Attachment : image001.png;

I have been trying to get to the bottom of the KCDA piece. KCDA told me today they do have them....confusing since Megan said they have not ordered any from Welch-Allyn.....anyway...KCDA will not increase warranty and don't have that option. Megan has offered us 5 year warranty with the price quoted and instruction on site as often as needed at no charge. KCDA does not have any training. The price difference for SPOT is about \$57.00 less at KCDA but I don't think worth it at this point. I liked the Plus Optix unit but I respect the research that shows SPOT success in accuracy with dark colored eyes.....

Will see if I even get a dime for anything.....

I talked to KCDA yesterday. They were unaware of the changed rules. She said that they can put requests out for quote. They can access both SPOT and Plus Optix. They more they request quotes for, the lower the prices. They were going to look into going to the SNOW conference.

Megan Elliott prepared this for Bellevue. She will do for your districts as well. This is what I submitted on Monday and a flyer from SPOT. I decided on the SPOT vision screener because it has that increased success in reading darker eyes which is important.
