees. The chart showed that the temperature at 11:51 am was 54 degrees.

This case was reviewed by Assistant District Attorney Lisa Borrelli, and the above listed charges were approved.

Subject: PLEASE REVIEW

Good morning,

This is the narrative that I wrote for the criminal complaint involving James Genco. Please review and let me know if any changes need to be made. Thanks!

---

This complaint is prepared by your affiant, Officer Christine Luffey. I have worked as a Pittsburgh Police Officer for the past 28 years. I specialize in animal neglect and abuse cases.

On March 25, 2021, City of Pittsburgh Public Safety Director Wendell Hissrich requested that I review a video that was sent to city officials by Meagan Montmeny from Humane Animal Rescue of Pittsburgh to determine if the video is criminal in nature. The video was recorded on March 17, 2021. The video begins - CAM 09 12:03:23.216 PM (GMT 4:00) 3/17/2021. The video ends - CAM 09 12:13:56.955 PM (GMT 4.00) 3/17/2021

In the video at 12:04 04, the door next to the garage door at Humane Animal Rescue of Pittsburgh, East End location opens. Animal Care and Control Officer John Lapp walks in with a white pit bull dog on a long lead. The dog was

wagging its tail. Animal Care and Control Officer James Genco is viewed propping open the door and standing there. Animal Care and Control Officer James Genco then is out of view, outside of the building.

12:05 31, Animal Care and Control Officer John Lapp is viewed walking out of the open door without the white dog.

12:07 53, Animal Care and Control Officer John Lapp walks back inside of the garage and goes out of view.

12:08 04, Animal Care and Control Officer James Genco is viewed walking in a tan colored pit bull dog on a catch pole.

12:08 09, the tan colored pit bull dog is viewed lying flat on the floor. Animal Care and Control Officer James Genco is viewed dragging the dog across the floor and goes out of view at 12:08 13.

12:08 14, blood, urine, and feces are viewed on the floor where the dog was dragged

12:08 15, a white female is seen walking into the garage area and walking in the direction of Animal Care and Control Officers John Lapp and James Genco. The female goes out of view at 12:08 18

12:08 22, the same white female with a long dyed-red ponytail is viewed hurrying back into the area she came out of.

12:13 25, Animal Care and Control Officers John Lapp and James Genco are viewed walking out of the door. The door remains open.

12:13 51, One of the Animal Care and Control Officers is viewed closing the door.

I was given permission to share the video with Assistant District Attorney Lisa Borrelli for her review. Director Wendell Hissrich asked me to investigate this incident.

I spoke to Meagan Montmeny, Chief Operations Officer at Humane Animal Rescue of Pittsburgh. Meagan Montmeny reported that she sent the video to city of Pittsburgh employees, David Madden and Lee Schmidt, because she was appalled by Animal Care and Control Officer James Genco's treatment of the dog and the injuries the dog sustained. She told me, "I was in tears watching that video footage". Meagan Montmeny stated that the dog suffered the following injuries: mouth was severely bleeding, missing teeth, ruptured blood vessels in both of its eyes (signs of strangulation), and nystagmus. She informed me that the dog was transported to PVSEC for emergency treatment. Meagan Montmeny reported that the dog was "very sweet" and "friendly". She said, "at no point was I concerned for my safety". I informed Meagan Montmeny that I was asked to investigate this incident and that I need her to provide me a list of all the employees who witnessed the incident or interacted with the injured dog. Meagan Montmeny agreed to provide me with a list of employees who have information involving the incident, provide written statements from the employees, and to provide veterinary records from Humane Animal Rescue of Pittsburgh and PVSEC involving the injuries to the dog. Meagan Montmeny informed me that she believes there is a video of the dog being removed from the truck and that she would provide that as well.

I learned that a police report was written by Officer Francis Rende, CCR# 21-44920, involving two dogs being removed from an unattended vehicle on 21st Street and Waterfront Street on March 17, 2021, at 11:33 am. Officer Francis Rende and Eric Churilla were on scene to assist Animal Care and Control Officers. These are the two dogs that were transported to Humane Animal Rescue of Pittsburgh by Animal Care and Control Officers James Genco and John Lapp.

On April 2, 2021, I went to Humane Animal Rescue of Pittsburgh and interviewed the following staff members: Meagan Montmeny, Brianna Kaufman, Shadaka Jefferson, Sarah Kutsch, Dr. Amy Kalinauskas, and Amanda Geletko.

Meagan Montmeny provided me with her written statement and a thumb drive with additional camera footage showing the injured dog being removed from the truck. We viewed the video together in her office. Meagan Montmeny told me that she watched the video frame by frame. She said that Animal Care and Control Officer Genco struggled to remove the dog from the truck for about five minutes. Meagan Montmeny told me that she viewed Animal Care and Control Officer Genco pull the noose tight three times before getting the dog on to the control stick. She stated that the dog came flying off the truck, hit the ground, appeared to bounce off the garage barrier, and then bit the control stick. Meagan Montmeny said that drops of blood were observed outside of the building. Animal Care and Control Officer John Lapp did not handle the injured dog. He stood nearby as Animal Care and Control Officer James Genco removed the dog from the truck. Meagan Montmeny stated that the injuries this dog sustained at the hands of these officers is unacceptable, is gross misconduct and cruel. She informed me that when a control stick is used on a dog and the dog is uncooperative that it is best to stop and give the dog a break. Meagan Montmeny explained that by continuing to provoke the dog with multiple attempts fuels aggression. She told me that the dog came off of the truck with a lot of force and that the dog made contact with the building. Meagan Montmeny reported that it is important to stay in front of the dog while on a control stick and that the handler has a responsibility to constantly monitor the dog. She stated that when Animal Care and Control Officer Genco brought the dog inside of the garage and it either laid down on the floor or lost consciousness, that he should have stopped moving and re-evaluated. Meagan Montmeny told me that Animal Care and Control Officer Genco could have asked the staff at Humane Animal Rescue of Pittsburgh for help at any time. She reported that the owner of the dogs arrived at the shelter on March 17, 2021, at 2:15 pm, and that she and Officer Angie Fry spoke with him. She said that she learned that the injured dog's name is "Cash" and that the dog's owner told her that there was a lot of blood in his vehicle. Meagan Montmeny reported that once the dog was transported to PVSEC, that she had to have a critical incident stress debriefing session with the staff who witnessed the incident and/or the dog's injuries because they were extremely upset.

I interviewed Brianna Kaufman. She is employed as the Shelter Medical Manager at Humane Animal Rescue of Pittsburgh. Brianna Kaufman stated that she was working in her office when a few staff members alerted her about an incident involving Animal Care and Control Officers. She told me that she entered the triage room and viewed the dog bleeding badly. Brianna Kaufman informed me that the dog was bleeding from its paw, cheek, had some broken teeth, and potentially an injured back right leg. She told me that she observed blood on the garage doors, in front of the garage on the pavement, blood in the garage, and blood on the door leading into the garage. Brianna Kaufman reported that she took 14 photos of the dog and blood. She described the injured dog as friendly.

I interviewed Shadaka Jefferson. She is employed as a Foster Technician at Humane Animal Rescue of Pittsburgh. Shadaka Jefferson reported that she was outside taking a break when she heard two Animal Care and Control Officers talking among themselves and a dog barking inside of the truck. She told me that the dog was on a control stick and the officer handling the stick pulled it hard. Shadaka Jefferson said that the dog fell on to its butt on to the ground and went on to its side. She told me that she believes the dog hit into a stationary metal pole outside of the building. Shadaka Jefferson stated that she was very upset and alarmed at what she witnessed and went inside the building to report the incident to staff. She said that when she went into the triage room that the Officers had already left. Shadaka Jefferson informed me that she observed blood on the dog's face, mouth, and nose, and that the back

right paw was bloody. She stated that she believed that the dog's tail was broken because the base of the tail was bent. Shadaka Jefferson said that she believes that the Officer handling the dog did not have the dog on the control pole correctly. She said that the control pole appeared to be under the dog's neck, which can cause choking.

I interviewed Sarah Kutsch. She is employed as a Veterinary Technician at Humane Animal Rescue of Pittsburgh. Sarah Kutsch reported that Officer Lapp brought the white dog in and told her that the other dog was giving them some trouble when they removed the dog from the vehicle. She told me that she got a good look at the injured dog when he was in the triage room and he looked lethargic, was short of breath, bleeding a large amount from his mouth and nose, and had a laceration on his paw. Sarah Kutsch stated that she and other staff members immediately retrieved a veterinarian and switched out the control pole on the dog with a leash. She told me that the injured dog showed no signs of aggression, and that the Veterinarian was able to exam him without a problem. Sarah Kutsch said that she cleaned up the blood from the dog that was outside, through the garage, and in the triage room. She told me that there was blood outside on the garage door and all over the pavement where the dog was removed from the truck. Sarah Kutsch informed me that the Officers did not handle the injured dog correctly, but instead put the dog in great distress and pain.

I interviewed Dr. Amy Kalinauskas. She is employed as a Veterinarian at Humane Animal Rescue of Pittsburgh. Dr. Kalinauskas reported that she was performing surgery on another animal when Veterinary Technician, Camille Burke, informed her that a dog was injured by Animal Care and Control Officers and was bleeding from its mouth. She said that when she entered the triage room that the injured dog was on a control pole being held by one of the Officers. Dr. Kalinauskas said that the dog was bleeding heavily out of its mouth, as well as a laceration on his right forepaw. She said that due to the aggressive behavior that was reported to her that she placed a basket muzzle over the dog's face for safety to do a quick exam. Dr. Kalinauskas stated that the muzzle was removed quickly after she assessed that the dog was not a threat. She told me that the dog was not sedated. Dr. Kalinauskas reported that the injured dog had bitten his cheeks, as well as fractured multiple teeth. She told me that the two incisor teeth were broken, and the pulp was exposed. Dr. Kalinauskas said that the white of the dog's eyes started to bruise, and she noticed a fresh laceration on the right front paw. She told me that the dog had a fractured tail and he reacted when she touched it. Dr. Kalinauskas said that the dog was lame on a rear limb and cried out on palpation. She informed me that after having the dog in their care for about fifteen minutes that she made the decision to send the dog to PVSEC for emergency care due to multiple injuries. Dr. Kalinauskas told me that when the dog laid down inside of the vehicle that she visualized horizontal nystagmus and the dog's nose started to bleed. She said that this solidified her decision to send the dog for emergency care due to possible brain trauma. Dr. Kalinauskas informed me that the dog was in a lot of pain, mentally and physically, and she cried during the interview. She said that she found out later that the Veterinarian at PVSEC found that the tail was previously broken. Dr. Kalinauskas explained to me that the nystagmyus she viewed fits with being strangled on a control pole. She stated that it is very hard to fracture a tooth and that the material must be harder than the tooth to cause a fracture. Dr. Kalinauskas told me that she feels bad for the dog and described the dog as friendly.

I interviewed Amanda Geletko. She is employed as an Off-site Coordinator at Humane Animal Rescue of Pittsburgh. Amanda Geletko informed me that she was asked to transport the injured dog to PVSEC for emergency treatment. She informed me that she observed the injuries that the dog sustained and noticed that one of his eyes was moving rapidly. Amanda Geletko told me that the trip to PVSEC took 25 to 30 minutes and that she heard the dog whine occasionally and coughed several times. She said that she could see in the dog's eyes how much pain and scared he was. Amanda Geletko reported that the dog was friendly to everyone.

Dan Rossi, Executive Director of Humane Animal Rescue of Pittsburgh, spoke with me after I conducted the interviews. He said that situations involving Animal Care and Control Officers being rough with dogs and cats have been going on for a long time, but not to this extent. Dan Rossi told me that he believes the Officers need more training and that he is willing to help. He said that he observed the injured dog standing, shaking, and bleeding. Dan Rossi informed

me that the dog did not show any signs of aggression. He stated that there was blood all over the floor from the dog bleeding from his mouth. Dan Rossi told me that in the twelve years that he has been working at Humane Animal Rescue of Pittsburgh that he never saw a dog in this condition from just being brought into the shelter.

On April 6, 2021, I called PVSEC and spoke with Dr. Emily Gardner. Dr. Gardner is the Veterinarian who treated the injured dog named "Cash" on March 17, 2021, brought to PVSEC by Amanda Geletko from Humane Animal Rescue of Pittsburgh. Dr. Gardner informed me that she remembers the injured dog and told me that the most obvious injuries that she remembers is that the dog had multiple, fractured teeth (2 K9 teeth and 3 or 4 incisors), limping on his right forelimb and hindlimb, a swollen eye, and subconjunctival hemorrhage (typical strangulation injuries), and old tail fracture, soft tissue injuries in his legs, and many scrapes and abrasions were observed. Dr. Gardner stated that the dog was in a lot of pain and that based on his injuries that she believes "excess force was used for sure" by Animal Care and Control Officers. She told me that the dog's blood work indicated that he suffered from stress and muscle damage. Dr. Gardner reported that she recommended that the dog be seen by a Veterinary Dentist and provided the contact information to the dog's owner for the dentist that PVSEC used for care. The veterinary bill from PVSEC - North Hills was \$1,230.33.

