- Information regarding these warrants is also available to Department personnel or other law enforcement agencies on a 24-hour basis via the Department's Communications Center and NYSPIN which includes a National Crime Information Center (NCIC) interface.
- 3. Information on the existence of active criminal warrants from other jurisdictions can be obtained by personnel on a 24-hour basis from the NYSPIN system.

B. Processing Procedures

- 1. The CLO will retrieve warrants issued by Geneva City Court on a daily basis. All other criminal warrants received by the Department by mail, fax, or other means will be forwarded to the CLO for processing.
- 2. Upon receipt the CLO will:
 - a. Enter the warrant information in the Digi-Torque Warrant Record System and note the Warrant Control Number generated by the Digi-Torque System on the warrant jacket. Personnel entering information into the Digi-Torque System will verify the information on the warrant and if records exist in the system. Any discrepancies (e.g., name, DOB, SSN, etc.) will be brought to the attention of an on-duty supervisor, and if necessary, City Court personnel, to ensure accurate information is provided to personnel serving the warrant(s).
 - b. Obtain the subject's file history from the Digi-Torque System, to include an address history, to be included in the Warrant Jacket.

3. NYSPIN File 5 Teletype Procedures

- a. A **File 5 teletype** will be sent through the NYSPIN system on all warrants processed by the Department, excluding minor Vehicle and Traffic warrants or where the subject lives locally within the City. If a warrant does not have sufficient information to complete a File 5 teletype message, the CLO will attempt to obtain the necessary information and may request assistance from other Department personnel in obtaining the required information.

4. Warrant Jacket Preparation

- a. Once all the necessary information has been entered into Digi-Torque and NYSPIN, and the necessary criminal history inquires have been run, the CLO will assemble a Warrant Jacket for service.
- b. The CLO will enter as much information as possible on the Warrant Jacket, including any officer safety warnings.
- c. The following documents will be included in the Warrant Jacket:
 - 1. original copy of the warrant, if available;
 - 2. a copy of the NYSPIN File 05 message;
 - 3. if the warrant is for continuation of proceedings, a copy of the original Arrest Report, if available;
 - 4. any available information indicating a safety risk or history of violence and/or weapons possession by the defendant
- 5. Once the Warrant Jacket has been prepared, it shall be filed with the other active warrants for service by the patrol force, unless otherwise directed. The CLO will prepare a list of all new warrants entered into the system to be posted with the warrant file in Communications.
- 6. Upon completion of the above duties the CLO will check all documents and computer entries to ensure accuracy of all information.

VI. WARRANTS TRANSFERRED TO OTHER AGENCIES

A. Transferring Warrants

1. The CLO will forward active warrants to other criminal justice agencies as necessary using the following procedures.

Note: If the CLO is not on duty and a warrant must be transferred to another agency for immediate service, an on-duty supervisor, or their designee, shall perform the duties as specified below.

- a. The CLO will obtain a copy of the accusatory instrument that underlies the warrant. The accusatory instrument will be attached to warrant should arraignment be necessary outside the City. (CPL § 120.90)
- b. The CLO will prepare a fax coversheet and obtain any other additional information that may be necessary for transmittal with the warrant.
- c. Once the warrant and additional information, if any, has been transferred, the CLO will enter the information on the Warrant Jacket and place copies of the information transferred in the Warrant Jacket.

VII. WARRANTS RECEIVED FROM OTHER AGENCIES

A. Warrant Received from Outside Agencies

3. General Considerations

- a. If the warrant(s) meet NYSPIN entry criteria, the forwarding agency will be requested to complete the necessary entries.
- b. If the warrant is for a Felony, it will not be accepted for service <u>unless</u> the appropriate NYSPIN/NCIC entries have been completed.

Note: In exigent circumstances involving a serious or violent offense, personnel may accept a warrant for service prior to NYSPIN entry. In such cases no attempts to serve the warrant will be made until the Department receives a copy of the warrant by fax or otherwise. Also, personnel must obtain the name, agency affiliation, and title of the official requesting service of the warrant and request that it be entered into NYSPIN as soon as possible.

- c. The warrant must have sufficient information (e.g., the name, race, physical description, DOB, last known address) to effectively execute the warrant, otherwise the warrant will not be accepted for service.
- d. If the minimum requirements are not met, the warrant will be returned to the forwarding agency immediately, with information regarding the reasons the warrant was returned.
- 4. The CLO will be responsible for obtaining the endorsement of a City Court Judge on warrants from within New York State, but outside Ontario County or the adjoining Counties. (CPL § 120.70)
- 5. The CLO will ensure that the warrant is addressed to a Police Officer of the Geneva Police Department on its face, or bears a delegation from a member of the forwarding agency prior to execution. (CPL § 120.60)
- 6. The CLO will be responsible for handling a warrant obtained under the provisions of CPL § 570.32, when the warrant is received from another State.
- 7. A diligent effort will be made to serve the warrant in a timely manner.
- 8. If the warrant cannot be executed within thirty (30) days, it shall be returned. The CLO will either call the originating agency, or return the warrant along with a letter, explaining the service efforts.

