

CM has asked to update the board on all the various trainings we are doing in 2021.

40-hour CIT (Benson, Tanner, Baggett in 2021)

Talk Saves Lives Presentation (May 2021)

ASIST Training (August)

Mental Health First Aid training for all PSO's (November)

Also, touch on the recently implemented body/in-car cams at that time.

Lastly, OIC meeting July 28, 7:30pm....this will be a zoom meeting.

Norb and Kristi,
Interesting perspective - especially the 3rd question.

Mrs. Folino,
I answered your questions below in blue. I hope this is helpful.

Dr. Ramey,

After attending the school board meeting last night and listening to the response Mr. Duwel gave to the lone commenter regarding the real world classroom implementation of the districts equity training I did just as he suggested and studied the school districts EDI webpage.

It did not answer the question posed. So can you please elaborate further? How do the schools, primarily the elementary schools plan to implement DIE training specifically into the classroom?

Professional development opportunities provide our team a chance to learn, grow and reflect on how we can continue to meet the needs of ALL of our learners. Staff members have spent countless hours participating in professional development opportunities to help the District create a welcoming environment for all students and allow all of our students to begin to develop critical thinking skills.

Can we expect our students to be presented with reading material such as WHEN AIDEN BECAME A BROTHER and RAINBOW: A FIRST BOOK OF PRIDE or others listed and read aloud for students to hear on the schools webpage?

We believe it is crucial for students to have access to books that illustrate characters they can identify with and represent their families. Our District Equity, Diversity and Inclusion web page is a resource for families and the community to access if they are interested in learning more about topics related to EDI.

Can you answer if the Oakwood Inclusion Coalition was given access to the schools libraries and allowed to remove/add materials?

No. The OIC have not and have absolutely no interest in doing so.

As always, I do appreciate your time.

Kevin / Mike,

Can you please mark your calendars to attend the board of health meeting on Tuesday, July 27 @ 5:30pm. Location will be council chambers. This is a crew #3 day.

Mike,

The CM has just asked for someone who has attended the 40 hour CIT training to give the board a quick overview of the training from a firsthand perspective. Benefits of training, what you learned, and how training will help you deal with someone exhibiting signs of a mental illness. You are schedule to attend mid-July.

Kevin,

MEMORANDUM

TO: BOARD OF HEALTH MEMBERS
FROM: NORBERT KLOPSCH 
SUBJECT: JULY 27, 2021 MEETING
DATE: JULY 15, 2021

Greetings from City Hall!

We meet at 5:30 p.m. on Tuesday, July 27 in the council chamber at the city building. For those wishing to participate via Zoom, below is the access information:

<https://zoom.us/j/97868710734?pwd=eC9obDZ6TWtpZzJKcUc4SHJTRlpPQT09>

Meeting ID: 978 6871 0734
Passcode: 018019

Captain Kevin Pruszynski and Lieutenant Mike Tanner will join us to discuss mental health training for our public safety officers, and our use of vehicle and body cameras.

Enclosed are:

- The meeting agenda.
- Minutes of our March 23, 2021 meeting.
- Two letters of support for COVID-19 funding that we provided to Public Health – Dayton & Montgomery County.
- June 2 press release on mental health training, along with *Oakwood Register* and *Dayton Daily News* articles.
- July 12 memorandum from City Attorney Rob Jacques addressing provisions in the 2022/2023 state biennial budget bill that will impact our local health district.
- Summary of topics addressed at Oakwood Health Board meetings each decade between 1930 and 2010.
- June 18 memorandum from Rob Jacques addressing possible functional changes to our Board of Health if Ohio eliminates our local health district.

Our remaining meetings this year are scheduled as follows:

5:30 p.m. Tuesday, September 28
5:30 p.m. Tuesday, November 23

cc: Mayor William Duncan, President
Dr. Steve Enseleit, Health Commissioner
Dr. John Ewing, Assistant Health Commissioner/Medical Director

BOARD OF HEALTH
AGENDA
JULY 27, 2021

- I. CALL TO ORDER
- II. MINUTES OF PREVIOUS MEETINGS
- III. REPORT FROM CHAIR
- IV. REPORT FROM SANITARIAN
 - COVID-19 Update
 - ODH Food Survey
- V. REPORT FROM HEALTH COMMISSIONER
- VI. REPORT FROM ADMINISTRATOR/CITY MANAGER
 - Gardner Pool Operations
 - Local Health Districts
- VII. OLD BUSINESS
- VIII. NEW BUSINESS
 - Crisis Intervention Training for Lieutenants and Dispatchers
 - Talk Saves Lives Presentation
 - ASIST Training
 - Mental Health First Aid training for all Public Safety Officers
 - Body/In-car Cameras
- IX. ADJOURN

THE MINUTES OF THE MEETING OF THE BOARD OF HEALTH, CITY OF OAKWOOD,
STATE OF OHIO

The meeting was conducted on Tuesday, March 23, 2021 in the council chamber at the Oakwood City Building, 30 Park Avenue.

