Subject: Fwd: Nondrowning Asphyxia in Veterinary Forensic Pathology: Suffocation, Strangulation, and Mechanical Asphyxia - B. J. McEwen, 2016

Dr. Samson sent me this article regarding strangulation injuries in dogs. Read over it and send it to the experts and see their thoughts for the PetSmart case.

Like in humans, a dog's brain can go 4-6 minutes without oxygen showing that had the staff intervened, it would've made a different outcome in Kobe's death.

Any luck from Petsmart? All we need is certification from them saying the training manuals are true and correct copies.

Also, can you please send me a copy of the signed warrant? I printed up your email from Alarid.

We will need to verify the chain of evidence from your warrant to the receipt of the materials…

Subject: Frick Building After Hours Access Swipe Cards

Folks,

We have swipe cards assigned to you for you to use if you need to gain entry to the Frick Building after hours. I am the keeper of the cards and you must pick the card up from me.*

The building is open between _____ Monday through Friday. If you wish to come into the building at other times you can use the assigned swipe card at the Fifth Avenue handicapped entry. When you enter the building you must inform the guard at the desk of the floor to which you are going. You then can take the elevator and enter our office using the keypad as normal.

The swipe card is assigned to you only and will record your entry. Do Not lend your card to any one else.

Subject: Re: Louie (Esai Mohamed-Jones)

There was a surrender form signed originally on the night of confiscation but then the defendant and Thornton said at prelim that they were forced to sign it by the police. That is also what Meghan Montmeny told me as well.

Honestly getting a status conference would be quickest and easiest at this point. I know it will have to wait until after the holiday, which is fine, but I wanted to get it on your radar and get it moving forward.

Thanks
Angie

On Nov 22, 2022, at 10:03, Borrelli, Lisa <lborrelli@allegHENYcountyda.us> wrote:

There is no status conference scheduled for this case. We can ask for one when I get back.

The last known address would be the one on the police report, which I think you have:
445 Michigan Street
Pittsburgh, PA 15210

In reviewing the report I noticed that Thornton signed a HARP relinquishment form.

CP has defense counsel listed as you know and it has not changed as far as I am aware:
Name: Justin John-Earl Ketchel Private
Supreme Court No: 209718 Rep.
Status: Active
Phone Number(s): 412-456-1221 (Phone)
Address: 429 4TH Ave Ste 1600 Pittsburgh, PA 15219-1500
Representing: Mohamed-Jones, Esai Cochise

I called them today and had to leave a message. It seems your timing is not the most productive since everything is shutting down for the holiday.

Subject: RE: Louie (Esai Mohamed-Jones)

We did discuss this last week. We can't do a cost of care because for that to occur, the defendant has to be able to be served the petition so they he or she may show up at the civil hearing to state their case, which in this case we don't know where he is so he could not be served. A cost of care hearing would not be scheduled until the defendant can be served the petition. We just want ownership of the dog so that he can be adopted. He isn't going to pay costs anyways, no one ever does.

Could you please provide me with the defense counsel contact information and a last known address of the defendant so that I can start the process? Why do we need to do one letter and then a follow up letter 10 days later? Can't we just state our intent in the first letters and save time? The end game that we are seeking (ownership of the dog) would be stated in both sets of letters anyways since obviously we don't want to give a defendant back evidence of a crime in the middle of criminal proceedings.

Is there a status conference scheduled by chance? If not, could you ask defense counsel if there could be one scheduled? I know that with my defendant in my McKeesport case, he was also on the run from a bond forfeiture and at the status conference, the ADA asked the judge on record with defense counsel present, for ownership of the dogs since the defendant was on the run and we had no idea where he was to have a trial. The judge asked if defense counsel had any objections, to which he did not as he had no contact with his client and Judge Mariani ordered the forfeiture of the dogs to HARP.

Good Morning,

I think we have talked about this before. There were some steps to complete before a motion. A letter to the defendant of your intention to seek surrender should go to both the Defendant and his counsel. We talked about a certified and regular mail letter to his last known address and a copy to his defense counsel giving them 10 days to respond. Then if there is no response, a follow up letter that you intend to ask the Court to grant surrender of the dog. Then we draft the motion and give them time to respond. However, the end result is still the question. What is it that you want him to do (other than to show up in court so we can get the dog that way) and that you can ask for? You can't have him claim the dog. If you want it paid for, then you can file a cost of care. I guess you would ask for him to surrender the dog or you will go to Court to get it surrendered, but I doubt that will get a response since the end result is the same.

Once you have the letters sent, please send me a copy so that I can attach it to the motion.

Thanks,
Lisa

Subject: Louie (Esai Mohamed-Jones)

Good morning,

Humane Animal Rescue of Pittsburgh currently has "Louie" in our care after the dog was confiscated as part of a criminal investigation by Ross Twp. Police in May 2021. The defendant in the case Esai Mohamed-Jones is currently evading arrest and has a bench warrant for a bond forfeiture. His whereabouts are unknown to law enforcement or the courts at this time and there is no new trial date set. I have discussed this case with my executive director, Gerry Delon, and we are requesting that a motion be brought in front of Judge Flaherty and defense counsel asking for forfeiture of all ownership rights and that the court grant ownership to Humane Animal Rescue of Pittsburgh so that Louie can be placed into a loving, forever home.

Please let me know what information or assistance I can provide in this matter.

Thank you
Angie

There was a surrender form signed originally on the night of confiscation but then the defendant and Thornton said at prelim that they were forced to sign it by the police. That is also what Meghan Montmeny told me as well.

Honestly getting a status conference would be quickest and easiest at this point. I know it will have to wait until after the holiday, which is fine, but I wanted to get it on your radar and get it moving forward.

Thanks
Angie

There is no status conference scheduled for this case. We can ask for one when I get back.

The last known address would be the one on the police report, which I think you have:
445 Michigan Street
Pittsburgh, PA 15210

In reviewing the report I noticed that Thornton signed a HARP relinquishment form.

CP has defense counsel listed as you know and it has not changed as far as I am aware:
Name: Justin John-Earl Ketchel Private
Supreme Court No: 209718 Rep.
Status: Active
Phone Number(s): 412-456-1221 (Phone)
Address: 429 4TH Ave Ste 1600 Pittsburgh, PA 15219-1500
Representing: Mohamed-Jones, Esai Cochise

I called them today and had to leave a message. It seems your timing is not the most productive since everything is shutting down for the holiday.

Subject: RE: Louie (Esai Mohamed-Jones)

We did discuss this last week. We can't do a cost of care because for that to occur, the defendant has to be able to be served the petition so they he or she may show up at the civil hearing to state their case, which in this case we don't know where he is so he could not be served. A cost of care hearing would not be scheduled until the defendant can be served the petition. We just want ownership of the dog so that he can be adopted. He isn't going to pay costs anyways, no one ever does.

Could you please provide me with the defense counsel contact information and a last known address of the defendant so that I can start the process? Why do we need to do one letter and then a follow up letter 10 days later? Can't we just state our intent in the first letters and save time? The end game that we are seeking (ownership of the dog) would be stated in both sets of letters anyways since obviously we don't want to give a defendant back evidence of a crime in the middle of criminal proceedings.

Is there a status conference scheduled by chance? If not, could you ask defense counsel if there could be one scheduled? I know that with my defendant in my McKeesport case, he was also on the run from a bond forfeiture and at the status conference, the ADA asked the judge on record with defense counsel present, for ownership of the dogs since the defendant was on the run and we had no idea where he was to have a trial. The judge asked if defense counsel had any objections, to which he did not as he had no contact with his client and Judge Mariani ordered the forfeiture of the dogs to HARP.

Good morning.

Why did you decide this right before a holiday?

Your timing is bad. I leave for Thailand in 2 days and don't return until the 12th. I was pretty sure you knew that.

Defense counsel will need notice as well.

We talked about this before. Did you send a letter to the last known address by regular and certified mail discussing his abandonment of the dog? Is there a paper trail of attempting to reach him with either phone calls or emails, etc?

Jeanne - I spoke with ADA Lisa Borrelli (cc'd) and here is the offer we can extend for the MHC/APPS program:

1. Plea to all charges as they are filed, no amendments.
2. Probation for 24 months in mental health court supervised by Judge Lazzara.
3. Upon successful completion, the felonies would be reduced to 3 (Three) Cruelty to Animals M2 charges.
4. All dogs/animals would have to be surrendered.
5. A prohibition against having any animals for a length of time not less than the probation.
6. Agree that under 18-5555, his living space is subject to inspection by Humane Officers to ensure that no animals are in his possession or control.

If this is agreeable, I will fill out the form and memorialize it.

Thanks.

-Bill

Hi Bill, I previously postponed this case to 1/3/23 for consideration for the Mental Health Court APPS program. Do you have any update as to whether you'll approve this case? I have not heard anything from Lisa Borrelli, the assigned DA. Since we last communicated about this case, I learned that Mr. McNeil is an assistant manager at Family Dollar, graduated from Pitt in 2011 with a degree in architectural studies, and wants to go to grad school for architecture. He is now active with JRS as well.

Thanks,
Jeanne

Thanks Jeanne. Just a few questions: can you tell me who the ADA that is handling this case? What courtroom? What are the charges? Typically, I meet with the ADA who will bring the file down and tell me if she/he has spoken with the police and can confirm that this case is appropriate for the APPS program.

Thanks.

Hi Bill, I'm writing to refer my client James McNeil to the new Mental Health Court APPS program. The OTN is R173264-0. Mr. McNeil was diagnosed with schizoaffective disorder. He was hoarding various animals in his home and according to the police report, his mom told the police that his acquiring the animals coincided with the mental health issues surfacing. He also has a prior record of zero. Based on all this, I think he would be a good candidate for the program. Please let me know what you think.

Thanks,
Jeanne

Subject: Re: Mental Health Court APPS referral

Thanks Jeanne. Just a few questions: can you tell me who the ADA that is handling this case? What courtroom? What are the charges? Typically, I meet with the ADA who will bring the file down and tell me if she/he has spoken with the police and can confirm that this case is appropriate for the APPS program.

Thanks.
-Bill

Subject: Mental Health Court APPS referral

Hi Bill, I'm writing to refer my client James McNeil to the new Mental Health Court APPS program. The OTN is R173264-0. Mr. McNeil was diagnosed with schizoaffective disorder. He was hoarding various animals in his home and according to the police report, his mom told the police that his acquiring the animals coincided with the mental health issues surfacing. He also has a prior record of zero. Based on all this, I think he would be a good candidate for the program. Please let me know what you think.

Thanks,
Jeanne

Subject: James McNeil

Hi,

McNeil had 3 dogs that were returned to him shortly after my confiscation of the animals that he is currently on trial for. The rottweiler returned to him "Brutus" violently attacked McNeil's mother. She was in the ICU, underwent 2 brain surgeries, suffered a stroke and was placed in a physical rehab facility. While the 3 dogs were in our care, "Chubbs" gave birth to puppies on 12/23/20. We permitted McNeil to reclaim the 3 adult dogs as well as the puppies as they were nursing at the time. On 02/02/21, McNeil was attempting to sell the underage puppies on Craigslist. I have that post, along with photos of the puppies and parents that he posted.

McNeil also attempted to adopt more animals, specifically rabbits, from HARP in April 2021 with his girlfriend, Rashawnda Plummer.

In October 2021, a dog was brought in as a stray by Pittsburgh Animal Control. The dog was not microchipped and had no tags however staff knew this dog to be Maggie as she matched Maggie's description. A proper stray hold was done and McNeil never contacted us to reclaim. Maggie was one of the adult dogs returned to McNeil. Maggie was severely emaciated (BCS 1/9) and required a refeeding schedule. She also had pressure sores on her joints.

McNeil's residence did not appear to be that of a hoarding environment.

I want to but I can't determine if she is the mother or grandmother to determine if she was even involved. She is the one on the MC but that doesn't mean anything other than she owned the dog at some point in its life.

I was charging him and hoping that if she is the one who had duty of care that he will cough that info up.

Dr. Gerson,

Please arrive at the courthouse tomorrow at 8:45am. The address is 436 Grant Street. I would advise to enter through the Grant Street entrance and check into room 409 (4th floor - witness room).

I have attached your subpoena above.

Thank you,
Emily

Subject: Case on Wednesday

Emily
Can you send me the location and room number for the cruelty case on Wednesday? I should be able to be there at 8:30.
Reviewing the testimony at the preliminary hearing, it was stated that no preexisting conditions were a problem. I take that this includes the deep eye ulcer and blindness.
The lack of additional medical records indicate that this dog was not cared for. You might want to establish who took financial responsibility.

The rabies vaccination was not current. This is punishable by a \$300 fine and that MIGHT be per day.

Will you have copies of the photos and radiographs available? My computer prints them at a magnified size. A computer screen might work too.

Summary and Response to the Defense Consultant

Veterinarians take an oath at graduation and throughout their career. The oath is as follows:

“Being admitted to the profession of veterinary medicine, I solemnly swear to use my scientific knowledge and skills for the benefit of society through the protection of animal health and welfare, the prevention and relief of animal suffering, the conservation of animal resources, the promotion of public health, and the advancement of medical knowledge. I will practice my profession conscientiously, with dignity, and in keeping with the principles of veterinary medical ethics. I accept as a lifelong obligation the continual improvement of my professional knowledge and competence.”

As professionals we must advocate for the welfare of animals and prevent and relieve animal suffering. No amount of payment from the defense attorneys of those charged with criminal animal abuse should compromise our medical ethics. The welfare of animals must be every veterinarians primary responsibility.

On April 27, 2021 I examined a deceased pet as a courtesy to the local humane agent for the Humane Animal Rescue Pittsburgh. My examination was done without any payment, in the middle of the COVID epidemic and in absence of any other veterinarian willing to perform that service. Humane agents and shelters have limited resources at their disposal for investigation of criminal activity. At the time of the examination I did not have the owner's name, pet's name, age, or any medical history. I am not trained to do a forensic examination and had never even seen a formal forensic report. The only history I had was that the owner of the dog had a PFA against him by his family and was heard assaulting the pet.

The defense provided me a single medical record of an exam and dental cleaning years prior to the death of Maze. I only received those records on July 8 2022, 14 months after the pet died. No heart disease or blindness was noted at that time.

Upon first seeing the deceased pet I was shocked by her condition. The dog was matted beyond belief. Mr. Kasprzyk as head of the household had the responsibility to have the dog properly groomed.

In over 40 years of clinical practice I had never seen a pet that was so matted. The photos taken on my phone are time stamped. The condition of this pet in my opinion was heartbreaking. The mats were so thick it was difficult to tell what was tail, ear or paw. Shaving the dog as the defense consultant suggested would take hours. Shinning the pet was not an option for a general practitioner or my staff. I ask the court to review the photographs carefully. Radiographs were also taken at the time. I was looking, as a preliminary scan, for broken bones and for a skull fracture, The chest film did not show cardiac enlargement. There was, as the defense consultant noted, a jaw fracture.

No natural causes of death were obvious as I did not see any tumor or organ pathology. In private practice we usually do a cosmetic necropsy as the owner might want to view the remains prior to burial or cremation.

I find it interesting that the defense bypassed the hundreds of local veterinarians including surgical and other specialists to testify in Allegheny County on behalf of the owner. There are thousands of other veterinarians in Pennsylvania who could have been consulted including the pathologists at the University of Pennsylvania veterinary school. Ohio and New York both have thousands of veterinarians and veterinary school faculty who could support the accused. This animal abuse case was obviously hard to defend.

There were a number of medical issues noted for Maze that were in dire need of attention. Maze had a large eye ulcer as seen in the photograph of her right eye. The infected ulcer might have been chronic and extremely painful but there was no medical care documented since fall of 2018. The sclera around the iris was very hemorrhagic. The globe might not have been intact as this was hard to determine after death. This was neglect pure and simple. The fractured jaw was again painful and if it happened, either by accident or trauma, was an emergency and needed prompt attention.

The scenario the defense consultant provided as a cause of death was more than ridiculous. Older small dogs often do have heart disease. The first diagnostic test after listening for a murmur is a radiograph looking for cardiac enlargement. The heart of Maze was normal size as clearly seen on the chest film. Chronic coughing is the typical sign of an enlarged heart and this was never reported or examined by a veterinarian. This dog did not die of chronic heart disease.

As a general practitioner responding to a plea from a humane officer I failed to follow every procedure that a forensic specialist might document.

Owners of senior dogs have an obligation to care for them. Clearly Mr Kasprzyk never provided Maze any veterinary care for the past 2 years in spite of multiple painful issues that demanded attention. Without a doubt he was negligent in the humane care of an animal in his possession.

When looking at a case we use both a history and physical exam to help make a diagnosis. The examination I made post mortem was that of a neglected and painful dog. Mazee was without question an abuse case no matter what was the specific cause of death. This case has been an emotional and disturbing event for me during the past year and a half.

As far as the history in this case, testimony of the family members describing Mazee's last night should clarify the treatment that she received at the hand of Mr. Kasprzyk.

Summary and Response to the Defense Consultant

Veterinarians take an oath at graduation and throughout their career. The oath is as follows:

“Being admitted to the profession of veterinary medicine, I solemnly swear to use my scientific knowledge and skills for the benefit of society through the protection of animal health and welfare, the prevention and relief of animal suffering, the conservation of animal resources, the promotion of public health, and the advancement of medical knowledge. I will practice my profession conscientiously, with dignity, and in keeping with the principles of veterinary medical ethics.

I accept as a lifelong obligation the continual improvement of my professional knowledge and competence.”

As professionals we must advocate for the welfare of animals and prevent and relieve animal suffering. No amount of payment from the defense attorneys of those charged with criminal animal abuse should compromise our medical ethics. The welfare of animals must be every veterinarians primary responsibility.

On April 27, 2021 I examined a deceased pet as a courtesy to the local humane agent for the Humane Animal Rescue Pittsburgh. My examination was done without any payment, in the middle of the COVID epidemic and in absence of any other veterinarian willing to perform that service. Humane agents and shelters have limited resources at their disposal for investigation of criminal activity. At the time of the examination I did not have the owner’s name, pets name, age, or any medical history. I am not trained to do a forensic examination and had never even seen a formal forensic report. The only history I had was that the owner of the dog had a PFA against him by his family and was heard assaulting the pet.

The defense provided me a single medical record of an exam and dental cleaning years prior to the death of Maze. I only received those records on July 8 2022, 14 months after the pet died. No heart disease or blindness was noted at that time.

Upon first seeing the deceased pet I was shocked by her condition. The dog was matted beyond belief. Mr. Kasprzyk as head of the household had the responsibility to have the dog properly groomed.

In over 40 years of clinical practice I had never seen a pet that was so matted. The photos taken on my phone are time stamped. The condition of this pet in my opinion was heartbreaking. The mats were so thick it was difficult to tell what was tail, ear or paw. Shaving the dog as the defense consultant suggested would take hours. Shinning the pet was not an option for a general practitioner or my staff. I ask the court to review the photographs carefully. Radiographs were also taken at the time. I was looking, as a preliminary scan, for broken bones and for a skull fracture, The chest film did not show cardiac enlargement. There was, as the defense consultant noted, a jaw fracture.

No natural causes of death were obvious as I did not see any tumor or organ pathology. In private practice we usually do a cosmetic necropsy as the owner might want to view the remains prior to burial or cremation.

I find it interesting that the defense bypassed the hundreds of local veterinarians including surgical and other specialists to testify in Allegheny County on behalf of the owner. There are thousands of other veterinarians in Pennsylvania who could have been consulted including the pathologists at the University of Pennsylvania veterinary school. Ohio and New York both have thousands of veterinarians and veterinary school faculty who could support the accused. This animal abuse case was obviously hard to defend.

There were a number of medical issues noted for Maze that were in dire need of attention. Maze had a large eye ulcer as seen in the photograph of her right eye. The infected ulcer might have been chronic and extremely painful but there was no medical care documented since fall of 2018. The sclera around the iris was very hemorrhagic. The globe might not have been intact as this was hard to determine after death. This was neglect pure and simple. The fractured jaw was again painful and if it happened, either by accident or trauma, was an emergency and needed prompt attention.

The scenario the defense consultant provided as a cause of death was more than ridiculous. Older small dogs often do have heart disease. The first diagnostic test after listening for a murmur is a radiograph looking for cardiac enlargement. The heart of Maze was normal size as clearly seen on the chest film. Chronic coughing is the typical sign of an enlarged heart and this was never reported or examined by a veterinarian. This dog did not die of chronic heart disease.

As a general practitioner responding to a plea from a humane officer I failed to follow every procedure that a forensic specialist might document.

Owners of senior dogs have an obligation to care for them. Clearly Mr Kasprzyk never provided Mazee any veterinary care for the past 2 years in spite of multiple painful issues that demanded attention. Without a doubt he was negligent in the humane care of an animal in his possession.

When looking at a case we use both a history and physical exam to help make a diagnosis. The examination I made post mortem was that of a neglected and painful dog. Mazee was without question an abuse case no matter what was the specific cause of death. This case has been an emotional and disturbing event for me during the past year and a half.

As far as the history in this case, testimony of the family members describing Mazee's last night should clarify the treatment that she received at the hand of Mr. Kasprzyk.

Dr. Gerson,

Are you available for a call this afternoon regarding the Kazprzyk case that is scheduled for this Wednesday?

Thanks,

Emily

Hello,

I just got off the phone with Tom Farrell and he said his client is going to waive all charges downtown. Therefore, you do not need to appear (and he has asked that you don't—whatever did you do to this guy?) on Monday.

Enjoy your weekend and your newly freed up time on Monday!

Thanks,

Lisa

Julie Miller- had to take the academy (which I believe is the grooming) final exam 3 times because she failed the first 2 times; also passed the safety certification in 2020 and 2019 so she can't claim she wasn't taught. Had to take the SPLASH

final exam 5 times because failed the first 4 times.....so clearly they just let you take it til you pass. Also failed multiple other tests in 2019 (though allowed through) include the salon safety exam.

Elizabeth Doty- Passed safety cert in 2020. Failed pet care safety 15 times before passing in 2019. Failed the SPLASH final exam 4 times, the salon safety exam 4 times and the SPLASH technical evaluation once.

But ultimately they both passed all of the exams and certifications....so their lawyers can argue the above points. In terms of us, they can't claim they didn't or shouldn't have known better.

Ms. Ross has a phenomenal civil case against corporate as well as local and individuals.

Attachments: GENCO DRAFT REFILE CHARGES.docx

Follow Up Flag: Follow up
Flag Status: Completed

Good morning,

Attorney Samir Hadeed (412-303-2570) was retained to file a nunc pro tunc involving the summary charge of cruelty to animals that was filed against Mathew Erzen.

Please let me know when I am permitted to refile the charges against Mr. Genco. Please review the attachment of the proposed charges I want to file and narrative. Please let me know if changes are needed.

Thank you!

Since I'm not the arresting officer, I can't agree to a plea. Officer Klein from Pittsburgh Police is the affiant. I don't want to step on his toes and agree to something on his case that he may not agree to.

Good afternoon,

Please be advised that my office has been retained by Barr Tomlin regarding the above-referenced matter. A Non-Jury Trial is currently scheduled for July 18, 2022 before Judge DiLucente. I will be requesting a postponement in this matter due to the fact that I will be out of town for a family vacation and the defense is not ready. Please advise if you have any objections to this postponement request.

In addition, if you do not have any objections, can you please provide me with at least three good dates in October of 2022 to list on my postponement request. Please review and advise, thank you. My cell is 412-915-6685. I will be leaving town on Thursday.

Subject: 2nd Petsmart Manager Email

Good Afternoon Ms. Borrelli,

I reviewed the revised list of questions you sent and they all look fine to me, I will be prepared. I'm also resending the email below from the second Petsmart regional manager who contacted me...after I had notified the first regional manager I would be contacting the police about what I saw in the surveillance video. The email below explicitly states "the reason that the associates involved in this incident were terminated is because they did not comply with several of our protocols and trainings" as well as "Before we can send that (their policies) your way, we would ask you to sign an acknowledgement to keep these documents private". Lastly, should I have a written statement prepared for closing arguments? Or will my testimony be enough.

Thank you for your tireless work in this matter,

Ashley Ross

Dear Ms. Ross:

Thank you for taking the time to speak with us during these difficult times. Losing a pet is devastating, and we are incredibly sorry that Kobe passed away while in our care. As I said on our call, we fell short of our commitments to you and Kobe, so I want to once again apologize to you.

We also wanted to send over the necropsy report so that you can have it. We have redacted this version so that you can see the results for yourself without being confronted with some of the photographs, and there's a brief summary quoting the key findings at the bottom of this email under the line of asterisks. Necropsy language can sometimes be medically dense, so I want to reiterate the offer to have a vet of your choosing review the results with you at our expense; please let me know if that's something we can support you with. Of course, if you would like me to send you an unredacted version of the necropsy or to ask Banfield to send it to you directly, please let me know.

Separately, we are happy to provide you details of the relevant policies but want to confirm the reason that the associates involved in this incident were terminated is because they did not comply with several of our protocols and trainings. Before we can send that your way, we would ask you to sign an acknowledgement to keep these documents private because our training academy and policies and procedures are proprietary, and those documents are not

generally available to the public. We are willing to make an exception here, and we want to share those with you, given these circumstances.

Whenever you're ready, we would like to discuss the next steps here, including—if you're interested—helping you adopt another pet when the time is right for you. Regardless, I want you to know that our team is committed to doing everything we can to make this process easier for you.

Please don't hesitate to let us know if you have any questions or concerns. The key necropsy findings are below.

Sincerely,

Joe

Necropsy Results

The necropsy was conducted by Dr. Richard E. Moreland, an independent pathologist who is employed by Antech Diagnostics.