VIII. LEGAL REQUIREMENTS A. For guidance on the authority to enter a private premises to serve an arrest warrant, see G.O. 712 Warrantless Searches and Seizures, § IV. In the event a search warrant is needed to enter a private premises, officers should be guided by CPL, § 120.80-4. B. Pursuant to CPL Article 120 the following legal requirements apply to the execution of arrest warrants:

- 1. A warrant of arrest may be executed on any day of the week and at any hour of the day or night. CPL, § 120.80-1
- 2. Unless encountering physical resistance, flight or other factors rendering normal procedure impractical, the arresting police officer must inform the defendant that a warrant for his arrest for the offense designated therein has been issued. CPL, § 120.80-2.
- 3. If the officer is authorized to enter premises without giving notice of his authority and purpose, or if after giving such notice he is not admitted, he may enter such premises, and by a breaking if necessary. CPL, § 120.80-5.
- 4. Upon request of the defendant, the officer must show him the warrant if he has it in his possession. The officer need not have the warrant in his possession, and, if he has not, he must show it to the defendant upon request as soon after the arrest as possible. CPL, § 120.80-2.

Note: Officers are not required to have the warrant in their possession when serving the warrant and arresting the defendant. The defendant does have the right to see the warrant upon request but this may be done during the booking process.

5. Officers will familiarize themselves with and adhere to CPL Article 120, which contains legal requirements and procedures for arrest warrants.

IX. WARRANT EXECUTION

- A. The arrest of individuals for whom the Department holds an active warrant is the responsibility of <u>all</u> sworn personnel. Only sworn personnel will effect the arrest of wanted individuals.
- B. The patrol force has the primary responsibility for the physical execution of warrants held by the Department.
- C. Any information developed concerning an individual who is wanted, will be entered on the Warrant Jacket by the personnel obtaining the information. Officers will attempt to develop information on the wanted subject's location to facilitate the execution of the warrant(s).
- D. The on-duty supervisor(s) will normally assign warrants to officers for service. Individual officers may also attempt to serve warrants during their tour-of-duty.
- E Personnel assigned to serve, or attempting to serve, warrants will take the Warrant Jacket(s) or unprocessed warrant(s) with them.
 - 1. As service of the warrant is attempted, personnel will enter the attempt of service and any new information learned about the subject on the Warrant Jacket.

IX. WARRANT EXECUTION (CONT.)

If service of the warrant is not accomplished, the Warrant Jacket will be returned to
the appropriate file by the personnel who removed the file. UNDER NO
CIRCUMSTANCES WILL WARRANT JACKETS OR WARRANTS BE
LEFT IN ANY POLICE VEHICLE, PERSONAL BRIEFCASES, OR OTHER
AREA WITHIN THE DEPARTMENT.

X. APPREHENSION PROCEDURES

A. Warrant Checks

- When Department personnel encounter an individual they believe may be wanted by the Department or other law enforcement agency, they shall contact the Communication Center and request that a warrant check be completed for local records, NYSPIN/NCIC, or both.
- 2. If an active warrant is confirmed for a Department-held warrant, communications personnel will check the warrant file drawer to ensure that the warrant is still active, and that the actual warrant is available to be served. If the actual warrant cannot be located, or there is any discrepancy in information, do not arrest the individual.

Lt. Heieck,

Regarding the above CR, Sgt. Passalacqua, along with myself, were supervising the shift. We were both out of the office at the time of the incident. Prior to the shift starting for the day, we had assigned PO Grenier and PO Bielowicz to the Warrant detail. Both officers took several outstanding warrants from Dispatch and left in a marked Geneva unit.

At approximately 1622 hrs I heard the officers on the radio call out at with a "29" with a "29" check". I then heard them call "15-1" and that they would be heading to the PSB with her. Approximately 10 minutes later I received a call on my personal cell phone from PO Bielowicz. PO Bielowicz stated "We have a problem". When I inquired as to what happened he informed me that they arrested the wrong person. PO Bielowicz stated that they arrested a " and not "attacked by the second last the word and PO Bielowicz stated that when they brought the Court paperwork up to Dispatch " stated that the DOB on the paperwork was not hers. I immediately advised PO Bielowicz to unhandcuff and release her. I also advised PO Bielowicz to immediately transport back to her residence. PO Bielowicz stated that after observed the wrong DOB she stated that this was the second time she was arrested for this incident and she was contacting her attorney. I asked both PO Grenier and PO Bielowicz how they approached how she was arrested. I also asked as to what brought them to the when the address on the warrant was seemed. PO Bielowicz stated that he remembered assisting OCSD a speaking with a " "there. Both PO Grenier and PO Bielowicz stated that when they arrived at they observed they observed and asked her if she was " They stated that the female stated "yes" and they placed her under arrest. I then asked if either officer asked the female her DOB to confirm the warrant. Both officers stated that they did not ask for her DOB. They stated that they confirmed her name and placed her under arrest.