In attendance were:

Dr. David Denka, D.O., Chair
Dr. Bill Coyne, D.D.S., Member
Diane Scott, R.N., Member

Dr. Steve Enseleit, M.D., Health Commissioner
Norbert Klopsch, Administrator/City Manager
Paul Scaglione, R.S., Sanitarian

Also in attendance were Debra Edwards with the Oakwood Historical Society, City Attorney Rob Jacques, Public Safety Captain Kevin Pruszynski, and Personnel and Properties Director Jennifer Wilder. Attending via remote teleconference utilizing the Zoom.com platform were the following: Dr. Sallie Wilson, D.O., Vice Chair; Dr. Elizabeth Maimon, DVM, M.P.H., Member; and Mayor Bill Duncan, President.

Dr. Denka called the meeting to order at 5:30 p.m. and led a discussion on the following agenda items:

Minutes of Previous Meetings: Dr. Denka asked that the minutes of the January 26, 2021 meeting be reviewed. There being no requested edits, motion to approve by Dr. Coyne; second by Mrs. Scott. Upon viva voce vote, motion passed and the minutes were approved.

Report from Chair: No report.

Report from Sanitarian:

- Update on COVID-19: Mr. Scaglione gave a report on the COVID-19 cases in Oakwood from the beginning of the pandemic through March 18. There have been 726 positive cases, 19 hospitalizations and six deaths in Oakwood.
- Food Service Licenses: Mr. Scaglione reported that the state extended the deadline on annual food service licenses to July 1, but that all Oakwood businesses have already received them.

Report from Health Commissioner: No report.

Report from Board Administrator/City Manager: Mr. Klopsch reported on the following:

- Gardner Pool and Oakwood Dolphins: Current plans call for Gardner Pool to operate this year in the same manner as 2020, with limited users and the requirement to register in advance for time slots. The OCC staff will monitor Ohio Department of Health (ODH) directives/guidelines and may relax restrictions as circumstances warrant. The Oakwood Dolphins swim team also plans to operate this year, but with some health restrictions.
- Basketball Court Opening: The Department of Leisure Services will open the basketball courts at Shafor Park and Orchardly Park during the week of April 5. Most neighboring communities have either already opened their outside courts or will do so soon.
- City Operations through Pandemic: Personnel and Properties Director Jennifer Wilder commented on her role as our Human Resources Director during the pandemic, and the numerous actions taken to address personnel health and safety issues.

City Attorney Rob Jacques discussed his work over the past year in following and interpreting the litany of health and safety guidelines/orders/recommendations passed down from federal, state and local agencies.

Public Safety Captain Kevin Pruszynski spoke about safety department operations throughout the pandemic. In large part, these operations have already returned to normal. Captain Pruszynski also spoke about the duties and responsibilities of Dr. John Ewing, the Oakwood EMS Medical Advisor.

Old Business: None.

New Business:

- Oakwood Historical Society June Home Tours: Debra Edwards with the Oakwood Historical Society (OHS) shared that they are planning a single house tour on Saturday, June 19. She explained that the OHS is developing safety protocols to comply with state and local requirements. Mr. Scaglione asked Ms. Edwards to send him the protocols for review and comment.
- Crisis Intervention Training: Public Safety Captain Kevin Pruszynski discussed planning underway to have members of the Oakwood Public Safety Department obtain Crisis Intervention Training (CIT). Lieutenant Keith Benson will attend the 40-hour CIT training during the week of April 19. The other three crew lieutenants will complete this training throughout 2021. Dr. Wilson asked whether the City would consider contracting with outside mental health professionals as an additional resource. Captain Pruszynski stated that this could be considered. Mayor Duncan inquired about the quality of the CIT training and whether all members of the Oakwood Safety Department should receive it. Captain Pruszynski referenced positive feedback from people that recently attended the CIT Program offered through the Montgomery County Alcohol, Drug & Mental Health Services (ADAMHS) office. He said it would be ideal to have all officers CIT trained, but it would be logistically and financially challenging.
- Resolution No. 21-2 Adoption of Administrative Policies and Procedures: Dr. Denka introduced Resolution No. 21-2. Mr. Klopsch explained that this resolution is needed to confirm that city-approved administrative policies and procedures are also applicable to the Oakwood Health Department/Board of Health. This is necessary now that the Oakwood Health Department/Board of Health is subject to an annual audit separate from the City. Motion to approve by Dr. Coyne; second by Mrs. Scott. Upon viva voce vote, resolution passed.