On April 7, 2021, I interviewed Officer Eric Churilla and Officer Frank Rende. Officers Churilla and Rende reported that someone called 911 to report two dogs left inside a vehicle on March 17, 2021, and that they assisted Animal Care and Control Officers. Officers Churilla and Rende told me that Animal Care and Control Officers Genco and Lapp told them that they searched for the owner of the dogs and were unsuccessful. Officers Churilla and Rende stated that Animal Care and Control Officers told them that they needed to remove the dogs from the vehicle. Officer Churilla said that March 17, 2021, was a warm day and the temperature was rising. According to Accuweather, the temperature in Pittsburgh on March 17, 2021, was a high of 67 degrees and a low of 36 degrees. Officers Churilla and Rende informed me that they saw both dogs inside of the vehicle and the dogs appeared to be in distress. They told me that the dogs were panting and breathing heavily. Officers Churilla and Rende stated that the windows were completely closed, and that they did not see food or water inside of the vehicle. They said that the vehicle was black in color, and it was parked in the sun with the doors locked. Officer Churilla said that he agreed with Animal Care and Control Officers decision to remove the dogs from the vehicle. Officer Churilla showed me a small tool that looks like a pen that is used to break glass. He said that he gave it to one of the Animal Care and Control Officers to use to break the driver's side rear window. Officers Churilla and Rende informed me that the white dog inside of the vehicle was cooperative. They said that the tan/brown dog was barking, biting, and pawing at the window. Officer Churilla stated that he believes the tan/brown dog was protecting the area it was in. Officers Churilla and Rende told me that the tan/brown dog appeared to be aggressive, and they stepped back to allow Animal Care and Control Officers Lapp and Genco to remove the dog from the vehicle. Officers Churilla and Rende said that only one of the Animal Care and Control Officers was using the control pole, and that they don't know which one was using the control pole. Officers Churilla and Rende informed me that the tan/brown dog was not cooperative and that they witnessed the dog biting the control pole, flopping its body on the ground, and digging its nails into the ground. Officer Churilla said that Animal Care and Control Officers did drag the dog to the truck because it was not cooperative. Officer Churilla told me that after the dog was placed in the truck that he heard one of the Animal Care and Control Officers say that the dog was entangled in the equipment they were using. Officers Churilla and Rende stated that they don't believe that Animal Care and Control Officers Lapp or Genco abused either of the two dogs in their presence. Officers Churilla and Rende informed me that they are now familiar with the proper way to handle dogs on a control pole.

On April 8, 2021, I went back to Humane Animal Rescue of Pittsburgh to interview Camille Burke, Sarah Shively, and Nancy Parson Gump.

I interviewed Camille Burke using the lap top belonging to Meagan Montmeny on Zoom. Camille Burke is seen in the garage of Humane Animal Rescue of Pittsburgh on the first video that was provided to me. She is employed as a

Veterinary Technician at Humane Animal Rescue of Pittsburgh. Camille Burke reported that she was working in the Cat Tech Room entering paperwork when she heard a commotion and high-pitched yelping and screaming coming from the garage. She told me that she ran into the garage to see what was happening and saw that Animal Care and Control Officers were bringing a dog in, screaming, on a pole. Camille Burke told me that she saw one of the officers (Officer Genco) handling the dog on a control pole. She described the handling of the dog, like he was "mopping the floor". Camille Burke reported that the dog left behind him a trail of blood, feces, and urine. She said that the Animal Care and Control Officers brought the dog into the Dog Tech Room, and she retrieved other staff members because the dog was bleeding heavily. Camille Burke told me that the officers kept insisting the dog was aggressive and that is why they used a control pole. She told me the dog was not aggressive towards her or Humane Animal Rescue of Pittsburgh staff members. Camille Burke told me that the dog was shaking, panting, and showing no signs of aggression. She informed me that the injured dog was clinging to her for comfort and that he seemed traumatized and defeated. She said that the dog was giving kisses and was very sweet.

I interviewed Sarah Shively. She is employed as the Director of Shelter Programs at Humane Animal Rescue of Pittsburgh. Sarah Shively reported that Brianna Kaufman informed her that Animal Care and Control Officers brought a dog in that she needed to see immediately. She said that when she arrived at the triage exam room that there were multiple veterinary technicians in the room looking at an injured, tan, pit bull mixed dog. Sarah Shively told me that she believed there were too many people in the room and asked some of them to leave because the dog was "incredibly stressed", panting heavily, its tongue was hanging out the side of its mouth, and blood was dripping. She stated that she noticed the dog's pupils were dilated and the eyes looked blood shot. Sarah Shively informed me that there was blood all over the floor and she observed blood covering the dog's legs and feet. She said that a few employees were sitting on the floor with the dog. Sarah Shively told me that she did not observe any aggressive behaviors from the injured dog. She reported that she is familiar with the use of a control pole and that it is not unusual for a dog to be fearful while on a control pole. Sarah Shively informed me that if a dog panics that it is best to stop moving.

I interviewed Nancy Parson Gump. She is employed as a Veterinary Technician at Humane Animal Rescue of Pittsburgh. Nancy Parson Gump reported that she observed the injured dog and remembers the dog panting heavily, his eyes were red, and his mouth was bleeding a lot. She stated that the dog was friendly, and it seemed that the dog was in a lot of pain.

David Madden, Supervisor of Animal Care and Control, sent me the "Animal Shelter Services" form, a photo of the dog the vehicle was removed from, statements from Pittsburgh Police Officers Churilla and Rende, and a statement e-mailed to him from Animal Care and Control Officer James Genco. I later received photos of a damaged cage that Animal Care and Control Officer Genco reported that the injured dog is responsible for.

On April 12, 2021, I spoke with Animal Care and Control Officer John Lapp on the telephone. He informed me that he did not use the control pole on the injured dog that was brought to Humane Animal Rescue of Pittsburgh on March 17, 2021. Animal Care and Control Officer Lapp stated that he and Officer Genco removed two dogs from a vehicle and that the white color dog was friendly. He told me that the tan/brown dog was vicious. Animal Care and Control Officer Lapp said that the dog "was going nuts in there" and that Officer Rende had his gun drawn and said he would shoot it if needed. He told me that the tan/brown dog bit the pole and inside of the cage. Animal Care and Control Officer Lapp stated that Animal Care and Control Officer James Genco handled the dog and eventually got him on to the control pole. He stated that he has been working with Animal Care and Control Officer Genco for many years and that he had no intention of hurting the dog. I told Animal Care and Control Officer Lapp that the dog suffered many injuries. His response to me was, "you know he didn't club the dog. He's not like that with animals". Animal Care and Control Officer Lapp told me that all they wanted to do is get the dog into the shelter without anyone getting hurt. Animal Care and Control Officer Lapp told me, "I am really worried about this" and asked me

questions about what is going to happen to Animal Care and Control Officer Genco, and if he will be charged with anything criminally. Animal Care and Control Officer Lapp said that he was inside of the building when he saw the dog lay down (garage floor). He told me that Animal Care and Control Officer Genco dragged the dog because "you couldn't pick him up". Animal Care and Control Officer Lapp stated that the staff at Humane Animal Rescue of Pittsburgh needed to put a muzzle on the injured dog. I asked Animal Care and Control Officer Lapp if the injured dog caused any damage to the truck, it was transported in. His response was, "It's hard to tell. Our cages are all bent up from other dogs". Animal Care and Control Officer Lapp asked me to put a good word in for him and Animal Care and Control Officer Genco and told me that they are willing to take additional training classes.

On April 20, 2021, I interviewed Animal Care and Control Officer James Genco in the presence of Lt. Julie Stoops and Attorney Casey White. I read James Genco his Miranda Rights from the city of Pittsburgh Bureau of Police Miranda Rights Form. He agreed to speak with Lt. Stoops and I about the incident involving the dog that was injured in the care and custody of himself and Animal Care and Control Officer John Lapp on March 17, 2021. James Genco initialized and signed the form. He told us that he has worked as an Animal Care and Control Officer in the city of Pittsburgh for the past 26 years. He said that most of what he learned was on the job training from other Animal Care and Control Officers. James Genco informed us that he attended the National Animal Control Academy in 2003 or 2004. He stated that he normally works with Animal Care and Control Officer John Lapp and that he normally handles the control pole because Animal Care and Control Officer Lapp is older and has some physical challenges. James Genco told us that he and Animal Care and Control Officer Lapp were working together on March 17, 2021. He said that they received a call through dispatch that dogs were inside of a vehicle at 21st Street and Waterfront Street. James Genco informed us that when they arrived, they saw a lot of people in the area walking their dogs and that someone reported to him and his partner that the dogs were left in the vehicle earlier that morning and the owner of the dogs may be a construction worker. He said that the windows on the vehicle were closed and that there was no food or water in the vehicle for the dogs. James Genco said that the dogs were panting. He informed us that the vehicle was parked in the sunlight and that there was no shade. James Genco said that he and Animal Care and Control Officer Lapp searched for the owner of the dogs on Smallman Street, 21st Street, and on Waterfront Street and were not successful. He told us that they went back and checked on the dogs. James Genco said that the dogs were panting and that he and Animal Care and Control Officer Lapp waited for about 10 or 15 minutes before calling the Animal Care and Control Office and using channel 1 to request police assistance. James Genco informed us that Officer Rende arrived first on Scene and Officer Churilla arrived about a minute later. He said that he and Animal Care and Control Officer Lapp explained to Officers Rende and Churilla that the dogs were inside of the vehicle all morning, the vehicle was in the sun, and that it started getting warmer. James Genco informed us that he told Officers Rende and Churilla that they may have to take the dogs and the officers agreed. He said that he and Officer Lapp did not have anything to break the window with and that Officer Churilla had a tool to break the window. James Genco stated that the white dog was sitting in the middle of the back seat and that it was panting heavily. He said that the brown dog was in the front seat and biting at them through the window. James Genco stated that the tan/brown dog was very upset and lunged at the window and was barking. He informed us that Animal Care and Control Officer John Lapp broke the middle rear window on the driver's side. James Genco told us that the temperature outside was 50 degrees at the time the dogs were removed from the vehicle. He said that he believed the dogs were in imminent danger because the way the vehicle was parked, and the dogs didn't look too good. James Genco said that he thought they were lethargic, they were panting, their tongues were hanging out, and they were slobbering. He told us that Animal Care and Control Officer Lapp broke the window and that someone opened the door. James Genco said the plan was to try to get the brown dog out, but he was not able to get the dog on the control pole. He told us that the tan/brown dog began biting the control pole and they made the decision to remove the white dog first. James Genco stated that he kept the tan/brown dog at bay so Animal Care and Control Officer Lapp could remove the white dog from the vehicle and close the door. He said that the white dog was friendly, and the tan/brown dog was going crazy. James Genco mentioned that a lot of people with their dogs were watching them remove the dogs from the vehicle. He said that after the white dog was placed in the truck that they went back to remove the tan/brown dog. James Genco stated that Animal Care and Control Officer Lapp held the door for him and that the tan/brown dog was biting the pole. He told us that he was able to get the dog onto the pole and that the dog was twisting himself and biting the pole. James Genco said that the dog's mouth started to bleed. He told us that he was trying to get the dog to the truck and that Officer Rende pulled out his gun and threatened to shoot the dog. James Genco said that the dog was

resisting. He stated that once he got the dog into the truck that the dog began biting the cage. James Genco told us that he and Animal Care and Control Officer Lapp heard the dog slamming himself in the cage during the ride to Humane Animal Rescue of Pittsburgh. He said that they arrived on scene at 10:55 am and they left the scene at 11:45 am. James Genco stated that he has not removed a lot of dogs from cars. He informed us that the dog was resisting and digging into the concrete. James Genco said that he was trying to get the dog to the truck as fast as he could because he was concerned for the safety of everyone nearby. He stated that he was taught if a dog is resisting to get it to where it needs to go as fast as you can. James Genco told us that there was a lot of blood in the vehicle on the front seat and window, in the cage the dog was put in, and on the control pole. He said that the dog's mouth was bleeding, he saw a lot of blood, and noticed that one of the dog's paws was bleeding. James Genco said that he uses a control pole as a last resort, not to get hurt or bit. He told us that he is aware of the cameras and where they are located at Humane Animal Rescue of Pittsburgh. James Genco stated that Animal Care and Control Officers don't pull inside of the garage to unload animals from the trucks because deliveries are sometimes left inside of the garage and that the garage door at Humane Animal Rescue of Pittsburgh is sometimes broken. He produced a copy of an e-mail that he sent to his supervisor, David Madden, and two photographs of the garage that were taken at Humane Animal Rescue of Pittsburgh on September 6, 2019, and September 12, 2019. James Genco told us that David Madden reached out to someone at Humane Animal Rescue of Pittsburgh and after that the conditions of the garage improved.

