 Subject: 3/18 PTC, Judge Lazzara room 306A

Good afternoon!

If you are receiving this email you are, or were at one time, listed as representing a client that we have listed for PTC this week with Judge Lazzara.

Attached is a list of available dates for Judge Lazzara's PTC's scheduled for 3/18/22 along with a partial list of the assigned ADA on each case. Please discuss dates with opposing counsel, who have been cc'd on this email, and if you'd

like to waive your clients appearance, if they are not incarcerated, please submit along with the selected date the Waiver of PTC found on the 5th Judicial website, a verified address, phone number and email if they have it so that we can send out a subpoena. If dates are not selected by the scheduled PTC date and time, please plan on being here in person.

Thanks!

Tim

FYI: Subpoenas are for 8:30am, when the door opens. Judge Lazzara expects parties to be here and have cases ready to go when she takes the bench.

Below are the pretrial conference assignments for the OPD for 3/18/22 for Judge Lazzara.

G8887034	2022-0236	Anthony Connolly	PTC	3/18/2022	Joseph Turman Lazzara

Hey Randy,

I just looked at the discovery that was sent to you and there were only three photos. It was scanned in double sided so the back of the picture that were blank was also scanned in.

Thanks!

Great! Thanks, Emily. I'll ask Tim for 6/2.

I spoke with Mr. Contreras this morning. Apparently there was an arrangement for him to do BIP for a summary at the magistrate, but he didn't get his classes done. Since the prelim, he restarted BIP and told me that he has 8 of the 24 classes done and is continuing to go to class every week. If you think this is something that we could work out with BIP for a summary, we would be on board with that. Just let me know!

Thanks,

Joe

 Subject: Re: Motion for Continuance

Thanks! I have the vet statement, but defense counsel wanted to know if the sister or anyone else made a statement. The first judge thought he should go to mental health court and recused himself. Defense counsel was appointed to get this guy evaluated to see if he is a candidate for mental health court. I don't know why she is doing anything other than that.

Talk to you soon.

Ok I will advise all parties of the postponement. Did you receive any of the written statements from the vet Dr. Lange? PD Nina Martinelli spoke with me last week. I advised her that I feel Whewell definitely needs some mental health help however I could not be the one that states that this trial should go to mental health court. Not sure your position or the position of your office either. I think he needs to be held accountable as well as some mental health. Please feel free to reach me at any time. My cell is you need it is 412-523-8440. Or call the station 412-921-2016. I am working daylight shifts currently with Friday and Saturday off.

Warning! This email was sent from an external source. Please be sure you recognize the sender and use caution when clicking on links and/or opening attachments.

Good afternoon!

If you are receiving this email you are, or were at one time, listed as representing a client that we have listed for PTC this week with Judge Lazzara.

Attached is a list of available dates for Judge Lazzara's PTC's scheduled for 3/18/22 along with a partial list of the assigned ADA on each case. Please discuss dates with opposing counsel, who have been cc'd on this email, and if you'd like to waive your clients appearance, if they are not incarcerated, please submit along with the selected date the Waiver of PTC found on the 5th Judicial website, a verified address, phone number and email if they have it so that we

can send out a subpoena. If dates are not selected by the scheduled PTC date and time, please plan on being here in person.

Thanks!

Tim

FYI: Subpoenas are for 8:30am, when the door opens. Judge Lazzara expects parties to be here and have cases ready to go when she takes the bench.

Below are the pretrial conference assignments for the OPD for 3/18/22 for Judge Lazzara.

G8887034	2022-0236	Anthony Connolly	PTC	3/18/2022	Joseph Turman Lazzara

UPDATE TO SHARE.

I just received a text from a woman named "Eronda". I know her from the animal rescue community. Eronda informed me that Kori Ford told her that the people at 422 Charles Street moved back into the house in the middle of the night and are currently unpacking a Uhaul.

Subject: Re: 422 Charles st.

I retrieved a voice mail today from Kori Ford (lives across the street from 422 Charles Street). Ms. Ford reported that the dogs were NOT removed from the house and her son gave her wrong information.

According to Ms. Ford, the dogs are still there. She said that she was leaving work early yesterday to go in person to the Mayor's office.

Can these dogs please be removed?

Ok I will advise all parties of the postponement. Did you receive any of the written statements from the vet Dr. Lange? PD Nina Martinelli spoke with me last week. I advised her that I feel Whewell definitely needs some mental health help however I could not be the one that states that this trial should go to mental health court. Not sure your position or the position of your office either. I think he needs to be held accountable as well as some mental health. Please feel free to reach me at any time. My cell is you need it is 412-523-8440. Or call the station 412-921-2016. I am working daylight shifts currently with Friday and Saturday off.

Thanks,

Thanks. I double checked and you are right, the dogs are back. Both Officer Luffy and Officer Fry are aware. I am not sure what we can charge right now as the dog looks healthy. The owners keep complying with the citations left on the door. Maybe noise ordinance when he barks at night?

Thank you for keeping me informed on this and we will see what we can do.

I know it is frustrating and for that I apologize; but our hands are tied because the statute doesn't give us much to work with.

Here it is in case you want to see it: <https://www.animallaw.info/statute/pa-cruelty-consolidated-cruelty-statutes>

Good afternoon!

If you are receiving this email you are, or were at one time, listed as representing a client that we have listed for PTC this week with Judge Lazzara.

Attached is a list of available dates for Judge Lazzara's PTC's scheduled for 3/18/22 along with a partial list of the assigned ADA on each case. Please discuss dates with opposing counsel, who have been cc'd on this email, and if you'd like to waive your clients appearance, if they are not incarcerated, please submit along with the selected date the Waiver of PTC found on the 5th Judicial website, a verified address, phone number and email if they have it so that we can send out a subpoena. If dates are not selected by the scheduled PTC date and time, please plan on being here in person.

Thanks!

Tim

FYI: Subpoenas are for 8:30am, when the door opens. Judge Lazzara expects parties to be here and have cases ready to go when she takes the bench.

Below are the pretrial conference assignments for the OPD for 3/18/22 for Judge Lazzara.

G8887034	2022-0236	Anthony Connolly	PTC	3/18/2022	Joseph Turman Lazzara		
G8963286	2022-0181	Armando Centreras	PTC	3/18/2022	Joseph Turman Lazzara		
G8997940	2022-0299	Akeem James	PTC	3/18/2022	Joseph Turman Lazzara	G8706213	2022-
0238	Gregory Stone	PTC	3/18/2022	Samuel Esterman	Lazzara	G8612295	2020-
4730	Collin Helsel	PTC	3/18/2022	Joseph Turman Lazzara	G8456836		2019-

Hello,

This matter has been postponed by the defense to 4/27. New subpoenas will follow. Please notify all parties not mentioned above. If there are witness statements, I will need those as soon as possible.

Thanks,
Lisa

Hey!

I just submitted a pp for Mr. Whewell's case scheduled on 3.22.22. The dates provided are good dates for defense counsel and the Commonwealth.

Thank you!

Nina

Hi Em!

Regarding the David Kasprzyk case we have at CC: 202106711, I have attached photos that were provided in the discovery. As you can see they are completely discernable. Could you please email us color copies or have someone in your discovery unit copy them in color so we can make out what the pictures depict. We need these for our expert to review and to determine what else it is we need from your Vet / expert. Just a heads up your vet's necropsy report is missing alot. Yikes!! If we can find out from our expert what is missing, then that will give your vet a chance to clarify or explain what's missing or why. Any other courtroom we could relax crossing our T's or dotting our I's. But no relaxing in our chosen courtroom. Grrrr!

Just so you know we still lov you Em and yer Bills who lost me alot of money!!

Sincerely,
Randall T. Ricciuti

Necropsy Report
Agency: Humane Animal Rescue
Investigator: Angie Fry Humane Agent
Case: Tan Puppy
Examining Veterinarian: Lawrence Gerson VMD
Date of necropsy : July 26, 2021
Subject of exam: Tan Puppy 6 to 8 months of age
Reason for exam: suspected abuse
Method of arrival: refrigerated
Medical History: owner contacted authorities
Body Condition Score: 1 of 9 Emaciated Examination Findings

External: Emaciated to the point that all bones are showing, no body fat, eyes sunken
Rigor: yes
Decomposition: no
Body Condition Score: 1 of 9
Weight: 12 lb approx
Coat Condition: poor
Ectoparasites: not observed
Head: Eyes sunken, retained deciduous tooth upper left carnasial tooth not fully erupted
Chest: ribs showing
Abdomen: thin
Perineum: normal

Legs: poorly muscled
Feet: normal
Tail: normal
Evidence of Medical / surgical intervention: none
Radiographic interpretation: none

Internal Exam

Head: eyes sunken, retained carnasial tooth left
Adult tooth not fully erupted
Chest: 60 cc fluid (bloody) in chest cavity
Abdomen: solid stool in colon, discolored intestines (dark in color),
Abdominal Cavity: see below
Neck: normal
Respiratory Tract: pathology sample taken
Cardiovascular system: sent heart to pathology
Gastrointestinal Tract: solid stool in colon, very thin tissue, discolored tissue dark in color
Biliary Tract: sent pathology of liver
Pancreas: normal
Spleen: normal and sent for pathology
Adrenals: not observed
Urinary Tract: Kidney misshaped, sent for pathology
Reproductive system: not remarkable
Musculoskeletal System: poorly muscled, no fat
Summary of Findings: severe malnutrition to the point of abuse
Cause of injury: neglect due to improper feeding and care
Mechanism of Death / Cause: severe malnutrition

It would take weeks of a lack of food or a longer period of restricted calorie intake to have a dog go from a normal body condition score of 5 (normal) to get to a 1 on a body condition score
Starvation with resulting hunger and pain is animal abuse.

Contributing facts: The medical heroics at the Emergency / Specialty hospital (AVETS) could not stabilize the severe malnutrition and low blood sugar. Once a dog is severely malnourished a series of fatal events are often irreversible

Conclusions: Severe neglect by the caretaker of this puppy led to a series of irreversible events that contributed to a fatal outcome

Radiographic interpretation: none

Internal Exam

Head: eyes sunken, retained carnasial tooth left
Adult tooth not fully erupted
Chest: 60 cc fluid (bloody) in chest cavity
Abdomen: solid stool in colon, discolored intestines (dark in color),
Abdominal Cavity: see below
Neck: normal
Respiratory Tract: pathology sample taken

Cardiovascular system: sent heart to pathology
 Gastrointestinal Tract: solid stool in colon, very thin tissue, discolored tissue dark in color
 Biliary Tract: sent pathology of liver
 Pancreas: normal
 Spleen: normal and sent for pathology
 Adrenals: not observed
 Urinary Tract: Kidney misshaped, sent for pathology
 Reproductive system: not remarkable
 Musculoskeletal System: poorly muscled, no fat
 Summary of Findings: severe malnutrition to the point of abuse
 Cause of injury: neglect due to improper feeding and care
 Mechanism of Death / Cause: severe malnutrition
 It would take weeks of a lack of food or a longer period of restricted calorie intake to have a dog go from a normal body condition score of 5 (normal) to get to a 1 on a body condition score
 Starvation with resulting hunger and pain is animal abuse.
 Contributing facts: The medical heroics at the Emergency / Specialty hospital (AVETS) could not stabilize the severe malnutrition and low blood sugar. Once a dog is severely malnourished a series of fatal events are often irreversible
 Conclusions: Severe neglect by the caretaker of this puppy led to a series of irreversible events that contributed to a fatal outcome

Investigator: Angie Fry Humane Agent

Case: Tan Puppy

Examining Veterinarian: Lawrence Gerson VMD

Date of necropsy : July 26, 2021

Subject of exam: Tan Puppy 6 to 8 months of age

Reason for exam: suspected abuse

Method of arrival: refrigerated

Medical History: owner contacted authorities

Body Condition Score: 1 of 9 Emaciated Examination Findings

External: Emaciated to the point that all bones are showing, no body fat, eyes sunken

Rigor: yes

Decomposition: no

Body Condition Score: 1 of 9

Weight: 12 lb approx

Coat Condition: poor

Ectoparasites: not observed

Head: Eyes sunken, retained deciduous tooth upper left carnasial tooth not fully erupted

Chest: ribs showing

Abdomen: thin

Perineum: normal

Legs: poorly muscled

Feet: normal

Tail: normal

Evidence of Medical / surgical intervention: none

Radiographic interpretation: none

Internal Exam

Head: eyes sunken, retained carnasial tooth left

Adult tooth not fully erupted

Chest: 60 cc fluid (bloody) in chest cavity

Dear Angie,

Thank you for reaching out. I wanted to share outlines of the content you requested below. In 2003 the courses were held in person so while I can share the high-level content, I can't confirm that your officer was present during each section covered, or what the hands-on training for the catch pole included. This is the foundation for the training content back then. A NACA certification requires officers to complete 30 CEU credits annually to ensure officers are up to date with current trends and best practices in the industry. Hopefully this helps and please let me know if you have additional questions.

Dog Behavior

- * Dog Social Development
- * The Attachment Process
- * Periods of Behavioral Development
- * Neonatal Period: Birth to Two Weeks
- * Transitional Period: Two to Three Weeks
- * Socialization Period: Three to Twelve Weeks
- * Juvenile Period: Twelve Weeks Onward
- * The Senior Dog
- * The Kenneled Dog
- * Behavioral Assessment
- * Humane and Effective Training

- * Some Biological/Behavioral Concerns

- * Summary
- * Miscellaneous Tips to Stimulate Thought or More Research
- * Starting Library
- * Sources for Equipment
- * Starter Guide to Some Internet Web Sites
- * Chapter Questions References

A section of the training as it relates to catch poles: EQUIPMENT AIDED CAPTURES: The next levels of canine capture are equipment aided captures of under-socialized dogs utilizing nets, snap loops or livetraps. You should note that this chapter does not offer the industry standard "catch pole/control pole" as a field capture technique except for unique situations where an under-socialized dog is holed up under a building or vehicle. A control pole is truly most effective in the capture/handling of semi-socialized (leash-broke) dogs that can be handled without the need for the cable restraint to be overtightened. Catch poles in the field also tend to be overutilized to lift dogs into a holding compartment and they give the wrong predatory impression when approaching a stray dog.

Thank you,

Jerrica

Sorry, I forgot a 4. It is 1444 Hillsdale. It's in my signature too.

The building is a white brick former school type building on the corner of Espy and Hillsdale. (Hillsdale is off of West Liberty Avenue.)

Parking lot is on Espy. There were spaces available when I just walked outside, but let me know if you have a problem.

When you come in the double doors, there's an old theater ticket booth, turn right to the unmarked door and push the buzzer.

Or just text me or call when you get here and I will get you into the offices.

Hope this makes it easier for you to get here.

Kristen and Jake,

As we discussed, and after speaking with both my officer and my supervisor, I can offer this plea.

In regard to the 119 dogs, and the resulting 79 charges, the Commonwealth makes the following offer at this time:

Each defendant will plead guilty to Count 1, an F3, with a sentence of probation for a period of 7 years, with prohibition for the same amount of time; also
to Count 23, an M2, for a probation/prohibition period of 2 years,
and
to Count 50, an M3, for a probation/prohibition period of 1 year. All to run consecutive to each other for a total period of no less than 10 years.

The sentences related to these charges represent their actions against separate animals.

The sentencing for each charge will run consecutively to each other so that the probation is no less than 10 years with a resulting prohibition of having animals to also run for those 10 years.

In exchange for each guilty plea, the Commonwealth will withdraw the remaining charges, including all summary charges which would have required a mandatory fine of \$50-\$750.

Both defendants must agree to the plea, or it will be considered rejected.

I believe that this summarizes our discussion, but let me know if I missed anything.

Thanks,
Lisa

Additional Comments on Necropsy
of Kasprzyk Dog- January 20, 2022

On Tuesday April 27, 2021 I examined the remains of Lhasa Apso type spayed female dog.

The dog was severely matted having not been brushed or groomed for at least many months. Severely matted fur was found on all 4 limbs, face, ears, tail and trunk. The body had urine and fecal residue. (Please see the photos that I have sent for review.)

There were 4 additional findings that I will explain.

The right eye as seen in the photographs had a large central corneal ulcer of unknown duration. If chronic and untreated the ulcer would have been very painful. The cornea ulcer could have been created the night in question. The globe of the eye was disrupted. Severe hemorrhage is evident around the right eye indicating recent trauma. There was a direct blow to that right eye.

The right hip was luxated and detected from palpation revealing a torn ligament and joint capsule. The femoral head was freely movable in and out of place. Often injuries like this are seen after a pet is hit by a car. My assumption is that the dog was picked up by his leg and traumatized like that of a shaken baby syndrome.

The right front shoulder joint was also dislocated as I found upon palpation. Again this was likely caused by grabbing the leg and shaking the body to tear the joint capsule. Previous medical records are needed to document any prior veterinary care and to rule out a preexisting injury as a cause of the luxations. This dog would not be able to walk with both right shoulder and hip luxated.

Finally the postmortem exam revealed pulmonary contusion and hemorrhage. With some certainty this is the cause of death. Compression of the chest might have caused this injury or blunt force trauma could have caused the terminal abuse.

My professional conclusion is that this dog was a victim of animal abuse as apparently he had been beaten. Trauma as I was informed was reported in the police report. This cruelty from the night in question with trauma to two limbs, eye and chest is beyond question an egregious case of criminal behavior. The responsible party is a threat to other animals and also to humans.

Additional Comments on Necropsy
of Kasprzyk Dog- January 20, 2022

On Tuesday April 27, 2021 I examined the remains of Lhasa Apso type spayed female dog. The dog was severely matted having not been brushed or groomed for many months. Severely matted fur was found on all 4 limbs, face, ears, tail and trunk. The body had urine and fecal residue. The condition of this dog indicated abuse as bad as I had seen in my 45 years of clinical practice before the alleged trauma the night the dog passed away. Those additional findings from the abuse will follow. (Please see the photos that I have sent for review.)

There were 4 additional findings that I will explain.

The right eye as seen in the photographs had a large central corneal ulcer of unknown duration. If chronic and untreated the ulcer would have been very painful. The globe of the eye was ruptured. Severe hemorrhage is evident around the right eye indicating recent severe trauma. There was a direct blow to that right eye.

Subject: Tan Puppy

Necropsy Report

Agency: Humane Animal Rescue
Investigator: Angie Fry Humane Agent
Case: Tan Puppy
Examining Veterinarian: Lawrence Gerson VMD
Date of necropsy : July 26, 2021
Subject of exam: Tan Puppy 6 to 8 months of age
Reason for exam: suspected abuse
Method of arrival: refrigerated
Medical History: owner contacted authorities
Body Condition Score: 1 of 9 Emaciated

Examination Findings

External: Emaciated to the point that all bones are showing, no body fat, eyes sunken
Rigor: yes
Decomposition: no
Body Condition Score 1 of 9
Weight: 12 lb approx
Coat Condition: poor
Ectoparasites: not observed

Head: Eyes sunken, retained deciduous tooth upper left carnasial tooth not fully erupted
Chest: ribs showing
Abdomen: thin
Perineum: normal
Legs: poorly muscled
Feet: normal
Tail: normal

Evidence of Medical / surgical intervention: none
Radiographic interpretation: none

Internal Exam

Head: eyes sunken, retained carnasial tooth left
Adult tooth not fully erupted
Chest: 60 cc fluid (bloody) in chest cavity
Abdomen: solid stool in colon, discolored intestines (dark in color),
Abdominal Cavity: see below
Neck: normal
Respiratory Tract: pathology sample taken
Cardiovascular system: sent heart to pathology
Gastrointestinal Tract: solid stool in colon, very thin tissue, discolored tissue dark in color
Biliary Tract: sent pathology of liver
Pancreas: normal
Spleen: normal and sent for pathology
Adrenals: not observed
Urinary Tract: Kidney misshaped, sent for pathology
Reproductive system: not remarkable
Musculoskeletal System: poorly muscled, no fat

Summary of Findings: severe malnutrition to the point of abuse
Cause of injury: neglect due to improper feeding and care
Mechanism of Death / Cause: severe malnutrition
It would take weeks of a lack of food or a longer period of restricted calorie intake to have a dog go from a normal body condition score of 5 (normal) to get to a 1 on a body condition score
Starvation with resulting hunger and pain is animal abuse.
Contributing facts: The medical heroics at the Emergency / Specialty hospital (AVETS) could not stabilize the severe malnutrition and low blood sugar. Once a dog is severely malnourished a series of fatal events are often irreversible

Conclusions: Severe neglect by the caretaker of this puppy led to a series of irreversible events that contributed to a fatal outcome

Good morning,

Please see the e-mail below.

I will share your telephone number with Emily McNally.

Are you and ADA Borrelli able to meet at police headquarters on Tuesday, March 8, 2022. Lt. Stoops is available any time after 12 pm (noon). Officer Fry and I will make ourselves available at any time for this meeting. Please let me know.

Thanks!

Hi again! Just checking in on the status. We're getting down to the wire on when these charges need to be refiled. Are you able to put some pressure on the DA's office to make sure this gets done?

Thank you!

Good morning Lisa,

There are several pieces of mandatory discovery missing from the Frankovic files- the vet records, scene photographs and the signed consents.

With this case being scheduled for next week, do you want to submit a Commonwealth postponement so that you can get us that information?
Thank you so much!

Yours truly,
Kristen

Thank you, I did!

I have put in for a subpoena for the vet that I will email to you for delivery.

The Court just appointed him counsel today. I will keep you posted.

Thanks!

Subject: J. Whewell trial

Ms. Borrello,

I hope that you received my emails with the imaging from Dr. Lange along with the photos and body camera footage that was given to ADA Stephanie Shriver to turn over to you. I am giving our constable the subpoena to serve to Humane Officer Angie Fry. As far as I know she still has in her possession the ashes from the deceased dog being cremated. Will we need these for trial? If so, I will contact her and request that she bring them. Also, could you send me a subpoena for Dr. Lange from the PVESC please and I will have our constable serve that subpoena as well? Thank you. Please let me know if you need anything else. I had also consulted with ADA Nicole Earheart during my follow up investigations so she should be somewhat familiar with the case.

Subject: Re: DUS Spreadsheet

Hello,

I understand that John is off this distribution list but I was told to send this now to just you two. So here is the latest edition.

Happy weekend and Father's Day if appropriate.

Thanks,
Lisa

Hello Lisa:

We (PCS) have discontinued with the DUS hot list integration. I'll let you know if this changes in the future.

Many Thanks, John

Subject: J. Whewell trial

Ms. Borrello,

I hope that you received my emails with the imaging from Dr. Lange along with the photos and body camera footage that was given to ADA Stephanie Shriver to turn over to you. I am giving our constable the subpoena to serve to Humane Officer Angie Fry. As far as I know she still has in her possession the ashes from the deceased dog being cremated. Will we need these for trial? If so, I will contact her and request that she bring them. Also, could you send me a subpoena for Dr. Lange from the PVESC please and I will have our constable serve that subpoena as well? Thank you. Please let me know if you need anything else. I had also consulted with ADA Nicole Earheart during my follow up investigations so she should be somewhat familiar with the case.

Subject: J. Whewell trial

Ms. Borrello,

I hope that you received my emails with the imaging from Dr. Lange along with the photos and body camera footage that was given to ADA Stephanie Shriver to turn over to you. I am giving our constable the subpoena to serve to Humane Officer Angie Fry. As far as I know she still has in her possession the ashes from the deceased dog being cremated. Will we need these for trial? If so, I will contact her and request that she bring them. Also, could you send me a subpoena for Dr. Lange from the PVESC please and I will have our constable serve that subpoena as well? Thank you. Please let me know if you need anything else. I had also consulted with ADA Nicole Earheart during my follow up investigations so she should be somewhat familiar with the case.

Autumn,

Just wanted to remind you about our brief conversation at the copier, where I asked about getting a subpoena for the vet, Dr. Lange.

The officer will have it served and I can email it to him, if that works for you, so whenever you have a chance, I appreciate the help.

Thanks,
Lisa

Hi Lisa,

I saw yesterday that the trial for **Ela Aydin** was moved from 02/24/22 to 03/01/22 to have all her open cases with the same judge. The vet, Dr. Samson, is out of town that week for a conference and is not available for trial.

Can we get a new date?

Subject: RE: Fax Phishing Email

Although this may seem to be overkill, be aware that the US Dept of Justice has issued 'advice' to businesses to increase their cyber security in anticipation of Russian 'cyber' action ahead of a Ukraine invasion. There's nothing to say local government agencies won't be targeted. We were 'hacked' once before by a foreign actor who was caught and prosecuted by the local US Attorney's Office. So don't think it can't happen here, it has. And, the recent increase in phishing may be a coincidence, but I don't believe in the tooth fairy or coincidences.

 Attachments: Kasprzyk discovery photos.pdf

Hi Em!

Regarding the David Kasprzyk case we have at CC: 202106711, I have attached photos that were provided in the discovery. As you can see they are completely discernable. Could you please email us color copies or have someone in

your discovery unit copy them in color so we can make out what the pictures depict. We need these for our expert to review and to determine what else it is we need from your Vet / expert. Just a heads up your vet's necropsy report is missing alot. Yikes!! If we can find out from our expert what is missing, then that will give your vet a chance to clarify or explain what's missing or why. Any other courtroom we could relax crossing our T's or dotting our I's. But no relaxing in our chosen courtroom. Grrrr!

Just so you know we still lov you Em and yer Bills who lost me alot of money!!

Sincerely,
Randall T. Ricciuti

 Subject: Info on abusers and protection

POLICY WATCH

Utah bill would allow protective orders to cover pets

Utah's House overwhelmingly approved a bill that would allow pets to be covered by personal protective orders, including pets owned by alleged abusers. Rep. Angela Romero, one of the bill's sponsors, says abusers often threaten to injure or do injure or even kill pets to control their victims, many of whom refuse to leave an abusive situation without their pets.

Subject: Re: Ela Aydin - Case nos. 2021-8270; 2021-8271; 2021-7443 - Trial date Feb. 24

I'm still on Aydin and am filing a motion this week to have the joined with Wible in Bicket.

Thanks

Dan,

The DAs office informed me that 8271-2021 is not assigned to an ADA. Do you have someone listed?

Also, they told me case no, 8270-2021 is now assigned to ADA Lauren Sowko. Not that it makes any difference for you right now but I'm trying to coordinate a combined plea on the three cases.

Case no. 7443-2021 is still listed with Lisa Borelli.

Please let me know if your information is different.

Thanks.

Chuck

- Allegheny Courts' Helpdesk

Hi all,

Ela Aydin's case (2021-82710) needs to be scheduled with the co-defendant, Taylor Wible, as she is the co-defendant on that case. It is scheduled for 3/1/22 in Judge Bicket's courtroom.

Thanks,
Emily

OFFICE OF THE CONTROLLER

County of Allegheny
 104 COURTHOUSE * 436 GRANT STREET PITTSBURGH, PA 15219-2498 (412) 350-4699 FAX: (412) 350-4635

Dear Employee of Allegheny County,

The Controller's Office is pleased to provide you with your W-2 for the 2021 tax year. Please remember your W-2 is a tax document; as such, taxable wages may not match the gross wages per your paystub.

Federal, FICA/Medicare, and State/Local wages reported on the W-2 may not be identical because of certain deductions that you paid in 2021. These possible deductions are listed below. "YES" means that your gross wages have been reduced by the deduction noted.

Amounts that you have paid for Union Dues and Local Service Tax (LST) do not appear on your W-2. If you need these amounts, you can obtain them from the final pay stub you received in 2021.

ITEMS THAT MAY ADJUST TAXABLE WAGES

W-2 REPORTING			FEDERAL WAGES AND TAX			FICA AND MEDICARE WAGES AND TAX			STATE AND LOCAL				
WAGES AND TAX			Retirement Contributions			Box 14 - RET			YES	NO	NO	457 B Plan	Box
12 - G	YES	NO	NO	Healthcare Paid by Allegheny County			Box 12 - DD			NO	NO	NO	Chard
Flexible Spending			Box 14 - FSA			YES	YES	YES	Parking Fees		See Final Pay		
Stub	YES	YES	NO	EZ Gold Bus Passes			See Final Pay						
Stub	YES	YES	NO	Union Dues and Local Service Tax (LST)			See Final Pay						
Stub	NO	NO	NO	Health Fees			Box 14 - HLT	YES	YES	YES	Concordia Flex Dental		
& Davis Vision Premiums			Box 14 - HLT			YES	YES	YES					

When filing your local tax return you only need to report the wage once, even though it appears in Box 18 twice, and add the two tax amounts together that appear in Box 19. In this example the local wage to be reported on your local tax return would be \$6,000.00 and the total tax would be \$60.00 (\$30.00 + \$30.00).

Please call 412-350-4699 if you have any questions regarding the amounts on your W-2.

Dr. Gerson,

I am working on figuring out what additional records I can obtain. In the meantime can you put the additional comments that I copied and pasted below onto letter head so I can turn them over.

Thanks!

Comments from first email:

Emily

Please add the following comments

History as related to Dr Gerson

Family member heard defendant beat the dog that was found dead

Radiographs are at Humane Animal Rescue Pittsburgh

Cause of death

This dog was beaten so severely that both the hip and shoulder were dislocated.

Cause of death was chest compression and trauma most likely by being kicked or crushed by a foot

Lawrence Gerson VMD

Comments from second email:

Additional Comments on Necropsy
of Kasprzyk Dog- January 20, 2022

On Tuesday April 27, 2021 I examined the remains of Lhasa Apso type dog.

The dog was severely matted having not been brush or groomed for many months. Clumped hair was found on all 4 limbs, face, ears, tail, trunk

The body had urine and feces residue.

The condition of this dog indicated abuse as bad as I had seen in 45 years of clinical practice before the alleged trauma the night the dog passed away. Those additional findings that will follow. (Please see the photos that I have sent for review.)

There were 4 additional findings that I will explain.

The right eye as seen in the photographs had a large central ulcer of unknown duration. If chronic and untreated it would have been very painful.

The globe of the eye was ruptured. Severe hemorrhage is evident around the globe indicating recent severe trauma. There was a direct blow to the right eye.

The right hip was luxated and palpation revealed a torn ligament and joint capsule. The femoral head was freely movable in and out of place. Often injuries like this are seen after a pet is hit by a car.

My assumption is that the dog was picked up by his leg and traumatized like a shaken baby syndrome.

The right front shoulder joint was also dislocated as I found on palpation. Again this was likely caused by grabbing the leg and shaking the body to tear the joint capsule. Previous medical records are needed to document previous veterinary care and to rule out previous injury as a cause of the luxations. This dog would not be able to walk with both right shoulder and hip luxated.

Finally the postmortum exam revealed a pulmonary contusion and hemorrhage. With some certainty this is the cause of death. Compression of the chest might have caused this injury or blunt force trauma might have been the terminal abuse.

My professional conclusion is that dog was a victim of animal abuse prior to the night when he might have been beaten as reported in the police report. The cruelty from the night in question with trauma to two limbs, eye and chest is beyond question an egregious case of criminal behavior and the responsible party is a threat to other animals and humans.

The PDAA provides GREAT social content in your feeds! We need your support and your 'like': please like or follow the PDAA on Instagram, Facebook and Twitter! Information of Interest Rule Proposal - Bail, Probation and Parole Violations, Appointment of Counsel and Municipal Court Cases
 The Criminal Procedural Rules Committee is proposing extensive amendments to the rules governing Bail in addition to amendments to Rule 708 governing Probation and Parole Violations, Rule 122 governing the Appointment of Counsel and Rule 1003 which governs Procedure in Non-Summary Municipal Court Cases. Please take the time to review the proposed amendments, particularly those governing Bail. We have begun a review of the proposed amendments and it is clear that the amendments will have a significant effect on the existing bail system. By way of example, it would likely significantly reduce cash bail and would encourage the release of defendants with minimal nonmonetary conditions.

PDAA normally weighs in on recommendations and proposals as expansive and significant as these. If you have any questions or comments, please do not hesitate to reach out. Again, we have begun our review process, but any perspective or comments you have would certainly be helpful.

Because we must submit formal comments to the Committee by March 8, please send anything to us that may be useful by emailing Maureen Flannery Spang at mspang@pdaa.org by Friday, February 18, 2022

You can find the proposed rule changes here.

Thank you in advance for your time and input on this important matter.

Greg Rowe, Esq.
 Executive Director

New Questions Expert: Geographic Information Systems

We have a death penalty case from 1994 where the 3rd Circuit Court of Appeals overturned the death sentence, and we are proceeding forward with a new penalty phase. The defendant committed a violent armed robbery of a local coin shop and then murdered a police officer. The defense team just sent us an expert report and CV. This report is from a purported expert in the field of Geographic Information Systems and appears to use a statistical analysis of the defendant's childhood address. I do not believe this expert has ever interviewed our defendant nor anyone from his childhood. Her name is Amy Brown Nguyen and she is based in Texas.

Has anyone seen this type of report before? If yes, what did you use to combat it or prevent its admission? I don't believe it would be admissible under the Frye standard but am looking for guidance and we do not have the best forum with our assigned judge.

Thanks!

Courtney E. Hair LaRue
 First Assistant District Attorney
 Cumberland County

<<https://twitter.com/PennsylvaniaDAs>>

The PDAA provides GREAT social content in your feeds! We need your support and your 'like': please like or follow the PDAA on Instagram, Facebook and Twitter! Information of Interest Rule Proposal - Bail, Probation and Parole Violations, Appointment of Counsel and Municipal Court Cases
The Criminal Procedural Rules Committee is proposing extensive amendments to the rules governing Bail in addition to amendments to Rule 708 governing Probation and Parole Violations, Rule 122 governing the Appointment of Counsel and Rule 1003 which governs Procedure in Non-Summary Municipal Court Cases. Please take the time to review the proposed amendments, particularly those governing Bail. We have begun a review of the proposed amendments and it is clear that the amendments will have a significant effect on the existing bail system. By way of example, it would likely significantly reduce cash bail and would encourage the release of defendants with minimal nonmonetary conditions.