There being no other business, at 6:23 p.m. Dr. Denka adjourned the meeting.

Attn: Jeffrey A. Cooper, Health Commissioner
117 South Main Street
Dayton, Ohio 45422-1280

Dear Commissioner Cooper:

This letter is provided in support of Public Health – Dayton & Montgomery County receiving \$471,438 COVID-19 Vaccine Equity Supplemental funding from the Ohio Department of Health. Public Health is and continues to be the lead on all COVID-19 response in Montgomery County. We understand that Public Health is ensuring safe and equitable distribution and administration of COVID-19 vaccines by expanding immunization infrastructure, engaging in strategic partnerships, and implementing mobile outreach to affected populations such as those who may be vaccine hesitant and those who are in racial and ethnic and other high-risk groups. Equity activities include residents of the city of Oakwood.

The funding provided will ensure that you have the means available to meet the public health needs of our community. We fully support Public Health – Dayton & Montgomery County in their efforts to respond to the COVID-19 pandemic. It is understood that the effective beginning date of this grant is 12/01/2020.

Sincerely,

PRESS RELEASE

The City of Oakwood
30 Park Avenue
Oakwood, Ohio 45419

Subject: Oakwood Public Safety Department Mental Health Training

Date: June 2, 2021

OAKWOOD, OHIO:

According to the National Institute of Mental Health, statistics show that approximately 20% (51.5 million) of U.S. adults experienced a mental health condition in 2019, and it is estimated that 10 percent of all law enforcement calls for service involve a person with a mental illness. In an effort to equip every officer with the necessary skills to safely and effectively do their job, the Oakwood Public Safety Department has implemented a series of trainings in 2021 focusing on mental health.

The first of these trainings, Talk Saves Lives, was recently presented by Dr. Sallie Wilson Luther, who is a member of the Oakwood Board of Health, and Leigh Ann Fulford. In this training, officers learned about the warning signs and risk factors of suicide, as well as how to communicate effectively with someone who is thinking about suicide.

Luther and Fulford are volunteer board members for the Ohio Chapter of the American Foundation for Suicide Prevention (AFSP) and brought the first Out of the Darkness Walk to Dayton in 2013. This walk, which has provided tremendous support to suicide loss survivors over the years, attracted more than 2,000 participants at its last in-person event at Oakwood's Mack Hummon Stadium in 2019. Because of the growth of the walk and logistics with parking, the decision was made to move this year's walk to Welcome Stadium on Sunday, October 17, 2021. Luther said, "The Oakwood community has been at the forefront of suicide prevention the last eight years. We could never have accomplished what we did without the help and support of Oakwood's City Council, Oakwood's Schools, and the Oakwood Safety Department. We are grateful for Oakwood's support of events and programs surrounding mental health and suicide, and we are happy to support officers and members of the community with suicide prevention programs funded by AFSP's Out of the Darkness Walk."

In addition to the Talk Saves Lives training, all sworn Safety Department personnel will complete a Mental Health First Aid (MHFA) training course for Public Safety Officers during 2021. The MHFA course is designed to provide officers with the ability to recognize symptoms of mental illness and substance abuse, effectively engage a person in crisis, and connect positively with the person in need. Oakwood officers will also receive de-escalation training that will provide officers with the essential tools and tactics needed to achieve the most desirable outcome when dealing with an individual in crisis.

Additionally, the Oakwood Public Safety Department will send all first-line supervisors to an intensive 40-hour Crisis Intervention Training certification course, and a select group of officers will attend a leading suicide intervention training program entitled Applied Suicide Intervention Skills Training (ASIST). Also, all public safety dispatchers will complete a crisis intervention companion training course providing them with the knowledge and skills necessary to identify and respond effectively to a caller in a mental health crisis.

Oakwood Public Safety Director Alan Hill stated, "The goal of conducting a series of trainings focused on mental health is to provide our officers with the necessary skills and resources that allow them to respond appropriately to and engage individuals suffering from a mental health condition. Increasing an officer's knowledge and understanding of mental illness will assist them in de-escalation, ensuring the best outcomes in challenging situations." All Oakwood sworn officers are trained and certified as police officers, firefighters, and paramedics/EMTs.