James Genco told us about the removal of the two dogs from the truck on March 17, 2021. He said that Animal Care and Control Officer Lapp removed the white dog from the truck using a rope with no problem. He said that he believes that he went inside of the garage with Animal Care and Control Officer Lapp, when Officer Lapp put the dog into a cage. James Genco stated that he spoke with a female and told her that they had a mean dog and a real bad dog in the truck that they need to bring inside. He told us that the female said that they don't have anyone available to help. James Genco described the female employee he spoke with as white, thin, blonde hair, glasses, in her 30's. He stated that the female may have come outside with them, but he is not sure. James Genco informed us that Animal Care and Control Officer Lapp was holding the cage when he was working to get the tan/brown dog onto the control pole. He said that he tried a few times, and the dog was biting the pole. James Genco stated that he was finally able to get the dog on the pole and that he pulled the dog off the truck. He said that when he was removing the dog from the truck that he went off balance and that the dog may have hit into the garage door. James Genco demonstrated how he uses a control pole. I asked him how many times he pulled the string on the end of the control pole while removing the dog from the truck. He told us once or twice. James Genco informed us that the tan/brown dog resisted the whole time and that he was pulling one way and the dog was pulling the other way. He said that the dog was digging his claws into the ground and continued to resist. James Genco said that the dog was walking when he brought him into the garage and decided he didn't want to cooperate. He told us that the dog did lay down and that he did drag him on the garage floor for about 5 feet. James Genco stated that he wanted to get the dog into the room as fast as possible. I asked him if the dog went unconscious. He said that it did not. James Genco stated that he didn't stop and kept going. He told us that it was like he and the dog were playing tug a war. I asked James Genco if he was aware that while the dog was being dragged that blood, urine, and feces were left on the garage floor. He said that he was aware that there was blood on the floor. James Genco stated that he brought the dog into the tech room and the dog got on his feet. He told us that a bunch of women came rushing in. James Genco said that he had the dog against the wall and the dog was going crazy and blood was flying everywhere. He told us that someone said, "get the door" and that one or two females pushed the dog into the door. James Genco said that the dog was sedated. I was informed by Dr. Kalinauskas that the dog was not sedated. He told us that he believes the dog was sedated because he saw one of the females give the dog an injection. James Genco said that he held the control pole until the workers could put a muzzle on the dog. He told us that once a muzzle was put on the dog the dog that he took the control pole off and they left. James Genco said that David Madden called him and Animal Care and Control Officer Lapp about an hour later and told them to go back to Humane Animal Rescue of Pittsburgh and transport the injured dog to PVSEC. He informed us that he was later told not to go back to Humane Animal Rescue of Pittsburgh because the dog was transported to PVSEC by staff at Humane Animal Rescue of Pittsburgh. James Genco stated that he got back to the Animal Care and Control office at about 2:00 pm and was informed that the owner of the dog called the clerk asking where his dogs are.

James Genco stated that his job is to get animals "from point A to point B". He said that he was never formally trained on how to use a control pole and that mostly everything he learned was from experience. James Genco said that he would accept training to do his job better. He stated that the brown dog was the meanest dog he has ever had to deal with. James Genco said that he "was afraid". He told us that he did not purposely set out to hurt the dog. James Genco said that he has had three surgeries on his left shoulder in the past and may have to have another surgery. He described having a torn bicep, labrum, and rotator cuff. James Genco stated that he has three metal anchors that were drilled into his arm bone and that he arm isn't as strong as it used to be. He said that the injuries are from his job from lifting dogs up into the truck by the control pole. James Genco told us that another Animal Care and Control Officer recently broke a dog's leg while removing it from the truck and that nothing happened to that Officer. He stated that there is no city policy on how to use a control pole and no kind of formal training in his department. James Genco allowed me to make copies of the documents that he produced. He asked us to try to obtain video surveillance from where the dog was removed from the truck and to inquire if there are additional videos at Humane Animal Rescue of Pittsburgh that show the injured dog inside of the tech room or being removed from Humane Animal Rescue of Pittsburgh to PVSEC.

After interviewing James Genco, I watched the video of the two dogs being brought into the garage by James Genco and Animal Care and Control Officer Lapp on March 17, 2021. James Genco informed me during the interview that he believes that he went into Humane Animal Rescue of Pittsburgh with Animal Care and Control Officer Lapp when Officer Lapp was bringing in the friendly, white dog into the shelter. He said that he asked a female staff member that he described as white, female, blonde, thin, glasses, and in her 30's for help with the aggressive dog and that this female informed him that no one was available to help with the dog. The video shows that James Genco remained outside and did not enter the garage until he brought the injured (tan/brown) dog inside. I interviewed every staff member at Humane Animal Rescue of Pittsburgh that had any involvement with the injured dog being brought into the shelter on March 17, 2021, and no one mentioned that James Genco asked them for help.

I spoke with Officer Angela Fry from Humane Animal Rescue of Pittsburgh. I informed Officer Fry that James Genco believes that the injured dog was sedated because he viewed a staff member giving the dog an injection. Officer Fry pulled up the veterinary records and confirmed that the injured dog was not sedated. She told me that the dog was vaccinated against rabies, adenovirus, Bordetella, and parainfluenza. Officer Fry informed me that she would discuss the claims that James Genco made with Meagan Montmeny and that Meagan Montmeny will provide me with a response to the questions I have asked.

On April 21, 2021, I received a response from Meagan Montmeny. Meagan Montmeny informed me that the garage door at Humane Animal Rescue of Pittsburgh was broken on Friday, September 11, 2020, and repaired on Monday, September 14, 2020. She informed me that during that time, Animal Care and Control Officers brought six animals into the shelter that consisted of five cats and one dog. Meagan Montmeny stated that a white, female, blonde, thin, glasses, and in her 30's does not match the description of a staff member at Humane Animal Rescue of Pittsburgh. She said that the closest match in description, wasn't working on March 17, 2021.

Meagan Montmeny reported that she pulled the camera footage to see if she could observe the injured dog being loaded into their vehicle to be transported to PVSEC. She informed me that the camera angle is bad, but you can see their vehicle backing up to the door and the staff loading a crate inside, but that is all. Meagan Montmeny dropped off a thumb drive of this footage at Zone 3 for me to review.

Meagan Montmeny informed me that she and Officer Fry measured the garage, and it is 25 to 30 feet from the entrance into the garage into the animal control kennels. James Genco claimed that he dragged the dog 5 feet. His statement is not accurate.

On April 26, 2021, Lt. Julie Stoops informed me that there are no cameras at 21st Street and Waterfront Street to show the dog being removed from the vehicle.

I looked at the temperatures in Pittsburgh on [www.wunderground.com/history/weekly/us/pa/pittsburgh](http://www.wunderground.com/history/weekly/us/pa/pittsburgh) for March 17, 2021. The high temperature was 65 degrees. The low temperature was 33 degrees. The chart showed that the temperature at 11:51 am was 54 degrees.

This case was reviewed by Assistant District Attorney Lisa Borrelli, and the above listed charges were approved.

Lisa,

Thank you for letting us know.

I am copying the leadership at AF who have been involved in this matter.

Are you still confident in our chances of getting custody of the dogs in this case?

Thanks,

Carol Whaley

Hi Lisa,

Have you had an opportunity to talk to who you needed to and confirm whether we have an agreement? My proposal is that the charges are dismissed, they return nine dogs to him, and he is provided with a list of what he needs to do and will be subjected to random visits for the first year to ensure compliance. He also wants to say goodbye to his other dogs that they keep. I believe this is more than fair. Please let me know.

Subject: Task Force 4.30.2021 Meeting Minutes and Slides

Attachments: WPACTF Meeting Minutes 4.30.2021.docx; Task Force Meeting 4.30.2021 PPT.ppt

Hello everyone,

Attached are the meeting minutes and the slides presented during the latest task force meeting. Please review them and let me know if there is a working group you would be interested in joining.

The response we get regarding the working groups will determine the topic of the next meeting and if we want to allow time for the working groups to meet over this next month and possibly present goals they would like to begin tackling at the next meeting. I will send out a poll later this week after I have gotten some responses back regarding dates for the next meeting.

If anyone has any questions, comments, ideas, etc., please let me know.

Thank you!

Morning Krista

Sorry that I had to miss our last meeting, but I have been dealing with an officer shortage here (down 5 officers which is 35% of my work force) and some ongoing personal health problems

Did anyone take meeting notes?  
if yes, can you send them to me?

Has our next meeting been scheduled yet?

Thanks

Dave

Subject: Next Western Pennsylvania Animal Cruelty Task Force Meeting - Registration - April 30 at 2p

Hello everyone,

Based on the responses received, the best date to hold our next meeting is April 30th. The link to register for the meeting is below:

Western Pennsylvania Animal Cruelty Task Force Meeting  
When: Apr 30, 2021 02:00 PM Eastern Time (US and Canada)

Register in advance for this meeting:

<https://zoom.us/meeting/register/tJwrcOCsrjsiH9XSKEuHtqbGIAI-kOiY8-dD>

After registering, you should receive a confirmation email containing information about joining the meeting. If you don't receive a confirmation email, please let me know and I will send you the link and passcode.

We will have a few new members joining this upcoming meeting. Like we talked about in the first meeting, a specific agenda item I would like to discuss is how we would like to structure the task force. A couple people have reached out about additional items they would like to include on the agenda. If you have anything you would like to include on the

agenda, please let me know. I will also always include time at the end of the meeting for informal open discussion to bring up anything we want to talk about.

Thank you all and I look forward to our next meeting!

Here is all the documentation including the case notes I have for Boeing. I can send along the photos in separate emails as it will likely take a few to send them all to you.

I'm not sure if Angie can provide the information regarding when Rampolla was notified of the euthanasia as I don't have that information readily available and am not seeing it in the notes.

Hello,

The case for tomorrow has been changed to a status conference as defense counsel wants to do it in person. Your appearance is not required.

I do need a few things though. I need a report that justifies putting this dog down.

I need a log of how many times Animal Friends attempted to reach Mr. Rampolla before putting his dog down.

I have black and white photos; can I get ones in color?

Can you please help me gather these things?

Thank you all,

Lisa

Lisa,

I tried to record a voicemail, not sure if it went through. Would you be able to please give me a quick call - 612 226 1033. This is concerning MN wildlife issue, but I wanted to seek your perspective on this, as you are the Assistant District Attorney. We had a violation here - individual was shooting a pellet gun at wildlife (per city ordinance, not allowed). They were not prosecuted due to a "glitch" in the system. I am just trying to understand how this is possible.

Thank you so much!

I am sorry to hear that this is happening. It breaks my heart to have such cruelty be ignored.

Christine has given you good advice. I can't really add anything more.

Politically, you may want to get this more attention. So you may want to reach out to the national animal welfare agencies, do a change.org petition if the laws do not help or post videos of it on YouTube. Perhaps also write letters to your news agencies and your legislators.

Good luck

Hi Sonya,

I don't know what the laws are in Twin Cities, Minnesota. However, what you are describing to me in your e-mail is criminal in the state of Pennsylvania and I believe it should be anywhere in the United States.

I cc'd Officer Angie Fry from Humane Animal Rescue Pittsburgh and Asst. District Attorney Lisa Borrelli on my response to you. They may be able to offer some advice.

In the state of Pennsylvania, this cruelty is criminal, and the woman would be charged. We also have an agency called the Pennsylvania Game Commission that often takes jurisdiction over wildlife issues.

Here are my thoughts.

1. Learn what the laws are involving wildlife in Minnesota.
  2. Find out what agency, if any, specialize in assisting with abuse of wildlife.
  3. If you discover that trapping and starving to death wildlife is a crime and the police officers are dismissing this, please reach out to a supervisor.
  4. If a supervisor is dismissing this, ask who their supervisor is and reach out.
  5. If all else fails, reach out to your local media.
  6. Don't give up.
  7. Continue to fight for defenseless animals.
- I hope this helps.

Please take care and stay safe.

Subject: Need Your Help! Animal Abuse

Hi Christine,

I really need your help. I am located in the Twin Cities area, but an animal activist recommended me to contact you. I am dealing with a case of cruelty and animal abuse. This woman in my neighborhood has been live trapping wildlife and keeping them in there for days until they die of starvation or have a heart attack. I have reported this to the local police and also DNR. Both agencies really didn't want to investigate as it's just wildlife. They did come up per protocol and told her to stop, but didn't issue any fine or anything. She was just educated and advised. However, after only a few weeks passed, she continued doing that. I saw a trap in her yard today. I know it's just a matter of time till she traps and tortures another innocent creature. I don't know what to do anymore. I tried calling in the authorities and they don't seem to want to do anything. I have proof (pictures and even a recording of her confessing to what she's been doing). That is enough to charge someone with, but nobody is willing. I don't know what to do and who to contact anymore. Someone I know through our rehab groups suggested I contact you for ideas. Please let me know! Thank you for your time.

Regards,

Sonya

Per my criminal complaint, Rampolla presented to the shelter in the evening hours on the day of the seizure. Lauren Leffakis spoke to him and he advised her that he didn't notice the dog missing for 8 hours, after he received a voicemail message from me. I did call the number on the dog's tag as soon as I was available to do so which if I recall correctly was around 1500 hours on the date the dog was seized. Rampolla did not answer or return my call and I left a voicemail. I went off duty at 1600 hours that day. I did call him the very next morning and let my notes, he was argumentative and the conversation was difficult. He wouldn't listen to anything I had to say.