PDAA normally weighs in on recommendations and proposals as expansive and significant as these. If you have any questions or comments, please do not hesitate to reach out. Again, we have begun our review process, but any perspective or comments you have would certainly be helpful.

Because we must submit formal comments to the Committee by March 8, please send anything to us that may be useful by emailing Maureen Flannery Spang at mspang@pdaa.org by Friday, February 18, 2022

You can find the proposed rule changes here.

Thank you in advance for your time and input on this important matter.

Greg Rowe, Esq.
Executive Director

New Questions Expert: Geographic Information Systems

We have a death penalty case from 1994 where the 3rd Circuit Court of Appeals overturned the death sentence, and we are proceeding forward with a new penalty phase. The defendant committed a violent armed robbery of a local coin shop and then murdered a police officer. The defense team just sent us an expert report and CV. This report is from a purported expert in the field of Geographic Information Systems and appears to use a statistical analysis of the defendant's childhood address. I do not believe this expert has ever interviewed our defendant nor anyone from his childhood. Her name is Amy Brown Nguyen and she is based in Texas.

Has anyone seen this type of report before? If yes, what did you use to combat it or prevent its admission? I don't believe it would be admissible under the Frye standard but am looking for guidance and we do not have the best forum with our assigned judge.

Thanks!

Courtney E. Hair LaRue
First Assistant District Attorney
Cumberland County

Please respond directly to First Assistant Hair LaRue at chair@ccpa.net and please copy PDAA's Legal Resource Prosecutor at mspan@pdaa.org.

Emily
Please add the following comments
History as related to Dr Gerson
Family member heard defendant beat the dog that was found dead

Radiographs are at Humane Animal Rescue Pittsburgh

Cause of death
This dog was beaten so severely that both the hip and shoulder were dislocated.

Cause of death was chest compression and trauma most likely by being kicked or crushed by a foot

Hey Emily!

I just wanted to email you and let you know I hate snow.

I also wanted to give you a heads up on the Kasprzyk case that you have with Randy and I. We received the Necropsy report, and I am sorry to say we have some problems with it. There just isn't enough information or detail in it for us to take to our own expert for a second opinion. The body is not preserved, and I don't know how we are going to be able to effectively retain a defense expert's opinion on such a bare bones medical record. There's no conclusion or cause of death or opinion. The report references photos and radiographs. Can we have those? There is also a reference to a "correlation with the history". Can we know what that history is?

In light of the fact that we have Judge Mariani, I'm probably going to file some sort of motion to compel and another motion to extend time for pretrial motions.

Don't hate the messenger! We gotta do what we gotta do.

Brent

Hi Dr. Gerson,

I received this from the defense and was hoping I could get additional information:

"The body is not preserved, and I don't know how we are going to be able to effectively retain a defense expert's opinion on such a bare bones medical record. There's no conclusion or cause of death or opinion. The report references photos and radiographs. Can we have those? There is also a reference to a "correlation with the history". Can we know what that history is?"

Can you provide any of this additional information?

Thank you,
Emily

Here is the last one of the year!

We have counted a total DUS of 615 cases for 2021 in comparison to last year's count of 570.

Happy New Year and stay safe!

Thanks,
Lisa

Hi John,

Just touching base on the data I am sending you tomorrow. I plan to send you an excel spreadsheet with just the new data unless you tell me otherwise. Also, I plan to send it off before lunch unless you want it at another time of day.

Thanks,
Lisa

That is a good question. I do not know the answer. I think at this point charging decisions are still being made.

Avets should also send a report as well as their records.

Please add the results of the pathology reports to your report so that we can clearly establish starvation (or not, depending on the results).

You can send it to me. I will scan it and make sure everyone who needs it gets it.

I don't know about photos or bills, but they will need to be part of the file.

Thank you for all your work on this, especially when handicapped without a word processor.

Thanks

Will change that

Big question-

If the woman charged starved the puppy

WHY would she contact authorities?

I spent a half hour with the body and AVETS spent 4 days with a live dog. Will anyone from AVETS testify?

The \$4000 bill for care - was it paid ?

Who paid it?

AVETS took pictures / do you have photos?

I was going to add the pathology to my report. If the pathologist did not find any disease process and the bloodwork did not disclose organ failure, starvation is the most likely cause.

I will print a clean copy on the clinic letterhead. Who should I mail it to?

Larry

Respiratory Tract: pathology sample taken
Cardiovascular system: sent heart to pathology
Gastrointestinal Tract: solid stool in colon, very thin tissue, discolored tissue dark in color
Biliary Tract: sent pathology of liver
Pancreas: normal
Spleen: normal and sent for pathology
Adrenals: not observed
Urinary Tract: Kidney misshaped, sent for pathology
Reproductive system: not remarkable
Musculoskeletal System: poorly muscled, no fat

Summary of Findings: severe malnutrition to the point of abuse

Cause of injury: neglect due to proper feeding and care

Mechanism of Death / Cause: severe malnutrition

It would take weeks of a lack of food or a longer period of restricted calorie intake to have a dog go from a normal body condition score of 5 (normal) to get to a 1 on a body condition score

Starvation with resulting hunger and pain is animal abuse.

Contributing facts: The medical heroics at the Emergency / Specialty hospital (AVETS) could not stabilize the severe malnutrition and low blood sugar. Once a dog is severely malnourished a series of fatal events are often irreversible

Conclusions: Severe neglect by the caretaker of this puppy led to a series of irreversible events that contributed to a fatal outcome

Thanks

Will change that

Big question-

If the woman charged starved the puppy

WHY would she contact authorities?

I spent a half hour with the body and AVETS spent 4 days with a live dog. Will anyone from AVETS testify?

The \$4000 bill for care - was it paid ?

Who paid it?

AVETS took pictures / do you have photos?

I was going to add the pathology to my report. If the pathologist did not find any disease process and the bloodwork did not disclose organ failure, starvation is the most likely cause.

I will print a clean copy on the clinic letterhead. Who should I mail it to?

Larry

Necropsy Report

Agency: Humane Animal Rescue
Investigator: Angie Fry Humane Agent
Case: Tan Puppy
Examining Veterinarian: Lawrence Gerson VMD
Date of necropsy : July 26, 2021
Subject of exam: Tan Puppy 6 to 8 months of age
Reason for exam: suspected abuse
Method of arrival: refrigerated
Medical History: owner contacted authorities
Body Condition Score: 1 of 9 Emaciated

Examination Findings

External: Emaciated to the point that all bones are showing, no body fat, eyes sunken
Rigor: yes
Decomposition: no
Body Condition Score 1 of 9
Weight: 12 lb approx
Coat Condition: poor
Ectoparasites: not observed
Head: Eyes sunken, retained deciduous tooth upper left carnasial tooth not fully erupted
Chest: ribs showing
Abdomen: thin
Perineum: normal
Legs: poorly muscled
Feet: normal
Tail: normal

Evidence of Medical / surgical intervention: none
Radiographic interpretation: none

Internal Exam

Head: eyes sunken, retained carnasial tooth left
Adult tooth not fully erupted
Chest: 60 cc fluid (bloody) in chest cavity
Abdomen: solid stool in colon, discolored intestines (dark in color),
Abdominal Cavity: see below
Neck: normal
Respiratory Tract: pathology sample taken
Cardiovascular system: sent heart to pathology
Gastrointestinal Tract: solid stool in colon, very thin tissue, discolored tissue dark in color
Biliary Tract: sent pathology of liver
Pancreas: normal
Spleen: normal and sent for pathology
Adrenals: not observed
Urinary Tract: Kidney misshaped, sent for pathology
Reproductive system: not remarkable
Musculoskeletal System: poorly muscled, no fat

 Subject: Re: Final tan

This looks good but I think you need to add the following to make it an expert necropsy report.

SUMMARY OF FINDINGS:

CAUSE OF INJURY:

MECHANISM OF DEATH/CAUSE OF DEATH:

CONTRIBUTORY CAUSE:

CONCLUSIONS:

Also, Dave said you need to talk about how starvation is painful. (We need that to help meet the statute.) Also if you can, talk about how long it takes to get to a 1 of 9 and what happens to the body when the animal is starved for that

long (body consumes all the fat, then all the muscle, then starts breaking down the organs, etc...) And give your opinion that the lack of food/sustenance caused the dog's death.

My goal here is to get a report so good that defense just waives the prelim or at the trial level negotiates for a plea.

I will be happy to type up anything you can't do.

Then keep the report if you can save it so you can use it again if needed.

Thank you for all your help. I very much appreciate it.

If the puppy had a medical condition like parvo virus or malabsorption the stool would be runny.

Is it possible that she found the puppy and tried to feed it ? Yes that is possible.

I still question if it was abused or starved by her - why she would call the police?

May 24, 2021

Necropsy of Tan Puppy

External Exam Body Condition Score 1 of 9 (severe emaciation)
Retained deciduous carnassial tooth tooth left and tooth not fully erupted
estimate of 6 months to 8 months of age
Eyes severely sunken indicating no fat in body

Abdomen
Solid stool in colon
discolored colon (dark brown color)
small intestine is normal color but tissues are very thin
Uterus was barely recognized and about one millimeter in diameter
I had to find the ovary and trace back to find the abnormal uterus
Samples of liver, spleen, and kidney were taken for histopathology
Kidney was misshapen and other organs were normal in appearance

Chest cavity had approximately 60 cc of bloody fluid
samples of heart and lung taken for histopathology

This is a case of extreme malnutrition

It is possible that this puppy had a medical condition or was starved

Even if this was a medical condition, lack of care would also indicate animal cruelty

Emily

I have been in court twice recently

Once for ADA Lisa Borrelli and just last month for Sargent Luffey

While on the State Board of Veterinary Medicine I heard dozens of cases that came before us.

I am no longer the owner of the Point Breeze Veterinary Clinic as that has been transitioned to my daughter.

An addition to the CV can include

A co Vice President of the Friends of Mellon Park

My computer software needs to be updated and I will send hard copy of the corrected CV and necropsy by mail soon.

What's up Em!!!

Attorney Brent McCune and I represent the above named defendant. You are assigned to his case. It is scheduled on April 28, 2021. He is charged with animal cruelty.

We received the discovery on December 14, 2021. However missing from the discovery is the full necropsy report on the animal. We plan on consulting with a vet expert and the expert will need the full necropsy report. Also, the photos we received in discovery are in black and white and you can't make out what is in the photos. Could you please email the color photos to us, so we can get them printed out in color for our expert.

We just want to be prepared in Mariani's courtroom, because you know how he can be about postponement requests.

I can be reached at 412-999-6637 by cell. And Brent McCune can be reached at 412-400-8001.

Thanks Em!

Sincerely,
 Randall T. Ricciuti, Esq.

March 3, 2022 works for me. What was the reason for the postponement? I am also filing cost of care on this rabbit as this case is getting drawn out and the rabbit really needs neutered.

Thanks
Angie

Hi,

I hope you had a wonderful Christmas. I was wondering if you could give me David's email address so that I can remind him of the preliminary hearing on 01/06/22 at 1000 hours in Bellevue for the rabbit that was emaciated with maggots in his wounds. I will need him to be present and testify at preliminary.

Thanks;
Angie

Hi John,

Just touching base on the data I am sending you tomorrow. I plan to send you an excel spreadsheet with just the new data unless you tell me otherwise. Also, I plan to send it off before lunch unless you want it at another time of day.

Thanks,

Lisa

Hi,

I hope you had a wonderful Christmas. I was wondering if you could give me David's email address so that I can remind him of the preliminary hearing on 01/06/22 at 1000 hours in Bellevue for the rabbit that was emaciated with maggots in his wounds. I will need him to be present and testify at preliminary.

Thanks
Angie

Emily
I have been in court twice recently
Once for ADA Lisa Borrelli and just last month for Sargent Luffey
While on the State Board of Veterinary Medicine I heard dozens of cases that came before us.
I am no longer the owner of the Point Breeze Veterinary Clinic as that has been transitioned to my daughter.
An addition to the CV can include
A co Vice President of the Friends of Mellon Park
My computer software needs to be updated and I will send hard copy of the corrected CV and necropsy by mail soon.

Dr. Gerson,

I need to submit a formal report to the defense. Could you please put this on letterhead and send to me? Additionally, could you send a copy of your CV?

Have you ever been qualified as an expert to testify in Court before?

Thanks,
 Emily

Necropsy Report
 Tuesday April 27, 2021
 For Angie Fry
 Humane Agent
 3.54 Kg. brachycephalic Lhasa Apso type dog

On external exam the dog was overdue for grooming.
 The right eye had severe sclera hemorrhage indicating trauma.
 Photo will document this finding
 The right shoulder was dislocated.

(bleeding into the white of the eye)

(Shoulder dislocation is not common and would require extreme force to tear those tissues)
The right hip was also dislocated.
(This is a common injury seen after severe trauma for example after being hit by a car)

On internal exam the abdomen was intact. No abnormalities were seen in the liver, kidneys, spleen and intestines.
The chest cavity revealed pulmonary (lung) hemorrhage and contusion.
Photo will document this finding.
This finding would again be indicative of severe trauma.

Radiographs did not reveal previous trauma. No healed fractures were evident.
A micro chip was present.
There was suggestion of the shoulder dislocation noted on physical palpation of the joints.

Lung hemorrhage may have been a result of chest compression. It was clear that this dog had severe trauma to cause the eye, lung, hip and shoulder injuries. Correlation with the history would suggest abuse of this dog.

Emily
The post-mortem note I have are usually not listed by name of the accused.
Is this the little dog where the step father abused the pet?
I will send that report to you.
I also have an entire set of graphic photos that I can send you.
The shelter should have a set of radiographs.

What's up Em!!!

Attorney Brent McCune and I represent the above named defendant. You are assigned to his case. It is scheduled on April 28, 2021. He is charged with animal cruelty.

We received the discovery on December 14, 2021. However missing from the discovery is the full necropsy report on the animal. We plan on consulting with a vet expert and the expert will need the full necropsy report. Also, the photos we received in discovery are in black and white and you can't make out what is in the photos. Could you please email the color photos to us, so we can get them printed out in color for our expert.

We just want to be prepared in Mariani's courtroom, because you know how he can be about postponement requests.

I can be reached at 412-999-6637 by cell. And Brent McCune can be reached at 412-400-8001.

Thanks Em!

Sincerely,

Randall T. Ricciuti, Esq.

Partners in Investigating Animal Crimes

<https://www.justiceclearinghouse.com/webinar/partners-in-investigating-animal-crimes/>

Hi Lisa

I thought you might be interested in this webinar on Thu Jan 20, 2022 at 3:00 PM EST.

Animal cruelty investigations benefit from the participation of a veterinarian trained to forensically evaluate the animal, the environment, and the facts of the case. This presentation will introduce the Animal Legal Defense Fund's new program designed to match enforcement agencies with a community veterinarian, provide training and support to both

parties, and address veterinary forensic deficits so frequently encountered when investigating and prosecuting animal cruelty cases.

Take care,

Aaron

Subject: National Animal Conference Agenda and Registration Confirmation

On behalf of the Association of Prosecuting Attorneys, in partnership with the Animal Legal Defense Fund, thank you for registering for the 10th National Animal Cruelty Prosecution Conference. The Conference will be presented in-person on December 1-3, 2021 in Baton Rouge, LA.

Attached you will find the conference agenda and a confirmation memo with conference and venue information.

For those of you driving to the LSU School of Veterinary Medicine, please park in the lot across from the vet school (Zone X). We will have parking permits for you at the APA registration table on Wednesday morning. Place the permit on your vehicle dashboard for Dec 1-3.

For those of you in need of complimentary shuttle service from the hotels to the vet school, the Reliant On Call Shuttle will pick-up from The Cook Hotel at 8:00 am and from the Sonesta Suites at 8:20 am.

As a reminder, below is a link to the conference resource page containing logistical information and an advance look at presentations and materials for any who would like to download them to a tablet or laptop prior to the Conference. Hard copies will not be available onsite.

This resource page is password protected.

You can directly access the resources webpage here or via the APA Events page here.

The password to access is 10APAAanimal

Please let me know if you have any questions.

Safe travels, and we look forward to your participation in Baton Rouge!

Kindest regards, Ursula

This will be an incoming cruelty case out of Zone 5. Ryan Dunne will eventually be the Affiant. Dog was taken to AVETS Monroeville then to Angie Fry who will be getting the pup a necropsy. Likely cause starvation. This is not the defendant's first case. He did the same thing in 2016 and Christine Luffey filed the charges. Good 404B possibly. He's also on probation with none other than the Honorable Mariani. I'll work with Dunne to get it filed and update you all when I approve.

Emily,

I heard you have this case. Thought you might want to have this information. I did not see a lack of "mens rea" so we had a hearing and the charges were held. Defense may have recorded the proceeding (I can't remember) so you may want to ask them about it and request a copy of the recording if it exists.

Thank you,

Lisa

Hi Lisa.

We have the above named defendant's preliminary hearing next Wednesday at 2:30pm at Swan's.

Mr. Kasprzyk has a clean record. However he suffers from serious health and mental health issues.

Prior to the last scheduled court hearing I had talked to you about wanting to have him get a mental health evaluation because I was worried he was suicidal and incompetent. And basically also to cover my ass if anything were to happen to him.

I also wanted to see if we could get the felony withdrawn next week and we would waive the preliminary hearing. You had mentioned that it would be possible with a mental health evaluation that would help to establish the lack of "mens rea" as to the felony charge.

Well I have attached his psych evaluation that he had done on August 17. Mr. Kasprzyk is a train wreck as you will see. But he's never been in trouble with the law before. Please let me know if you need anything else.

My cellphone number is 412-999-6637.

Sincerely,

Your Italian Brother!

 Subject: National Animal Conference Draft Agenda and Registration Confirmation

On behalf of the Association of Prosecuting Attorneys, in partnership with the Animal Legal Defense Fund, thank you for registering for the 10th National Animal Cruelty Prosecution Conference. The Conference will be presented in-person on December 1-3, 2021 in Baton Rouge, LA.

Attached you will find the conference agenda and a confirmation memo with conference and venue information. Please let me know if you have any questions.

We look forward to your participation in Baton Rouge!

Kindest regards, Ursula

 Subject: Re: Register Today! 10th National Animal Cruelty Prosecution Conference

do you want to do this with me
 there are scholarships available at least for me....
 Scholarship Request Form

