Hi Kirsten, Francine and Tania!

All is well... and I hope the same for the three of you.

We do not have any reports specifically for Oakwood, but I suspect that there are some for the Dayton region.

I sent an email to my friend Brian Martin, executive director of the Miami Valley Regional Planning Commission (MVRPC). He will know if reports exist.

Here is some information about MVRPC from their website... <https://www.mvrpc.org>

The Miami Valley Regional Planning Commission (MVRPC) has served the planning needs of the Miami Valley in Southwest Ohio since 1964, serving the Region for more than fifty years. MVRPC serves as the MPO (Metropolitan Planning Organization) for Montgomery, Miami, Greene Counties, plus a portion of Northern Warren County. MVRPC also provides Regional and Environmental planning support for members in seven counties. MVRPC policies guide agency interactions in many areas including the implementation of project funding, public participation in the planning process, public records retention and access, and non-discrimination.

Founded upon the principles of regional collaboration, cooperation, and consensus building, the MVRPC serves as the common ground where area partners come together to work toward a shared

vision across the Region. Together, public and private partners develop and implement innovative and sustainable strategies that enhance the Region's quality of life and economic vitality. The strategic plan guides the implementation of this vision.

I will let you know what I hear back from Brian.

Take care and all the best, Norbert

Bonjour Norbert!

I hope you and your family are doing well. What a crazy time this has been!

I received the following e-mail chain that I am forwarding to you from Francine Unterberg, President of Outremont Sister City Association. In this letter, she is asking for any relevant information on a technical study of climate change and greenhouse gasses on the quality of life and longevity in our city. I am not sure that such a study has been done here in Oakwood (or in Dayton), but thought that you, as City Manager and an experienced engineer, would be the best person to contact to find out if, indeed, we have any statistics or data that we could share with our two sister cities for their comparative value. The person who is requesting that Francine contact us is the Outremont Liaison for the Office of Sustainable Projects and Development, Tania van Zuiden.

I am copying both Francine Unterberg and Tania van Zuiden on this e-mail so that you can reply more easily to this chain. Thank you so much, Norbert, for taking the time out of your busy schedule to give us some answers.

Merci mille fois!

Hi Kirsten,

I hope you and your family are well and are all vaccinated ! I hope that all our friends are well too and that we will be able to reconnect once we overcome this pandemic.

I received the following e-mail from the Outremont administration. I am sur someone in the City of Oakwood is working on these very actual problematic. Do you know the person to contact ?

I have akready received an answer from Le Vésinet.

I hope you and your family will enjoy the summer.

Objet : Question sur nos villes voisines, Oakwood et le Vésinet

Bonjour Madame Unterberg,

Je prends le temps premièrement de me présenter à nouveau, même si on s'est déjà vues à quelques reprises. Je suis nouvellement agente de liaison au Bureau de projets et développement durable et je travaille conjointement avec Maude Heroux, Fanny Charrette-Gagnon et Zineb Alaoui.

Si je vous contacte aujourd'hui, c'est qu'on aimerait solliciter vos contacts avec nos villes jumelles, Oakwood et le Vésinet.

L'arrondissement d'Outremont effectue présentement un bilan des gaz à effet de serre (GES) selon une approche cycle de vie et nous aimerions donc avoir des comparatifs. Nous nous sommes donc dits qu'il serait intéressant de voir si nos villes voisines avaient déjà entrepris une telle démarche et si oui, si nous pouvions avoir accès aux données recueillies.

Serait-ce donc possible pour vous de me mettre en contact avec des personnes de ces deux villes?

N'hésitez pas si vous avez des questions de suivi ou si vous désirez en discuter davantage.

Merci beaucoup à l'avance pour votre aide.

Je vous souhaite une belle journée,

--

Subject: Status update: 210 retaining wall

I worked the phone this afternoon and eventually reached the project manager who will be involved with our project. I learned that the principal who sent the proposal (Brent Ford) has been traveling all this week and part of last week, which is why his voicemail is full and he has not been responding to Doug.

The project manager I spoke with is Max Miller, who works out of Keller's Seven Hills/Cleveland office. He is going to get in contact with Brent Ford to confirm pricing terms and promised to call me back...today if possible, but likely on Monday.

Good afternoon, Kirsten:

I hope you, Peter and the whole family are well. I am writing to provide you with some links to reports regarding Climate Change Impacts in Dayton or the metro area that your contacts in Oakwood's sister city MAY find useful. Most of these documents were developed through a partnership the City had with the University of Michigan and were produced right around 2013.

[Dayton Climate Impacts Executive Summary.pdf \(umich.edu\)](#)

[Climate Change Adaptation in Dayton OH.pdf \(umich.edu\)](#)

[Strategy for a Sustainable Dayton \(daytonohio.gov\)](#)

Plus the attached Storm Water Vulnerability Assessment (for which there doesn't seem to be a link).

We are not aware of studies specific to Oakwood or other surrounding cities in the Dayton Region. I hope this helps.