Lauren Leffakis would be able to tell you more about the interaction with Rampolla.

Hi Lisa!  
Printed the Affidavit of Probable Cause paperwork for Stonge, Rowe, Doty.  
There are four defendants – where is the fourth one?  
Did Officer Fry emailed information to us?

Hi,

I have attached the criminal complaint for Elizabeth Doty for your review and approval for the Pet Smart case. I have four (4) defendants that I feel are responsible based on video and their statements. I have only attached the narrative portion to save you reading time.

Let me know. :)

Angie

Subject: RE: DUS Spreadsheet

We have been doing this for a long time.....sometimes I wonder if there are any non-suspended drivers out there and then I remember there's me and most of the people I know.....or when we don't have a lot, I think maybe we found them all, but, no, there always seems to be more.

Have a good weekend!

Lisa A. Borrelli, Esq.

Last week's list. I leave for vacation on Thursday so I may have a list on Wednesday but if it is too small, I would like to just wait until I return on 8/13. If that is not okay, please let me know.

Thanks,  
Lisa

Subject: Next Western Pennsylvania Animal Cruelty Task Force Meeting - Registration - April 30 at 2p

Hello everyone,

Based on the responses received, the best date to hold our next meeting is April 30th. The link to register for the meeting is below:

Western Pennsylvania Animal Cruelty Task Force Meeting  
When: Apr 30, 2021 02:00 PM Eastern Time (US and Canada)

Register in advance for this meeting:  
<https://zoom.us/meeting/register/tJwrcOCsrjsiH9XSKEuHtqbGIAI-kOiY8-dD>

After registering, you should receive a confirmation email containing information about joining the meeting. If you don't receive a confirmation email, please let me know and I will send you the link and passcode.

We will have a few new members joining this upcoming meeting. Like we talked about in the first meeting, a specific agenda item I would like to discuss is how we would like to structure the task force. A couple people have reached out about additional items they would like to include on the agenda. If you have anything you would like to include on the agenda, please let me know. I will also always include time at the end of the meeting for informal open discussion to bring up anything we want to talk about.

Thank you all and I look forward to our next meeting!

Hi,

I have attached the criminal complaint for Elizabeth Doty for your review and approval for the Pet Smart case. I have four (4) defendants that I feel are responsible based on video and their statements. I have only attached the narrative portion to save you reading time.

Let me know. :)

Necropsy Report

Tuesday April 27, 2021

For Angie Fry

Humane Agent

3.54 Kg. brachycephalic Lhasa Apso type dog

On external exam the dog was overdue for grooming.

The right eye had severe sclera hemorrhage indicating trauma.

(bleeding into the white of the eye)

Photo will document this finding

The right shoulder was dislocated.

(Shoulder dislocation is not common and would require extreme force to tear those tissues)

The right hip was also dislocated.

(This is a common injury seen after severe trauma for example after being hit by a car)

On internal exam the abdomen was intact. No abnormalities were seen in the liver, kidneys, spleen and intestines.

The chest cavity revealed pulmonary (lung) hemorrhage and contusion.

Photo will document this finding.

This finding would again be indicative of severe trauma.

Radiographs did not reveal previous trauma. No healed fractures were evident.

A micro chip was present.

There was suggestion of the shoulder dislocation noted on physical palpation of the joints.

Lung hemorrhage may have been a result of chest compression. It was clear that this dog had severe trauma to cause the eye, lung, hip and shoulder injuries. Correlation with the history would suggest abuse of this dog.

Hi,

I have attached the criminal complaint for Elizabeth Doty for your review and approval for the Pet Smart case. I have four (4) defendants that I feel are responsible based on video and their statements. I have only attached the narrative portion to save you reading time.

Let me know. :)

Hi Chritine

Sadly, this dog's body wasn't kept because the dog owner never said anything about her dog possibly being poisoned last Saturday when he picked it up

And I didn't know anything about it until this morning when I was finally given instructions on how to access these emails

Subject: Re: Possible Dog Poisoning (21-70187)

Good morning,

I will call Kimberly Peterson today.

I read the narrative to the police report below. It says that Animal Care and Control removed the dead dog. Was the body preserved? I believe that to properly investigate a possible poisoning case that a necropsy must be done. Please advise. Thanks!

---

On 04/24/2021 at 0131 hours, I, Officer Connors McCartney (#4802) was dispatched to 429 Vandalia Street for a female locked out of her house and a deceased dog at the front door.

Fire Engine 27 was first on scene and realized the female at this address, Kimberly Peterson (412-620-8040), was not actually locked out of her house. Peterson's dog was discovered dead inside the house lying on the ground directly behind the front door. I arrived on scene and noticed the front door had been opened, making enough room to walk past the door and get inside. I observed the dog and she appeared to be bloated and its legs had become stiff. I also observed a small amount of white foam-like material around the dog's mouth, otherwise there were no signs of a struggle. Peterson stated that the dog was her grandson's and was a 8 year old beige Pitbull mix named "Roxy".

Peterson was crying and visibly distraught while speaking with me, and she stated she had been away in California for approximately one month, and she returned home to Pittsburgh one week ago. During the time Peterson was out of

town, she stated her son was watching the dog. Peterson stated the dog was not sick, but the dog began acting odd and lethargic the whole past week since she returned home. Peterson uttered to me multiple times that she was adamant her neighbors poisoned the dog. Peterson did state to me that her neighbor's down the street at 453 Vandalia St. (grey house) did not like her, because Peterson stated she had called the police to have a vehicle towed recently for parking in front of a fire hydrant. Peterson stated these neighbors have had disputes with her in the past and made comments to her stating they knew she was the one who called the police. Peterson was unable to give names of these neighbors.

I helped Peterson carry the dog out onto the front porch, placing a white blanket underneath and over the body. Animal Control notified me they would be responding the following day to get the dog's body, and I relayed that message to Peterson. I informed Peterson I would complete a report and suggested she call Zone 3 Police if she had any questions or further information on the dog's death.

I sent an email to the Animal Law team at [animal.law@pittsburghpa.gov](mailto:animal.law@pittsburghpa.gov) with this incident information in order to do a follow up.

Hi --

I took a report for Kimberly Peterson (cell 412-620-8040) for a deceased dog at her home at 429 Vandalia Street.

Can you look at the 3.0 and decide if you want to speak with Ms. Peterson? She mentioned multiple times that she believes her neighbors poisoned the dog, but I couldn't get much more info from her at the time.

Animal Control is coming out to take the body sometime today.

Thanks,  
Connor

Hi --

I took a report for Kimberly Peterson (cell 412-620-8040) for a deceased dog at her home at 429 Vandalia Street.

Can you look at the 3.0 and decide if you want to speak with Ms. Peterson? She mentioned multiple times that she believes her neighbors poisoned the dog, but I couldn't get much more info from her at the time.

Animal Control is coming out to take the body sometime today.

Thanks,  
Connor

Hi Chritine

Sadly, this dog's body wasn't kept because the dog owner never said anything about her dog possibly being poisoned last Saturday when he picked it up

And I didn't know anything about it until this morning when I was finally given instructions on how to access these emails

Dave

Subject: Re: Possible Dog Poisoning (21-70187)

Good morning,

I will call Kimberly Peterson today.

I read the narrative to the police report below. It says that Animal Care and Control removed the dead dog. Was the body preserved? I believe that to properly investigate a possible poisoning case that a necropsy must be done. Please advise. Thanks!

On 04/24/2021 at 0131 hours, I, Officer Connors McCartney (#4802) was dispatched to 429 Vandalia Street for a female locked out of her house and a deceased dog at the front door.

Fire Engine 27 was first on scene and realized the female at this address, Kimberly Peterson (412-620-8040), was not actually locked out of her house. Peterson's dog was discovered dead inside the house lying on the ground directly behind the front door. I arrived on scene and noticed the front door had been opened, making enough room to walk past the door and get inside. I observed the dog and she appeared to be bloated and its legs had become stiff. I also observed a small amount of white foam-like material around the dog's mouth, otherwise there were no signs of a struggle. Peterson stated that the dog was her grandson's and was a 8 year old beige Pitbull mix named "Roxy";.

Peterson was crying and visibly distraught while speaking with me, and she stated she had been away in California for approximately one month, and she returned home to Pittsburgh one week ago. During the time Peterson was out of town, she stated her son was watching the dog. Peterson stated the dog was not sick, but the dog began acting odd and lethargic the whole past week since she returned home. Peterson uttered to me multiple times that she was adamant her neighbors poisoned the dog. Peterson did state to me that her neighbor's down the street at 453 Vandalia St. (grey house) did not like her, because Peterson stated she had called the police to have a vehicle towed recently for parking in front of a fire hydrant. Peterson stated these neighbors have had disputes with her in the past and made comments to her stating they knew she was the one who called the police. Peterson was unable to give names of these neighbors.

I helped Peterson carry the dog out onto the front porch, placing a white blanket underneath and over the body. Animal Control notified me they would be responding the following day to get the dog's body, and I relayed that message to Peterson. I informed Peterson I would complete a report and suggested she call Zone 3 Police if she had any questions or further information on the dog's death.

I sent an email to the Animal Law team at [animal.law@pittsburghpa.gov](mailto:animal.law@pittsburghpa.gov) with this incident information in order to do a follow up.

Good morning,

We have not received a deceased dog from Pittsburgh Animal Control at all. Without the body and a timely necropsy, I am not sure there is much to go on.

If I can be of any assistance, please let me know and I am happy to help.

Angie

Subject: GENCO CASE

Hi!

Please see the most recent supplemental report below. Lt. Stoops, have you had any luck pulling video footage for the removal of the dog from the vehicle parked on Waterfront Street on March 17, 2021?

---

After interviewing Officer James Genco, I rewatched the video of the 2 dogs being brought into the garage by Officers Genco and Lapp on March 17, 2021. Officer Genco informed me during the interview that he believes that he went into Humane Animal Rescue of Pittsburgh with Officer Lapp when Officer Lapp was bringing the friendly white dog into the shelter. Officer Genco told me that when he entered the shelter with Officer Lapp, that he asked a female staff member that he described as white/female, blonde, thin, glasses, and in her 30's for help with the aggressive dog and that this female informed him that no one was available to help with the dog. The video shows that Officer Genco remained outside and did not enter the garage with Officer Lapp until he brought the injured (brown) dog inside. I interviewed every staff member at Humane Animal Rescue of Pittsburgh that had any involvement with the injured dog being brought into the shelter on March 17, 2021, and no one mentioned that Officer Genco asked them for help.

I reached out to Officer Angie Fry to inquire about the claims that Officer Genco made. I informed Officer Fry that Officer Genco believes that the injured dog was sedated, because he viewed a staff member giving the dog an injection. Officer Fry pulled up the injured dog's veterinary records and confirmed that the dog was not sedated. She told me that the dog was vaccinated against rabies, adenovirus, Bordetella, and parainfluenza. Officer Fry agreed to send me the injured dog's medical records from Humane Animal Rescue of Pittsburgh that I had previously requested. I received those records.

Officer Fry told me that she would discuss the claims that Officer Genco made with Meagan Montmeny, and that Ms. Montmeny will provide me with a response to the questions I have asked.

On April 21, 2021, I received a response from Meagan Montmeny. Ms. Montmeny informed me that the garage door at Humane Animal Rescue of Pittsburgh was broken on Friday, September 11, 2020, and repaired on Monday, September 14, 2020. She informed me that during that time, that Animal Care and Control Officers brought six animals into Humane Animal Rescue of Pittsburgh that consisted of 5 cats and 1 dog.

Ms. Montmeny informed me that a white female, blonde, thin, glasses, and in her 30's does not match the description of any staff member at Humane Animal Rescue of Pittsburgh. She stated that the closest match in description, wasn't working on March 17, 2021.

Ms. Montmeny reported that she pulled camera footage to see if she could observe the injured dog being loaded into their vehicle to be transported to PVSEC. She informed me that the camera angle is bad, but you can see their vehicle backing up to the door and the staff loading a crate inside, but that is all. Ms. Montmeny dropped off a thumb drive of this footage at Zone 3 for me to review.

On April 23, 2021, Ms. Montmeny informed me that she and Officer Fry measured the garage and it's 25-30 feet from the entrance into the garage to the entrance into the animal control kennels. Officer Genco claimed that he dragged the dog for 5 feet. His statement is not accurate.

INVESTIGATION TO CONTINUE.

Subject: Next Western Pennsylvania Animal Cruelty Task Force Meeting - Registration - April 30 at 2p

Hello everyone,

Based on the responses received, the best date to hold our next meeting is April 30th. The link to register for the meeting is below:

Western Pennsylvania Animal Cruelty Task Force Meeting  
When: Apr 30, 2021 02:00 PM Eastern Time (US and Canada)

Register in advance for this meeting:  
<https://zoom.us/meeting/register/tJwrcOCsrjsiH9XSKEuHtqbGIAI-kOiY8-dD>

After registering, you should receive a confirmation email containing information about joining the meeting. If you don't receive a confirmation email, please let me know and I will send you the link and passcode.