Key findings:

- * There is not "a definitive cause of death . . . other than the likelihood of cardiac dysfunction."
- * This finding is supported by the "lesions in the lungs [that] are usually associated with cardiac dysfunction."
- * "Sudden death in animals is often related to cardiac disease. While no significant gross or microscopic changes were observed in the heart muscle itself, arrhythmias and/or conduction problems can result in acute heart failure with no appreciable gross or histologic lesions. This is a viable possibility in this case as the prominent pulmonary changes noted, as well as the observed hepatic congestion, though nonspecific, are consistent with heart failure."
- * Dr. Moreland also observed an "adrenal tumor."
- * He did not observe any "bruising/hemorrhaging in the neck tissues." Still, "[s]trangulation cannot be completely ruled out . . . however, the lack of neck bruising makes it less likely."

 Subject: Petsmart Killed My Dog

On Tuesday November 17th I took my dog Kobe to Petsmart for a routine nail trim (a 10 min process). When I returned I was told by the groomers and manager that he had simply "passed out and went limp"; so I immediately rushed him to the nearest animal hospital less than a mile away. When I handed him over to doctors I was told he had no heartbeat and wasn't breathing. They performed several rounds of CPR but it was unsuccessful...Kobe was gone. I requested to see Petsmart's surveillance video the day of the incident but I was denied. In the meantime I requested a necropsy to get to the bottom of exactly exactly occurred. I've also been corresponding via phone with the store's district manager Anne Zaziski, who finally allowed me to watch the surveillance video in store with her and another associate this afternoon (12/1). What I witnessed during Kobe's last moments was absolutely horrifying! Kobe can clearly be seen in the video hanging with no paws on the grooming table from 17:14:18:23 to 17:14:19:24 according to the store timecode. A human can die from strangulation in just seconds. How/why their "trained groomers" didn't see anything wrong with my tiny toy poodle twisting and writhing in pain as he was being choked by two leashes and desperately grasping for air is beyond comprehension!!! It's very apparent now why they were so apprehensive to show me that video and the egregious neglect displayed is indisputable. When I asked the district manager this afternoon what their policy is when a pet is showing signs of distress she told me she would have to consult with corporate for an answer. What they did to Kobe should never happen to anyone's loved one and I want them to not only be held accountable...I want other pet owners to be aware of Petsmart's apparent pattern of negligence (I have since found dozens of similar cases online and I now wish I knew this beforehand). I would strongly encourage Humane Animal Rescue to independently investigate this matter and/or if you could please provide me any additional resources/contacts/insight about how I should pursue this matter going forward I would truly appreciate it.

Hi,

I have a sentencing hearing this morning at 0900 and a preliminary hearing at 1315 this afternoon. I know Dr. Samson has meetings all afternoon as well so what does your morning look like for a call? I am hoping to be able to do it after my sentencing hearing this morning.

Angie

I'm ok with some leading but happy to have leeway to answer more openly. Just want to make sure I'm hitting on all the big points you want (which is why I think doing some zoom prep etc. will be very useful).

Who else is testifying in the case?

In terms of the video, I'm fine either way, I'd say whatever you think will be more impactful.

I think you're still looking at my old report...I'll attach the new one and send it over hopefully by the end of today. I will ask that you send it to the forensic pathologist as well (I'm not sure I have her email).

I'm ok with some leading but happy to have leeway to answer more openly. Just want to make sure I'm hitting on all the big points you want (which is why I think doing some zoom prep etc. will be very useful).

Who else is testifying in the case?

In terms of the video, I'm fine either way, I'd say whatever you think will be more impactful.

I think you're still looking at my old report...I'll attach the new one and send it over hopefully by the end of today. I will ask that you send it to the forensic pathologist as well (I'm not sure I have her email).

Dr. Samson,

Do you have time to review the Antech necropsy report and comment on it in your report? I had Antech view the video and an addendum was added to the necropsy report. Since you viewed the video, it would be very helpful to the case to review the necropsy and its addendum and comment on that.

I am also including Dr. Otteman's report in case that is helpful to you as well.

I am working on questions for your testimony and it would be helpful if I could ask you about the updated Antech report.

I included Angie so she can see the reports as well.

Thank you,
Lisa

Subject: NJ Special Master on DRE

Follow Up Flag: Follow up
Flag Status: Completed

Hello!

How are you? Hope this finds you well.

This is from my friend's newsletter and I didn't know if you had seen this but I thought I would send it to you anyway.

Drug Recognition DRE report goes to Supreme Court

The Special Master in State v Olenowski has issued a Report of Findings of Fact and Conclusions of Law regarding the reliability of drug recognition expert evidence.

The retired judge/Special Master concluded that DRE testimony is reliable. The reliability is established by the expert testimony presented by the State, which establishes that the DRE protocol replicates generally accepted medical practices for identifying the presence of impairing drugs and their likely identity through a toxidrome recognition process. This testimony has also established that the DRE matrix comports with matrices designed for this purpose and generally accepted and used in the medical field. This testimony has also established that the training DREs receive is comparable to that received by medical technicians and that DREs are thus enabled to reliably apply the protocol. Therefore, by implication, the DRE protocol as a whole and its individual components are generally accepted in the scientific communities to which they belong, namely medicine and toxicology.

DRE evidence and the DRE opinion will be tested by cross-examination and the factfinder will ascribe to it such credibility assessments and weight allocations as he or she deems appropriate.

The Master wrote: The State has clearly established that the Frye standard for admissibility has been met. Accordingly, based upon the evidence in this hearing, DRE evidence satisfies the reliability standard of N.J.R.E. 702 and should be

admissible in evidence. Now, the Supreme Court must decide which portions of the report will be followed. The report can be found at njcourts.gov. and <https://www.njcourts.gov/public/assets/smfr.pdf?c=Zhi>

Take care!

Angie,

Here is your questions for the habeas. Let me know if I should add anything else you think would be helpful. I think I will have Dr. Samson view the video in court. What do you think? I will also have her comment on the addendum added necropsy report I sent her.

Look at the habeas and be prepared to address what it calls our failure to prove. I sent that to you in another email.

Thanks,

Lisa

I'm ok with some leading but happy to have leeway to answer more openly. Just want to make sure I'm hitting on all the big points you want (which is why I think doing some zoom prep etc. will be very useful).

Who else is testifying in the case?

In terms of the video, I'm fine either way, I'd say whatever you think will be more impactful.

I think you're still looking at my old report...I'll attach the new one and send it over hopefully by the end of today. I will ask that you send it to the forensic pathologist as well (I'm not sure I have her email).

Hi,

I read the habeas petition and made some notes disputing what Pauli is alleging.

Page 5 / subsection vi: The video shows at 14:25 that Kobe goes limp with no movement (per the expert report written by Dr. Samson), at 15:13 Kobe is released from the tethers, 15:31 the muzzle is removed and Doty attempts to rouse Kobe until 17:16, 17:35 managers arrive and all 4 individuals stare at Kobe from a distance and appear to be conversing until 18:26 when owner arrives at the front desk, 18:07 – 18:20 manager pets Kobe, 18:26 owner arrives at front desk and staff can be observed talking to the owner from a distance, 18:50 owner rushes back to grooming table and removes Kobe.

This is a 4 minute and 30 second time gap where Kobe could've received medical intervention. Banfield is a 2 minute drive.

Page 6 / Paragraph f: Dr. Cantiello never contacted authorities because she was unaware of the events proceeding Kobe's arrival to her care

Page 6 / Paragraph i: Miller and Doty were NEVER accused or charged with the physical abuse of Kobe so this is irrelevant

Page 6 / Paragraph 13 and 14: Dr. Moreland of Antech could not initially state a cause of death on initial necropsy because he was unaware of the events leading up to Kobe's death and therefore was not specifically looking at the cause of death being suspicious. Once Dr. Moreland was provided with the information and the video, he amended his necropsy report (05/2022) stating that the new information provided, coupled with the previous necropsy lesions strongly suggests that strangulation was the cause of death.

Page 8 / Paragraph 22: So Miller does call for a manager to respond to the grooming salon, but what action does Doty take? ALL salon associates are required to take a 3 hour services safety course which includes proper safe handling (tethering), signs of stress, and what to do in an emergency (per PetSmart policy

Check out the file titled "General care of pets procedure" on the thumb drive I gave you of the policies that PetSmart sent me....this is just one of the training classes that associates are put through. They violated EVERY policy in that document despite that they KNEW not to. These groomers were properly trained on how to restrain, signs of an emergency and what to do in the event of a medical emergency. I feel that this shows how they acted in a reckless manner with both the cruelty charge as well as the neglect charge.

We can chat later in more detail

Angie

Dr. Samson,

As you may be aware, the defendants have filed a habeas on this case. I have attached that filing as well. In light of that, I reached out to get some expert back up since we have had problems with the Banfield vet. I thought you might want to read the recent reports I received, and decide whether in light of this evidence, you wanted to amend your report as well. I believe with these reports, our case has become quite strong. Please let me know if you wish to supplement your report after reviewing the enclosed reports.

Thanks,
Lisa

Dr. Samson,

Do you have time to review the Antech necropsy report and comment on it in your report? I had Antech view the video and an addendum was added to the necropsy report. Since you viewed the video, it would be very helpful to the case to review the necropsy and it's addendum and comment on that.

I am also including Dr. Otteman's report in case that is helpful to you as well.

I am working on questions for your testimony and it would be helpful if I could ask you about the updated Antech report.

I included Angie so she can see the reports as well.

Thank you,
Lisa

I guess it may have to do. Be prepared to discuss what you read from them; Of course, someone from PetSmart would be best.

Hi,

I have an email out to PetSmart legal asking for them to contact me as Michelle Alarid seems to not be working there any longer. The email I sent her last week was returned.

Anyways, here is the email from Alarid to me confirming that PetSmart did indeed send me the training materials and policies. Would this suffice or do we still need someone from PetSmart Legal to verbalize that they sent it to me?

Angie

Hello Officer Fry;

I hope you had a wonderful new year as well! Our paralegal is working on locating the additional video and then will prepare it to send. I'll confirm when we send the FedEx.

I understand you were able to interview Shea Stonge and Heather Rowe. Did you receive the flash drive with the policies and training materials we sent in January? As always, please let me know if there's anything else we can do to assist in the investigation.

Hi Michelle,

I hope you had a wonderful new year. I was reviewing the video again for my case and noticed that in the video titled "entrance 1940 to 1942"; it appears to be cut short as I can still see the dog's owner sitting on the curb outside of your doors. Could I please have the entire video footage, until it is no longer possible to see Ms. Ross?

Thank you

Good Morning Officer Fry:

Below is the requested contact information for the four associates in the video:
Julie Miller: 412-965-7379
Elizabeth Doty: 570-494-7025
Shea Stonge: 602-505-3161

Heather Rowe: 201-919-8779

We'd be happy to send you the policies and procedures and training requirements for grooming attendants. I'll work on compiling those documents and send them over to you. In the meantime, please let me know if there is any other way I can be of assistance.

Good Evening Officer Fry:

Thank you for confirming that you received the video footage and our letter. We are happy to identify the four individuals in the video. The two grooming attendants are Elizabeth Doty and Julie Miller. The associate that is holding the pet is Julie Miller, while Elizabeth Doty is grooming the nails. Two other associates entered the grooming area; Heather Rowe; who appears first; followed by Shapan Shea; Stonge.

PetSmart terminated Ms. Doty and Ms. Miller following this incident.

Please let us know if you have any further questions or concerns or if you would like us to provide the contact information for these four individuals. We will continue to cooperate with your investigation in whatever ways we can.

Kindly,

Michelle

Good Afternoon Officer Fry:

My name is Michelle Alarid, and I am Senior Counsel for Store Operations and Services at PetSmart, Inc. I am happy to serve as your point of contact and my direct line is 480-294-2666.

We have received the authorization for a search warrant issued by the magistrate judge in Allegheny County. I write to confirm that the company will cooperate with the investigation into this matter. Accordingly, there is no need to formally serve the warrant at our local store. We have already started gathering the relevant surveillance videos for your review. As you can imagine, the ongoing pandemic may result in some slight delays on our end but I expect that we will be able to get those over to you by the end of this week or the first part of next week at the latest. Can you confirm the physical address where we should send the videos?

Please let me know if that timeline works for you and if you have any additional questions or concerns.

Sincerely,

Michelle

Dr. Samson sent me this article regarding strangulation injuries in dogs. Read over it and send it to the experts and see their thoughts for the PetSmart case.

Like in humans, a dog's brain can go 4-6 minutes without oxygen showing that had the staff intervened, it would've made a different outcome in Kobe's death.

Subject: Fwd: Nondrowning Asphyxia in Veterinary Forensic Pathology: Suffocation, Strangulation, and Mechanical Asphyxia - B. J. McEwen, 2016

Dr. Samson sent me this article regarding strangulation injuries in dogs. Read over it and send it to the experts and see their thoughts for the PetSmart case.

Like in humans, a dog's brain can go 4-6 minutes without oxygen showing that had the staff intervened, it would've made a different outcome in Kobe's death.

Hello Lisa:

I do y have access to all my files right now but I think that is the article I may have cited in my report for this case. I can look Monday morning and get back to you with additional thoughts.

Yes, I should review the training materials and see how they may fit into the report.

Good Morning,

I was wondering, have you seen this article listed below? What are your thought on it?

Also, I think part of the case is that they did not follow Petsmart procedures? Would you agree and if so, is there a way to get that material in? I have the training materials. Would it help the case for you to review them as well?

Thanks,
Lisa

Good Morning,

I was wondering, have you seen this article listed below? What are your thought on it?

Also, I think part of the case is that they did not follow Petsmart procedures? Would you agree and if so, is there a way to get that material in? I have the training materials. Would it help the case for you to review them as well?

Thanks,
Lisa

Dr. Samson sent me this article regarding strangulation injuries in dogs. Read over it and send it to the experts and see their thoughts for the PetSmart case.

Like in humans, a dog's brain can go 4-6 minutes without oxygen showing that had the staff intervened, it would've made a different outcome in Kobe's death.

Rachel,

I know you are busy but we should probably figure out if we are going to refile this case. I have attached Officer Luffey's narrative as well as the expert reports. All parties have set aside September 26, 27, and 28 as possible court dates. It was difficult to get everyone on the same page and flights will need to be booked. There have been several attempts to locate the dog's owner but he has not yet been found and has not responded to emails and texts. I fear that if we go forward, we will need to do so without him and unfortunately with his conviction in absentia of his summary cruelty/neglect charges. The efforts to reach him have included messages that there was legal counsel available at no charge to him to file a nunc pro tunc on his behalf. Not sure what else could be done with that.

Please let me know what process we need to follow.

Thanks,
Lisa

DRE NEWS

1. State v. Olenowski - New Jersey Special Master Report
2. Lawrence Guzzardi - Cross Examination
3. DRE Call Out - 717-914-8484

1. State v. Olenowski

- A Special Master for the New Jersey Supreme Court has issued extensive findings on the DRE program. In a 384 page report, complete with exhibits, the Special Master concludes that a DRE's 12 step evidentiary examination passes the Frye test and is reliable evidence generally accepted in the scientific community. While the New Jersey Supreme Court still needs to ratify the findings, this is a stone cold, lock down template for winning Frye Hearings on DRE evidence.

"I conclude for all of the reasons stated in this report that DRE testimony is reliable. The reliability is established by the expert testimony presented by the State, which establishes that the DRE protocol replicates generally accepted medical practices for identifying the presence of impairing drugs and their likely identity through a toxidrome recognition process. This testimony has also established that the DRE matrix comports with matrices designed for this purpose and generally accepted and used in the medical field. This testimony has also established that the training DREs receive is comparable to that received by medical technicians and that DREs are thus enabled to reliably apply the protocol. Therefore, by implication, the DRE protocol as a whole and its individual components are generally accepted in the scientific communities to which they belong, namely medicine and toxicology."

Link: [State vs.Olenowski.pdf](#)

2. Lawrence Guzzardi - Cross Examination

- The special master in Olenowski made astute findings regarding Lawrence. Ultimately determining that very little weight if any would be given to his testimony. It is a work of art, rich in cross examination fodder. Please use this to end his reign of rubbish. I also have additional extensive files from Pa and other states on his "work"... Just ask, it seems to grow daily.

Link: [Statev.OlenowskiGuzzardix.pdf](#)

3. DRE Call Out - 717-914-8484

- The Pa DUI Association put in motion an excellent 24/7 DRE call out. If you call them, they will come. We have close to 250 IACP Certified DRE's in PA. Officers and ADA's may use this number and get a DRE immediately. As an ADA you can use it while on call. Why on Earth would you not want more reliable evidence of impairment?

Hi Bill, I'm writing to refer my client James McNeil to the new Mental Health Court APPS program. The OTN is R173264-0. Mr. McNeil was diagnosed with schizoaffective disorder. He was hoarding various animals in his home and according to the police report, his mom told the police that his acquiring the animals coincided with the mental health issues surfacing. He also has a prior record of zero. Based on all this, I think he would be a good candidate for the program. Please let me know what you think.

Thanks,
Jeanne

 Subject: Mental Health Court APPS referral

Hi Bill, I'm writing to refer my client James McNeil to the new Mental Health Court APPS program. The OTN is R173264-0. Mr. McNeil was diagnosed with schizoaffective disorder. He was hoarding various animals in his home and according to the police report, his mom told the police that his acquiring the animals coincided with the mental health issues surfacing. He also has a prior record of zero. Based on all this, I think he would be a good candidate for the program. Please let me know what you think.

Thanks,

Jeanne

Rachel,

I know you are busy but we should probably figure out if we are going to refile this case. I have attached Officer Luffey's narrative as well as the expert reports. All parties have set aside September 26, 27, and 28 as possible court dates. It was difficult to get everyone on the same page and flights will need to be booked. There have been several attempts to locate the dog's owner but he has not yet been found and has not responded to emails and texts. I fear that if we go forward, we will need to do so without him and unfortunately with his conviction in absentia of his summary cruelty/neglect charges. The efforts to reach him have included messages that there was legal counsel available at no charge to him to file a nunc pro tunc on his behalf. Not sure what else could be done with that.

Please let me know what process we need to follow.

Thanks,
Lisa

Dr. Gerson,

Attached is the prelim transcript. I don't need any reports or statements from you at this time. We will go over what is necessary for trial and set up a time to speak in mid October if that works for you.

Thanks!

Emily

Subject: INDIA TERRELL

I apologize that it took me a minute to get back to you regarding India Terrell. She plead not guilty and is scheduled to appear in Housing Court on October 6, 2022.

This is the narrative to my report.

I received a telephone call from a repair man who was servicing the residence at 919 Woodlow Street. The man reported that there are two dogs inside of 919 Woodlow Street that he is concerned about. He told me that while servicing the residence, he viewed a dog in a cage without food or water and another dog tethered to a piece of furniture with urine and feces all around it.

On May 26, 2022, Lt. Stoops, Officer Fry (Humane Animal Rescue), and I went to 919 Woodlow Street. We spoke to India Terrell. Ms. Terrell told us that she is the owner of a 1 year old pit bull dog named "Starbucks" and her boyfriend (Ernest Parks) is the owner of a 2 year old male English Staffordshire Terrier named "Rocky".

We informed Ms. Terrell that we received a complaint that the dogs are being neglected and asked to see them. She invited us inside. A brown and white dog was in a cage. There was one bowl in the cage that was empty. This dog belongs to Ernest Parks. We observed a one year old female, brown and white dog, tethered to a piece of furniture (it looked like a large ottoman). This dog belongs to Ms. Terrell. The dog was on a very short leash. We viewed a turtle in an aquarium. The tank was very dirty. There was not a rock for the turtle to get out of the water and there was no heat lamp.

I asked Ms. Terrell if the dogs are licensed and vaccinated against rabies. She said that she believes the dogs are vaccinated, but had no proof to show us. Ms. Terrell stated that the dog's are not licensed in the city of Pittsburgh. She told us that the dogs are not spayed or neutered.

Lt. Stoops, Officer Fry, and I talked to Ms. Terrell about the violations we observed. We informed Ms. Terrell that the dogs did not have access to food or water. I asked her about the dog being tethered to a piece of furniture. She told us that the dog is very active and has destroyed two dog beds in the past. Lt. Stoops and Officer Fry suggested that the dog receive training to help with its behavior. Ms. Terrell told us that the dog is not tethered all of the time. We informed Ms. Terrell that her female dog appears thin and asked her to take the dog to be seen by a veterinarian. I asked Ms. Terrell if her landlord allows pets. She told me that pets are permitted.

I informed Ms. Terrell that she must provide proof that both dogs are licensed by the city of Pittsburgh and vaccinated against rabies by July 1, 2022. I explained to her that the turtle's tank needs to be cleaned and a rock and heat lamp need to be provided immediately. I also informed Ms. Terrell that her female dog must be examined by a veterinarian by July 1, 2022. I handed Ms. Terrell paperwork for her to purchase the licenses for the dogs. I also gave her an application to take advantage of the city of Pittsburgh's free spay/neuter program.

I explained to her that the turtle's tank needs to be cleaned and a rock and heat lamp need to be provided immediately. I also informed Ms. Terrell that her female dog must be examined by a veterinarian by July 1, 2022. I handed Ms. Terrell paperwork for her to purchase the licenses for the dogs. I also gave her an application to take advantage of the city of Pittsburgh's free spay/neuter program.

Just an update, we are requesting that all parties entering our courtroom wear a mask. We are utilizing TEAMS as much as is possible. Also, although the TEAMS invites say 10:30, the court requires all parties, who are in person, check in with our staff no later than 9 a.m. Thank you for your cooperation.

Lisa

I asked Emily for any additional information that would be helpful in the case of the matted / abused dog we are working on. Can you remind her again to send me the charges and transcripts.

I was quite upset with the way the defense consultant criticized everything that was done. The DA's office must give anyone doing a necropsy much more direction in these cases. It looks like a properly done exam would take days to complete and add thousands of dollars in pathology, radiology and specialty consultation. Report writing, reading consultant reports, responding and testifying in court takes many more hours of additional time that few veterinarians would be able to provide.

Larry

DRAFT

Lawrence Gerson VMD
Point Breeze Veterinary Clinic

6742 Reynolds St
Pittsburgh Pa.
15206
August 29, 2022

Summary and Response to the Defense Consultant

Veterinarians take an oath at graduation and throughout their career. The oath is as follows:

“Being admitted to the profession of veterinary medicine, I solemnly swear to use my scientific knowledge and skills for the benefit of society through the protection of animal health and welfare, the prevention and relief of animal suffering, the conservation of animal resources, the promotion of public health, and the advancement of medical knowledge. I will practice my profession conscientiously, with dignity, and in keeping with the principles of veterinary medical ethics. I accept as a lifelong obligation the continual improvement of my professional knowledge and competence.”

As professionals we must advocate for the welfare of animals and prevent and relieve animal suffering. No amount of payment from the defense attorneys of those charged with criminal animal abuse should compromise our medical ethics. The welfare of animals must be every veterinarians primary responsibility.

On April 27, 2021 I examined a deceased pet as a courtesy to the local humane agent for the Humane Animal Rescue Pittsburgh. My examination was done without any payment, in the middle of the COVID epidemic and in absence of any other veterinarian willing to perform that service. Humane agents and shelters have limited resources at their disposal for investigation of criminal activity. At the time of the examination I did not have the owner’s name, pets name, age, or any medical history. I am not trained to do a forensic examination and had never even seen a formal forensic report. The only history I had was that the owner of the dog had a PFA against him by his family and was heard assaulting the pet.

The defense provided me a single medical record of an exam and dental cleaning years prior to the death of Maze. I only received those records on July 8 2022, 14 months after the pet died. No heart disease or blindness was noted at that time.

Upon first seeing the deceased pet I was shocked by her condition. The dog was matted beyond belief. Mr. Kasprzyk as head of the household had the responsibility to have the dog properly groomed.

In over 40 years of clinical practice I had never seen a pet that was so matted. The photos taken on my phone are time stamped. The condition of this pet in my opinion was heartbreaking. The mats were so thick it was difficult to tell what was tail, ear or paw. Shaving the dog as the defense consultant suggested would take hours. Shinning the pet was not an option for a general practitioner or my staff. I ask the court to review the photographs carefully. Radiographs were also taken at the time. I was looking, as a preliminary scan, for broken bones and for a skull fracture, The chest film did not show cardiac enlargement. There was, as the defense consultant noted, a jaw fracture.

No natural causes of death were obvious as I did not see any tumor or organ pathology. In private practice we usually do a cosmetic necropsy as the owner might want to view the remains prior to burial or cremation.

I find it interesting that the defense bypassed the hundreds of local veterinarians including surgical and other specialists to testify in Allegheny County on behalf of the owner. There are thousands of other veterinarians in Pennsylvania who could have been consulted including the pathologists at the University of Pennsylvania veterinary school. Ohio and New York both have thousands of veterinarians and veterinary school faculty who could support the accused. This animal abuse case was obviously hard to defend.

There were a number of medical issues noted for Mazee that were in dire need of attention. Mazee had a large eye ulcer as seen in the photograph of her right eye. The infected ulcer might have been chronic and extremely painful but there was no medical care documented since fall of 2018. The sclera around the iris was very hemorrhagic. The globe might not have been intact as this was hard to determine after death. This was neglect pure and simple. The fractured jaw was again painful and if it happened, either by accident or trauma, was an emergency and needed prompt attention.

The scenario the defense consultant provided as a cause of death was more than ridiculous. Older small dogs often do have heart disease. The first diagnostic test after listening for a murmur is a radiograph looking for cardiac enlargement. The heart of Mazee was normal size as clearly seen on the chest film. Chronic coughing is the typical sign of an enlarged heart and this was never reported or examined by a veterinarian. This dog did not die of chronic heart disease.

As a general practitioner responding to a plea from a humane officer I failed to follow every procedure that a forensic specialist might document.

Owners of senior dogs have an obligation to care for them. Clearly Mr Kasprzyk never provided Mazee any veterinary care for the past 2 years in spite of multiple painful issues that demanded attention. Without a doubt he was negligent in the humane care of an animal in his possession.

