4. **Track school-located vaccination clinics** in your area, and share with us what is happening. Including:
 - o How many school-located clinics have taken place in nearby school districts to date?
 - o How many clinics will take place from now moving forward through start of school of the school year?
 - o Who is most interested in offering or receiving help in facilitating school-based clinics?
 - o Who is doing really well in increasing youth vaccination rates?
 - o *Interested in knowing about clinics:* name of district and school (if available); date; provider; # shots administered (if possible)

To accelerate these efforts, we are launching a **Back To School Week of Action on August 7-15, 2021** as a nationwide mobilization effort to kick off the school year and get young people vaccinated – including two Weekends of Action on August 7-8 and August 14-15. Throughout the week of action, we will ask organizations like yours to host school and campus-based COVID-19 vaccination drives for students, their families, and their communities. Please join us and make this week a success! **Sign up here to join the Back to School Week of Action: madetosave.org/back-to-school.**

How Local Initiatives Can Help Accelerate the Vaccine Effort

With the highly transmissible Delta variant on the rise and vaccination rates below where they should be in too many places, President Biden this week called on states, territorial, and local governments to use ARPA funds to support incentives, like a \$100 payment to anyone who gets newly vaccinated.

Indivisible

[More Info](#)[Borrow](#)

By Daniel Aleman. *From Little Brown & Co.*

(159 reviews)

This timely, moving debut novel follows a teen's efforts to keep his family together as his parents face deportation.

Mateo Garcia and his younger sister, Sophie, have been taught to fear one word for as long as they can remember: deportation. Over the past few years, however, the fear that their undocumented immigrant parents could be sent back to Mexico has started to fade. Ma and Pa have been in the United States for so long they have American-born children, and they're hard workers and good neighbors.

P413 Sports Training Center Press Release & Ribbon Cutting

P413 Sports Training Center, a new indoor training center located in Moraine, OH, will hold grand opening and ribbon cutting to celebrate the city's newest spot for premier sports training on August 2 at 11 AM. The Training Center is a dream come true for two of its owners.

Over twenty years ago co-founders and owners, Zach Trent and Doug Adams, were sitting at a restaurant in Miamisburg, OH vision casting this idea for a sports training center where athletes could come and train in a positive, uplifting environment.

Today that dream has become reality. P413 reflects the scripture Philippians 4:13 "I can do all things through Christ who strengthens me."

The 26,000 square-foot space located at 2240 Arbor Blvd., Moraine, OH is the new home of P413 Sports Training Center, marking the next step in the program's growth in the Dayton

ro area.

“We believe this new space takes P413 Sports to the top-level of athletic training,” said Bruce Stroman, Marketing Director and General Manager at P413 Sports. “Our organization wants every young person to have access to the latest training and equipment despite their economic status, something our owners passionately believe in, which is why our program is designed to give athletic opportunities to players and their families regardless of income.”

The new space offers the ultimate place for athletes to train, including 7, 70-foot batting cages, a 10,000 square foot infield area, all with quality turf and netting. Cage one holds our two HitTurf training systems where athletes will be able to utilize the latest technology to grow and hone their skills. “I’m honored to play a role in building a sports community in the Moraine and Dayton

area that helps aspiring athletes to realize their full potential,” said Doug Adams, Director of Operations and COO at P413 Sports. “This facility offers everyone a chance to train and develop to not only become better athletes, but to become better people.”

All athletes will have access to high-level instruction from instructors and coaches, including former professional and Division 1 college athletes. Our Pitching/Throwing Instruction is led by Juan Espinosa who brought the Top Velocity program to Dayton, OH. Juan, having played Professional Baseball now coaches and helps athletes of all ages reach their throwing velocity goals. The Top Velocity program develops not only the arm but the entire mind and body which comes to the athlete. Over the last five years, Juan has placed numerous pitchers at multi-

regiate levels.

Marty Orwick, our CEO, has years of business and coaching experiences that he brings to P413 Sports. Marty will be providing golf lessons on our golf simulator as well as adding basketball offerings in the near future. He truly believes that each athlete's value does not come from wins or losses. Their value comes from the fact that they are created in God's image. His love for them and our love for them is unconditional. Marty wants to see each athlete grow and excel in their sport, but more importantly grow to become great people.

We are offering walk-ups and memberships to our clients. With a membership you will have access to our hitting cages, infield and full weight room area during our selected membership times. For more information find us at www.p413sports.com, also on Facebook, Instagram and Twitter.

Our dedicated staff will truly invest in each player, ensuring they learn the game the right way so that each parent can watch their child develop into talented athletes with a love for the game," said Doug Adams.

Operational hours of P413sports are:

11AM-10PM Monday through Friday

10AM-8PM Saturday

10AM-7PM Sunday

Sedgwick August 2021 Update

OSHA Issues Emergency Temporary Standard

The Occupational Safety and Health Administration (OSHA) has issued an Emergency Temporary Standard (ETS) for healthcare and updated guidance for all industries. This

Healthcare ETS applies, with some exceptions, to settings where any employee provides healthcare services or healthcare support services. The ETS is aimed at protecting workers facing the highest COVID-19 hazards—those working in healthcare settings where suspected or confirmed COVID-19 patients are treated. This includes employees in hospitals, nursing homes, and assisted living facilities; emergency responders; home healthcare workers; and employees in ambulatory care facilities where suspected or confirmed COVID-19 patients are treated.

Does not apply to:

First aid performed by an employee who is not a licensed healthcare provider

Dispensing of prescriptions by pharmacists in retail settings

Non-hospital ambulatory care settings where all non-employees are screened prior to entry

People with suspected or confirmed COVID-19 are not permitted to enter those settings

Well-defined hospital ambulatory care settings where all employees are fully vaccinated and

Non-employees are screened prior to entry and people with suspected or confirmed COVID-19

are not permitted to enter those settings

Some healthcare settings where all employees are fully vaccinated and all non-employees

are screened prior to entry and people with suspected or confirmed COVID-19 are not present

Healthcare support services not performed in a healthcare setting (e.g., off-site laundry, or

medical billing)

Telehealth services performed outside of a setting where direct patient care occurs

healthcare settings embedded in non-healthcare settings, the ETS applies only to the embedded healthcare setting and not to the remainder of the physical location. Where emergency responders or other licensed healthcare providers enter a non-healthcare setting to provide healthcare services, the ETS applies only to the provision of healthcare services to an employee.

ETS exempts fully vaccinated workers from masking, distancing, and barrier requirements in well-defined areas where there is no reasonable expectation that any person with suspected or confirmed COVID-19 will be present.

ETS was officially filed in the Office of the Federal Register on June 17, 2021, and it became effective when it was published on June 21, 2021. Employers must comply with most provisions within 14 days and with the remaining provisions within 30 days.

The Public Employment Risk Reduction Program (PERRP) has indicated they are reviewing ETS but have not determined if they will follow it. We will keep you updated on their decision.
