Dear Mr. Byun,

I am writing in response to your Kansas Open Records Act (KORA) request to the Kansas Department of Corrections (KDOC) received on December 12, 2022 for the following information:

- 1) All current policies and procedures regarding medical and room & board costs or fees for which inmates are or may become liable. Please include all policies and procedures related to how fees are set, accrued, imposed, collected, and enforced (such as those related to per diem fees, ability to pay determinations, penalties for late or non-payment, authorization for civil or criminal action for payment enforcement, etc).
- 2) All reports, databases, spreadsheets, or equivalent materials regarding debts/restitution paid to or owed to this department or any facility/agency under its jurisdiction in FY2021. Please include all relevant data regarding medical and room & board costs, including the number of individuals charged for medical and room & board costs or fees and the total amount of medical and room & board fees imposed in FY2021.

KDOC Response: Please find attached the documents responsive to your request. The outstanding fees reports cannot be filtered by FY; they show all outstanding fees including parole supervision fees. The reports have been redacted pursuant to K.S.A. 45-221(a)(29).

With this response we consider this request closed.

Sincerely,

Nancy Burghart,
Public Service Administrator
Kansas Department of Corrections