When looking at a case we use both a history and physical exam to help make a diagnosis. The examination I made post mortem was that of a neglected and painful dog. Mazee was without question an abuse case no matter what was the specific cause of death. This case has been an emotional and disturbing event for me during the past year and a half.

As far as the history in this case, testimony of the family members describing Mazee's last night should clarify the treatment that she received at the hand of Mr. Kasprzyk.

Probably the last of this year!

Also, we think that Michael M. David, the AZ License Plate Number looks to be a stolen plate per the officer's investigative search (information gathered from the Criminal Complaint)

Have a happy holiday season!!

 Subject: Frick 19th Floor Door

Folks,

As you may or may not be aware, the locking mechanism on the door has not been engaging uniformly. I was informed of this this morning. A technician from the lock vendor came out and worked on the lock for about an hour. He adjusted and fine-tuned the lock as much as he could. And, if you pull/push the door into alignment (might take a little 'fiddling', he showed me and I could get it to lock), it will lock. Listen for the sound of the lock engaging and then double check that it has engaged. Obviously this is a temporary fix. The main issue is that the door panels are out of 'perfect' alignment. I have contacted Frick Building management to arrange for the door vendor to come out and make that adjustment as soon as possible. I will inform you when that is scheduled/has been completed.

Thanks,
 Becky

Hello Emily,

I talked with Dr. Gerson last night and he asked if there was a copy of the transcript of the preliminary hearing that he could review for his supplemental report? I think he may also email you for it but I wanted to let you know as soon as possible.

Thanks,
Lisa

Dr. Gerson,

I have confirmed that this is the only vet records we have.

If you feel that these records change your original report in any way, can you please write a supplemental report on letterhead and send to my office?

If it does not, then we will deal with it on cross examination at trial. Attached is the defense's response to the vet records.

Thank you,
Emily

Emily

This record describes a single visit and a dental cleaning with extractions.

It also describes a right hind leg lameness. This might explain the hip joint laxity.

The death of the pet is still in question. If the daughter's testimony is strong that the dog was abused the case for cruelty is still strong.

There was a huge eye ulcer of the cornea. No treatment for this painful condition was in the documented. The hemorrhage of the eye was trauma. The explanation of playing with the dog and her running into a table is laughable. The matted fur is clearly neglect as bad as I have seen. The right shoulder laxity is not explained. The jaw fracture is

more than disturbing. Clearly an old dog with kidney disease seen on the blood tests at the dental should have been followed.

No evidence of heart disease was noted at the single exam or on the necropsy radiograph. Dogs will often cough with heart disease and sudden death from heart disease is rare.

A single veterinary record of an exam and dental surgery on an dog of this age is not adequate care.

Any reasonable person given the testimony of the daughter and looking at the condition of the fur coat, eye trauma, shoulder laxity and fractured jaw would conclude that the treatment of this dead dog was criminal.

Hi Christa,

I stopped into your courtroom about 20 min ago and saw there is a homicide trial going on. We have that above named defendant scheduled for a non-jury this wednesday. We have to fly in our expert tomorrow and get a hotel room for him for two days. It is very expensive. Will that homicide trial carry through wednesday? If so we don't want to shell out \$5000.00 to bring our expert in if it will be continued.

Can you please check with the judge and see before we buy airfare and hotel this afternoon. Thanks Christa.

Sincerely,
Randall T. Ricciuti.

Hi Christa,

I stopped into your courtroom about 20 min ago and saw there is a homicide trial going on. We have that above named defendant scheduled for a non-jury this wednesday. We have to fly in our expert tomorrow and get a hotel room for him for two days. It is very expensive. Will that homicide trial carry through wednesday? If so we don't want to shell out \$5000.00 to bring our expert in if it will be continued.

Can you please check with the judge and see before we buy airfare and hotel this afternoon. Thanks Christa.

Sincerely,
Randall T. Ricciuti.

Ok Christa.

Brent and I looked at your list of dates, and the following dates are good with us and our expert:

December 5,
December 6,
December 7.

October is no good for us, and November is not really clear for our expert. Thanks Christa.

Hi Lisa,

I've attached my CV and expert witness report for Nino. I hoped to finish it earlier, but had some surprises this past weekend—I'm sorry for such a delay!

Please let me know if anything is unclear, needs clarification, or needs to be more strongly worded. If I need to print and sign a copy, just let me know (the images will likely be pretty poor quality in that scenario). I'm flying to MS tomorrow, but will monitor my email and keep my computer on me if edits will be beneficial.

My mobile number is 412-867-6847. Feel free to text or call if you need.

Best,
Jon Anderson

Can we status with the Court on 8/9? Emily, we can meet with you beforehand. Randy and I just don't want any issues with the Court, especially when we may need to fly our expert in from Vermont. We are also considering changing this case to a Jury trial. I just want to keep the Court in the loop.

Hi all,

I have a jury trial starting on Monday (8/8) so I will not be able to do a status on 8/9.

Should we pick a new date?

I just want the court to be aware of where we are with the experts and reciprocal discovery. I have that pending motion that I will review and talk to Randy about proceeding on.

I hate litigating cases like this, especially with reasonable ADA's like you. But we have clients we are trying to satisfy. Do you have any offers in this case? Maybe just a misdemeanor?

Emily and Christa:

Can we status with the Court on 8/9? Emily, we can meet with you beforehand. Randy and I just don't want any issues with the Court, especially when we may need to fly our expert in from Vermont. We are also considering changing this case to a Jury trial. I just want to keep the Court in the loop.

I am not available any of those dates. My next three weeks are incredibly packed. I could potentially do 8/9, but it would depend on if I have a jury or not.

Brent, why don't we meet and talk about it before we go into a status in front of the Judge. We can see if there even is an issue.

Thanks,
Emily

Christa and Emily:

Any chance we can schedule a status conference with the Court prior to trial in an abundance of caution, considering the expert witness issues in the case?

Emily,

This is coming along but I thought I would share some information in case you didn't have it about the defense "expert".

Paul E. Howard, DVM, MS a hired gun as expert witness. He's older than 70, graduating from Vet School at MSU in 1975, his residency in small animal surgery in 1980 at Cornell. It would appear that he wasn't doing too well as a board certified surgeon, as that is fairly lucrative; he went back to get his second Masters, in Forensics in 2013-2015 after a big gap in his resume. You can find his whole resume on LinkedIn. It seems rather disjointed. In the last four years, he's only testified once. (<https://www.seaexperts.com/members/5886-paul-e-howard>)

There's also an article about him and a court case involving him and his architect, Wayne Usiak that went to the Supreme Court of Vermont, appealing an earlier case. He lost both cases, and the notes seem to indicate that Dr Howard was the problem, not the architect and that part of the problems with the construction were related to Dr Howard wanting to build more than he could afford and blaming the architect for the problems. "The court could conclude on these facts that client's difficulties were caused by his own budgetary limitations, and architect was being creative, not negligent, in exploring the use of attic space to meet client's needs." as an example of the comments in the summary. (<https://caselaw.findlaw.com/vt-supreme-court/1456307.html>)

Dr. Gerson,

I have confirmed that this is the only vet records we have.

If you feel that these records change your original report in any way, can you please write a supplemental report on letterhead and send to my office?

If it does not, then we will deal with it on cross examination at trial. Attached is the defense's response to the vet records.

Thank you,
Emily

Emily

This record describes a single visit and a dental cleaning with extractions.

It also describes a right hind leg lameness. This might explain the hip joint laxity.

The death of the pet is still in question. If the daughter's testimony is strong that the dog was abused the case for cruelty is still strong.

There was a huge eye ulcer of the cornea. No treatment for this painful condition was in the documented. The hemorrhage of the eye was trauma. The explanation of playing with the dog and her running into a table is laughable. The matted fur is clearly neglect as bad as I have seen. The right shoulder laxity is not explained. The jaw fracture is more than disturbing. Clearly an old dog with kidney disease seen on the blood tests at the dental should have been followed.

No evidence of heart disease was noted at the single exam or on the necropsy radiograph. Dogs will often cough with heart disease and sudden death from heart disease is rare.

A single veterinary record of an exam and dental surgery on an dog of this age is not adequate care.

Any reasonable person given the testimony of the daughter and looking at the condition of the fur coat, eye trauma, shoulder laxity and fractured jaw would conclude that the treatment of this dead dog was criminal.

Thanks,

There are a lot of animals and a lot of charges. I think it might be a good idea for a report to put it all together and substantiate the charges so that the Judge does not minimize the case since they are all not furry huggable creatures.

Hi,

Dr. Samson's report is on the thumb drive that I gave you. Do you need a different one? I have never provided a different kind of report other than the usual forensic veterinary report that we give. I will have her get back to you if her CV is not up to date however I am fairly certain that it is.

Angie,

FYI

I have the photos you sent over and the vet reports. Will there be an expert report tying it all together and substantiating the charges? Is the resume/curricular vitae up to date for Dr. Samson? I will need to send that over along with the expert report and the notice of use of an expert.

Call me when you have a chance.

This dog needs a foster after being shot. He was taken care of at PVSEC.

Additional backstory: Dog was shot by his owner in the leg because he was misbehaving, so custody was revoked and Dan repaired his fractured bones (don't remember if it was radius or ulna). If anyone knows anyone, definitely pass it along!

Larry talked to Dr Pardo

The fracture repair was as quoted

The bill prior to transfer to surgery was \$4000

If AAARF pays approx \$7000
The city could cover the \$3000 or so balance to cover the emergency part.
Is that fair ?

The bill prior to transfer to surgery was \$4000

If AAARF pays approx \$7000
The city could cover the \$3000 or so balance to cover the emergency part.
Is that fair ?

Larry

Yes, but PVSEC said you had to get the bill. But they sent it the wrong address and I said I would keep you informed, so I am sending you the chain of emails. There is a problem with the price they quoted and what they charged.

Perhaps you have some insight on this as I am guessing you deal with them more frequently than either of us, but I can take you off the email chain. If you can help with anything, just let me know.

Thanks,
Lisa

Hi

The bill for the gunshot dog is almost twice the original estimate.

Does the city or DA's office have any way to help get this bill taken care of?

I can submit this for payment but also might expect the board to balk at the total amount.

Ultimately going forward we will need to discuss sending a solicitation to the city dog owners with a license for AARRF! donations.

Message to Karen at PVSEC

Karen

The final bill for this abuse case is much higher than the estimate.

The bill to the city and district attorney was \$12,000.

AAARF! Was to pay the bill but we hoped to stay at or under the high amount listed.

Can you review this with Dr Pardo before I discuss the total with the AAARF! Board

Subject: Re: Kazpryzk Records

Emily

The records do not change my opinions. They do address the right hind lameness. The lack of any other records on a senior dog are suggestive of a lack of veterinary care.

The eye ulcer and trauma should have resulted on a veterinary exam and treatment.

The jaw fracture noted by the defense should have been seen by a veterinarian.

The lack of radiographic evidence of an enlarged heart suggests that heart disease was not a cause of death.

No veterinary records show that the dog had evidence of heart disease. Coughing is the classic sign of cardiac disease.

Will you have photographs of the dog that I sent available for trial. The severe matting can not be dismissed as a need for grooming but rather severe neglect and abuse.

Do you expect the defense to have the forensic veterinarian present at trial?

Dr. Gerson,

I have confirmed that this is the only vet records we have.

If you feel that these records change your original report in any way, can you please write a supplemental report on letterhead and send to my office?

If it does not, then we will deal with it on cross examination at trial. Attached is the defense's response to the vet records.

Thank you,
Emily

Emily

This record describes a single visit and a dental cleaning with extractions. It also describes a right hind leg lameness. This might explain the hip joint laxity. The death of the pet is still in question. If the daughter's testimony is strong that the dog was abused the case for cruelty is still strong.

There was a huge eye ulcer of the cornea. No treatment for this painful condition was in the documented. The hemorrhage of the eye was trauma. The explanation of playing with the dog and her running into a table is laughable. The matted fur is clearly neglect as bad as I have seen. The right shoulder laxity is not explained. The jaw fracture is more than disturbing. Clearly an old dog with kidney disease seen on the blood tests at the dental should have been followed.

No evidence of heart disease was noted at the single exam or on the necropsy radiograph. Dogs will often cough with heart disease and sudden death from heart disease is rare.

A single veterinary record of an exam and dental surgery on an dog of this age is not adequate care.

Any reasonable person given the testimony of the daughter and looking at the condition of the fur coat, eye trauma, shoulder laxity and fractured jaw would conclude that the treatment of this dead dog was criminal.

Megan,

AAARF is paying for the cost of the dog's care per Larry's email. I think it's important as you said Megan to let Dave Madden and/or public safety know these costs will be covered. As far as getting a surrender, ownership issues, etc, very complicated.

Larry, I would be happy to talk to Lisa Borelli about ownership as it pertains to PA Dog Law and an entity that's not a non profit shelter or humane society handling holding/fostering. Also, Cost of care would not be able to be obtained to use against the owner to pressure him to surrender as they are not a non profit. Hopefully the owner will surrender but you never know. Feel free to give her my cell.

Larry,

Just heard a few minutes ago. Dog is doing well. They can splint the 4th metatarsal, they are leaving the bullet in the flesh wound and they are going to plan to plate the radius in the metacarpal area. They heard a heart murmur so they will be doing chest exrays. I will be getting updated records as well as an estimate of costs. I asked them to watch the costs.

I will send you what I get from them.

Thank you,
Lisa

Hi

We had a request for pre approval from the assistant DA for care of a dog that the owner shot. We are waiting for an estimate for the fracture repair. The surgery will save a limb from amputation.

We also had requests from Homeless Cat Rescue that totaled \$14,000 for a number of surgeries.

Instead of a meeting in person can we approve these two requests once we find out the cost of the gun shot case?

Will send all details but I wanted to assure the DA we can cover the gun shot case. Hopefully we can get restitution.

Here are the records from blue pearl PVSEC. No one seems to have the AAARF form, but I will try again on Monday. It will be 2 emails.

Thanks,
Lisa

I just want the court to be aware of where we are with the experts and reciprocal discovery. I have that pending motion that I will review and talk to Randy about proceeding on.

I hate litigating cases like this, especially with reasonable ADA's like you. But we have clients we are trying to satisfy. Do you have any offers in this case? Maybe just a misdemeanor?

Can we status with the Court on 8/9? Emily, we can meet with you beforehand. Randy and I just don't want any issues with the Court, especially when we may need to fly our expert in from Vermont. We are also considering changing this case to a Jury trial. I just want to keep the Court in the loop.

Attachments: Supplemental expert report - Kasprzyk.pdf

Hi Em!

I have attached a supplemental report from our expert who reviewed the 8 pages of the dog's past vet records you gave us a week ago. It's only one page. Please review it and let your vet expert see it. In summation, according to our expert the additional 8 pages are irrelevant and have no effect on his opinion. -sigghh- He still believes this dog suffered no trauma from everything he reviewed and that your vet could not have come to that conclusion based on the evidence. We still love you Em! Any other courtroom we would not have to to be concerned over time and scheduling.

Sincerely, Your boys
Randall T. Ricciuti

What's up Em!

Regarding the animal cruelty case, have you received a response yet from your vet/expert regarding our vet/expert's opinion about the matter? With Judge Mariani on the case we have to pay attention to time for both sides. We need to know if we have to fly our expert here for live testimony. And if that trial date is clear for our expert. Hopefully that won't be necessary. Anyway, can we please get an update status.

Thanks em!

Sincerely,
Randall & Brent

Angie,

FYI

I have the photos you sent over and the vet reports. Will there be an expert report tying it all together and substantiating the charges? Is the resume/curricular vitae up to date for Dr. Samson? I will need to send that over along with the expert report and the notice of use of an expert.

Call me when you have a chance.

Thanks,
Lisa

Emily and Christa:

Can we status with the Court on 8/9? Emily, we can meet with you beforehand. Randy and I just don't want any issues with the Court, especially when we may need to fly our expert in from Vermont. We are also considering changing this case to a Jury trial. I just want to keep the Court in the loop.

Christa and Emily:

Any chance we can schedule a status conference with the Court prior to trial in an abundance of caution, considering the expert witness issues in the case?

I am not available any of those dates. My next three weeks are incredibly packed. I could potentially do 8/9, but it would depend on if I have a jury or not.

Brent, why don't we meet and talk about it before we go into a status in front of the Judge. We can see if there even is an issue.

Thanks,
Emily

Lisa,

I am very sorry to hear of this incident and that your son was the victim of an assault. The charges will have to be pursued through the Police Department in which your husband's office is located and we will then have to refer the case to the Attorney General's Office because of the obvious conflict. Please let me know when you have a police incident number and/or OTN and I will make the referral.

Call me if you have any questions.

Hope everyone is doing okay,
Becky

Lisa stopped by to see you...

Her son was assaulted yesterday in her husband's vet office by a "customer". The guy was berating the office staff and "JD" blocked the doorway to keep the guy from entering. The guy took a swing and JD used his wrestling background to pin the guy down. His arm was broken. Police were called and Lisa said she and her husband and son want to press charges. (nothing in ASAP yet)

She wanted you to know her son has a different last name. And she heard that it might have to go to the AG's office. Her son's name is Jonathan Dorn; the actor's name is Anthony Alvarez.

Subject: MATTHEW ERZEN

I have tried contacting Matthew Erzen by telephone,, text messages, and email. He is not responding. Humane Action Pittsburgh offered to pay his legal fees to file an appeal. I don't know what else to do. Personally, I would move heaven and earth to get justice for any of my beloved pets. I don't know what Mr. Erzen is thinking. I know that he lived in Ohio and I am not sure that he lives in the address that he provided. If he lived in Pittsburgh, I would knock on his door.

I can't begin to describe the amount of frustration and stress I feel about this case. I had a hard time sleeping again last night. I am not trying to point fingers or insult anyone. However, mistakes were made and despite me begging for the charges to be refiled many months ago, this case continues to drag on. Because of the mistakes made, witnesses, HAR, a veterinarian (who was not named in the affidavit of probable cause), and me are defendants in federal court. I was publicly humiliated, as this was in the news.

I turned over every stone and did my best in this case. It would be an injustice if James Genco is not held accountable for his actions. What are our next moves? ADA Borrelli, you mentioned a material witness warrant. I am not familiar with how that works.

Can any of you please help?

Matthew Erzen's telephone number is 440-781-3632.

Subject: RE: ANWAR LOUIS - 1318 SUPERIOR AVENUE - 15212

I just looked again and did see that in 2014 when the case was finalized that he was not to own animals for 2 years so that would've been up in 2016. We did reclaim out 2 dogs to him and his girlfriend in April 2022. The dogs at that time were in good condition with no suspicions of neglect or abuse.

His prohibition was up in 2016. He received 2 years probation for the guilty plea but it does not mention not being able to own animals during that time. This was before the cruelty law upgrade and I believe the commonwealth would've had to ask for the prohibition of animals back then, it was not automatically granted, just like we have to ask for prohibition now.

Typically if prohibition is granted, it is listed in the sentencing portion, which I do not see it there.

So I guess the short answer is that he is not currently prohibiting from owning animals at this time.

Subject: ANWAR LOUIS - 1318 SUPERIOR AVENUE - 15212

Hello,

I just received a call from Wendy Dunbar-Kraus (412-208-8560). Ms. Dunbar-Kraus told me that she is a case worker with CYF. She reported that CYF has been involved since 2019 about abuse allegations of the children in the care and custody of their mother and father (Anwar Louis). Ms. Dunbar-Kraus told me that the mother is the primary abuser and that she signed off on her rights to their 13 and 5 year old kids. However, the mother is fighting to get the 3 year old child back.

Ms. Dunbar-Kraus reported that Anwar Louis was convicted of cruelty to animals in 2013 and that there is a court order prohibiting him from owning animals. She told me that he has 2 dogs and about 12 aquariums of various fish. I explained to her that I don't know how long Mr. Louis is prohibited from owning animals.

Can you please tell me if Anwar Louis - DOB 3-5-71, is currently prohibited from owning animals?

Your help is appreciated.

Thanks!

Subject: ANWAR LOUIS - 1318 SUPERIOR AVENUE - 15212

Hello,

I just received a call from Wendy Dunbar-Kraus (412-208-8560). Ms. Dunbar-Kraus told me that she is a case worker with CYF. She reported that CYF has been involved since 2019 about abuse allegations of the children in the care and custody of their mother and father (Anwar Louis). Ms. Dunbar-Kraus told me that the mother is the primary abuser and that she signed off on her rights to their 13 and 5 year old kids. However, the mother is fighting to get the 3 year old child back.

Ms. Dunbar-Kraus reported that Anwar Louis was convicted of cruelty to animals in 2013 and that there is a court order prohibiting him from owning animals. She told me that he has 2 dogs and about 12 aquariums of various fish. I explained to her that I don't know how long Mr. Louis is prohibited from owning animals.

Can you please tell me if Anwar Louis - DOB 3-5-71, is currently prohibited from owning animals?

Your help is appreciated.

Thanks!

Hi Matthew,

The District Attorney's office is ready to refile the charges against James Genco. There is an animal rescue group that is interested in helping you with your case. Please call me at your earliest convenience. I can be reached at my office at (412) 488-8425 or on my cell at 412-377-0157.

We need to know if you are still interested in pursuing this matter. If so, we will need to know if there are any dates in August, September, or October that you are NOT available.

I look forward to speaking with you.

Thanks!

Subject: RE: Updated farm animal criminal complaint -- McNeil

I only did not get photos of the frog, gecko and bearded dragon. I'm not sure why, it was a bit of a hectic day. Dr. Samson did lay her hands on every single animal however for a forensic exam with the exception of the scorpion for obvious reasons.

Angie

Hello,

I am working this file and putting together the pictures with the report and I do not think I have a picture to go with every animal. Is that right?

Thanks,
Lisa

Hello,

While I have not heard from everyone on their availability and those individuals are not on this email, not everyone has given me their October availabilities. Please send me those if you have not. It is fairly clear so far that all witnesses needed for the case and so far reporting, are available on September 26, 27, and 28. These are the only dates with overlap so far. For now please make sure to keep those dates free.

Thank you,
Lisa

Good afternoon!

If you are receiving this email you are, or were at one time, listed as representing a client that we have listed for PTC this week with Judge Lazzara.

Attached is a list of available dates for Judge Lazzara's PTC's scheduled for 7/8/22 along with a list of the assigned ADA on each case. Please discuss dates with opposing counsel, who have been cc'd on this email, and if you'd like to waive your clients appearance, if they are not incarcerated, please submit along with the selected date the Waiver of PTC found on the 5th Judicial website, a verified address, phone number and email if they have it so that we can send out a subpoena. If dates are not selected and waivers are not submitted by the scheduled PTC date and time, please plan on being here in person with your client.

Thanks!

Tim

FYI: Subpoenas are for 8:30am, when the door opens. Judge Lazzara expects parties to be here and have cases ready to go when she takes the bench.

Please find below the Office of Public Defender's clients for 7/8/22.

G8996234	2022-3440	Charles Baurle	PTC	7/8/2022	Samuel Esterman	Lazzara

 Subject: 7/8/22 PTC, Judge Lazzara room 306A

Good afternoon!

If you are receiving this email you are, or were at one time, listed as representing a client that we have listed for PTC this week with Judge Lazzara.

Attached is a list of available dates for Judge Lazzara's PTC's scheduled for 7/8/22 along with a list of the assigned ADA on each case. Please discuss dates with opposing counsel, who have been cc'd on this email, and if you'd like to waive your clients appearance, if they are not incarcerated, please submit along with the selected date the Waiver of PTC found on the 5th Judicial website, a verified address, phone number and email if they have it so that we can send out a subpoena. If dates are not selected and waivers are not submitted by the scheduled PTC date and time, please plan on being here in person with your client.

Thanks!

Tim

FYI: Subpoenas are for 8:30am, when the door opens. Judge Lazzara expects parties to be here and have cases ready to go when she takes the bench.

Please find below the Office of Public Defender's clients for 7/8/22.

Hi Emily:

Any new information on your end regarding prior vet records or a supplemental report from your expert? We sent you our expert report a while ago, and need to know if we need to fly this man in from Vermont to testify.

The only thing that makes me nervous is being "unprepared" in front of Judge Mariani. Can we set up a status conference with the court in the next few weeks just to try and troubleshoot any potential problems?

Hope you had a great 4th!

Brent

Hello,

While I have not heard from everyone on their availability and those individuals are not on this email, not everyone has given me their October availabilities. Please send me those if you have not. It is fairly clear so far that all witnesses needed for the case and so far reporting, are available on September 26, 27, and 28. These are the only dates with overlap so far. For now please make sure to keep those dates free.

Thank you,
Lisa

 Subject: JUDGE Mariani PTC

Good Morning,

You have a pretrial scheduled in Judge Mariani's July 8, 2022 . Attached are the available dates for Nonjury and pleas. If you would like to schedule a jury please contact the court. Also, attached is the waiver of presence for PTC.

Thanks

Christa

Case #	Def's Name	DA	Def's Counsel	22-3468	Michael Fiehrer	McDevitt	Emhoff 22-
3507	Kyeshawn Hall						
	This has a date of 9/27	Golebiewski	Emhoff 22-3220		Jon Mathis	McDevitt	Emhoff 22-
3675	James						
McNeil	Borrelli	Emhoff					

Jeanne is out of town here are her good dates 10/3, 10/4, 10/5, 10/11, 10/24, 10/25, 10/26, 10/27
 Lauren let's pick 10/5 that is a good date for both of you for the two cases Fiehrer and Mathis.

Warning! This email was sent from an external source. Please be sure you recognize the sender and use caution when clicking on links and/or opening attachments.
 Good afternoon!

If you are receiving this email you are, or were at one time, listed as representing a client that we have listed for PTC this week with Judge Lazzara.

