Mr Dodgen, this is completely unacceptable to send a harassing email on a special occasion day listed in the parenting plan. The things you want are not for arbitration which is why the arbitrator turned you down. Stop harassing me about your lawyer and transportation. I have told you this many times.

I do agree the court needs to be updated to include the antiharassment orders granted to Lilly's school principal and superintendent to protect them from your harassment. You have failed to disclose this to me or provide copies although it very much affects Lilly's ability to enjoy and participate in school while she is with you so there should be a major change since these orders last 5 years. File whatever you want I will be prepared.
