Good Morning Sue,

We need to know information about possible summer activities associated with the proposed seismic work on the Coastal Plain in order to complete analysis in the EA and for consultation with USFWS ESA and ITR.

The information we need is:

Bathymetry Studies Planned, when, how and where, please provide a map

Cultural Studies Planned, when, how and where

Stickpicking, when and number of helicopter landings.

Has SAE contacted the National Marines Fisheries Service in regard to seals due to the activity in the lagoons.

Thanks,

Donna