Attached is a list of available dates for Judge Lazzara's PTC's scheduled for 7/8/22 along with a list of the assigned ADA on each case. Please discuss dates with opposing counsel, who have been cc'd on this email, and if you'd like to waive your clients appearance, if they are not incarcerated, please submit along with the selected date the Waiver of PTC found on the 5th Judicial website, a verified address, phone number and email if they have it so that we can send out a subpoena. If dates are not selected and waivers are not submitted by the scheduled PTC date and time, please plan on being here in person with your client.

Thanks!

Tim

FYI: Subpoenas are for 8:30am, when the door opens. Judge Lazzara expects parties to be here and have cases ready to go when she takes the bench.

Please find below the Office of Public Defender's clients for 7/8/22.

G8996234	2022-3440	Charles Baurle	PTC	7/8/2022	Samuel Esterman	Lazzara

Subject: Re: Our Dog Case

Hi Emily:

Any new information on your end regarding prior vet records or a supplemental report from your expert? We sent you our expert report a while ago, and need to know if we need to fly this man in from Vermont to testify.

The only thing that makes me nervous is being "unprepared" in front of Judge Mariani. Can we set up a status conference with the court in the next few weeks just to try and troubleshoot any potential problems?

Hope you had a great 4th!

Hello Lisa,
I will be retiring September 11th. Detective Kevin Logue will be in my position from that date on. I have cc'd him on this email so would you please send him further sheet listings?
Thank you and very nice to have worked with you.
Stay safe,
Harold

Subject: Re: GENCO - PROPOSED NARRATIVE TO REFILE CHARGES

Matthew Erzen can not afford to pay the \$1,500 up front that Attorney Lou Emmi requested. Mr. Erzen told me that he is able to make payments. I contacted Mr. Emmi and asked him if he is willing to represent Mr. Erzen and allow him to make payments. He told me that he will represent Mr. Erzen if he pays him \$1,500 up front.

Hello all,

No. It has not. Once we file, we are under a tight gun to take it to trial. We need to have all our witnesses available because we cannot take any postponements.

I thought I explained that, so I apologize if I was not clear. When I have dates from all the witnesses, we will get permission from our front office to refile.

I am not delaying, I am still waiting to get one of the experts list of available dates.

I will communicate with everyone before the next move is taken.

As always, please feel free to contact me with any questions.

Thanks,
Lisa

Hi Lisa,

I got your email about the postponement for Omar Bradley in Penn Hills however that date conflicts with Dr. Samson and I as we have a trial that day in Pittsburgh.

Please let us know the new date for Bradley.

Thanks
Angie

Conducting an animal welfare investigation
 <<https://www.justiceclearinghouse.com/online-course-building-winning-animal-welfare-case/>>
<https://www.justiceclearinghouse.com/online-course-building-winning-animal-welfare-case/>

In many jurisdictions, resource limitations mean that all aspects of investigation and courtroom process are handled by a single humane law enforcement officer. Would you be ready to handle one of these investigations?

This five-part series will walk you through the five major elements of an animal control investigation, using real-life examples and conversations with sworn officers to give you multiple perspectives on handling a case, start to finish.

The five part series, hosted by Loudoun County Animal Services' Nina Stively, includes interactive segments on the following topics:

- Documenting the Scene
- Documenting Animal Evidence
- Talking to the Key Players
- Writing Your Report
- Testifying in Court

Join us for this engaging series, and have access to sample forms and materials and listen to tips and tricks from the pros, to help you work an animal welfare investigation, nose to tail.

This online course is pre-approved for 5 CEU credits by the National Animal Care and Control Association.

The course is entirely online and students can proceed through the course at their own pace and have a FULL YEAR to complete the sessions.

The total cost of this 5-hour online course is \$186 per student and we are offering a 20% discount for JCH and NACA Members and group registrations with three or more personnel.

Subject: RESPONSE TO YOUR EMAIL REGARDING THE CIVIL LAWSUIT FILED BY JAMES GENCO

EMAIL RECEIVED BY DR. GARDNER,

Hello, last Friday I received a summons for the lawsuit. I hadn't heard anything in so long I hoped that whole thing was dismissed. What has been going on on one your end? Do you know if all the others listed on the suit have already been served and where we are in the process? I've reached out to my liability insurance but don't think this kind of lawsuit is covered. Thanks, Emily Gardner

Good morning, Dr. Gardner,

The lawsuit filed against us by James Genco is ridiculous. We did nothing wrong. I cc'd Officer Fry, Lt. Stoops, Attorney McNally (city of Pittsburgh), and ADA Lisa Borrelli on my response to you, so they are aware that you received a summons involving the lawsuit.

I am hoping that Attorney McNally or the attorney representing Humane Animal Rescue can answer your questions and help you. Please do not worry about this. Honestly, I am not worried at all.

I want you to know that the District Attorney's office asked two experts to review James Genco's actions and they provided reports that we are going to use to refile the charges. The way that Mr. Genco treated "Cash" is shameful.

I was asked by ADA Borrelli to begin to prepare the narrative for the criminal complaint.

I am so sorry that we are going through this.

You don't deserve this. Mr. Genco is very vindictive. Please take a deep breath and know that we are doing our best to right a wrong.

Hello!

I think yours is still important because you are local, and you saw it all first. Whether or not you testify, I think that if you can spare the time, an updated report would be helpful. I want to bombard them with as much ammunition as I can. I think your supplementation on that issue will nail this. They have filed a habeas so everything is technically up in the air so I have told them that I may ask the court to reinstitute the felonies.

I have a meeting with defense counsel to let them read my reports next Wednesday. My goals are to get them to plead and to perhaps have enough ammunition to possibly go after the managers, if we can. If you can also perhaps talk about the time issue, (how long it took before anyone got that poor dog help and how detrimental that was) that would be great as that was/is a huge obstacle. Dr. Otteman does talk about this as well, but any assistance on that issue might be helpful.

I understand that you are in court today for picking a jury. Good luck and stand strong!

Hi Lisa,
Given that my report is also just a review of the video, and you now have two specialist's reports, I'm not sure that mine is even worth submitting? Do you even want to have me testify?

I can supplement mine to better explain a slower asphyxiation/strangulation, which is why some of the post mortem changes were not seen on necropsy that we would normally see in such cases, as the pathologist said...but that also, I lot of things you would normally want reviewed on necropsy in a possible strangulation case weren't done, as per Dr. Otteman's report.

Let me know how you would like me to proceed. I am glad Dr. Otteman came to the same conclusions that I did, but her double specialty definitely gives her report more weight than mine.

Thanks,
Dr. S

Subject: RESPONSE TO YOUR EMAIL REGARDING THE CIVIL LAWSUIT FILED BY JAMES GENCO

EMAIL RECEIVED BY DR. GARDNER,

Hello, last Friday I received a summons for the lawsuit. I hadn't heard anything in so long I hoped that whole thing was dismissed. What has been going on on one your end? Do you know if all the others listed on the suit have already been served and where we are in the process? I've reached out to my liability insurance but don't think this kind of lawsuit is covered. Thanks, Emily Gardner

Good morning, Dr. Gardner,

The lawsuit filed against us by James Genco is ridiculous. We did nothing wrong. I cc'd Officer Fry, Lt. Stoops, Attorney McNally (city of Pittsburgh), and ADA Lisa Borrelli on my response to you, so they are aware that you received a summons involving the lawsuit.

I am hoping that Attorney McNally or the attorney representing Humane Animal Rescue can answer your questions and help you. Please do not worry about this. Honestly, I am not worried at all.

I want you to know that the District Attorney's office asked two experts to review James Genco's actions and they provided reports that we are going to use to refile the charges. The way that Mr. Genco treated "Cash" is shameful.

I was asked by ADA Borrelli to begin to prepare the narrative for the criminal complaint.

I am so sorry that we are going through this.

You don't deserve this. Mr. Genco is very vindictive. Please take a deep breath and know that we are doing our best to right a wrong.

What's up Em!

Regarding the animal cruelty case, have you received a response yet from your vet/expert regarding our vet/expert's opinion about the matter? With Judge Mariani on the case we have to pay attention to time for both sides. We need to know if we have to fly our expert here for live testimony. And if that trial date is clear for our expert. Hopefully that won't be necessary. Anyway, can we please get an update status.

Thanks em!

Sincerely,
Randall & Brent

Subject: Cruelty case

The 15 page defense report is not to be believed. A blind dog walks into a cart breaks a jaw in the thickest part and has a heart attack and dies.

There was no evidence of ascites or heart enlargement. The left eye was not abnormal.

The matting that was clear in the photos was as bad as any case I saw in my career. The accused has a PFA and a credible narrative from the girl.

Without any direction from the DA or humane officer I did make mistakes in the report. I did not even do a CT exam, shave and skin the dog as the forensic specialist recommended. Nor did I surgically explore each joint as criticized. This case should not be excused on technicalities.

Below is Judge's Sasinoski's Pre-Trial List. This courtroom conducts its pre-trial via email. This court asks that any referrals to ARD or Specialty Courts be made prior to the first Trial Date listing.

First Trial Date postponement requests will not "automatically" be granted, even with the consent of both parties.

Below is a list of Judge Sasinoski's available dates:

JUNE 27 or 29

JULY 4, 12, 13, 14, 18, 19, 20, 21

Please email Candice at ckelly@alleghenycourts.us your available dates, as they coincide with the courts dates.

All defendants, who are not incarcerated or in alternative placement, will be instructed NOT to appear in person. I will attempt to obtain current contact info and will forward the defendant their trial date subpoena via email, text or certified mail.

Please contact me with any questions.

Stephanie Ewing, Judicial Assistant
The Honorable Kevin G. Sasinoski

Copy. I added those details in the narrative before the execution of the search warrant. I changed the wording around as such:

Tomlin spoke to Ofc. Fry on the sidewalk. Tomlin explained to her that he uses the "anaerobic compost" method which means that instead of removing the waste from the dog kennels, he just adds another layer of cedar chips. This creates bacteria from the composting, which is what the dogs were living in and confined to.

Humane Officer Fry and animal control officers obtained a temperature reading of the inside of the residence through a large hole in the back door with a thermal temperature gun. It was approximately 34 degrees inside of the residence with no utilities. This would prevent the dogs inside from maintaining their own body temperature.

Subject: RE: Vet report for Grotto dogs

Hi,

Looks good. The only thing I would add is when myself and animal control officers obtained a temperature reading of the inside of the residence through a large hole in the back door with a thermal temperature gun. I believe it was approximately 34 degrees inside of the residence with no utilities. This would prevent the dogs inside from maintaining their own body temperature.

I would also add that when Tomlin spoke to me on the sidewalk, that he explained to me that he uses the "anaerobic compost" method which means that instead of removing the waste from the dog kennels, he just adds another layer of cedar chips. This creates bacteria from the composting, which is what the dogs were living in and confined to.

Hello,

I finally had time to sit down and draft a complaint for the case, Attached is a copy of the complaint. If either of you have any recommended changes let me know. I will be working until 3pm today and can get the warrant signed today. If not today I will be back in Saturday and can fix any changes and get it signed then.

I did add a new charge, Title 75 1543A driving while suspended. Barr drove to 1323 Grotto in black Ford truck and was seen driving by Ofc. Kovach. Barr's license comes back suspended for unspecified reasons through PENNDOT records.

Thanks,

Subject: Re: Vet report for Grotto dogs

Copy thanks for the clarification.

DA Borrelli approves and wants Ofc. Claflin and I to proceed with the charges listed above?

We can draft a copy of the criminal complaint and send it to both of you for any recommended changes. We can get the process started this weekend and hopefully have something to send out on Monday if these are the listed charges.

Subject: RE: Vet report for Grotto dogs

Good morning,

Grotto 3 is a misdemeanor and summary (stacked) for 5532 a(3) because the dog was babesia positive which if the dog is symptomatic (which in this case the dog was because it was anemic) and the babesia is not treated and monitored, the dog is at imminent risk of SBI because there is high risk of anemia with babesia also the dog had bodily injury (puncture wounds) that required treatment with pain medication (Carprofen) and antibiotics (Clindamycin).

Grotto 6 is a misdemeanor and summary (stacked) for 5532 a(3) because the dog had pressure sores which are painful and were treated with pain medication (Carprofen) and the dog also had an ear infection which was treated with Clindamycin.

Grotto 7 is a misdemeanor and summary (stacked) for 5532 a(3) because the dog was babesia positive and had an ear infection both of which required treatment with pain medication and antibiotics.

If you don't already, I would suggest using the wording from the "summary of findings and conclusions" from the vet report in your criminal complaint as it helps to justify the level that was charged.

As far as the charges you sent in this E-mail, All charges will now be summary charges with the exception of Grotto 5 which is the felony & misdemeanor?

 Subject: RE: Vet report for Grotto dogs

Good morning everyone,

At the request of ADA Borrelli, I looked over my initial charging recommendations with the veterinary report and listed below is what I believe should be charged. I spoke with Dr. Ledesma who stated that the ear infections were very minor and therefore he cannot substantiate pain associated with these so we don't have the misdemeanor (which is defined as substantial pain).

Grotto 1:

5532 a(1) – S
 5532 a(2) – S
 5532 a(3) – S

Grotto 2:

5532 a(1) – S
 5532 a(2) – S (dog had mild interdigital dermatitis most likely from living conditions)
 5532 a (3) – S (mild interdigital dermatitis)

Grotto 3:

5532 a(1) – S
 5532 a(2) – S
 5532 a(3) – M/S (babesia +)

Grotto 4:

5532 a(1) – S
 5532 a(2) – S
 5532 a(3) – S

Grotto 5:

5534 a(1) – F (dog was BCS 2/9 on intake; has gained 14 lbs since)
 5532 a(1) – M/S (stacked with 5534)
 5532 a(2) – S
 5532 a(3) – S (puncture wound on ear)

Grotto 6:

5532 a(1) – S
 5532 a(2) – S
 5532 a(3) – M/S (pressure sores / ear infection)

Grotto 7:

5532 a(1) – S

5532 a(2) – S

5532 a(3) – M/S (babesia+ / ear infection)

Good morning,

I have attached the veterinary report from Dr. Eric Ledesma for the Grotto dogs for both of you to review and adjust my charging recommendations as you see fit. If I can be of any further assistance please don't hesitate to contact me.

Thanks and stay safe

I will send charts next. Here is the narrative:

On 05/30/2022 at 1552hrs I Officer Melocchi (4786) Unit#3420 responded to 720 Copeland St for a report of a dog locked in a vehicle. It is to be noted that the national weather service indicated that the temperature in Pittsburgh was 86 degrees Fahrenheit at 1633hrs.

Upon arrival I spoke to reporting person Michaela Page. Page stated that she believed that a vehicle was parked with the dog inside of it on the road outside of 720 Copeland St since approx 1530hrs. I observed a Toyota Rav-4 black in color bearing PA registration LJD5700 parked on the street, partially in the sun with the all windows cracked and the vehicle not turned on. Inside of the vehicle was a large breed dog, believed to be a great dane. The dog was excessively panting, and I did not observe any water accessible to the dog inside of the vehicle. The vehicle was unlocked and I was able to take control of the dog and transported it to Zone 4 police station for safe keeping until animal control could retrieve the dog.

An NCIC query of registration LJD5700 shows the owner of the vehicle is a Zhilin Gong. Prior to leaving the scene I placed a business card on Gong's vehicle with the phone number to Zone 4 Police Station.

I received a call at the Zone 4 police station from Gong at approx 1650hrs. Gong answered the phone with "where is my dog". I informed Gong the address of the station for him to retrieve it.

Upon Gong's arrival I ascertained as to why he left his dog in his vehicle. Gong's response was that he needed to get some food. Gong informed me that he went to the restaurant Shady Grove to eat. Gong stated that he believes that he was eating dinner for a half an hour.

I was able to observe video surveillance from the interior of Shady Grove. Upon speaking to the manager of Shady Grove, she indicated that the time stamp on their video system is on an approx 36mins delayed. Video surveillance shows Gong and another male enter the restaurant at 1506hrs, which would be 1542hrs adjusting for the time delay. Video shows them leave the restaurant at 1610hrs, which would be 1646hrs adjusted for the time delay. Video shows that both Gong and the other male were in Shady Grove for 1 hour and 4 minutes.

Due to the above described incident I am respectfully requesting a summons be issued for Gong for the listed charges.

Probably the last of this year!

Also, we think that Michael M. David, the AZ License Plate Number looks to be a stolen plate per the officer's investigative search (information gathered from the Criminal Complaint)

Have a happy holiday season!!

Hello!

I think yours is still important because you are local, and you saw it all first. Whether or not you testify, I think that if you can spare the time, an updated report would be helpful. I want to bombard them with as much ammunition as I can. I think your supplementation on that issue will nail this. They have filed a habeas so everything is technically up in the air so I have told them that I may ask the court to reinstitute the felonies.

I have a meeting with defense counsel to let them read my reports next Wednesday. My goals are to get them to plead and to perhaps have enough ammunition to possibly go after the managers, if we can. If you can also perhaps talk about the time issue, (how long it took before anyone got that poor dog help and how detrimental that was) that would be great as that was/is a huge obstacle. Dr. Otteman does talk about this as well, but any assistance on that issue might be helpful.

I understand that you are in court today for picking a jury. Good luck and stand strong!

Thanks,
Lisa

Hi Lisa,
Given that my report is also just a review of the video, and you now have two specialist's reports, I'm not sure that mine is even worth submitting? Do you even want to have me testify?

I can supplement mine to better explain a slower asphyxiation/strangulation, which is why some of the post mortem changes were not seen on necropsy that we would normally see in such cases, as the pathologist said...but that also, I lot of things you would normally want reviewed on necropsy in a possible strangulation case weren't done, as per Dr. Otteman's report.

Let me know how you would like me to proceed. I am glad Dr. Otteman came to the same conclusions that I did, but her double specialty definitely gives her report more weight than mine.

Thanks,
Dr. S

Dr. Samson,

As you may be aware, the defendants have filed a habeas on this case. I have attached that filing as well. In light of that, I reached out to get some expert back up since we have had problems with the Banfield vet. I thought you might want to read the recent reports I received, and decide whether in light of this evidence, you wanted to amend your report as well. I believe with these reports, our case has become quite strong. Please let me know if you wish to supplement your report after reviewing the enclosed reports.

Thanks,
Lisa

Dr. Samson,

As you may be aware, the defendants have filed a habeas on this case. I have attached that filing as well. In light of that, I reached out to get some expert back up since we have had problems with the Banfield vet. I thought you might want to read the recent reports I received, and decide whether in light of this evidence, you wanted to amend your report as well. I believe with these reports, our case has become quite strong. Please let me know if you wish to supplement your report after reviewing the enclosed reports.

Thanks,
Lisa

Thanks Dr. Gerson!

Once I receive the dog's records I will send them to you. The plan will probably be to have you write a report in response after reviewing those and his expert. I will let you know as soon as I receive them and we can go from there.

Thanks,
Emily

Subject: Cruelty case

The 15 page defense report is not to be believed. A blind dog walks into a cart breaks a jaw in the thickest part and has a heart attack and dies.
There was no evidence of ascites or heart enlargement. The left eye was not abnormal.
The matting that was clear in the photos was as bad as any case I saw in my career. The accused has a PFA and a credible narrative from the girl.

Without any direction from the DA or humane officer I did make mistakes in the report. I did not even do a CT exam, shave and skin the dog as the forensic specialist recommended. Nor did I surgically explore each joint as criticized. This case should not be excused on technicalities.

Can you get me a complete medical history from the veterinarian who saw this dog when it was alive? There are holes in the Vermont consultant evaluation. He did not see an enlarged heart on radiographs yet blamed heart disease which is rarely suddenly fatal. The left eye was normal and this dog was probably not blind. The fractured jaw is quite suspicious. Was the consultant aware of the protection from abuse order?

I would be fine with PVMA sending a letter to the borough outlining our position on the issue. If someone would want to speak on behalf of the PVMA or vets in general at the meeting that would be great as well.

I find it a little odd they are trying to get a declaw ban passed in a township or borough that has no vets in it. Pretty easy target for political points if you ask me.

I'm curious. I know of course the emotion on this is strong and the "Paw Project" folks or whatever they are called have pushed the extreme cases in their videos, but does anyone know if any kind of large retrospective study has been done looking at the reported complication rate post declaw (including behavior issues). While I doubt it would change the minds of the die hards...it might be interesting for others to know.

I'd love to see mandatory licenses and microchips for indoor cats. Question is...how is it ever enforced and where does the initial money come from to start up the program and hire the needed people. Dog law has been teetering every year on insolvency bc of antiquated license fee structures.

From a science standpoint I also agree in waiting to get dogs and cats spayed and neutered...but would be a real uphill battle in the shelter world. I also think the law would have to be altered slightly to make it easier to adopt out intact animals without waivers or spay neuter agreements that few would follow up on.

And our profession remains silent.

We should call for registration for a fee of all urban cats and mandatory microchips.

Additionally shelters should stop altering before 5 months.

I now agree that cat owners should tolerate claws or get a different pet.

PS this community does not have any veterinarians.

Consolidated Cruelty Statutes - Animal Legal & Historical Center

Summary: This document contains Pennsylvania's anti-cruelty laws that were amended in 2017 and 2018. In 2018, the state added a rescue and immunity provision for dogs and cats in "hot cars." Section 5532 covers neglect of animal and states that a person who has care of animal must provide: (1) necessary sustenance and potable water; (2) access to clean and sanitary shelter and protection from ...

New Questions Expert - Victim Behavior

Has anyone had a case where defense counsel, or the Commonwealth, used William Russell, Ph.D. as an expert in victim behavior? You can find his website here. If so, can you please send any information to PDAA's Legal Resource Prosecutor at mspang@pdaa.org. Thank you in advance. PWID Expert - Steroids

We are working on a Delivery and PWID of steroids.

The case is currently based upon many Facebook messenger exchanges of selling steroids - conversations about cycling, manufacturing, selling and buying from the darkweb, photos of vials, photos of receipts for mailing to buyers around the country, photos of paypal/cashapp payments, etc.

We will need an expert to testify about steroids, classification of steroids, a Schedule III controlled substance, scientific names for anabolic steroids, and common slang referring to steroids. For example, "Trestolone, also known as 7 α -methyl-19-nortestosterone" is referred to as "MENT."

Can anyone recommend such an expert, perhaps a pharmacist and/or a pharmacologists?

Thank you for your help.

The Honorable A.G. Howell
District Attorney
Wayne County

Please respond directly to DA Howell at ahowell@waynecountypa.gov and please copy PDAA's Legal Resource Prosecutor at mspang@pdaa.org.

Criminal Complaint - Amendment

I was wondering whether anyone has prepared a policy for designating the Affiant of a criminal complaint to amend charges pursuant to Santiago/Miller. If anyone has a policy or has dealt with this issue, I would greatly appreciate a copy of the policy or any insight you can give.

Thank you in advance.

Kelly L. Margetas
Deputy District Attorney
York County

Please respond directly to DDA Margetas at KLMargetas@YorkCountyPA.gov and please copy PDAA's Legal Resource Prosecutor at mspang@pdaa.org.

Answers to Previous Questions Experts - Child Abuse (Physical)

We are currently prosecuting a case that involves a 3-week-old child who presented at Children's Hospital vomiting blood, with bruising on shins/back/neck/shoulder, healing fractures on 5 ribs, healing fractures of the left femur and left tibia, left fibula and a healing metatarsal fracture (a torture fracture).

The parents have provided the opinions of the following experts who indicate that this child suffers from Metabolic Bone Disease/Ehlers Danlos Syndrome/hypermobility type:

Douglas Benson, MD
Michael Holick, MD, PHD
Arash Shirvani, MD, PHD
Marvin Miller, MD

I am looking for any information on the above experts. Trial transcripts that precluded their testimony would be especially helpful.

Thank you in advance.

The Honorable D. Shawn White
District Attorney
Venango County

Cumberland County

I successfully excluded a portion of Dr. Holick's testimony in an egregious homicide case involving a 46-day old infant that suffered over 50 fractures at the hands of his father during his short life. I am attaching the motion in limine I filed, which resulted in a Frye hearing and the court order preventing Holick from testifying as to infants with EDS suffering from bone fragility fractures. I also am attaching Dr. Holick's Frye hearing testimony and the testimony of Dr. Natasha Shur, who was an outstanding resource for me for combating this nonsense ahead of trial. I also am attaching another transcript I received from Maryland where Holick has testified to this junk science before. You can find the documents here.

Best,

Kimberly A. Metzger
Chief Deputy District Attorney
Cumberland County
DNA - Felony Convictions

We have a defendant who has numerous felony convictions ranging back to early 2000. Somehow the defendant never submitted nor was required to give his DNA sample for any of these offenses prior to his supervision being terminated in 2012. He was recently arrested again on misdemeanor DUI charges and probation recognized this oversight on their part and now has asked the defendant to submit to a DNA sample. The defendant has refused and said he will not give a sample. Do we have any recourse at this point? Have any other counties had a similar issue? Any help or suggestions would be greatly appreciated.

Thanks!

Chuck E. Washburn
First Assistant District Attorney
Westmoreland County

Washington County

I would look at 44 Pa. C.S. § 2316 (d.1):

(d.1) Mandatory submission.--The requirements of this chapter are mandatory and apply regardless of whether a court advises a person that a DNA sample must be provided to the State DNA Data Base and the State DNA Data Bank as a result of a conviction or adjudication of delinquency. A person who has been sentenced to death or life imprisonment without the possibility of parole or to any term of incarceration is not exempt from the requirements of this chapter. Any person subject to this chapter who has not provided a DNA sample for any reason, including because of an oversight or error, shall provide a DNA sample for inclusion in the State DNA Data Base and the State DNA Data Bank after being notified by authorized law enforcement or corrections personnel. If a person provides a DNA sample which is not adequate for any reason, the person shall provide another DNA sample for inclusion in the State DNA Data Base and the State DNA Data Bank after being notified by authorized law enforcement or corrections personnel. The DNA sample may be collected under this chapter but shall not be required if the authorized law enforcement or corrections official confirms that a DNA sample from the person has already been validly collected and provided to the State DNA Data Bank and a DNA record for the person exists in the State DNA Data Base.
(emphasis added)

If this felon still refuses to submit, I think you can probably file some manner of petition seeking the mandatory submission of DNA, or perhaps even by search warrant or other court order. I would note that Section 2317 (c) permits the reasonable use of force to obtain the sample.

