Catherine, just so you are aware, both of those devices can be purchased from KCDA. Their price on the SPOT is a bit less than the School Health price.

Subject: RE: Puget Sound Nurse Leaders - vision screener proposal

Hi Everyone, We in Snohomish are making a presentation to administration about the purchase of a vision screener.

So it appears that we have 2 options to explore---the PLUSOPTIX and the SPOT. Does anyone have a chart comparing the 2 to make the decision clearer. Or, is there an obvious answer on the best one to go with?

I am looking in the MacGill catalogue and see the OPTEC 5500. It has various slides to purchase to customize it based on what is needed. The price appears to be \$2680.00. Does anyone know anything about this one?

Thanks for any input!!

There is this option that Tacoma SD has bought and I hope they bring to show us tomorrow (word is that it was cheaper around \$3000.00 – same idea and operation):

Subject: Puget Sound Nurse Leaders - vision screener proposal

Hi colleagues,

I am wondering if anyone has created a proposal for their administration for the SPOT vision screener. My boss is asking me for one, with pro and cons, and this is something I have never done before and I don't even know where/how to start. So I thought I would ask and see if anyone is willing to share what they might have put together.

Thank you in advance for any suggestions or information that you can share.
