Jordan's number is 901-515-8478. She won't give us Cody's number.

Again, thank you for all you are doing!

Closing and locking the gate, locking vehicles and buildings too. Alarm systems are wonderful. Maybe there is a way to have some type of sensor on the gate as well should someone climb the gate. I don't know. That's a question for the alarm company.

Can you get me a number for Jordan and/or Cody?

Detective Wallace,

I have attached two photo's that were just discovered from someone on David Hunter Moore's property (4560 Belmont Rd). The camera dates this person was on the property 4-28-17. Hunter travels for work and is out of town a lot. He was out of town this particular night, and he is also out of town right now, but will land tonight. I am Hunter's girlfriend, Sidney Mitchell. PLEASE let me know if there is anything I can do to help get this person to stop coming to the house. I came up to the station Tuesday, and left a note of anything new that I thought could help. The suspect that we REALLY think it is, Cody Scott, has a child with a woman (Jordan) that has contacted Hunter and Hunter's sister with information that he has stolen from Hunter before and for us to be careful, that he is targeting people he knows.

If there is any way to pick Cody up for questioning or a drug test I am begging that you do. There is now video clips of someone outside of Hunter's sisters house last night, LeShonda Kisner. Jordan has called LeShonda this morning saying that Cody is blaming all of this on Brandon Anderson and Jordan claims that Cody is on his way to Florida (where Jordan now lives) to see the baby. I do not think Jordan will be any help, she still believes in Cody and does not want her child's dad in jail.

I am begging that we get these people found quickly. As you know, a lot of things have been taken from us, but that is not my concern. My worry is that someone is
