You can cancel the records request for emails to Mr Juzon about me as I don't see the need to do that. I don't think I would get any real answers for what I'm asking as it has been proven time and again that clear communication is something that does not happen from the district to me.

Mr Juzon has made it clear that he has no intentions of reasonable communications with me and that even when I follow the plan and ask for him

to forward emails he will not do it and I don't know if that's at your direction or someone else's but it is rather abusive, controlling and incredibly disrespectful.

He opened the response stating that the district isn't going to recognize that I deal with PTSD and anxiety specifically from having to deal with people like I am in the district.

The statement by him that I have finally shown my true colors in recent legal paperwork speaks volumes about his opinions of me even though he doesn't actually know me and he is referencing behavior that stems from his abusive treatment of me apparently at district direction.

I have been treated worse by you folks than I was prison guards in a maximum security prison and that speaks volumes in my opinion.

The amount of energy put out by myself and the district in dealing with an arbitrary decision that has no basis in reality is mind-blowing. The district has never tried to work with me, nor have they ever attempted to build a bridge and improved communications. That is abusive from people in positions of authority especially when there are apparently 90 or so times that I said I was willing to do anything and I got ignored and shown I wasn't good enough. The district has chosen to twist many things and then

claim to be afraid because they refuse to recognize the ideal PTSD and that

they are triggering my PTSD in a very horrific fashion.

Just as dealing with you does in trying to get simple answers to questions and being forced to use public records request to do so.

Believe it or not I don't enjoy having to go through all of this and truly wish I did not have to but when Mr Juzon closet theology to have a discussion based on scientific studies it really removes credibility for him giving valid answers but I am forced to keep dealing with him and no one will address that issue. How am I supposed to believe anything he has to say when he doesn't know the difference between science and religion and

then tells me the district refuses to discuss it with me when it's actually

a part of district policy to openly and politely discuss things with me?

The recent records request showing that there were no complaints against me in email or in writing at all speaks volumes about district

staff not putting things in email anymore because it's known I will do a public records request.

But I am happy that I can show that there are no documented concerns of fear by anyone in district records against me even though the district claims that people have said they're afraid of me in the very letter you sent for this communication plan.

So on that note since this communication plan says I have made people feel intimidated I would like any documented occurrences of any staff saying they feel intimidated by me under a records request please.

I think it's going to be the same answer and that there are no records of anyone doing that which means it's not true.

One more thing that would like to do a records request on is the district's response to each and every time I stated I had fear of coming onto district property because of the treatment I was receiving. There were many of these statements made by me in 2017 and 2018 that the district openly ignored and disregarded so I want to make sure that I didn't miss anything so please give me the formal response from the district for each of the times I stated I had a fear for my daughter's safety or my safety.

It's funny I have documented proof that I told the district I was afraid repeatedly and I know what the responses were but I would like the official response from the district of me saying I had fear going and talking in person to principal Stewart or to superintendent McDuffy or anyone else.

I'm also going to ask since the recent restraining orders were placed against me prohibit me from communicating with principal Stewart and I'm also prohibited from communicating with the new superintendent it seems this communication plan is no longer appropriate or valid and I would like a response to being told I'm supposed to break the law because that's what the district is now doing by telling me I have to follow this communication plan.

I'm just curious if anyone wants to answer the question how I can express fear of the district and have to live with it for 5 years with no responses to alleviate it and the district has no documentation of anyone being afraid of me but they make the claims in writing and yet no one wants to have meaningful communication to bring the situation to an end as I have repeatedly begged for? Is there anyone who's willing to answer why the district won't help me end this in the appropriate manner of getting my daughter away from this school district? I think that shows the bias that the school district has against me completely and that the school district is in fact helping my ex. Otherwise why wouldn't there be a letter written stating they refuse to work with me?

Respectfully,

Dwayne Dodgen