Also, all public safety dispatchers will complete a crisis intervention companion training course providing them with the knowl-

edge and skills to provide safe and responsible care to individuals with mental health concerns. "The go-to training for our officers is to provide the necessary skill set for them to recognize and engage individuals with mental health concerns," Luther said. "Increasing our officers' knowledge and understanding will ensure that we are best prepared for the challenging situations that come with public safety. Our officers are certified as crisis intervention and paramedics."

OR 6/9

Officers work to spot mental health issues

Oakwood personnel also to receive training in de-escalation tactics.

By Nick Blizard
Staff Writer

OAKWOOD — The Oakwood Safety Department has started a series of training sessions aimed at improving how officers deal with individuals with mental health conditions.

The programs will give Oakwood's sworn safety personnel — all certified as police officers, firefighters and paramedics/EMTs — up to about 70 hours of training to help safely and effectively do their job, city Safety Director Alan Hill said.

"Increasing an officer's knowledge and understanding of mental illness will assist them in de-escalation, ensuring the best outcomes in challenging situations," according to Hill.

Nearly one in five U.S. adults, or 51.5 million, lived with a mental illness in 2019, according to the National Institute of Mental Health.

Mental illness-related needs

are growing among all adult age groups, Public Health-Dayton & Montgomery County records show. Some of the most common mental health diagnoses among people ages 16 to 24 increased from 2009 to 2014, according to PHDMC.

Three of them — attention deficit disorder, anxiety disorders and Schizophrenia — jumped by more than 20%.

The number of mental health cases Oakwood handles in a given time period is difficult to quantify, Hill said in an email.

"I could have an officer talking with someone right now," he said. "That person could be exhibiting signs of suffering from a mental condition.

"But as long as they show the ability to care for themselves, not showing signs of wanting to harm themselves or others, and do not present in a manic state, the officer's initial observations may never be documented in an official report," Hill added. "Therefore, no real way for me to tell you frequency during service calls."

Oakwood continued on B9

Oakwood

continued from B1

Oakwood's training will include a 40-hour crisis intervention training certification course for all first-line supervisors, and all sworn safety department personnel will complete mental health

first aid, according to a news release from the city.

A session on suicide intervention was led by Dr. Sallie Wilson Luther, a member of the Oakwood Board of Health, and Leigh Ann Fulford, a certified trainer.

Luther said the "Oakwood community has been at the forefront of suicide preven-

tion" the past several years.

Officers will also receive de-escalation training that will provide "tools and tactics to achieve the most desirable outcome when dealing with an individual in crisis," according to the city.

MEMORANDUM

ROBERT F. JACQUES

To: Norbert S. Klopsch

Date: July 12, 2021

RE: *Impact of Sub.H.B. 110 on the Oakwood Board of Health*

Sub.H.B. 110, which is the biennial budget bill just adopted by the 134th General Assembly, was signed into law by Governor DeWine on June 30, 2021. As enacted, key provisions affecting the Oakwood Board of Health include the following amendments to Ohio Revised Code Sec. 3709.012:

1. **"Efficiency and effectiveness" study required.** Cities with a population of less than 50,000 are required to complete a study of the "efficiency and effectiveness" of merging with the general county health district.
 - a. Criteria for the study will be developed by the Ohio Director of Health and the State Auditor, which "may include accreditation standards."
 - b. The Ohio Director of Health is also responsible for "oversee(ing) any efficiency and effectiveness study conducted."
2. **Mandatory merger if study so indicates.** Merger with the county health district is required by law if the study indicates that doing so would be "efficient and effective."
3. **Timing.** Timing for completing the study, and for completing a merger if so indicated, is linked to "the official announcement of the result of a federal decennial census taken in a particular census year, including the 2020 census." (Note that unlike previous versions of Sub. H.B. 110, this language is not limited to the 2020 census only. In other words, the study and possible merger are not a one-time endeavor; they must be repeated after every decennial census.)
 - a. The study must be completed within 18 months after that official announcement.
 - b. If merger is indicated, the merger must be completed within 30 months after that official announcement.
4. **Exceptions.** For cities having a population of less than 50,000, there are only two exceptions to the study and merger requirements:
 - a. If a city's health district is already accredited, and accreditation is maintained, the study and potential merger are not required; or
 - b. If a city's health district was already in the process of applying for accreditation as of the effective date of Sub. H.B. 110 (September 30, 2021), and accreditation is received by December 31, 2025 and maintained thereafter, the study and potential merger are not required.

