Subject: FW: Seeking Students for the Miami Valley Environmental Justice Academy

Fyi below from MVRPC Executive Director Brian Martin. I pulled the paragraph below from the United States EPA website... <https://www.epa.gov/oh/ej-academy>

When and where will sessions be held?

Sessions are tentatively scheduled for two consecutive days each month between September 2021 and May 2022, generally from Friday afternoon through Saturday. Sessions will be held in the Dayton, Ohio area. To graduate, participants must attend eight of nine sessions and complete additional programmatic requirements, including a portfolio and all homework. All COVID-19 safety precautions will be in place, and in-person meeting will be dependent on local conditions.

Is anyone interested in attending this? It's a significant time commitment that I am not sure I would want to ask a staff member to take on.

If none of you are interested, might you know of a citizen that would consider it?

If not, I could contact the members of our OIC Leadership Team to see if one of them might be interested, or might know someone interested.

Subject: Seeking Students for the Miami Valley Environmental Justice Academy

Hi Norb,

I hope you're doing well! I'm writing to ask you to consider sending a staff member or resident to the upcoming Miami Valley Environmental Justice Academy. <https://www.mvrpc.org/news/general-news/environmental-justice-academy-registration-opens>

We have 5 seats available and I thought of you and your community. Please read the attached web link and then let me know as soon as you can the name and contact information of the interested participant. The current deadline is Monday, July 19 and an email from you will hold open the seat. The selected person would then fill out the application and return it back to us before July 22 for consideration.

The cost for attending this 9 month course which will be held at the Fitz Center on South Main Street in Dayton is \$250. We are soliciting donors for funding that could bring the cost to participants down considerably.

I believe this opportunity is timely for our region! The coursework will increase your staff's knowledge of Environmental Justice and the National Environmental Policy Act (NEPA) which could then lead to strengthened policies within the city to ultimately attract businesses and residents.

Thank you for your consideration. If you have any questions, please contact Carlton Eley at 937-531-6552 or at his email above.

Subject: RE: Question sur nos villes voisines, Oakwood et le Vésinet

Hi Kirsten, Francine and Tania!

All is well... and I hope the same for the three of you.

We do not have any reports specifically for Oakwood, but I suspect that there are some for the Dayton region.

I sent an email to my friend Brian Martin, executive director of the Miami Valley Regional Planning Commission (MVRPC). He will know if reports exist.

Here is some information about MVRPC from their website... <https://www.mvrpc.org>

The Miami Valley Regional Planning Commission (MVRPC) has served the planning needs of the Miami Valley in Southwest Ohio since 1964, serving the Region for more than fifty years. MVRPC serves as the MPO (Metropolitan Planning Organization) for Montgomery, Miami, Greene Counties, plus a portion of Northern Warren County. MVRPC also provides Regional and Environmental planning support for members in seven counties. MVRPC policies guide agency interactions in many areas including the implementation of project funding, public participation in the planning process, public records retention and access, and non-discrimination.

Founded upon the principles of regional collaboration, cooperation, and consensus building, the MVRPC serves as the common ground where area partners come together to work toward a shared vision across the Region. Together, public and private partners develop and implement innovative and sustainable strategies that enhance the Region's quality of life and economic vitality. The strategic plan guides the implementation of this vision.

I will let you know what I hear back from Brian.

Take care and all the best, Norbert

Bonjour Norbert!

I hope you and your family are doing well. What a crazy time this has been!

I received the following e-mail chain that I am forwarding to you from Francine Unterberg, President of Outremont Sister City Association. In this letter, she is asking for any relevant information on a technical study of climate change and greenhouse gasses on the quality of life and longevity in our city. I am not sure that such a study has been done here in Oakwood (or in Dayton), but thought that you, as City Manager and an experienced engineer, would be the best person to contact to find out if, indeed, we have any statistics or data that we could share with our two sister cities for their comparative value. The person who is requesting that Francine contact us is the Outremont Liaison for the Office of Sustainable Projects and Development, Tania van Zuiden.

I am copying both Francine Unterberg and Tania van Zuiden on this e-mail so that you can reply more easily to this chain. Thank you so much, Norbert, for taking the time out of your busy schedule to give us some answers.

Merci mille fois!

Objet : Question sur nos villes voisines, Oakwood et le Vésinet

Bonjour Madame Unterberg,

Je prends le temps premièrement de me présenter à nouveau, même si on s'est déjà vues à quelques reprises. Je suis nouvellement agente de liaison au Bureau de projets et développement durable et je travaille conjointement avec Maude Heroux, Fanny Charrette-Gagnon et Zineb Alaoui.

Si je vous contacte aujourd'hui, c'est qu'on aimerait solliciter vos contacts avec nos villes jumelles, Oakwood et le Vésinet.

L'arrondissement d'Outremont effectue présentement un bilan des gaz à effet de serre (GES) selon une approche cycle de vie et nous aimerions donc avoir des comparatifs. Nous nous sommes donc dits qu'il serait intéressant de voir si nos villes voisines avaient déjà entrepris une telle démarche et si oui, si nous pouvions avoir accès aux données recueillies.

Serait-ce donc possible pour vous de me mettre en contact avec des personnes de ces deux villes?

N'hésitez pas si vous avez des questions de suivi ou si vous désirez en discuter davantage.

Merci beaucoup à l'avance pour votre aide.

Je vous souhaite une belle journée,

--

Carlton,

Longtime Oakwood resident Healy Jackson contacted me today to discuss this program... and volunteered to attend. Given Healy's seat on our Oakwood Planning Commission (2010 to present), and her leadership role in our Oakwood Inclusion Coalition, I think she is an excellent candidate. I spoke with Vice Mayor Steve Byington about it, as our city council representative on the Planning Commission and our representative to MVRPC, and he concurs.