We will have a few new members joining this upcoming meeting. Like we talked about in the first meeting, a specific agenda item I would like to discuss is how we would like to structure the task force. A couple people have reached out about additional items they would like to include on the agenda. If you have anything you would like to include on the agenda, please let me know. I will also always include time at the end of the meeting for informal open discussion to bring up anything we want to talk about.

Thank you all and I look forward to our next meeting!

Subject: Are colony cats protected?

More

Kathryn PatakiShadyside • 1 hr ago

Cat Lovers- Help; TW Animal Cruelty. There is a feral cat colony that has been taken care of for years in Lawrenceville that the neighborhood is very fond of. They are great cats. Recently, one particular neighbor decided he did not want them there & has thrown away their shelters, food plates, & most recently, put cayenne pepper in their food. Yes, cayenne pepper in these innocent animals' food. The other neighbors are upset & love the cats & so he is completely alone in wanting them gone. Does anyone know of any action that can be taken against him? In my opinion, putting cayenne pepper in their food is animal abuse. I'm worried that he will escalate things & innocent cats will suffer. Any advice would be appreciated. Thank you to my fellow animal lovers. ALSO, PSA: If you or anyone you know have house cats in the Lawrenceville area please don't let them roam around outside because a neighbor is going out of his way to hurt cats.

Subject: Charging recommendations for cases  
Hi Angie,

Because of the amount of things I need to get done before leaving for surgery, I will not have the full reports written up before I go out.. That being said, I wanted to give you my charging recommendations on all the animals. That and the medical histories should be enough to file.

#### Farm Animal Case

1. 85611 Rooster
  - \* Cruelty to an animal Grade 2 (neglect + bodily injury)
2. 85612 Wilbur
  - \* Cruelty to an animal Grade 2(neglect + bodily injury)
3. 85613 Charlotte
  - \* Neglect Grade 1
4. 85614 Chameleon 1
  - \* Aggravated Cruelty
5. 85616 Chameleon 2
  - \* Aggravated Cruelty
6. 85619 Billy
  - \* Neglect Grade 1
7. 85620 Little Goat
  - \* Neglect Grade 1
8. 85622 Chicken 1
  - \* Cruelty to an animal Grade 2 (neglect + bodily injury)
9. 85624 Chicken 3
  - \* Cruelty to an animal Grade 2 (neglect + bodily injury)
10. \*\*\* Rooster and chickens, may be able to argue aggravated cruelty due prolonged deprivation of food/sustenance, but hard to tell because unknown length of ownership

#### McKeesport Case

1. 85840 Dog 1
  - \* Aggravated Cruelty
2. 85841 Dog 2
  - \* Cruelty to an animal Grade 2 (neglect + bodily injury)
3. 85842 Dog 3
  - \* Aggravated Cruelty
4. 85844 Dog 4
  - \* Aggravated Cruelty

#### Petsmart Case

1. Aggravated Cruelty

Hope this helps, please let me know if you have any questions,  
Thanks,  
Dr. S

Subject: Samson complaints

Hi Lisa,

This is a collaborative effort from Meg and I....everything in red is of high importance

\*\*\* Please highlight how she's not trusted and the DA's office doesn't want to work with her. Demanding the DA's office pay for diagnostics, yelling, unusable reports and sloppy record keeping have undermined credibility and trust.

1. Timely Vet reports to file charges: Blackadore Street Farm animals taken 12/23/21, no reports yet and no charges. Defendant continues to get more animals, if charges are filed quicker then prohibition of ownership could possibly be a condition of bond. Goal is to break cycle and ensure correct charges are filed the first time, use language from the statute in report. Vet report is needed to ensure language from criminal complaint and the report match each other.

2. McKeesport Dogs: see Meg's email from earlier- report can't be used since exams contradict themselves. Nothing on the intake photos suggests a dehydrated dog so forensic exam makes it appear this happened in our care. Please explain the risk of taking this to court-

3. Protecting integrity of cases: guarding photos and access to files, only the Officer should have access to case files, photos, case related information and protected information. Please explain why this is important.

4. Discovery before preliminary hearing: Vet reports aren't included. Please explain what discovery is.

5. Turtle case: Exams not entered into database, lost multiple charges due to sloppy record keeping. Defendant reoffended and more turtles were confiscated.

6. Consistency in what can be substantiated- ex. Moby and said could substantiate a misdemeanor then changed to summary charges then back to misdemeanor and now summary for lack of vet care of UTI.

Thanks to our favorite ADA!!!

Meg and Angie

Subject: SUPPLEMENTAL REPORT - GENCO

Good morning,

Listed below is the most recent supplemental report I wrote about the case involving Officer Genco. Lt. Stoops is checking to see if there is any camera footage from the location where the dogs were removed from the vehicle.

I provided all the updated information to Assistant District Attorney Lisa Borrelli for her review.

---

After interviewing Officer James Genco, I rewatched the video of the 2 dogs being brought into the garage by Officers Genco and Lapp on March 17, 2021. Officer Genco informed me during the interview that he believes that he went into Humane Animal Rescue of Pittsburgh with Officer Lapp when Officer Lapp was bringing the friendly white dog into the shelter. Officer Genco told me that when he entered the shelter with Officer Lapp, that he asked a female staff member that he described as white/female, blonde, thin, glasses, and in her 30's for help with the aggressive dog and that this female informed him that no one was available to help with the dog. The video shows that Officer Genco remained outside and did not enter the garage with Officer Lapp until he brought the injured (brown) dog inside. I interviewed every staff member at Humane Animal Rescue of Pittsburgh that had any involvement with the injured dog being brought into the shelter on March 17, 2021, and no one mentioned that Officer Genco asked them for help.

I reached out to Officer Angie Fry to inquire about the claims that Officer Genco made. I informed Officer Fry that Officer Genco believes that the injured dog was sedated, because he viewed a staff member giving the dog an injection. Officer Fry pulled up the injured dog's veterinary records and confirmed that the dog was not sedated. She told me that the dog was vaccinated against rabies, adenovirus, Bordetella, and parainfluenza. Officer Fry agreed to send me the injured dog's medical records from Humane Animal Rescue of Pittsburgh that I had previously requested. I received those records.

Officer Fry told me that she would discuss the claims that Officer Genco made with Meagan Montmeny, and that Ms. Montmeny will provide me with a response to the questions I have asked.

On April 21, 2021, I received a response from Meagan Montmeny. Ms. Montmeny informed me that the garage door at Humane Animal Rescue of Pittsburgh was broken on Friday, September 11, 2020, and repaired on Monday, September

14, 2020. She informed me that during that time, that Animal Care and Control Officers brought six animals into Humane Animal Rescue of Pittsburgh that consisted of 5 cats and 1 dog.

Ms. Montmeny informed me that a white female, blonde, thin, glasses, and in her 30's does not match the description of any staff member at Humane Animal Rescue of Pittsburgh. She stated that the closest match in description, wasn't working on March 17, 2021.

Ms. Montmeny reported that she pulled camera footage to see if she could observe the injured dog being loaded into their vehicle to be transported to PVSEC. She informed me that the camera angle is bad, but you can see their vehicle backing up to the door and the staff loading a crate inside, but that is all. Ms. Montmeny dropped off a thumb drive of this footage at Zone 3 for me to review.

On April 23, 2021, Ms. Montmeny informed me that she and Officer Fry measured the garage and it's 25-30 feet from the entrance into the garage to the entrance into the animal control kennels. Officer Genco claimed that he dragged the dog for 5 feet. His statement is not accurate.

INVESTIGATION TO CONTINUE.

Yes!

I will forward you the narrative from them.

Officer Genco lied about a few things. He said that he dragged the dog only 5 feet. It is much more than that.

He also said that he entered the garage with Officer Lapp when the white dog was brought in and that he told a female, with blonde hair and glasses, that he needed help and that she told him that no one was available to assist. Lt. Stoops and I watched the video, and he did not go inside with Officer Lapp. He remained outside. There is no one that meets the description of the person he said he asked for help. I interviewed all of the employees using my body camera. No one said that anyone asked for help.

Subject: UPDATE - SUPPLEMENTAL REPORT - GENCO

Good morning,

I interviewed Officer Genco on Tuesday, April 20, 2021, in the presence of Lt. Julie Stoops and Attorney Casey White for an hour and a half.

Listed below is the supplemental report involving the interview. Lt. Stoops is trying to find out if there is any video surveillance involving the incident on March 17, 2021. I reached out to Meagan Montmeny and Officer Angie Fry requesting additional information. I will share the supplemental report and additional information that I received with ADA Lisa Borrelli for her review. I will keep you updated.

On Tuesday, April 20, 2021, at about 1:12 pm, I interviewed Animal Care and Control Officer James Genco in the presence of Attorney Casey White and Lt. Julie Stoops. Officer Genco appeared at the interview wearing a suit and tie. I read James Genco his Miranda Rights from the City of Pittsburgh Bureau of Police Miranda Rights Form. Officer Genco agreed to speak with Lt. Stoops and I about the incident involving the dog that was injured in the care and custody of himself and Officer John Lapp on March 17, 2021. Officer Genco initialized and signed the form. The entire exchange was recorded on my BWC with Mr. Genco's and his attorney's consent.

Mr. Genco stated that he graduated from Shaler High School in 1992 and that he attended two semesters at Community College of Allegheny County in 1993. Mr. Genco told us that he attended the National Animal Control Academy in 2003 or 2004. He said that he was trained by the city of Pittsburgh on the following subjects: CPR training, how to use a police baton, verbal judo, mace training, and swift water training. Mr. Genco informed us that the last animal related formal training he attended was in 2003 or 2004 and that there was no hands-on-training, it was only book learning. Mr. Genco stated that he has worked as an Animal Care and Control Officer in the city of Pittsburgh for the past 26 years. He said that most of what he learned about being an Animal Care and Control Officer was on the job training from other Animal Care and Control employees. Mr. Genco told us that he works Monday through Friday from 7 am to 3 pm and that he also works a lot of over time that consists of being available for taking calls overnight. He mentioned that he likes to work with animals and that he tries to help them. Mr. Genco said that he was offered a promotion by former Public Safety Director Huss and that he didn't take the position because he enjoys working in the field. He told us that what he doesn't like about his job is euthanizing wild animals (racoons, bats, ground hogs, skunks, and foxes). Mr. Genco stated that Animal Care and Control Officers began euthanizing wild animals when Humane Animal Rescue of Pittsburgh didn't want to anymore and that this began in 2010 or 2011. He said that Dr. Stephenson trained Animal Care and Control Officers on how to euthanize wild animals.

Mr. Genco informed us that he normally works with Officer John Lapp. He said that Animal Care and Control Officers do not have body cameras and that there are no cameras inside of the truck. Officer Genco told us that he normally handles the control pole because Officer Lapp is older and has some physical challenges.

We began to discuss the incident on that occurred on March 17, 2021. Mr. Genco told us that he and Officer Lapp were working together on that day. He said that he was driving the truck on March 17, 2021, and that Officer Lapp was the passenger. Mr. Genco informed us that they received a call through dispatch that dogs were inside of a vehicle at 21st Street and Waterfront. He said that when they arrived, they saw a lot of people in the area walking their dogs. Mr. Genco said that someone reported to him and Officer Lapp that the dogs were left in the vehicle earlier that morning and that the owner of the dogs may be a construction worker. He told us that the windows on the vehicle were closed and that there was no food or water in the vehicle for the dogs. Mr. Genco said that the dogs were panting. He informed us that the vehicle was parked in the sunlight and that there was no shade. He informed us that he and Officer Lapp searched for the owner of the vehicle and dogs on Smallman Street, 21st. Street, and on Waterfront Street. Mr. Genco stated that he and Officer Lapp talked to construction workers and mentioned that the owner of the vehicle they were looking for has an Ohio plate on it. He said that after searching for the owner of the vehicle and the dogs that they went back to the vehicle and checked on the dogs. Mr. Genco told us that the dogs were panting. He stated that he and Officer Lapp waited for about 10 or 15 minutes before calling the Animal Care and Control office and using channel 1 to request a police unit. Mr. Genco told us that Officer Rende arrived first on scene and that Officer Churilla arrived about a minute later. He said that he and Officer Lapp explained to Officer Rende and Churilla that the dogs were in the vehicle all morning, the vehicle was in the sun, and that it started getting warmer. Mr. Genco informed us that he told Officers Rende and Churilla that they may have to take the dogs and that the officers agreed. He said that he and Officer Lapp did not have anything to break the window with and that Officer Churilla had an instrument to break the window. Mr. Genco told us that the white dog was sitting in the middle of the back seat and that it was panting heavily. He stated that the brown dog was in the front seat and was biting at them through the window. Mr. Genco said that the brown dog was very upset and lunged at the window and was barking. He informed us that Officer Lapp broke the middle rear window on the driver's side. He told us that the temperature outside was 50 degrees at the time the dogs were removed from the vehicle. Mr. Genco said that he believed the dogs were in imminent danger. I asked him

to explain why he believed the dogs were in imminent danger. Mr. Genco said because of the way the vehicle was parked and that the dogs didn't look too good. He said that he thought they were lethargic. Mr. Genco stated that the dogs were panting, and their tongues were hanging out. He said that they were slobbering and that the brown dog was slobbering all over the windows. Mr. Genco told us that after Officer Lapp broke the window that someone opened the door. He said that the plan was to get try to get the brown dog out, but he was not able to get the dog on the control pole. Mr. Genco said that the brown dog began biting the pole and lead and they made the decision to remove the white dog first. He said that he was holding the brown dog at bay so Officer Lapp could remove the white dog. Mr. Genco told us that Officer Lapp was able to remove the white dog from the vehicle and the vehicle door was closed. He said that he may have ran over to open the cage on the truck for the white dog to go in. Mr. Genco said that only Officer Lapp handled the white dog, and this dog was friendly. Mr. Genco said that the brown dog was going crazy. He stated that a lot of people with their dogs were watching them remove the dogs from the vehicle. Mr. Genco told us that there is a fenced area that people use as a dog park very close to where the vehicle was parked.

