Subject: Summer work

Hi Sue,

I talked it over with my boss and we think that it would take between 4 to 6 weeks for us to process an application for summer work in the 1002 area. The timing would be dependent on staff being in

the field and out of the office. We believe that we could tier to the USFWS plan for the area since the work while for oil and gas, would be research kind of work and not oil and gas work.

Hope that helps.

Donna
