Thank you for the response,

So it seems that Ms Sellie is now in charge of making decisions about me but I still don't know who I'm supposed to try and file complaints with?

Who am I supposed to take challenges too or things that are going on to try and obtain a positive resolution?

I understand there are many challenges that have occurred between the district and myself but I truly desire to have a positive and healthy relationship and would like to build bridges towards that end.

I would also like to ask why this new communication plan quotes recent emails after I brought up the fact the district was instructing me under the old communication plan to violate the law?

I would like to know what emails were the cause of this new communication plan under public records.

It truly is sad that this is how you choose to deal with me when I am willing to try and build bridges with you.

This does not appear to be meaningful two-way communication and the district has already told me that all communications between them and anyone are a matter of public record.

I truly can't understand why anything would need to be redacted unless there is nefarious behavior occurring?

Respectfully,

Dwayne Dodgen