Mr. Genco informed us that after the white dog was placed into the truck that they went back to the vehicle to remove the brown dog. He said that Officer Lapp held the door for him and that the brown dog was biting the pole. Mr. Genco stated that he was able to get the dog onto the pole and that the dog was twisting himself and biting the pole. He said that the dog's mouth started to bleed. Mr. Genco said that he was trying to get the dog to the truck. He said that Officer Rende pulled out his gun and threatened to shoot the dog. Mr. Genco told us that the dog was resisting. He stated that once he got the dog into the truck that the dog began biting the cage. He said that he and Officer Lapp heard the dog slamming himself in the cage during the ride to Humane Animal Rescue of Pittsburgh. I asked Mr. Genco what the size is of the cage on the truck. He told me that it is about 3 feet by 3 feet. Mr. Genco told us that he and Officer Lapp arrived on scene at 10:55 am and that they left the scene at 11:45 am. I asked Mr. Genco if it is normal for a dog to guard the vehicle, he is trying to remove it from. He said that he hasn't removed a lot of dogs from cars. Mr. Genco informed us that the dog was resisting and digging into the concrete. He said that he was trying to get the dog to the truck as fast as he could because he was concerned for the safety of everyone nearby. I asked Mr. Genco if he or the police officers asked the people watching close by to leave. He told me that he does not believe that anyone gave instructions to the people watching. Mr. Genco informed us that he was taught if a dog is resisting to get it where it needs to go as fast as you can. I asked Mr. Genco if there was blood in the vehicle that the dogs were removed from. He said that there was a lot of blood in the vehicle on the front seat and window. Mr. Genco told us that there was also a lot of blood in the cage that the dog was put in and on the control pole. I asked Mr. Genco is he was aware of any injuries the brown dog has sustained prior to putting it in the truck. He said that the dog's mouth was bleeding, he saw a lot of blood, and noticed that one of the dog's paws was bleeding. Mr. Genco informed us that he uses a control pole as a last resort. He mentioned the signs of when to use a control pole as when a dog is showing its teeth, tucking its tail under its body, or tensing up. Mr. Genco stated that he uses a control pole not to get hurt or bit.

I asked Mr. Genco if he was aware that there are cameras at Humane Animal Rescue of Pittsburgh. He said that there is a camera in the top right-hand corner of the garage and that there is a camera outside of the garage. Mr. Genco told us that he sent his supervisor, David Madden an e-mail and one photograph of the garage at Humane Animal Rescue of Pittsburgh on September 6, 2019. He said that on September 12, 2019, he sent Mr. Madden two photographs of the garage at Humane Animal Rescue of Pittsburgh. Mr. Genco allowed me to make copies of the e-mails and photographs. The three photographs depict that the garage has a lot of cages, carriers, and boxes inside. Mr. Genco informed us that Animal Care and Control Officers don't pull into the garage because of the deliveries that are left inside of the garage. He said that sometimes the garage door at Humane Animal Rescue of Pittsburgh is broken. He told us that he and other Animal Care and Control Officers normally unload the animals outside of the garage. Mr. Genco stated that after he sent e-mails to Mr. Madden that Mr. Madden reached out to someone at Humane Animal Rescue of Pittsburgh about the condition of the garage. He said that after Mr. Madden sent the e-mail to Humane Animal Rescue of Pittsburgh in 2019 that the conditions have improved.

I asked Officer Genco to tell us about the removal of the two dogs from the truck. Officer Genco said that Officer Lapp removed the white dog off the truck using a rope with no problem. He informed us that he believes that he went inside of the garage with Officer Lapp when Officer Lapp put the white dog into a cage. Officer Genco said that he spoke with a female and that told her that they had a mean dog and a real bad dog in the truck that they needed to bring inside. He told us that the female said that they don't have anyone available to help. Officer Genco described the female as white, thin, blonde hair, glasses, in her 30's. He said that the female worker may have come outside with them, but he is not sure.

Officer Genco informed us that Officer Lapp was holding the cage when he was working to get the dog onto the control pole. He said that he tried a few times, and the dog was biting the pole. Officer Genco stated that he was finally able to get the dog on the pole and that he pulled the dog off the truck. He said that when he was removing the dog from the truck that he went off balance and that the dog may have hit into the garage door. Officer Genco said that there is a brick wall near the door. Officer Genco demonstrated how he uses a control pole. He said that he holds the control pole with his left hand and pulls the string at the end of the pole with his right hand. I asked Officer Genco how many times he pulled the string on the end of the control pole while removing the dog from the truck. He told me once or twice. Officer Genco said that he likes to keep it tight, but not too tight where a dog can't breathe. He told us that he didn't want the dog to get loose.

Officer Genco informed us that the dog resisted the whole time and that he was pulling one way and the dog was pulling the other way. He said that the dog was digging his claws into the ground and continued to resist. Officer Genco told us that the dog was walking when he brought him into the garage and decided he didn't want to cooperate. Officer Genco said that the dog did lay down and that he did drag him on the garage floor for about 5 feet. He said that he wanted to get him into the room as fast as possible. I asked Officer Genco if the dog went unconscious. He said that it did not. Officer Genco told us that he didn't stop, and he kept going. He said that it was like he and the dog were playing tug a war. Officer Genco said that the dog was pulling, and he was pulling him. I asked Officer Genco if he was aware that while the dog was being dragged that blood, urine, and feces were left on the garage floor. Officer Genco stated that he is aware that there was blood on the floor.

Officer Genco stated that he brought the dog into the tech room and the dog got on its feet. He told us that a bunch of women came rushing in. Officer Genco said that he had the dog against the wall and the dog was going crazy and blood was flying everywhere. He told us that someone said, "get the door" and that 1 or 2 girls pushed the dog into the door. Officer Genco said that the dog was sedated. I was told by Dr. Kalinauskas that the dog was not sedated. Officer Genco told us that he believes the dog was sedated because he saw one of the women give the dog an injection. He said that he held the control pole until the workers could put a muzzle on the dog. Officer Genco said that once a muzzle was put on the dog that he took the control pole off and they left.

Officer Genco informed us that Mr. Madden called him and Officer Lapp about an hour later and told them to go back to Humane Animal Rescue of Pittsburgh and transport the dog to PVSEC. He said that he was later informed not to go back to Humane Animal Rescue of Pittsburgh because the dog was transported to PVSEC by staff at Humane Animal Rescue of Pittsburgh.

Officer Genco stated that he got back to the Animal Care and Control office at about 2:00pm and was informed that the owner of the dog called the clerk asking where his dogs are.

Officer Genco told us that his job is to get animals "from point A to point B". He said that he was never formally trained on how to use a control pole and that mostly everything he learned about being an Animal Care and

Control Officer was from experience. Officer Genco informed us that he would accept any training to help him do his job better. He stated that the brown dog was the meanest dog he ever had to deal with. Officer Genco said that he "was afraid". He told us that he did not purposely set out to hurt the dog. I asked Officer Genco if he contacted Mary Kennedy Withrow to advocate on his behalf. He told us that Officer Steve Costa is the Union Steward and that he contacted Ms. Kennedy Withrow to advocate for him.

I asked Officer Genco if there is anything else that he wants us to know. He told us that he has had 3 surgeries on his left shoulder in the past and may have to have another surgery. Officer Genco said that the last few times he went to the doctor that he was given cortisone shots. He described his injuries as having a torn bicep, labrum, and rotator cuff. Officer Genco said that he has 3 metal anchors that were drilled into his arm bone and that his arm isn't as strong as it used to be. He said that the injuries are from his job from lifting dogs up into the truck by the catch pole.

Officer Genco informed us that another Animal Care and Control Officer recently broke a dog's leg while removing it from the truck. He said that nothing happened to that Officer and that he could give us more examples of dog's being injured by Animal Care and Control Officers. He said that he has never been in any trouble, disciplined at work, or been arrested. Officer Genco told us that there is no city policy on how to use a control pole and no kind of formal training in his department.

Officer Genco said that the brown dog damaged the cage of the truck. He produced a copy of the report that he submitted after the incident on March 17, 2021. Officer Genco said that the document is dated March 16, 2021, and that is an error. He produced a copy of a letter written on his behalf from Most Reverend David J. Bonnar, Bishop of Youngstown stating that he is a man of faith and of unquestionable integrity. Officer Genco produced a copy of a text message that was sent to Attorney Casey White by Officer Steve Costa stating that he has never seen him mistreat an animal. He produced a document from Hand & UpperEx Center by Dr. Joseph Imbruglia stating that James Genco has chronic recurrent pain in the left shoulder consistent with impingement syndrome. This document was dated 11-24-2020 - Dictation: Workers Comp Return. Officer Genco produced an e-mail from David Madden sent on Thursday, April 15, 2021, at 10:59 am that states, "Hello Everyone I want you to start trying to remove animals from your trucks inside of the HAR garage whenever possible. If you are unable to use this garage for the usual reasons, then I want you to take a photo of why you can't use their garage and email the photos to me immediately. Thanks Dave";

Officer Genco stated that there is a camera near where the dog was removed from. He asked that we try to obtain the video surveillance from when the dog was removed from the vehicle. Officer Genco also asked us to see if there are additional videos at Humane Animal Rescue of Pittsburgh that show the dog inside of the tech room or being removed from Humane Animal Rescue of Pittsburgh to PVSEC.

Lt. Stoops is going to try to obtain video surveillance from where the dog was removed from the vehicle on March 17, 2021. I will reach out to Officer Angie Fry and Meagan Montmeny at Humane Animal Rescue of Pittsburgh to inquire if there is additional video surveillance of the dog in the tech room and when the dog was removed from Humane Animal Rescue of Pittsburgh to be transported to PVSEC. I will also ask Officer Angie Fry and Meagan Montmeny if there is an employee who meets the description of the female that Officer Genco said that he requested help from.

Subject: UPDATE - SUPPLEMENTAL REPORT - GENCO

Good morning,

I interviewed Officer Genco on Tuesday, April 20, 2021, in the presence of Lt. Julie Stoops and Attorney Casey White for an hour and a half.

Listed below is the supplemental report involving the interview. Lt. Stoops is trying to find out if there is any video surveillance involving the incident on March 17, 2021. I reached out to Meagan Montmeny and Officer Angie Fry requesting additional information. I will share the supplemental report and additional information that I received with ADA Lisa Borrelli for her review. I will keep you updated.

---

On Tuesday, April 20, 2021, at about 1:12 pm, I interviewed Animal Care and Control Officer James Genco in the presence of Attorney Casey White and Lt. Julie Stoops. Officer Genco appeared at the interview wearing a suit and tie. I read James Genco his Miranda Rights from the City of Pittsburgh Bureau of Police Miranda Rights Form. Officer Genco agreed to speak with Lt. Stoops and I about the incident involving the dog that was injured in the care and custody of himself and Officer John Lapp on March 17, 2021. Officer Genco initialized and signed the form. The entire exchange was recorded on my BWC with Mr. Genco's and his attorney's consent.

Mr. Genco stated that he graduated from Shaler High School in 1992 and that he attended two semesters at Community College of Allegheny County in 1993. Mr. Genco told us that he attended the National Animal Control Academy in 2003 or 2004. He said that he was trained by the city of Pittsburgh on the following subjects: CPR training, how to use a police baton, verbal judo, mace training, and swift water training. Mr. Genco informed us that the last animal related formal training he attended was in 2003 or 2004 and that there was no hands-on-training, it was only book learning. Mr. Genco stated that he has worked as an Animal Care and Control Officer in the city of Pittsburgh for the past 26 years. He said that most of what he learned about being an Animal Care and Control Officer was on the job training from other Animal Care and Control employees. Mr. Genco told us that he works Monday through Friday from 7 am to 3 pm and that he also works a lot of over time that consists of being available for taking calls overnight. He mentioned that he likes to work with animals and that he tries to help them. Mr. Genco said that he was offered a promotion by former Public Safety Director Huss and that he didn't take the position because he enjoys working in the field. He told us that what he doesn't like about his job is euthanizing wild animals (racoons, bats, ground hogs, skunks, and foxes). Mr. Genco stated that Animal Care and Control Officers began euthanizing wild animals when Humane Animal Rescue of Pittsburgh didn't want to anymore and that this began in 2010 or 2011. He said that Dr. Stephenson trained Animal Care and Control Officers on how to euthanize wild animals.

