Mr Juzon and Ms Sellie,

You have left me no choice but to request copies of the forwarded emails that I requested you forward to different individuals over the last month.

This is being done under the foia.

It is sad that I have to go to this extreme to attempt reasonable communication in the ways that the district has told me to do it. I think it also clearly shows the abusive behavior that I have endured for 5 years at the hands of the Edmonds School district which led me to a very unhealthy place in my personal challenges that the school district refuses to acknowledge on any level.

It has been stated in writing that the school district refuses to answer the question if they acknowledge that I deal with PTSD and or anxiety issues.

It is also been stated in writing that the school district refuses to acknowledge or address the fears I have for my daughter's physical safety in the Edmonds School district and I asked Mr Juzon where I take my complaint to above him about his response and he has refused to answer that question.

So Ms. Sellie I am asking if you are the person I take it to or do I take it to someone else? I have raised documented and legitimate fears over my daughter's physical safety and mental health safety in the Edmund School district and have been soundly ignored to the point that in writing I am told I will not get an answer and I would like to know if this is the true correct position of the Edmonds School district or not?

In the public records release that was done yesterday that did not address my actual request but gave answers to many other questions there was one in particular where you said I make the presumption the school district is worried about other people's opinions.

This very clearly shows the school district administrative staff have not communicated with each other as I have it in writing from Layne Erdman

that that is one of the concerns of the school district is how other parents would react. So thank you for 100% documenting and verifying the gas lighting techniques the school district has employed against me for 5 years that have caused my health conditions to suffer greatly.

Do you once an opportunity to correct that mistake and accusing me of making presumptions when it is a factual statement made by a school district representative? Just like you accusing me of having been convicted of a crime against a child when I have no such crime on my record and that is in school district possession.

I would like to also inform the school district that I have now been informed by an education lawyer that as of 2017 when my dismissed conviction no longer appeared on my record the school district was not and is not allowed to consider it or reference it as was inappropriately done in the punitive actions done recently against me in court to prevent me from exercising my due process rights.

It should be a week or two at most now and I will have no criminal record for felony convictions which removes all issues that were between the school district and I unless the school district chooses to not recognize due process rights and continues to be punitive against me?

I have done everything I need to legally do to remove the issues that legally existed so unless the school district is intent on punishing me for something I didn't do and refuses to recognize that people make mistakes due to unhealthy situations there is no reason for any of this to continue and that is entirely up to the school district?

I want nothing but peace between us for my daughter's benefit? Anything else only hurts her more than anyone else.

I would like this email passed along to the school board members that I'm allowed to communicate with and I would like proof of it being passed along please? Or in about 2 weeks I will do a public records request to ensure that it has been passed along.

Respectfully,

Dwayne Dodgen
