Another recommendation is to clear the cache on the students' chromebook.

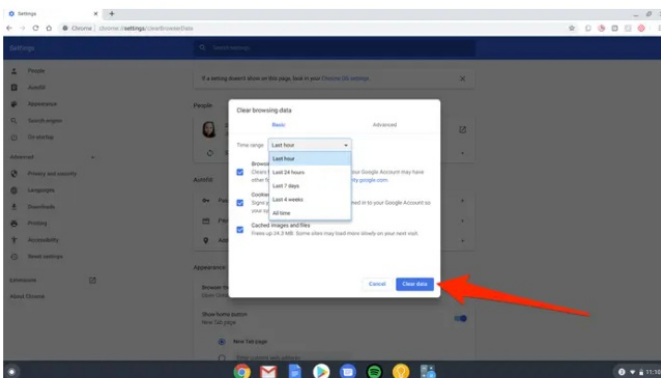

Chromebook

1. Open your Chrome browser.
2. Tap the three dots in the top-right corner of the screen, hover over "More Tools" and then select "Clear browsing data" (Alternatively: Hold down the CTRL, Shift, and Backspace keys simultaneously).

Click on Clear browsing data or use the shortcut. Devon Delfino/Business Insider

3. Select the time range from the dropdown menu at the top, and choose which (if any) parts of your data you don't want to clear (browsing history, cookies and other site data, and cached images and files) by unticking the box next to the corresponding selection.

Select the cache you'd like to delete and click Clear data. Devon Delfino/Business Insider

4. Click "Clear data."

If you toggle over to the "Advanced" section of the "Clear browsing data" window, you will also have the option to clear passwords and other sign-in data, autofill form data, site settings and hosted app data.

I will try an alternate browser and if not, I will do the paper MAZE. Thank you both for your help.

I was able to do several of the assessments with my students; however, when they log in for MAZE, it says they are not registered to any class.

I have gone into the Online Assessment management page through DIBELS and assigned the MAZE to them. I helped type their username and password, so now what should we do?
