

Norbert,

I have a conflict with the meeting next Tues so I don't think I'll be able to attend. I'm really sorry since I know so much of it is about mental health and the things you all are doing. But since you and Kevin will both be there I'm sure you can provide all the information.

If you'd like me to send you an update on Out of the Darkness Walk and ASIST training I can do that.

Thanks and if anything changes I'll let you know,

Best,

Sallie

Hi Norbert and Kyle

Tae was caught in traffic in Cincy and could not get to our meeting today. Kristi, Sam, Carol, Judy and I talked in general terms but we need Tae for input re truck placement and needs. Are you two available next Wednesday 7/28 late afternoon or early evening?

Before we set schedule our next meeting, we want to be sure to have both of you can attend.

Thank you so much for letting me know.

Maybe Laura Connor or Greg Goetz? Someone who knows the Sunday schedule and traffic patterns (for OAKwood United et al). We want to develop the plan for layout of the trucks and vendors and get an idea of capacity.

Good morning Christine,

This was simply a move to push back (in towards the school and library) the right a way 15 feet on both streets to allow for the sidewalk to legally be property of the City and our responsibility for maintenance and repair. It was done to coincide with the new spaces on Aberdeen and to include the existing spaces on Telford. No physical changes will occur to Telford, it was simply never done when the Telford spaces were created.

Have a great week and enjoy the rest of your summer,

Good evening Rob and Anne,

We just read through today's Oakwood Register and noticed that there was a paragraph within the 'Oakwood City Council places property tax renewal on ballot' column on the front page that states, "Council acted on creating a 15-foot public right-of-way in the 100 blocks of Telford and Aberdeen avenues." Can you elaborate on what this means? Is this referring just to the angled parking on Aberdeen that are nearly complete or is this something additional?

We have gone back through all of the recent Oakwood Registers and did not see any legal notice about new changes to Telford and Aberdeen. Also with our recent discussion about traffic flow on Telford and Aberdeen I would have expected to hear about any proposed changes.

Thanks,
Christine Robinson

This week's numbers were just released:

Montgomery County: 80.7 (up from 41.4)
Statewide Average: 45.8 (up from 27.0)

Cases continue to spike a bit, but there does NOT appear to be a corresponding spike of hospitalizations and deaths. Over the past several weeks, Montgomery County has seen less than 10 hospitalizations-per-day (currently about 1-3 per day). The last time we had more than 10 hospitalizations in a single day was May 11, 2021.

Hello,

I live at 120 Spirea Drive in Oakwood.

My wife is self-employed.
We have 2 college age kids attending school and meeting online.
We have 2 younger kids who play video games and also did online school / learning last year.
My work lets me work from home often as well.

The issue is the fact that we cannot get a stronger web/wifi/internet speed at our address.

We tried the most expensive package with Spectrum and it was terrible.
We currently have ATT and it is better but not good.

In investigating how and why our speeds are so poor, I came across ATT Fiber. I tried to upgrade to this level of service and was told it was not available at my address. Apparently it is available for parts of Oakwood but not my house. So I wanted to check this out and eventually someone told me that only part of Oakwood can get Fiber because the city refused to allow it.

Now, I am smart enough to take that with a grain of salt but I would love to hear why in 2021, in an affluent city that has very high property taxes and great schools - I can't seem to get high speed fiber internet for my family.

Can you please provide your thoughts on this situation? Is it an Oakwood issue? Is it an AT&T issue? Little of both?

I greatly appreciate your thoughts and feedback.

Thank you very much!

Subject: Balance

I have been thinking about the idea we discussed of presenting a balanced approach to our work and still moving the needle forward. I also know we have received some push back on the choice of caste as our first read.

This was an article shared by Tom Lasley as a possible counter point. And I just finished reading it. A bit long at times but it was very interesting. Actually, it is more of a critique but it balances, in my opinion, some of the strengths of her book with some weaknesses, which have been highlighted by others:

For your consideration,

Subject: Request for August 2 Meeting

Norb,

Welcome back! I hope you had a ton of fun with the family. You have shown noticeable improvement in NOT doing work e-mails while on vacation. Hooray! I know from personal experience that one really bummed e-mail can almost ruin a vacation - bad things look worse on a phone.

Anyway, could we please keep doing our spread-out-at-the-dias configuration for the August 2 meeting? Carol mentioned that we would go back to our normal spacing in August. (I know that has been the plan for awhile).

But, I don't think we should act like things with Covid are improving at this point. I know that Rob and your other experts will give you updated numbers, but Montgomery County's situation has deteriorated more rapidly than Ohio's.

The 200+ number from Rob's attached report is now (July 24th) in the upper 700s. (Rob is using 7 day numbers, while some use 14. I have multiplied or divided in appropriate places and added the daily numbers to fill in where the weekly numbers end).

Here's the CDC assessment of Montgomery County's current risk level (It has gone from "Low" to "Moderate" to "Substantial" in the last several days).

I am just asking for physical distancing at the meeting - not masks or anything else.

Many thanks!

Anne

Sir,

Hope you had a great vacation!

We are headed to Florida Monday. Looks like at the end of the week an opportunity may present itself for us to travel a few hours north from Marco Island to Anna Maria Island to allow Kaylee to train with her tennis coach for 4 days. If this does come to fruition any chance I could extend my vacation leave by one day and take off Monday, August 2? We would be flying home late Monday morning.

Thanks,

Alan

Dave,

I marked the corners of the patch on Thruston between Ivanhoe and Shafor that Norb wants completed this week. It measures 7' x 31'. At 1-1/2" deep, it calculates to 2 tons of asphalt. After you look at it, the patch could be adjusted either way – take more or take less, because there is more with block cracking outside of what I marked but the worst is less than what I marked – I tried to strike a balance.