Mr. Genco informed us that he normally works with Officer John Lapp. He said that Animal Care and Control Officers do not have body cameras and that there are no cameras inside of the truck. Officer Genco told us that he normally handles the control pole because Officer Lapp is older and has some physical challenges.

We began to discuss the incident on that occurred on March 17, 2021. Mr. Genco told us that he and Officer Lapp were working together on that day. He said that he was driving the truck on March 17, 2021, and that Officer Lapp was the passenger. Mr. Genco informed us that they received a call through dispatch that dogs were inside of a vehicle at 21st Street and Waterfront. He said that when they arrived, they saw a lot of people in the area walking their dogs. Mr.

Genco said that someone reported to him and Officer Lapp that the dogs were left in the vehicle earlier that morning and that the owner of the dogs may be a construction worker. He told us that the windows on the vehicle were closed and that there was no food or water in the vehicle for the dogs. Mr. Genco said that the dogs were panting. He informed us that the vehicle was parked in the sunlight and that there was no shade. He informed us that he and Officer Lapp searched for the owner of the vehicle and dogs on Smallman Street, 21st. Street, and on Waterfront Street. Mr. Genco stated that he and Officer Lapp talked to construction workers and mentioned that the owner of the vehicle they were looking for has an Ohio plate on it. He said that after searching for the owner of the vehicle and the dogs that they went back to the vehicle and checked on the dogs. Mr. Genco told us that the dogs were panting. He stated that he and Officer Lapp waited for about 10 or 15 minutes before calling the Animal Care and Control office and using channel 1 to request a police unit. Mr. Genco told us that Officer Rende arrived first on scene and that Officer Churilla arrived about a minute later. He said that he and Officer Lapp explained to Officer Rende and Churilla that the dogs were in the vehicle all morning, the vehicle was in the sun, and that it started getting warmer. Mr. Genco informed us that he told Officers Rende and Churilla that they may have to take the dogs and that the officers agreed. He said that he and Officer Lapp did not have anything to break the window with and that Officer Churilla had an instrument to break the window. Mr. Genco told us that the white dog was sitting in the middle of the back seat and that it was panting heavily. He stated that the brown dog was in the front seat and was biting at them through the window. Mr. Genco said that the brown dog was very upset and lunged at the window and was barking. He informed us that Officer Lapp broke the middle rear window on the driver's side. He told us that the temperature outside was 50 degrees at the time the dogs were removed from the vehicle. Mr. Genco said that he believed the dogs were in imminent danger. I asked him to explain why he believed the dogs were in imminent danger. Mr. Genco said because of the way the vehicle was parked and that the dogs didn't look too good. He said that he thought they were lethargic. Mr. Genco stated that the dogs were panting, and their tongues were hanging out. He said that they were slobbering and that the brown dog was slobbering all over the windows. Mr. Genco told us that after Officer Lapp broke the window that someone opened the door. He said that the plan was to get try to get the brown dog out, but he was not able to get the dog on the control pole. Mr. Genco said that the brown dog began biting the pole and lead and they made the decision to remove the white dog first. He said that he was holding the brown dog at bay so Officer Lapp could remove the white dog. Mr. Genco told us that Officer Lapp was able to remove the white dog from the vehicle and the vehicle door was closed. He said that he may have ran over to open the cage on the truck for the white dog to go in. Mr. Genco said that only Officer Lapp handled the white dog, and this dog was friendly. Mr. Genco said that the brown dog was going crazy. He stated that a lot of people with their dogs were watching them remove the dogs from the vehicle. Mr. Genco told us that there is a fenced area that people use as a dog park very close to where the vehicle was parked.

Mr. Genco informed us that after the white dog was placed into the truck that they went back to the vehicle to remove the brown dog. He said that Officer Lapp held the door for him and that the brown dog was biting the pole. Mr. Genco stated that he was able to get the dog onto the pole and that the dog was twisting himself and biting the pole. He said that the dog's mouth started to bleed. Mr. Genco said that he was trying to get the dog to the truck. He said that Officer Rende pulled out his gun and threatened to shoot the dog. Mr. Genco told us that the dog was resisting. He stated that once he got the dog into the truck that the dog began biting the cage. He said that he and Officer Lapp heard the dog slamming himself in the cage during the ride to Humane Animal Rescue of Pittsburgh. I asked Mr. Genco what the size is of the cage on the truck. He told me that it is about 3 feet by 3 feet. Mr. Genco told us that he and Officer Lapp arrived on scene at 10:55 am and that they left the scene at 11:45 am. I asked Mr. Genco if it is normal for a dog to guard the vehicle, he is trying to remove it from. He said that he hasn't removed a lot of dogs from cars. Mr. Genco informed us that the dog was resisting and digging into the concrete. He said that he was trying to get the dog to the truck as fast as he could because he was concerned for the safety of everyone nearby. I asked Mr. Genco if he or the police officers asked the people watching close by to leave. He told me that he does not believe that anyone gave instructions to the people watching. Mr. Genco informed us that he was taught if a dog is resisting to get it where it needs to go as fast as you can. I asked Mr. Genco if there was blood in the vehicle that the dogs were removed from. He said that there was a lot of blood in the vehicle on the front seat and window. Mr. Genco told us that there was also a lot of blood in the cage that the dog was put in and on the control pole. I asked Mr. Genco is he was aware of any injuries the brown dog has sustained prior to putting it in the truck. He said that the dog's mouth was bleeding, he saw a lot of blood, and noticed that one of the dog's paws was bleeding. Mr. Genco informed us that he uses a control

pole as a last resort. He mentioned the signs of when to use a control pole as when a dog is showing its teeth, tucking its tail under its body, or tensing up. Mr. Genco stated that he uses a control pole not to get hurt or bit.

I asked Mr. Genco if he was aware that there are cameras at Humane Animal Rescue of Pittsburgh. He said that there is a camera in the top right-hand corner of the garage and that there is a camera outside of the garage. Mr. Genco told us that he sent his supervisor, David Madden an e-mail and one photograph of the garage at Humane Animal Rescue of Pittsburgh on September 6, 2019. He said that on September 12, 2019, he sent Mr. Madden two photographs of the garage at Humane Animal Rescue of Pittsburgh. Mr. Genco allowed me to make copies of the e-mails and photographs. The three photographs depict that the garage has a lot of cages, carriers, and boxes inside. Mr. Genco informed us that Animal Care and Control Officers don't pull into the garage because of the deliveries that are left inside of the garage. He said that sometimes the garage door at Humane Animal Rescue of Pittsburgh is broken. He told us that he and other Animal Care and Control Officers normally unload the animals outside of the garage. Mr. Genco stated that after he sent e-mails to Mr. Madden that Mr. Madden reached out to someone at Humane Animal Rescue of Pittsburgh about the condition of the garage. He said that after Mr. Madden sent the e-mail to Humane Animal Rescue of Pittsburgh in 2019 that the conditions have improved.

I asked Officer Genco to tell us about the removal of the two dogs from the truck. Officer Genco said that Officer Lapp removed the white dog off the truck using a rope with no problem. He informed us that he believes that he went inside of the garage with Officer Lapp when Officer Lapp put the white dog into a cage. Officer Genco said that he spoke with a female and that told her that they had a mean dog and a real bad dog in the truck that they needed to bring inside. He told us that the female said that they don't have anyone available to help. Officer Genco described the female as white, thin, blonde hair, glasses, in her 30's. He said that the female worker may have come outside with them, but he is not sure.

Officer Genco informed us that Officer Lapp was holding the cage when he was working to get the dog onto the control pole. He said that he tried a few times, and the dog was biting the pole. Officer Genco stated that he was finally able to get the dog on the pole and that he pulled the dog off the truck. He said that when he was removing the dog from the truck that he went off balance and that the dog may have hit into the garage door. Officer Genco said that there is a brick wall near the door. Officer Genco demonstrated how he uses a control pole. He said that he holds the control pole with his left hand and pulls the string at the end of the pole with his right hand. I asked Officer Genco how many times he pulled the string on the end of the control pole while removing the dog from the truck. He told me once or twice. Officer Genco said that he likes to keep it tight, but not too tight where a dog can't breathe. He told us that he didn't want the dog to get loose.

Officer Genco informed us that the dog resisted the whole time and that he was pulling one way and the dog was pulling the other way. He said that the dog was digging his claws into the ground and continued to resist. Officer Genco told us that the dog was walking when he brought him into the garage and decided he didn't want to cooperate. Officer Genco said that the dog did lay down and that he did drag him on the garage floor for about 5 feet. He said that he wanted to get him into the room as fast as possible. I asked Officer Genco if the dog went unconscious. He said that it did not. Officer Genco told us that he didn't stop, and he kept going. He said that it was like he and the dog were playing tug a war. Officer Genco said that the dog was pulling, and he was pulling him. I asked Officer Genco if he was aware that while the dog was being dragged that blood, urine, and feces were left on the garage floor. Officer Genco stated that he is aware that there was blood on the floor.

Officer Genco stated that he brought the dog into the tech room and the dog got on its feet. He told us that a bunch of women came rushing in. Officer Genco said that he had the dog against the wall and the dog was going crazy and blood was flying everywhere. He told us that someone said, "get the door"; and that 1 or 2 girls pushed the dog

into the door. Officer Genco said that the dog was sedated. I was told by Dr. Kalinauskas that the dog was not sedated. Officer Genco told us that he believes the dog was sedated because he saw one of the women give the dog an injection. He said that he held the control pole until the workers could put a muzzle on the dog. Officer Genco said that once a muzzle was put on the dog that he took the control pole off and they left.

Officer Genco informed us that Mr. Madden called him and Officer Lapp about an hour later and told them to go back to Humane Animal Rescue of Pittsburgh and transport the dog to PVSEC. He said that he was later informed not to go back to Humane Animal Rescue of Pittsburgh because the dog was transported to PVSEC by staff at Humane Animal Rescue of Pittsburgh.

Officer Genco stated that he got back to the Animal Care and Control office at about 2:00pm and was informed that the owner of the dog called the clerk asking where his dogs are.

Officer Genco told us that his job is to get animals "from point A to point B". He said that he was never formally trained on how to use a control pole and that mostly everything he learned about being an Animal Care and Control Officer was from experience. Officer Genco informed us that he would accept any training to help him do his job better. He stated that the brown dog was the meanest dog he ever had to deal with. Officer Genco said that he "was afraid". He told us that he did not purposely set out to hurt the dog. I asked Officer Genco if he contacted Mary Kennedy Withrow to advocate on his behalf. He told us that Officer Steve Costa is the Union Steward and that he contacted Ms. Kennedy Withrow to advocate for him.

I asked Officer Genco if there is anything else that he wants us to know. He told us that he has had 3 surgeries on his left shoulder in the past and may have to have another surgery. Officer Genco said that the last few times he went to the doctor that he was given cortisone shots. He described his injuries as having a torn bicep, labrum, and rotator cuff. Officer Genco said that he has 3 metal anchors that were drilled into his arm bone and that his arm isn't as strong as it used to be. He said that the injuries are from his job from lifting dogs up into the truck by the catch pole.

Officer Genco informed us that another Animal Care and Control Officer recently broke a dog's leg while removing it from the truck. He said that nothing happened to that Officer and that he could give us more examples of dog's being injured by Animal Care and Control Officers. He said that he has never been in any trouble, disciplined at work, or been arrested. Officer Genco told us that there is no city policy on how to use a control pole and no kind of formal training in his department.

Officer Genco said that the brown dog damaged the cage of the truck. He produced a copy of the report that he submitted after the incident on March 17, 2021. Officer Genco said that the document is dated March 16, 2021, and that is an error. He produced a copy of a letter written on his behalf from Most Reverend David J. Bonnar, Bishop of Youngstown stating that he is a man of faith and of unquestionable integrity. Officer Genco produced a copy of a text message that was sent to Attorney Casey White by Officer Steve Costa stating that he has never seen him mistreat an animal. He produced a document from Hand & UpperEx Center by Dr. Joseph Imbriglia stating that James Genco has chronic recurrent pain in the left shoulder consistent with impingement syndrome. This document was dated 11-24-2020 - Dictation: Workers Comp Return. Officer Genco produced an e-mail from David Madden sent on Thursday, April 15, 2021, at 10:59 am that states, "Hello Everyone I want you to start trying to remove animals from your trucks inside of the HAR garage whenever possible. If you are unable to use this garage for the usual reasons, then I want you to take a photo of why you can't use their garage and email the photos to me immediately. Thanks Dave";

Officer Genco stated that there is a camera near where the dog was removed from. He asked that we try to obtain the video surveillance from when the dog was removed from the vehicle. Officer Genco also asked us to see if there are additional videos at Humane Animal Rescue of Pittsburgh that show the dog inside of the tech room or being removed from Humane Animal Rescue of Pittsburgh to PVSEC.