Hello,

I just spoke to Mr. Erzen. He has not contacted Lou Emmi yet because he can't afford to pay the \$500 that Mr. Emmi requested. I encouraged Mr. Erzen to call Mr. Emmi regardless and see if a payment agreement can be worked out.

Mr. Erzen informed me that he has a long work day today, but he will call Mr. Emmi tomorrow and then let me know that he called.

Happy Good Friday Ladies,

Officer Fry, thank you for taking care of the information needed for the measurements and the photo with the tape measure that is requested.

One photo was taken by Camille Burke when the dog was in the car and going to be transported to PVSEC. This was sent to me in an e-mail by Meagan Montmeny from Camille Burke. Ms. Burke wrote, "This is the only photo I took that day, but I took it and realized he was squinting his one eye, and this is when Dr. Kal said she suspected more neurologic damage";.

Brianna Kaufman took 12 photos. These photos were e-mailed to me from Meagan Montmeny.

I will forward these e-mails to all of you.

Please let me know if there is anything else that you need for me or that I can do to help.

Subject: RE: GENCO CASE

Good morning,

I will work on the measurements from the garage today / Monday depending on how my day goes today. We did not take any photos of the dog here at HARP. We also did not take an initial body temperature here. What are you missing from the PVSEC records that you attached? I reviewed them and it appears that all 14 pages are there.

PVSEC may have taken pictures. I did not see that they took the dog's temperature at any time while he was in their care however the vet may not have thought it relevant at the time due to the other injuries and that he was not presenting with clinical signs of a heat emergency.

Hello,

I am in need of some information as soon as you can get it to me. We are looking at getting an expert report in the beginning of May if I can get this information to her very soon.

I need the following:

1. The actual records from Blue Pearl: a PDF of their records from their software as there appears to be information missing from the ones I have (attached)
2. any color pictures of the dog's injuries
3. actual measurement of the length of the garage that the dog was dragged and a photo of such from a still of the camera with a tape measure in the picture that she can use to compare with the trail of bodily fluids.
4. any record of anyone taking the temperature of the dog

Thanks!

Hello,

The experts are reviewing the materials and are working on reports. I also have asked for ALDF to help us find someone to represent the owner on the original cruelty charges.

I think we are all aware of the pressing deadlines and the anxiousness this has caused. Meagan will still testify.

I will let you know as soon as I have all the pieces in place. We only have one shot at this and it needs to be our best shot.

Thanks,
Lisa

All,

There was legislation on automatic expungements that pretty much automatically causes charges and cases to be expunged when there is a withdrawal, dismissal, etc. If you need a copy of the first complaint with the affidavit, Lisa should be able to scan and send you a copy of her complaint. It is vitally important to keep track of the prior dates for Rule 600 purposes, as you will not be able to pull the record from CPCMS any longer.

Thanks,

Rachel

Hello all,

I don't know about the expungement. I do know that the charges were F3- Cruelty to Animals, M2- Cruelty to Animals and S- Cruelty to Animals.

We have been making progress. We have experts reviewing the videos and documents and we now know that Mr. Genco did indeed have NACA training: James Genco, III. Level 1 Pittsburgh, PA April 7-11, 2003. Pretest score 59%. Final exam score 80%

They are looking for his actual test and materials.

I will keep you posted.

Good morning,

I am checking in to see if progress is being made on the case involving James Genco. Can you please give us an update?

Also, OMI asked me for a copy of the first criminal complaint for Mr. Genco. I was missing a page from my file. I logged on to Quick Arrest and discovered that the case no longer exists in Quick Arrest. Is it possible that Mr. Genco had these charges expunged so quickly?

Veterinarians take an oath (<https://www.avma.org/resources-tools/avma-policies/veterinarians-oath>) to protect animal health and welfare. Since our ordinance bans only non-therapeutic declaw, why are veterinary medical associations (such as the Pennsylvania Veterinary Medical Association) against the ban? Ask your vet if they declaw and why. If they perform non-therapeutic declaw, it's never for the well-being of the cat.

Dear PVMA and ACPA

Recently I have provided veterinary consultation to the shelters and district attorney in prosecutions of animal cruelty. The subject needs more exposure to both the public and the veterinary profession. The Ohio VMA has produced a comprehensive

publication that can serve as a blueprint for the Pennsylvania VMA.

Can we discuss a similar educational campaign for our state?

The Animal Care PA together with PVMA would be a good team to help stop animal abuse.

Subject: Proposal to Fight Animal Cruelty

Dear PVMA and ACPA

Recently I have provided veterinary consultation to the shelters and district attorney in prosecutions of animal cruelty. The subject needs more exposure to both the public and the veterinary profession. The Ohio VMA has produced a comprehensive

publication that can serve as a blueprint for the Pennsylvania VMA.

Can we discuss a similar educational campaign for our state?

The Animal Care PA together with PVMA would be a good team to help stop animal abuse.

Subject: Weekly COVID-19 Update April 21-27.docx

CASES: For the week of April 28—May 4, there were 1,767 new infections reported. To date, there have been 269,093 infections. Additionally, 128 positive home tests were self-reported to the Health Department. To date, 1,215 positive home tests have been self-reported.

HOSPITALIZATIONS: There were 41 hospitalizations reported this week. To date, there have been 13,320 COVID-related hospitalizations.

DEATHS: There were two (2) deaths reported this week. To date, there have been 3,259 COVID-related deaths.

VARIANTS: Based on limited county case specimen sequencing, Omicron remains the circulating variant, with the subvariant BA.2 accounting for about 72 percent and the sublineage B.2.12.1 accounting for about 21 percent of COVID cases in the week ending April 16. The CDC's Nowcast estimates that in Region 3 (in which PA is located), the BA.2 subvariant comprised 58 percent and the BA.2.12.1 subvariant comprised 41 percent of all COVID cases in the week ending April 30

WASTEWATER TESTING: Viral counts in wastewater samples from Allegheny County doubled from the third to the fourth week of April. The Omicron variant is the dominant variant, with the BA.2 subvariant accounting for most of the detected virus, up to 85%. For CDC wastewater data, go to <https://covid.cdc.gov/covid-data-tracker/#wastewater-surveillance>. Note: The Health Department continues to work on a public-facing wastewater dashboard with its regional partners and will announce when it is added to the county's dashboard page.

VACCINATIONS: As of May 4, an estimated 81.2 percent of all people 5 and older have at least one dose of vaccine and 72.3 percent are fully vaccinated. Of those persons 12 and older who are eligible for a booster dose, an estimated 55.8 percent have received one.

COMMUNITY LEVELS: According to the CDC, Allegheny County is currently at a "low" community level; however, for health care facilities in the county, transmission level is "high."

Additional Resources:

The Allegheny County Health Department has significant resources on its COVID-19 webpages. Visit <https://alleghenycounty.us/COVID> for quick links to report a positive at-home test, a testing site locator map, and more. Visitors can also select the COVID-19 Dashboards tile for more detail on infections, hospitalizations and deaths, geographic data, demographics and vaccine and booster data.

Subject: RE: Penn Vet | Graduate Certificate-Animal Welfare & Behavior

The courses don't look like they directly deal with it but maybe tangentially through animal behavior -- only 4 classes and none mention cruelty exactly

Course Descriptions

VCSN 639 Animal Welfare Science (6 Credits) – Dr. Meghann Pierdon, Course Director

This course covers the basic principles, history, and application of animal welfare science. Over a series of video modules, online discussions, assignments and quizzes, this course will teach students to assess the welfare of animals in a variety of settings using science-based methods and reasoning. Students will learn current welfare issues by species. The class will engage in activities that build the skills to find and assess scientific sources of information. Finally, the link between science and ethics will be explored such that students understand various ethical frameworks and how they relate to animal welfare. The objective of the course is to provide students with the background and application of animal welfare science which will facilitate their ability to successfully engage in welfare deliberations and welfare science in a variety of fields.

VCSP 639 Animals and Society (6 Credits) — Dr. James Serpell, Course Director

This course describes the changing roles and status of animals in society. It will examine the history of human-animal relationships through the lens of subsistence hunting, animal domestication, farming and pastoralism, animal research, and pet keeping. The historical development of ambivalent/oppositional attitudes to animal exploitation will also be described and discussed, and the remarkable diversity of contemporary human-animal relationships and their impacts on animal welfare will be explored across cultures. The influence of science, government, business and non-governmental organizations in defining and influencing animal-related laws and policies will also be addressed. The goal

of the course is to provide the necessary background and information to enable students to understand and engage with the current public debate on the welfare and 'rights' of nonhuman animals.

VCSP 633 Fundamentals of Animal Behavior (6 Credits) – Dr. Carlo Siracusa, Course Director

This course provides students with a basic understanding of animal behavior as a foundation for understanding animal welfare. Examples from species relevant to animal welfare concerns will be used to illustrate amongst other principles Tinbergen's four questions of behavior: causation, development, evolution, and function. Students will learn about the anatomical and physiological bases of behavior; the ecology and its influence on animal behavior; the social, ingestive, reproductive and parental behavior of animals. The goal of this course is to provide students with the tools to interpret animal behavior and then apply the inferred information to assess animal welfare.

VCSN 650 Applied Animal Welfare and Behavior (6 Credits) – Dr. Tom Parsons, Course Director

This course aims to provide students with practical skills helpful in the study of animal welfare and in the future offers a bridge to our proposed master's program. Students will be exposed to critical reading of the scientific literature, development and testing of hypotheses, as well as typical experiment paradigms for examining animal welfare and behavior. The goal of the course is for each student to conceive, develop, write and present a research proposal on a question of interest in animal welfare that could provide the foundation for a future capstone project.

 Subject: RE: Tan Puppy final draft

That is a good question. I do not know the answer. I think at this point charging decisions are still being made.

Avets should also send a report as well as their records.

Please add the results of the pathology reports to your report so that we can clearly establish starvation (or not, depending on the results).

You can send it to me. I will scan it and make sure everyone who needs it gets it.

I don't know about photos or bills, but they will need to be part of the file.

Thank you for all your work on this, especially when handicapped without a word processor.

Thanks

Will change that

Big question-

If the woman charged starved the puppy

WHY would she contact authorities?

I spent a half hour with the body and AVETS spent 4 days with a live dog. Will anyone from AVETS testify?

The \$4000 bill for care - was it paid ?

Who paid it?

AVETS took pictures / do you have photos?

I was going to add the pathology to my report. If the pathologist did not find any disease process and the bloodwork did not disclose organ failure, starvation is the most likely cause.

I will print a clean copy on the clinic letterhead. Who should I mail it to?

Necropsy Report

Agency: Humane Animal Rescue
Investigator: Angie Fry Humane Agent
Case: Tan Puppy
Examining Veterinarian: Lawrence Gerson VMD
Date of necropsy : July 26, 2021
Subject of exam: Tan Puppy 6 to 8 months of age

Reason for exam: suspected abuse
Method of arrival: refrigerated
Medical History: owner contacted authorities
Body Condition Score: 1 of 9 Emaciated

Examination Findings

External: Emaciated to the point that all bones are showing, no body fat, eyes sunken
Rigor: yes
Decomposition: no
Body Condition Score 1 of 9
Weight: 12 lb approx
Coat Condition: poor
Ectoparasites: not observed
Head: Eyes sunken, retained deciduous tooth upper left carnasial tooth not fully erupted
Chest: ribs showing
Abdomen: thin
Perineum: normal
Legs: poorly muscled
Feet: normal
Tail: normal

Evidence of Medical / surgical intervention: none
Radiographic interpretation: none

Internal Exam

Head: eyes sunken, retained carnasial tooth left
Adult tooth not fully erupted
Chest: 60 cc fluid (bloody) in chest cavity
Abdomen: solid stool in colon, discolored intestines (dark in color),
Abdominal Cavity: see below
Neck: normal
Respiratory Tract: pathology sample taken
Cardiovascular system: sent heart to pathology
Gastrointestinal Tract: solid stool in colon, very thin tissue, discolored tissue dark in color
Biliary Tract: sent pathology of liver
Pancreas: normal
Spleen: normal and sent for pathology
Adrenals: not observed
Urinary Tract: Kidney misshaped, sent for pathology

Reproductive system: not remarkable
 Musculoskeletal System: poorly muscled, no fat

Summary of Findings: severe malnutrition to the point of abuse

Cause of injury: neglect due to proper feeding and care

Mechanism of Death / Cause: severe malnutrition

It would take weeks of a lack of food or a longer period of restricted calorie intake to have a dog go from a normal body condition score of 5 (normal) to get to a 1 on a body condition score

Starvation with resulting hunger and pain is animal abuse.

Contributing facts: The medical heroics at the Emergency / Specialty hospital (AVETS) could not stabilize the severe malnutrition and low blood sugar. Once a dog is severely malnourished a series of fatal events are often irreversible

Conclusions: Severe neglect by the caretaker of this puppy led to a series of irreversible events that contributed to a fatal outcome

Subject: 1323 Grotto Street

Hello,

Officer Clafin and I seized 7 dogs off/out of an abandoned property at 1323 Grotto street via search warrant on 3/8/21. Attached are the medical records for each dog along with our investigation report, supplement report, and search warrant. Humane Officer Fry from Humane Animal Rescue assisted us with this case. Attached are her recommendations for charges, Ofc. Fry was advised we will forward all information to the DA's office and file charges based off your recommendation.

At this time Barr Tomlin has been identified as a suspect and admitted ownership of dogs in kennels 1-4 We have been unable to locate or make contact with the other suspect Christopher Williams who may or may not own the dogs in kennels 5-7.

Christopher was identified as a possible suspect by his brother Leonard who lives next door to 1323 Grotto. It should be noted every dog had the same cedar shavings and hay in their homemade kennels and were also wearing the same type of black collar with a ring on it. Tomlin may have been caring for all the dogs or sharing supplies with Christopher. Originally when Tomlin arrived on scene he stated that he cares for the dogs at the residence but changed that statement later on.

The last known resident at the residence is a Jamar Byle but it is unknown if he is involved with the care of the animals like he was several years ago when Officer Claflin dealt with him.

Also, the medical records attached for each dog i.e. Grotto 1 don't match their kennel numbers. I reviewed each medical record and identified the right kennel numbers for each medical record below.

There is body camera video available for this incident if you want to request it.

Grotto 1 - Kennel #5
 Grotto 2 - Kennel #2
 Grotto 3 - Kennel #6
 Grotto 4 - Kennel #3
 Grotto 5 - Kennel #7
 Grotto 6 - Kennel #4
 Grotto 7 - Kennel #1

 Subject: Charging recommendations for Grotto Street

Hi guys,

I have attached all the medical reports for the 7 dogs from Grotto St. Our numbers for the animals may not match your number (i.e. Grotto 1 may not be dog 1 on your evidence list). I apologize for this but the dogs were brought in before I got back. I have also listed below my charging recommendations, though discuss with the ADA as they may know ways to get higher charges. Grotto 5 will most likely be a felony for being underweight from lack of food but we won't know that for sure for another few weeks when we see weight gain and get blood work results back.

Happy Good Friday Ladies,

Officer Fry, thank you for taking care of the information needed for the measurements and the photo with the tape measure that is requested.

One photo was taken by Camille Burke when the dog was in the car and going to be transported to PVSEC. This was sent to me in an e-mail by Meagan Montmeny from Camille Burke. Ms. Burke wrote, "This is the only photo I took that day, but I took it and realized he was squinting his one eye, and this is when Dr. Kal said she suspected more neurologic damage";

Brianna Kaufman took 12 photos. These photos were e-mailed to me from Meagan Montmeny.

I will forward these e-mails to all of you.

Please let me know if there is anything else that you need for me or that I can do to help.

Good morning,

I will work on the measurements from the garage today / Monday depending on how my day goes today. We did not take any photos of the dog here at HARP. We also did not take an initial body temperature here. What are you missing from the PVSEC records that you attached? I reviewed them and it appears that all 14 pages are there.

PVSEC may have taken pictures. I did not see that they took the dog's temperature at any time while he was in their care however the vet may not have thought it relevant at the time due to the other injuries and that he was not presenting with clinical signs of a heat emergency.

Hello,

I am in need of some information as soon as you can get it to me. We are looking at getting an expert report in the beginning of May if I can get this information to her very soon.

I need the following:

1. The actual records from Blue Pearl: a PDF of their records from their software as there appears to be information missing from the ones I have (attached)
2. any color pictures of the dog's injuries
3. actual measurement of the length of the garage that the dog was dragged and a photo of such from a still of the camera with a tape measure in the picture that she can use to compare with the trail of bodily fluids.
4. any record of anyone taking the temperature of the dog

Thanks!

Hello,

The experts are reviewing the materials and are working on reports. I also have asked for ALDF to help us find someone to represent the owner on the original cruelty charges.

I think we are all aware of the pressing deadlines and the anxiousness this has caused. Meagan will still testify.

I will let you know as soon as I have all the pieces in place. We only have one shot at this and it needs to be our best shot.

Thanks,
Lisa

All,

There was legislation on automatic expungements that pretty much automatically causes charges and cases to be expunged when there is a withdrawal, dismissal, etc. If you need a copy of the first complaint with the affidavit, Lisa should be able to scan and send you a copy of her complaint. It is vitally important to keep track of the prior dates for Rule 600 purposes, as you will not be able to pull the record from CPCMS any longer.

Thanks,

Rachel

Hello all,

I don't know about the expungement. I do know that the charges were F3- Cruelty to Animals, M2- Cruelty to Animals and S- Cruelty to Animals.

We have been making progress. We have experts reviewing the videos and documents and we now know that Mr. Genco did indeed have NACA training: James Genco, III. Level 1 Pittsburgh, PA April 7-11, 2003. Pretest score 59%. Final exam score 80%

They are looking for his actual test and materials.

I will keep you posted.

Good morning,

I am checking in to see if progress is being made on the case involving James Genco. Can you please give us an update?

Also, OMI asked me for a copy of the first criminal complaint for Mr. Genco. I was missing a page from my file. I logged on to Quick Arrest and discovered that the case no longer exists in Quick Arrest. Is it possible that Mr. Genco had these charges expunged so quickly?

Happy Good Friday Ladies,

Officer Fry, thank you for taking care of the information needed for the measurements and the photo with the tape measure that is requested.

One photo was taken by Camille Burke when the dog was in the car and going to be transported to PVSEC. This was sent to me in an e-mail by Meagan Montmeny from Camille Burke. Ms. Burke wrote, "This is the only photo I took that day, but I took it and realized he was squinting his one eye, and this is when Dr. Kal said she suspected more neurologic damage";

Brianna Kaufman took 12 photos. These photos were e-mailed to me from Meagan Montmeny.

I will forward these e-mails to all of you.

Please let me know if there is anything else that you need for me or that I can do to help.

Subject: RE: GENCO CASE

Good morning,

I will work on the measurements from the garage today / Monday depending on how my day goes today. We did not take any photos of the dog here at HARP. We also did not take an initial body temperature here. What are you missing from the PVSEC records that you attached? I reviewed them and it appears that all 14 pages are there.

PVSEC may have taken pictures. I did not see that they took the dog's temperature at any time while he was in their care however the vet may not have thought it relevant at the time due to the other injuries and that he was not presenting with clinical signs of a heat emergency.

Hello,

I am in need of some information as soon as you can get it to me. We are looking at getting an expert report in the beginning of May if I can get this information to her very soon.

I need the following:

1. The actual records from Blue Pearl: a PDF of their records from their software as there appears to be information missing from the ones I have (attached)
2. any color pictures of the dog's injuries
3. actual measurement of the length of the garage that the dog was dragged and a photo of such from a still of the camera with a tape measure in the picture that she can use to compare with the trail of bodily fluids.
4. any record of anyone taking the temperature of the dog

Thanks!

Lisa

Hello,

The experts are reviewing the materials and are working on reports. I also have asked for ALDF to help us find someone to represent the owner on the original cruelty charges.

I think we are all aware of the pressing deadlines and the anxiousness this has caused. Meagan will still testify.

I will let you know as soon as I have all the pieces in place. We only have one shot at this and it needs to be our best shot.

Thanks,
Lisa

All,

There was legislation on automatic expungements that pretty much automatically causes charges and cases to be expunged when there is a withdrawal, dismissal, etc. If you need a copy of the first complaint with the affidavit, Lisa should be able to scan and send you a copy of her complaint. It is vitally important to keep track of the prior dates for Rule 600 purposes, as you will not be able to pull the record from CPCMS any longer.

Thanks,

Rachel

Hello all,

I don't know about the expungement. I do know that the charges were F3- Cruelty to Animals, M2- Cruelty to Animals and S- Cruelty to Animals.

We have been making progress. We have experts reviewing the videos and documents and we now know that Mr. Genco did indeed have NACA training: James Genco, III. Level 1 Pittsburgh, PA April 7-11, 2003. Pretest score 59%. Final exam score 80%

They are looking for his actual test and materials.

I will keep you posted.

Good morning,

I am checking in to see if progress is being made on the case involving James Genco. Can you please give us an update?

Also, OMI asked me for a copy of the first criminal complaint for Mr. Genco. I was missing a page from my file. I logged on to Quick Arrest and discovered that the case no longer exists in Quick Arrest. Is it possible that Mr. Genco had these charges expunged so quickly?

Happy Good Friday Ladies,

Officer Fry, thank you for taking care of the information needed for the measurements and the photo with the tape measure that is requested.

One photo was taken by Camille Burke when the dog was in the car and going to be transported to PVSEC. This was sent to me in an e-mail by Meagan Montmeny from Camille Burke. Ms. Burke wrote, "This is the only photo I took that day, but I took it and realized he was squinting his one eye, and this is when Dr. Kal said she suspected more neurologic damage";

Brianna Kaufman took 12 photos. These photos were e-mailed to me from Meagan Montmeny.

I will forward these e-mails to all of you.

Please let me know if there is anything else that you need for me or that I can do to help.

Good morning,

I will work on the measurements from the garage today / Monday depending on how my day goes today. We did not take any photos of the dog here at HARP. We also did not take an initial body temperature here. What are you missing from the PVSEC records that you attached? I reviewed them and it appears that all 14 pages are there.

PVSEC may have taken pictures. I did not see that they took the dog's temperature at any time while he was in their care however the vet may not have thought it relevant at the time due to the other injuries and that he was not presenting with clinical signs of a heat emergency.

Hello,

I am in need of some information as soon as you can get it to me. We are looking at getting an expert report in the beginning of May if I can get this information to her very soon.

I need the following:

1. The actual records from Blue Pearl: a PDF of their records from their software as there appears to be information missing from the ones I have (attached)
2. any color pictures of the dog's injuries
3. actual measurement of the length of the garage that the dog was dragged and a photo of such from a still of the camera with a tape measure in the picture that she can use to compare with the trail of bodily fluids.
4. any record of anyone taking the temperature of the dog

Thanks!

Hello,

The experts are reviewing the materials and are working on reports. I also have asked for ALDF to help us find someone to represent the owner on the original cruelty charges.

I think we are all aware of the pressing deadlines and the anxiousness this has caused. Meagan will still testify.

I will let you know as soon as I have all the pieces in place. We only have one shot at this and it needs to be our best shot.

Thanks,

Lisa

Do you have a time frame for when the charges will be refiled?

I believe that the sooner the better. Meagan Montmeny is no longer employed at Humane Animal Rescue. I'm afraid that as time goes on that people will lose interest in pursuing this case.

Please let me know.

Thanks!

All,

There was legislation on automatic expungements that pretty much automatically causes charges and cases to be expunged when there is a withdrawal, dismissal, etc. If you need a copy of the first complaint with the affidavit, Lisa should be able to scan and send you a copy of her complaint. It is vitally important to keep track of the prior dates for Rule 600 purposes, as you will not be able to pull the record from CPCMS any longer.

Thanks,

Rachel

Hello all,

I don't know about the expungement. I do know that the charges were F3- Cruelty to Animals, M2- Cruelty to Animals and S- Cruelty to Animals.

We have been making progress. We have experts reviewing the videos and documents and we now know that Mr. Genco did indeed have NACA training: James Genco, III. Level 1 Pittsburgh, PA April 7-11, 2003. Pretest score 59%. Final exam score 80%

They are looking for his actual test and materials.

I will keep you posted.

Good morning,

I am checking in to see if progress is being made on the case involving James Genco. Can you please give us an update?

Also, OMI asked me for a copy of the first criminal complaint for Mr. Genco. I was missing a page from my file. I logged on to Quick Arrest and discovered that the case no longer exists in Quick Arrest. Is it possible that Mr. Genco had these charges expunged so quickly?

Happy Good Friday Ladies,

Officer Fry, thank you for taking care of the information needed for the measurements and the photo with the tape measure that is requested.

One photo was taken by Camille Burke when the dog was in the car and going to be transported to PVSEC. This was sent to me in an e-mail by Meagan Montmeny from Camille Burke. Ms. Burke wrote, "This is the only photo I took that day, but I took it and realized he was squinting his one eye, and this is when Dr. Kal said she suspected more neurologic damage".

Brianna Kaufman took 12 photos. These photos were e-mailed to me from Meagan Montmeny.

I will forward these e-mails to all of you.

Please let me know if there is anything else that you need for me or that I can do to help.

Good morning,

I will work on the measurements from the garage today / Monday depending on how my day goes today. We did not take any photos of the dog here at HARP. We also did not take an initial body temperature here. What are you missing from the PVSEC records that you attached? I reviewed them and it appears that all 14 pages are there.