MEMORANDUM

To: Norbert S. Klopsch

From: Robert F. Jacques

Date: June 18, 2021

RE: *Functional changes to the Oakwood Board of Health if the State of Ohio eliminates local health districts*

(2021 biennial budget bill, Sub. H.B. 110, 134th General Assembly)

Provisions have been included in the state's pending biennial budget bill that will eliminate small local health districts, forcing them to merge with larger county health districts. The bill is currently in conference committee, but is anticipated to pass in the next two weeks.

Oakwood's Board of Health is created by the City Charter, which means the bill would not eliminate the board itself. Instead, Oakwood would no longer constitute its own health district, and the bill would strip away "all the power and authority conferred upon city boards of health by State law and such other duties as may be imposed upon it by the State sanitary code," leaving a body whose duties are imposed by city ordinances only. (See Charter, Sec. 7.03.) City ordinances would need to be adjusted to ensure that they are not inconsistent with state law pertaining to health districts.

Under this arrangement, the following table lists functions currently performed by the Board that would cease, as well as functions that may continue or begin. (Note that Public Health Dayton-Montgomery County will take over responsibility for functions that cease at the local level. Also, PHDMC's fees for inspections and licenses will be somewhat higher than what Oakwood has historically charged, but that is beyond the city's control.)

| Functions that must cease | Functions that may continue or begin |
|---|--|
| Providing for prompt diagnosis and control of communicable diseases | Advising Council on legislation that may impact public health |
| Studying and recording the prevalence of disease | Advising city staff on policies and facility rules that may impact public health |
| State-mandated inspections (restaurants/food service, pools, school facilities, salons, barber shops, tattoo/piercing, jails, etc.) | Advising the Oakwood City School District on general health matters not addressed by the county health district |
| Issuing licenses and approvals (restaurants/food service, pools, school facilities, salons, barber shops, tattoo/piercing, jails, etc.) | Serving as a liaison between the county health district and city staff, as well as other Oakwood stakeholders (i.e., schools, library) |

| | |
|---|--|
| Quarantining, containment, and closure orders | Advising city staff in public nuisance abatement matters |
| All vital statistics functions | Recommending and/or conducting public education events, community health-related activities, etc. |
| State-mandated reporting, audits, etc. | Collaboration with Safety Dept medical director to ensure best EMS practices |
| | Recommending and/or conducting health-related training for city staff and other Oakwood stakeholders (<i>i.e.</i> , schools, library) |

Subject: Update: Cases-per-100,000

This week's numbers were just released:

Montgomery County: 41.4 (up from 21.1)
Statewide Average: 27.0 (up from 19.2)

We saw a spike this week, likely due to the Delta variant...which is reported to be more transmissible but less dangerous.

Montgomery County's number doubled from last week, but we are still at a low case count. Across the entire county, there have been 220 new cases over the past 2 weeks out of a population of 531,000.

MEMORANDUM

TO: NORBERT KLOPSCH
FROM: CAROL COLLINS
SUBJECT: CHEMICAL USE ON CITY PROPERTY
DATE: JULY 15, 2021

Included in this report is information about lawn care within the city limits in our parks, boulevards, athletic fields and other city properties. This is twofold – what is done by 1.) our contractor, Leisure Lawn and 2.) the city for in-house treatment with herbicides.

The city takes bids on lawn care every three years. Current contract with Leisure Lawn goes through 2022. Last bids were taken in 2020. Specifications were sent out to five local contractors which included companies that specialize in organic services. Out of those five companies, two bids were received, one from Leisure Lawn and the other from Liapis. Quotes ranged from \$13,979.30 for each of the three years to \$21,350 plus a 5% increase each year. Over a \$7000+ difference between the two. In the past, the city did use a combination of organic and pesticide materials but the cost is now prohibitive with pure organic applications. Cost would be two to three times the amount of what we are currently spending. The city now uses Integrated Pest Management (IPM) practices, which we have used for the past twenty + years. IPM is an ecosystem-based strategy that focuses on long-term prevention of pests or their damage through a combination of techniques such as biological control, habitat manipulation, modifications of cultural practices, and use of resistant varieties. Pest control materials are selected and applied in a manner that minimizes risks to human health, beneficial and nontarget organisms, and the environment. The city's practices include proper mowing heights, use of sharp blades on mowers which helps reduce the amount of chemicals used in all of the public areas.

Leisure Lawn does five applications each year. They are as follows:

Round One – Fertilizer/Pre-emergent/spot spraying for weeds. Fertilizer is a dry application of fertilizer and pre-emergent. Done on April 6.

