To Whom it may concern,

We recently performed our annual lead and copper sampling for 2021. We received an abnormally high result of 113 micrograms per liter for 327 East Drive.

We have been using this address since our lead and copper sampling started in 1992 and we have never had an issue. I have attached the history that we have for this address. A letter has been sent to the property owner and I will follow up with a phone call.

Subject: Chris Kuzma

All: As a reminder, Chris starts work here next Monday, August 2. One of the first things I will have him do is meet with each of you individually for a "get to know you session" and for each of you to share with Chris anything and everything that you think would be good for him to know about your departments/job responsibilities. I will make a brief introduction to each of you as I catch you on Monday morning and will then let you and Chris set the date/time for your one-on-ones.

Rob: Since this is Chris's first public sector job, I would like for you to spend some time with him on what that means... public records, open meetings, transparency, ethics, the media, etc.

Subject: Zumba at the OCC

ZUMBA

August 9 – 25

6:45-7:30am

Zumba is a class designed to bring people together to sweat it on. We take the "work" out of workout by mixing low-intensity and high-intensity moves for an interval-style, calorie-burning dance fitness party. Once the Latin and World rhythms take over, you'll see why Zumba fitness classes are often called exercise in disguise.

Benefits include total workout, combining all elements of fitness - cardio, muscle conditioning, balance and flexibility, boosted energy and a serious dose of awesome each time you leave class.

Instructor: Hannah Holder

Hannah Holder has been a Zumba instructor since June 2018 and absolutely loves teaching Zumba classes. She is currently licensed to teach Zumba Basic 1 and Zumba Gold.

Fees Aug: \$30 (M)*, \$45 (NM), \$60 (NR)

*Discounts are applied at checkout

Norb,

I will have to get a list from AES or Fitzwater. The ones I know about now include Kramer, Patterson, West Schantz and Far Hills from Patterson going north.

I have requested a meeting with AES and Fitzwater, their contractor. Yes, I do think the trees could be done better but each time you talk with them, they say they are following PUCO regulations. I have always felt they could do a better job but that is my opinion which I have shared but I have always gotten the same response from DPL and their contractors. In talking to one of the residents on Kramer, the supervisor admitted to her that the trees were not trimmed properly and offered to have them removed which is what they want.

I am not sure who the AES contact is as we have not been notified of the change from DPL to AES. That is one reason I have requested a meeting. Have contacted the Line clearance Department but have not heard anything back yet.

Carol,

Please send me the response to Brian.

Also, please send me a list of the streets where trimming is taking place.

Do you think some of the trees could be shaped a little better? If so, please speak to your AES contact about this.

Thanks, Norb

CITY OF OAKWOOD
An Equal Opportunity Employer
POSITION DESCRIPTION

Page 1 of 3

Class Title: Staff Engineer

Department/Division: Engineering **Reports To:** City Manager
Supervises:

Employment Status: Full-time

FLSA Status: Exempt

QUALIFICATIONS: An example of acceptable qualifications:

Attainment of a Bachelor's degree in civil engineering; minimum of four (4) years experience in civil engineering; substantial experience in surveying and civil engineering design, and familiarity with building codes; any equivalent combination of education, training and experience.

LICENSURE OR CERTIFICATION REQUIREMENTS:

State of Ohio professional engineer's license, or the ability to obtain such within twelve (12) months of hire; maintain a valid Ohio Driver's License.

MINIMUM ACCEPTABLE CHARACTERISTICS: (* indicates developed after employment)

Knowledge of: civil engineering; GIS and CAD systems; safety practices and procedures; traffic signal systems; road design, construction, maintenance, and repair; water system, sanitary sewer and storm sewer design, construction, maintenance, and repair; grounds maintenance and repair; public relations; records management; supervisory principles and practices; project management; manpower planning; local geographical area; fiber optic systems; capital project planning and budgeting; *city goals and objectives; *city policies and procedures; *department goals and objectives; *department policies and procedures.

Skill in: use of modern office equipment; GIS and engineering CAD systems; surveying equipment; traffic signal control systems; motor vehicle operation; and use and maintenance of public works equipment.

Ability to: complete design work on projects involving municipal infrastructure; manage work of outside consultants; deal with many variables and determine specific action; interpret an extensive variety of technical material in books, journals, and manuals; recognize unusual or threatening conditions and take appropriate action; apply management principles to solve problems; define problems, collect data, establish facts, draw valid conclusions, and solve problems; exercise independent judgment and discretion; determine material and equipment needs; prepare accurate documentation; compile and prepare reports; write instructions and specifications; prepare and present public briefings in a clear and effective manner; manage personnel issues; respond to routine inquiries from general public and/or officials; communicate effectively; train or instruct others; recognize safety warnings; understand a variety of written and/or verbal communications; answer routine telephone inquiries; handle sensitive or technical inquiries from and contact with officials and general public; develop and maintain effective working relationships; resolve complaints; perform light manual labor for extended periods of time in often adverse conditions; travel to and gain access to work site.