PO Bielowicz's regular scheduled days off were August 9th and 10th, and PO Grenier had taken those days off as well. On August 11th I instructed PO Bielowicz that he needed to complete an incident report regarding the above incident. PO Grenier was instructed to complete a Supplemental Report when he returned to work.

I am not sure who witnessed the incident but Dispatcher Mahoney was working as well as PO R. Peters.

Sincerely,

Sgt. Matthew J. Valenti

The Law Governing Arrest

- An arrest is a type of seizure and clearly is governed by the Fourth Amendment.
 - The right of the people to be secure in their persons, houses, papers and effects, against unreasonable searches and seizures, shall not be violated and no Warrants shall issue, but upon probable cause, supported by Oath or affirmation, and particularly describing the place to be searched and the persons or things to be seized. U.S. Const., Amend. 4 (italics added).

Types of Arrests	
Formal Arrest	·
 The basic elements necessary for a formal arrest are: A law enforcement officer's purpose or intention to take a person into the custody of the law The officer's exercise of real or pretended authority That the arrestee be taken into custody either by physical force or by submission to assertion of authority Understanding by the person to be arrested of the officer's intention to arrest 	
A seizure of a person that is substantially indistinguishable from a formal arrest is illegal unless it is supported by probable cause to believe that the person has committed or is committing a crime.	
3	

Authority to Arrest	
Arrests Pursuant to a Warrant Arrests made under the authority of a warrant have always been preferred. Arrest warrants protect officers in an important way. If a warrant is proper on its face and officers do not abuse their authority in obtaining or executing the warrant, they have qualified immunity against civil liability for damages, even though the warrant is later determined to be invalid.	
An <u>arrest warrant</u> is a written order to arrest a person, issued by a proper judicial authority on the basis of a sworn <u>complaint</u> (<u>affidavit</u>) charging the commission of a crime, supported by a statement of facts and circumstances establishing probable cause. • A <u>summons</u> is similar, except that it directs a person to appear in court rather than ordering the person's arrest.	

Warrantless Arrests

The Fourth Amendment permits warrantless arrests in a public place under certain circumstances. Generally, authority to arrest without a warrant depends on the difference between a <u>felony</u> and a <u>misdemeanor</u>.

FA	
	ANIAC
4	onies

In most jurisdictions, a law enforcement officer may make a warrantless public arrest for a felony if, at the time of arrest, the officer has probable cause to believe that a felony has been committed and that the person to be arrested is committing or has committed the felony.

Misdemeanors

- A warrantless arrest for a misdemeanor may be made only when the misdemeanor is committed in the officer's presence, unless otherwise provided by statute or state constitution.
 - All five senses may be used to satisfy the "in the officer's presence" requirement.
 - Certain devices that enhance the senses may also be used to meet this requirement.
 - The arrest should be made as without unnecessary delay.

Citizen's Arrests

- A private person may make a valid <u>citizen's</u> <u>arrest.</u>
 - · Must be based on probable cause.
 - A private citizen may use a reasonable degree of force in making the arrest.
 - Private citizens who are mistaken when they make a citizen's arrest may be civilly liable for damages.

Citizen's Arrest by Police Outside Jurisdictional Power

- Law enforcement officers outside their jurisdiction generally have the same authority as private citizens.
 - The officers may not use the powers of their office that are unavailable to private citizens when making a citizen's arrest.
 - The officers are subject to civil liability for their mistakes in the same way a private citizen would be.

Requirements for Arrest	
 Requirements are: A law enforcement officer's intention to take a person into the custody to answer for an alleged crime, under real or pretended authority, accompanied by detention or restraint of the person and an understanding by the person that an arrest is being made. Other aspects of making an arrest include notice, time of day, assistance, and discretion. Warrantless arrests are discretionary and should always be justified by the circumstances. 	
Provisions for all Arrests Unless there are extenuating circumstances, an officer arresting a person should give notice that the person is under arrest as well as notice of the officer's authority and the cause of arrest.	
Time of Day An arrest, with or without a warrant, may be made on any day of the week and at any time of the day or night, unless otherwise provided in the warrant or by statute.	