I am copying Healy on this email so the two of you can discuss details.

Thanks for informing us about this program.

Subject: Seeking Students for the Miami Valley Environmental Justice Academy

Hi Norb,

I hope you're doing well! I'm writing to ask you to consider sending a staff member or resident to the upcoming Miami Valley Environmental Justice Academy. <https://www.mvrpc.org/news/general-news/environmental-justice-academy-registration-opens>

We have 5 seats available and I thought of you and your community. Please read the attached web link and then let me know as soon as you can the name and contact information of the interested participant. The current deadline is Monday, July 19 and an email from you will hold open the seat. The selected person would then fill out the application and return it back to us before July 22 for consideration.

The cost for attending this 9 month course which will be held at the Fitz Center on South Main Street in Dayton is \$250. We are soliciting donors for funding that could bring the cost to participants down considerably.

I believe this opportunity is timely for our region! The coursework will increase your staff's knowledge of Environmental Justice and the National Environmental Policy Act (NEPA) which could then lead to strengthened policies within the city to ultimately attract businesses and residents.

Thank you for your consideration. If you have any questions, please contact Carlton Eley at 937-531-6552 or at his email above.

Subject: Vegetation.

Norb,

As instructed I drove the streets that will be paved this summer and noted the following streets for vegetation overhanging the road way:

Patterson Road- 5%- Overall, Patterson looked to be in good shape. There were a few branches which were overhanging the curb and Tom and his crew were out trimming when I drove by.

Schenck Avenue- 5-10%.

Runnymede Lane- Special attention/trimming should be focused on the corner of Runnymede Lane/Runnymede Road.

Ridgewood Avenue- 5%.

Runnymede Road- 15-25% Obviously, this is the most wooded area and I noted vegetation overhanging the roadway in multiple locations.

Sweetwood Lane- 1-3%.

I hope this helps and is what you are looking for. If there is anything I can do to help with this years repaving project please let me know.

Thank you.

Subject: Letter of Recommendation

To Whom it May Concern,

I strongly recommend Healy Jackson for participation in the Environmental Justice Academy program offered through MVRPC. Healy has served the Oakwood community in numerous ways over the 30 plus years that she and her husband Tom have lived in and raised their family in our city. Appointed by Oakwood City Council, Healy has been an active member of our five person Planning Commission since 2010. The Planning Commission oversees land use matters throughout Oakwood. Over the past 11 years, Healy has consistently and diligently performed the duties of a commission member paying close attention to every detail and demonstrating sound judgement in rendering her vote on each and every case.

In early 2020, our city began the journey of establishing the Oakwood Inclusion Coalition (OIC). The mission of the OIC is to study, promote, and celebrate an inclusive, equitable, diverse, and welcoming environment and community for everyone who lives, works, visits, or passes through Oakwood. Healy was actively involved in creating the framework for this citizen-driven organization and serves as the chair of our membership development committee. Healy loves the Oakwood community and joins many citizens in working tirelessly to continuously improve our city. She is an excellent candidate for the Environmental Justice Academy program.

Healy,

Attached is a draft of my letter. Please let me know if you have any edits.

I think one letter from a city official is enough and think Kristi is a good person to write the other letter... or maybe Kyle. It does not need to be long.

Inserted below is a suggested response to that question.

Subject: Environmental Justice Academy Application Requirements

Dear Norb,

My application to the Environmental Justice Academy requires two letters of recommendation. As you know, the deadline to apply is this Monday. I know it would be best to share my answers to the five essay prompts the application requires before I ask for letters of recommendation, but I haven't come up with the answers yet. I'm assuming you are willing to write a letter. Should I ask Kristi, or do you think I could ask Steve? (Could you draft one for Steve?) (After touring the library construction site yesterday, I feel guilty asking Kristi to do any extra work.)

I will write my essays on Saturday.

Here are the application directions for letters of recommendation:

Two Letters of Recommendation: 1) One letter from a person within the community you would represent as an EJ Academy Fellow, and 2) One letter from a person or organization familiar with your work in the community.

Both the application and letters of recommendation should be submitted at the same time. The letters of recommendations can be in any document format (Word, PDF, images, etc). If you have questions, please contact [R5 EJAcademy@epa.gov](mailto:R5_EJAcademy@epa.gov).

Do you have any thoughts to share about how to answer this essay prompt?

1. What are the most critical environmental challenges facing your community and what do you believe can be done to resolve these challenges? Note: Environmental challenges may include “the natural environment” or “the built environment”. Oakwood is a landlocked and nearly fully developed city with very limited opportunity for new land uses. As such, the city is not faced with challenges and decisions traditionally associated with developing communities. Our challenges revolve around sustaining our environment, both natural and built. As a small suburb of 9,200 residents living in just 2.2 square miles, we enjoy a community environment that requires attention and care from all those who live in and pass through the city. That said, our citizens clearly recognize our role in maintaining and improving our Dayton region and critical importance of all local governments working together for the common good. I believe that the maintenance and improvement of our aging built infrastructure is currently our greatest challenge.

This experience is going to be an adventure.

Norb,

We started clearing on the OUTSIDE of our chain link fence at 210 Shafor today to accommodate the drill rig for the soil borings. I met with CBC again last night and they indicated they had an opening for next Thursday, July 22nd for the borings. We have our PW staff clearing trees and brush for the drill rig and project. It should not be that noticeable to the public because there is still some landscaping adjacent to Shafor. However, there will be a more noticeable difference in the landscaping as the project progresses.