Lt. Stoops is going to try to obtain video surveillance from where the dog was removed from the vehicle on March 17, 2021. I will reach out to Officer Angie Fry and Meagan Montmeny at Humane Animal Rescue of Pittsburgh to inquire if there is additional video surveillance of the dog in the tech room and when the dog was removed from Humane Animal Rescue of Pittsburgh to be transported to PVSEC. I will also ask Officer Angie Fry and Meagan Montmeny if there is an employee who meets the description of the female that Officer Genco said that he requested help from.

Hey Dan, any luck making contact? If not, per the Admin Order, the CW would be entitled to call off its witnesses for tomorrow's habeas hearing and this would either be a defense PP if he does appear in the courtroom or a BF if he doesn't appear.

Thanks!  
Judy

I'm fine with keeping this remote, the only problem is my calls to Mr. Weathers have gone unanswered. I just left another voicemail. Can we schedule it remote since the plan is only to do the habeas? If he shows, we do the hearing and I request a continuance for all cases thereafter, if not BF? Please let me know how the Court would like to proceed. Thank you.

So the only days I have for a motion prior to trial would be 4/9 or 4/15 unless we use the 4/23 trial date as a motions date and a postponement is entered for the trial.

Thanks!

The PDAA provides GREAT social content in your feeds! We need your support and your 'like': please like or follow the PDAA on Instagram, Facebook and Twitter! Answers to Previous Questions Expert Witness - Psychiatrist Lancaster County is looking for recommendations from other offices for a Psychiatrist that can be used for competency and other psychiatric evaluations. Thank you in advance for your help.

Ande Gonzalez  
Chief of Appeals & Legal Services  
Lancaster County

Lycoming County

We would recommend Dr. John O'Brien.

First Assistant Martin L. Wade  
Lycoming County

Expert Witness - Domestic Violence

I am reaching out looking for an expert in Domestic Violence, specifically to address the increased risk of fatality when a victim leaves a DV relationship. We have multiple pending homicides in Luzerne County that are the result of ongoing domestic violence relationships. In the end the abusers in these cases ultimately killed their victims when the victims left. Any guidance on experts that have been used in this field before would be helpful. Thank you in advance.

ADA Angela Sperrazza  
Luzerne County

Beaver County

By far the best expert I have ever used is: Dr. Veronique N. Valliere. She is based out of the Lehigh Valley and puts on an amazing program (right from the start) once a year regarding domestic violence, sexual violence, victims, etc. I used her in a case as an expert for sexual violence and I had 5 jurors come up to me (after returning guilty on 18 Felony crimes) and tell me that she not only taught them something but she totally made them get passed any reasonable doubt. I would HIGHLY suggest her. You can find her website here.

ADA Julieane E. Fry  
Beaver County

I'm not sure whether Jo Ellen Bowman would be able to help you specifically but if not she may know someone who could. She has been AMAZING, especially in delayed reporting cases.

ADA Steven N. Necaster  
Beaver County

Union County

I suggest that you contact your local agency that gives support and advocacy to victims of domestic violence. Our group is called "Transitions"; I have consulted them on several issues like the effect of sexual violence upon a victim's response, like not reporting promptly or having other stereotypical reactions that might be expected by a jury. They offered but I did not have to use them as experts in the field. I am betting that they could also speak to this subject. If you don't have such a group I can put you in touch with mine.

The Honorable D. Peter Johnson  
Union County District Attorney

Records Retention Policy

Our office is looking into creating a records retention policy and is determining how long we need to keep our files and what (if anything) we can convert to a digital file. We are looking at how long we have to keep physical files and when we can dispose of things. As part of our project, we are looking at what other counties are doing. Could you please let us know if your office has a record retention policy for Criminal and/or Juvenile records, whether that policy came from the county or the DA's Office itself, and whether it covers what information can be digitized. If possible, could you forward us a copy of the same for us to borrow ideas from. Thank you in advance.

ADA Matthew T. Muckler, Esquire  
 ADA Gerry D. Scott, Esquire  
 Luzerne County

Lancaster and Lycoming Counties

Attached is the County Records Retention Manual which allows for implementation of the County Records Act. We follow this manual with respect to records retention. We also follow the Police provisions of the Municipal Records Retention Manual when it comes to our County Detectives' investigative files.

Ande Gonzalez  
 Chief of Appeals & Legal Services  
 Lancaster County

We use the Pennsylvania Historical and Museum Commission Archival and Records Manual for our retention (also referred to as the County Records Retention Manual).

The Pennsylvania District Attorneys Institute in collaboration with the Villanova University Charles Widger School of Law, would like to invite you to participate in a 4-session series of short, high-level, informative briefs, each focusing on a different aspect of procedural justice. Research has demonstrated that procedural justice is critical for building trust within our communities, which directly impacts public safety. This series brings together a healthy mix of presentations by elected District Attorneys, a former First Assistant District Attorney who continues to work with victims, and a handful of inside and outside individuals who are subject matter experts on the various topics.

Through this briefing series, participants will be exposed to varying and diverse criminal justice topics. The briefings are intended to foster robust thought and dialogue, among us as colleagues and among you and members of your staff and communities. Recent events have highlighted the changing and complex methodologies in criminal justice law and policy that prosecutors must understand. This series is designed to provide a fundamental understanding of some of the most widely discussed, analyzed, and debated criminal justice issues of the day.

This FREE FOUR-PART VIRTUAL SERIES is available only to members of the Pennsylvania District Attorneys Association. For more detailed information on webinar dates/times, CLE offerings, topics and presenters click here to download the flyer. You can also click here to go directly to Villanova University Charles Widger School of Law's Eventbrite site to register today!

If you need any assistance with registering, please reach out to CLE Coordinator Carla Edwards at 610-519-7476 or email her at [Carla.edwards@law.villanova.edu](mailto:Carla.edwards@law.villanova.edu). PDAl Web Based Trainings We are offering the following FREE WEB BASED TRAININGS from January 4, 2021 through December 16, 2021. These web based trainings are videos of live webinars that PDAl has hosted in the past. This is a great opportunity to catch up on any webinars that you may have

Hey Dan,

Sorry for the delay. I am waiting for the Trooper to get back to me regarding this case. Have you been able to make contact with him?

Thanks,

Emily

Emily,

Just touching base about this case, scheduled for 4/23 in Lazzara. I watched the video and see a struggle although some is out of view of the camera (when D on the ground). I don't see too much there so I wanted to gauge your thoughts and see if we could potentially do the 1543(a) + a couple other summaries. However, I also wanted to let you know that I've been unable to get a hold of my client since getting the video, so I haven't been able to discuss his preferred course of action. – was just thinking we could have a meeting of the minds in the even I hear from him/he shows for court the day of. Thank you.

On Feb 19, 2021, at 7:30 AM, Geizura, Rachel <RGeizura@alleghenycountyda.us> wrote:

Assuming that the Weathers case can be resolved next week along with his other two cases, that's fine to put it on 2/25. I obviously would not be able to subpoena any witnesses for a trial. Do you want to set 2/25 as a plea date, and still pick an actual trial date? That way, if the case doesn't close next week, ADA Emily Shanahan can just subpoena the case for trial. Good trial dates for my calendar are 3/24, 4/23, 5/5, 5/19/ 5/27. Dan: do any of those work for you?

Tim and Rachel:

I was talking to a client, Ronald Weathers, about his two cases next week and learned he has one scheduled for tomorrow's PTC! (Lisa Borelli is on the other two). Therefore, I'll represent him on this one as well. Attached is the PTC waiver. Is it okay if we just list it for 2/25/21 to go along with the others? Thanks.

Dan

Hi, everyone.

I attached a list of my cases. Of the dates the Court has given, dates that work for my calendar are: 3/24, 4/23, 5/5, 5/19, and 5/27. If you are defense counsel on these, please let me know. I'm out of the office this week training for area prosecution, so I don't have the files with me. Starting next Tuesday, ADA Emily Shanahan will be taking over my calendar, so all of these cases will become hers.

Let me know if you are on any of these cases and which dates work for you.

Thank you,

Rachel

Good afternoon!

Attached is a list of available dates for Judge Lazzara's PTC's scheduled for 2/19/21. Please discuss dates with opposing counsel and if you'd like to waive your clients appearance, if they are not incarcerated, please submit along with the selected date the Waiver of PTC found on the 5th Judicial website, a verified address, phone number and email if they have it so that we can send out a subpoena.

Thanks!

Tim

Hello,

I understand that John is off this distribution list but I was told to send this now to just you two. So here is the latest edition.

Happy weekend and Father's Day if appropriate.

Thanks,  
Lisa

Hello Lisa:

We (PCS) have discontinued with the DUS hot list integration. I'll let you know if this changes in the future.

Many Thanks, John

We have been doing this for a long time.....sometimes I wonder if there are any non-suspended drivers out there and then I remember there's me and most of the people I know.....or when we don't have a lot, I think maybe we found them all, but, no, there always seems to be more.  
Have a good weekend!

Subject: Rampolla

Hi,

Just a reminder about putting in for a postponement for Rampolla, Paul scheduled for a non-jury trial on May 4, 2021. I will be out of town May 4 and May 5 for HSPO recertification. When looking at rescheduling dates, please avoid May 12, May 19, May 27, June 2, July 13 and July 14.

Thanks

Subject: INVESTIGATION - GENCO/LAPP

Good morning,

Mary Withrow, local animal advocate, reached out to me on behalf of Officer Genco. She told me that Officer Genco has called her numerous times asking her to help him keep his job and to speak on his behalf so criminal charges are not

filed against him. Ms. Withrow told me that she has also received telephone calls from other Animal Care and Control Officers asking her to "help Jimmy". I informed Ms. Withrow that I cannot discuss this case with her, but I did listen to what she had to say. She told me that Officer Genco called her three times while I was on the telephone with her.

Ms. Withrow told me that control poles are used as a last resort and that having a dog on a control pole is never pretty. She said that Animal Care and Control Officers should be trained on how to use a control pole properly. Ms. Withrow recommended that the officers take classes at the "Animal Control Training Academy" sponsored by Colleen Shelly. She told me that Ms. Shelly can be reached at animalcrimeinstitute@gmail.com. Ms. Withrow said that this training is offered in Harrisburg. She informed me that she played a part in writing the law of the removal of dogs from vehicles. Ms. Withrow stated that she is afraid if Officer Genco is charged that it will deter other officers from removing cars from vehicles.

Ms. Withrow told me that Officer Genco told her that he has complained to David Madden that the garage at Humane Animal Rescue of Pittsburgh has pallets inside of the garage that prevent Animal Care and Control trucks from entering. She ended the conversation by saying that she did not view the video and she hopes that Officer Genco can go back to work and that he is not prosecuted.

After speaking with Ms. Withrow, I spoke with Officer Angela Fry to ask her about the pallets in the garage. Officer Fry informed me that she has worked at Humane Animal Rescue of Pittsburgh since November of 2020 and that the garage is clean. Officer Fry said that occasionally, there may be one pallet in the garage and that it is removed quickly. She told me that Animal Care and Control Officers never pull inside of the garage to remove animals. Officer Fry said, "Don't drop this. That dog suffered".

She told me that Ms. Shelly can be reached at animalcrimeinstitute@gmail.com. Ms. Withrow said that this training is offered in Harrisburg. She informed me that she played a part in writing the law of the removal of dogs from vehicles. Ms. Withrow stated that she is afraid if Officer Genco is charged that it will deter other officers from removing cars from vehicles.

Ms. Withrow told me that Officer Genco told her that he has complained to David Madden that the garage at Humane Animal Rescue of Pittsburgh has pallets inside of the garage that prevent Animal Care and Control trucks from entering. She ended the conversation by saying that she did not view the video and she hopes that Officer Genco can go back to work and that he is not prosecuted.

After speaking with Ms. Withrow, I spoke with Officer Angela Fry to ask her about the pallets in the garage. Officer Fry informed me that she has worked at Humane Animal Rescue of Pittsburgh since November of 2020 and that the garage is clean. Officer Fry said that occasionally, there may be one pallet in the garage and that it is removed quickly. She told me that Animal Care and Control Officers never pull inside of the garage to remove animals. Officer Fry said, "Don't drop this. That dog suffered".

Subject: INVESTIGATION - GENCO/LAPP

Good morning,

Mary Withrow, local animal advocate, reached out to me on behalf of Officer Genco. She told me that Officer Genco has called her numerous times asking her to help him keep his job and to speak on his behalf so criminal charges are not filed against him. Ms. Withrow told me that she has also received telephone calls from other Animal Care and Control Officers asking her to "help Jimmy". I informed Ms. Withrow that I cannot discuss this case with her, but I did listen to what she had to say. She told me that Officer Genco called her three times while I was on the telephone with her.

Ms. Withrow told me that control poles are used as a last resort and that having a dog on a control pole is never pretty. She said that Animal Care and Control Officers should be trained on how to use a control pole properly. Ms. Withrow recommended that the officers take classes at the "Animal Control Training Academy" sponsored by Colleen Shelly. She told me that Ms. Shelly can be reached at animalcrimeinstitute@gmail.com. Ms. Withrow said that this training is offered in Harrisburg. She informed me that she played a part in writing the law of the removal of dogs from vehicles. Ms. Withrow stated that she is afraid if Officer Genco is charged that it will deter other officers from removing cars from vehicles.