Scholarships will be awarded to qualifying prosecutors and investigators to attend the 2021 National Animal Cruelty Prosecution Conference. The award limits are \$500 for recipients who fly and \$300 for recipients who drive, reimbursed after the conference. All applications are due by November 5, 2021.

~~~~~

The Association of Prosecuting Attorneys, in partnership with the Animal Legal Defense Fund, will host the 10th National Animal Cruelty Prosecution Conference on December 1-3, 2021 in Baton Rouge, Louisiana. This event is co-sponsored by LSU's School of Veterinary Medicine, and the Louisiana District Attorneys Association.

The goal of this training is to provide prosecutors, law enforcement, and allied professionals with the requisite skills to strengthen links between the criminal justice system and the community by protecting our most vulnerable victims and to enhance prosecutors' ability to successfully identify and prosecute animal cruelty and animal fighting cases.

This conference is intended for prosecutors, law enforcement and animal control officers, veterinarians and related disciplines involved in the prosecution of animal cruelty crimes. Due to space restrictions, those not meeting this criteria will be contacted by APA and a full refund will be issued.

Date: December 1-3, 2021

Location: LSU School of Veterinary Medicine  
Skip Bertman Drive, Baton Rouge, LA 70803  
Lodging: Cook Hotel at LSU

3848 West Lakeshore Drive, Baton Rouge, LA

To secure your reservation at the discounted group rate of \$119 (deluxe king room), call the Cook Hotel at LSU at 225-383-2665 and request the APA Animal Conference rate or code (APA).

Limited scholarships available! Apply today!

#### 10th NATIONAL ANIMAL CRUELTY PROSECUTION CONFERENCE

The Association of Prosecuting Attorneys (APA), in partnership with the Animal Legal Defense Fund (ALDF), invites you to register for the 10th National Animal Cruelty Prosecution Conference in Baton Rouge, Louisiana on December 1-3, 2021. This event is co-sponsored by LSU's School of Veterinary Medicine and the Louisiana District Attorney Association. This conference offers a unique training opportunity to prosecutors, law enforcement and animal control officers, and allied professionals involved in the investigation and prosecution of animal cruelty crimes. Through panel discussions and small group sessions, experts from around the country will provide training on such topics as animal neglect, direct and cross examination for expert witnesses, and the psychology of the animal cruelty offender.

Hello Lisa,  
I will be retiring September 11th. Detective Kevin Logue will be in my position from that date on. I have cc'd him on this email so would you please send him further sheet listings?  
Thank you and very nice to have worked with you.  
Stay safe,  
Harold

Hello,

I understand that John is off this distribution list but I was told to send this now to just you two. So here is the latest edition.

Happy weekend and Father's Day if appropriate.

Thanks,  
Lisa

Hello Lisa:

We (PCS) have discontinued with the DUS hot list integration. I'll let you know if this changes in the future.

Many Thanks, John

We have been doing this for a long time.....sometimes I wonder if there are any non-suspended drivers out there and then I remember there's me and most of the people I know.....or when we don't have a lot, I think maybe we found them all, but, no, there always seems to be more.

Have a good weekend!

 Subject: PRELIMINARY HEARING - JAMES GENCO - TUESDAY, 9-21-2021

Reminder:

The preliminary hearing involving James Genco is scheduled at the Municipal Courts Building - 660 First Avenue - on Tuesday, September 21, 2021, at 1:45 pm.

I will offer the injured dog's owner (Matthew Erzen) a ride to court. The last time, he met me at Zone 3 and we rode to court together.

Please let me know if I am needed to do anything prior to this hearing.

Also, I am scheduled to be off on vacation next week. I am not going to take the entire week off. I will be working on Tuesday, Sept. 21 and Thursday, Sept. 23 next week.

Carol

I have always tried to promote a good relationship between shelters and the veterinary profession. Imagine my confusion when I learned that you are introducing a regulation of veterinary procedures without consultation of Pittsburgh veterinary practices, the local veterinary association or the Pennsylvania Veterinary Medical Association.

To be clear, many offices no longer do the procedure. Declaw bans regulate the profession and that is the responsibility of the State Board of Veterinary Medicine.

I served on that board as vice chair for 8 years.

The information you provided in the preamble has questionable "facts".

For years I have tried to get the city to have an animal care advisory committee to "vet" legislation before it is introduced. The city fails miserably in even basic animal control responsibility like licensing dogs. Although declawing is rarely done, mandating a ban is poorly advised as many veterinarians might ask what is next. A ban puts us in a terrible light as declawing had been done successfully with few complications by many practices for decades. I will grant you that some veterinarians did the procedure better than others with good pain control, strict infection control and very rare behavior problems.

I find it hard to believe that no one brought the legislation to the veterinary profession for our opinion prior to introducing it to council. The ban, even to veterinarians who support not declawing cats will be upset with a legislation initiative without any input.

Carol

I have always tried to promote a good relationship between shelters and the veterinary profession.

Imagine my confusion when I learned that you are introducing a regulation of veterinary procedures without consultation of Pittsburgh veterinary practices, the local veterinary association or the Pennsylvania Veterinary Medical Association.

To be clear, many offices no longer do the procedure. Declaw bans regulate the profession and that is the responsibility of the State Board of Veterinary Medicine.

I served on that board as vice chair for 8 years.

The information you provided in the preamble has questionable "facts".

For years I have tried to get the city to have an animal care advisory committee to "vet"

legislation before it is introduced. The city fails miserably in even basic animal control responsibility like licensing dogs.

Although declawing is rarely done, mandating a ban is poorly advised as many veterinarians might ask what is next. A ban puts us in a terrible light as declawing had been done successfully with few complications by many practices for decades. I will grant you that some veterinarians did the procedure better than others with good pain control, strict infection control and very rare behavior problems.

I find it hard to believe that no one brought the legislation to the veterinary profession for our opinion prior to introducing it to council. The ban, even to veterinarians who support not declawing cats will be upset with a legislation initiative without any input.

Hello,

I am reaching out to you about the conditions you observed at 4010 Foster Street. Officer Fry from Humane Animal Rescue and I are investigating. Can you please let us know about how many cats/kittens you saw inside of this residence?

Your help is appreciated.

Thank you!

Hi Donna,

Can you please reissue subpoenas for this case. I have attached the request form to this email. There is one change: I do not need Krista to attend. Just in case you need this information: Dr. Swanson, Dr Nakovich are at Animal Friends and Angie Fry is at Humane Animal Rescue Pittsburgh.

Thank you,  
Lisa

Christine

Unfortunately, our Advise reporting system is still down

We have been to 4010 Foster St 2 times:

1. 7/29/2021: Count cats
  2. 2/20/2020: Count cats & wellness
- Sorry, but we can't access what the reports says for these 2 incidents

Dave

Good morning,

Officer Angie Fry and I visited 4010 Foster Street on Friday, September 3, 2021, at 12:30 pm.

We knocked loudly on the front door, rear door, and windows. When I opened the door to knock on the rear door, a strong odor of ammonia was detected. We looked in the kitchen window and viewed 7 cats (6 black in color, 1 gray in color). The curtains and valance were filthy. We viewed a blue car in the parking space on the property. I left a notice on both doors asking the residents to call me.

As of now, Monday, September 6, 2021, I have not received a response.

Dave/Coralie, would you please e-mail us everything in your records about 4010 Foster Street and its occupants? Do you know about how many cats are believed to be inside of 4010 Foster Street?

Your help is appreciated.

Thank you!

Hi Coralie,

Per our conversation, we responded to 4010 foster street last night for a reported structure fire. There was no fire.

The conditions at the house are unacceptable. You can smell the cat urine from outside on the sidewalk. There were lots of cats and kittens at the house.

In the living room there is an area of about 8 feet by 8 feet of cat poop. The fecal matter looked like it was almost a foot high in some areas. I have never seen anything like this before.

These are horrible conditions for mr boyles and the cats. I notified fire dispatch last night that I wanted the health department to go there and gave my personal cell number (412)-480-9815.

It was so filthy in the house, we had to decontaminate our gear out in the street, before getting back on the fire truck.

Respectfully,

David Hamburger

Hi,

Would you mind reviewing these documents and give me your thoughts? I have been reviewing them over and over and to be honest I do not see a criminal case here. There is no definitive evidence that the boarding facility caused the death of the dog.

No necropsy can be performed because the body was cremated after it was frozen so tissue samples would've been destroyed. If I am reading the medical reports correctly it appears as though the vets feel that the dog had chronic undiagnosed pancreatitis.

There is no camera footage for the boarding place to show that the dog had been outside for a prolonged period of time. There is shade and shelter in the play yards as well as water spots (i.e. splash pad for large dogs / kiddie pool for smaller dogs).

I just don't see a criminal case here. Maybe a civil one...but that may even be a stretch.

Hi,

If you haven't already, you may want to subpoena Lauren Leffakis from Animal Friends in the Rampolla trial set for 09/29/21 at 0830. She was there the night that Rampolla came to the shelter yelling and screaming. She also spoke to him on the phone when he realized that his dog was not in the yard. She did write me a statement, which should be in your file.

Also, we have a schedule conflict on November 8, 2021. Michael Moll has a non-jury trial at 0900 in Beemer's court room and we also have the Bradley preliminary in Penn Hills at 1200 hrs (noon).

The case was postponed for November 8. I am working on getting the photos for the file. Can you please do a witness sheet when you have time? Also, can you print a rap sheet for the Defendant? He is apparently a convicted murderer from Washington County (??) who was on parole at the time of this arrest and is in jail on this case as a parole violation.

Thank you,  
Lisa

Hi,

Here is the criminal complaint that I was telling you about this morning with PA State Parole. Let me know if corrections need made.

Thanks  
Angie

Subject: David Kasprzyk @ OTN: G887296-4  
Attachments: Kasprzyk - Psych Evaluation.pdf

Hi Lisa.

We have the above named defendant's preliminary hearing next Wednesday at 2:30pm at Swan's.

Mr. Kasprzyk has a clean record. However he suffers from serious health and mental health issues.

Prior to the last scheduled court hearing I had talked to you about wanting to have him get a mental health evaluation because I was worried he was suicidal and incompetent. And basically also to cover my ass if anything were to happen to him.

I also wanted to see if we could get the felony withdrawn next week and we would waive the preliminary hearing. You had mentioned that it would be possible with a mental health evaluation that would help to establish the lack of "mens rea" as to the felony charge.

Well I have attached his psych evaluation that he had done on August 17. Mr. Kasprzyk is a train wreck as you will see. But he's never been in trouble with the law before. Please let me know if you need anything else.

My cellphone number is 412-999-6637.

Sincerely,

Your Italian Brother!

Randall t. Ricciuti

Hi,

I have attached my criminal complaint and affidavit of probable cause for your review and approval. This was the husky that was abandoned after the owner was formally evicted and refused to come retrieve the dog. The dog was a BCS of 1/9 with a UTI. I asked for a warrant because she is currently in the ACJ on a no bond because she is a flight risk.

Thanks  
Angie

Cc: Krista Koontz &lt;kkoontz@thinkingoutsidethecage.org&gt;  
Subject: Cremation of Dogs

Hello Lisa,

I was hoping you could provide me some guidance on a matter.  
In March of 2020, Angie served a search warrant in McKeesport where she exhumed and seized three deceased dogs.  
The adult female dog was killed by an arrow. Unfortunately charges weren't filed as we were unable to gain cooperation from Angie and Dr. Fellenstein.

We continue to hold the three dogs in our freezer, but we must find a final resting spot for them. What are the steps we need to take to be able to cremate the dogs?

Thanks,

Carol Whaley

Good morning ladies,

I have attached the necropsy report as well as prior vet visits provided to me by the owner of the dog showing that the dog was healthy, the report from Duquesne Police (they received the call first then referred it to me) and my criminal complaint for the Rose case. There are a ton of photos so I will have to put those on a thumb drive and get them to ADA Borrelli.

 Subject: Re: QUESTION - EVIDENCE - MICHAEL ANDREWS - CAT SHOT WITH PELLET GUN

Good morning,

An update to share.

I called the Allegheny County Crime Lab this morning (412-350-4800). I was transferred to Ray Everett from the Firearms Unit. I explained the case involving Michael Andrews to Mr. Everett and I asked him if the pellet gun and pellet

can be tested. He told me no. Mr. Everett said, "there is no chance of getting any markings from the pellet";

I will write a supplemental report about this. Although, this is disappointing, I believe that we have a very strong case.

Have a good day!

Subject: Re: DOG REMOVED FROM A HOT VEHICLE BY OFFICIALS

Wow!! Summary at best for water, shelter and ill treats. She can order him to take the dog to the vet now but it's at least two days later, the medical findings would have no bearing on any charges stemming from the 21st. That's even if the owner could get the dog into the vet by tomorrow, that would be day three.

Subject: DOG REMOVED FROM A HOT VEHICLE BY OFFICIALS

Good morning,

Please see the e-mail below that I received from Officer Novak.

This is the narrative from Officer Novak's report.

I believe that Officer Novak should charge Eric Wenzel with a summary offense of cruelty to animals. Mr. Wenzel left me a voice mail this morning. I would like to ask him to take his dog for a wellness check at a veterinarian. Please share your thoughts. Thank you!

---

On August 21, 2021 at 1753 hrs. while on patrol in the South Side neighborhood I was flagged down on S. 26th St at Jane St for a dog locked in a vehicle.

The male who flagged me down stated there was a dog in the rear of a KIA van (KY Reg. ACS020) laying there, appearing to be lethargic, panting heavily and not very responsive.

As I looked into the rear of the van, I witnessed a med. size black dog (Dandy) laying in a dog bed on a pee pad. Dandy did not appear to have a dog dish / bowl at this time that would have provide him with food / water.

As I called this out over the radio, Medic 12 responded almost instantly as they were just turning on to S. 26th St. This Medic unit was able to unlock the van and get to Dandy. They stated as they were in the vehicle, it appeared to be very hot. Unknown the actual temperature inside the vehicle, it was 85-degrees outside. Medics collected Dandy in a blanket and passed him to me outside the driver side door.

Medics and the homeowner at 100 S. 26th St attempted to provide Dandy with water, however Dandy would not drink.

While outside the vehicle Dandy was able to prop his body up with his two front leg, but there was little to no movement from the rear.

Medic retrieved a blanket from the medic wagon, requested it to be dampened by the homeowner at 100 S. 26th, then wrapped Dandy in the blanket to cool him down.

On Dandy's collar were several tags, Name, Address and Phone No., Town of Yorktown, NY ID tag and 2018 Rabies Vaccination tag. I attempted to make contact with each phone number located on the tags. Each tag provided negative results on making contact with owner.

While outside of the vehicle waiting on Animal Control to arrive, Dandy's owner, Eric Wenzel arrived on scene. Wenzel stated that he was only gone for 20 mins and didn't appear to be concern. We informed Wenzel we have been on the call for well longer than 20 mins and advised him the appearance of the dog, temp of the vehicle and the fact the dog did not have food or water. Wenzel responded that Dandy is 17 year old and has a hard time using his rear legs.

Note: Wenzel and his family returned to the vehicle, two members appeared to have to-go containers from what appeared to come from a sit-down restaurant on E. Carson St.

At this time Dandy was released to Wenzel.

I have reached out to Officer C. Luffey to discuss pressing charges on Wenzel.

Charges pending further investigation by myself.

Hey Christine,

I wanted to get your advice on a call I had since you are our resident animal expert.

Could you look at my report 21-152194 and possible advise me the route I should take. I originally provided the owner of Dandy your name as he wanted to expedite this, however I feel after further thinking I would like to take this on since it was my call.

If you could read the report and give me a call that would be great.

Copy. I added those details in the narrative before the execution of the search warrant. I changed the wording around as such:

Tomlin spoke to Ofc. Fry on the sidewalk. Tomlin explained to her that he uses the "anaerobic compost" method which means that instead of removing the waste from the dog kennels, he just adds another layer of cedar chips. This creates bacteria from the composting, which is what the dogs were living in and confined to.

Humane Officer Fry and animal control officers obtained a temperature reading of the inside of the residence through a large hole in the back door with a thermal temperature gun. It was approximately 34 degrees inside of the residence with no utilities. This would prevent the dogs inside from maintaining their own body temperature.

Hi,

Looks good. The only thing I would add is when myself and animal control officers obtained a temperature reading of the inside of the residence through a large hole in the back door with a thermal temperature gun. I believe it was approximately 34 degrees inside of the residence with no utilities. This would prevent the dogs inside from maintaining their own body temperature.

I would also add that when Tomlin spoke to me on the sidewalk, that he explained to me that he uses the "anaerobic compost" method which means that instead of removing the waste from the dog kennels, he just adds another layer of cedar chips. This creates bacteria from the composting, which is what the dogs were living in and confined to.

Hello,

I finally had time to sit down and draft a complaint for the case, Attached is a copy of the complaint. If either of you have any recommended changes let me know. I will be working until 3pm today and can get the warrant signed today. If not today I will be back in Saturday and can fix any changes and get it signed then.

I did add a new charge, Title 75 1543A driving while suspended. Barr drove to 1323 Grotto in black Ford truck and was seen driving by Ofc. Kovach. Barr's license comes back suspended for unspecified reasons through PENNDOT records.

Thanks,

Subject: RE: Vet report for Grotto dogs

Good morning,

Grotto 3 is a misdemeanor and summary (stacked) for 5532 a(3) because the dog was babesia positive which if the dog is symptomatic (which in this case the dog was because it was anemic) and the babesia is not treated and monitored, the dog is at imminent risk of SBI because there is high risk of anemia with babesia also the dog had bodily injury (puncture wounds) that required treatment with pain medication (Carprofen) and antibiotics (Clindamycin).

Grotto 6 is a misdemeanor and summary (stacked) for 5532 a(3) because the dog had pressure sores which are painful and were treated with pain medication (Carprofen) and the dog also had an ear infection which was treated with Clindamycin.

Grotto 7 is a misdemeanor and summary (stacked) for 5532 a(3) because the dog was babesia positive and had an ear infection both of which required treatment with pain medication and antibiotics.

If you don't already, I would suggest using the wording from the "summary of findings and conclusions" from the vet report in your criminal complaint as it helps to justify the level that was charged.

Good morning everyone,

At the request of ADA Borrelli, I looked over my initial charging recommendations with the veterinary report and listed below is what I believe should be charged. I spoke with Dr. Ledesma who stated that the ear infections were very minor

and therefore he cannot substantiate pain associated with these so we don't have the misdemeanor (which is defined as substantial pain).

Grotto 1:

5532 a(1) – S  
5532 a(2) – S  
5532 a(3) – S

Grotto 2:

5532 a(1) – S  
5532 a(2) – S (dog had mild interdigital dermatitis most likely from living conditions)  
5532 a (3) – S (mild interdigital dermatitis)

Grotto 3:

5532 a(1) – S  
5532 a(2) – S  
5532 a(3) – M/S (babesia +)

Grotto 4:

5532 a(1) – S  
5532 a(2) – S  
5532 a(3) – S

Grotto 5:

5534 a(1) – F (dog was BCS 2/9 on intake; has gained 14 lbs since)  
5532 a(1) – M/S (stacked with 5534)  
5532 a(2) – S  
5532 a(3) – S (puncture wound on ear)

Grotto 6:

5532 a(1) – S  
5532 a(2) – S  
5532 a(3) – M/S (pressure sores / ear infection)

Grotto 7:

5532 a(1) – S  
5532 a(2) – S  
5532 a(3) – M/S (babesia+ / ear infection)

Copy. I added those details in the narrative before the execution of the search warrant. I changed the wording around as such:

Tomlin spoke to Ofc. Fry on the sidewalk. Tomlin explained to her that he uses the “anaerobic compost” method which means that instead of removing the waste from the dog kennels, he just adds another layer of cedar chips. This creates bacteria from the composting, which is what the dogs were living in and confined to.

Humane Officer Fry and animal control officers obtained a temperature reading of the inside of the residence through a large hole in the back door with a thermal temperature gun. It was approximately 34 degrees inside of the residence with no utilities. This would prevent the dogs inside from maintaining their own body temperature.

Hi,

Looks good. The only thing I would add is when myself and animal control officers obtained a temperature reading of the inside of the residence through a large hole in the back door with a thermal temperature gun. I believe it was approximately 34 degrees inside of the residence with no utilities. This would prevent the dogs inside from maintaining their own body temperature.

I would also add that when Tomlin spoke to me on the sidewalk, that he explained to me that he uses the “anaerobic compost” method which means that instead of removing the waste from the dog kennels, he just adds another layer of cedar chips. This creates bacteria from the composting, which is what the dogs were living in and confined to.

Hello,

I finally had time to sit down and draft a complaint for the case, Attached is a copy of the complaint. If either of you have any recommended changes let me know. I will be working until 3pm today and can get the warrant signed today. If not today I will be back in Saturday and can fix any changes and get it signed then.

I did add a new charge, Title 75 1543A driving while suspended. Barr drove to 1323 Grotto in black Ford truck and was seen driving by Ofc. Kovach. Barr's license comes back suspended for unspecified reasons through PENNDOT records.

Thanks,

I will be on vacation on Friday until the 17th and will leave Thursday after work. I have a lot to do tomorrow so I thought I would edit it for you. If you find this acceptable, you may file it.

### 5533. Cruelty to animal

(a) Offense defined.--A person commits an offense if the person intentionally, knowingly or recklessly illtreats, overloads, beats, abandons or abuses an animal.

(b) Grading.--

(1) Except as set forth in paragraph (2), a violation of this section is a summary offense.

(2) If the violation causes bodily injury to the animal or places the animal at imminent risk of serious bodily injury, a violation of this section is a misdemeanor of the second degree.

Charges approved: M2 cruelty (reckless), S cruelty, local ordinance on the firearm.

This complaint is prepared by your affiant, Officer Christine Luffey. I have worked as a Pittsburgh Police Officer for the past twenty-eight years. I specialize in animal neglect and abuse cases.

On July 29, 2021, Nancy Bane called police to report that a friendly cat that she was caring for was found dead in the back yard at 330 Overbrook Boulevard. The cat appeared to be a victim of abuse.

A necropsy was performed on the cat. A pellet was removed from the cat's chest near the heart base. A large open wound of unknown origin was observed below the tail.

Michael Andrews resides at 2325 Spokane Avenue; his yard is directly behind the yard at 330 Overbrook Boulevard.

On July 7, 2021, I went to 2325 Spokane Avenue and spoke with Michael Andrews about a cat that was found dead in the back yard at 330 Overbrook Boulevard. When informed that the cat was killed by a pellet gun, Michael Andrews stated that he owns an air soft gun and uses it to shoot squirrels and other wildlife that come into his yard. Michael Andrews stated that multiple cats live behind his residence and relieve themselves in his yard. Michael Andrews handed me a long, rifle type gun, black in color, with a scope. The gun is a "Nitro Piston" model number CF47SXS .177 caliber. Michael Andrews gave me the gun as a measure of good faith.

Nancy Bane reported that during the evening of July 7, 2021, she received a telephone call from Michael Andrews and that he apologized and told her that he gave his gun to police to show he wouldn't do it again. Nancy Bane said that Michael Andrews told her, "you saw me shoot at it, not kill it." He also said, "The cat was in my yard. It was bothering my kids. I'm sorry. I'm sorry";

Michael Andrews voluntarily came to Zone 3 station to be interviewed on July 27, 2021, by Lt. Julie Stoops and me. Michael Andrews stated that the situation with cats coming on to his property escalated when his wife began growing vegetables and flowers in the back yard and that she was very upset. Michael Andrews admitted that he was on the rear deck when he saw a cat walking around in the flower bed and used his pellet gun to shoot in the vicinity of the cat.

Michael Andrews e-mailed me a statement. He wrote that, "I did not shoot directly at the cat but in the vicinity in hopes to scare it and get it out of the garden";

The cat was shot in the yard of 2325 Spokane Avenue but was found dead in the back yard at 330 Overbrook Boulevard.

This case was reviewed by Assistant District Attorney Lisa Borrelli and the above charges have been approved.

Ok. Let's try this again.

Please let me know if additional charges are necessary. I am doing my best. I appreciate your help.

Thanks!

---

This complaint is prepared by your affiant, Officer Christine Luffey. I have worked as a Pittsburgh Police Officer for the past twenty-eight years. I specialize in animal neglect and abuse cases.

On July 29, 2021, Nancy Bane called police to report that a friendly cat that she was caring for was found dead in the back yard at 330 Overbrook Boulevard. The cat appeared to be a victim of abuse.

Dr. Larry Gerson performed a necropsy on the cat. He removed a pellet from the cat's chest near the heart base. A large open wound of unknown origin was observed below the tail.

Nancy Bane believes that the cat was killed by Michael Andrews who resides at 2325 Spokane Avenue. His yard is directly behind the yard at 330 Overbrook Boulevard.

On July 7, 2021, I went to 2325 Spokane Avenue and spoke with Michael Andrews about a cat that was found dead in the back yard at 330 Overbrook Boulevard. Michael Andrews asked me how the cat was killed. I informed him that the cat was killed with a pellet. Thanks for sending this. It has the same problem we dealt with before. It's a greatly detailed police report that we can use later but it's not an affidavit of probable cause.

I didn't want to edit it for you but here's some pointers.

It only needs to put forth just those facts that prove the elements of the crimes we are charging. There's no reason to provide the defense with all this history and research at this point in time. Strategically it harms our case and deflects attention from the crimes committed.

Paring it down in the most oversimplified way: we need to show that the cat was killed, that it was killed by a pellet gun (I think it was an airsoft gun, not a bb gun. We need to be clear on that.) and that the defendant admitted to shooting at the cat in a reckless way with his gun...his statement can be quoted.

Ownership is not an issue here, nor is much of the history of the cat rescue.

You did some great police work on this and your investigation found that the defendant committed a crime. Can you edit this down to the elements of the crimes, please, and resend?

Thanks,  
Lisa

PROPOSED AFFADAVIT OF PROBABLE CAUSE - MICHAEL ANDREWS

This complaint is prepared by your affiant, Officer Christine Luffey. I have worked as a Pittsburgh Police officer for the past twenty-eight (28) years. I specialize in animal neglect and abuse cases.

On June 29, 2021, Officer Becky McKown was dispatched to 330 Overbrook Boulevard for a report of a cat that was found dead in the back yard. The cat appeared to be a victim of abuse.

Nancy Bane reported that she cares for a small colony of homeless cats on Overbrook Boulevard and Valera Avenue. She said that all the cats she cares for are vaccinated and spayed or neutered. Nancy Bane stated that she cares for some of the cats in the back yard at 330 Overbrook Boulevard. She said that when she went to the property on June 29, 2021, that she found a cat deceased in the back yard. Nancy Bane reported that the cat appeared to have a hole in a rear leg and blood was observed. She said that she believes the cat was killed by the resident at 2325 Spokane Avenue. Nancy Bane took photos of the dead cat. Animal Care and Control officers retrieved the dead cat.

Dr. Larry Gerson performed a necropsy on the cat. He removed a pellet from the cat's chest near the heart base. A large open wound of unknown origin was observed below the tail. Radiographs were taken of the cat and the pellet was preserved for evidence.

On July 7, 2021, I went to 2325 Spokane Avenue and spoke with Michael Andrews. Michael Andrews informed me that multiple cats live behind his residence and relieve themselves in his yard. I informed Michael Andrews that the purpose of my visit is to investigate a report of a cat that was found dead in the back yard at 330 Overbrook Boulevard that is directly behind his residence. Michael Andrews asked me how the cat was killed. I advised him that the cat has a bb in its chest. Michael Andrews told me that he has a bb gun that doesn't penetrate. He told me that it keeps them away and it doesn't harm them. Michael Andrews stated that he normally shoots at the squirrels because they come into his yard to eat from his bird feeder. Michael Andrews asked me if I want his gun. I asked him if he wants to give it to me. He told me that he will give me the gun as a measure of good faith. Michael Andrews was concerned that I may charge him with something and told me that he works at Shuman Detention Center. He handed me a long, rifle type gun, black in color with a scope. The gun is a "Nitro Piston", model number CF47SXS .177 caliber.

Katherine Owens is the tenant who resides at 330 Overbrook Boulevard. She said that she believes that the resident at 2325 Spokane Avenue killed the cat. Katherine Owens reported that she saw the adult male at 2325 Spokane Avenue throwing rocks into her yard in the past for reasons unknown to her.

Nancy Bane reported that she spoke with the former owner of 2325 Spokane Avenue and told him that a cat was killed and she believes that his former tenant, Michael Andrews. Nancy Bane stated that she received a telephone call from a (219) area code, and she answered the telephone. Nancy Bane reported that the caller identified himself as Mike Andrews and said, "you saw me shoot at it, not kill it". She stated that Michael Andrews apologized and gave his gun to police to show he wouldn't do it again.

Mary Norcott reported that she was with Nancy Bane when she received a telephone call from Michael Andrews. She stated that she heard the male Nancy Bane was speaking with say, "The cat was in my yard. It was bothering my kids. I'm sorry. I'm sorry".

Officer Angie Fry informed me that the deceased cat is microchipped. The owner of the cat is Lorissa Bensur.

Lorissa Bensur reported that she lives in Castle Shannon and that her 3-year-old cat "Rocky" accidentally got out of the house on March 17, 2021, and never returned home. She said that her children ages 7 and 10, are heartbroken over the loss of "Rocky". Lorissa Bensur reported that he searched for "Rocky" and posted about "Rocky" being lost on Facebook.

Michael Andrews voluntarily came to Zone 3 station to be interviewed. He told Lt. Stoops and I that he purchased a pellet gun at Walmart during the summer of 2020 to dispatch a mole that was damaging the garden. Michael Andrews stated that he also used the pellet gun to shoot at squirrels that were eating from the bird feeder on his property. He said that the issue with cats coming on to his property escalated after his wife began growing vegetables and flowers in the back yard and that she was very upset. Michael Andrews admitted that he was on the rear deck when he saw a cat walking around in the flower bed and used his pellet gun to shoot in the vicinity of the cat.

Subject: Re: MICHAEL ANDREWS - CCR# 21-115202

Thank God .....and Thank YOU!

I was afraid of what would happen if charges were not filed in this case. Ms. Bane (colony caretaker) and Ms. Bensusan (owner of the cat that was killed) made it clear that they will not stop until they receive justice for Rocky.

Dr. Gerson e-mailed me his findings. In the file that I delivered is a copy of the e-mail I received from him. I will forward the e-mail to you momentarily.

Thank you for reviewing the case. Please let me know when I have the green light to file the M2 and summary charges. I believe that Mr. Andrews grew tired of hearing his wife complain about squirrels, moles, and cats coming on to the property and took matters into his own hands. I believe that Mr. Andrews intentionally killed Rocky and another cat that went missing. For him to be so lucky with the shot to Rocky's chest from a distance without using a scope is hard to believe. I am grateful that criminal charges will be filed.

Have a good day.

Thank you for the report. I appreciate all the work you did on this investigation. I believe that we can substantiate charges.

Do you have a vet report for the findings that you refer to? Can you please send it to me?

Based on the statement from Andrews, I do not think we will have intentional or knowing so probably no felony.

Based on the vet findings and Andrews' statement, I think we can do the M2 cruelty, as we have reckless, and of course the S cruelty. And certainly the local ordinance on the firearm.

Thanks,  
Lisa

Hello,

I will drop off a case file involving a family's cat that was killed on Overbrook Boulevard to West Liberty Animal Hospital today for your review.

The suspect is Michael Andrews. Lt. Stoops and I interviewed Mr. Andrews on Tuesday, July 27, 2021.

I will e-mail you a list of facts shortly.

I propose that the following charges are filed against Michael Andrews:

Aggravated cruelty to animals/5534 (a)(1)  
Aggravated cruelty to animals/5534 (a)(2)  
Cruelty to animals/5533 (a)  
Discharging a firearm in the city of Pittsburgh

Thanks!

Hello Lisa,

I will be retiring September 11th. Detective Kevin Logue will be in my position from that date on. I have cc'd him on this email so would you please send him further sheet listings?

Thank you and very nice to have worked with you.

Stay safe,

Harold

I will be on vacation on Friday until the 17th and will leave Thursday after work. I have a lot to do tomorrow so I thought I would edit it for you. If you find this acceptable, you may file it.

### 5533. Cruelty to animal

(a) Offense defined.--A person commits an offense if the person intentionally, knowingly or recklessly illtreats, overloads, beats, abandons or abuses an animal.

(b) Grading.--

(1) Except as set forth in paragraph (2), a violation of this section is a summary offense.

(2) If the violation causes bodily injury to the animal or places the animal at imminent risk of serious bodily injury, a violation of this section is a misdemeanor of the second degree.

Charges approved: M2 cruelty (reckless), S cruelty, local ordinance on the firearm.

This complaint is prepared by your affiant, Officer Christine Luffey. I have worked as a Pittsburgh Police Officer for the past twenty-eight years. I specialize in animal neglect and abuse cases.

On July 29, 2021, Nancy Bane called police to report that a friendly cat that she was caring for was found dead in the back yard at 330 Overbrook Boulevard. The cat appeared to be a victim of abuse.

A necropsy was performed on the cat. A pellet was removed from the cat's chest near the heart base. A large open wound of unknown origin was observed below the tail.

Michael Andrews resides at 2325 Spokane Avenue; his yard is directly behind the yard at 330 Overbrook Boulevard.

On July 7, 2021, I went to 2325 Spokane Avenue and spoke with Michael Andrews about a cat that was found dead in the back yard at 330 Overbrook Boulevard. When informed that the cat was killed by a pellet gun, Michael Andrews stated that he owns an air soft gun and uses it to shoot squirrels and other wildlife that come into his yard. Michael Andrews stated that multiple cats live behind his residence and relieve themselves in his yard. Michael Andrews handed me a long, rifle type gun, black in color, with a scope. The gun is a "Nitro Piston" model number CF47SXS .177 caliber. Michael Andrews gave me the gun as a measure of good faith.

Nancy Bane reported that during the evening of July 7, 2021, she received a telephone call from Michael Andrews and that he apologized and told her that he gave his gun to police to show he wouldn't do it again. Nancy Bane said that Michael Andrews told her, "you saw me shoot at it, not kill it." He also said, "The cat was in my yard. It was bothering my kids. I'm sorry. I'm sorry";

Michael Andrews voluntarily came to Zone 3 station to be interviewed on July 27, 2021, by Lt. Julie Stoops and me. Michael Andrews stated that the situation with cats coming on to his property escalated when his wife began growing vegetables and flowers in the back yard and that she was very upset. Michael Andrews admitted that he was on the rear deck when he saw a cat walking around in the flower bed and used his pellet gun to shoot in the vicinity of the cat.

Michael Andrews e-mailed me a statement. He wrote that, "I did not shoot directly at the cat but in the vicinity in hopes to scare it and get it out of the garden";

The cat was shot in the yard of 2325 Spokane Avenue but was found dead in the back yard at 330 Overbrook Boulevard.

This case was reviewed by Assistant District Attorney Lisa Borrelli and the above charges have been approved.

Ok. Let's try this again.

Please let me know if additional charges are necessary. I am doing my best. I appreciate your help.

Thanks!

---

This complaint is prepared by your affiant, Officer Christine Luffey. I have worked as a Pittsburgh Police Officer for the past twenty-eight years. I specialize in animal neglect and abuse cases.

On July 29, 2021, Nancy Bane called police to report that a friendly cat that she was caring for was found dead in the back yard at 330 Overbrook Boulevard. The cat appeared to be a victim of abuse.

Dr. Larry Gerson performed a necropsy on the cat. He removed a pellet from the cat's chest near the heart base. A large open wound of unknown origin was observed below the tail.