Round Two – Fertilizer (25-0-3) with a broadleaf weed control which is spot sprayed. This was done on July 2 on boulevards only.

Round Three – Same as 2 which will be done in August/September

Round Four – Same as 2 - October

Round Five – Winterizing Fertilizer only – November

Page 2

Chemical Use on City Properties

July 15, 2021

All applications by Leisure Lawn are made after a date is given to the City Horticulturist. Signage prior to application is placed in the parks in multiple locations 48 hours in advance of application. Dry Fertilizer is applied all over the park but liquid herbicide is only spot sprayed as directed by the Horticulturist. Boulevards and other areas are the same but without the 48-hour notification. All lawn care companies have to record usage of all chemicals as well as have the MSDS sheets in their possession at all times of treatment and must be recorded as to what is used, time, weather conditions, etc.

The city is required by law to record any herbicide application that is made within the city. It is applied by trained Servicemen working under Brian Caldwell's pesticide license and direction. Four city employees have been given thorough training by Brian. Brian is licensed as a commercial applicator current through continuing education every three years and an annual license fee plus continuing education fees.

Each city applicator is responsible for filling out a pesticide application record which goes in a binder. It is a history of what was applied, percentage of chemical, how much used, temperature, wind direction, wind speed, conditions, start to finish time and location. For the most part, the city only spot sprays areas to eliminate weeds in flower beds, tree rings, curb lines, alleys and parking areas. The State Pesticide/Fertilizer Inspector from the Ohio Department of Agriculture, Division of Plant Industry, Pesticide and Fertilizer Section does periodically come to the city to inspect all records in the pesticide binder. MSDS sheets are always in the city trucks when pesticides are used just in case someone would ask. If records are not kept correctly, Brian's license is in jeopardy and may be revoked. This has never occurred in the history of Oakwood to my knowledge as this has been a very sensitive subject/topic over the years.

Lawn care services, the city as well as others that may use herbicides are governed by the Ohio Department of Agriculture and the U.S. Environmental Protection Agency and NOT the IARC (International Agency for Research on Cancer). The Divisions' Pesticide regulations program regulates the use and distribution of pesticides in Ohio. This section issues licenses to pesticide applicators and serves as registrar for pesticide companies. Through routine inspections, staff members enforce the state laws and rules that govern these activities. In addition to these responsibilities, staff members conduct inspections for the USEPA in accordance with a cooperative agreement to ensure compliance with the Federal Insecticide, Fungicide and Rodenticides.

Page 3

Chemical Use on City Properties

July 15, 2021

The city is very conscious about herbicide use in the community. In many areas around the city we manually remove broadleaf weeds however due to all the areas we have to cover, spraying may be necessary. All in all, with the direction given to this department, we are complying with Federal, State and local laws. To our benefit the amount of herbicide use in our parks is minimal by spot spraying. With Leisure Lawn, it is four times a year.

Also included in this report are responses to the Citizens for a Better Oakwood. In the twenty years Brian has been with the city, he recalls only two calls about chemical use in the parks. In the 47 years I have been here, we explored strictly organic applications but also found out that most organic companies do use some chemicals to curtail weeds.

I have included the specification sheets in this report as well as what is used to record the city's use of pesticides, the MSDS Sheets for Oakwood and Leisure Lawn and a sheet from the EPA.

Certainly, if you have any questions, please let me know. Regarding specific information about chemical usage, Brian Caldwell would be the one to give specific information as he deals with Leisure Lawn as well as the herbicides the city currently uses. I hope this report answers any questions you might have as well as addresses the comments from the Citizens for a Better Oakwood.

COMMENT

How can we change this use of organic company city just sprayed yesterday

True-Green I believe. Tru-Green uses the weed killer Glyphosate (RoundUp), which is identified by the IARC (The International Agency for Research on Cancer) as probably carcinogenic. Also uses Tri-Power and Dylox

Has anyone asked the city

Poison signs were all over Oakwood. Organic signs are different and not needed because they don't have those chemicals and are not required to place those warning signs

Concerns at lack of insects in his backyard

Many ways city can be greener and better stewards adding this to the list

CITY'S RESPONSE

City of Oakwood sprayed the boulevards only on July 2, 2021. The application included fertilizer and spot spraying Tru-Power 3 and no parks were touched as of this writing for application #2.