CITY OF OAKWOOD
An Equal Opportunity Employer
POSITION DESCRIPTION

Page 2 of 3

ESSENTIAL FUNCTIONS OF THE POSITION: For purposes of 42 USC 12101:

- 30% (1) Designs and/or administers contracts for engineering plans and specifications on public improvements including public facilities, streets and alleys, sidewalks, sanitary sewers, storm sewers, water systems, street lighting, and traffic signals.
- 15% (2) Prepares and/or supervises the preparation of construction plans and specifications for public infrastructure improvement projects; prepares grant requests and project funding plans; confers with City officials on new or revised work projects and needs, and in the development of proposed budget estimates; directs the inspection of contract construction work of a capital improvement nature for conformance with specifications; prepares and maintains short-term and long-range capital improvement plans.
- 10% (3) Reviews plans and makes revisions to conform to city codes; meets with project applicants as required; prepares reports to Planning Commission, Board of Zoning Appeals, and City Council, and makes recommendations to same; makes final inspections of projects to ensure conformance with specifications and City codes.
- 10% (4) Assists city departments and developers with long range planning (e.g., directs research studies and comprehensive reports, establishes feasibility, prepares cost estimates, determines if systems can handle additional capacity, etc.).
- 5% (5) Receives and responds to inquiries from the public regarding engineering, public utilities and other public infrastructure, traffic engineering, and construction projects.
- 10% (6) Maintains contact with consulting engineers, construction project managers, county, state and federal agencies, professional and technical groups and the general public regarding departmental activities and services.
- 10% (7) Oversees construction on public rights-of-way within the City such as street lighting, traffic signals, water and sewer, and fiber optic projects.
- 10% (8) Prepares the departmental budget for operations, and for annual and long-range capital improvement programs.
- (9) Meets all job safety requirements and all applicable OSHA safety standards that pertain to essential functions; maintains all required licenses.
- (10) Demonstrates regular and predictable attendance.

OTHER DUTIES AND RESPONSIBILITIES:

- (11) Performs other related duties as required or assigned.

CITY OF OAKWOOD
An Equal Opportunity Employer
POSITION DESCRIPTION

EQUIPMENT OPERATED: The following are examples only and are not intended to be all inclusive.

Motor vehicles; modern office equipment (e.g., phone, copy machine, personal computer, calculator, etc.); two-way radio; drafting tools; surveying equipment, ESRI GIS and AutoCAD software, etc.

INHERENTLY HAZARDOUS OR PHYSICALLY DEMANDING WORKING CONDITIONS:

1. Works in the vicinity of floor or wall openings, elevated platforms, and/or runways.
2. Ascends and/or descends ladders, stairs, or scaffolds.
3. Works in an area in which the means of egress is or can be obstructed.
4. Works on and around powered platforms and/or vehicle mounted platforms (e.g., manlifts).
5. Is exposed to environmental conditions which may result in injury from fumes, odors, dusts, mists, gases, and/or poorly ventilated work areas.
6. Is exposed to possible injury from hazardous gases, chemicals, flammables, or air contaminants.
7. Is exposed to possible injury due to unclean or unsanitary conditions.
8. Is exposed to possible injury as a result of electrical shock.
9. Is exposed to possible injury as a result of working with moving mechanical parts of equipment or machines (e.g., trucks, cars, snow plows, salt spreaders, mowers).
10. Is exposed to possible injury as a result of falling from high places.
11. Has contact with potentially violent or emotionally distraught persons.
12. Has exposure to hot, cold, wet, humid, or windy weather conditions.
13. Has exposure to extreme non-weather related heat or cold.
14. Has exposure to hazardous driving conditions.
15. Works rotating shift.

This position description in no manner states or implies that these are the only duties and responsibilities to be performed by the position incumbent. My (employee) signature below signifies that I have reviewed and understand the contents of my position description.

Hello, after a year's absence, The First Suburbs Consortium's networking event will resume this year. An invitation to the event is attached. The event will be held on Wednesday, August 4th starting with a summer barbeque dinner at 6:00 pm on the Frazee Pavilion Patio and a reserved seat for the 7:30 pm concert featuring the United States Air Force Band of Flight, Flight One. Details are contained in the Invitation. Please extend the invitation to each of your elected officials and your City Manager or Township Administrator. Seating will be limited, so if you make a reservation and find you are unable to attend, please cancel so someone on the waiting list can come.

Thanks, Jack.

Subject: Well #6 Clearing

Norb,

Our crew is back trimming the electric line from Firwood Drive to well #6 and discovered a large tree down on the line which snapped our pole nearest the bike path where the electric goes overhead to underground. The well still has power. The tree is large and would not have been cleared with the project we are working on (and trying to prevent), but we made a call to Security Fence to provide us a quote to set a new pole and hang our electric line. Clearing continues from the Firwood end, but our crew also cleared the area at the bike path end today so Security can access the pole location.