Nancy Bane believes that the cat was killed by Michael Andrews who resides at 2325 Spokane Avenue. His yard is directly behind the yard at 330 Overbrook Boulevard.

On July 7, 2021, I went to 2325 Spokane Avenue and spoke with Michael Andrews about a cat that was found dead in the back yard at 330 Overbrook Boulevard. Michael Andrews asked me how the cat was killed. I informed him that the cat was killed with a pellet. Michael Andrews stated that he owns an air soft gun and uses it to shoot squirrels and other wildlife that come into his yard. Michael Andrews informed me that multiple cats live behind his residence and relieve themselves in his yard. Michael Andrews handed me a long, rifle type gun, black in color, with a scope. The gun is a "Nitro Piston" model number CF47SXS .177 caliber. Michael Andrews gave me the gun as a measure of good faith.

Nancy Bane reported that during the evening of July 7, 2021, that she received a telephone call from Michael Andrews and that he apologized and told her that he gave his gun to police to show he wouldn't do it again. Nancy Bane said that Michael Andrews told her, "you saw me shoot at it, not kill it";

Mary Norcott reported that she was with Nancy Bane when she received a telephone call from Michael Andrews and heard him say, "The cat was in my yard. It was bothering my kids. I'm sorry. I'm sorry";

Michael Andrews voluntarily came to Zone 3 station to be interviewed on July 27, 2021, by Lt. Julie Stoops and me. Michael Andrews stated that the situation with cats coming on to his property escalated when his wife began growing vegetables and flowers in the back yard and that she was very upset. Michael Andrews admitted that he was on the rear deck when he saw a cat walking around in the flower bed and used his pellet gun to shoot in the vicinity of the cat.

Michael Andrews e-mailed me a statement. He wrote that, "I did not shoot directly at the cat but in the vicinity in hopes to scare it and get it out of the garden";

This case was reviewed by Assistant District Attorney Lisa Borrelli and the above charges have been approved.

Thanks for sending this. It has the same problem we dealt with before. It's a greatly detailed police report that we can use later but it's not an affidavit of probable cause.

I didn't want to edit it for you but here's some pointers.

It only needs to put forth just those facts that prove the elements of the crimes we are charging. There's no reason to provide the defense with all this history and research at this point in time. Strategically it harms our case and deflects attention from the crimes committed.

Paring it down in the most oversimplified way: we need to show that the cat was killed, that it was killed by a pellet gun (I think it was an airsoft gun, not a bb gun. We need to be clear on that.) and that the defendant admitted to shooting at the cat in a reckless way with his gun...his statement can be quoted.

Ownership is not an issue here, nor is much of the history of the cat rescue.

You did some great police work on this and your investigation found that the defendant committed a crime. Can you edit this down to the elements of the crimes, please, and resend?

Thanks,  
Lisa

PROPOSED AFFIDAVIT OF PROBABLE CAUSE - MICHAEL ANDREWS

This complaint is prepared by your affiant, Officer Christine Luffey. I have worked as a Pittsburgh Police officer for the past twenty-eight (28) years. I specialize in animal neglect and abuse cases.

On June 29, 2021, Officer Becky McKown was dispatched to 330 Overbrook Boulevard for a report of a cat that was found dead in the back yard. The cat appeared to be a victim of abuse.

Nancy Bane reported that she cares for a small colony of homeless cats on Overbrook Boulevard and Valera Avenue. She said that all the cats she cares for are vaccinated and spayed or neutered. Nancy Bane stated that she cares for some of the cats in the back yard at 330 Overbrook Boulevard. She said that when she went to the property on June 29, 2021, that she found a cat deceased in the back yard. Nancy Bane reported that the cat appeared to have a hole in a rear leg and blood was observed. She said that she believes the cat was killed by the resident at 2325 Spokane Avenue. Nancy Bane took photos of the dead cat. Animal Care and Control officers retrieved the dead cat.

Dr. Larry Gerson performed a necropsy on the cat. He removed a pellet from the cat's chest near the heart base. A large open wound of unknown origin was observed below the tail. Radiographs were taken of the cat and the pellet was preserved for evidence.

On July 7, 2021, I went to 2325 Spokane Avenue and spoke with Michael Andrews. Michael Andrews informed me that multiple cats live behind his residence and relieve themselves in his yard. I informed Michael Andrews that the purpose of my visit is to investigate a report of a cat that was found dead in the back yard at 330 Overbrook Boulevard that is directly behind his residence. Michael Andrews asked me how the cat was killed. I advised him that the cat has a bb in its chest. Michael Andrews told me that he has a bb gun that doesn't penetrate. He told me that it keeps them away and it doesn't harm them. Michael Andrews stated that he normally shoots at the squirrels because they come into his yard to eat from his bird feeder. Michael Andrews asked me if I want his gun. I asked him if he wants to give it to me. He told me that he will give me the gun as a measure of good faith. Michael Andrews was concerned that I may charge him with something and told me that he works at Shuman Detention Center. He handed me a long, rifle type gun, black in color with a scope. The gun is a "Nitro Piston", model number CF47SXS .177 caliber.

Katherine Owens is the tenant who resides at 330 Overbrook Boulevard. She said that she believes that the resident at 2325 Spokane Avenue killed the cat. Katherine Owens reported that she saw the adult male at 2325 Spokane Avenue throwing rocks into her yard in the past for reasons unknown to her.

Nancy Bane reported that she spoke with the former owner of 2325 Spokane Avenue and told him that a cat was killed and she believes that his former tenant, Michael Andrews. Nancy Bane stated that she received a telephone call from a (219) area code, and she answered the telephone. Nancy Bane reported that the caller identified himself as Mike Andrews and said, "you saw me shoot at it, not kill it". She stated that Michael Andrews apologized and gave his gun to police to show he wouldn't do it again.

Mary Norcott reported that she was with Nancy Bane when she received a telephone call from Michael Andrews. She stated that she heard the male Nancy Bane was speaking with say, "The cat was in my yard. It was bothering my kids. I'm sorry. I'm sorry".

Officer Angie Fry informed me that the deceased cat is microchipped. The owner of the cat is Lorissa Bensur.

Lorissa Bensur reported that she lives in Castle Shannon and that her 3-year-old cat "Rocky" accidentally got out of the house on March 17, 2021, and never returned home. She said that her children ages 7 and 10, are heartbroken over the loss of "Rocky". Lorissa Bensur reported that he searched for "Rocky" and posted about "Rocky" being lost on Facebook.

Michael Andrews voluntarily came to Zone 3 station to be interviewed. He told Lt. Stoops and I that he purchased a pellet gun at Walmart during the summer of 2020 to dispatch a mole that was damaging the garden. Michael Andrews stated that he also used the pellet gun to shoot at squirrels that were eating from the bird feeder on his property. He said that the issue with cats coming on to his property escalated after his wife began growing vegetables and flowers in the back yard and that she was very upset. Michael Andrews admitted that he was on the rear deck when he saw a cat walking around in the flower bed and used his pellet gun to shoot in the vicinity of the cat.

Subject: Re: MICHAEL ANDREWS - CCR# 21-115202

Thank God .....and Thank YOU!

I was afraid of what would happen if charges were not filed in this case. Ms. Bane (colony caretaker) and Ms. Bensusan (owner of the cat that was killed) made it clear that they will not stop until they receive justice for Rocky.

Dr. Gerson e-mailed me his findings. In the file that I delivered is a copy of the e-mail I received from him. I will forward the e-mail to you momentarily.

Thank you for reviewing the case. Please let me know when I have the green light to file the M2 and summary charges. I believe that Mr. Andrews grew tired of hearing his wife complain about squirrels, moles, and cats coming on to the property and took matters into his own hands. I believe that Mr. Andrews intentionally killed Rocky and another cat that went missing. For him to be so lucky with the shot to Rocky's chest from a distance without using a scope is hard to believe. I am grateful that criminal charges will be filed.

Have a good day.

Subject: Re: MICHAEL ANDREWS - CCR# 21-115202

Thank you for the report. I appreciate all the work you did on this investigation. I believe that we can substantiate charges.

Do you have a vet report for the findings that you refer to? Can you please send it to me?

Based on the statement from Andrews, I do not think we will have intentional or knowing so probably no felony.

Based on the vet findings and Andrews' statement, I think we can do the M2 cruelty, as we have reckless, and of course the S cruelty. And certainly the local ordinance on the firearm.

Thanks,  
Lisa

Hello,

I will drop off a case file involving a family's cat that was killed on Overbrook Boulevard to West Liberty Animal Hospital today for your review.

The suspect is Michael Andrews. Lt. Stoops and I interviewed Mr. Andrews on Tuesday, July 27, 2021.

I will e-mail you a list of facts shortly.

I propose that the following charges are filed against Michael Andrews:

Aggravated cruelty to animals/5534 (a)(1)  
Aggravated cruelty to animals/5534 (a)(2)  
Cruelty to animals/5533 (a)  
Discharging a firearm in the city of Pittsburgh

Thanks!

I will be on vacation on Friday until the 17th and will leave Thursday after work. I have a lot to do tomorrow so I thought I would edit it for you. If you find this acceptable, you may file it.

5533. Cruelty to animal

(a) Offense defined.--A person commits an offense if the person intentionally, knowingly or recklessly illtreats, overloads, beats, abandons or abuses an animal.

(b) Grading.--

(1) Except as set forth in paragraph (2), a violation of this section is a summary offense.

(2) If the violation causes bodily injury to the animal or places the animal at imminent risk of serious bodily injury, a violation of this section is a misdemeanor of the second degree.

Charges approved: M2 cruelty (reckless), S cruelty, local ordinance on the firearm.

This complaint is prepared by your affiant, Officer Christine Luffey. I have worked as a Pittsburgh Police Officer for the past twenty-eight years. I specialize in animal neglect and abuse cases.

On July 29, 2021, Nancy Bane called police to report that a friendly cat that she was caring for was found dead in the back yard at 330 Overbrook Boulevard. The cat appeared to be a victim of abuse.

## PROPOSED AFFIDAVIT OF PROBABLE CAUSE - MICHAEL ANDREWS

This complaint is prepared by your affiant, Officer Christine Luffey. I have worked as a Pittsburgh Police officer for the past twenty-eight (28) years. I specialize in animal neglect and abuse cases.

On June 29, 2021, Officer Becky McKown was dispatched to 330 Overbrook Boulevard for a report of a cat that was found dead in the back yard. The cat appeared to be a victim of abuse.

Nancy Bane reported that she cares for a small colony of homeless cats on Overbrook Boulevard and Valera Avenue. She said that all the cats she cares for are vaccinated and spayed or neutered. Nancy Bane stated that she cares for some of the cats in the back yard at 330 Overbrook Boulevard. She said that when she went to the property on June 29, 2021, that she found a cat deceased in the back yard. Nancy Bane reported that the cat appeared to have a hole in a rear leg and blood was observed. She said that she believes the cat was killed by the resident at 2325 Spokane Avenue. Nancy Bane took photos of the dead cat. Animal Care and Control officers retrieved the dead cat.

Dr. Larry Gerson performed a necropsy on the cat. He removed a pellet from the cat's chest near the heart base. A large open wound of unknown origin was observed below the tail. Radiographs were taken of the cat and the pellet was preserved for evidence.

On July 7, 2021, I went to 2325 Spokane Avenue and spoke with Michael Andrews. Michael Andrews informed me that multiple cats live behind his residence and relieve themselves in his yard. I informed Michael Andrews that the purpose of my visit is to investigate a report of a cat that was found dead in the back yard at 330 Overbrook Boulevard that is directly behind his residence. Michael Andrews asked me how the cat was killed. I advised him that the cat has a bb in its chest. Michael Andrews told me that he has a bb gun that doesn't penetrate. He told me that it keeps them away and it doesn't harm them. Michael Andrews stated that he normally shoots at the squirrels because they come into his yard to eat from his bird feeder. Michael Andrews asked me if I want his gun. I asked him if he wants to give it to me. He told me that he will give me the gun as a measure of good faith. Michael Andrews was concerned that I may charge him with something and told me that he works at Shuman Detention Center. He handed me a long, rifle type gun, black in color with a scope. The gun is a "Nitro Piston", model number CF47SXS .177 caliber.

Katherine Owens is the tenant who resides at 330 Overbrook Boulevard. She said that she believes that the resident at 2325 Spokane Avenue killed the cat. Katherine Owens reported that she saw the adult male at 2325 Spokane Avenue throwing rocks into her yard in the past for reasons unknown to her.

Nancy Bane reported that she spoke with the former owner of 2325 Spokane Avenue and told him that a cat was killed and she believes that his former tenant, Michael Andrews. Nancy Bane stated that she received a telephone call from a (219) area code, and she answered the telephone. Nancy Bane reported that the caller identified himself as Mike Andrews and said, "you saw me shoot at it, not kill it". She stated that Michael Andrews apologized and gave his gun to police to show he wouldn't do it again.

Mary Norcott reported that she was with Nancy Bane when she received a telephone call from Michael Andrews. She stated that she heard the male Nancy Bane was speaking with say, "The cat was in my yard. It was bothering my kids. I'm sorry. I'm sorry";

Officer Angie Fry informed me that the deceased cat is microchipped. The owner of the cat is Lorissa Bensus.

Lorissa Bensus reported that she lives in Castle Shannon and that her 3-year-old cat "Rocky" accidentally got out of the house on March 17, 2021, and never returned home. She said that her children ages 7 and 10, are heartbroken over the loss of "Rocky". Lorissa Bensus reported that he searched for "Rocky" and posted about "Rocky" being lost on Facebook.

Michael Andrews voluntarily came to Zone 3 station to be interviewed. He told Lt. Stoops and I that he purchased a pellet gun at Walmart during the summer of 2020 to dispatch a mole that was damaging the garden. Michael Andrews stated that he also used the pellet gun to shoot at squirrels that were eating from the bird feeder on his property. He said that the issue with cats coming on to his property escalated after his wife began growing vegetables and flowers in the back yard and that she was very upset. Michael Andrews admitted that he was on the rear deck when he saw a cat walking around in the flower bed and used his pellet gun to shoot in the vicinity of the cat.

Thank you for the report. I appreciate all the work you did on this investigation. I believe that we can substantiate charges.

Do you have a vet report for the findings that you refer to? Can you please send it to me?

Based on the statement from Andrews, I do not think we will have intentional or knowing so probably no felony.

Based on the vet findings and Andrews' statement, I think we can do the M2 cruelty, as we have reckless, and of course the S cruelty. And certainly the local ordinance on the firearm.

Thanks,  
Lisa

Subject: MICHAEL ANDREWS - CCR# 21-115202

Hello,

I will drop off a case file involving a family's cat that was killed on Overbrook Boulevard to West Liberty Animal Hospital today for your review.

The suspect is Michael Andrews. Lt. Stoops and I interviewed Mr. Andrews on Tuesday, July 27, 2021.

I will e-mail you a list of facts shortly.

I propose that the following charges are filed against Michael Andrews:

Aggravated cruelty to animals/5534 (a)(1)  
Aggravated cruelty to animals/5534 (a)(2)  
Cruelty to animals/5533 (a)  
Discharging a firearm in the city of Pittsburgh

Thanks!

Subject: Re: MICHAEL ANDREWS - CCR# 21-115202 - PLEASE MAKE ANY NECESSARY CHANGES

Ok. Let's try this again.

Please let me know if additional charges are necessary. I am doing my best. I appreciate your help.

Thanks!

---

This complaint is prepared by your affiant, Officer Christine Luffey. I have worked as a Pittsburgh Police Officer for the past twenty-eight years. I specialize in animal neglect and abuse cases.

On July 29, 2021, Nancy Bane called police to report that a friendly cat that she was caring for was found dead in the back yard at 330 Overbrook Boulevard. The cat appeared to be a victim of abuse.

Dr. Larry Gerson performed a necropsy on the cat. He removed a pellet from the cat's chest near the heart base. A large open wound of unknown origin was observed below the tail.

Nancy Bane believes that the cat was killed by Michael Andrews who resides at 2325 Spokane Avenue. His yard is directly behind the yard at 330 Overbrook Boulevard.

On July 7, 2021, I went to 2325 Spokane Avenue and spoke with Michael Andrews about a cat that was found dead in the back yard at 330 Overbrook Boulevard. Michael Andrews asked me how the cat was killed. I informed him that the cat was killed with a pellet. Michael Andrews stated that he owns an air soft gun and uses it to shoot squirrels and other wildlife that come into his yard. Michael Andrews informed me that multiple cats live behind his residence and relieve themselves in his yard. Michael Andrews handed me a long, rifle type gun, black in color, with a scope. The gun is a "Nitro Piston" model number CF47SXS .177 caliber. Michael Andrews gave me the gun as a measure of good faith.

Nancy Bane reported that during the evening of July 7, 2021, that she received a telephone call from Michael Andrews and that he apologized and told her that he gave his gun to police to show he wouldn't do it again. Nancy Bane said that Michael Andrews told her, "you saw me shoot at it, not kill it";

Mary Norcott reported that she was with Nancy Bane when she received a telephone call from Michael Andrews and heard him say, "The cat was in my yard. It was bothering my kids. I'm sorry. I'm sorry";

Michael Andrews voluntarily came to Zone 3 station to be interviewed on July 27, 2021, by Lt. Julie Stoops and me. Michael Andrews stated that the situation with cats coming on to his property escalated when his wife began growing vegetables and flowers in the back yard and that she was very upset. Michael Andrews admitted that he was on the rear deck when he saw a cat walking around in the flower bed and used his pellet gun to shoot in the vicinity of the cat.

Michael Andrews e-mailed me a statement. He wrote that, "I did not shoot directly at the cat but in the vicinity in hopes to scare it and get it out of the garden";

This case was reviewed by Assistant District Attorney Lisa Borrelli and the above charges have been approved.

Thanks for sending this. It has the same problem we dealt with before. It's a greatly detailed police report that we can use later but it's not an affidavit of probable cause.

I didn't want to edit it for you but here's some pointers.

It only needs to put forth just those facts that prove the elements of the crimes we are charging. There's no reason to provide the defense with all this history and research at this point in time. Strategically it harms our case and deflects attention from the crimes committed.

Paring it down in the most oversimplified way: we need to show that the cat was killed, that it was killed by a pellet gun (I think it was an airsoft gun, not a bb gun. We need to be clear on that.) and that the defendant admitted to shooting at the cat in a reckless way with his gun...his statement can be quoted.

Ownership is not an issue here, nor is much of the history of the cat rescue.

You did some great police work on this and your investigation found that the defendant committed a crime. Can you edit this down to the elements of the crimes, please, and resend?

Thanks,  
Lisa

PROPOSED AFFIDAVIT OF PROBABLE CAUSE - MICHAEL ANDREWS

This complaint is prepared by your affiant, Officer Christine Luffey. I have worked as a Pittsburgh Police officer for the past twenty-eight (28) years. I specialize in animal neglect and abuse cases.

On June 29, 2021, Officer Becky McKown was dispatched to 330 Overbrook Boulevard for a report of a cat that was found dead in the back yard. The cat appeared to be a victim of abuse.

Nancy Bane reported that she cares for a small colony of homeless cats on Overbrook Boulevard and Valera Avenue. She said that all the cats she cares for are vaccinated and spayed or neutered. Nancy Bane stated that she cares for some of the cats in the back yard at 330 Overbrook Boulevard. She said that when she went to the property on

June 29, 2021, that she found a cat deceased in the back yard. Nancy Bane reported that the cat appeared to have a hole in a rear leg and blood was observed. She said that she believes the cat was killed by the resident at 2325 Spokane Avenue. Nancy Bane took photos of the dead cat. Animal Care and Control officers retrieved the dead cat.

Dr. Larry Gerson performed a necropsy on the cat. He removed a pellet from the cat's chest near the heart base. A large open wound of unknown origin was observed below the tail. Radiographs were taken of the cat and the pellet was preserved for evidence.

On July 7, 2021, I went to 2325 Spokane Avenue and spoke with Michael Andrews. Michael Andrews informed me that multiple cats live behind his residence and relieve themselves in his yard. I informed Michael Andrews that the purpose of my visit is to investigate a report of a cat that was found dead in the back yard at 330 Overbrook Boulevard that is directly behind his residence. Michael Andrews asked me how the cat was killed. I advised him that the cat has a bb in its chest. Michael Andrews told me that he has a bb gun that doesn't penetrate. He told me that it keeps them away and it doesn't harm them. Michael Andrews stated that he normally shoots at the squirrels because they come into his yard to eat from his bird feeder. Michael Andrews asked me if I want his gun. I asked him if he wants to give it to me. He told me that he will give me the gun as a measure of good faith. Michael Andrews was concerned that I may charge him with something and told me that he works at Shuman Detention Center. He handed me a long, rifle type gun, black in color with a scope. The gun is a "Nitro Piston", model number CF47SXS .177 caliber.

Katherine Owens is the tenant who resides at 330 Overbrook Boulevard. She said that she believes that the resident at 2325 Spokane Avenue killed the cat. Katherine Owens reported that she saw the adult male at 2325 Spokane Avenue throwing rocks into her yard in the past for reasons unknown to her.

Nancy Bane reported that she spoke with the former owner of 2325 Spokane Avenue and told him that a cat was killed and she believes that his former tenant, Michael Andrews. Nancy Bane stated that she received a telephone call from a (219) area code, and she answered the telephone. Nancy Bane reported that the caller identified himself as Mike Andrews and said, "you saw me shoot at it, not kill it". She stated that Michael Andrews apologized and gave his gun to police to show he wouldn't do it again.

Mary Norcott reported that she was with Nancy Bane when she received a telephone call from Michael Andrews. She stated that she heard the male Nancy Bane was speaking with say, "The cat was in my yard. It was bothering my kids. I'm sorry. I'm sorry".

Officer Angie Fry informed me that the deceased cat is microchipped. The owner of the cat is Lorissa Bensur.

Lorissa Bensur reported that she lives in Castle Shannon and that her 3-year-old cat "Rocky" accidentally got out of the house on March 17, 2021, and never returned home. She said that her children ages 7 and 10, are heartbroken over the loss of "Rocky". Lorissa Bensur reported that he searched for "Rocky" and posted about "Rocky" being lost on Facebook.

Michael Andrews voluntarily came to Zone 3 station to be interviewed. He told Lt. Stoops and I that he purchased a pellet gun at Walmart during the summer of 2020 to dispatch a mole that was damaging the garden. Michael Andrews stated that he also used the pellet gun to shoot at squirrels that were eating from the bird feeder on his property. He said that the issue with cats coming on to his property escalated after his wife began growing vegetables and flowers in

the back yard and that she was very upset. Michael Andrews admitted that he was on the rear deck when he saw a cat walking around in the flower bed and used his pellet gun to shoot in the vicinity of the cat.

Subject: Re: MICHAEL ANDREWS - CCR# 21-115202

Thank God .....and Thank YOU!

I was afraid of what would happen if charges were not filed in this case. Ms. Bane (colony caretaker) and Ms. Bensusan (owner of the cat that was killed) made it clear that they will not stop until they receive justice for Rocky.

Dr. Gerson e-mailed me his findings. In the file that I delivered is a copy of the e-mail I received from him. I will forward the e-mail to you momentarily.

Thank you for reviewing the case. Please let me know when I have the green light to file the M2 and summary charges. I believe that Mr. Andrews grew tired of hearing his wife complain about squirrels, moles, and cats coming on to the property and took matters into his own hands. I believe that Mr. Andrews intentionally killed Rocky and another cat that went missing. For him to be so lucky with the shot to Rocky's chest from a distance without using a scope is hard to believe. I am grateful that criminal charges will be filed.

Have a good day.

Subject: MICHAEL ANDREWS - CCR# 21-115202 - PLEASE MAKE ANY NECESSARY CHANGES

PROPOSED AFFADAVIT OF PROBABLE CAUSE - MICHAEL ANDREWS

This complaint is prepared by your affiant, Officer Christine Luffey. I have worked as a Pittsburgh Police officer for the past twenty-eight (28) years. I specialize in animal neglect and abuse cases.

On June 29, 2021, Officer Becky McKown was dispatched to 330 Overbrook Boulevard for a report of a cat that was found dead in the back yard. The cat appeared to be a victim of abuse.

Nancy Bane reported that she cares for a small colony of homeless cats on Overbrook Boulevard and Valera Avenue. She said that all the cats she cares for are vaccinated and spayed or neutered. Nancy Bane stated that she cares for some of the cats in the back yard at 330 Overbrook Boulevard. She said that when she went to the property on June 29, 2021, that she found a cat deceased in the back yard. Nancy Bane reported that the cat appeared to have a hole in a rear leg and blood was observed. She said that she believes the cat was killed by the resident at 2325 Spokane Avenue. Nancy Bane took photos of the dead cat. Animal Care and Control officers retrieved the dead cat.

Dr. Larry Gerson performed a necropsy on the cat. He removed a pellet from the cat's chest near the heart base. A large open wound of unknown origin was observed below the tail. Radiographs were taken of the cat and the pellet was preserved for evidence.

On July 7, 2021, I went to 2325 Spokane Avenue and spoke with Michael Andrews. Michael Andrews informed me that multiple cats live behind his residence and relieve themselves in his yard. I informed Michael Andrews that the purpose of my visit is to investigate a report of a cat that was found dead in the back yard at 330 Overbrook Boulevard that is directly behind his residence. Michael Andrews asked me how the cat was killed. I advised him that the cat has a bb in its chest. Michael Andrews told me that he has a bb gun that doesn't penetrate. He told me that it keeps them away and it doesn't harm them. Michael Andrews stated that he normally shoots at the squirrels because they come into his yard to eat from his bird feeder. Michael Andrews asked me if I want his gun. I asked him if he wants to give it to me. He told me that he will give me the gun as a measure of good faith. Michael Andrews was concerned that I may charge him with something and told me that he works at Shuman Detention Center. He handed me a long, rifle type gun, black in color with a scope. The gun is a "Nitro Piston", model number CF47SXS .177 caliber.

Katherine Owens is the tenant who resides at 330 Overbrook Boulevard. She said that she believes that the resident at 2325 Spokane Avenue killed the cat. Katherine Owens reported that she saw the adult male at 2325 Spokane Avenue throwing rocks into her yard in the past for reasons unknown to her.

Nancy Bane reported that she spoke with the former owner of 2325 Spokane Avenue and told him that a cat was killed and she believes that his former tenant, Michael Andrews. Nancy Bane stated that she received a telephone call from a (219) area code, and she answered the telephone. Nancy Bane reported that the caller identified himself as Mike Andrews and said, "you saw me shoot at it, not kill it". She stated that Michael Andrews apologized and gave his gun to police to show he wouldn't do it again.

Mary Norcott reported that she was with Nancy Bane when she received a telephone call from Michael Andrews. She stated that she heard the male Nancy Bane was speaking with say, "The cat was in my yard. It was bothering my kids. I'm sorry. I'm sorry".

Officer Angie Fry informed me that the deceased cat is microchipped. The owner of the cat is Lorissa Bensus.

Lorissa Bensus reported that she lives in Castle Shannon and that her 3-year-old cat "Rocky" accidentally got out of the house on March 17, 2021, and never returned home. She said that her children ages 7 and 10, are

heartbroken over the loss of "Rocky". Lorissa Bensur reported that he searched for "Rocky" and posted about "Rocky" being lost on Facebook.

Michael Andrews voluntarily came to Zone 3 station to be interviewed. He told Lt. Stoops and I that he purchased a pellet gun at Walmart during the summer of 2020 to dispatch a mole that was damaging the garden. Michael Andrews stated that he also used the pellet gun to shoot at squirrels that were eating from the bird feeder on his property. He said that the issue with cats coming on to his property escalated after his wife began growing vegetables and flowers in the back yard and that she was very upset. Michael Andrews admitted that he was on the rear deck when he saw a cat walking around in the flower bed and used his pellet gun to shoot in the vicinity of the cat.

Cc: Stoops, Julie  
Subject: Re: MICHAEL ANDREWS - CCR# 21-115202

Thank God .....and Thank YOU!

I was afraid of what would happen if charges were not filed in this case. Ms. Bane (colony caretaker) and Ms. Bensusan (owner of the cat that was killed) made it clear that they will not stop until they receive justice for Rocky.

Dr. Gerson e-mailed me his findings. In the file that I delivered is a copy of the e-mail I received from him. I will forward the e-mail to you momentarily.

Thank you for reviewing the case. Please let me know when I have the green light to file the M2 and summary charges. I believe that Mr. Andrews grew tired of hearing his wife complain about squirrels, moles, and cats coming on to the property and took matters into his own hands. I believe that Mr. Andrews intentionally killed Rocky and another cat that went missing. For him to be so lucky with the shot to Rocky's chest from a distance without using a scope is hard to believe. I am grateful that criminal charges will be filed.

Have a good day.

Subject: Re: MICHAEL ANDREWS - CCR# 21-115202

Thank you for the report. I appreciate all the work you did on this investigation. I believe that we can substantiate charges.

Do you have a vet report for the findings that you refer to? Can you please send it to me?

Based on the statement from Andrews, I do not think we will have intentional or knowing so probably no felony.

Based on the vet findings and Andrews' statement, I think we can do the M2 cruelty, as we have reckless, and of course the S cruelty. And certainly the local ordinance on the firearm.

Thanks,  
Lisa

Hello,

I will drop off a case file involving a family's cat that was killed on Overbrook Boulevard to West Liberty Animal Hospital today for your review.

The suspect is Michael Andrews. Lt. Stoops and I interviewed Mr. Andrews on Tuesday, July 27, 2021.

I will e-mail you a list of facts shortly.

I propose that the following charges are filed against Michael Andrews:

Aggravated cruelty to animals/5534 (a)(1)  
Aggravated cruelty to animals/5534 (a)(2)  
Cruelty to animals/5533 (a)  
Discharging a firearm in the city of Pittsburgh

Thanks!

Subject: Re: Pet limits law

Hi Dave,

No that's not correct - in that case, the Commonwealth Court remanded to the trial court for a determination as to whether there was in fact a nuisance to be abated and whether the local ordinance was a reasonable means of achieving a legitimate goal (i.e. what goals did local government seek to achieve, whether they were legitimate governmental goals, and whether the means used were reasonable, etc.) The trial court in that case did not make such determinations, thus failing to do its job as the fact-finding tribunal. There were also procedural objections to how the ordinance was approved in the first place, which are not pertinent to the City.

Local ordinances are always subject to this kind of scrutiny if challenged, meaning that even though we have general police powers to protect health safety and welfare, our ordinances have to be reasonably connected to the end sought and sufficiently tailored to meet those objectives. So if our ordinance were ever challenged, we'd need evidence of why our ordinance says what it does and how it achieves the goals of protecting human and animal welfare. This is always a case-by-case analysis.

Similarly, with each specific prosecution the City has to demonstrate in court why the violation presents a nuisance and why the City's prosecution of the violation furthers the legitimate government goals.

Have any judges or courts made that determination, or just someone from OMI? I'd be more concerned if the ordinance was not viewed as legitimate by a particular judge or in court in general and such was blocking our prosecutions. But if it presents problems for OMI to not agree with Public Safety on thus, let me know and we can discuss further with them.

Let me know if you have any other questions.

Thanks  
Ben

Hi Ben

633.12 limits the number of cats and/or dogs to 5 total for Pittsburgh residents

An employee of OMI recently sent a letter to Wendell saying the following;

Per the 1994 court case Commonwealth vs Creighton, pet limit laws are not legal under Pennsylvania law

Is this correct?

Thanks

Dave

Hi Lisa

Yes, that does help

We can't ever charge anyone with just violating 633.12 unless we include why owning more than 5 cats, dogs, or a combination of both is causing additional problems

Right?

Thanks

Dave

I just read the case and it is here in case you wish to as well: <https://www.animallaw.info/case/commonwealth-v-creighton>

The case was remanded to obtain facts that would substantiate the residence as a nuisance. The law is good but there has to be facts established on the record to verify that the ownership of many cats is a nuisance and a violation of the public health.

That would explain why it usually stands if there are code enforcement violations or neglect or cruelty. To use the ordinance properly, you need to establish why having more than the allowed number of animals is impacting the health and safety of the community. Ammonia readings, photos of piles of feces, complaints by verifiable neighbors would all go to the weight of the case.

As I read it, a head count alone is insufficient to prove that the situation is a nuisance.

Does that help?

I read it a long time ago so I can't remember the specifics, but I believe Angie is right - there has to be more than just the number of animals. It has to be proven that it's creating a collective nuisance/hazard to the community or that the necessary standard of care isn't being met.

It reminds me of the anti gun laws adopted by some places. They enact them and charge them, but they're easily overturned if challenged by someone with a decent attorney or knowledge of the law.

Hello,

I cc'd my supervisors and ADA Borrelli on my response to you, so they are aware of this.

I have enforced the pet limit law in the city of Pittsburgh many times over the years. This law has helped us in many cases involving animal neglect and abuse, especially hoarding cases. I believe that pet limit law is a good thing. A maximum of 5 dogs/cats are permitted per residence in the city of Pittsburgh. Other municipalities allow only 2 or 3 pets.

I hope this helps.

It's still on the books but probably not legal at this point, from what I understand. It can be challenged using Commonwealth v. Creighton if the person is familiar with the law.

Hello,

I cc'd my supervisors and ADA Borrelli on my response to you, so they are aware of this.

I have enforced the pet limit law in the city of Pittsburgh many times over the years. This law has helped us in many cases involving animal neglect and abuse, especially hoarding cases. I believe that pet limit law is a good thing. A maximum of 5 dogs/cats are permitted per residence in the city of Pittsburgh. Other municipalities allow only 2 or 3 pets.

I hope this helps.

Hello

An employee from Office of Municipal Investigation says the pet limits law 633.12 is not legal in PA

He cited a 1994 court case: Commonwealth vs Creighton

I have asked our law department to verify if this is true or not

Have either of you ever cited someone who violated this law?

Thanks

Dave

I read it a long time ago so I can't remember the specifics, but I believe Angie is right - there has to be more than just the number of animals. It has to be proven that it's creating a collective nuisance/hazard to the community or that the necessary standard of care isn't being met.

It reminds me of the anti gun laws adopted by some places. They enact them and charge them, but they're easily overturned if challenged by someone with a decent attorney or knowledge of the law.

I agree that this is a good ordinance though most boros, townships and municipalities do not have a limit. I live in Baldwin and we can have 4 dogs per household.

I am reading the case law on it and trying to find where it was decided by a judge that this ordinance is not lawful. Commonwealth vs Creighton looks like it's based on the fact that the number of cats and severe unsanitary conditions made the residence a nuisance.

Maybe you might have to start tying your ordinance in with humane cases, as in your ordinance may not be challenged if animal cruelty/neglect charges were also filed further proving why the ordinance was cited.

I can do Wednesday or Thursday at this point also.

I asked for my complainant for Brookline Blvd to provide me with a written statement regarding the physical abuse and she has not as of this date and time.

We need to try and find out how many cats are on Foster St so that I can make sure we have enough room here at the shelter as we are getting quite full on cats.

Hi Coralie,

Per our conversation, we responded to 4010 foster street last night for a reported structure fire. There was no fire.

The conditions at the house are unacceptable. You can smell the cat urine from outside on the sidewalk. There were lots of cats and kittens at the house.

In the living room there is an area of about 8 feet by 8 feet of cat poop. The fecal matter looked like it was almost a foot high in some areas. I have never seen anything like this before.

These are horrible conditions for mr boyles and the cats. I notified fire dispatch last night that I wanted the health department to go there and gave my personal cell number (412)-480-9815.

It was so filthy in the house, we had to decontaminate our gear out in the street, before getting back on the fire truck.

Respectfully,

David Hamburger

Can you please assist me?

We also need to go to 212 Poplargo (Carrick) about the kid physically abusing the dog and to follow up at 546 Brookline Boulevard - Apt. 2 about the man physically abusing his puppy daily.

I am booked solid today. Off tomorrow. As of now, I am free to visit 4010 Foster Street and work on the other 2 calls on Wednesday or Thursday.