PVSEC may have taken pictures. I did not see that they took the dog's temperature at any time while he was in their care however the vet may not have thought it relevant at the time due to the other injuries and that he was not presenting with clinical signs of a heat emergency.

Hello,

I am in need of some information as soon as you can get it to me. We are looking at getting an expert report in the beginning of May if I can get this information to her very soon.

I need the following:

1. The actual records from Blue Pearl: a PDF of their records from their software as there appears to be information missing from the ones I have (attached)
2. any color pictures of the dog's injuries
3. actual measurement of the length of the garage that the dog was dragged and a photo of such from a still of the camera with a tape measure in the picture that she can use to compare with the trail of bodily fluids.
4. any record of anyone taking the temperature of the dog

Thanks!

All,

There was legislation on automatic expungements that pretty much automatically causes charges and cases to be expunged when there is a withdrawal, dismissal, etc. If you need a copy of the first complaint with the affidavit, Lisa should be able to scan and send you a copy of her complaint. It is vitally important to keep track of the prior dates for Rule 600 purposes, as you will not be able to pull the record from CPCMS any longer.

Thanks,

Rachel

Hello all,

I don't know about the expungement. I do know that the charges were F3- Cruelty to Animals, M2- Cruelty to Animals and S- Cruelty to Animals.

We have been making progress. We have experts reviewing the videos and documents and we now know that Mr. Genco did indeed have NACA training: James Genco, III. Level 1 Pittsburgh, PA April 7-11, 2003. Pretest score 59%. Final exam score 80%

They are looking for his actual test and materials.

I will keep you posted.

Subject: GENCO CASE

Good morning,

I am checking in to see if progress is being made on the case involving James Genco. Can you please give us an update?

Also, OMI asked me for a copy of the first criminal complaint for Mr. Genco. I was missing a page from my file. I logged on to Quick Arrest and discovered that the case no longer exists in Quick Arrest. Is it possible that Mr. Genco had these charges expunged so quickly?

All,

There was legislation on automatic expungements that pretty much automatically causes charges and cases to be expunged when there is a withdrawal, dismissal, etc. If you need a copy of the first complaint with the affidavit, Lisa should be able to scan and send you a copy of her complaint. It is vitally important to keep track of the prior dates for Rule 600 purposes, as you will not be able to pull the record from CPCMS any longer.

Thanks,

Rachel

Hello all,

I don't know about the expungement. I do know that the charges were F3- Cruelty to Animals, M2- Cruelty to Animals and S- Cruelty to Animals.

We have been making progress. We have experts reviewing the videos and documents and we now know that Mr. Genco did indeed have NACA training: James Genco, III. Level 1 Pittsburgh, PA April 7-11, 2003. Pretest score 59%. Final exam score 80%

They are looking for his actual test and materials.

I will keep you posted.

Good morning,

I am checking in to see if progress is being made on the case involving James Genco. Can you please give us an update?

Also, OMI asked me for a copy of the first criminal complaint for Mr. Genco. I was missing a page from my file. I logged on to Quick Arrest and discovered that the case no longer exists in Quick Arrest. Is it possible that Mr. Genco had these charges expunged so quickly?

Happy Good Friday Ladies,

Officer Fry, thank you for taking care of the information needed for the measurements and the photo with the tape measure that is requested.

One photo was taken by Camille Burke when the dog was in the car and going to be transported to PVSEC. This was sent to me in an e-mail by Meagan Montmeny from Camille Burke. Ms. Burke wrote, "This is the only photo I took that day, but I took it and realized he was squinting his one eye, and this is when Dr. Kal said she suspected more neurologic damage";

Brianna Kaufman took 12 photos. These photos were e-mailed to me from Meagan Montmeny.

I will forward these e-mails to all of you.

Please let me know if there is anything else that you need for me or that I can do to help.

Good morning,

I will work on the measurements from the garage today / Monday depending on how my day goes today. We did not take any photos of the dog here at HARP. We also did not take an initial body temperature here. What are you missing from the PVSEC records that you attached? I reviewed them and it appears that all 14 pages are there.

PVSEC may have taken pictures. I did not see that they took the dog's temperature at any time while he was in their care however the vet may not have thought it relevant at the time due to the other injuries and that he was not presenting with clinical signs of a heat emergency.

Hello,

I am in need of some information as soon as you can get it to me. We are looking at getting an expert report in the beginning of May if I can get this information to her very soon.

I need the following:

1. The actual records from Blue Pearl: a PDF of their records from their software as there appears to be information missing from the ones I have (attached)
2. any color pictures of the dog's injuries
3. actual measurement of the length of the garage that the dog was dragged and a photo of such from a still of the camera with a tape measure in the picture that she can use to compare with the trail of bodily fluids.
4. any record of anyone taking the temperature of the dog

Thanks!

Hello,

The experts are reviewing the materials and are working on reports. I also have asked for ALDF to help us find someone to represent the owner on the original cruelty charges.

I think we are all aware of the pressing deadlines and the anxiousness this has caused. Meagan will still testify.

I will let you know as soon as I have all the pieces in place. We only have one shot at this and it needs to be our best shot.

Thanks,
Lisa

Happy Good Friday Ladies,

Officer Fry, thank you for taking care of the information needed for the measurements and the photo with the tape measure that is requested.

One photo was taken by Camille Burke when the dog was in the car and going to be transported to PVSEC. This was sent to me in an e-mail by Meagan Montmeny from Camille Burke. Ms. Burke wrote, "This is the only photo I took that day, but I took it and realized he was squinting his one eye, and this is when Dr. Kal said she suspected more neurologic damage".

Brianna Kaufman took 12 photos. These photos were e-mailed to me from Meagan Montmeny.

I will forward these e-mails to all of you.

Please let me know if there is anything else that you need for me or that I can do to help.

Good morning,

I will work on the measurements from the garage today / Monday depending on how my day goes today. We did not take any photos of the dog here at HARP. We also did not take an initial body temperature here. What are you missing from the PVSEC records that you attached? I reviewed them and it appears that all 14 pages are there.

PVSEC may have taken pictures. I did not see that they took the dog's temperature at any time while he was in their care however the vet may not have thought it relevant at the time due to the other injuries and that he was not presenting with clinical signs of a heat emergency.

Hello,

I am in need of some information as soon as you can get it to me. We are looking at getting an expert report in the beginning of May if I can get this information to her very soon.

I need the following:

1. The actual records from Blue Pearl: a PDF of their records from their software as there appears to be information missing from the ones I have (attached)
2. any color pictures of the dog's injuries
3. actual measurement of the length of the garage that the dog was dragged and a photo of such from a still of the camera with a tape measure in the picture that she can use to compare with the trail of bodily fluids.
4. any record of anyone taking the temperature of the dog

Thanks!

Lisa

Hello,

The experts are reviewing the materials and are working on reports. I also have asked for ALDF to help us find someone to represent the owner on the original cruelty charges.

I think we are all aware of the pressing deadlines and the anxiousness this has caused. Meagan will still testify.

I will let you know as soon as I have all the pieces in place. We only have one shot at this and it needs to be our best shot.

Thanks,
Lisa

All,

There was legislation on automatic expungements that pretty much automatically causes charges and cases to be expunged when there is a withdrawal, dismissal, etc. If you need a copy of the first complaint with the affidavit, Lisa should be able to scan and send you a copy of her complaint. It is vitally important to keep track of the prior dates for Rule 600 purposes, as you will not be able to pull the record from CPCMS any longer.

Thanks,

Rachel

Hello all,

I don't know about the expungement. I do know that the charges were F3- Cruelty to Animals, M2- Cruelty to Animals and S- Cruelty to Animals.

We have been making progress. We have experts reviewing the videos and documents and we now know that Mr. Genco did indeed have NACA training: James Genco, III. Level 1 Pittsburgh, PA April 7-11, 2003. Pretest score 59%. Final exam score 80%

They are looking for his actual test and materials.

I will keep you posted.

Good morning,

I am checking in to see if progress is being made on the case involving James Genco. Can you please give us an update?

Also, OMI asked me for a copy of the first criminal complaint for Mr. Genco. I was missing a page from my file. I logged on to Quick Arrest and discovered that the case no longer exists in Quick Arrest. Is it possible that Mr. Genco had these charges expunged so quickly?

Hello all,

I don't know about the expungement. I do know that the charges were F3- Cruelty to Animals, M2- Cruelty to Animals and S- Cruelty to Animals.

We have been making progress. We have experts reviewing the videos and documents and we now know that Mr. Genco did indeed have NACA training: James Genco, III. Level 1 Pittsburgh, PA April 7-11, 2003. Pretest score 59%. Final exam score 80%

They are looking for his actual test and materials.

I will keep you posted.

Good morning,

I am checking in to see if progress is being made on the case involving James Genco. Can you please give us an update?

Also, OMI asked me for a copy of the first criminal complaint for Mr. Genco. I was missing a page from my file. I logged on to Quick Arrest and discovered that the case no longer exists in Quick Arrest. Is it possible that Mr. Genco had these charges expunged so quickly?

Happy Good Friday Ladies,

Officer Fry, thank you for taking care of the information needed for the measurements and the photo with the tape measure that is requested.

One photo was taken by Camille Burke when the dog was in the car and going to be transported to PVSEC. This was sent to me in an e-mail by Meagan Montmeny from Camille Burke. Ms. Burke wrote, "This is the only photo I took that

day, but I took it and realized he was squinting his one eye, and this is when Dr. Kal said she suspected more neurologic damage”;

Brianna Kaufman took 12 photos. These photos were e-mailed to me from Meagan Montmeny.

I will forward these e-mails to all of you.

Please let me know if there is anything else that you need for me or that I can do to help.

Good morning,

I will work on the measurements from the garage today / Monday depending on how my day goes today. We did not take any photos of the dog here at HARP. We also did not take an initial body temperature here. What are you missing from the PVSEC records that you attached? I reviewed them and it appears that all 14 pages are there.

PVSEC may have taken pictures. I did not see that they took the dog’s temperature at any time while he was in their care however the vet may not have thought it relevant at the time due to the other injuries and that he was not presenting with clinical signs of a heat emergency.

Hello,

I am in need of some information as soon as you can get it to me. We are looking at getting an expert report in the beginning of May if I can get this information to her very soon.

I need the following:

1. The actual records from Blue Pearl: a PDF of their records from their software as there appears to be information missing from the ones I have (attached)

2. any color pictures of the dog's injuries
3. actual measurement of the length of the garage that the dog was dragged and a photo of such from a still of the camera with a tape measure in the picture that she can use to compare with the trail of bodily fluids.
4. any record of anyone taking the temperature of the dog

Thanks!

Hello,

The experts are reviewing the materials and are working on reports. I also have asked for ALDF to help us find someone to represent the owner on the original cruelty charges.

I think we are all aware of the pressing deadlines and the anxiousness this has caused. Meagan will still testify.

I will let you know as soon as I have all the pieces in place. We only have one shot at this and it needs to be our best shot.

Thanks,
Lisa

All,

There was legislation on automatic expungements that pretty much automatically causes charges and cases to be expunged when there is a withdrawal, dismissal, etc. If you need a copy of the first complaint with the affidavit, Lisa should be able to scan and send you a copy of her complaint. It is vitally important to keep track of the prior dates for Rule 600 purposes, as you will not be able to pull the record from CPCMS any longer.

Thanks,

Rachel

Happy Good Friday Ladies,

Officer Fry, thank you for taking care of the information needed for the measurements and the photo with the tape measure that is requested.

One photo was taken by Camille Burke when the dog was in the car and going to be transported to PVSEC. This was sent to me in an e-mail by Meagan Montmeny from Camille Burke. Ms. Burke wrote, "This is the only photo I took that day, but I took it and realized he was squinting his one eye, and this is when Dr. Kal said she suspected more neurologic damage";

Brianna Kaufman took 12 photos. These photos were e-mailed to me from Meagan Montmeny.

I will forward these e-mails to all of you.

Please let me know if there is anything else that you need for me or that I can do to help.

Good morning,

I will work on the measurements from the garage today / Monday depending on how my day goes today. We did not take any photos of the dog here at HARP. We also did not take an initial body temperature here. What are you missing from the PVSEC records that you attached? I reviewed them and it appears that all 14 pages are there.

PVSEC may have taken pictures. I did not see that they took the dog's temperature at any time while he was in their care however the vet may not have thought it relevant at the time due to the other injuries and that he was not presenting with clinical signs of a heat emergency.

Hello,

I am in need of some information as soon as you can get it to me. We are looking at getting an expert report in the beginning of May if I can get this information to her very soon.

I need the following:

1. The actual records from Blue Pearl: a PDF of their records from their software as there appears to be information missing from the ones I have (attached)
2. any color pictures of the dog's injuries
3. actual measurement of the length of the garage that the dog was dragged and a photo of such from a still of the camera with a tape measure in the picture that she can use to compare with the trail of bodily fluids.
4. any record of anyone taking the temperature of the dog

Thanks!

All,

There was legislation on automatic expungements that pretty much automatically causes charges and cases to be expunged when there is a withdrawal, dismissal, etc. If you need a copy of the first complaint with the affidavit, Lisa should be able to scan and send you a copy of her complaint. It is vitally important to keep track of the prior dates for Rule 600 purposes, as you will not be able to pull the record from CPCMS any longer.

Thanks,

Rachel

Subject: Re: GENCO CASE

Hello,

I am in need of some information as soon as you can get it to me. We are looking at getting an expert report in the beginning of May if I can get this information to her very soon.

I need the following:

1. The actual records from Blue Pearl: a PDF of their records from their software as there appears to be information missing from the ones I have (attached)
2. any color pictures of the dog's injuries
3. actual measurement of the length of the garage that the dog was dragged and a photo of such from a still of the camera with a tape measure in the picture that she can use to compare with the trail of bodily fluids.
4. any record of anyone taking the temperature of the dog

Thanks!
Lisa

Hello,

The experts are reviewing the materials and are working on reports. I also have asked for ALDF to help us find someone to represent the owner on the original cruelty charges.

I think we are all aware of the pressing deadlines and the anxiousness this has caused. Meagan will still testify.

I will let you know as soon as I have all the pieces in place. We only have one shot at this and it needs to be our best shot.

Thanks,
Lisa

All,

There was legislation on automatic expungements that pretty much automatically causes charges and cases to be expunged when there is a withdrawal, dismissal, etc. If you need a copy of the first complaint with the affidavit, Lisa should be able to scan and send you a copy of her complaint. It is vitally important to keep track of the prior dates for Rule 600 purposes, as you will not be able to pull the record from CPCMS any longer.

Thanks,

Rachel

Hello all,

I don't know about the expungement. I do know that the charges were F3- Cruelty to Animals, M2- Cruelty to Animals and S- Cruelty to Animals.

We have been making progress. We have experts reviewing the videos and documents and we now know that Mr. Genco did indeed have NACA training: James Genco, III. Level 1 Pittsburgh, PA April 7-11, 2003. Pretest score 59%. Final exam score 80%

They are looking for his actual test and materials.

I will keep you posted.

Good morning,

I am checking in to see if progress is being made on the case involving James Genco. Can you please give us an update?

Also, OMI asked me for a copy of the first criminal complaint for Mr. Genco. I was missing a page from my file. I logged on to Quick Arrest and discovered that the case no longer exists in Quick Arrest. Is it possible that Mr. Genco had these charges expunged so quickly?

Happy Good Friday Ladies,

Officer Fry, thank you for taking care of the information needed for the measurements and the photo with the tape measure that is requested.

One photo was taken by Camille Burke when the dog was in the car and going to be transported to PVSEC. This was sent to me in an e-mail by Meagan Montmeny from Camille Burke. Ms. Burke wrote, "This is the only photo I took that day, but I took it and realized he was squinting his one eye, and this is when Dr. Kal said she suspected more neurologic damage";.

Brianna Kaufman took 12 photos. These photos were e-mailed to me from Meagan Montmeny.

I will forward these e-mails to all of you.

Please let me know if there is anything else that you need for me or that I can do to help.

Good morning,

I will work on the measurements from the garage today / Monday depending on how my day goes today. We did not take any photos of the dog here at HARP. We also did not take an initial body temperature here. What are you missing from the PVSEC records that you attached? I reviewed them and it appears that all 14 pages are there.

PVSEC may have taken pictures. I did not see that they took the dog's temperature at any time while he was in their care however the vet may not have thought it relevant at the time due to the other injuries and that he was not presenting with clinical signs of a heat emergency.

Happy Good Friday Ladies,

Officer Fry, thank you for taking care of the information needed for the measurements and the photo with the tape measure that is requested.

One photo was taken by Camille Burke when the dog was in the car and going to be transported to PVSEC. This was sent to me in an e-mail by Meagan Montmeny from Camille Burke. Ms. Burke wrote, "This is the only photo I took that day, but I took it and realized he was squinting his one eye, and this is when Dr. Kal said she suspected more neurologic damage".

Brianna Kaufman took 12 photos. These photos were e-mailed to me from Meagan Montmeny.

I will forward these e-mails to all of you.

Please let me know if there is anything else that you need for me or that I can do to help.

Subject: RE: GENCO CASE

Good morning,

I will work on the measurements from the garage today / Monday depending on how my day goes today. We did not take any photos of the dog here at HARP. We also did not take an initial body temperature here. What are you missing from the PVSEC records that you attached? I reviewed them and it appears that all 14 pages are there.

PVSEC may have taken pictures. I did not see that they took the dog's temperature at any time while he was in their care however the vet may not have thought it relevant at the time due to the other injuries and that he was not presenting with clinical signs of a heat emergency.

Hello,

I am in need of some information as soon as you can get it to me. We are looking at getting an expert report in the beginning of May if I can get this information to her very soon.

I need the following:

1. The actual records from Blue Pearl: a PDF of their records from their software as there appears to be information missing from the ones I have (attached)
2. any color pictures of the dog's injuries
3. actual measurement of the length of the garage that the dog was dragged and a photo of such from a still of the camera with a tape measure in the picture that she can use to compare with the trail of bodily fluids.
4. any record of anyone taking the temperature of the dog

Thanks!

Lisa

Hello,

The experts are reviewing the materials and are working on reports. I also have asked for ALDF to help us find someone to represent the owner on the original cruelty charges.

I think we are all aware of the pressing deadlines and the anxiousness this has caused. Meagan will still testify.

I will let you know as soon as I have all the pieces in place. We only have one shot at this and it needs to be our best shot.

Thanks,
Lisa

All,

There was legislation on automatic expungements that pretty much automatically causes charges and cases to be expunged when there is a withdrawal, dismissal, etc. If you need a copy of the first complaint with the affidavit, Lisa should be able to scan and send you a copy of her complaint. It is vitally important to keep track of the prior dates for Rule 600 purposes, as you will not be able to pull the record from CPCMS any longer.

Thanks,

Rachel

Hello all,

I don't know about the expungement. I do know that the charges were F3- Cruelty to Animals, M2- Cruelty to Animals and S- Cruelty to Animals.

We have been making progress. We have experts reviewing the videos and documents and we now know that Mr. Genco did indeed have NACA training: James Genco, III. Level 1 Pittsburgh, PA April 7-11, 2003. Pretest score 59%. Final exam score 80%

They are looking for his actual test and materials.

I will keep you posted.

Good morning,

I am checking in to see if progress is being made on the case involving James Genco. Can you please give us an update?

Also, OMI asked me for a copy of the first criminal complaint for Mr. Genco. I was missing a page from my file. I logged on to Quick Arrest and discovered that the case no longer exists in Quick Arrest. Is it possible that Mr. Genco had these charges expunged so quickly?

Happy Good Friday Ladies,

Officer Fry, thank you for taking care of the information needed for the measurements and the photo with the tape measure that is requested.

One photo was taken by Camille Burke when the dog was in the car and going to be transported to PVSEC. This was sent to me in an e-mail by Meagan Montmeny from Camille Burke. Ms. Burke wrote, "This is the only photo I took that day, but I took it and realized he was squinting his one eye, and this is when Dr. Kal said she suspected more neurologic damage";

Brianna Kaufman took 12 photos. These photos were e-mailed to me from Meagan Montmeny.

I will forward these e-mails to all of you.

Please let me know if there is anything else that you need for me or that I can do to help.

Good morning,

I will work on the measurements from the garage today / Monday depending on how my day goes today. We did not take any photos of the dog here at HARP. We also did not take an initial body temperature here. What are you missing from the PVSEC records that you attached? I reviewed them and it appears that all 14 pages are there.

PVSEC may have taken pictures. I did not see that they took the dog's temperature at any time while he was in their care however the vet may not have thought it relevant at the time due to the other injuries and that he was not presenting with clinical signs of a heat emergency.

Hello,

I am in need of some information as soon as you can get it to me. We are looking at getting an expert report in the beginning of May if I can get this information to her very soon.

I need the following:

1. The actual records from Blue Pearl: a PDF of their records from their software as there appears to be information missing from the ones I have (attached)
2. any color pictures of the dog's injuries
3. actual measurement of the length of the garage that the dog was dragged and a photo of such from a still of the camera with a tape measure in the picture that she can use to compare with the trail of bodily fluids.
4. any record of anyone taking the temperature of the dog

Thanks!

Lisa

All,

There was legislation on automatic expungements that pretty much automatically causes charges and cases to be expunged when there is a withdrawal, dismissal, etc. If you need a copy of the first complaint with the affidavit, Lisa should be able to scan and send you a copy of her complaint. It is vitally important to keep track of the prior dates for Rule 600 purposes, as you will not be able to pull the record from CPCMS any longer.

Thanks,

Rachel

Happy Good Friday Ladies,

Officer Fry, thank you for taking care of the information needed for the measurements and the photo with the tape measure that is requested.

One photo was taken by Camille Burke when the dog was in the car and going to be transported to PVSEC. This was sent to me in an e-mail by Meagan Montmeny from Camille Burke. Ms. Burke wrote, "This is the only photo I took that day, but I took it and realized he was squinting his one eye, and this is when Dr. Kal said she suspected more neurologic damage";

Brianna Kaufman took 12 photos. These photos were e-mailed to me from Meagan Montmeny.

I will forward these e-mails to all of you.

Please let me know if there is anything else that you need for me or that I can do to help.

Good morning,

I will work on the measurements from the garage today / Monday depending on how my day goes today. We did not take any photos of the dog here at HARP. We also did not take an initial body temperature here. What are you missing from the PVSEC records that you attached? I reviewed them and it appears that all 14 pages are there.

PVSEC may have taken pictures. I did not see that they took the dog's temperature at any time while he was in their care however the vet may not have thought it relevant at the time due to the other injuries and that he was not presenting with clinical signs of a heat emergency.

Hello,

I am in need of some information as soon as you can get it to me. We are looking at getting an expert report in the beginning of May if I can get this information to her very soon.

I need the following:

1. The actual records from Blue Pearl: a PDF of their records from their software as there appears to be information missing from the ones I have (attached)
2. any color pictures of the dog's injuries
3. actual measurement of the length of the garage that the dog was dragged and a photo of such from a still of the camera with a tape measure in the picture that she can use to compare with the trail of bodily fluids.
4. any record of anyone taking the temperature of the dog

Thanks!

Hello,

The experts are reviewing the materials and are working on reports. I also have asked for ALDF to help us find someone to represent the owner on the original cruelty charges.

I think we are all aware of the pressing deadlines and the anxiousness this has caused. Meagan will still testify.

I will let you know as soon as I have all the pieces in place. We only have one shot at this and it needs to be our best shot.

Thanks,
Lisa

All,

There was legislation on automatic expungements that pretty much automatically causes charges and cases to be expunged when there is a withdrawal, dismissal, etc. If you need a copy of the first complaint with the affidavit, Lisa should be able to scan and send you a copy of her complaint. It is vitally important to keep track of the prior dates for Rule 600 purposes, as you will not be able to pull the record from CPCMS any longer.

Thanks,

Rachel

Hello all,

I don't know about the expungement. I do know that the charges were F3- Cruelty to Animals, M2- Cruelty to Animals and S- Cruelty to Animals.

We have been making progress. We have experts reviewing the videos and documents and we now know that Mr. Genco did indeed have NACA training: James Genco, III. Level 1 Pittsburgh, PA April 7-11, 2003. Pretest score 59%. Final exam score 80%

They are looking for his actual test and materials.

I will keep you posted.

Subject: GENCO CASE

Good morning,

I am checking in to see if progress is being made on the case involving James Genco. Can you please give us an update?

Also, OMI asked me for a copy of the first criminal complaint for Mr. Genco. I was missing a page from my file. I logged on to Quick Arrest and discovered that the case no longer exists in Quick Arrest. Is it possible that Mr. Genco had these charges expunged so quickly?

Hi Bri,

Have you been able to send the photos for Officer Luffey? She's looking to wrap up her investigation.

Thanks so much!
Meg

All,

There was legislation on automatic expungements that pretty much automatically causes charges and cases to be expunged when there is a withdrawal, dismissal, etc. If you need a copy of the first complaint with the affidavit, Lisa should be able to scan and send you a copy of her complaint. It is vitally important to keep track of the prior dates for Rule 600 purposes, as you will not be able to pull the record from CPCMS any longer.

Thanks,

Rachel

Hello all,

I don't know about the expungement. I do know that the charges were F3- Cruelty to Animals, M2- Cruelty to Animals and S- Cruelty to Animals.

We have been making progress. We have experts reviewing the videos and documents and we now know that Mr. Genco did indeed have NACA training: James Genco, III. Level 1 Pittsburgh, PA April 7-11, 2003. Pretest score 59%. Final exam score 80%

They are looking for his actual test and materials.

I will keep you posted.

Hi Lt Stoops and Officer Luffey,

Officer Fry and I measured the garage and it's 25-30 feet from the entrance into the garage to the entrance into the animal control kennels.

I hope that helps answer your question but please let me know if you need anything else,
Meagan

Subject: Re: GENCO CASE

Do you have a time frame for when the charges will be refiled?