The company the city uses is Leisure Lawn, a subsidiary of Tru-Green. The city has a 3-year contract which expires at the end of 2022. Leisure Lawn is not contracted to use glyphosate or Dylox on any city property. Furthermore, we are governed by the Ohio Department of Agriculture and the U.S. EPA. As of January 30, 2020, the U.S. EPA has concluded its regulatory review of glyphosate. After a thorough review of the best available science, as required under the Federal Insecticide, Fungicide and Rodenticide Act, the EPA has concluded that there are no risks of concerns to human health when glyphosate is used according to the label and that it is not a carcinogen.

No one to our knowledge has asked the city about our policy or use of chemical on city property.

The signs were on the boulevards only, not in the parks. Signage is required by law whether organic or not. Some organic companies also use herbicides and must use signage.

The city does not use insecticides unless absolutely necessary, i.e.- bagworms, aphids- because the host may die from non-treatment. CrossChek is the insecticide that is currently used.

Not sure what all Sam is talking about.

CITY'S RESPONSE

Where do they spray? The parks where kids play and all the boulevards

City uses Integrated Pest Management practices. (IPM) which reduces the amount of chemicals used. Additionally, mowers have sharp blades, set at 3 ½ inch, fertilizer is used to build strong healthy turf, only spot sprays weed and broadleaf to reduce chemicals used, manual remove and using practical method.

Roots & Shoots Programs

Roots and shoots-school program for educators and youth. Program encourages youth to:

- Get engaged
- Observe
- Take action
- Celebrate

Love to know what company the city buys all of these items from - follow the money. Someone has financial interests in keeping things the same way they have always been done

The city takes bids on lawn care every three years and encourages contractors to submit organic treatment as well. Bids are public documents and sent to a number of contractors to solicit bids. In the bid spec it states the City of Oakwood's preference would be organic applications but all quotes are reviewed according to price, product and service provided. All contractors must be licensed, show proof and have liability insurance.

Asking Melissa if she would be prepared to head up a small group who would approach city, gather a petition—early August. Member of Beyond Pesticides

Beyond Pesticides is a 501(c)3 non-profit organization headquartered in Washington D.C.-started in 1981. Beyond Pesticides believes that people must have a voice in decisions that affect them directly. They believe decisions should not be made for us by chemical companies or by decision makers who either do not have all the facts or refuse to consider them.

Subject: Jessup Project.

Norb,

As promised I am providing you with a weekly update in regard to the Jessup project. I met with Thom Shrader (Manfreda Contractor) yesterday morning to go over the timeline for opening the sidewalk and overall completion of the exterior of the building. As you can see, the stone columns have been started and the exterior façade is progressing nicely. However, the stone that was shipped from Canada arrived in two different pallets and one of the pallets was severely damaged upon delivery. The stone mason has verified that the replacement stone will be manufactured on July 20th and hopes to take delivery by the end of next week. Due to the damaged stone, the EIFS cannot be applied to the building until the stone work has been completed. The EIFS should only take one week to complete.

The cladding on the façade and new roof will be completed on July 23.

Thom anticipates all exterior work (and fence removed) to be completed by August 6th with the first day of school starting on August 25th.

I know how important it is to have the sidewalk reopened before the start of school. I will continue to communicate with Thom daily on the status of the project.

Thank you.

Bonjour Norbert!

I hope you and your family are doing well. What a crazy time this has been!

I received the following e-mail chain that I am forwarding to you from Francine Unterberg, President of Outremont Sister City Association. In this letter, she is asking for any relevant information on a technical study of climate change and greenhouse gasses on the quality of life and longevity in our city. I am not sure that such a study has been done here in Oakwood (or in Dayton), but thought that you, as City Manager and an experienced engineer, would be the best person to contact to find out if, indeed, we have any statistics or data that we could share with our two sister cities for their comparative value. The person who is requesting that Francine contact us is the Outremont Liaison for the Office of Sustainable Projects and Development, Tania van Zuiden.

I am copying both Francine Unterberg and Tania van Zuiden on this e-mail so that you can reply more easily to this chain. Thank you so much, Norbert, for taking the time out of your busy schedule to give us some answers.

Merci mille fois!

Objet : Question sur nos villes voisines, Oakwood et le Vésinet

Bonjour Madame Unterberg,

Je prends le temps premièrement de me présenter à nouveau, même si on s'est déjà vues à quelques reprises. Je suis nouvellement agente de liaison au Bureau de projets et développement durable et je travaille conjointement avec Maude Heroux, Fanny Charrette-Gagnon et Zineb Alaoui.

Si je vous contacte aujourd'hui, c'est qu'on aimerait solliciter vos contacts avec nos villes jumelles, Oakwood et le Vésinet.