Please let me know what works best for you.

Thanks

Hi Coralie,

Per our conversation, we responded to 4010 foster street last night for a reported structure fire. There was no fire.

The conditions at the house are unacceptable. You can smell the cat urine from outside on the sidewalk. There were lots of cats and kittens at the house.

In the living room there is an area of about 8 feet by 8 feet of cat poop. The fecal matter looked like it was almost a foot high in some areas. I have never seen anything like this before.

These are horrible conditions for mr boyles and the cats. I notified fire dispatch last night that I wanted the health department to go there and gave my personal cell number (412)-480-9815.

It was so filthy in the house, we had to decontaminate our gear out in the street, before getting back on the fire truck.

Respectfully,

David Hamburger

Thank God .....and Thank YOU!

I was afraid of what would happen if charges were not filed in this case. Ms. Bane (colony caretaker) and Ms. Bensusan (owner of the cat that was killed) made it clear that they will not stop until they receive justice for Rocky.

Dr. Gerson e-mailed me his findings. In the file that I delivered is a copy of the e-mail I received from him. I will forward the e-mail to you momentarily.

Thank you for reviewing the case. Please let me know when I have the green light to file the M2 and summary charges. I believe that Mr. Andrews grew tired of hearing his wife complain about squirrels, moles, and cats coming on to the property and took matters into his own hands. I believe that Mr. Andrews intentionally killed Rocky and another cat that went missing. For him to be so lucky with the shot to Rocky's chest from a distance without using a scope is hard to believe. I am grateful that criminal charges will be filed.

Have a good day.

Thank you for the report. I appreciate all the work you did on this investigation. I believe that we can substantiate charges.

Do you have a vet report for the findings that you refer to? Can you please send it to me?

Based on the statement from Andrews, I do not think we will have intentional or knowing so probably no felony.

Based on the vet findings and Andrews' statement, I think we can do the M2 cruelty, as we have reckless, and of course the S cruelty. And certainly the local ordinance on the firearm.

Thanks,  
Lisa

Hello,

I will drop off a case file involving a family's cat that was killed on Overbrook Boulevard to West Liberty Animal Hospital today for your review.

The suspect is Michael Andrews. Lt. Stoops and I interviewed Mr. Andrews on Tuesday, July 27, 2021.

I will e-mail you a list of facts shortly.

I propose that the following charges are filed against Michael Andrews:

Aggravated cruelty to animals/5534 (a)(1)  
Aggravated cruelty to animals/5534 (a)(2)  
Cruelty to animals/5533 (a)  
Discharging a firearm in the city of Pittsburgh

Thanks!

Thank you for your help. Please e-mail me the radiographs when you can.

I never had a case where a pellet gun and pellet were tested.

If ADA Borrelli wants the test, I can investigate how this can be done.

Great job to everyone. Teamwork makes the dream work.

Good morning,

I can have the x-rays emailed to you but other than that we don't have any records as our vets did not exam the cat.

I'd be interested to see and learn from the ballistics test on this pellet and rifle. I've never had a case involving an airsoft rifle so I'm super eager to learn.

Happy Monday Officer Fry,

Criminal charges will be filed in the case of the cat that was found dead in the yard at 330 Overbrook Boulevard.

I will need the radiographs and any records that HAR has involving this case.

Please let me know what you have.

Can the radiographs and records be e-mailed to us?

If not, we can plan for me to retrieve them from you.

ADA Borrelli, the gun, and pellet that Dr. Gerson removed from the cat was submitted into evidence. Please let me know if you need a ballistics test performed.

Thanks!

On Wednesday July 7,2001 I examined a deceased colony cat in advanced state of decomposition. This was a large cat of approximately 10 to 12 pounds and grey in color. The cat had a good body condition and body score was 6 of 9 indicating it was well fed. Because there was a possibility of trauma, a radiograph was taken at Humane Animal Rescue. There was a slug similar to a pellet gun seen in the chest near the heart base. There was a large open wound of unknown origin below the tail. The abdomen appeared normal when opened. The chest cavity contained free blood. There is reasonable thought that the main vessels including the aorta or vena cava were torn from the projectile. The lungs were hemorrhagic.

A metal projectile was recovered at the heart base and suspected to be the cause of death. The projectile was recovered and placed in a vial and saved at HAR. The original two radiographs should be photographed, copied to paper or disk and saved.

Dr. Samson,

Thank you for these vet reports. I just wanted to let you know that I find them to be extremely helpful, with the definitions, the pictures, and the charts and I appreciate the effort you put into them.

I really like this format for the reports as it covers just what we will need for court.

Thanks again,

 Subject: RE: MICHAEL ANDREWS

Also, her wanting to charge 5534 a(1) torture does not fit the statute. The wound on the back of the cat was documented by Dr. Gerson as "a large open wound of unknown origin". It appears from necropsy findings that the cat died from a fatal shot through the aorta and vena cava, which resulted in a large amount of blood loss very quickly, as these are the 2 main vessels in the body so I am not sure that the argument of severe and prolonged pain from wounding could be made.

FACTS – CCR# 21-115202 – SUSPECT MICHAEL ANDREWS

1. Nancy Bane cares for a small colony of homeless cats on Overbrook Boulevard and Valera Avenue. The cats are vaccinated and spayed or neutered.
2. Ms. Bane was caring for the cats on the property of 330 Overbrook Boulevard when she found a cat dead in the back yard.
3. Ms. Bane reported that the cat that was killed was very friendly, recently joined the colony, and she was trying to find placement for it.
4. Officer Becky McKown responded to a 911 call for service. Ms. Bane took photos of the dead cat. Officer McKown observed the photos. A cat appeared to have a hole in a rear leg and blood was observed. Ms. Bane provided me with the photos that she took.

5. Ms. Bane believes the cat was killed by the resident at 2325 Spokane Avenue.
6. The cat was picked up by Animal Care and Control officers and put into a cooler.
7. The cat was transported to HAR on July 7, 2021, Dr. Larry Gerson performed a necropsy on that date.
8. Officer Fry informed me that a pellet was removed by Dr. Gerson from the cat's chest and provided me with 2 photos of the pellet that will be kept for evidence.
9. Officer Fry informed me that the cat is microchipped to Lissa Bensusur.
10. Dr. Gerson provided the necropsy results. A large cat, gray in color, well fed, a pellet was removed from the cat's chest near the heart base. A LARGE OPEN WOUND OF UNKNOWN ORIGIN WAS OBSERVED BELOW THE TAIL. The chest cavity contained free blood. The main vessels, including the aorta or vena cava were torn from the projectile. The lungs were hemorrhagic. The pellet was saved for evidence.
11. I interviewed neighbors in the 2300 block of Spokane Avenue.
12. Mr. Kappert showed me 3 holes from a bb gun or a pellet gun in his garage windows.
13. Michael Andrews lives at 2325 Spokane Ave. He told me that the cats relieve themselves in his yard. Mr. Andrews admitted to owning a pellet gun and asked me if I want it. He told me that the gun does not penetrate. He admitted to shooting squirrels in his yard. Mr. Andrews voluntarily gave me the pellet gun as a measure of good faith. I took photos of the gun. It is submitted as evidence.
14. Mr. Andrews yard is directly behind the yard at 330 Overbrook Boulevard where the cat was found dead.
15. Ms. Bane spoke with Frank Calhoun, the former owner of 2325 Spokane Avenue. She told Mr. Calhoun that a cat was killed and she believes his former tenant killed the cat.
16. Ms. Bane receives a telephone call from a 219 area code. She answered the phone. The caller identified himself as Mike Andrews.
17. Mary Norcott was with Ms. Bane while she was speaking with Mr. Andrews.
18. Ms. Bane reported that she confronted Mr. Andrews about killing the cat and he said, "you saw me shoot at it, not kill it". Ms. Bane reported that Mr. Andrews apologized and said that he gave his gun to police to show he wouldn't do it again.
19. I spoke to Katherine Owens, resident at 330 Overbrook Boulevard. Ms. Owens believes that the resident of 2325 Spokane Avenue killed the cat. She reported that she saw him throwing rocks into her yard for reasons unknown to her.
20. I viewed a photo on Lissa Bensusur's Facebook page. The photo is of a gray/black cat with a partially white face. The caption on the photo reads, "I'm missing. Please share me. I'd love to go home".
21. Lt. Stoops and I went to 2325 Spokane Avenue to attempt to interview Michael Andrews. I left a business card in the door.
22. I spoke with Lorissa Bensusur. She resides at 850 Killarney Drive in Castle Shannon. The cat belongs to her and her kids, Savannah (age 10) and Michael (age 7). The cat's name was Rocky. He was loved. Rocky accidentally got out of the house on March 17, 2021, and never returned. Her kids are heartbroken over the loss of Rocky.
23. I spoke with Mary Norcott. Ms. Norcott was present when Mr. Andrews called Ms. Bane. She heard Mr. Andrews say, "The cat was in my yard. It was bothering my kids. I'm sorry. I'm sorry".
24. I spoke with Mr. Andrews on the telephone. He agreed to come into the station for an interview. He is concerned that we are going to do a ballistics test on a pellet gun. He is worried about what is going to happen to him.
25. Lt. Stoops and I interviewed Mr. Andrews. He said that the issue with the cats escalated after his wife began growing vegetables and flowers in the back yard. Mr. Andrews said that his wife is very upset about cats coming into the yard. He purchased a pellet gun at Walmart last summer. Mr. Andrews said that he originally purchased it because there was a mole in the back yard damaging the garden. He said that he also used the pellet gun to shoot at squirrels that were eating from the bird feeder on the property.
26. Mr. Andrews admitted that he was on the rear deck when he saw a cat walking around in the flower bed and used his pellet gun to shoot in the vicinity of the cat. He claims he did not intentionally kill the cat and shot at it just to scare it. Mr. Andrews said that he did not know that pellet rounds were lethal.
27. Officer Fry brought me the pellet that was removed from the cat's body by Dr. Gerson on July 28, 2021.
28. The pellet removed from the cat's body will be submitted for evidence.

Subject: RE: MICHAEL ANDREWS

So in reading the statement from Andrews and Luffey's fact sheet as well as the statutes for 5534, I think that the knowingly, and intentionally are gone because Andrews will testify that while he did shoot in the direction of the cat, he did not intend to kill or hurt it but only to scare it off by shooting near it, especially because his statement said that he "shot from the hip", meaning that he did not aim directly at the cat by using the scope or sights on the pellet gun.

That being said, I think you would have the 5533 misdemeanor with reckless because he fired a pellet gun in a reckless manner.

If I was a defense attorney, that's how I would argue this.

Thoughts?

 Subject: HSPO response areas  
 Attachments: HSPO RESPONSE AREAS.docx; HSPO response map.docx; Humane Society Police Officer Response Area Plan.docx

Hi,

I attached my proposal and area coverage for HSPO response for both organizations. On the map, the thick black line following the Mon and Ohio Rivers and the City of Pgh border is the boundary line. AF would cover the areas above and to the left of the thick black line and I would cover areas to the right and below the thick black line.

I also attached the list of boros/townships/municipalities/cities that each would cover for easier reference.

Last week, former Wyoming County District Attorney George Skumanick passed away. His obituary is below. So many of those that knew and worked with George have incredibly fond memories. We send our deepest condolences to his family and friends.

You can find the full obituary here.

New Questions Expert - Urologist in Sexual Assault Trial

I have a sexual assault trial coming up involving two minor victims. The defendant is the victims' grandfather. The charges related to one of the victims include rape. Defense has hired a urologist, Matthew E. Karlovsky, MD out of Phoenix, AZ. Dr. Karlovsky's disjointed report goes through the facts of the case, summarizes the defendant's medical records, which include his treatment for ED, and comes to the conclusion that there is no proof of any repeated sexual penetration of the victim. Has anyone had any prior dealings with this expert? If so, any insight you can offer on how he presents to the jury, transcripts, etc. would be appreciated.

The Honorable Andrew J. Bender  
Perry County District Attorney

Please respond directly to DA Bender at [abender@perryco.org](mailto:abender@perryco.org) and please copy PDAA's Legal Resource Prosecutor at [mspang@pdaa.org](mailto:mspang@pdaa.org).

Answers to Previous Questions Death Penalty Voir Dire

I have a death penalty case that appears to be going to trial in October. I am looking for voir dire questions that other offices have used during jury selection in a death penalty cases. The aggravating circumstances are that the Defendant committed a killing while in the perpetration of a felony (2 victims); the Defendant had been convicted of another murder committed in any jurisdiction and committed either before or at the time of the offense at issue (2 victims); and that the victim was a child under 12 years of age (1 victim).

Thank you in advance.

The Honorable Francis J. Schultz  
Crawford County District Attorney

Adams County

Here is a questionnaire we prepared in a death penalty case in York County, and they lent me for a death penalty case we were preparing in Adams County.

Kelley Margetas  
Assistant District Attorney  
Adams County  
Bucks County

You can find propose death penalty voir dire I have used here.

The Honorable Matthew D. Weintraub  
Bucks County District Attorney

Lancaster County

I am responding to your inquiry regarding death penalty voir dire questions. Some general voir dire notes from one of my death penalty cases can be found here.

In one of my later cases I added a very important question regarding the burden of proof. The jurors need to be asked if they would hold the Commonwealth to a higher burden of proof in the guilt phase because of potential imposition of a death sentence in the penalty phase. I have had several intelligent and promising jurors answer yes to this question.

Mark D. Fetterman  
Major Crimes Unit / Chief - General Trial Unit  
Lancaster County

You can find some proposed death penalty voir dire here.

Ande Gonzalez  
Chief of Appeals & Legal Services  
Lancaster County  
Pike County

You can find the questions that I used in the Frein case and other capital cases here.

The Honorable Raymond J. Tonkin  
Pike County District Attorney  
Expert - Abusive Head Trauma

Philip McCarthy and I have an abusive head trauma case of a four-month-old girl that may go to trial and the defense has hired pediatric neurologist Dr. Joseph Scheller out of Baltimore. Our preliminary research shows that Scheller is an abusive head trauma denier. We wanted to know if anyone has any experience with him and has any transcripts, expert reports, etc. Any help would be greatly appreciated!

Thank you in advance.

Patrick J. Schulte  
Senior Deputy Attorney General  
Office of Attorney General

Adams County

My case is still pending so I do not have any transcripts from my case but I do have an expert report and a transcript someone sent me. I also have an opinion where he was precluded from testifying. You can find the documents here.

Kelley Margetas  
Assistant District Attorney  
Adams County

Wayne County

I very recently dealt with Dr. Scheller in Wayne County including a Frye hearing in Feb. 2021. The Court did not exclude him but I have ample information for cross examination.

There were 2 other doctors involved in our case, Dr. Marvin Miller and Dr. David Ayoub. The Court did exclude their testimony regarding fictional bone diseases. Just in case their names come up.

You can find the documents here: [Set 1](#), [Set 2](#), and [Set 3](#).

The Honorable A.G. Howell  
Wayne County District Attorney

Top 10 Ways to Screw Up a Case

<https://www.justiceclearinghouse.com/webinar/top-10-ways-to-screw-up-a-case/>

Hi Lisa

I thought you might be interested in this webinar on Tue Aug 3, 2021 at 1:00 PM EDT.

Have you had too much success with animal cruelty case investigation and prosecution, and just really want to mess one up? Are you tired of keeping track of your evidence, interviewing the right witnesses in the right manner, and keeping up with important case law developments? Would you just love to gain a reputation with your local prosecutor for incompetence? Oregon Animal Cruelty Deputy District Attorney Jake Kamins will tell you the ten best ways to accomplish these dubious goals. However, for anybody interested in doing a good job with their investigation and

prosecution, Kamins will also show how these all too common mistakes can be avoided! From investigation to live evidence handling and all the way through to trial, you will learn from a prosecutor with years of experience working exclusively with animal cruelty cases what is needed to build a bulletproof animal cruelty case.

Take care,

Aaron

Copy. I added those details in the narrative before the execution of the search warrant. I changed the wording around as such:

Tomlin spoke to Ofc. Fry on the sidewalk. Tomlin explained to her that he uses the "anaerobic compost" method which means that instead of removing the waste from the dog kennels, he just adds another layer of cedar chips. This creates bacteria from the composting, which is what the dogs were living in and confined to.

Humane Officer Fry and animal control officers obtained a temperature reading of the inside of the residence through a large hole in the back door with a thermal temperature gun. It was approximately 34 degrees inside of the residence with no utilities. This would prevent the dogs inside from maintaining their own body temperature.

Hello,

I finally had time to sit down and draft a complaint for the case, Attached is a copy of the complaint. If either of you have any recommended changes let me know. I will be working until 3pm today and can get the warrant signed today. If not today I will be back in Saturday and can fix any changes and get it signed then.

I did add a new charge, Title 75 1543A driving while suspended. Barr drove to 1323 Grotto in black Ford truck and was seen driving by Ofc. Kovach. Barr's license comes back suspended for unspecified reasons through PENNDOT records.

Thanks,

Copy thanks for the clarification.

DA Borrelli approves and wants Ofc. Claflin and I to proceed with the charges listed above?

We can draft a copy of the criminal complaint and send it to both of you for any recommended changes. We can get the process started this weekend and hopefully have something to send out on Monday if these are the listed charges.

Subject: RE: Vet report for Grotto dogs

Good morning,

Grotto 3 is a misdemeanor and summary (stacked) for 5532 a(3) because the dog was babesia positive which if the dog is symptomatic (which in this case the dog was because it was anemic) and the babesia is not treated and monitored, the dog is at imminent risk of SBI because there is high risk of anemia with babesia also the dog had bodily injury (puncture wounds) that required treatment with pain medication (Carprofen) and antibiotics (Clindamycin).

Grotto 6 is a misdemeanor and summary (stacked) for 5532 a(3) because the dog had pressure sores which are painful and were treated with pain medication (Carprofen) and the dog also had an ear infection which was treated with Clindamycin.

Grotto 7 is a misdemeanor and summary (stacked) for 5532 a(3) because the dog was babesia positive and had an ear infection both of which required treatment with pain medication and antibiotics.

If you don't already, I would suggest using the wording from the "summary of findings and conclusions" from the vet report in your criminal complaint as it helps to justify the level that was charged.

 Subject: RE: Vet report for Grotto dogs

Good morning everyone,

At the request of ADA Borrelli, I looked over my initial charging recommendations with the veterinary report and listed below is what I believe should be charged. I spoke with Dr. Ledesma who stated that the ear infections were very minor and therefore he cannot substantiate pain associated with these so we don't have the misdemeanor (which is defined as substantial pain).

Grotto 1:

5532 a(1) – S  
 5532 a(2) – S  
 5532 a(3) – S

Grotto 2:

5532 a(1) – S  
 5532 a(2) – S (dog had mild interdigital dermatitis most likely from living conditions)  
 5532 a (3) – S (mild interdigital dermatitis)

Grotto 3:

5532 a(1) – S  
 5532 a(2) – S  
 5532 a(3) – M/S (babesia +)

Grotto 4:

5532 a(1) – S  
 5532 a(2) – S  
 5532 a(3) – S

Grotto 5:

5534 a(1) – F (dog was BCS 2/9 on intake; has gained 14 lbs since)  
 5532 a(1) – M/S (stacked with 5534)

5532 a(2) – S  
5532 a(3) – S (puncture wound on ear)

Grotto 6:

5532 a(1) – S  
5532 a(2) – S  
5532 a(3) – M/S (pressure sores / ear infection)

Grotto 7:

5532 a(1) – S  
5532 a(2) – S  
5532 a(3) – M/S (babesia+ / ear infection)

Copy. I added those details in the narrative before the execution of the search warrant. I changed the wording around as such:

Tomlin spoke to Ofc. Fry on the sidewalk. Tomlin explained to her that he uses the "anaerobic compost" method which means that instead of removing the waste from the dog kennels, he just adds another layer of cedar chips. This creates bacteria from the composting, which is what the dogs were living in and confined to.

Humane Officer Fry and animal control officers obtained a temperature reading of the inside of the residence through a large hole in the back door with a thermal temperature gun. It was approximately 34 degrees inside of the residence with no utilities. This would prevent the dogs inside from maintaining their own body temperature.

Copy thanks for the clarification.

DA Borrelli approves and wants Ofc. Claflin and I to proceed with the charges listed above?

We can draft a copy of the criminal complaint and send it to both of you for any recommended changes. We can get the process started this weekend and hopefully have something to send out on Monday if these are the listed charges.

Subject: RE: Vet report for Grotto dogs

Good morning,

Grotto 3 is a misdemeanor and summary (stacked) for 5532 a(3) because the dog was babesia positive which if the dog is symptomatic (which in this case the dog was because it was anemic) and the babesia is not treated and monitored, the dog is at imminent risk of SBI because there is high risk of anemia with babesia also the dog had bodily injury (puncture wounds) that required treatment with pain medication (Carprofen) and antibiotics (Clindamycin).

Grotto 6 is a misdemeanor and summary (stacked) for 5532 a(3) because the dog had pressure sores which are painful and were treated with pain medication (Carprofen) and the dog also had an ear infection which was treated with Clindamycin.

Grotto 7 is a misdemeanor and summary (stacked) for 5532 a(3) because the dog was babesia positive and had an ear infection both of which required treatment with pain medication and antibiotics.

If you don't already, I would suggest using the wording from the "summary of findings and conclusions" from the vet report in your criminal complaint as it helps to justify the level that was charged.

Subject: RE: Vet report for Grotto dogs

Good morning everyone,

At the request of ADA Borrelli, I looked over my initial charging recommendations with the veterinary report and listed below is what I believe should be charged. I spoke with Dr. Ledesma who stated that the ear infections were very minor and therefore he cannot substantiate pain associated with these so we don't have the misdemeanor (which is defined as substantial pain).

Grotto 1:

5532 a(1) – S  
5532 a(2) – S  
5532 a(3) – S

Grotto 2:

5532 a(1) – S  
5532 a(2) – S (dog had mild interdigital dermatitis most likely from living conditions)  
5532 a (3) – S (mild interdigital dermatitis)

Grotto 3:

5532 a(1) – S  
5532 a(2) – S  
5532 a(3) – M/S (babesia +)

Grotto 4:

5532 a(1) – S  
5532 a(2) – S  
5532 a(3) – S

Grotto 5:

5534 a(1) – F (dog was BCS 2/9 on intake; has gained 14 lbs since)  
5532 a(1) – M/S (stacked with 5534)  
5532 a(2) – S  
5532 a(3) – S (puncture wound on ear)

Grotto 6:

5532 a(1) – S  
5532 a(2) – S  
5532 a(3) – M/S (pressure sores / ear infection)

Grotto 7:

5532 a(1) – S  
5532 a(2) – S  
5532 a(3) – M/S (babesia+ / ear infection)

Regarding the photo of the damaged cage, I believe that Officer Fry told me that Dr. Kalinskas told her that there is no way that Cash caused the damage.

Also, when I had a conversation with now Retired Officer John Lapp, I asked him if the dog caused damage to the truck. His response to me was that it's hard to tell because all of the cages are damaged.

When Lt. Stoops and I interviewed Mr. Genco, he said that the dogs were in imminent danger. At one point he said they were listless and then described Cash as being very active. He contradicts himself.

My thoughts are if the dogs were in imminent danger, why did they search for the owner for a long period of time before deciding to remove them and call police.

Subject: Re: Genco-- Pittsburgh Animal Care And Control Employee Facing Charges For Allegedly Severely Injuring Dog – CBS Pittsburgh

For me- I'm struggling to understand how they felt they had grounds to remove the dogs, if they truly did due diligence to find the owner (they didn't) and then almost strangled Cash to death. They had no business taking those dogs to begin with!

When a control pole is used properly- the animal can't strangle itself. Used improperly and the handler will strangle the dog! I will testify that Cash was strangled by the handler due to opposing forces- one force pulling one way and another pulling the opposite. Ie: he's lifted off his feet puts pressure on his trachea and crushes it along with gravity pulling him back down.

Casey is creating so much noise to distract from the real issue-

Let me know if you want a lesson in control stick usage so you can see/feel for yourself. I'm happy to teach you the way I teach staff.

I think this article may be old. White and Genco can say all they want that the dog caused his own injuries but HOW did the dog almost strangle itself to death? I sent the damaged dog cage from the original Trib article also.

Here are your questions.

Angie, I may call you to talk about the cages if necessary or to corroborate anything that Meagan says about the control pole.  
Do you need me to draft questions for you?

Hello,

Officer Fry does not believe that the photos she took of the ACC trucks are helpful to our case.

I did write a supplemental report and will bring it to court today.

Officer Fry and I went to ACC on Friday, June 25, 2021, at about 9:45 am.

David Madden informed us that there are 6 trucks that are used for living animals. He stated that the trucks are unlocked for us to open and take photos.

Officer Fry took 7 photos of each truck in this sequence: side shot of the truck, the truck number, kennel closed, inside of the door, exterior of the cage door, interior of the cage door, and interior of cage.

Subject: Re: JAMES GENCO - PRELIMINARY HEARING - WEDNESDAY, JULY 21, 2021 - 2 PM

Replies on the policy end of things:

I think we already determined that no one was wearing a body cam, correct? Is that a policy violation for officers not to have their cameras? They have to be on when interacting with the public. There really was no one else on the call but ACC.

I thought I saw or heard that a gun was pulled. Did an officer pull his weapon at the dog? Is there policy on reporting when a weapon is pulled? Only a policy as pertains to humans.

Why was there a citation filed against the owner? The temperature was 50 degrees and there were no medical records, temperature readings above 50 degrees, or any recordings that showed the dog was in heat distress. These charges are not justified as far as I can tell. What evidence exists of heat distress that would have led to the charges? - Yes, a citation was filed. I am aware of the citation I want to know why it was filed, if you know?

Why was there a delay in filing the charges and is it a delay in the system or maybe a coincidence that the charges were filed after Genco was put on leave? - I am unaware of a delay in filing. An investigation was done, then charges filed that I know sat for quite some time prior to approval. PO Luffey may have a better reply for this one. Who had to approve the summary charges the police officer filed against the owner of the dog? The delay I am talking about is the approximately 3 weeks of delay for one non-traffic citation against the owner of the dog.

Good morning Meagan,

Please see ADA Borrelli's e-mail below.

Can you PLEASE both videos on a drive and write a narrative of what you see?

Please let me know.

Any help you can provide is appreciated.

Subject: Re: Vet report for Grotto dogs

Copy. I added those details in the narrative before the execution of the search warrant. I changed the wording around as such:

Tomlin spoke to Ofc. Fry on the sidewalk. Tomlin explained to her that he uses the "anaerobic compost" method which means that instead of removing the waste from the dog kennels, he just adds another layer of cedar chips. This creates bacteria from the composting, which is what the dogs were living in and confined to.

Humane Officer Fry and animal control officers obtained a temperature reading of the inside of the residence through a large hole in the back door with a thermal temperature gun. It was approximately 34 degrees inside of the residence with no utilities. This would prevent the dogs inside from maintaining their own body temperature.

Hello,

I finally had time to sit down and draft a complaint for the case, Attached is a copy of the complaint. If either of you have any recommended changes let me know. I will be working until 3pm today and can get the warrant signed today. If not today I will be back in Saturday and can fix any changes and get it signed then.

I did add a new charge, Title 75 1543A driving while suspended. Barr drove to 1323 Grotto in black Ford truck and was seen driving by Ofc. Kovach. Barr's license comes back suspended for unspecified reasons through PENNDOT records.

Thanks,

Cc: Borrelli, Lisa <lborrelli@alleghenycountyda.us>; Claflin, Craig <craig.claflin@pittsburghpa.gov>;  
Subject: RE: Vet report for Grotto dogs

Good morning,

Grotto 3 is a misdemeanor and summary (stacked) for 5532 a(3) because the dog was babesia positive which if the dog is symptomatic (which in this case the dog was because it was anemic) and the babesia is not treated and monitored, the dog is at imminent risk of SBI because there is high risk of anemia with babesia also the dog had bodily injury (puncture wounds) that required treatment with pain medication (Carprofen) and antibiotics (Clindamycin).

Grotto 6 is a misdemeanor and summary (stacked) for 5532 a(3) because the dog had pressure sores which are painful and were treated with pain medication (Carprofen) and the dog also had an ear infection which was treated with Clindamycin.

Grotto 7 is a misdemeanor and summary (stacked) for 5532 a(3) because the dog was babesia positive and had an ear infection both of which required treatment with pain medication and antibiotics.

If you don't already, I would suggest using the wording from the "summary of findings and conclusions" from the vet report in your criminal complaint as it helps to justify the level that was charged.

Subject: RE: Vet report for Grotto dogs

Good morning everyone,

At the request of ADA Borrelli, I looked over my initial charging recommendations with the veterinary report and listed below is what I believe should be charged. I spoke with Dr. Ledesma who stated that the ear infections were very minor and therefore he cannot substantiate pain associated with these so we don't have the misdemeanor (which is defined as substantial pain).

Grotto 1:

5532 a(1) – S  
5532 a(2) – S  
5532 a(3) – S

Grotto 2:

5532 a(1) – S  
5532 a(2) – S (dog had mild interdigital dermatitis most likely from living conditions)  
5532 a (3) – S (mild interdigital dermatitis)

Grotto 3:

5532 a(1) – S  
5532 a(2) – S  
5532 a(3) – M/S (babesia +)

Grotto 4:

5532 a(1) – S  
5532 a(2) – S  
5532 a(3) – S

Grotto 5:

5534 a(1) – F (dog was BCS 2/9 on intake; has gained 14 lbs since)  
5532 a(1) – M/S (stacked with 5534)  
5532 a(2) – S  
5532 a(3) – S (puncture wound on ear)

Grotto 6:

5532 a(1) – S  
5532 a(2) – S  
5532 a(3) – M/S (pressure sores / ear infection)

Grotto 7:

5532 a(1) – S  
5532 a(2) – S  
5532 a(3) – M/S (babesia+ / ear infection)

Copy. I added those details in the narrative before the execution of the search warrant. I changed the wording around as such:

Tomlin spoke to Ofc. Fry on the sidewalk. Tomlin explained to her that he uses the “anaerobic compost” method which means that instead of removing the waste from the dog kennels, he just adds another layer of cedar chips. This creates bacteria from the composting, which is what the dogs were living in and confined to.

Humane Officer Fry and animal control officers obtained a temperature reading of the inside of the residence through a large hole in the back door with a thermal temperature gun. It was approximately 34 degrees inside of the residence with no utilities. This would prevent the dogs inside from maintaining their own body temperature.

Hello,

I finally had time to sit down and draft a complaint for the case, Attached is a copy of the complaint. If either of you have any recommended changes let me know. I will be working until 3pm today and can get the warrant signed today. If not today I will be back in Saturday and can fix any changes and get it signed then.

I did add a new charge, Title 75 1543A driving while suspended. Barr drove to 1323 Grotto in black Ford truck and was seen driving by Ofc. Kovach. Barr's license comes back suspended for unspecified reasons through PENNDOT records.

Thanks,

Subject: RE: Vet report for Grotto dogs

Good morning,

Grotto 3 is a misdemeanor and summary (stacked) for 5532 a(3) because the dog was babesia positive which if the dog is symptomatic (which in this case the dog was because it was anemic) and the babesia is not treated and monitored, the dog is at imminent risk of SBI because there is high risk of anemia with babesia also the dog had bodily injury (puncture wounds) that required treatment with pain medication (Carprofen) and antibiotics (Clindamycin).

Grotto 6 is a misdemeanor and summary (stacked) for 5532 a(3) because the dog had pressure sores which are painful and were treated with pain medication (Carprofen) and the dog also had an ear infection which was treated with Clindamycin.

Grotto 7 is a misdemeanor and summary (stacked) for 5532 a(3) because the dog was babesia positive and had an ear infection both of which required treatment with pain medication and antibiotics.

If you don't already, I would suggest using the wording from the "summary of findings and conclusions" from the vet report in your criminal complaint as it helps to justify the level that was charged.

Good morning everyone,

At the request of ADA Borrelli, I looked over my initial charging recommendations with the veterinary report and listed below is what I believe should be charged. I spoke with Dr. Ledesma who stated that the ear infections were very minor and therefore he cannot substantiate pain associated with these so we don't have the misdemeanor (which is defined as substantial pain).

Grotto 1:

5532 a(1) – S  
 5532 a(2) – S  
 5532 a(3) – S

Grotto 2:

5532 a(1) – S  
 5532 a(2) – S (dog had mild interdigital dermatitis most likely from living conditions)  
 5532 a (3) – S (mild interdigital dermatitis)

Grotto 3:

5532 a(1) – S  
 5532 a(2) – S  
 5532 a(3) – M/S (babesia +)

## Grotto 4:

5532 a(1) – S  
5532 a(2) – S  
5532 a(3) – S

## Grotto 5:

5534 a(1) – F (dog was BCS 2/9 on intake; has gained 14 lbs since)  
5532 a(1) – M/S (stacked with 5534)  
5532 a(2) – S  
5532 a(3) – S (puncture wound on ear)

## Grotto 6:

5532 a(1) – S  
5532 a(2) – S  
5532 a(3) – M/S (pressure sores / ear infection)

## Grotto 7:

5532 a(1) – S  
5532 a(2) – S  
5532 a(3) – M/S (babesia+ / ear infection)

Copy. I added those details in the narrative before the execution of the search warrant. I changed the wording around as such:

Tomlin spoke to Ofc. Fry on the sidewalk. Tomlin explained to her that he uses the "anaerobic compost" method which means that instead of removing the waste from the dog kennels, he just adds another layer of cedar chips. This creates bacteria from the composting, which is what the dogs were living in and confined to.

Humane Officer Fry and animal control officers obtained a temperature reading of the inside of the residence through a large hole in the back door with a thermal temperature gun. It was approximately 34 degrees inside of the residence with no utilities. This would prevent the dogs inside from maintaining their own body temperature.

Hello,

I finally had time to sit down and draft a complaint for the case, Attached is a copy of the complaint. If either of you have any recommended changes let me know. I will be working until 3pm today and can get the warrant signed today. If not today I will be back in Saturday and can fix any changes and get it signed then.

I did add a new charge, Title 75 1543A driving while suspended. Barr drove to 1323 Grotto in black Ford truck and was seen driving by Ofc. Kovach. Barr's license comes back suspended for unspecified reasons through PENNDOT records.

Thanks,

Michael Klein #4699

Copy thanks for the clarification.

DA Borrelli approves and wants Ofc. Claflin and I to proceed with the charges listed above?

We can draft a copy of the criminal complaint and send it to both of you for any recommended changes. We can get the process started this weekend and hopefully have something to send out on Monday if these are the listed charges.

Subject: RE: Vet report for Grotto dogs

Good morning,

Grotto 3 is a misdemeanor and summary (stacked) for 5532 a(3) because the dog was babesia positive which if the dog is symptomatic (which in this case the dog was because it was anemic) and the babesia is not treated and monitored, the dog is at imminent risk of SBI because there is high risk of anemia with babesia also the dog had bodily injury (puncture wounds) that required treatment with pain medication (Carprofen) and antibiotics (Clindamycin).

Grotto 6 is a misdemeanor and summary (stacked) for 5532 a(3) because the dog had pressure sores which are painful and were treated with pain medication (Carprofen) and the dog also had an ear infection which was treated with Clindamycin.

Grotto 7 is a misdemeanor and summary (stacked) for 5532 a(3) because the dog was babesia positive and had an ear infection both of which required treatment with pain medication and antibiotics.

If you don't already, I would suggest using the wording from the "summary of findings and conclusions" from the vet report in your criminal complaint as it helps to justify the level that was charged.

Good morning everyone,

At the request of ADA Borrelli, I looked over my initial charging recommendations with the veterinary report and listed below is what I believe should be charged. I spoke with Dr. Ledesma who stated that the ear infections were very minor and therefore he cannot substantiate pain associated with these so we don't have the misdemeanor (which is defined as substantial pain).

Grotto 1:

5532 a(1) – S  
 5532 a(2) – S  
 5532 a(3) – S

Grotto 2:

5532 a(1) – S  
 5532 a(2) – S (dog had mild interdigital dermatitis most likely from living conditions)  
 5532 a (3) – S (mild interdigital dermatitis)

## Grotto 3:

5532 a(1) – S  
5532 a(2) – S  
5532 a(3) – M/S (babesia +)

## Grotto 4:

5532 a(1) – S  
5532 a(2) – S  
5532 a(3) – S

## Grotto 5:

5534 a(1) – F (dog was BCS 2/9 on intake; has gained 14 lbs since)  
5532 a(1) – M/S (stacked with 5534)  
5532 a(2) – S  
5532 a(3) – S (puncture wound on ear)

## Grotto 6:

5532 a(1) – S  
5532 a(2) – S  
5532 a(3) – M/S (pressure sores / ear infection)

## Grotto 7:

5532 a(1) – S  
5532 a(2) – S  
5532 a(3) – M/S (babesia+ / ear infection)

Subject: Re: THE DOG STOP - FACTS SHEET

Good morning,