I believe that the sooner the better. Meagan Montmeny is no longer employed at Humane Animal Rescue. I'm afraid that as time goes on that people will lose interest in pursuing this case.

Please let me know.

Thanks!

All,

There was legislation on automatic expungements that pretty much automatically causes charges and cases to be expunged when there is a withdrawal, dismissal, etc. If you need a copy of the first complaint with the affidavit, Lisa should be able to scan and send you a copy of her complaint. It is vitally important to keep track of the prior dates for Rule 600 purposes, as you will not be able to pull the record from CPCMS any longer.

Thanks,

Rachel

Hello all,

I don't know about the expungement. I do know that the charges were F3- Cruelty to Animals, M2- Cruelty to Animals and S- Cruelty to Animals.

We have been making progress. We have experts reviewing the videos and documents and we now know that Mr. Genco did indeed have NACA training: James Genco, III. Level 1 Pittsburgh, PA April 7-11, 2003. Pretest score 59%. Final exam score 80%

They are looking for his actual test and materials.

I will keep you posted.

Good morning,

I am checking in to see if progress is being made on the case involving James Genco. Can you please give us an update?

Also, OMI asked me for a copy of the first criminal complaint for Mr. Genco. I was missing a page from my file. I logged on to Quick Arrest and discovered that the case no longer exists in Quick Arrest. Is it possible that Mr. Genco had these charges expunged so quickly?

Happy Good Friday Ladies,

Officer Fry, thank you for taking care of the information needed for the measurements and the photo with the tape measure that is requested.

One photo was taken by Camille Burke when the dog was in the car and going to be transported to PVSEC. This was sent to me in an e-mail by Meagan Montmeny from Camille Burke. Ms. Burke wrote, "This is the only photo I took that day, but I took it and realized he was squinting his one eye, and this is when Dr. Kal said she suspected more neurologic damage";

Brianna Kaufman took 12 photos. These photos were e-mailed to me from Meagan Montmeny.

I will forward these e-mails to all of you.

Please let me know if there is anything else that you need for me or that I can do to help.

Good morning,

I will work on the measurements from the garage today / Monday depending on how my day goes today. We did not take any photos of the dog here at HARP. We also did not take an initial body temperature here. What are you missing from the PVSEC records that you attached? I reviewed them and it appears that all 14 pages are there.

PVSEC may have taken pictures. I did not see that they took the dog's temperature at any time while he was in their care however the vet may not have thought it relevant at the time due to the other injuries and that he was not presenting with clinical signs of a heat emergency.

Hello,

I am in need of some information as soon as you can get it to me. We are looking at getting an expert report in the beginning of May if I can get this information to her very soon.

I need the following:

1. The actual records from Blue Pearl: a PDF of their records from their software as there appears to be information missing from the ones I have (attached)
2. any color pictures of the dog's injuries
3. actual measurement of the length of the garage that the dog was dragged and a photo of such from a still of the camera with a tape measure in the picture that she can use to compare with the trail of bodily fluids.
4. any record of anyone taking the temperature of the dog

Thanks!

Hello,

The experts are reviewing the materials and are working on reports. I also have asked for ALDF to help us find someone to represent the owner on the original cruelty charges.

I think we are all aware of the pressing deadlines and the anxiousness this has caused. Meagan will still testify.

I will let you know as soon as I have all the pieces in place. We only have one shot at this and it needs to be our best shot.

Thanks,
Lisa

Ahh got it. I know that our vet didn't see any signs of a heat emergency upon his presentation here. He was panting however it was attributed to the struggle that had just ensued while in the care and custody of AC. I did not note anything in the PVSEC record indicating any clinical signs or suspicions of a heat related emergency.

Thank you. That would be great.

We just wanted to make sure that we had all the records. It was mostly about if anyone took the dog's temperature and any signs of heat issues. The vet consult asked about it since that was what started the whole process.

Hello,

The experts are reviewing the materials and are working on reports. I also have asked for ALDF to help us find someone to represent the owner on the original cruelty charges.

I think we are all aware of the pressing deadlines and the anxiousness this has caused. Meagan will still testify.

I will let you know as soon as I have all the pieces in place. We only have one shot at this and it needs to be our best shot.

Thanks,
Lisa

Subject: Re: GENCO CASE

Do you have a time frame for when the charges will be refiled?

I believe that the sooner the better. Meagan Montmeny is no longer employed at Humane Animal Rescue. I'm afraid that as time goes on that people will lose interest in pursuing this case.

Please let me know.

Thanks!

All,

There was legislation on automatic expungements that pretty much automatically causes charges and cases to be expunged when there is a withdrawal, dismissal, etc. If you need a copy of the first complaint with the affidavit, Lisa should be able to scan and send you a copy of her complaint. It is vitally important to keep track of the prior dates for Rule 600 purposes, as you will not be able to pull the record from CPCMS any longer.

Thanks,

Rachel

Hello all,

I don't know about the expungement. I do know that the charges were F3- Cruelty to Animals, M2- Cruelty to Animals and S- Cruelty to Animals.

We have been making progress. We have experts reviewing the videos and documents and we now know that Mr. Genco did indeed have NACA training: James Genco, III. Level 1 Pittsburgh, PA April 7-11, 2003. Pretest score 59%. Final exam score 80%

They are looking for his actual test and materials.

I will keep you posted.

Good morning,

I am checking in to see if progress is being made on the case involving James Genco. Can you please give us an update?

Also, OMI asked me for a copy of the first criminal complaint for Mr. Genco. I was missing a page from my file. I logged on to Quick Arrest and discovered that the case no longer exists in Quick Arrest. Is it possible that Mr. Genco had these charges expunged so quickly?

Thank you. That would be great.

We just wanted to make sure that we had all the records. It was mostly about if anyone took the dog's temperature and any signs of heat issues. The vet consult asked about it since that was what started the whole process.

Good morning,

I will work on the measurements from the garage today / Monday depending on how my day goes today. We did not take any photos of the dog here at HARP. We also did not take an initial body temperature here. What are you missing from the PVSEC records that you attached? I reviewed them and it appears that all 14 pages are there.

PVSEC may have taken pictures. I did not see that they took the dog's temperature at any time while he was in their care however the vet may not have thought it relevant at the time due to the other injuries and that he was not presenting with clinical signs of a heat emergency.

Hello,

I am in need of some information as soon as you can get it to me. We are looking at getting an expert report in the beginning of May if I can get this information to her very soon.

I need the following:

1. The actual records from Blue Pearl: a PDF of their records from their software as there appears to be information missing from the ones I have (attached)
2. any color pictures of the dog's injuries
3. actual measurement of the length of the garage that the dog was dragged and a photo of such from a still of the camera with a tape measure in the picture that she can use to compare with the trail of bodily fluids.
4. any record of anyone taking the temperature of the dog

Thanks!

Subject: RE: GENCO CASE

Hello all,

I don't know about the expungement. I do know that the charges were F3- Cruelty to Animals, M2- Cruelty to Animals and S- Cruelty to Animals.

We have been making progress. We have experts reviewing the videos and documents and we now know that Mr. Genco did indeed have NACA training: James Genco, III. Level 1 Pittsburgh, PA April 7-11, 2003. Pretest score 59%. Final exam score 80%

They are looking for his actual test and materials.

I will keep you posted.

Lisa

Subject: GENCO CASE

Good morning,

I am checking in to see if progress is being made on the case involving James Genco. Can you please give us an update?

Also, OMI asked me for a copy of the first criminal complaint for Mr. Genco. I was missing a page from my file. I logged on to Quick Arrest and discovered that the case no longer exists in Quick Arrest. Is it possible that Mr. Genco had these charges expunged so quickly?

Dear Lisa,
I can have our hospital send you the records. However, The hospital will need a signed client release or a subpoena for the release of records as according to veterinary board PA protects veterinary records as confidential. If there is an over-riding statute or legal regulation, please share the statute and I can have our teams review in lieu of a subpoena.

Dear Lisa ,

Thank you for your email with the information on postponement of case. I will be sure to keep an eye out for the new subpoenas.

In your email, you requested my resume as well as "a report." I understand my need to appear to provide information on the pet's presentation and medical care I provided. I do not feel comfortable serving as an expert witness for this case nor do I feel comfortable providing any narrative documents besides the medical notes which report all of my findings and diagnosis from my interactions with the pet. I would recommend obtaining a Veterinary Emergency Specialist or Criticalist as they would be the best source to provide statistics related to trauma and CPR.

Sincerely,

Hello Dr. Cantiello,

There has been a defense postponement to move the case to 5/19 in order for the defense to file a habeas motion which essentially states that we did not prove our case at the preliminary hearing. Please disregard the subpoenas you received. I will be issuing new ones.

As soon as you are able, I will need a copy of your resume/curriculum vitae as well as a copy of the Banfield records and a report of your findings. If you do not have a copy of the video, you will need to review that prior to writing your report.

Thank you,
Lisa

Thank you for your email with the information on postponement of case. I will be sure to keep an eye out for the new subpoenas.

In your email, you requested my resume as well as "a report." I understand my need to appear to provide information on the pet's presentation and medical care I provided. I do not feel comfortable serving as an expert witness for this case nor do I feel comfortable providing any narrative documents besides the medical notes which report all of my findings and diagnosis from my interactions with the pet. I would recommend obtaining a Veterinary Emergency Specialist or Criticalist as they would be the best source to provide statistics related to trauma and CPR.

Sincerely,

Victoria Cantiello Petrarca, DVM
Veterinarian, Monroeville #5204

Subject: FW: Com v Doty/Miller Postponement to May 19

Hello Dr. Cantiello,

There has been a defense postponement to move the case to 5/19 in order for the defense to file a habeas motion which essentially states that we did not prove our case at the preliminary hearing. Please disregard the subpoenas you received. I will be issuing new ones.

As soon as you are able, I will need a copy of your resume/curriculum vitae as well as a copy of the Banfield records and a report of your findings. If you do not have a copy of the video, you will need to review that prior to writing your report.

Thank you,

Lisa

Subject: "follow up from our 12/17 call"

Date: December 20, 2020 at 10:29:07 PM EST

To: "ashley.j.ross@gmail.com" <ashley.j.ross@gmail.com>;

Dear Ms. Ross:

Thank you for taking the time to speak with us during these difficult times. Losing a pet is devastating, and we are incredibly sorry that Kobe passed away while in our care. As I said on our call, we fell short of our commitments to you and Kobe, so I want to once again apologize to you.

We also wanted to send over the necropsy report so that you can have it. We have redacted this version so that you can see the results for yourself without being confronted with some of the photographs, and there's a brief summary quoting the key findings at the bottom of this email under the line of asterisks. Necropsy language can sometimes be medically dense, so I want to reiterate the offer to have a vet of your choosing review the results with you at our expense; please let me know if that's something we can support you with. Of course, if you would like me to send you an unredacted version of the necropsy or to ask Banfield to send it to you directly, please let me know.

Separately, we are happy to provide you details of the relevant policies but want to confirm the reason that the associates involved in this incident were terminated is because they did not comply with several of our protocols and trainings. Before we can send that your way, we would ask you to sign an acknowledgement to keep these documents private because our training academy and policies and procedures are proprietary, and those documents are not generally available to the public. We are willing to make an exception here, and we want to share those with you, given these circumstances.

Whenever you're ready, we would like to discuss the next steps here, including—if you're interested—helping you adopt another pet when the time is right for you. Regardless, I want you to know that our team is committed to doing everything we can to make this process easier for you.

Please don't hesitate to let us know if you have any questions or concerns. The key necropsy findings are below.

Sincerely,

Joe

Necropsy Results

The necropsy was conducted by Dr. Richard E. Moreland, an independent pathologist who is employed by Antech Diagnostics.

Key findings:

- * There is not "a definitive cause of death . . . other than the likelihood of cardiac dysfunction."
- * This finding is supported by the "lesions in the lungs [that] are usually associated with cardiac dysfunction."
- * "Sudden death in animals is often related to cardiac disease. While no significant gross or microscopic changes were observed in the heart muscle itself, arrhythmias and/or conduction problems can result in acute heart failure with no appreciable gross or histologic lesions. This is a viable possibility in this case as the prominent pulmonary changes noted, as well as the observed hepatic congestion, though nonspecific, are consistent with heart failure."
- * Dr. Moreland also observed an "adrenal tumor."
- * He did not observe any "bruising/hemorrhaging in the neck tissues." Still, "[s]trangulation cannot be completely ruled out . . . however, the lack of neck bruising makes it less likely."

Good Morning Ms. Borrelli,

I sincerely hope you're well. I gave you a call last week and also left a voicemail in response to your prior email. I reached out to PetSmart three times...the first time being when I contacted Anne Zaziski, the district manager, requesting to watch the surveillance video. Following her heartless comments and treatment while watching the video together, I sent an email to her notifying her I would be seeking counsel. The last correspondence I had with PetSmart was with Joe Cahue, another regional manager, who called and texted my cell phone incessantly in December 2020 until I responded to him. Attached below are screenshots of my last correspondence with Anne Zaziski on Dec 1, 2020 requesting her email to send my letter of intent to seek counsel. Joe Cahue called and texted me 4 times in two days following the letter I sent to Ms. Zaziski. Mr. Cahue (281 area code below) was extremely persistent with his attempts to reach me until I called him back on Dec, 17 2020. I additionally have voicemails from him and an email. Another point of note...an attorney friend of mine was contacted by a former law school classmate who now works for PetSmart legal...who was also allegedly also trying to reach me during this time but the only inkling I had of this was through her. If you need further dates and times of all correspondences please let me know.

Good Afternoon Lisa,

Hope you're well. I sincerely apologize...I meant to notify Victor that the criminal case was just postponed twice until June. Here is the first email I received from the DA notifying me of these changes...

Begin forwarded message:

Subject: FW: Doty/Miller Postponement to May 19

Date: March 29, 2022 at 12:44:13 PM EDT

To: Ashley Ross <ashley.j.ross@gmail.com>

Hello,

There has been a defense postponement to move the case to 5/19 in order for the defense to file a habeas motion which essentially states that we did not prove our case at the preliminary hearing. Please disregard the subpoenas you received. I will be issuing new ones.

I was also wondering if you had reached out or talked with anyone at Petsmart corporate?

Thank you,
Lisa

Whew. I searched all the stuff you've sent me, thinking it got misfiled. I thought I was going crazy....maybe I still am but not over this at least.

Did you reach out to her?

I emailed her yesterday asking for the records. No response yet.

Also, Ashley sent me her communications with Petsmart. Will you help me follow up on them? If I call anyone but their legal counsel, I will need a witness with me so I don't end up being a witness too. One of the statements in their texts looks pretty damning for the defendants. Let me know if you want me to send them to you.

Thanks,
Lisa

Hello,

The experts are reviewing the materials and are working on reports. I also have asked for ALDF to help us find someone to represent the owner on the original cruelty charges.

I think we are all aware of the pressing deadlines and the anxiousness this has caused. Meagan will still testify.

I will let you know as soon as I have all the pieces in place. We only have one shot at this and it needs to be our best shot.

Thanks,
Lisa

All,

There was legislation on automatic expungements that pretty much automatically causes charges and cases to be expunged when there is a withdrawal, dismissal, etc. If you need a copy of the first complaint with the affidavit, Lisa should be able to scan and send you a copy of her complaint. It is vitally important to keep track of the prior dates for Rule 600 purposes, as you will not be able to pull the record from CPCMS any longer.

Thanks,

Rachel

Hello all,

I don't know about the expungement. I do know that the charges were F3- Cruelty to Animals, M2- Cruelty to Animals and S- Cruelty to Animals.

We have been making progress. We have experts reviewing the videos and documents and we now know that Mr. Genco did indeed have NACA training: James Genco, III. Level 1 Pittsburgh, PA April 7-11, 2003. Pretest score 59%. Final exam score 80%

They are looking for his actual test and materials.

I will keep you posted.

Subject: GENCO CASE

Good morning,

I am checking in to see if progress is being made on the case involving James Genco. Can you please give us an update?

Also, OMI asked me for a copy of the first criminal complaint for Mr. Genco. I was missing a page from my file. I logged on to Quick Arrest and discovered that the case no longer exists in Quick Arrest. Is it possible that Mr. Genco had these charges expunged so quickly?

Hello all,

I don't know about the expungement. I do know that the charges were F3- Cruelty to Animals, M2- Cruelty to Animals and S- Cruelty to Animals.

We have been making progress. We have experts reviewing the videos and documents and we now know that Mr. Genco did indeed have NACA training: James Genco, III. Level 1 Pittsburgh, PA April 7-11, 2003. Pretest score 59%. Final exam score 80%

They are looking for his actual test and materials.

I will keep you posted.

Subject: GENCO CASE

Good morning,

I am checking in to see if progress is being made on the case involving James Genco. Can you please give us an update?

Also, OMI asked me for a copy of the first criminal complaint for Mr. Genco. I was missing a page from my file. I logged on to Quick Arrest and discovered that the case no longer exists in Quick Arrest. Is it possible that Mr. Genco had these charges expunged so quickly?

Hi Chief,

Here is the veterinary expert report for Chloe. I checked with Dr. Ledesma and he stated that he can substantiate a misdemeanor for cruelty.

That being said, I would charge 5533a misdemeanor for abuse, 5533a summary (to stack the charges), 5532 a(3) lack of vet care misdemeanor and 5532 a(3) summary.

Lisa,

Good afternoon! Could you please get me the CC numbers for your pending cases by the end of the week so that I can update my list? Also, I would like to have the CC numbers for the cases that have closed so far in 2022. The trial ADAs are not consistently returning the animal cruelty files to us and I would like to assimilate those cases back into the spreadsheet. I have attached the spreadsheet that I have created so that you can see how I would like to track the cases and stats, in addition to however you are currently doing it. The cases can be arranged based on ADA, judge, court date, etc.

Thanks,

Rachel

Hi!

A childhood classmate reached out to me for help. Her name is Janie Neel - 412-320-3575. She lives across from Zone 3 station on Manton Way. Janie texted me that her dog and cat are on special diets and she can't afford to purchase food at this time. Janie texted me the photo below and I asked my daughter to e-mail it to me.

Please see the e-mail below.

Do you ladies ever come across this type of food? If so, would you please consider donating it?

Please let me know.

Thank you for your consideration.

Lisa,

I mean that you need to keep documentation of the date of filing until the date of dismissal, excluding any defense postponements. That time will need to be taken into account and subtracted from the 1 year that you have if/when the case gets refiled. The Rule 600 time does not start over on a refile. The lack of prior records makes it difficult for everyone involved to expedite a refile or even to see the need for a case to be expedited because they cannot see the prior case.

All,

There was legislation on automatic expungements that pretty much automatically causes charges and cases to be expunged when there is a withdrawal, dismissal, etc. If you need a copy of the first complaint with the affidavit, Lisa should be able to scan and send you a copy of her complaint. It is vitally important to keep track of the prior dates for Rule 600 purposes, as you will not be able to pull the record from CPCMS any longer.

Thanks,

Rachel

Dr. Samson,

Do you feel comfortable reviewing the necropsy report and opining on it? Same with the Banfield records? If so, you can add it to your current report. I will hold off sending it until I know your thoughts.

Angie,

Do you have the Banfield records? If so, can you send them to me? I have to produce them as well so their vet expert can review them. I do not yet know who that is.

Thanks,
Lisa

All,

There was legislation on automatic expungements that pretty much automatically causes charges and cases to be expunged when there is a withdrawal, dismissal, etc. If you need a copy of the first complaint with the affidavit, Lisa should be able to scan and send you a copy of her complaint. It is vitally important to keep track of the prior dates for Rule 600 purposes, as you will not be able to pull the record from CPCMS any longer.

Thanks,

Rachel

Hello all,

I don't know about the expungement. I do know that the charges were F3- Cruelty to Animals, M2- Cruelty to Animals and S- Cruelty to Animals.

We have been making progress. We have experts reviewing the videos and documents and we now know that Mr. Genco did indeed have NACA training: James Genco, III. Level 1 Pittsburgh, PA April 7-11, 2003. Pretest score 59%. Final exam score 80%

They are looking for his actual test and materials.

I will keep you posted.

Good morning,

I am checking in to see if progress is being made on the case involving James Genco. Can you please give us an update?

Also, OMI asked me for a copy of the first criminal complaint for Mr. Genco. I was missing a page from my file. I logged on to Quick Arrest and discovered that the case no longer exists in Quick Arrest. Is it possible that Mr. Genco had these charges expunged so quickly?

Lisa we are both on the other trial in a different court room at the same time roughly (0830 hrs vs 0900 hrs).

I think it would be better to postpone the PetSmart trial for a date that works for everyone. It appears the defense counsel just picked a new date without consulting with you.

I'm uneasy with juggling and hoping that the Carl Blue case will either plea or be postponed especially if it's in a room where the judge will most likely not grant another postponement for Blue's attorney.

Right now I am ok with June 21.

I think so. The other case has a very unreliable defense counsel but a Judge who probably doesn't want to grant him anymore extensions. Not a helpful mix for trying to figure out what is going to go. I am not sure my Judge will grant one either and if not, we will have to juggle it. The next date the court had available was 6/21.

Subject: RE: GENCO CASE

Hello all,

I don't know about the expungement. I do know that the charges were F3- Cruelty to Animals, M2- Cruelty to Animals and S- Cruelty to Animals.

We have been making progress. We have experts reviewing the videos and documents and we now know that Mr. Genco did indeed have NACA training: James Genco, III. Level 1 Pittsburgh, PA April 7-11, 2003. Pretest score 59%. Final exam score 80%

They are looking for his actual test and materials.

I will keep you posted.

Lisa

Subject: GENCO CASE

Good morning,

I am checking in to see if progress is being made on the case involving James Genco. Can you please give us an update?

Also, OMI asked me for a copy of the first criminal complaint for Mr. Genco. I was missing a page from my file. I logged on to Quick Arrest and discovered that the case no longer exists in Quick Arrest. Is it possible that Mr. Genco had these charges expunged so quickly?

Lisa we are both on the other trial in a different court room at the same time roughly (0830 hrs vs 0900 hrs).

I think it would be better to postpone the PetSmart trial for a date that works for everyone. It appears the defense counsel just picked a new date without consulting with you.

I'm uneasy with juggling and hoping that the Carl Blue case will either plea or be postponed especially if it's in a room where the judge will most likely not grant another postponement for Blue's attorney.

Right now I am ok with June 21.

Subject: RE: help and/or advice

Lt. Stoops,

Good afternoon! I have several thoughts on the matter after having done some legal research and conferring with some colleagues:

1. I do not know if this is the extent of the investigation/reports. When it comes to criminal charges, I certainly have additional questions (i.e. Did the owner attempt to stop the attack and regain control of the dog? What did the witnesses on scene say happened?, Has the dog bitten anyone before or have a history? etc.).
2. Were the police contacted and/or did they conduct an investigation? If there was an allegation that the owner/responsible party for the dog intentionally used the dog as a weapon to effectuate an attack on juveniles playing basketball, then I think an investigation needs to be conducted.
3. If the owners were told to quarantine the dog, failed to do so, and instead took the dog to the park and gave it away, then I think this is a criminal matter. It sounds like the mother did not have knowledge that the dog was recovered after the attack, but the son made admissions. I am not aware of which individual is the actual owner, etc.

So, in addition to the regularly applicable charges under Title 3, I think that the following MAY apply: 18 §5101 Obstructing administration of Law or Other Governmental Function and 18 §4910 Tamping with or fabricating physical evidence. I say MAY because I do not know if I have all of the facts and if the investigation is complete. If there is currently or is going to be an investigation into the intentionality of the attack, then that would need to be completed before a complete assessment of appropriate charges could be made. All charges related to one criminal episode need to be charged on one complaint.

Please let me know if you have any additional questions or concerns. I am also available to discuss this matter if you want to give me a call.

Thanks,

Rachel

Subject: Re: help and/or advice

Julie

3/18/22: Received a bite report via a 911 fax: Report says that Robert Eason (10 yrs old) told his mom Kieyonna Demus (5314 Cornwall St, 412-652-7358) that he was playing basketball with friends (3/16) when someone at 5304 Cornwall opened their door and let their blue nosed pit bull loose. The pit started chasing the kids and when Eason fell the pit attacked him biting him several times. Eason was bitten and has severe lacerations/bite wounds on both of his legs. His

doctor said that his Achilles tendon was cut and he may have permanent nerve damage. Eason along with his friends believe the owner of this pit let his dog outside with the intent to attack them. Demus (mother) said she tried to talk to the owner when she was on scene but he refused to speak to her. DM

3/18: Owner of biter dog called to say that her son Ray Ray Quran Adams was taking their biter dog to AF when the dog somehow escaped from him. I told her that she had to find their biter dog and keep it at their house or her or her son would be fined a \$100/day until their dog returns home. DM

3/19 arrived on scene and spoke with the woman first. She stated that they were unable to get the dog and clarified that he was still at large. Then her son Ray Ray came downstairs and stated that he found the dog and released him to a random man he found at a dog park. He stated that he just drove around with the dog telling people he was looking to have him euthanized when this strange man he couldn't identify or even describe took him. Owner is now completely unaware of where the dog is now for that very reason.

3/19: Owners are also unaware if the dog has ever been to the vet or received a vaccine. The owners both appeared to be very intoxicated and were slurring their speech and didn't seem to understand anything we were saying. We reminded both owners that the child may never walk again and that we legally need all of this information and advised failure to comply will result in no less than a court summons and they didn't really respond or seem to care at all. TB/KJ

Corrected in proper order

Dave

Ok, is it possible to have this sequence of events corrected and clarified for me so I know what I am working with? Then I can do some research on the potential charges. There is also civil liability, as well, but the bitten juvenile's mother will have to obtain an attorney and file for damages privately.

