to me ▾

I appreciate all of the concerns you have about your case and how you were treated as a result of that case. The issue that follows you here was not what happened with the murder 2 or the fact that it was **dismissed**, the case that follows you is the felony conviction for rendering criminal assistance and that the case resulted in someone losing their life. For a school district that is unique. However, the bigger issue is that the case remains on your record. It shows a conviction and time served status. If it had been **dismissed** or if you had your record purged by the courts it would not be an issue.

"In an emergency we will regress to what we know, what creates comfort, this is why we prepare for the unexpected."

Dwayne Dodgen 10/3/2017

I disagree with you completely the letter I have clearly states it is both the rendering