I dropped off the case file involving The Dog Stop for your review at West Liberty Animal Hospital about 15 minutes ago.

I talked with Officer Fry this morning about this case. She suggested that after you review it, please let me know what we are missing or need to make the case. Officer Fry stated that you may want me to re-interview Brian Slavicek and Charlene Merten-Hyatt. She also suggested that we obtain the files at The Dog Stop for "Clover" and "Java";.

I appreciate your help.

Thanks!

Subject: THE DOG STOP - FACTS SHEET

Hello,

I am not going to be able to drop off the case file today. I will bring it tomorrow morning. I will keep the disk of "Java" being killed in my file. I went through all the reports. Listed below are the facts involving this case for your review. I hope this is helpful. Please let me know if there is anything else I need to do. Thanks!

#### THE DOG STOP – FACTS

1. Ms. Hynes purchased "Java" for the price of \$2,350.
2. A dog named "Java" belonging to Luella Hynes was dropped off at The Dog Stop on 9-18-2020 at about 5:30 pm for TRAINING AND GROOMING.
3. Ms. Hynes was scheduled to pick up "Java" on 9-21-20.
4. On 9-21-20, Ms. Hynes received a call from Jane Marcus informing her that "Java" is dead. Jane Marcus said to Ms. Hynes, "We took the dogs to the day care room. Your dog passed away".
5. Jane Marcus took "Java" to Point Breeze Veterinary Clinic where Ms. Hynes met her.
6. Jane Marcus told Ms. Hynes, she doesn't know the cause of "Java's" death.
7. Dr. Stephanie Berger performed a necropsy. "Java" died because of being attacked by a larger dog. His skull was crushed, and he had over 20 bite wounds.
8. Dr. Berger informed Ms. Hynes of the necropsy results.
9. Dr. Berger informed Jane Marcus of the necropsy results.
10. Jane Marcus told Dr. Berger that she watched the video of "Java" being attacked.
11. Jane Marcus told Ms. Hynes that there was no video footage to view.

12. Corey Criss from the Dog Stop told Ms. Hynes that an employee broke protocol and left "Java" unsupervised in a room with the large dog that killed him.
13. Ms. Hynes said that she did not want "Java" going to the day care room. She did not want this service because "Java" is not neutered.
14. Dr. Berger informed me that Jane Marcus brought "Java" to Point Breeze Veterinary Hospital on 9-21-20 at 9:30 am and confirmed the cause of death.
15. Dr. Gerson believes that "Java" was not brought to the hospital immediately because its body was cold.
16. Dr. Berger called Jesse Coslov, one of the owners of the Dog Stop informing him that Ms. Hynes is not getting the truth of what happened to her dog. Mr. Coslov told Dr. Berger that there are no videos of the incident.
17. Jane Marcus (manager) and Chris Kane (owner of The Dog Stop) refused to be interviewed.
18. On 11-16-20, a search warrant was executed at The Dog Stop to obtain video footage of "Java" being killed.
19. Telephone conversation with Brian Slavicek (former General Manager). He said that he walked the dog "Clover" back and handed its leash to Charlene Merten-Hyatt (Day Care Manager). Mr. Slavicek said that Ms. Merten-Hyatt put "Clover" in a room that is for small dogs and was cleaning in another room.
20. Charlene Merten-Hyatt found "Java" dead on the floor.
21. Only 3 people working on the morning of 9-21-20 – Brian Slavicek, Charlene Merten-Hyatt, and Mallory McSheehy.
22. TELEPHONE CALL BRIAN SLAVICEK. Mr. Slavicek said there is a policy that dogs over 26 pounds should NOT be in a room with small dogs unless they are elderly or lazy. Mr. Slavicek told me that the dog that attacked and killed "Java" was about 45 pounds and should not have been in the room with the small dogs.
23. I viewed the video from The Dog Stop on 9-21-20. The video is 2 hours, 21 minutes, 38 seconds. Mallory McSheehy is viewed setting up the room. I view Charlene Merten-Hyatt in the room. I see "Java" enter the room. About 30 minutes later, I view "Clover" in the room. "Clover" fixates on "Java". I watch "Clover" kill "Java" "Java" is lying dead on the floor. "Clover" then begins chasing and later humping a Golden Retriever dog. The dogs in this room are unsupervised.
24. Charlene Merten-Hyatt enters the room, sees "Java" lying on the floor. She picks him up and carries him out of the room.
25. INTERVIEW CHARLENE MERTEN-HYATT. She is suspended from working at The Dog Stop. Ms. Merten-Hyatt says that she put "Java" into the small dog room and went about her daily chores. She says that Mr. Slavicek brought "Clover" to her and told her he doesn't know where he is supposed to go. Ms. Merten-Hyatt stated that she told Mr. Slavicek that he needed to check the file. She said that Mr. Slavicek put "Clover" into the room with "Java". She said that "Clover" was only at The Dog Stop once before. Ms. Merten-Hyatt said that she found "Java" dead on the floor.
26. INTERVIEW MALLORY MCSHEEHY. She said that she heard Ms. Merten-Hyatt screaming when she discovered "Java" dead. Ms. McSheehy told me that someone called Jane Marcus and that "Clover" was removed from the room shortly after killing "Java". She told me that Ms. Merten-Hyatt was very upset and said, "I MESSED UP". Ms. McSheehy said that she asked her "why" and that Ms. Merten-Hyatt told her she didn't know where to put "Clover". She told me that Mr. Slavicek normally doesn't put dogs into rooms. Ms. McSheehy stated that she believes that Ms. Merten-Hyatt put "Clover" in the room with "Java".
27. PETER DEWIL – OWNER OF "CLOVER" – Mr. Dewil told me that he owns the dog that killed "Java". He took "Clover" to The Dog Stop for the first time on 9-18-20 and that there were no issues. Mr. Dewil said that he told a man (Mr. Slavicek) that he took "Clover" to the dog park recently and that "Clover" was dominating a young, smaller dog and had to take him home.
28. INTERVIEW BRIAN SLAVICEK. He said that "Java" was brought to The Dog Stop for BOARDING. Mr. Slavicek said that he checked "Clover" in at The Dog Stop on both dates (9-18-20 and 9-21-20). He said that the dog's owner may have told him about the recent issue of "Clover" dominating a puppy at a dog park. Mr. Slavicek said that he told the owner that "Clover" would be temperament tested and put into the big dog room. On 9-21-20, Mr. Slavicek stated that he checked "Clover" in, walked the dog back, and handed him to Charlene Merten-Hyatt. He said he heard Ms. Merten-Hyatt screaming and crying after finding "Java" dead. Mr. Slavicek said that he called Jane Marcus and that at some point Ms. Marcus called him back and told him to get "Clover" out of the room. He said that he remembers handing Ms. Merten-Hyatt Clover's leash and going back to work at the front of the store. According to Mr. Slavicek, Ms. Merten-Hyatt was taking responsibility and taking the incident hard. I asked Mr. Slavicek who he believes put "Clover" into the small dog room. He said that he did not because he didn't know the dog well enough and that Ms. Merten-Hyatt put "Clover" into the small dog room

29. Ms. Hynes was NOT reimbursed for the cost of her dog.  
30. Ms. Hynes and her family want justice for the death of "Java".

IF BRIAN SLAVICEK AND CHARLENE MERTEN-HYATT'S BEHAVIOR IS NOT RECKLESS, I DON'T KNOW WHAT IS.

Subject: Re: JAMES GENCO - PRELIMINARY HEARING - WEDNESDAY, JULY 21, 2021 - 2 PM

Replies on the policy end of things:

I think we already determined that no one was wearing a body cam, correct? Is that a policy violation for officers not to have their cameras? They have to be on when interacting with the public. There really was no one else on the call but ACC.

I thought I saw or heard that a gun was pulled. Did an officer pull his weapon at the dog? Is there policy on reporting when a weapon is pulled? Only a policy as pertains to humans.

Why was there a citation filed against the owner? The temperature was 50 degrees and there were no medical records, temperature readings above 50 degrees, or any recordings that showed the dog was in heat distress. These charges are not justified as far as I can tell. What evidence exists of heat distress that would have led to the charges? - Yes, a citation was filed.

Why was there a delay in filing the charges and is it a delay in the system or maybe a coincidence that the charges were filed after Genco was put on leave? - I am unaware of a delay in filing. An investigation was done, then charges filed that I know sat for quite some time prior to approval. PO Luffey may have a better reply for this one.

Subject: Re: JAMES GENCO - PRELIMINARY HEARING - WEDNESDAY, JULY 21, 2021 - 2 PM

I am reviewing Genco and have a few questions.

I think we already determined that no one was wearing a body cam, correct? Is that a policy violation for officers not to have their cameras?

I thought I saw or heard that a gun was pulled. Did an officer pull his weapon at the dog? Is there policy on reporting when a weapon is pulled?

Why was there a citation filed against the owner? The temperature was 50 degrees and there were no medical records, temperature readings above 50 degrees, or any recordings that showed the dog was in heat distress. These charges are not justified as far as I can tell. What evidence exists of heat distress that would have led to the charges?

Why was there a delay in filing the charges and is it a delay in the system or maybe a coincidence that the charges were filed after Genco was put on leave?

Thanks,  
Lisa

Good morning Meagan,

Please see ADA Borrelli's e-mail below.

Can you PLEASE both videos on a drive and write a narrative of what you see?

Please let me know.

Any help you can provide is appreciated.

I will need both videos put on a drive and if there is a narration of the them, I would like those notes so I can make sure we hit all the relevant parts.

I will be working on questions tomorrow.

Thanks,  
Lisa

 Subject: THE DOG STOP - FACTS SHEET

Hello,

I am not going to be able to drop off the case file today. I will bring it tomorrow morning. I will keep the disk of "Java" being killed in my file. I went through all the reports. Listed below are the facts involving this case for your review. I hope this is helpful. Please let me know if there is anything else I need to do. Thanks!

#### THE DOG STOP – FACTS

1. Ms. Hynes purchased "Java" for the price of \$2,350.
2. A dog named "Java" belonging to Luella Hynes was dropped off at The Dog Stop on 9-18-2020 at about 5:30 pm for TRAINING AND GROOMING.
3. Ms. Hynes was scheduled to pick up "Java" on 9-21-20.
4. On 9-21-20, Ms. Hynes received a call from Jane Marcus informing her that "Java" is dead. Jane Marcus said to Ms. Hynes, "We took the dogs to the day care room. Your dog passed away".
5. Jane Marcus took "Java" to Point Breeze Veterinary Clinic where Ms. Hynes met her.
6. Jane Marcus told Ms. Hynes, she doesn't know the cause of "Java's" death.
7. Dr. Stephanie Berger performed a necropsy. "Java" died because of being attacked by a larger dog. His skull was crushed, and he had over 20 bite wounds.
8. Dr. Berger informed Ms. Hynes of the necropsy results.
9. Dr. Berger informed Jane Marcus of the necropsy results.
10. Jane Marcus told Dr. Berger that she watched the video of "Java" being attacked.
11. Jane Marcus told Ms. Hynes that there was no video footage to view.
12. Corey Criss from the Dog Stop told Ms. Hynes that an employee broke protocol and left "Java" unsupervised in a room with the large dog that killed him.
13. Ms. Hynes said that she did not want "Java" going to the day care room. She did not want this service because "Java" is not neutered.
14. Dr. Berger informed me that Jane Marcus brought "Java" to Point Breeze Veterinary Hospital on 9-21-20 at 9:30 am and confirmed the cause of death.
15. Dr. Gerson believes that "Java" was not brought to the hospital immediately because its body was cold.
16. Dr. Berger called Jesse Coslov, one of the owners of the Dog Stop informing him that Ms. Hynes is not getting the truth of what happened to her dog. Mr. Coslov told Dr. Berger that there are no videos of the incident.
17. Jane Marcus (manager) and Chris Kane (owner of The Dog Stop) refused to be interviewed.
18. On 11-16-20, a search warrant was executed at The Dog Stop to obtain video footage of "Java" being killed.

19. Telephone conversation with Brian Slavicek (former General Manager). He said that he walked the dog "Clover" back and handed its leash to Charlene Merten-Hyatt (Day Care Manager). Mr. Slavicek said that Ms. Merten-Hyatt put "Clover" in a room that is for small dogs and was cleaning in another room.
20. Charlene Merten-Hyatt found "Java" dead on the floor.
21. Only 3 people working on the morning of 9-21-20 – Brian Slavicek, Charlene Merten-Hyatt, and Mallory McSheehy.
22. TELEPHONE CALL BRIAN SLAVICEK. Mr. Slavicek said there is a policy that dogs over 26 pounds should NOT be in a room with small dogs unless they are elderly or lazy. Mr. Slavicek told me that the dog that attacked and killed "Java" was about 45 pounds and should not have been in the room with the small dogs.
23. I viewed the video from The Dog Stop on 9-21-20. The video is 2 hours, 21 minutes, 38 seconds. Mallory McSheehy is viewed setting up the room. I view Charlene Merten-Hyatt in the room. I see "Java" enter the room. About 30 minutes later, I view "Clover" in the room. "Clover" fixates on "Java". I watch "Clover" kill "Java" "Java" is lying dead on the floor. "Clover" then begins chasing and later humping a Golden Retriever dog. The dogs in this room are unsupervised.
24. Charlene Merten-Hyatt enters the room, sees "Java" lying on the floor. She picks him up and carries him out of the room.
25. INTERVIEW CHARLENE MERTEN-HYATT. She is suspended from working at The Dog Stop. Ms. Merten-Hyatt says that she put "Java" into the small dog room and went about her daily chores. She says that Mr. Slavicek brought "Clover" to her and told her he doesn't know where he is supposed to go. Ms. Merten-Hyatt stated that she told Mr. Slavicek that he needed to check the file. She said that Mr. Slavicek put "Clover" into the room with "Java". She said that "Clover" was only at The Dog Stop once before. Ms. Merten-Hyatt said that she found "Java" dead on the floor.
26. INTERVIEW MALLORY MCSHEEHY. She said that she heard Ms. Merten-Hyatt screaming when she discovered "Java" dead. Ms. McSheehy told me that someone called Jane Marcus and that "Clover" was removed from the room shortly after killing "Java". She told me that Ms. Merten-Hyatt was very upset and said, "I MESSED UP". Ms. McSheehy said that she asked her "why" and that Ms. Merten-Hyatt told her she didn't know where to put "Clover". She told me that Mr. Slavicek normally doesn't put dogs into rooms. Ms. McSheehy stated that she believes that Ms. Merten-Hyatt put "Clover" in the room with "Java".
27. PETER DEWIL – OWNER OF "CLOVER" – Mr. Dewil told me that he owns the dog that killed "Java". He took "Clover" to The Dog Stop for the first time on 9-18-20 and that there were no issues. Mr. Dewil said that he told a man (Mr. Slavicek) that he took "Clover" to the dog park recently and that "Clover" was dominating a young, smaller dog and had to take him home.
28. INTERVIEW BRIAN SLAVICEK. He said that "Java" was brought to The Dog Stop for BOARDING. Mr. Slavicek said that he checked "Clover" in at The Dog Stop on both dates (9-18-20 and 9-21-20). He said that the dog's owner may have told him about the recent issue of "Clover" dominating a puppy at a dog park. Mr. Slavicek said that he told the owner that "Clover" would be temperament tested and put into the big dog room. On 9-21-20, Mr. Slavicek stated that he checked "Clover" in, walked the dog back, and handed him to Charlene Merten-Hyatt. He said he heard Ms. Merten-Hyatt screaming and crying after finding "Java" dead. Mr. Slavicek said that he called Jane Marcus and that at some point Ms. Marcus called him back and told him to get "Clover" out of the room. He said that he remembers handing Ms. Merten-Hyatt Clover's leash and going back to work at the front of the store. According to Mr. Slavicek, Ms. Merten-Hyatt was taking responsibility and taking the incident hard. I asked Mr. Slavicek who he believes put "Clover" into the small dog room. He said that he did not because he didn't know the dog well enough and that Ms. Merten-Hyatt put "Clover" into the small dog room
29. Ms. Hynes was NOT reimbursed for the cost of her dog.
30. Ms. Hynes and her family want justice for the death of "Java".

IF BRIAN SLAVICEK AND CHARLENE MERTEN-HYATT'S BEHAVIOR IS NOT RECKLESS, I DON'T KNOW WHAT IS.

Thanks. I was reviewing the vet reports and there are problems:

I sent this message to Carol:

In the process of reviewing this matter. The records I received are incomplete. This is what I need:

They don't list what diet is being fed and what is the dog eating (not always the same).

What antibiotics are being given, dose and duration, and are they still being given?

What pain meds are being given, dose and frequency and duration, still being given? Have muscle relaxants been given?

What other meds are or have been given and their dosages and frequencies?

There is no blood work shown, what values are elevated and what are the values, slightly high, markedly high; no idea from this?

Can we get this information?

Thanks,

Lisa

Subject: Fwd: Animal Friends Tulip Humane Euthanasia Recommendation

This is the dog that she wanted to do the dental on, and I had them get an opinion from Dr. Mendoza. They have an appointment for the 23rd. Can you please review this and let me know what you think? Also, I may need a non-shelter vet to provide a second opinion. Larry, can you do that if needed?

Thanks,  
Lisa

Subject: Animal Friends Tulip Humane Euthanasia Recommendation

Dear Lisa,

One of our HI case dogs "Tulip" has been declining sharply during the past two weeks. She is now to the point where she is crying in pain throughout the night despite pain medication. I drafted a request for euthanasia today and have attached it to this email along with additional reports which reference her various ailments. She is currently existing in a state of chronic pain. I have consulted with other veterinarians who agree that euthanasia is the most humane outcome for Tulip at this time.

Please let me know how you would like me to proceed. My cell phone is 412-398-9210.

Thank you,

Jonna

Thanks. I was reviewing the vet reports and there are problems:

I sent this message to Carol:

In the process of reviewing this matter. The records I received are incomplete. This is what I need:

They don't list what diet is being fed and what is the dog eating (not always the same).

What antibiotics are being given, dose and duration, and are they still being given?

What pain meds are being given, dose and frequency and duration, still being given? Have muscle relaxants been given?

What other meds are or have been given and their dosages and frequencies?

There is no blood work shown, what values are elevated and what are the values, slightly high, markedly high; no idea from this?

Can we get this information?

Thanks,

Lisa

Subject: Re: Animal Friends Tulip Humane Euthanasia Recommendation

Larry Gerson VMD reviewed the record and would agree that with multiple medical issues it would be impossible to resolve them to make Tulip comfortable. Humane euthanasia would be a reasonable choice and would be better than chronic suffering.

The cost of dental surgery and closing the fistula added to the continued medical care would be difficult and expensive. Even with advanced specialty care the prognosis for a reasonable quality of life is poor.

Hi Rose!

Angela Fry, Badge #1031, is still listed as a Humane Officer at Animal Friends but she is employed by Humane Animal Rescue.

Here is a copy of the order that was signed by Judge Borkowski on June 17, 2021.

The address for HAR of Pittsburgh is 6926 Hamilton Ave, 15208

Thank you for your help and please let me know if you need anything further from me.

Thanks again,  
Lisa

Larry reviewed the past and current history of Hercules

With the internal medicine at AVETS

He agreed 100% that the plan

Idexx recommend for diagnostics is a good one

After testing and without a definitive diagnosis pred should be tapered slowly and the testing for the GI issues can be pursued

Any other suggestions from Dr Dorn are

welcome

Larry

Subject: Note to Angie

Larry spoke to the  
internal medical specialist at IDEXX

They suggested  
Repeating the CBC / chemistry  
with a urinalysis

An extended fecal (PCR) test to rule out causes of diarrhea  
( like whip worms)

And a GI panel that includes

B12 and folate

Cortisol may be added if needed later.

Pred would have perked the dog up if it was Addison's disease.

Because this was a legal case

Dan can ask AAARF to help cover some costs. Additionally the DA or Bethel Park can be approached . After the testing consider dropping the pred slowly Further specialty consults might be needed for the diarrhea I would want the dog on Flagyl, probiotics and the new Hills diet biome The chronic vomiting from the history sounds like delayed gastric emptying or pyloric spasm and I might try the reglan again after the diarrhea and medication is sorted out

Thank you for your response. I really appreciate it.

The delivery man believes that this is not a joke.

We will do a wellness check on the rabbits and see what the male has to say.

I remember having a case very similar to this 10 to 15 years ago. I filed a city ordinance violation back then. The violation had something to do with agriculture and slaughtering without a permit. I reached out to several people in the city hoping to find something.

I will keep you posted.

I guess you could do a wellness check. Not sure if there is a crime here: you are allowed to kill your own animals in PA as long as it is not cruelly done.

Maybe the rabbit owner could have been joking???

Maybe it is like a mink farm or other farm situation where animals are raised and killed for food or fur??

While upsetting, it may be legal.

Hello,

I received a call from Mike Mangan - 412-733-8187. I was informed that Mr. Mangan came into Zone 3 to try to meet with me while I was not working twice.

Mr. Mangan told me that he is a food delivery driver for Maitetta's Restaurant located in Mt. Oliver.

He reported that he delivered a pizza to 419 Zara Street last week. Mr. Mangan told me that the male that answered the door was holding a black rabbit. He said that the male told him that he has 15 rabbits inside of his house that he kills for food.

Mr. Mangan said that the male told him that he uses a bb gun to kill the rabbits. He told me that the man said, "they have a good life and then one bad day";

Mr. Mangan is very upset about this. He told me that the male is white and, in his 40,'s. Mr. Mangan said that the man is very strange.

Is there anything we can do about this?

Thank you for your response. I really appreciate it.

The delivery man believes that this is not a joke.

We will do a wellness check on the rabbits and see what the male has to say.

I remember having a case very similar to this 10 to 15 years ago. I filed a city ordinance violation back then. The violation had something to do with agriculture and slaughtering without a permit. I reached out to several people in the city hoping to find something.

I will keep you posted.

I guess you could do a wellness check. Not sure if there is a crime here: you are allowed to kill your own animals in PA as long as it is not cruelly done.

Maybe the rabbit owner could have been joking???

Maybe it is like a mink farm or other farm situation where animals are raised and killed for food or fur??

While upsetting, it may be legal.

Subject: 419 ZARA STREET -KNOXVILLE - BIZARRE COMPLAINT - HELP NEEDED

Hello,

I received a call from Mike Mangan - 412-733-8187. I was informed that Mr. Mangan came into Zone 3 to try to meet with me while I was not working twice.

Mr. Mangan told me that he is a food delivery driver for Maitetta's Restaurant located in Mt. Oliver.

He reported that he delivered a pizza to 419 Zara Street last week. Mr. Mangan told me that the male that answered the door was holding a black rabbit. He said that the male told him that he has 15 rabbits inside of his house that he kills for food.

Mr. Mangan said that the male told him that he uses a bb gun to kill the rabbits. He told me that the man said, "they have a good life and then one bad day"

Mr. Mangan is very upset about this. He told me that the male is white and, in his 40,'s. Mr. Mangan said that the man is very strange.

Is there anything we can do about this?

I guess you could do a wellness check. Not sure if there is a crime here: you are allowed to kill your own animals in PA as long as it is not cruelly done.

Maybe the rabbit owner could have been joking???

Maybe it is like a mink farm or other farm situation where animals are raised and killed for food or fur??

While upsetting, it may be legal.

Subject: 419 ZARA STREET -KNOXVILLE - BIZARRE COMPLAINT - HELP NEEDED

Hello,

I received a call from Mike Mangan - 412-733-8187. I was informed that Mr. Mangan came into Zone 3 to try to meet with me while I was not working twice.

Mr. Mangan told me that he is a food delivery driver for Maitta's Restaurant located in Mt. Oliver.

He reported that he delivered a pizza to 419 Zara Street last week. Mr. Mangan told me that the male that answered the door was holding a black rabbit. He said that the male told him that he has 15 rabbits inside of his house that he kills for food.

Mr. Mangan said that the male told him that he uses a bb gun to kill the rabbits. He told me that the man said, "they have a good life and then one bad day"

Mr. Mangan is very upset about this. He told me that the male is white and, in his 40,'s. Mr. Mangan said that the man is very strange.

Is there anything we can do about this?

Thank you for your response. I really appreciate it.

The delivery man believes that this is not a joke.

We will do a wellness check on the rabbits and see what the male has to say.

I remember having a case very similar to this 10 to 15 years ago. I filed a city ordinance violation back then. The violation had something to do with agriculture and slaughtering without a permit. I reached out to several people in the city hoping to find something.

I will keep you posted.

Dr. Swanson will be looking at the dog today.

We aren't sure about Tim harming Ashley. I don't think he stopped harming her, I think she just continually denies it. Neither one were surprised we were there and taking him.

Thank you. Can the puppy be examined today?

Also, is there any concern that he may harm Ashley tonight because she gave up the dog?

We removed the dog. Ashley signed the surrender form with Tim on the phone giving verbal consent to surrender as well.

Subject: 851 Jackman Street

Officer Dicesare,

As we spoke earlier, Officer Koontz and myself had received the complaint about 851 Jackman Street in Avalon late Friday night. This morning we arrived at the address and made contact with Ashley the boyfriend (Tim) of the subject in the video. She stated that the dog is a family dog and that her boyfriend was discipling him for leaving his half of the yard. The dog has not been seen by a vet and they have no ownership paperwork as the dog was bought from a friend of Tim. I personally viewed the dog as Officer Koontz spoke with Ashley. On the dog there were 5 abrasions on the top of the head. As I was obtaining photos, Ashley stated to Officer Koontz that Tim had physically assaulted her in the past. Ashley's left eye was black and blue and when asked about that she stated that it was from a fight with her sister. Officer Koontz left her business card and asked to have Tim give a call when he had a chance. With-in minutes of leaving the residence Officer Koontz received a call on her cell from Tim.

Tim stated that he was not trying to hide and was aware that the video was out on Facebook. Tim stated that he scruffed the dog as he has been taught to do by his grandfather, hit it on the rear end and carried it into the house and placed it in the cage. All of this happened because according to Tim the dog bit his son. Tim was aware that he needs to have the dog up to date on shot and stated that he was going to be bringing the dog to Animal Friends as soon as he could get an appointment. Officer Koontz stated that she would provide a direct number to the clinic and attempt to help get an appointment as soon as possible.

After speaking with you earlier we had reached out to Lisa Borelli in regards to the case. Since we have had contact with the complaint, Ashley and Tim we are going to take over the case from Officer Fry and assist you. If you have any additional questions please feel to reach out. Attached is the photo of the dog with the abrasions on the head.

Thank you,

Subject: RE: Vet report for Grotto dogs

Good morning,

Grotto 3 is a misdemeanor and summary (stacked) for 5532 a(3) because the dog was babesia positive which if the dog is symptomatic (which in this case the dog was because it was anemic) and the babesia is not treated and monitored, the dog is at imminent risk of SBI because there is high risk of anemia with babesia also the dog had bodily injury (puncture wounds) that required treatment with pain medication (Carprofen) and antibiotics (Clindamycin).

Grotto 6 is a misdemeanor and summary (stacked) for 5532 a(3) because the dog had pressure sores which are painful and were treated with pain medication (Carprofen) and the dog also had an ear infection which was treated with Clindamycin.

Grotto 7 is a misdemeanor and summary (stacked) for 5532 a(3) because the dog was babesia positive and had an ear infection both of which required treatment with pain medication and antibiotics.

If you don't already, I would suggest using the wording from the "summary of findings and conclusions" from the vet report in your criminal complaint as it helps to justify the level that was charged.

Good morning everyone,

At the request of ADA Borrelli, I looked over my initial charging recommendations with the veterinary report and listed below is what I believe should be charged. I spoke with Dr. Ledesma who stated that the ear infections were very minor

and therefore he cannot substantiate pain associated with these so we don't have the misdemeanor (which is defined as substantial pain).

Grotto 1:

5532 a(1) – S  
5532 a(2) – S  
5532 a(3) – S

Grotto 2:

5532 a(1) – S  
5532 a(2) – S (dog had mild interdigital dermatitis most likely from living conditions)  
5532 a (3) – S (mild interdigital dermatitis)

Grotto 3:

5532 a(1) – S  
5532 a(2) – S  
5532 a(3) – M/S (babesia +)

Grotto 4:

5532 a(1) – S  
5532 a(2) – S  
5532 a(3) – S

Grotto 5:

5534 a(1) – F (dog was BCS 2/9 on intake; has gained 14 lbs since)  
5532 a(1) – M/S (stacked with 5534)  
5532 a(2) – S  
5532 a(3) – S (puncture wound on ear)

Grotto 6:

5532 a(1) – S  
5532 a(2) – S  
5532 a(3) – M/S (pressure sores / ear infection)

Grotto 7:

5532 a(1) – S  
5532 a(2) – S  
5532 a(3) – M/S (babesia+ / ear infection)

Subject: Vet report for Grotto dogs

Good morning,

I have attached the veterinary report from Dr. Eric Ledesma for the Grotto dogs for both of you to review and adjust my charging recommendations as you see fit. If I can be of any further assistance please don't hesitate to contact me.

Thanks and stay safe  
Angie

Got sent down to Leetsdale MDJ to get the search warrant signed and it's their criminal day so probably going to be a little later than 230p.

Ms. Borelli,

Everyone is on this e-mail. Could you please take a look at the photo and read the findings from the Animal Friends official investigation. Also, would you be so kind as to direct the path of this investigation, using your expertise in this field?

Respectfully,

Officer Leo Di Cesare  
Avalon Police Department  
412-600-6277

 Subject: 851 Jackman Street

Officer Dicesare,

As we spoke earlier, Officer Koontz and myself had received the complaint about 851 Jackman Street in Avalon late Friday night. This morning we arrived at the address and made contact with Ashley the boyfriend (Tim) of the subject in the video. She stated that the dog is a family dog and that her boyfriend was discipling him for leaving his half of the yard. The dog has not been seen by a vet and they have no ownership paperwork as the dog was bought from a friend of Tim. I personally viewed the dog as Officer Koontz spoke with Ashley. On the dog there were 5 abrasions on the top of the head. As I was obtaining photos, Ashley stated to Officer Koontz that Tim had physically assaulted her in the past. Ashley's left eye was black and blue and when asked about that she stated that it was from a fight with her sister. Officer Koontz left her business card and asked to have Tim give a call when he had a chance. With-in minutes of leaving the residence Officer Koontz received a call on her cell from Tim.

Tim stated that he was not trying to hide and was aware that the video was out on Facebook. Tim stated that he scruffed the dog as he has been taught to do by his grandfather, hit it on the rear end and carried it into the house and placed it in the cage. All of this happened because according to Tim the dog bit his son. Tim was aware that he needs to have the dog up to date on shot and stated that he was going to be bringing the dog to Animal Friends as soon as he could get an appointment. Officer Koontz stated that she would provide a direct number to the clinic and attempt to help get an appointment as soon as possible.

After speaking with you earlier we had reached out to Lisa Borelli in regards to the case. Since we have had contact with the complaint, Ashley and Tim we are going to take over the case from Officer Fry and assist you. If you have any additional questions please feel to reach out. Attached is the photo of the dog with the abrasions on the head.

Thank you,

Justin A Galvin

Because most personal injury cases settle before they make it to trial, the successful PI attorney has to be a master at weaving together procedure, evidence, negotiation strategy, and motion and trial practice to achieve the most advantageous outcome for the client.

Would you like know how other personal injury attorneys achieve success?

If you're ready to up your game and maximize results for your clients, this program may provide you with the push you need to step out of your comfort zone and embrace your creative side to achieve those goals.

Designed and taught by lawyers who are already doing what you want to do, this course delves into:

- \* Winning before trial: Risk creation v. risk management

Learn strategies for dynamic and flexible risk management to navigate the unpredictable twists and turns of your case.

- \* Technology is your friend: You can't win without it

Smart technology needs smart lawyers: explore the technologies that deliver the best outcomes.

- \* The play is the thing: Trial as theater

It's simple math: Persuade your jurors, win more trials. Learn what you did not learn in law school.

Subject: 851 Jackman Street

Officer Dicesare,

As we spoke earlier, Officer Koontz and myself had received the complaint about 851 Jackman Street in Avalon late Friday night. This morning we arrived at the address and made contact with Ashley the boyfriend (Tim) of the subject in the video. She stated that the dog is a family dog and that her boyfriend was discipling him for leaving his half of the yard. The dog has not been seen by a vet and they have no ownership paperwork as the dog was bought from a friend of Tim. I personally viewed the dog as Officer Koontz spoke with Ashley. On the dog there were 5 abrasions on the top of the head. As I was obtaining photos, Ashley stated to Officer Koontz that Tim had physically assaulted her in the past. Ashley's left eye was black and blue and when asked about that she stated that it was from a fight with her sister. Officer Koontz left her business card and asked to have Tim give a call when he had a chance. With-in minutes of leaving the residence Officer Koontz received a call on her cell from Tim.

Tim stated that he was not trying to hide and was aware that the video was out on Facebook. Tim stated that he scruffed the dog as he has been taught to do by his grandfather, hit it on the rear end and carried it into the house and placed it in the cage. All of this happened because according to Tim the dog bit his son. Tim was aware that he needs to have the dog up to date on shot and stated that he was going to be bringing the dog to Animal Friends as soon as he could get an appointment. Officer Koontz stated that she would provide a direct number to the clinic and attempt to help get an appointment as soon as possible.

After speaking with you earlier we had reached out to Lisa Borelli in regards to the case. Since we have had contact with the complaint, Ashley and Tim we are going to take over the case from Officer Fry and assist you. If you have any additional questions please feel to reach out. Attached is the photo of the dog with the abrasions on the head.

Thank you,

Subject: RE: Vet report for Grotto dogs

Good morning,

Grotto 3 is a misdemeanor and summary (stacked) for 5532 a(3) because the dog was babesia positive which if the dog is symptomatic (which in this case the dog was because it was anemic) and the babesia is not treated and monitored, the

dog is at imminent risk of SBI because there is high risk of anemia with babesia also the dog had bodily injury (puncture wounds) that required treatment with pain medication (Carprofen) and antibiotics (Clindamycin).

Grotto 6 is a misdemeanor and summary (stacked) for 5532 a(3) because the dog had pressure sores which are painful and were treated with pain medication (Carprofen) and the dog also had an ear infection which was treated with Clindamycin.

Grotto 7 is a misdemeanor and summary (stacked) for 5532 a(3) because the dog was babesia positive and had an ear infection both of which required treatment with pain medication and antibiotics.

If you don't already, I would suggest using the wording from the "summary of findings and conclusions" from the vet report in your criminal complaint as it helps to justify the level that was charged.

Subject: RE: Vet report for Grotto dogs

Good morning everyone,

At the request of ADA Borrelli, I looked over my initial charging recommendations with the veterinary report and listed below is what I believe should be charged. I spoke with Dr. Ledesma who stated that the ear infections were very minor and therefore he cannot substantiate pain associated with these so we don't have the misdemeanor (which is defined as substantial pain).

## Grotto 1:

5532 a(1) – S  
5532 a(2) – S  
5532 a(3) – S

## Grotto 2:

5532 a(1) – S  
5532 a(2) – S (dog had mild interdigital dermatitis most likely from living conditions)  
5532 a (3) – S (mild interdigital dermatitis)

## Grotto 3:

5532 a(1) – S  
5532 a(2) – S  
5532 a(3) – M/S (babesia +)

## Grotto 4:

5532 a(1) – S  
5532 a(2) – S  
5532 a(3) – S

## Grotto 5:

5534 a(1) – F (dog was BCS 2/9 on intake; has gained 14 lbs since)  
5532 a(1) – M/S (stacked with 5534)  
5532 a(2) – S  
5532 a(3) – S (puncture wound on ear)

## Grotto 6:

5532 a(1) – S  
5532 a(2) – S  
5532 a(3) – M/S (pressure sores / ear infection)

## Grotto 7:

5532 a(1) – S  
5532 a(2) – S  
5532 a(3) – M/S (babesia+ / ear infection)

As far as the charges you sent in this E-mail, All charges will now be summary charges with the exception of Grotto 5 which is the felony & misdemeanor?

Subject: RE: Vet report for Grotto dogs

Good morning everyone,

At the request of ADA Borrelli, I looked over my initial charging recommendations with the veterinary report and listed below is what I believe should be charged. I spoke with Dr. Ledesma who stated that the ear infections were very minor and therefore he cannot substantiate pain associated with these so we don't have the misdemeanor (which is defined as substantial pain).

Grotto 1:

5532 a(1) – S  
5532 a(2) – S  
5532 a(3) – S

Grotto 2:

5532 a(1) – S  
5532 a(2) – S (dog had mild interdigital dermatitis most likely from living conditions)  
5532 a (3) – S (mild interdigital dermatitis)

Grotto 3:

5532 a(1) – S  
5532 a(2) – S  
5532 a(3) – M/S (babesia +)

Grotto 4:

5532 a(1) – S  
5532 a(2) – S  
5532 a(3) – S

Grotto 5:

5534 a(1) – F (dog was BCS 2/9 on intake; has gained 14 lbs since)  
5532 a(1) – M/S (stacked with 5534)  
5532 a(2) – S  
5532 a(3) – S (puncture wound on ear)

Grotto 6:

5532 a(1) – S  
5532 a(2) – S  
5532 a(3) – M/S (pressure sores / ear infection)

Grotto 7:

5532 a(1) – S  
5532 a(2) – S  
5532 a(3) – M/S (babesia+ / ear infection)

Hello,

I spent today at criminal court for the case involving Mark McGowan. Officer Tracy Schweitzer and I removed 32 neglected animals from Mr. McGowan in June of 2019. Four of the animals were alligators.

The prosecution finished its case today. Tomorrow at 11:30 am, I must be back at criminal court for the defense testimony and Judge Flaherty to make a ruling.

I hope that I will be able to join our scheduled Zoom meeting.

If not, someone can fill me in.

I apologize! I never expected this trial to go this long.

Subject: Criminal complaints

Good afternoon,

I have attached four (4) criminal complaints for the judge's review and approval. They will all be co-defendants in the same case.