Subject: RE: When will AT&T Fiber be fully available in Oakwood Ohio?

Hi Todd,

I was in Columbus today and will be in Dayton tomorrow. Nevertheless, I can address some of your issues now via email and I will follow up with more later.

1. It sounds like you have a very vibrant and modern household with a need for good internet!
2. Thank you for being an AT&T customer. I wish our service was working better for your situation.
3. It's not unusual for a community to have some areas with fiber and some areas without. It frequently depends on the state of the network, how much we have to invest, and the timing of various deployment projects. As you can imagine, managing a statewide network can be a challenge.
4. I don't know what the AT&T employee meant by the City not allowing for the fiber. Norb is correct in that fiber deployment issues are under our discretion. Cities need to approve our projects in the right of way, but they typically want the projects to go forward because they want the upgraded service, better facilities, etc. too.
5. I will check with our planning engineers to see what is planned for your area and get back to you.

Best,

Mark

Subject: When will AT&T Fiber be fully available in Oakwood Ohio?

Hello Mr. Romito,

My name is Todd Korab. I am an AT&T customer, account number 156349457.
I live at 120 Spirea Drive in Oakwood Ohio, just outside of Dayton.

My wife is self-employed and works from home.
I work for Cox First Media / Dayton Daily News and I also work from home.
We have 2 college age kids attending school and meetings online.
We have 2 younger kids who play video games and also did online school / learning last year.

The issue is the fact that we cannot get a stronger web/wifi/internet speed at our address.

We tried the most expensive package with Spectrum and it was terrible.
We currently have ATT and it is better but not good.

In investigating how and why our speeds are so poor, I came across ATT Fiber. I tried to upgrade to this level of service and was told it was not available at my address. Apparently it is available for parts of Oakwood but not my house. I was told by someone at AT&T that it was an Oakwood issue and that the city would not allow for the change. I spoke to our City Manager, Mr. Norbert Klopsch (CC'd on this email) and he informed me that it was an AT&T issue - not a city one.

Could you please advise me as to when ATT Fiber may be available in my area and what I might do on my end to encourage the upgrade?

I would greatly appreciate your feedback.

Thank you,
Todd Korab

Subject: Q & A Paper on Lead in Drinking Water

Doug and Scott,

Attached is a paper that we put together in 2017. It provides some useful information and can be given to the East Drive property owner, if needed. A key point, of course, is Q & A below. We know that there is no detectable lead in the water leaving our plants so a key message is the point about flushing the water for a moment first thing in the morning in the kitchen and bathroom where water is consumed... as a safety precaution. I think that most people habitually do this anyway.

If there is an identified or suspected problem with lead, what can be done about it?

If a homeowner has concerns about lead in the plumbing system, they may want to have their water tested. If there is an identified or suspected problem with lead, a homeowner can consider taking the following steps:

- Install water treatment systems that are specifically designed to remove lead.
- Before using water, allow the cold water to run for at least a minute until the water runs very cold, particularly first thing in the morning or if the water has not been used for a long time. When water sits in pipes without being used for a long time, it becomes more likely that lead may leach into the water.
- Use only cold water for drinking, cooking, and especially for making baby formula. Hot water can dissolve more lead from pipes and/or fixtures than cold water.
- Do not boil water in an attempt to remove lead. Boiling the water will not remove lead, but only concentrate it further if it is present.
- Periodically clean faucet screens by removing them and running the water for a few minutes. Sometimes lead containing particles can build up on the screens.

Property owners can also consider removing old plumbing fixtures and piping and replacing them with fixtures and piping that do not contain lead. This can be a very expensive undertaking, but can be considered.

Subject: Clearing for Retaining Wall

Norb,

We started clearing on the OUTSIDE of our chain link fence at 210 Shafor today to accommodate the drill rig for the soil borings. I met with CBC again last night and they indicated they had an opening for next Thursday, July 22nd for the borings. We have our PW staff clearing trees and brush for the drill rig and project. It should not be that noticeable to the public because there is still some landscaping adjacent to Shafor. However, there will be a more noticeable difference in the landscaping as the project progresses.

Norb and Bill -

Thank you! This aggressive Delta variant situation totally stinks, but good for us for making accommodations to keep everyone safe.

I think many of our honorees are still in high school, so they should be around on 9/20.

Will we get to meet Chris Kuzma on Monday?

Thanks!

Anne

Bill and I spoke and decided not to recognize the Oakwood HS students in person next Monday evening as originally planned. Assuming the COVID-19 situation improves over the next six or so weeks, we will look to reschedule this event for the September 20 council meeting.

Norb,

They will be here about 12:30/12:45 at the Park.

Norb,

I talked with Dave Shuey about when Drain Tech will be out here. Dave told me they were on another job and when they were done they would be heading to Oakwood. Dave indicated that if he had not heard from them by noon, he was going to contact them again to see when they would be coming to Oakwood and he would let me know.

Thanks.

Carol
