RE: Request for update on August 30, 2019
Public records request "Ring partnership"

Dear Ms. Haskins,

You had previously requested materials related to the City of Beaverton's relationship with Ring. On September 13th, 2019, the City explained the scope of your request and requested payment of \$1,165.75 in order to review and process your request. Please refer to the previous correspondence for full details. The City did not receive any further correspondence on this matter until your request for an update today, April 7th, 2021.

As required by Oregon law (ORS 192.329(3)(b)), this request was closed 60 days after a request for payment was issued.

If you still wish to request these records, please submit a new request. In order to limit your potential costs, you may wish to limit the time frame you wish the City to search for responsive records, or to include additional search terms to narrow the scope of your request. Please again refer to the City's letter of September 13th, 2019 for details of how you may limit the scope.

Please feel free to contact Assistant City Attorney Grace Wong or me with any additional questions regarding this request.

Sincerely,

Tim Dooley
Records Manager

CC: Grace Wong, Assistant City Attorney