I can be reached at this email or 412-508-8454 if needed.

Thank you so very much in advance and have a wonderful weekend.

Officer Angie Fry, #1031

Hello,

Meagan Montmeny, Officer Angie Fry, and I are available for a Zoom meeting on Friday, July 9, 2021, at 2:30 pm.

ADA Lisa Borrelli, are you available?

Matthew Erzen, are you available?

Please let me know.

Thanks!

I just spoke with Matthew Erzen. I cc'd him on my e-mail to you. His e-mail address is rugslug85@gmail.com.

Matthew is going to download the app for Zoom.

He is available to meet on Zoom on Wednesday, June 30, 2021, at 1:00 pm.

Does that work for you ladies?

Please let me know.

Thanks!

Subject: BRANDON PRYOR - PROPOSED CHARGES TO FILE

Hello,

I hope that you had a good holiday. Pittsburgh police were forced to work the holiday. I worked noon to midnight at Point State Park. It was a tough day.

I dropped off the case file for Brandon Pryor at West Liberty Animal Hospital today for your review.

Brandon Pryor has a history of mistreating cats on Moultrie Street. Animal Control has a complaint from Feb. of 2018 of him shooting cats with a bb gun. This behavior has been going on for several years.

A later incident, date unknown, Brandon Pryor killed a cat with a shovel. The witness saw this but does not remember the date.

The last incident, I have 2 witnesses that were present when Brandon Pryor purposely sped up and intentionally ran over and killed an old cat.

I propose we file the following charges against Brandon Pryor for intentionally killing the old cat. Aggravated cruelty to animals - 5534 (a)(2), Cruelty to animals - M2, and cruelty to animals - summary offense.

I believe that we can only charge for the incident of him intentionally killing the cat with his vehicle.

Please let me know what you think.

Brandon Pryor is not a good person and has a criminal record.

Thank you for your help!

We have been doing this for a long time.....sometimes I wonder if there are any non-suspended drivers out there and then I remember there's me and most of the people I know.....or when we don't have a lot, I think maybe we found them all, but, no, there always seems to be more.  
Have a good weekend!

I am thinking that would show knowingly since all associates, leaders and managers are trained. Do you agree? Did you get a chance to watch the inside salon video for the time frame yet?

I know that the 2 managers on duty were over-seeing the salon at the time of the incident because the actual salon manager was on break and their policy is that other managers cover each other's breaks. I also know that all employees are trained on safety protocols and signs of stress in a dog.

Subject: PetSmart exams

Hi,

So I was just looking over the exam questions, which are taken from the education that salon associates receive in the PetSmart training and found the following questions may be helpful in our case:

Exam #9

- Question #21 – seek vet care immediately
- Question #31 – critical signs of stress in an animal

Exam #13

- Question #8 – if animal is showing signs of stress, stop service IMMEDIATELY
- Question #13 – dogs may NOT be tethered with a slip lead around their neck, as Kobe was
- Question #22 – stop service immediately if 2 associates are unable to handle the dog
- Question #24
- Question #25 – critical signs of stress...again
- Question #27 – what to do if a critical sign of stress is observed

Also check the video again to see if either groomer checked the tightness of the tethers before starting the trim as they are supposed to check it and make sure it has enough space for 2 fingers to fit....like a normal person does with a dog collar.

Subject: BRANDON PRYOR - 137 Moultrie Street - Uptown

Hello,

I am working on preparing a file for you to review involving a male named Brandon Pryor who is believed to have maimed 1 cat and killed 2 cats on Moultrie Street in the Uptown community. Officer Fry looked Brandon Pryor up and informed me that he has a criminal record.

This case was referred to me by District Justice Riccardi to investigate.

The cat that is maimed is believed to be shot in the face with a bb gun by Brandon Pryor. One cat was killed with a shovel. This was witnessed by Barbara Kuszawjewski (an elderly former court employee). The second cat that was killed was old and deaf. It lived on Ms. Kuszawjewski's porch. According to Ms. Kuszawjewski, this cat was crossing the street and Brandon Pryor accelerated his vehicle and intentionally killed the cat.

I spoke to several neighbors who believe that Brandon Pryor is a violent person who only cares about himself.

I will let you know when the file is ready for your review and dropped off at West Liberty Animal Hospital.

Thanks!

Thank you for your response. I really appreciate it.

The delivery man believes that this is not a joke.

We will do a wellness check on the rabbits and see what the male has to say.

I remember having a case very similar to this 10 to 15 years ago. I filed a city ordinance violation back then. The violation had something to do with agriculture and slaughtering without a permit. I reached out to several people in the city hoping to find something.

I will keep you posted.

Subject: RE: 419 ZARA STREET -KNOXVILLE - BIZARRE COMPLAINT - HELP NEEDED

I guess you could do a wellness check. Not sure if there is a crime here: you are allowed to kill your own animals in PA as long as it is not cruelly done.

Maybe the rabbit owner could have been joking???

Maybe it is like a mink farm or other farm situation where animals are raised and killed for food or fur??

While upsetting, it may be legal.

Subject: 419 ZARA STREET -KNOXVILLE - BIZARRE COMPLAINT - HELP NEEDED

Hello,

I received a call from Mike Mangan - 412-733-8187. I was informed that Mr. Mangan came into Zone 3 to try to meet with me while I was not working twice.

Mr. Mangan told me that he is a food delivery driver for Maitetta's Restaurant located in Mt. Oliver.

He reported that he delivered a pizza to 419 Zara Street last week. Mr. Mangan told me that the male that answered the door was holding a black rabbit. He said that the male told him that he has 15 rabbits inside of his house that he kills for food.

Mr. Mangan said that the male told him that he uses a bb gun to kill the rabbits. He told me that the man said, "they have a good life and then one bad day".

Mr. Mangan is very upset about this. He told me that the male is white and, in his 40,'s. Mr. Mangan said that the man is very strange.

Is there anything we can do about this?

Subject: Re: CAT SHOT AND KILLED IN CARRICK

Thank you for asking Dr. Dorn if he is willing to help.

To my knowledge, shooting a cat is a crime. Ms. Bane told me that the cat never left this property and that she believes that the cat was shot by the people who live behind the property.

I am trying to build the strongest case possible.

Just an FYI.....2 other cats are missing. I wonder if they had the same fate.

I know he is pretty busy but can I ask him.

I am wondering why you or the caretaker want the necropsy?

Just because it was found on permissible property doesn't mean it was shot there. It also doesn't mean a crime has been committed.

But that said, I also know that sometimes you just want to know. I will let you know what he says.

Subject: CAT SHOT AND KILLED IN CARRICK

Hello,

Nancy Bane is a caretaker for a colony of homeless cats on Overbrook Boulevard. She provides the cats with food and water and traps any new cats that join the colony to have them spayed/neutered and vaccinated. Nancy finds homes for any cats that are friendly.

Nancy had open heart surgery 5 weeks ago. During her recovery, 2 neighbors cared for the cat. Nancy told me that there was one very friendly cat that she was trying to help before she went into the hospital. Nancy reported that on

June 29, 2021, at 7:00 am that she found this cat shot in the yard at 330 Overbrook Boulevard where she has permission to feed the cats.

Nancy believes that this friendly cat was shot. It appears to have a hole in the rear of its body.

Officer Fry reached out to Meagan Montmeny about having a veterinarian at HARP but was informed that they are short staffed.

The deceased cat is in a cooler at Animal Care and Control.

Is Dr. Dorn willing to necropsy the cat or take x-rays to determine the cause of death. If he isn't available, do you know a veterinarian I can reach out to.

I was off yesterday, but I can transport the remains tomorrow or Friday.

Please let me know.

Thanks!

Subject: RE: CAT SHOT AND KILLED IN CARRICK

I know he is pretty busy but can I ask him.

I am wondering why you or the caretaker want the necropsy?

Just because it was found on permissible property doesn't mean it was shot there. It also doesn't mean a crime has been committed.

But that said, I also know that sometimes you just want to know. I will let you know what he says.

Subject: CAT SHOT AND KILLED IN CARRICK

Hello,

Nancy Bane is a caretaker for a colony of homeless cats on Overbrook Boulevard. She provides the cats with food and water and traps any new cats that join the colony to have them spayed/neutered and vaccinated. Nancy finds homes for any cats that are friendly.

Nancy had open heart surgery 5 weeks ago. During her recovery, 2 neighbors cared for the cat. Nancy told me that there was one very friendly cat that she was trying to help before she went into the hospital. Nancy reported that on June 29, 2021, at 7:00 am that she found this cat shot in the yard at 330 Overbrook Boulevard where she has permission to feed the cats.

Nancy believes that this friendly cat was shot. It appears to have a hole in the rear of its body.

Officer Fry reached out to Meagan Montmeny about having a veterinarian at HARP but was informed that they are short staffed.

The deceased cat is in a cooler at Animal Care and Control.

Is Dr. Dorn willing to necropsy the cat or take x-rays to determine the cause of death. If he isn't available, do you know a veterinarian I can reach out to.

I was off yesterday, but I can transport the remains tomorrow or Friday.

Please let me know.

Thanks!

Subject: Re: raccoon shot

I was doing a little research on the Game Commission website. So it is legal to trap and kill raccoons on your own property as they do not recommend relocating the raccoons because they are a rabies vector species.

That being said, as Lisa said the kill has to be humane. Necropsy would need to be done and show an in humane way of death such as multiple bullet wounds or a toxin that didn't cause humane death. The issue with toxins is that if you don't have an idea of what toxin may have been used, testing for toxins is near impossible because there are thousands of toxins if not more.

I still would refer it to the game commission or partner with them. Just my 2 cents.

Subject: RE: raccoon shot

We prosecute for harming wildlife as long as it is a crime under the statute. Just shooting a raccoon doesn't seem to trigger anything under the cruelty statutes unless there are multiple shot wounds (perhaps torture) but if no one saw it happen, and we have no defendant then prosecuting that would be very difficult, if not impossible. If the animal was rabid, or attacked someone then shooting could be justified. There is also the issue of whether it is rabid and you may need to contact the health department to see if they want you to take it to them for rabies testing.

You can contact the game commission to see if they see it differently. I agree with Angie.

Subject: 419 ZARA STREET -KNOXVILLE - BIZARRE COMPLAINT - HELP NEEDED

Hello,

I received a call from Mike Mangan - 412-733-8187. I was informed that Mr. Mangan came into Zone 3 to try to meet with me while I was not working twice.

Mr. Mangan told me that he is a food delivery driver for Maitetta's Restaurant located in Mt. Oliver.

He reported that he delivered a pizza to 419 Zara Street last week. Mr. Mangan told me that the male that answered the door was holding a black rabbit. He said that the male told him that he has 15 rabbits inside of his house that he kills for food.

Mr. Mangan said that the male told him that he uses a bb gun to kill the rabbits. He told me that the man said, "they have a good life and then one bad day"

Mr. Mangan is very upset about this. He told me that the male is white and, in his 40,'s. Mr. Mangan said that the man is very strange.

Is there anything we can do about this?

Subject: Re: Cat and kittens with Animal Abuser

Officer Brian Shelton and I went to 245 Carrick Avenue. We viewed William Killgallon outside and began talking to him. He said that he has a cat that her keeps indoors. The cat and kittens he feed on his property do not belong to him. I asked him if we could remove the cat and kittens and get them into rescue. He said that the cat and kittens are friendly and that we can take them. Officer Shelton had a box in his vehicle. We did not get the cat/kittens. According to Mr. Killgallon they were under a shed.

He agreed to catch the cat and kittens and put them inside of a crate. Ms. Kurzawski will reach out to Mr. Killgallon and remove the animals.

He told us that he is behaving himself and realizes that trapping and drowning wildlife is wrong. Mr. Killgallon then asked me if he is permitted to trap a raccoon causing him problems, put it into his car, and relocate the animal. I told him no. I asked him if he is having any problems with wildlife. He told me no. I then viewed a trap on his deck on the side of his house. Mr. Killgallon said that it is not set. We also viewed large barrels that he used to drown the wildlife in 2017. He claims he is not hurting animals. I informed him that I we will be watching him and that if we find out that he is harming animals that he will be arrested. Mr. Killgallon told us that he doesn't want to be arrested and will behave himself.

Mr. Killgallon told me that he lived with his brother, Tom Killgallon for a few years after being arrested and moved back to 245 Carrick Avenue. I asked Mr. Killgallon for Tom's telephone number. He said that he doesn't have his number, but gave me his address at 1621 Mt. Joseph Street (Carrick). I went to Tom's address. He has a 6-foot-high stockade fence around his entire house. I left a business card for Tom Killgallon to call me.

I am going to go by the house today. I can ask Brian or Aundre to come with me but thank you for offering. I will not go alone. I believe that Mr. Killgallon is a threat, and I don't trust him. Ms. Kurzawski told me that her parents told her and her siblings to stay away from him and they would not leave their dog outside in the yard alone while she was growing up.

Ms. Kurzawski couldn't get close to the mama cat and kittens because they are always on his porch and property.

I will gather as much information as I can today and keep you posted.

Good morning,

Please see the e-mail below that I received from Kristen Kurzawski. Ms. Kurzawski is a teacher at Brashear High School and works to TNR cats in the Carrick community.

I arrested William Killgallon in 2017 for luring wildlife into his yard, trapping animals, and drowning them in barrels of water.

After reading the e-mail, I called Ms. Kurzawski. She told me that her parents live next door to Mr. Killgallon. Ms. Kurzawski said that after I arrested Mr. Killgallon that he moved away for a few years and moved back into 245 Carrick Avenue about a year ago.

I am going to Mr. Killgallon's house today to attempt to speak with him.

I have a friend who fosters cats and kittens and is willing to take these animals in if Mr. Killgallon surrenders ownership of them.

If you ladies have any additional thoughts, please let me know.

Thanks!

Dear Officer Luffey,

There is a man who lives at 245 Carrick Avenue. His last name is Killgallon (that may be misspelled), and I believe his first name is Bill. He lives near my parents. He was arrested and charged with torturing wildlife a few years ago. I believe there are also some mental health issues as well. Recently my parents learned he had a cat. He lets the cat roam the neighborhood, but it is an indoor outdoor cat, at least I believe it was I don't know if it is anymore. The cat recently had kittens. Now he has a cat and three kittens. I do TNR, but this situation is a bit beyond what I feel comfortable handling.

I do not have a rescue that I know that could take the kittens or mom. I just do TNR. I also do not feel comfortable speaking to this man because of his history. Can you possibly do a visit and see if there is anything that can be done?

Sincerely,

Kristen Kurzawski

An update to share.

I just spoke with Matthew Erzen. He is willing to meet with us. Matthew lives in Ohio, and he just started working with a new company closer to home. He was given a job to complete Monday and Tuesday (June 28th and June 29th). Matthew is going to be back in the office this afternoon. He believes that he may be able to complete the job in one day and may be free to meet with us on Tuesday, June 29, 2021.

I will keep you posted when I hear back from him.

Good morning,

I am going to call Matthew Erzen today to request a meeting with him and determine his availability.

Please let me know your availability and the best place to meet.

There is a small conference room at Zone 3 that we can use.

Please share your thoughts.

Thanks!

Hi Christine

1. Yes, Officer Genco went to a dog handling training at AF
2. NACA is already looking for a syllabus
3. Yes, we paid the PVSEC bill, and I authorized this payment
4. Sorry, but I have no idea as to when my officers found out the owner's name

Thanks

Dave

Subject: VISIT TO ANIMAL CARE AND CONTROL

Happy Friday!

Officer Angie Fry and I are coming to Animal Care and Control this morning to take photos of all the trucks and cages. Officer Fry will meet me at Zone 3 between 9 and 9:30 am and then we will head to Animal Care and Control.

I am doing my best to get all the information requested by ADA Lisa Borrelli. We hope that you can help us obtain the additional information needed below:

- \* Can you confirm that James Genco attended a training at Animal Friends on March 11, 2020? This training was a Power Point presentation on Defensive Dog Handling.
- \* When you hear back about the NACA training that James Genco attended, can you please ask them for a syllabus for that course?
- \* Did the city of Pittsburgh pay the veterinary expenses at PVSEC? If so, who authorized that payment? Can we get a receipt?
- \* How and when did the Officers know that Matthew Erzen owned the dogs?

Any help you can provide is appreciated.

Thanks!

Hi guys

I spoke to Matthew directly and informed him of the citation, he told me that he never received it, so I asked him his address the one in the docket and on the citation was incorrect. I gave him the number for Municipal Court, had him reach out to them, which he did and they are going to have a court date for him sometime in late August after he pleads not guilty to the citation.

Hello,

I just called Housing Court (412-350-6712). I asked the clerk to put in Matthew Erzen's name into the computer and tell me what comes up. I was informed that a non-traffic citation for cruelty to animals was filed against Mr. Erzen on 4-6-2021. The case number is NT-748-2021.

I was informed that certified mail was sent to Matthew Erzen at 2335 West 6th Street, Cleveland, OH 44113 and that they have not heard back from him.

The address for Mr. Erzen on the PVSEC records lists his address as 2135 West 6th Street, Cleveland, OH 44113.

An update to share.

I just spoke with Matthew Erzen. He is willing to meet with us. Matthew lives in Ohio, and he just started working with a new company closer to home. He was given a job to complete Monday and Tuesday (June 28th and June 29th). Matthew is going to be back in the office this afternoon. He believes that he may be able to complete the job in one day and may be free to meet with us on Tuesday, June 29, 2021.

I will keep you posted when I hear back from him.

Subject: VISIT TO ANIMAL CARE AND CONTROL

Happy Friday!

Officer Angie Fry and I are coming to Animal Care and Control this morning to take photos of all the trucks and cages. Officer Fry will meet me at Zone 3 between 9 and 9:30 am and then we will head to Animal Care and Control.

I am doing my best to get all the information requested by ADA Lisa Borrelli. We hope that you can help us obtain the additional information needed below:

\* Can you confirm that James Genco attended a training at Animal Friends on March 11, 2020? This training was a Power Point presentation on Defensive Dog Handling.

\* When you hear back about the NACA training that James Genco attended, can you please ask them for a syllabus for that course?

\* Did the city of Pittsburgh pay the veterinary expenses at PVSEC? If so, who authorized that payment? Can we get a receipt?

\* How and when did the Officers know that Matthew Erzen owned the dogs?

Any help you can provide is appreciated.

Thanks!

Good Afternoon Christine!

Which Zone is Officer Eric Churilla and Officer Frank Rende currently working in the City of Pittsburgh Police Department?

Dave Madden is the Supervisor at Animal Care and Control and please forward the address/phone number.

Do you have the phone number and address of dog's owner? (Canine Victim - Pit Bull)

I will add this information to the witness's list for James Genco's case (OTN: G 889509-5).

Please take your time forwarding this information to me because I will be "off" tomorrow 6/23.

Thank you and have a good night!

Hi Officer Klein,

I apologize I did not get these charging recommendations to you yesterday, I took the day off due to injury. Anyways, I went through the medical charts and here is what I came up with. I have also attached the medical reports for each dog to this email for ADA Borrelli's review.

Grotto 1:

- 5532 a(1) – S
- 5532 a(2) – S
- 5532 a(3) – S (dog had an ear infection so could be a M3 if vet will testify to pain)

Grotto 2:

- 5532 a(1) – S
- 5532 a(2) – S (dog had mild interdigital dermatitis most likely from living conditions)
- 5532 a (3) – S (mild interdigital dermatitis)

Grotto 3:

- 5532 a(1) – S
- 5532 a(2) – S
- 5532 a(3) – M/S (babesia +)

Grotto 4:

- 5532 a(1) – S
- 5532 a(2) – S
- 5532 a(3) – S

Grotto 5:

- 5534 a(1) – F (dog was BCS 2/9 on intake; has gained 14 lbs since)
- 5532 a(1) – M/S (stacked with 5534)
- 5532 a(2) – S

Grotto 6:

- 5532 a(1) – S
- 5532 a(2) – S
- 5532 a(3) – M/S (pressure sores / ear infection)

Grotto 7:

- 5532 a(1) – S
- 5532 a(2) – S
- 5532 a(3) – M/S (babesia+ / ear infection)

This is what I would charge but Lisa, if you want to confirm with Dr. Ledesma just to be sure. I am still waiting on his forensic vet reports but I don't want to hold this case up any longer.

I wouldn't give the dogs back since they are evidence for the case. We can request ownership of the animals when the case makes it way to court, but I'll leave that decision up to DA Borrelli if she doesn't have an objection to that. After speaking with DA Borrelli previously we are charging him for all the dogs in and on the property.

Grotto 5 which is the possible felony charge is one of the dogs he is claiming ownership of by the sound of it.

Hi everyone,

So last week I had my admission department send a certified letter to Barr Tomlin regarding if he was claiming ownership to any of the dogs seized from Grotto Street. Our hope was that he didn't claim ownership and that we could proceed with the adoption process and find them loving homes as they are so sweet....that plan was squashed today when Tomlin called my extension claiming that he owns 4 of the dogs...from his description I believe he is claiming Grotto 1, 2, 4 and the last one is a red male so that would either be 5 or 7. He left a number of 412-871-8358 and said he would pay a fine to get his dogs back.

Officer Klein, how would you like to proceed?

Thanks  
Angie

Good morning,

I checked the medical records for the Grotto Street dogs and it does appear that Grotto 5 did gain 14 pounds since being fed properly, which took him from a BCS of 2 (hips, ribs and spine easily visible) to a BCS of 4/9 which is ideal. Grotto 3 and Grotto 7 both have babesia, which is a disease similar to Lyme's disease and they are currently on medication treatment for that.

Dr. Eric Ledesma is the treating veterinarian on this case and did the forensic exams. Lisa, his email address is [eledesma@HumaneAnimalRescue.org](mailto:eledesma@HumaneAnimalRescue.org) in case you want to reach out to him to determine level of charges that he will substantiate.

Thanks  
Angie

Humane Officer Fry from Humane Animal Rescue sent us her recommendations for charges which i am forwarding to you. We were going to proceed based on what she recommended but need your approval for the felony charge for grotto #5 due to dog being underweight.

Grotto 5 has gained about 14lbs since being at their facility and is in good body condition now.

Subject: Charging recommendations for Grotto Street

Hi guys,

I have attached all the medical reports for the 7 dogs from Grotto St. Our numbers for the animals may not match your number (i.e. Grotto 1 may not be dog 1 on your evidence list). I apologize for this but the dogs were brought in before I got back. I have also listed below my charging recommendations, though discuss with the ADA as they may know ways to get higher charges. Grotto 5 will most likely be a felony for being underweight from lack of food but we won't know that for sure for another few weeks when we see weight gain and get blood work results back.

Grotto 1  
5532 a(1) summary  
5532 a(2) summary  
5532 a(3) summary  
5533 – abandonment – summary

Grotto 2

Ok!

The other conditions follow from the Humane Officer's review. They are inherent in the statutes. He can't have potential violations either with the cruelty statute or the dog warden statute.

Hope that helps!

Hi Lisa,

Thanks so much. Two follow ups for clarification if you don't mind. Are there any other conditions imposed on the defendant prior to the return of the dogs, or is this the entire agreement with court order. And, do you recall the name of defense counsel? I'm unable to find anything on UJS, likely because it was a summary case.

Dear David Madden,

Thank you for your email and request. I can tell you that there has been a ton of change over in NACA over the past 26 years so it's going to take a bit of research - that said we have a few people digging through some old files and boxes and I will let you know by Monday or Tuesday if we were successful. Use of a control pole has been included in any of the trainings that I have seen, but this was before my time. There is a video available for members on our website so if he is a member, he would have access to it anytime :)

I will get back to you soon.

Thank you.

Hi Terry

My name is David Madden, and we just go through talking to each other on the phone

I am trying to find out if a NACA Class level 1 taught in Pittsburgh, PA back on 4/11/2003 included how to properly use a control/snare/rabies pole?

One of my AC&C Officers Genco (last name) is now claiming he has never been taught how to properly use a control pole in his 26 years on the job

Thanks

Dave

Hi Christine

I have sent an email to NACA to see if they can find out if how to use a control pole properly was taught back on 4/11/2003, when Officer Genco took the NACA level 1 class

I have received some verbal complaints from HARP, but nothing else

Officers Genco & Lapp filed a verbal report to me only about the truck cage damage

Sorry, but no policies exist for how to safely control an aggressive dog using a snare pole

Nope both officers said the temp was 50 degrees in their report only even though they have an infrared temp device in their truck

We have 1-2 live animal trucks just parked here daily that you can come take photos of the truck cages when you have time

Dave

Subject: INFORMATION NEEDED - JAMES GENCO

Good morning Dave,

The preliminary hearing involving James Genco is scheduled for July 21, 2021, at 2:00 pm.

ADA Lisa Borrelli is requesting the information below. Will you please let me know if these items exist?

1. Training records or any documentation for James Genco being trained on how to use a control pole? NACA training? Training at Animal Friends last year?
2. Are there any complaints (other than from HARP) about his work or the care he took of animals in his care/control?
3. Did James Genco file a damage report after the incident? If so, what date was it filed?
4. Does Animal Care and Control have a policy on how to respond to an animal/dog that is fighting, injured, etc.?
5. Are there records that James Genco or John Lapp have made, other than the reports with HARP that recorded the temperature at 50 degrees?

Also, Officer Angie Fry and I need to come to Animal Care and Control to take photos of the truck cages/doors on all the vehicles. We will take the photos at the same angle of the photo that James Genco's attorney showed on the news.

Please let me know when a good day/time is for picking up any documentation you may have and taking the photos.

Thank you very much!

Dave Madden is the Supervisor at Animal Care and Control and please forward the address/phone number.

Do you have the phone number and address of dog's owner? (Canine Victim - Pit Bull)

I will add this information to the witness's list for James Genco's case (OTN: G 889509-5).

Please take your time forwarding this information to me because I will be "off" tomorrow 6/23.

Thank you and have a good night!

Hello,

I cc'd Lt. Julie Stoops on my response to you to keep her up to date on this case.

I did not receive a response to the e-mail that I sent to Dave Madden this morning. Lt. Stoops will step in if I do not receive a response.

I am very happy that the District Attorney's office is taking this case seriously. I will do everything humanly possible to get you the information that you need.

Lt. Stoops, please read the e-mail below that I received from ADA Lisa Borrelli. She is inquiring to any policies involving police pulling their guns on dogs. Are you aware of a policy regarding this? ADA Borrelli is also inquiring if we have a policy involving police breaking into a vehicle.

Any help you can provide is greatly appreciated.

Thanks a million!

Hello,

Christine, I saw your questions to Dave Madden. Thank you.

I am working on what I need for the prelim, and I have some questions/requests. our office is taking this quite seriously which means we will need to be ready for battle on July 21. Thank you in advance for all your assistance.

Also, I was looking for the citation in CPCMS. I could not find it. What am I missing? Do you still see it? I copied and pasted below what I saw on my search....

| Docket Number                      | Court Type | Case Caption | Case Status | Filing Date | Primary Participant(s) | Date Of |
|------------------------------------|------------|--------------|-------------|-------------|------------------------|---------|
| Birth(s) County Court Office found | OTN        | Complaint #  | Incident #  |             | No results             |         |

&quot;No results found&quot;

If the citation is still active, the owner will need to have representation and witnesses to testify about the temperature and to refute the distress. This could get uncomfortable if it goes forward.

I found out that Genco attended training at Animal Friends on 3/11/20. It was a PowerPoint presentation on Defensive Dog Handling (it did not discuss the control pole). Hopefully, Dave Madden can confirm his attendance.

He supposedly attended NACA training, and Christine is working on getting the date. Can we get the syllabus for that course?

When you take the pictures of the dog gates, please keep a log of what trucks they are from, especially the one Genco used on 3/17. I wonder if the truck he used looks any different than the others?? It would be interesting if he could not pick out that gate from a stack of photos of the gates?

I will need someone to testify what a dog is like when it is in distress in a hot car. Also, Genco said the dog was in imminent danger and distress, yet they waited an hour to remove the dogs. That does not seem to fit....

Owner says he had a fan and a bowl of water in the car, police said there was no food or water.....can we get confirmation on the water and fan...where were they located in the vehicle? Could they be seen from the windows or were they out of sight?

I understand that the city paid the PVSEC vet bill. If so, who authorized the payment? Can we confirm that and get the receipt?

FYI: I have called our investigations unit to see what we can get from the license plate readers in the strip and county to see when the car came through and where it went.

I also heard that one of the officers pulled his gun. Is that true? Is there a policy on that?

Christine, is there a policy for when officers break into a car? Is the car somehow secured? What about the damage to the car? If it is shown to be unjustified, is there reparation? What if valuables are taken or alleged to be taken, is there an inventory of what is in the car?

Were proper procedures followed on 3/17 by both the MPOs and the ACOs?

How and when did the officers know that Matthew Erzen owned the dogs?

Any questions or ideas or something I missed, please let me know.

Can we set up a date to meet with the owner? Christine you will need to be there as I cannot become a witness and if Meagan or Angie want to be there, great.

Thank you again for all your assistance with this.

I understand that the city paid the PVSEC vet bill. If so, who authorized the payment? Can we confirm that and get the receipt?

FYI: I have called our investigations unit to see what we can get from the license plate readers in the strip and county to see when the car came through and where it went.

I also heard that one of the officers pulled his gun. Is that true? Is there a policy on that?

Christine, is there a policy for when officers break into a car? Is the car somehow secured? What about the damage to the car? If it is shown to be unjustified, is there reparation? What if valuables are taken or alleged to be taken, is there an inventory of what is in the car?

Were proper procedures followed on 3/17 by both the MPOs and the ACOs?

How and when did the officers know that Matthew Erzen owned the dogs?

Any questions or ideas or something I missed, please let me know.

Can we set up a date to meet with the owner? Christine you will need to be there as I cannot become a witness and if Meagan or Angie want to be there, great.

Thank you again for all your assistance with this.

Hello,

I cc'd Lt. Julie Stoops on my response to you to keep her up to date on this case.

I did not receive a response to the e-mail that I sent to Dave Madden this morning. Lt. Stoops will step in if I do not receive a response.

I am very happy that the District Attorney's office is taking this case seriously. I will do everything humanly possible to get you the information that you need.

Lt. Stoops, please read the e-mail below that I received from ADA Lisa Borrelli. She is inquiring to any policies involving police pulling their guns on dogs. Are you aware of a policy regarding this? ADA Borrelli is also inquiring if we have a policy involving police breaking into a vehicle.

Any help you can provide is greatly appreciated.

Thanks a million!

Hello,

Christine, I saw your questions to Dave Madden. Thank you.

I am working on what I need for the prelim, and I have some questions/requests. our office is taking this quite seriously which means we will need to be ready for battle on July 21. Thank you in advance for all your assistance.

Also, I was looking for the citation in CPCMS. I could not find it. What am I missing? Do you still see it? I copied and pasted below what I saw on my search.....

| Birth(s) County Court Office | OTN        | Complaint #  | Incident #  |             | No results             |                    |
| found                        |            |              |             |             |                        | "No results found" |

If the citation is still active, the owner will need to have representation and witnesses to testify about the temperature and to refute the distress. This could get uncomfortable if it goes forward.

I found out that Genco attended training at Animal Friends on 3/11/20. It was a PowerPoint presentation on Defensive Dog Handling (it did not discuss the control pole). Hopefully, Dave Madden can confirm his attendance.

He supposedly attended NACA training, and Christine is working on getting the date. Can we get the syllabus for that course?

When you take the pictures of the dog gates, please keep a log of what trucks they are from, especially the one Genco used on 3/17. I wonder if the truck he used looks any different than the others?? It would be interesting if he could not pick out that gate from a stack of photos of the gates?

I will need someone to testify what a dog is like when it is in distress in a hot car. Also, Genco said the dog was in imminent danger and distress, yet they waited an hour to remove the dogs. That does not seem to fit....

Owner says he had a fan and a bowl of water in the car, police said there was no food or water.....can we get confirmation on the water and fan...where were they located in the vehicle? Could they be seen from the windows or were they out of sight?

I understand that the city paid the PVSEC vet bill. If so, who authorized the payment? Can we confirm that and get the receipt?

FYI: I have called our investigations unit to see what we can get from the license plate readers in the strip and county to see when the car came through and where it went.

I also heard that one of the officers pulled his gun. Is that true? Is there a policy on that?

Subject: INFORMATION NEEDED - JAMES GENCO

Good morning Dave,

The preliminary hearing involving James Genco is scheduled for July 21, 2021, at 2:00 pm.

ADA Lisa Borrelli is requesting the information below. Will you please let me know if these items exist?

1. Training records or any documentation for James Genco being trained on how to use a control pole? NACA training? Training at Animal Friends last year?
2. Are there any complaints (other than from HARP) about his work or the care he took of animals in his care/control?
3. Did James Genco file a damage report after the incident? If so, what date was it filed?
4. Does Animal Care and Control have a policy on how to respond to an animal/dog that is fighting, injured, etc.?
5. Are you there records that James Genco or John Lapp have made, other than the reports with HARP that recorded the temperature at 50 degrees?

Also, Officer Angie Fry and I need to come to Animal Care and Control to take photos of the truck cages/doors on all the vehicles. We will take the photos at the same angle of the photo that James Genco's attorney showed on the news.

Please let me know when a good day/time is for picking up any documentation you may have and taking the photos.

Thank you very much!

Lisa,

I received a call from Beckie Boffoli, 2517 Edgar St, Pgh 15227. She's yelling about Sheriff's deputies executing an arrest warrant for a Raimie Nater at her residence, searching her entire house, and sending pictures of her allegedly neglected dog to HAR or the Humane Society, and threatening her with arrest for harboring Nater as well as animal cruelty. Says she later came home to find a search warrant for her dog left at her house. She's threatening civil suits, of course. I told her she should contact a lawyer to advise her.

I wouldn't give the dogs back since they are evidence for the case. We can request ownership of the animals when the case makes it way to court, but I'll leave that decision up to DA Borrelli if she doesn't have an objection to that. After speaking with DA Borrelli previously we are charging him for all the dogs in and on the property.

Grotto 5 which is the possible felony charge is one of the dogs he is claiming ownership of by the sound of it.

Hi everyone,

So last week I had my admission department send a certified letter to Barr Tomlin regarding if he was claiming ownership to any of the dogs seized from Grotto Street. Our hope was that he didn't claim ownership and that we could proceed with the adoption process and find them loving homes as they are so sweet.....that plan was squashed today when Tomlin called my extension claiming that he owns 4 of the dogs...from his description I believe he is claiming Grotto 1, 2, 4 and the last one is a red male so that would either be 5 or 7. He left a number of 412-871-8358 and said he would pay a fine to get his dogs back.

Officer Klein, how would you like to proceed?

Thanks  
Angie

Subject: RE: Charging recommendations for Grotto Street

Good morning,

I checked the medical records for the Grotto Street dogs and it does appear that Grotto 5 did gain 14 pounds since being fed properly, which took him from a BCS of 2 (hips, ribs and spine easily visible) to a BCS of 4/9 which is ideal. Grotto 3 and Grotto 7 both have babesia, which is a disease similar to Lyme's disease and they are currently on medication treatment for that.