L'arrondissement d'Outremont effectue présentement un bilan des gaz à effet de serre (GES) selon une approche cycle de vie et nous aimerions donc avoir des comparatifs. Nous nous sommes donc dits qu'il serait intéressant de voir si nos villes voisines avaient déjà entrepris une telle démarche et si oui, si nous pouvions avoir accès aux données recueillies.

Serait-ce donc possible pour vous de me mettre en contact avec des personnes de ces deux villes?

N'hésitez pas si vous avez des questions de suivi ou si vous désirez en discuter davantage.

Merci beaucoup à l'avance pour votre aide.

Je vous souhaite une belle journée,

--

Norb,

I'm copying in Matt Lindsay to respond. I'm sure we have some if not all of the information they may be seeking. If they have started assembling a table, perhaps they would share it with you and Matt so that we can populate it with local/regional data.

Have a great evening!

Brian

Hi Brian,

Please see below.

Does your staff have anything that would help our sister city friends?

Bonjour Norbert!

I hope you and your family are doing well. What a crazy time this has been!

I received the following e-mail chain that I am forwarding to you from Francine Unterberg, President of Outremont Sister City Association. In this letter, she is asking for any relevant information on a technical study of climate change and greenhouse gasses on the quality of life and longevity in our city. I am not sure that such a study has been done here in Oakwood (or in Dayton), but thought that you, as City Manager and an experienced engineer, would be the best person to contact to find out if, indeed, we have any statistics or data that we could share with our two sister cities for their comparative value. The person who is requesting that Francine contact us is the Outremont Liaison for the Office of Sustainable Projects and Development, Tania van Zuiden.

I am copying both Francine Unterberg and Tania van Zuiden on this e-mail so that you can reply more easily to this chain. Thank you so much, Norbert, for taking the time out of your busy schedule to give us some answers.

Merci mille fois!

Kirsten Halling

Hi Kirsten,

I hope you and your family are well and are all vaccinated ! I hope that all our friends are well too and that we will be able to reconnect once we overcome this pandemic.
I received the following e-mail from the Outremont administration. I am sur someone in the City of Oakwood is working on these very actual problematic. Do you know the person to contact ?
I have akready received an answer from Le Vésinet.

I hope you and your family will enjoy the summer.

Francine Unterberg

Healy Jackson contacted me today to discuss this program... and volunteered to attend. Given Healy's seat on our Planning Commission, and leadership role in our Oakwood Inclusion Coalition, I think she is an excellent candidate. I spoke with Steve about it, as our council representative on the PC, and he concurs.

I will put Healy in touch with Brian Martin and Carlton Eley at MVRPC to get the ball rolling.

Fyi below from MVRPC Executive Director Brian Martin. I pulled the paragraph below from the United States EPA website... <https://www.epa.gov/oh/ej-academy>

When and where will sessions be held?

Sessions are tentatively scheduled for two consecutive days each month between September 2021 and May 2022, generally from Friday afternoon through Saturday. Sessions will be held in the Dayton, Ohio area. To graduate, participants must attend eight of nine sessions and complete additional programmatic requirements, including a portfolio and all homework. All COVID-19 safety precautions will be in place, and in-person meeting will be dependent on local conditions.

Is anyone interested in attending this? It's a significant time commitment that I am not sure I would want to ask a staff member to take on.

If none of you are interested, might you know of a citizen that would consider it?

If not, I could contact the members of our OIC Leadership Team to see if one of them might be interested, or might know someone interested.

Subject: Seeking Students for the Miami Valley Environmental Justice Academy

Hi Norb,

I hope you're doing well! I'm writing to ask you to consider sending a staff member or resident to the upcoming Miami Valley Environmental Justice Academy. <https://www.mvrpc.org/news/general-news/environmental-justice-academy-registration-opens>

We have 5 seats available and I thought of you and your community. Please read the attached web link and then let me know as soon as you can the name and contact information of the interested participant. The current deadline is Monday, July 19 and an email from you will hold open the seat. The selected person would then fill out the application and return it back to us before July 22 for consideration.

The cost for attending this 9 month course which will be held at the Fitz Center on South Main Street in Dayton is \$250. We are soliciting donors for funding that could bring the cost to participants down considerably.

I believe this opportunity is timely for our region! The coursework will increase your staff's knowledge of Environmental Justice and the National Environmental Policy Act (NEPA) which could then lead to strengthened policies within the city to ultimately attract businesses and residents.

Thank you for your consideration. If you have any questions, please contact Carlton Eley at 937-531-6552 or at his email above.
