Hi Leigh,

I love your enthusiasm about communicating to our citizens, but I don't think we should be in the business of responding to FB posts.

It is now easier than it has ever been to find and call one of the five of us, Norb, or any of his department heads, or to learn the answers to any number of questions via the City's web site, Annual Report, etc.

Many thanks!

I will include the memo from Carol referenced below in the CM newsletter next Friday.

The last paragraph on page three of the admin policy states that we will include information about lawn treatment twice annually in the Oakwood Scene newsletter. We have not been doing this... not deliberately, it just got by us. Carol is working on an article for the August/September Scene.

Subject: While You Were Gone

Welcome back. I hope you had a great trip to California and enjoyed being there.

Below are just a few things that went on Tuesday and Wednesday of this week.

- *Had a meeting with Bilbrey on Tuesday morning. I will bring over an updated schedule over for you. We are waiting for a service call for our copier and that is why I will be putting it in your box. The cure time for the asphalt is 14 days now instead of 21 days due to the temperatures. If you recall, the temps for the project before were much colder and required more cure time. The contractor (Heiberger) indicated to Bilbrey they would be ready to go after the 14 day cure so the schedule has been updated. Heiberger also will be guaranteeing the acrylic coating for the courts where before they did not because of the temps. Bilbrey hopes to have a pre-punch list meeting on July 19th and then a final the 23rd. The school did not show up so I will give them the schedule. Will need to get with the schools to find out what kind of scoreboards they will be using. Will be getting with our electrical contractor hopefully yet this week to run the electric as we have discussed before.*

Need to talk about the electrical at the tennis court before we do anything. I talked with Laura Connor and she indicated the schools only needed one outlet for some training equipment so we will have to decide what we want done. Maybe we need to talk with Kyle about this.

Rob also mentioned the parking lot would be done early this fall, sometime after Labor Day.

- *Thought I would let you know that Citizens for a Better Oakwood posted some information about the city spraying pesticides. Lori Stacel has a copy of the stuff posted. Lots of information in the posts were not correct at all. Also indicated getting a small group together to approach the city and gather names on a petition. Posts indicated we were in the parks. We were not as Brian was on vacation, we always post when we will be in the parks, etc., etc.*
- *Last evening a piece of concrete came out of the east wall at the pool. This was about a foot and a half long by ten inches wide. We were able to put it back in place temporarily with marina epoxy. Karen contacted Rob to discuss what happened and he will be sending one of his guys up to finish the repair tomorrow.*

- *I sent a few pictures to Lori Stacel per our discussion about Leigh's request for the July Council meeting and her comments. Lori will be putting together the power point for her.*
- *Relatively quiet around here both yesterday and today.*
- *Let me know if you have any questions.*