Dr. Eric Ledesma is the treating veterinarian on this case and did the forensic exams. Lisa, his email address is [eledesma@HumaneAnimalRescue.org](mailto:eledesma@HumaneAnimalRescue.org) in case you want to reach out to him to determine level of charges that he will substantiate.

Thanks  
Angie

Subject: Fwd: Charging recommendations for Grotto Street

Humane Officer Fry from Humane Animal Rescue sent us her recommendations for charges which i am forwarding to you. We were going to proceed based on what she recommended but need your approval for the felony charge for grotto #5 due to dog being underweight.

Grotto 5 has gained about 14lbs since being at their facility and is in good body condition now.

Subject: Charging recommendations for Grotto Street

Hi guys,

I have attached all the medical reports for the 7 dogs from Grotto St. Our numbers for the animals may not match your number (i.e. Grotto 1 may not be dog 1 on your evidence list). I apologize for this but the dogs were brought in before I got back. I have also listed below my charging recommendations, though discuss with the ADA as they may know ways to get higher charges. Grotto 5 will most likely be a felony for being underweight from lack of food but we won't know that for sure for another few weeks when we see weight gain and get blood work results back.

Grotto 1

5532 a(1) summary  
5532 a(2) summary  
5532 a(3) summary  
5533 – abandonment – summary

Grotto 2

5532 a(1) summary  
5532 a(2) summary  
5532 a(3) summary  
5533 – abandonment – summary

Grotto 3

5532 a(1) summary  
5532 a(2) summary  
5532 a(3) misdemeanor and summary  
5533 – abandonment – summary

Grotto 4

5532 a(1) summary  
5532 a(2) summary  
5532 a(3) summary  
5533 – abandonment – summary

Grotto 5

5534 a(1) torture from lack of food – felony  
5532 a(1) misdemeanor and summary  
5532 a(2) summary  
5533 – abandonment – summary

Grotto 6

Reply-To: luckyxtwo@aol.com

I would like to take a moment and thank you for all the animals that you have helped. On their behalf, I thank you. As to the poor defenseless animals that I am concerned about and have contacted you for help with, thank you for the 3 trips you made to the residence. It saddens me to know that upon your most recent arrival for a complaint concern over a dog being in the sun and heat, that you arrived at a time of day when neither the sun nor the heat were at an intolerable level for the dog. Beings that is was at 10 am and 73 degrees, I had only wished the weather had cooperated at the time of your visit. Maybe next time someone has a similar concern, you can arrive in the evening, as the sun is setting, to see that the animal has shade. No need to arrive in the heat of the day when the sun is shining when the complaint/concern is about a dog in the sun and heat.

Past communications with you have given me insight that I will further investigate. 1. The fact that you told me that you are not allowed to give information to the dog owner regarding animals/pet laws and that you urged me to look it up on line and print it out myself to give the person. 2. The law of the temperatures needing to be below 32 or above 90 degrees in order for the animal to maintain their own body temp., leaves me to wonder why when the temp is in the 80's combined with the humidity it feels like it's in the 90's that isn't sufficient reason to be concerned and the fact that had it been colder than 32, providing heat is ok, but if it is unbearably hot, no need to provide cool air is considered unless it is above 90 degrees. That just does not make sense nor is logical to me and I shall investigate the law further. I would like to see you or anyone else, stand in the sun with no shade and have only hot water to drink, survive the hours spent for days at a time. I wonder what that would do to a person and their body temperature.....

But, as I am limited to your efforts in getting help from your agency of employment, I feel it is no longer conducive for us to communicate further. You seem to believe that I am making this up because I do not have &quot;proof&quot; to back up my statements in the event it would go to court. Your insistence of proof, in order to pursue matters in court, leaves me doing your job. At which point, I will do the investigation myself, gathering any proof needed, and passing that on to someone that will take me seriously with my concerns. I realize that you don't have the vantage point of seeing it every day, all day, but you have also been helpful through your lack of believing me that I now have learned what I need to do to ensure that this poor dog doesn't suffer or die if I can help it. I do realize the magnitude of the numbers of calls for help you must get and the area that must be covered, but you did choose this profession and applied for the job. You seem to also lack any sense of duty in helping an animal, unless the person basically does it for you, and your lack of believing what someone has repeatedly told you of concern is concerning to me.

I wish you the best of luck, I pray you help as many animals as you can and I thank you for the information you have provided me in what I have to do, in order to help a suffering animal. I would lastly like to thank you for all the

communications, in the event that the animals suffers or dies, I can show the authority figure or judge, what was done/not done to help this dog out.

God bless.

Subject: Re: ACO case / NT citation issued for Erzen

Yes- our staff sent Christine lots of photos of Cash at HARP.

I also checked with Dr. Kal and she stated Cash was not suffering from heat stress- we need to check the bloodwork as there would be markers if he had heat stress.

I saw Cash within ten minutes of his arrival- definitely not suffering from heat stress.

Subject: ACO case / NT citation issued for Erzen

Hi,

So I found some issues that could be raised regarding the citations that were issued to dog owner Mathew Erzen surrounding the events that happened on March 17, 2021 involving Pittsburgh Police and Pittsburgh Animal Control. I called and spoke to Erzen on June 16, 2021 at approximately 1548 hours regarding his work on March 17, 2021. Erzen stated that he was at the new apartment complex that was being built in the Strip District on Waterfront Place but that he and his co-worker were only there that day to gather up their tools as they had completed the current job. Erzen stated that the complex is called The Edge 1909 and on March 17, 2021, it was unoccupied as it was still under construction. Erzen stated that there was a large construction trailer on the property site. Erzen stated that he arrived at approximately 0930 hours but that he did have to park a block or so away. Erzen stated that he and his co-worker were frequently walking back and forth from the apartment complex to the vehicle with the dogs inside as they were putting tools in the vehicle. Erzen stated that his vehicle has tinted windows (which would aid in keeping the vehicle cooler) and that his co-worker (whose name can be obtained) witnessed that the dogs were fine and that Erzen had a fan on inside of the vehicle for them as well as water.

I then looked at the police report from Officer Rende from March 17, 2021. Genco, his attorney and the police officers stated that Rende had to draw his gun as "Cash" (the injured dog) was severely aggressive, yet that is not mentioned in Rende's police report. In my experience and training as a law enforcement officer, you should always document when you had to draw your duty weapon for what you feel is an imminent threat to your life or the lives of those around you. The report from Rende states that Pittsburgh Animal Control searched for the owner and that he was satisfied with their attempt, though in the report from Genco, it states that neighbors told Pittsburgh Animal Control that the vehicle may belong to a construction worker and that Genco searched 21st Street, Smallman St and Waterfront Place. If that were true, and he was told that the vehicle may belong to a construction worker, then he and his partner would clearly have seen the construction site on Waterfront Place and would then have the opportunity to ask about the owner of the vehicle.

Rende reported that the dogs were in the vehicle for a "prolonged period of time"...how did he determine that information? He also reported that the dogs were in distress...yet he still has not stated what he saw as signs of distress. Rende reported that the white dog was "calm" and curled up on the seat, but "breathing heavily" and that the brown dog ("cash") was aggressive and barking. If a dog is having difficulty in breathing, it would not instinctively curl up, thus making its chest cavity smaller with less room for the lungs to inflate. Instead, the dog would most likely lay lateral to expand its chest cavity and lung capacity. Also, if a dog is in "distress" from a hot environment, the dog would not be barking, lunging at the windows or attempting to viciously bite anyone. Rende reported that "the temperature was steadily rising", however past weather on Weather.com shows that at 1055 hours on March 17, 2021 the temperature was 50 degrees with fog and 67% humidity and at 1153 hours (which is right after the dogs were documented as being removed) was 54 degrees with fog and 59% humidity. The high temperature recorded on March 17, 2021 was 65 degrees with 37% humidity and that was at 1653 hours, long after this incident occurred.

Genco reported in his ACC report that they arrived on scene at 1055 hours and that the dogs were removed at 1145 hours. If the dogs were in as much danger as is being portrayed by Genco and Rende, then why did they wait 50 minutes to remove the dogs from the vehicle? When the dogs arrived at Humane Animal Rescue at 1210 hours, they did not show ANY signs of a heat related illness or injury.

Finally this incident happened on March 17, 2021, Genco was placed on administrative leave on April 1, 2021 and the citation was not filed by Rende until April 6, 2021...almost 3 weeks later. This would appear to defense counsel as

retaliation against the investigation and potential civil law suit that Erzen is considering filing against Pittsburgh Animal Control.

Just my thoughts on this if I were a defense attorney.

Officer Shelton went to 2621 and 2623 Brownsville Road. He informed me that there are no turtles in these stores.

Do you want me to send you a copy of the police reports? If so, should I fax them?

Copy, Appreciate all your help with this case.  
I won't be back at the zone until Saturday, if you want I can speak with Tomlin about the animals then and address any of his concerns.

I wouldn't give the dogs back since they are evidence for the case. We can request ownership of the animals when the case makes it way to court, but I'll leave that decision up to DA Borrelli if she doesn't have an objection to that. After speaking with DA Borrelli previously we are charging him for all the dogs in and on the property.

Grotto 5 which is the possible felony charge is one of the dogs he is claiming ownership of by the sound of it.

Subject: RE: Charging recommendations for Grotto Street

Hi everyone,

So last week I had my admission department send a certified letter to Barr Tomlin regarding if he was claiming ownership to any of the dogs seized from Grotto Street. Our hope was that he didn't claim ownership and that we could proceed with the adoption process and find them loving homes as they are so sweet.....that plan was squashed today when Tomlin called my extension claiming that he owns 4 of the dogs...from his description I believe he is claiming Grotto 1, 2, 4 and the last one is a red male so that would either be 5 or 7. He left a number of 412-871-8358 and said he would pay a fine to get his dogs back.

Officer Klein, how would you like to proceed?

Thanks  
Angie

Good morning,

I checked the medical records for the Grotto Street dogs and it does appear that Grotto 5 did gain 14 pounds since being fed properly, which took him from a BCS of 2 (hips, ribs and spine easily visible) to a BCS of 4/9 which is ideal. Grotto 3 and Grotto 7 both have babesia, which is a disease similar to Lyme's disease and they are currently on medication treatment for that.

Dr. Eric Ledesma is the treating veterinarian on this case and did the forensic exams. Lisa, his email address is [eledesma@HumaneAnimalRescue.org](mailto:eledesma@HumaneAnimalRescue.org) in case you want to reach out to him to determine level of charges that he will substantiate.

Thanks  
Angie

Humane Officer Fry from Humane Animal Rescue sent us her recommendations for charges which i am forwarding to you. We were going to proceed based on what she recommended but need your approval for the felony charge for grotto #5 due to dog being underweight.

Grotto 5 has gained about 14lbs since being at their facility and is in good body condition now.

Hi guys,

I have attached all the medical reports for the 7 dogs from Grotto St. Our numbers for the animals may not match your number (i.e. Grotto 1 may not be dog 1 on your evidence list). I apologize for this but the dogs were brought in before I got back. I have also listed below my charging recommendations, though discuss with the ADA as they may know ways to get higher charges. Grotto 5 will most likely be a felony for being underweight from lack of food but we won't know that for sure for another few weeks when we see weight gain and get blood work results back.

Grotto 1

I wouldn't give the dogs back since they are evidence for the case. We can request ownership of the animals when the case makes it way to court, but I'll leave that decision up to DA Borrelli if she doesn't have an objection to that. After speaking with DA Borrelli previously we are charging him for all the dogs in and on the property.

Grotto 5 which is the possible felony charge is one of the dogs he is claiming ownership of by the sound of it.

Ok.

I don't think it is a bad idea to speak with Dr. Winnie and the Vet Tech.

I will let Ms. Hartz know to file a complaint with the Veterinary Board.

Thanks for your help.

Subject: INCIDENT AT GREENFIELD VETERINARY HOSPITAL

Hello,

Please read the narrative of the report I wrote below. Any suggestions or help is appreciated. Thanks!

---

On June 14, 2021, I received a call from Heather Hartz. She told me that she was referred to me by another Pittsburgh police officer. Ms. Hartz reported that she took her 16-year-old Beagle named "Snoopy" to Greenfield Veterinary Hospital on Sunday, June 6, 2021. She informed me that "Snoopy" needed veterinary care because he seemed to be in pain and was losing mobility in his legs. Ms. Hartz told me that "Snoopy" was a very friendly dog, but when she touched him in an area of his body that was painful that he would nip her hand. She told me that she told the Veterinary Technician and Dr. Sean Winnie that "Snoopy" was nipping her when she touched him in certain areas on his body.

Ms. Hartz reported that when she arrived at Greenfield Veterinary Hospital that she, a friend, and "Snoopy" were escorted to a room in the basement and that she laid on a blanket on the floor with her dog. She told me that about 45 minutes later that Dr. Sean Winnie came into the room and was not nice or sympathetic to her or the situation. Ms. Hartz stated that Dr. Winnie told her that she has already been to Avets twice and asked her what she is doing here. She said that she told Dr. Winnie that she wanted him to examine "Snoopy" and told him that the dog nips her when she touches an area that is painful to him.

Ms. Hartz reported that Dr. Winnie knelt on the floor and began touching "Snoopy". She said that the dog "nipped" his thumb and he screamed "God damn it".... Ms. Hartz told me that Dr. Winnie became enraged and that his hands were shaking. Ms. Hartz said that the dog did not break Dr. Winnie's skin and that he did not bleed. She informed me that "Snoopy" was lying on the floor when Dr. Winnie began to examine him and that after "Snoopy" nipped his thumb that he turned him upside down and began choking him. Ms. Hartz told me that Dr. Winnie began choking her dog's neck using his forearm and upper arm and that "Snoopy" struggled to breathe. She reported that Dr. Winnie held "Snoopy" in this position for 1 to 2 minutes while the Veterinary Technician retrieved a muzzle. Ms. Hartz reported that Dr. Winnie said, "He's not used to not being in charge" while he was choking "Snoopy". She told me that the Veterinary Technician put a muzzle on "Snoopy" and that Dr. Winnie recommended that "Snoopy" be euthanized. Ms. Hartz told me that Dr. Winnie told her that "Snoopy" is suffering from a neurological problem and that he was not able to move one of his legs and only able to move another leg slightly. Ms. Hartz reported that the Veterinary Technician gave "Snoopy" a shot to relax him and that Dr. Winnie gave "Snoopy" the fatal injection.

Ms. Hartz informed me that she was and remains totally shocked and traumatized by the way that Dr. Winnie treated "Snoopy". She told me that he "man handled" her dog and that she couldn't believe it when he began choking him. Ms. Winnie said that she wanted to take her dog and leave but remained at the veterinary hospital because she realized that her dog needed to be euthanized and did what was best for him.

Ms. Hartz reported that she is outraged by Dr. Winnie's treatment of "Snoopy" and that how he treated her dog was unprofessional and wrong. She stressed that she warned the Veterinary Technician and Dr. Winnie that "Snoopy" was nipping when certain areas of his body were touched. Ms. Hartz believes that a muzzle should have been put on her dog before Dr. Winnie began examining him.

Ms. Hartz cried during our conversation. She told me that Dr. Winnie needs to be accountable for his treatment of "Snoopy".

I will reach out to ADA Lisa Borrelli and Officer Angie Fry from Humane Animal Rescue to discuss this case.

Investigation to continue.

I do not know this vet. I could see this happening and could see how this would be the story that was presented by the owner. The other side may sound the same but with leaning towards the dog having a painful condition and the Dr restraining the dog and trying to keep from getting bitten while getting a muzzle onto the dog. He said, she said...hard to say much more without records or being there.

She told me that the Veterinary Technician put a muzzle on "Snoopy" and that Dr. Winnie recommended that "Snoopy" be euthanized. Ms. Hartz told me that Dr. Winnie told her that "Snoopy" is suffering from a neurological problem and that he was not able to move one of his legs and only able to move another leg slightly. Ms. Hartz reported that the Veterinary Technician gave "Snoopy" a shot to relax him and that Dr. Winnie gave "Snoopy" the fatal injection.

Ms. Hartz informed me that she was and remains totally shocked and traumatized by the way that Dr. Winnie treated "Snoopy". She told me that he "man handled" her dog and that she couldn't believe it when he began choking him. Ms. Winnie said that she wanted to take her dog and leave but remained at the veterinary hospital because she realized that her dog needed to be euthanized and did what was best for him.

Ms. Hartz reported that she is outraged by Dr. Winnie's treatment of "Snoopy" and that how he treated her dog was unprofessional and wrong. She stressed that she warned the Veterinary Technician and Dr. Winnie that "Snoopy" was nipping when certain areas of his body were touched. Ms. Hartz believes that a muzzle should have been put on her dog before Dr. Winnie began examining him.

Ms. Hartz cried during our conversation. She told me that Dr. Winnie needs to be accountable for his treatment of "Snoopy".

I will reach out to ADA Lisa Borrelli and Officer Angie Fry from Humane Animal Rescue to discuss this case.

Investigation to continue.

Subject: INCIDENT AT GREENFIELD VETERINARY HOSPITAL

Hello,

Please read the narrative of the report I wrote below. Any suggestions or help is appreciated. Thanks!

---

On June 14, 2021, I received a call from Heather Hartz. She told me that she was referred to me by another Pittsburgh police officer. Ms. Hartz reported that she took her 16-year-old Beagle named "Snoopy" to Greenfield Veterinary Hospital on Sunday, June 6, 2021. She informed me that "Snoopy" needed veterinary care because he seemed to be in pain and was losing mobility in his legs. Ms. Hartz told me that "Snoopy" was a very friendly dog, but when she touched him in an area of his body that was painful that he would nip her hand. She told me that she told the Veterinary Technician and Dr. Sean Winnie that "Snoopy" was nipping her when she touched him in certain areas on his body.

Ms. Hartz reported that when she arrived at Greenfield Veterinary Hospital that she, a friend, and "Snoopy" were escorted to a room in the basement and that she laid on a blanket on the floor with her dog. She told me that about 45 minutes later that Dr. Sean Winnie came into the room and was not nice or sympathetic to her or the situation. Ms. Hartz stated that Dr. Winnie told her that she has already been to Avets twice and asked her what she is doing here. She said that she told Dr. Winnie that she wanted him to examine "Snoopy" and told him that the dog nips her when she touches an area that is painful to him.

Ms.. Hartz reported that Dr. Winnie knelt on the floor and began touching "Snoopy". She said that the dog "nipped" his thumb and he screamed "God damn it".. Ms. Hartz told me that Dr. Winnie became enraged and that his hands were shaking. Ms. Hartz said that the dog did not break Dr. Winnie's skin and that he did not bleed. She informed me that "Snoopy" was lying on the floor when Dr. Winnie began to examine him and that after "Snoopy" nipped his thumb that he turned him upside down and began choking him. Ms. Hartz told me that Dr. Winnie began choking her dog's neck using his forearm and upper arm and that "Snoopy" struggled to breathe. She reported that Dr. Winnie held "Snoopy" in this position for 1 to 2 minutes while the Veterinary Technician retrieved a muzzle. Ms. Hartz reported that Dr. Winnie said, "He's not used to not being in charge" while he was choking "Snoopy". She told me that the Veterinary Technician put a muzzle on "Snoopy" and that Dr. Winnie recommended that "Snoopy" be euthanized. Ms. Hartz told me that Dr. Winnie told her that "Snoopy" is suffering from a neurological problem and that he was not able to move one of his legs and only able to move another leg slightly. Ms. Hartz reported that the Veterinary Technician gave "Snoopy" a shot to relax him and that Dr. Winnie gave "Snoopy" the fatal injection.

Ms. Hartz informed me that she was and remains totally shocked and traumatized by the way that Dr. Winnie treated "Snoopy". She told me that he "man handled" her dog and that she couldn't believe it when he began choking him. Ms. Winnie said that she wanted to take her dog and leave but remained at the veterinary hospital because she realized that her dog needed to be euthanized and did what was best for him.

Ms. Hartz reported that she is outraged by Dr. Winnie's treatment of "Snoopy" and that how he treated her dog was unprofessional and wrong. She stressed that she warned the Veterinary Technician and Dr. Winnie that "Snoopy" was nipping when certain areas of his body were touched. Hi,

Was a necropsy completed to see if there is bruising, trauma or injury to the neck of the dog from a large humane on a small dog?

Without physical proof of injury, I think it may be a hard one to prove since the only witnesses are Heather, the vet and vet tech.

I agree with Lisa....I don't think you can prove a crime here so reporting him to the vet board may be the only option.

Subject: RE: Charging recommendations for Grotto Street

Hi everyone,

So last week I had my admission department send a certified letter to Barr Tomlin regarding if he was claiming ownership to any of the dogs seized from Grotto Street. Our hope was that he didn't claim ownership and that we could proceed with the adoption process and find them loving homes as they are so sweet.....that plan was squashed today when Tomlin called my extension claiming that he owns 4 of the dogs...from his description I believe he is claiming Grotto 1, 2, 4 and the last one is a red male so that would either be 5 or 7. He left a number of 412-871-8358 and said he would pay a fine to get his dogs back.

Officer Klein, how would you like to proceed?

Thanks  
Angie

Subject: RE: Charging recommendations for Grotto Street

Good morning,

I checked the medical records for the Grotto Street dogs and it does appear that Grotto 5 did gain 14 pounds since being fed properly, which took him from a BCS of 2 (hips, ribs and spine easily visible) to a BCS of 4/9 which is ideal. Grotto 3

and Grotto 7 both have babesia, which is a disease similar to Lyme's disease and they are currently on medication treatment for that.

Dr. Eric Ledesma is the treating veterinarian on this case and did the forensic exams. Lisa, his email address is [eledesma@HumaneAnimalRescue.org](mailto:eledesma@HumaneAnimalRescue.org) in case you want to reach out to him to determine level of charges that he will substantiate.

Thanks  
Angie

Thank you. I was not aware of the facts of this case. Do you have a factual summary or a draft of your Aff of Probable Cause?

Also, I think Angie is looking at updated med records so I will need to wait for those as well to approve the charges.

Thanks,

Subject: Fwd: Charging recommendations for Grotto Street

Humane Officer Fry from Humane Animal Rescue sent us her recommendations for charges which i am forwarding to you. We were going to proceed based on what she recommended but need your approval for the felony charge for grotto #5 due to dog being underweight.

Grotto 5 has gained about 14lbs since being at their facility and is in good body condition now.

Subject: Charging recommendations for Grotto Street

Hi guys,

I have attached all the medical reports for the 7 dogs from Grotto St. Our numbers for the animals may not match your number (i.e. Grotto 1 may not be dog 1 on your evidence list). I apologize for this but the dogs were brought in before I got back. I have also listed below my charging recommendations, though discuss with the ADA as they may know ways to get higher charges. Grotto 5 will most likely be a felony for being underweight from lack of food but we won't know that for sure for another few weeks when we see weight gain and get blood work results back.

Hello CJ!

Thank you for letting me know that a Right to Know Request was received about the videos involving the incident with Animal Care and Control Officer James Genco with the dog that was injured. I cc'd ADA Lisa Borrelli on my response to your e-mail so she is aware that this was filed.

I am glad that these videos will not be released. The videos are evidence.

Thank you!

RE: Police camera footage  
Request No.

Dear Mr. Ettinger:

Today, the City of Pittsburgh Open Records Office received your request for a video recording made by the Pittsburgh Bureau of Police pursuant to Pennsylvania's Right-To-Know Law (RTKL), 65 P.S. §§67.101-3104. However, recent amendments to the Judicial Code, 42 Pa.C.S. 101 et. seq., exempt law enforcement recordings from public access under the RTKL. Section 67A02(a) of the Judicial Code provides the following:

The provisions of this chapter, and not the act of February 14, 2008 (P.L. 6, No. 3), known as the Right-to-Know Law shall apply to any audio recording or video recording made by a law enforcement agency.

42 Pa.C.S. § 67A02(a).

Accordingly, the City of Pittsburgh Open Records Office will not process your request under the RTKL. We are returning your request to you.

However, the Judicial Code does provide a procedure by which an individual may request an audio or video recording made by a law enforcement agency. Section 67A03 provides the following:

§67A03. Requests for law enforcement audio recordings or video recordings.

The following shall apply:

1. An individual who requests an audio recording or video recording made by a law enforcement agency shall, within 60 days of the date when the audio recording or video recording was made, serve a written request to the individual who is designated as the open-records officer for the law enforcement agency under section 502 of the act of February 14, 2008 (P.L.6, No.3), known as the Right-to-Know Law. Service is effective upon receipt of the written request by the open-records officer from personal delivery or certified mail with proof of service.
2. The request under paragraph (1) shall specify with particularity the incident or event that is the subject of the audio recording or video recording, including the date, time and location of the incident or event.
3. The request shall include a statement describing the requester's relationship to the incident or event that is the subject of the audio or video recording.
4. If the incident or event that is the subject of the audio recording or video recording occurred inside a residence, the request shall identify each individual who was present at the time of the audio recording or video recording unless not known and not reasonably ascertainable.

Should you follow the procedures outlined above, the Bureau of Police will process your request in accordance with the law. Send your request for camera footage to:

Thomas Stangrecki, Deputy Chief of Police

Pittsburgh Bureau of Police

1203 Western Avenue

Pittsburgh PA 15233

Sincerely yours,

Celia B. Liss

Subject: INCIDENT AT GREENFIELD VETERINARY HOSPITAL

Hello,

Please read the narrative of the report I wrote below. Any suggestions or help is appreciated. Thanks!

-----

On June 14, 2021, I received a call from Heather Hartz. She told me that she was referred to me by another Pittsburgh police officer. Ms. Hartz reported that she took her 16-year-old Beagle named "Snoopy" to Greenfield Veterinary Hospital on Sunday, June 6, 2021. She informed me that "Snoopy" needed veterinary care because he seemed to be in pain and was losing mobility in his legs. Ms. Hartz told me that "Snoopy" was a very friendly dog, but when she touched him in an area of his body that was painful that he would nip her hand. She told me that she told the Veterinary Technician and Dr. Sean Winnie that "Snoopy" was nipping her when she touched him in certain areas on his body.

Ms. Hartz reported that when she arrived at Greenfield Veterinary Hospital that she, a friend, and "Snoopy" were escorted to a room in the basement and that she laid on a blanket on the floor with her dog. She told me that about 45 minutes later that Dr. Sean Winnie came into the room and was not nice or sympathetic to her or the situation. Ms. Hartz stated that Dr. Winnie told her that she has already been to Avets twice and asked her what she is doing here. She said that she told Dr. Winnie that she wanted him to examine "Snoopy" and told him that the dog nips her when she touches an area that is painful to him.

Ms.. Hartz reported that Dr. Winnie knelt on the floor and began touching "Snoopy". She said that the dog "nipped" his thumb and he screamed "God damn it".. Ms. Hartz told me that Dr. Winnie became enraged and that his hands were shaking. Ms. Hartz said that the dog did not break Dr. Winnie's skin and that he did not bleed. She informed me that "Snoopy" was lying on the floor when Dr. Winnie began to examine him and that after "Snoopy" nipped his thumb that he turned him upside down and began choking him. Ms. Hartz told me that Dr. Winnie began choking her dog's neck using his forearm and upper arm and that "Snoopy" struggled to breathe. She reported that Dr. Winnie held "Snoopy" in this position for 1 to 2 minutes while the Veterinary Technician retrieved a muzzle. Ms. Hartz reported that Dr. Winnie said, "He's not used to not being in charge" while he was choking "Snoopy". She told me that the Veterinary Technician put a muzzle on "Snoopy" and that Dr. Winnie recommended that "Snoopy" be euthanized. Ms. Hartz told me that Dr. Winnie told her that "Snoopy" is suffering from a neurological problem and that he was not able to move one of his legs and only able to move another leg slightly. Ms. Hartz reported that the Veterinary Technician gave "Snoopy" a shot to relax him and that Dr. Winnie gave "Snoopy" the fatal injection.

Ms. Hartz informed me that she was and remains totally shocked and traumatized by the way that Dr. Winnie treated "Snoopy". She told me that he "man handled" her dog and that she couldn't believe it when he began choking him. Ms. Winnie said that she wanted to take her dog and leave but remained at the veterinary hospital because she realized that her dog needed to be euthanized and did what was best for him.

Ms. Hartz reported that she is outraged by Dr. Winnie's treatment of "Snoopy" and that how he treated her dog was unprofessional and wrong. She stressed that she warned the Veterinary Technician and Dr. Winnie that "Snoopy" was nipping when certain areas of his body were touched. Ms. Hartz believes that a muzzle should have been put on her dog before Dr. Winnie began examining him.

Ms. Hartz cried during our conversation. She told me that Dr. Winnie needs to be accountable for his treatment of "Snoopy".

I will reach out to ADA Lisa Borrelli and Officer Angie Fry from Humane Animal Rescue to discuss this case.

Investigation to continue.

 Subject: Re: Agenda 1/6/2021

Hi Meagan

I wanted to touch base briefly on the Training for Animal Care & Control Staff Topics from your 1st meeting agenda:

1. NACA Training--Officers John Lapp, Leo Mincin, James Genco, Tracy Gray, Darryl Dwyer, Jeff Iley, Steve Costa, Patrick Corcoran, Dina Serpa and Karen Jones have all attended and passed this training. The following officers still must go Duane Eagan, Russell Haley, Ray Kranak and Jarvis Kane. In addition, Officers Darryl Dwyer, Patrick Corcoran, Dina Serpa & Karen Jones have all attended and pass the Humane Police Officer training. Finally, all officers except R. Haley, R. Kranak and Jarvis attended hands on dog training at Animal Friends this year before the Pandemic hit.
2. Case confidentiality--we are working on this topic together
3. Dog & cat body language--NACA, HPO and AF training and on the job training

4. Correct use of safety equipment--I'm guessing you are talking about control poles and cat tongs, correct? If yes, then we have a difference of opinion here that I'm not sure how it can be resolved, but I'm willing to discuss options
5. Defensive handling techniques--I'm not sure what you are referring to here
6. Microchip scanning--thanks to Wendell we had 5 scanners donated to us back in October 2016. My live and dead animal truck officers use our scanners a lot. However, I have instructed them not to try to scan any aggressive, fearful, or unsafe animals, because the animal may escape and/or injure them. I know that most of my officers need to remember to scan animals whenever safe to do so
7. Medical Emergencies--when I was told that my officers were going to need to decide whether an injured and/or sick animal needed to go to the PVSEC instead of HAR, I said that I was very concerned about their decisions because none of them are Vet techs and even with their years of experience as an AC&C Officer they would probably make some mistakes, Dr. Samson and I have spoken about many injured and/or sick animals and I believe this will continue to be a work in progress. If possible, it would be a huge help when Dr. Samson has the time to provide some signs/symptoms for the 18 + injuries and/or illnesses that won't be treated at HAR.
8. Search & Seizure--I agree a meeting with Angela, ADA, Christine Luffey and you will help provide answers needed
9. SI and Animal Control Forms--I had my officers go through cross out ARL/Animal Rescue League on any forms for now until we can get new forms printed. We are still behind the times when it comes to technology, but we are working on it
10. Dog Bites--I have informed my officers again on how important bite case forms are and that the forms are to be completed as much as possible especially when bringing biter animals to you via a signed "SI" form
11. Wildlife Harassment techniques--my officers aren't directly involved with providing these different techniques to the residents because they are either delivering a trap or picking up a trap. Coralie and I do our best to discourage every resident that calls us for a live trap by informing them of various harassment techniques they can use. About 1/3 of these residents will listen to us. The other 2/3rds will start yelling at us or just go out and buy their own live trap. I estimate that about 50% of the residents now have their own live traps and will set them on their properties as they see fit. However, if they want my officers to come and remove the wildlife, they trapped then they must follow our rules (listed on our website) and Coralie and I will tell them the rules just to be sure that they know them. If they violate any of my rules, then I'm legally allowed to seize their traps and not return them to the residents. I have worked very hard at reducing the numbers of wild mammals my officers have taken from live traps over the years. I also severely limit the number of traps that I will lend to residents, but many of these residents call their council rep, the mayor or even Wendell to complain that I wouldn't lend them a trap.
12. Community Cats--we must figure out ways we can help each other with this topic
13. Biosecurity--I need to know what you mean for this topic

In addition to the NACA, PHO and AF training, my officers also have had the following additional training/certifications:

1. Swiftwater Rescue--land-based
2. Humane Wildlife Euthanasia--taught by a Veterinarian
3. Animal Behavior
4. Reptile handling techniques
5. Zoo/exotic animal handling techniques--Pittsburgh Zoo Staff
6. Raptor, fowl, and other kinds of birds handling techniques--Pittsburgh Zoo Staff
7. Police Tactical training
8. ASP Baton & pepper spray training--Pittsburgh Police
9. Verbal Judo/Crisis Intervention
10. CPR & Basic 1st Aid
11. Wildlife training--PA Game Wardens

Finally, the following is a list of my current officers (by seniority) and the number of years each has been an AC&C Officer:

1. John Lapp = 35 yrs.
2. Leo Mincin = 32 yrs.
3. James Genco = 23 yrs.
4. Tracy Gray =13 yrs.
5. Darryl Dwyer = 10 yrs.
6. Jeff Ley = 10 yrs.
7. Steve Costa = 10 yrs.
8. Duane Eagan = 4.5 yrs.
9. Patrick Corcoran = 4.5 yrs.
10. Dina Serpa = 4.5 yrs.
11. Russell Haley = 4 yrs.
12. Karen Jones = 3.5 yrs.
13. Ray Kranak = 2.3 yrs.
14. Jarvis Kane = in training, just hired on 11/23/2020

I have been the Supervisor of Pittsburgh Bureau of AC&C since 6/1/2016, but I also bring with me over 35 years of animal shelter experience

Thanks

Dave

Good morning,

I am still waiting on the vet report....I've been pushing him to get it done. I've been told that it should be done today but I will confirm that and express to him again that it needs done.

I am so sorry for the delay.

Angie

Hello,

Just following up and seeing if you had time to review the medical records and speak with the treating veterinarian about recommending charges for 1323 Grotto Street.

Subject: RE: Charging recommendations for Grotto Street

Good morning,

I checked the medical records for the Grotto Street dogs and it does appear that Grotto 5 did gain 14 pounds since being fed properly, which took him from a BCS of 2 (hips, ribs and spine easily visible) to a BCS of 4/9 which is ideal. Grotto 3

and Grotto 7 both have babesia, which is a disease similar to Lyme's disease and they are currently on medication treatment for that.

Dr. Eric Ledesma is the treating veterinarian on this case and did the forensic exams. Lisa, his email address is [eledesma@HumaneAnimalRescue.org](mailto:eledesma@HumaneAnimalRescue.org) in case you want to reach out to him to determine level of charges that he will substantiate.

Thanks  
Angie

Thank you. I was not aware of the facts of this case. Do you have a factual summary or a draft of your Aff of Probable Cause?

Also, I think Angie is looking at updated med records so I will need to wait for those as well to approve the charges.

Thanks,  
Lisa

Subject: Fwd: Charging recommendations for Grotto Street

Humane Officer Fry from Humane Animal Rescue sent us her recommendations for charges which i am forwarding to you. We were going to proceed based on what she recommended but need your approval for the felony charge for grotto #5 due to dog being underweight.

Grotto 5 has gained about 14lbs since being at their facility and is in good body condition now.

Subject: Charging recommendations for Grotto Street

Hi guys,

I have attached all the medical reports for the 7 dogs from Grotto St. Our numbers for the animals may not match your number (i.e. Grotto 1 may not be dog 1 on your evidence list). I apologize for this but the dogs were brought in before I got back. I have also listed below my charging recommendations, though discuss with the ADA as they may know ways to get higher charges. Grotto 5 will most likely be a felony for being underweight from lack of food but we won't know that for sure for another few weeks when we see weight gain and get blood work results back.