Entry	in	Dwel	lings

Absent exigent circumstances or consent, a law enforcement officer may not make a warrantless entry into a suspect's or third party's home to make a routine felony arrest.

Assistance

- " Law enforcement officers may request private citizens to aid them in making an arrest
 - When private citizens aid a known law enforcement officer, they have the same rights and privileges as the officer, including the right to use force and to enter property.
 - If a person aiding an officer acts in good faith, he or she is protected from liability even if the officer was acting illegally.

Discretion

When an arrest would create a great risk of public harm or would cause embarrassment to a person who poses no real threat to the community, proper police practice may call for delay or restraint in exercising the power of arrest.

Additional Procedures for Executing an Arrest Warrant

- Officers are simply required to carry out the command of the warrant. The only questions of concern are:
 - Whether the person to be arrested is the person identified in the warrant, and
 - 2. Whether the warrant is valid on its face.
 - 3. Verification of Name & Date of Birth
 - Verification of Any other descriptors that tend to prove or disprove the identity of the person.

Determining the Facial Validity of a Warrant

- An arrest warrant is invalid on its face if one or more of the following are true:
 - · The court issuing it clearly has no jurisdiction.
 - · It fails to adequately indicate the crime charged.
 - It fails to name or describe any identifiable person.
 - · It is not signed by the issuing magistrate.
 - · It is not directed to the officer who is about to execute it.

Place of Execution

In general law enforcement officers have no authority to make warrantless arrests outside the geographic limits of the jurisdiction for which they have been elected or appointed.

Exigent Circumstances

- Courts have established several categories of exigent circumstances that have been held to authorize a law enforcement officer's warrantless entry into a home.
 - · A risk that evidence will be destroyed
 - · Hot pursuit of a fleeing felon
 - · A threat to the safety of a suspect or others
 - A likelihood that the suspect will flee and thereby escape

Manner of Execution

Absent extenuating circumstances, before law enforcement officers may lawfully force their way into a dwelling to arrest someone inside, they should first knock on the door, announce their authority and purpose, and then demand admittance and be refused admittance.

Returning the Warrant

An officer executing an arrest warrant must make a return of the warrant. The return is made by entering on the warrant the date of the arrest, signing the warrant, and filing the warrant with the court. Failure to return an arrest warrant may invalidate the arrest and subject the officer to civil liability for damages.

Place of Arrest

- Law enforcement officers may arrest outside their jurisdiction in "fresh pursuit."
 - Fresh pursuit means an officer's immediate and continuously maintained pursuit of a criminal suspect into another jurisdiction after the officer has attempted to arrest the person in the officer's own jurisdiction.

Use of Force

The basic rule covering the use of force while making an arrest is that law enforcement personnel may use whatever force is necessary to make the arrest, but may not use excessive force.

Deadly Force

- Deadly force may only be used by law enforcement officers:
 - · In defense of their own lives
 - · In defense of the lives of others
 - To stop the escape of a fleeing suspect if there is probable cause to believe that the suspect has committed a crime involving the infliction or threatened infliction of serious physical harm.

_	_	_	-	

Excessive Force under the Fourth Amendment

" Use of force is judged under the totality of the circumstances under *Graham's* balancing test.

After Making an Arrest

Booking

- Booking is a police administrative procedure officially recording an arrest in a police register.
 - Booking involves recording the name of the person arrested; the name of the officer making the arrest; and the time of, place of, circumstances of, and reason for the arrest.
 - Booking may include a search of the arrested person, fingerprinting, photographing, a lineup, or other identification procedures.
 - The arrested person may be temporarily detained in a jail or lockup until release on bail can be arranged.

Initial Appearance

- After arresting a person, with or without a warrant, a law enforcement officer must take the person before a magistrate or deliver the person according to the mandate of the warrant.
 - Statutes in different jurisdictions require that this be done promptly, within 48 hours, using terms such as immediately, without unnecessary delay, forthwith, within a specified time period, or other similar language.

Safety Considerations

- A law enforcement officer may monitor the movements of an arrested person, as judgment dictates, to ensure the officer's safety and the arrest's integrity.
 - Once a person is lawfully arrested and in custody, police may search the person and any containers or items in his or her possession (<u>inventory searches</u>)
 - An arrested person may be subjected to various identification and examination procedures. Reasonable force may be used for these purposes.

Effect of an Illegal Arrest

Jurisdiction and Evidence

- Jurisdiction to try a person for a crime is not affected by an illegal arrest.
- In general evidence that is obtained by exploitation of an illegal arrest and is a product of that arrest will be inadmissible in court in a prosecution against the person arrested.