Morning Everyone

We had a young boy Robert Eason get severely bitten/mauled by a pit bull that may have been intentionally let loose on a group of kids playing basketball this past Wednesday 3/16/22:

Here are the Reports:

3/18/22: Received a bite report via a 911 fax: Report says that Robert Eason (10 yrs old) told his mom Kieyonna Demus (5314 Cornwall St, 412-652-7358) that he was playing basketball with friends (3/16) when someone at 5304 Cornwall opened their door and let their blue nosed pit bull loose. The pit started chasing the kids and when Eason fell the pit attacked him biting him several times. Eason was bitten and has severe lacerations/bite wounds on both of his legs. His doctor said that his Achilles tendon was cut and he may have permanent nerve damage. Eason along with his friends believe the owner of this pit let his dog outside with the intent to attack them. Demus (mother) said she tried to talk to the owner when she was on scene but he refused to speak to her. DM

3/18/22 no answer tagged door, did not hear a dog inside when I knocked. Kj

3/18: Kieyonna called to say that her son was taking their biter dog to AF when the dog somehow escaped from him. I told her that she had to find their biter dog and keep it at their house or her or her son would be fined a \$100/day until their dog returns home. DM

3/19 arrived on scene and spoke with the woman first. She stated that they were unable to get the dog and clarified that he was still at large. Then the man came downstairs and stated that he found the dog and regimies him to a random man

he found at a dog park. He stated that he just drove around with the dog telling people he was looking to have him euthanized when this strange man he couldn't identify or even describe took him. Owner is now completely unaware of where the dog is now for that very reason.

Owners are also unaware if the dog has ever been to the vet or received a vaccine. The owners both appeared to be very intoxicated and were slurring their speech and didn't seem to understand anything we were saying. We reminded both owners that the child may never walk again and that we legally need all of this information and advised failure to comply will result in no less than a court summons and they didn't really respond or seem to care at all. TB/KJ

Usually in these types of situations, my officers just issue a citation every day for 10 days for failure to quarantine this biter dog

Are there other options?

Thanks

Dave

Subject: RE: help and/or advice

Lt. Stoops,

Good afternoon! I have several thoughts on the matter after having done some legal research and conferring with some colleagues:

1. I do not know if this is the extent of the investigation/reports. When it comes to criminal charges, I certainly have additional questions (i.e. Did the owner attempt to stop the attack and regain control of the dog? What did the witnesses on scene say happened?, Has the dog bitten anyone before or have a history? etc.).
2. Were the police contacted and/or did they conduct an investigation? If there was an allegation that the owner/responsible party for the dog intentionally used the dog as a weapon to effectuate an attack on juveniles playing basketball, then I think an investigation needs to be conducted.
3. If the owners were told to quarantine the dog, failed to do so, and instead took the dog to the park and gave it away, then I think this is a criminal matter. It sounds like the mother did not have knowledge that the dog was recovered after the attack, but the son made admissions. I am not aware of which individual is the actual owner, etc.

So, in addition to the regularly applicable charges under Title 3, I think that the following MAY apply: 18 §5101 Obstructing administration of Law or Other Governmental Function and 18 §4910 Tamping with or fabricating physical evidence. I say MAY because I do not know if I have all of the facts and if the investigation is complete. If there is currently or is going to be an investigation into the intentionality of the attack, then that would need to be completed before a complete assessment of appropriate charges could be made. All charges related to one criminal episode need to be charged on one complaint.

Please let me know if you have any additional questions or concerns. I am also available to discuss this matter if you want to give me a call.

Thanks,

Rachel

Lisa we are both on the other trial in a different court room at the same time roughly (0830 hrs vs 0900 hrs).

I think it would be better to postpone the PetSmart trial for a date that works for everyone. It appears the defense counsel just picked a new date without consulting with you.

I'm uneasy with juggling and hoping that the Carl Blue case will either plea or be postponed especially if it's in a room where the judge will most likely not grant another postponement for Blue's attorney.

Right now I am ok with June 21.

Hello,

There has been a defense postponement to move the case to 5/19 in order for the defense to file a habeas motion which essentially states that we did not prove our case at the preliminary hearing. Please disregard the subpoenas you received. I will be issuing new ones.

Dr. Samson, per the discovery request, I need to supply defense with your resume/curriculum vitae. Can you please send me your most recent version.

Thank you,
Lisa

Lisa we are both on the other trial in a different court room at the same time roughly (0830 hrs vs 0900 hrs).

I think it would be better to postpone the PetSmart trial for a date that works for everyone. It appears the defense counsel just picked a new date without consulting with you.

I'm uneasy with juggling and hoping that the Carl Blue case will either plea or be postponed especially if it's in a room where the judge will most likely not grant another postponement for Blue's attorney.

Right now I am ok with June 21.

Hello,

There has been a defense postponement to move the case to 5/19 in order for the defense to file a habeas motion which essentially states that we did not prove our case at the preliminary hearing. Please disregard the subpoenas you received. I will be issuing new ones.

Dr. Samson, per the discovery request, I need to supply defense with your resume/curriculum vitae Can you please send me your most recent version.

Thank you,
Lisa

I think so. The other case has a very unreliable defense counsel but a Judge who probably doesn't want to grant him anymore extensions. Not a helpful mix for trying to figure out what is going to go. I am not sure my Judge will grant one either and if not, we will have to juggle it. The next date the court had available was 6/21.

Hello Lisa,

I will be retiring September 11th. Detective Kevin Logue will be in my position from that date on. I have cc'd him on this email so would you please send him further sheet listings?

Thank you and very nice to have worked with you.

Stay safe,

Harold

Hello,

I understand that John is off this distribution list but I was told to send this now to just you two. So here is the latest edition.

Happy weekend and Father's Day if appropriate.

Thanks,
Lisa

I have a licence plate number – LWX 9524- She was there when I got home Tuesday. I know the taxes haven't been paid, and I do believe there is a lien on the home. I was unaware that when you called 911, you had to actually say you wanted to file a 'noise complaint' so I believe all the calls that myself and the neighbors have made prevent them from citing her. The one dog that I showed you a picture of on the roof is now venturing toward the point of the roof. It was raining, and he was actually slipping. Luffy put a note on the home for them to contact her by today; although I'm not sure what will happen if they don't.

Disregard: My neighbor just text me and said police and rescue are their to take the dogs!

That is terrible.

Do you have any information on the old owner, Richard White?

The only possible crime could be criminal trespass if the owner did not give them permission to be there. We just need to find him to determine if this is trespass. There is also the possibility that they do not have permission and are squatting, which is not criminal but is the civil realm.

Can you and/or your neighbors take down the license plates of the vehicles that come and go to the house? An officer might be able to get some information that way.

Nuisance is another possibility, but I am not sure there is an enforcement mechanism there.

I am sorry to say that perhaps the best course is to maybe just keep reporting it to the police at every time the dog howls and to the mayor's office until they do something that we cannot.

Perhaps you can also talk to your legislator as the statute does not deal with this kind of issue at all.

There is no statutory cruelty here or even neglect at this point.

Until there are charges for neglect or abuse, our office is not able to do anything until a crime is committed.

Please feel free to call me to discuss if I am missing something.

I taped a notice on the door at 422 Charles Street yesterday (March 23, 2022) at 10:30 am.

I was contacted by a resident on Charles Street a few minutes ago. The notice is still on the door. I was told that no one has been at the house. A photo of a dog on the roof was sent to me. This photo was taken yesterday. The street and sidewalks are wet.

I will go back to the house at 10:30 am today. If the notice is still there, can I please get a search warrant and remove these dogs?

This has gone on for way too long. I believe that these dogs need help and there is a possibility of them falling 3 stories off of the roof.

Dogs require daily care. It's obvious that these dogs aren't getting it.

I will reach out to you again after 10:30 am to update you and ask to obtain a search warrant. I am preparing for a bingo that 600 people will be attending on Saturday. Honestly, I don't need this headache, but this needs to be resolved and I am willing to help.

Subject: Fw: 422 Charles st.

Mike,

I just wanted to make you aware of this as it seems it may get some attention, and we may be mentioned despite the fact that we cannot do anything at this time. We are still looking at options but so far, we have not been able to help them. I have talked to them, Rachel looked into it, and the officers have talked to them, but we cannot solve their problem -- no statute violations: no neglect, no cruelty, as far as we can tell legally. I talked to Kevin in appeals and as a courtesy The neighbors are upset, the mayor's office has been called, the neighborhood association is involved. I just thought you should know so if it does come to back at us that you are not blindsided.

The dogs (or at least one of them) goes out on the third-floor roof and howls at all hours. The neighbors have called the police, humane animal rescue, and our office to get some relief. Nothing has changed the situation for them. It seems their best option is for the neighbors to call it in repeatedly as a nuisance, but the city does not have the same codes enforcement as the suburbs.

Background: The property owner has not paid his taxes in years and has not been seen. The people with the dogs show up periodically; say they are moving in, but it is unclear as to whether they even have a right to be there. They dropped off their dogs at that property about 3 weeks ago. We are not sure if they are tenants, squatters, or trespassers. The first two have nothing our office can do anything about; we have no facts to support the last option. A U-Haul has been seen there at odd hours.

While there is no one there to let the dogs out and no one sees anyone going in to feed them, they do not look like they are neglected or abused (under our statute). Officers are periodically checking on them through the windows and neighbors' pictures but since it is not an exigent circumstance, we are not sure if legally they can go into the house.

Summary: Ugly situation, not our fault. Below are some of the emails and a picture or two of one of the dogs on the roof.

Hello,

I just called Sharlee Ellison (President of Knoxville Community Council) 412-512-4533. Ms. Ellison is aware of the situation at 422 Charles Street. She told me that the residents near this house are furious. I asked Ms. Ellison if she knows Richard White. She told me that she does not know him. Ms. Ellison is going to reach out to the residents complaining to see if they know Mr. White or have contact information for him.

In the mean time, I will run him through Jnet to see if I can find out anything.

I will keep you posted.

Subject: Re: 422 CHARLES STREET

Good morning,

We did not fail these dogs. I spoke to ADA Rachel Newman and presented all the facts of the case. She spoke to the appeals unit who advised her that at this time there are no animal cruelty or neglect laws being violated.

The dogs are in good body condition, are not showing signs of being dehydrated and are not confined to their waste as they clearly have free roam of the house.

The only violation is a city noise ordinance possibly.

I retrieved 2 voice mails from Kori Ford this morning.

Voice mail # 1 - 4:00 pm - March 17 - The people were moving things into 422 Charles Street the night before. Ms. Ford doesn't know if they are completely moved in because her son and neighbors told her that they did not see any people yesterday. She stated that her camera footage did not show any people at the house. Ms. Ford reported that the dogs have been living in the house by themselves for 6 weeks. She said that she spoke with the Mayor's office and they are intervening in this situation and want answers to why nothing has been done to resolve this problem.

Voice mail #2 - 10:48 pm, March 17 - Ms. Ford stated that she called 911 because the dogs were out on the roof howling. She believes that no people are inside of the house. Ms. Ford mentioned again that the Mayor's office is involved and they will be reaching out to me for answers to why we failed these dogs.

UPDATE TO SHARE.

I just received a text from a woman named "Eronda". I know her from the animal rescue community. Eronda informed me that Kori Ford told her that the people at 422 Charles Street moved back into the house in the middle of the night and are currently unpacking a Uhaul.

I retrieved a voice mail today from Kori Ford (lives across the street from 422 Charles Street). Ms. Ford reported that the dogs were NOT removed from the house and her son gave her wrong information.

According to Ms. Ford, the dogs are still there. She said that she was leaving work early yesterday to go in person to the Mayor's office.

Can these dogs please be removed?

Yeah I couldn't think of anything, either. Interfering with an investigation doesn't apply to Animal Control, so all I could think of was civil.

Thanks!

I do not think this is criminal. There is nothing in our statute that this fits as it is not cruelty or neglect. Maybe under dangerous dog but that again seems like a civil remedy. You can call if you want to discuss this.

Julie

3/18/22: Received a bite report via a 911 fax: Report says that Robert Eason (10 yrs old) told his mom Kieyonna Demus (5314 Cornwall St, 412-652-7358) that he was playing basketball with friends (3/16) when someone at 5304 Cornwall opened their door and let their blue nosed pit bull loose. The pit started chasing the kids and when Eason fell the pit attacked him biting him several times. Eason was bitten and has severe lacerations/bite wounds on both of his legs. His doctor said that his Achilles tendon was cut and he may have permanent nerve damage. Eason along with his friends believe the owner of this pit let his dog outside with the intent to attack them. Demus (mother) said she tried to talk to the owner when she was on scene but he refused to speak to her. DM

3/18: Owner of biter dog called to say that her son Ray Ray Quran Adams was taking their biter dog to AF when the dog somehow escaped from him. I told her that she had to find their biter dog and keep it at their house or her or her son would be fined a \$100/day until their dog returns home. DM

3/19 arrived on scene and spoke with the woman first. She stated that they were unable to get the dog and clarified that he was still at large. Then her son Ray Ray came downstairs and stated that he found the dog and released him to a random man he found at a dog park. He stated that he just drove around with the dog telling people he was looking to have him euthanized when this strange man he couldn't identify or even describe took him. Owner is now completely unaware of where the dog is now for that very reason.

3/19: Owners are also unaware if the dog has ever been to the vet or received a vaccine. The owners both appeared to be very intoxicated and were slurring their speech and didn't seem to understand anything we were saying. We reminded both owners that the child may never walk again and that we legally need all of this information and advised failure to comply will result in no less than a court summons and they didn't really respond or seem to care at all. TB/KJ

Corrected in proper order

Ok, is it possible to have this sequence of events corrected and clarified for me so I know what I am working with? Then I can do some research on the potential charges. There is also civil liability, as well, but the bitten juvenile's mother will have to obtain an attorney and file for damages privately.

Morning Everyone

We had a young boy Robert Eason get severely bitten/mauled by a pit bull that may have been intentionally let loose on a group of kids playing basketball this past Wednesday 3/16/22:

Here are the Reports:

3/18/22: Received a bite report via a 911 fax: Report says that Robert Eason (10 yrs old) told his mom Kieyonna Demus (5314 Cornwall St, 412-652-7358) that he was playing basketball with friends (3/16) when someone at 5304 Cornwall opened their door and let their blue nosed pit bull loose. The pit started chasing the kids and when Eason fell the pit attacked him biting him several times. Eason was bitten and has severe lacerations/bite wounds on both of his legs. His doctor said that his Achilles tendon was cut and he may have permanent nerve damage. Eason along with his friends believe the owner of this pit let his dog outside with the intent to attack them. Demus (mother) said she tried to talk to the owner when she was on scene but he refused to speak to her. DM

3/18/22 no answer tagged door, did not hear a dog inside when I knocked. KJ

3/18: Kieyonna called to say that her son was taking their biter dog to AF when the dog somehow escaped from him. I told her that she had to find their biter dog and keep it at their house or her or her son would be fined a \$100/day until their dog returns home. DM

3/19 arrived on scene and spoke with the woman first. She stated that they were unable to get the dog and clarified that he was still at large. Then the man came downstairs and stated that he found the dog and regimes him to a random man he found at a dog park. He stated that he just drove around with the dog telling people he was looking to have him euthanized when this strange man he couldn't identify or even describe took him. Owner is now completely unaware of where the dog is now for that very reason.

Owners are also unaware if the dog has ever been to the vet or received a vaccine. The owners both appeared to be very intoxicated and were slurring their speech and didn't seem to understand anything we were saying. We reminded both owners that the child may never walk again and that we legally need all of this information and advised failure to comply will result in no less than a court summons and they didn't really respond or seem to care at all. TB/KJ

Usually in these types of situations, my officers just issue a citation every day for 10 days for failure to quarantine this biter dog

Are there other options?

Thanks

Dave

He stated that he just drove around with the dog telling people he was looking to have him euthanized when this strange man he couldn't identify or even describe took him. Owner is now completely unaware of where the dog is now for that very reason.

Owners are also unaware if the dog has ever been to the vet or received a vaccine. The owners both appeared to be very intoxicated and were slurring their speech and didn't seem to understand anything we were saying. We reminded both owners that the child may never walk again and that we legally need all of this information and advised failure to comply will result in no less than a court summons and they didn't really respond or seem to care at all. TB/KJ

Usually in these types of situations, my officers just issue a citation every day for 10 days for failure to quarantine this biter dog

Are there other options?

Thanks

Dave

Hello!

With what information that we have here, what would our options and most applicable charges be? Please see below for details from Animal Control.

Subject: Re: help and/or advice

Julie

3/18/22: Received a bite report via a 911 fax: Report says that Robert Eason (10 yrs old) told his mom Kieyonna Demus (5314 Cornwall St, 412-652-7358) that he was playing basketball with friends (3/16) when someone at 5304 Cornwall opened their door and let their blue nosed pit bull loose. The pit started chasing the kids and when Eason fell the pit attacked him biting him several times. Eason was bitten and has severe lacerations/bite wounds on both of his legs. His doctor said that his Achilles tendon was cut and he may have permanent nerve damage. Eason along with his friends believe the owner of this pit let his dog outside with the intent to attack them. Demus (mother) said she tried to talk to the owner when she was on scene but he refused to speak to her. DM

3/18: Owner of biter dog called to say that her son Ray Ray Quran Adams was taking their biter dog to AF when the dog somehow escaped from him. I told her that she had to find their biter dog and keep it at their house or her or her son would be fined a \$100/day until their dog returns home. DM

3/19 arrived on scene and spoke with the woman first. She stated that they were unable to get the dog and clarified that he was still at large. Then her son Ray Ray came downstairs and stated that he found the dog and released him to a random man he found at a dog park. He stated that he just drove around with the dog telling people he was looking to have him euthanized when this strange man he couldn't identify or even describe took him. Owner is now completely unaware of where the dog is now for that very reason.

3/19: Owners are also unaware if the dog has ever been to the vet or received a vaccine. The owners both appeared to be very intoxicated and were slurring their speech and didn't seem to understand anything we were saying. We reminded both owners that the child may never walk again and that we legally need all of this information and advised failure to comply will result in no less than a court summons and they didn't really respond or seem to care at all. TB/KJ

Corrected in proper order

Subject: Re: help and/or advice

Ok, is it possible to have this sequence of events corrected and clarified for me so I know what I am working with? Then I can do some research on the potential charges. There is also civil liability, as well, but the bitten juvenile's mother will have to obtain an attorney and file for damages privately.

This is what is confusing me: 3/18: Kieyonna called to say that her son was taking their biter dog to AF when the dog somehow escaped from him. I told her that she had to find their biter dog and keep it at their house or her or her son would be fined a \$100/day until their dog returns home. DM

Kieyonna's son was the kid who was bitten, at least as written in the paragraphs above.

Subject: help and/or advice

Morning Everyone

We had a young boy Robert Eason get severely bitten/mauled by a pit bull that may have been intentionally let loose on a group of kids playing basketball this past Wednesday 3/16/22:

Here are the Reports:

3/18/22: Received a bite report via a 911 fax: Report says that Robert Eason (10 yrs old) told his mom Kieyonna Demus (5314 Cornwall St, 412-652-7358) that he was playing basketball with friends (3/16) when someone at 5304 Cornwall opened their door and let their blue nosed pit bull loose. The pit started chasing the kids and when Eason fell the pit attacked him biting him several times. Eason was bitten and has severe lacerations/bite wounds on both of his legs. His doctor said that his Achilles tendon was cut and he may have permanent nerve damage. Eason along with his friends believe the owner of this pit let his dog outside with the intent to attack them. Demus (mother) said she tried to talk to the owner when she was on scene but he refused to speak to her. DM

3/18/22 no answer tagged door, did not hear a dog inside when I knocked. Kj

3/18: Kieyonna called to say that her son was taking their biter dog to AF when the dog somehow escaped from him. I told her that she had to find their biter dog and keep it at their house or her or her son would be fined a \$100/day until their dog returns home. DM

3/19 arrived on scene and spoke with the woman first. She stated that they were unable to get the dog and clarified that he was still at large. Then the man came downstairs and stated that he found the dog and regimes him to a random man he found at a dog park. He stated that he just drove around with the dog telling people he was looking to have him euthanized when this strange man he couldn't identify or even describe took him. Owner is now completely unaware of where the dog is now for that very reason.

Owners are also unaware if the dog has ever been to the vet or received a vaccine. The owners both appeared to be very intoxicated and were slurring their speech and didn't seem to understand anything we were saying. We reminded both owners that the child may never walk again and that we legally need all of this information and advised failure to comply will result in no less than a court summons and they didn't really respond or seem to care at all. TB/KJ

Usually in these types of situations, my officers just issue a citation every day for 10 days for failure to quarantine this biter dog

Are there other options?

Thanks

Dave

Good Morning,

Unfortunately, Ive been assigned to court Liaison duties and have been tied up.
I can tell you this, as of yesturday, I tried reaching him by phone. His number is no longer able to recieve messages.

As I told you when we met. I will do what I can, I understand where your coming from. Unfortunately all we have are summary offenses.

Hi!

I received information that David Boyles has the cats in his residence that we were unable to catch and that he brought more cats home.

Please give us an update on how the summary warrant team is dealing with him. Have you been able to reach him?

Unfortunately, I believe that our work at Mr. Boyles residence is not finished.

Thank you very much!

Hello!

May I pick your brains for a moment?

What are our options for serving 36 summary arrest warrants? This man keeps hoarding cats and refusing to respond to any court notices.

Let me confer with the Law Dept and see what our options are. While I don't necessarily aspire to arrest someone who clearly has mental health issues, I think Mr. Boyles will continue with this behavior unless something drastic occurs.

Subject: Re: DAVID BOYLES

Birds of the same feather flock together. In this case, Boyles and the Bibey/Kunkle family are filthy and irresponsible pet owners.

I believe that we removed 36 cats from David Boyles, but I know that there are more inside that we couldn't catch. According to Mr. Kunkle, Mr. Boyles brought more cats into his residence.

David Boyles did not appear for his court hearing. Judge Richard King issued 36 summary warrants that no one will serve.

Good morning,

We did not fail these dogs. I spoke to ADA Rachel Newman and presented all the facts of the case. She spoke to the appeals unit who advised her that at this time there are no animal cruelty or neglect laws being violated.

The dogs are in good body condition, are not showing signs of being dehydrated and are not confined to their waste as they clearly have free roam of the house.

The only violation is a city noise ordinance possibly.

I retrieved 2 voice mails from Kori Ford this morning.

Voice mail # 1 - 4:00 pm - March 17 - The people were moving things into 422 Charles Street the night before. Ms. Ford doesn't know if they are completely moved in because her son and neighbors told her that they did not see any people yesterday. She stated that her camera footage did not show any people at the house. Ms. Ford reported that the dogs have been living in the house by themselves for 6 weeks. She said that she spoke with the Mayor's office and they are intervening in this situation and want answers to why nothing has been done to resolve this problem.

Voice mail #2 - 10:48 pm, March 17 - Ms. Ford stated that she called 911 because the dogs were out on the roof howling. She believes that no people are inside of the house. Ms. Ford mentioned again that the Mayor's office is involved and they will be reaching out to me for answers to why we failed these dogs.

Hey Tim,

I also have Gino Scatena (202200233) on my list for pretrials in Judge Lazzara as well. Do you have that?

Thanks!

 Subject: 3/18 PTC, Judge Lazzara room 306A

Good afternoon!

If you are receiving this email you are, or were at one time, listed as representing a client that we have listed for PTC this week with Judge Lazzara.

Attached is a list of available dates for Judge Lazzara's PTC's scheduled for 3/18/22 along with a partial list of the assigned ADA on each case. Please discuss dates with opposing counsel, who have been cc'd on this email, and if you'd like to waive your clients appearance, if they are not incarcerated, please submit along with the selected date the Waiver of PTC found on the 5th Judicial website, a verified address, phone number and email if they have it so that we can send out a subpoena. If dates are not selected by the scheduled PTC date and time, please plan on being here in person.

Thanks!

Tim

FYI: Subpoenas are for 8:30am, when the door opens. Judge Lazzara expects parties to be here and have cases ready to go when she takes the bench.

Below are the pretrial conference assignments for the OPD for 3/18/22 for Judge Lazzara.

G8887034	2022-0236	Anthony Connolly	PTC	3/18/2022	Joseph Turman Lazzara

Hey Tim,

I also have Gino Scatena (202200233) on my list for pretrials in Judge Lazzara as well. Do you have that?

Thanks!

Good afternoon!

If you are receiving this email you are, or were at one time, listed as representing a client that we have listed for PTC this week with Judge Lazzara.

Attached is a list of available dates for Judge Lazzara's PTC's scheduled for 3/18/22 along with a partial list of the assigned ADA on each case. Please discuss dates with opposing counsel, who have been cc'd on this email, and if you'd like to waive your clients appearance, if they are not incarcerated, please submit along with the selected date the Waiver of PTC found on the 5th Judicial website, a verified address, phone number and email if they have it so that we can send out a subpoena. If dates are not selected by the scheduled PTC date and time, please plan on being here in person.

Thanks!

Tim

FYI: Subpoenas are for 8:30am, when the door opens. Judge Lazzara expects parties to be here and have cases ready to go when she takes the bench.

Below are the pretrial conference assignments for the OPD for 3/18/22 for Judge Lazzara.

G8887034	2022-0236	Anthony Connolly	PTC	3/18/2022	Joseph Turman Lazzara	
G8963286	2022-0181	Armando Centreras	PTC	3/18/2022	Joseph Turman Lazzara	
G8997940	2022-0299	Akeem James	PTC	3/18/2022	Joseph Turman Lazzara	G8706213 2022-
0238	Gregory Stone	PTC	3/18/2022	Samuel Esterman	Lazzara G8612295	2020-
4730	Collin Helsel	PTC	3/18/2022	Joseph Turman Lazzara	G8456836	2019-
9501	Richard Moore	PTC	3/18/2022	Elizabeth Patton	Lazzara G8107621	2019-
7385	Corey Ziegler	PTC	3/18/2022	Dave Obara	Lazzara G9001543	2022-0344 Noah
